The information in this prospectus supplement replaces and supersedes the information set forth under the heading "Selling security holders" and the "Plan of distribution" in the prospectus dated September 19, 2006.

See "Risk factors" beginning on page 5 of the prospectus for a discussion of certain risks that you should consider in connection with an investment in the notes.

Selling security holders

On June 26, 2006, we issued and sold a total of \$287,500,000 aggregate principal amount of the notes in a private placement to certain initial purchasers. The initial purchasers have advised us that they resold the notes in transactions exempt from the registration requirements of the Securities Act of 1933, as amended, to qualified institutional buyers (as defined in Rule 144A under the Securities Act) in compliance with Rule 144A. The selling security holders, which term includes their transferees, pledgees, donees and successors, may from time to time offer and sell pursuant to this prospectus any and all of the notes and the shares of our common stock issuable upon conversion of the notes. The notes and our shares of common stock to be issued upon conversion of the notes are being registered pursuant to a registration rights agreement between us and the initial purchasers. In that agreement, we undertook to file a registration statement with regard to the notes and our shares of common stock issuable upon conversion of the notes and, subject to certain exceptions, to keep that registration statement effective until the date there are no longer any registrable securities. See Description of notes Registration rights. The registration statement to which this prospectus relates is intended to satisfy our obligations under that agreement.

The selling security holders named below have advised us that they currently intend to sell the notes and our shares of common stock set forth below pursuant to this prospectus. Additional selling security holders may choose to sell notes and our shares of common stock from time to time upon notice to us. None of the selling security holders named below has, within the past three years, held any position, office or other material relationship with us or any of our predecessors or affiliates.

Unless the securities were purchased pursuant to this registration statement, before a security holder not named below may use this prospectus in connection with an offering of securities, this prospectus will be amended or supplemented to include the name and amount of notes and common stock beneficially owned by the selling security holder and the amount of notes and common stock to be offered. Any amended or supplemented prospectus will also disclose whether any selling security holder selling in connection with that amended or supplemented prospectus has held any position, office or other material relationship with us or any of our predecessors or affiliates during the three years prior to the date of the amended prospectus.

The following table is based solely on information provided by the selling security holders. This information represents the most current information provided to us by selling security holders.

- (1) Because a selling security holder may sell all or a portion of the notes and common stock issuable upon conversion of the notes pursuant to this prospectus, an estimate cannot be given as to the

number or percentage of notes and common stock that the selling security holder will hold upon consummation of any sales. The information presented assumes that all of the selling security holders will fully convert the notes for cash and shares of our common stock and that the selling security holders will sell all shares of our common stock that they received pursuant to such conversion.

- (2) Includes shares of common stock issuable upon conversion of the notes and open short positions in our common stock.
- (3) The number of shares of our common stock issuable upon conversion of the notes is calculated assuming the conversion of the full amount of notes held by such holder at the initial conversion price of \$59.43, which equals a conversion rate of the initial conversion rate of

16.8267 shares per
\$1,000 principal
amount of the
notes. This
conversion price is
subject to
adjustment as
described under

Plan of distribution

The securities to be offered and sold using this prospectus supplement are being registered to permit public secondary trading of these securities by the selling security holders from time to time after the date of this prospectus supplement. We will not receive any of the proceeds from the sale by the selling security holders of the securities offered by this prospectus supplement. The aggregate proceeds to the selling security holders from the sale of the notes or the common stock issuable upon conversion of the notes will be the purchase price of the notes less any discounts and commissions. A selling security holder reserves the right to accept and, together with its agents, to reject, any proposed purchases of notes or common stock to be made directly or through agents.

The notes and the common stock issuable upon conversion of the notes may be sold from time to time to purchasers directly by the selling security holders and their successors, which includes their transferees, pledgees or donees or their successors, or through underwriters, broker-dealers or agents who may receive compensation in the form of discounts, concessions or commissions from the selling security holders or the purchasers of the notes and the common stock issuable upon conversion of the notes. These discounts, concessions or commissions may be in excess of those customary in the types of transactions involved.

The selling security holders and any underwriters, broker-dealers or agents who participate in the distribution of the notes and the common stock issuable upon conversion of the notes may be underwriters within the meaning of the Securities Act of 1933, as amended, or the Securities Act. To the extent any of the selling security holders are broker-dealers, they are, under the interpretation of the SEC, underwriters within the meaning of the Securities Act.
