NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2003 AND 2002**

NOTE 1- ORGANIZATION AND BASIS OF PRESENTATION

The condensed consolidated unaudited interim financial statements included herein have been prepared, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. The condensed consolidated financial statements and notes are presented as permitted on Form 10-QSB and do not contain information included in the Company's annual financial statements and notes. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading. It is suggested that these condensed consolidated financial statements be read in conjunction with the March 31, 2003 audited financial statements and the accompanying notes thereto. While management believes the procedures followed in preparing these condensed consolidated financial statements are reasonable, the accuracy of the amounts are in some respects dependent upon the facts that will exist, and procedures that will be accomplished by the Company later in the year.

These condensed consolidated unaudited financial statements reflect all adjustments, including normal recurring adjustments which, in the opinion of management, are necessary to present fairly the consolidated operations and cash flows for the periods presented.

Mobilepro Corp formerly Craftclick.com, Inc. was incorporated under the laws of the State of California in January 1999, as BuyIT.com, Inc. ("Buyit"). From inception through March 31, 1999, the Company engaged in preliminary activities related to the set up of an Internet auction business. On April 16, 1999, the Company entered into an Agreement and Plan of Reorganization ("Plan") with Tecon, Inc. ("Tecon"), a Utah corporation, wherein all of the outstanding shares and subscriptions of BuyIt were exchanged for 8,500,000 shares (for the outstanding shares of common stock of Tecon), and 245,997 shares (for the outstanding subscriptions) of common stock of Tecon. At the conclusion of all the transactions contemplated in the Plan, BuyIT shareholders and subscribers owned 8,745,997 shares of total outstanding shares of 12,179,249, or 71.9%, the survivor in the aforementioned combination was Tecon. However, the name of the surviving company was changed to BuyIt.com, Inc., simultaneously with the Plan. The combination of these two entities had been accounted for as a purchase. The Company changed its name to Craftclick.com, Inc., on January 4, 2000, as a result of changing its business strategy and focus-which was to become the premier destination for buyers and sellers of arts and crafts products and supplies through the use of Internet websites. However, the Company disposed of substantially all assets in February of 2001 when secured creditors foreclosed on loans to the Company.

NOTE 1- ORGANIZATION AND BASIS OF PRESENTATION (CONTINUED)

In April 2001, Craftclick.com, Inc. reorganized pursuant to a Plan of Merger wherein its domicile was changed from Utah to Delaware, and the common stock was reverse split on the basis of 1 new share for every 100 shares outstanding.

On June 6, 2001, Craftclick.com, Inc. merged with Mobilepro Corp. a Delaware corporation as of June 1, 2001. Under the merger agreement, Mobilepro Corp merged into Craftclick.com, Inc. with Craftclick being the surviving corporation and the Certificate of Incorporation and By Laws of Craftclick being the constituent documents of the surviving corporation.

In July 2001, the Company changed its name to Mobilepro Corp.

On March 21, 2002, Mobilepro entered into an Agreement and Plan of Merger with NeoReach, Inc., a private Delaware company pursuant to which a newly-formed wholly-owned subsidiary of Mobilepro merged into NeoReach in a tax-free transaction. NeoReach is a development stage company designing modem solutions to support third generation (3G) wireless communications systems. The merger was consummated on April 23, 2002. As a result of the merger, NeoReach is now a wholly-owned subsidiary of Mobilepro. On April 23, 2002, the company issued 12,352,129 shares of its common stock pursuant to the Agreement. This was a cashless transaction and there were no payments or finder's fees involved. The Board of Directors determined the consideration to be a fair compensation to the NeoReach shareholders. The issuance of the shares were valued at a fair value of \$6,546,628, based on the last trading price of \$0.53 and assuming there was actual active trading of the stock at that time.

On March 12, 2003, the Company amended its Articles of Incorporation and pursuant to a board resolution, increased the authorized level of common stock from 50,000,000 to 600,000,000. In addition, the Company increased the shares authorized under its 2001 Equity Performance Plan from 1,000,000 to 6,000,000.

NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

The condensed consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. All significant inter-company accounts and transactions have been eliminated in consolidation.

Development Stage Company

As of December 31, 2003, Mobilepro Corp and its subsidiary are development stage companies. Since April 23, 2002, the Company has devoted substantially all of its efforts to researching and developing technology for the third generation wireless market. Before the acquisition of NeoReach, Inc., Mobilepro Corp focused on the integration and marketing of complete mobile information solutions to the business market through strategic partnership with established firms already delivering information technology consulting, wireless service and vertical market application products and services. The Company in January 2004 acquired a national internet service provider in Texas, and expects to emerge from the development stage in its last fiscal quarter of its year ending March 31, 2004.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company considers all highly liquid debt instruments and other short- term investments with an initial maturity of three months or less to be cash or cash equivalents.

The Company maintains cash and cash equivalents with a financial institution that periodically exceed the limit of insurability under Federal Deposit Insurance Corporation. At December 31, 2003, the cash balance exceeded the insured limits by \$708,782.

NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue Recognition

The Company was a development stage company and had no revenues during the period reported. For the period going forward, the Management has adopted a new revenue policy as defined below.

The Company will recognize revenue both from sales of products and from service contracts. Revenue from product sales that contain embedded software will be recognized in accordance with the provisions of the American Institute of Certified Public Accountants Statement of Position 97-2, Software Revenue Recognition.

Revenue from product sales will be recognized based on the type of sale transactions as follows:

Shipments to Credit-Worthy Customers with No Portion of the Collection Dependent on Any Future Event: Revenues will be recorded at the time of shipment.

Shipments to a Customer without Established Credit: These transactions are primarily shipments to customers who are in the process of obtaining financing and to whom the Company has granted extended payment terms. Revenues will be deferred (not recognized) and no receivable will be recorded until a significant portion of the sales price is received in cash.

Shipments where a portion of the Revenue is Dependent Upon Some Future Event: These consist primarily of transactions involving value-added resellers (VAR) to an end user. Under these agreements, revenues will be deferred and no receivable will be recorded until a significant portion of the sales price is received in cash. On certain transactions, a portion of the payment is contingent upon installation or customer acceptance.

Upon non-acceptance, the Customer may have a right to return the product. The Company will not recognize revenue on these transactions until these contingencies have lapsed.

Certain of the Company's product sales are sold with maintenance/service contracts. The Company will allocate revenues to such maintenance/service contracts based on vendor-specific objective evidence of fair value as determined by the Company's renewal rates. Revenue from maintenance/service contracts will be deferred and recognized ratably over the period covered by the contract.

NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income Taxes

Effective July 14, 2000, the Company adopted the provisions of Statement of Financial Accounting Standards No. 109 (the Statement), Accounting for Income Taxes. The Statement requires an asset and liability approach for financial accounting and reporting for income taxes, and the recognition of deferred tax assets and liabilities for the temporary differences between the financial reporting bases and tax bases of the Company's assets and liabilities at enacted tax rates expected to be in effect when such amounts are realized or settled. The cumulative effect of this change in accounting for income taxes as of December 31, 2003 is \$0 due to the valuation allowance established.

Fair Value of Financial Instruments

The carrying amounts reported in the consolidated balance sheet for cash and cash equivalents, and accounts payable approximate fair value because of the immediate or short-term maturity of these financial instruments.

Advertising Costs

The Company expenses the costs associated with advertising as incurred. Advertising and promotional expenses were approximately \$24,480 and \$2,430 for the nine months ended December 31, 2003 and 2002, respectively.

Furniture and Equipment

Furniture and equipment are stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the assets.

When assets are retired or otherwise disposed of, the costs and related accumulated depreciation are removed from the accounts, and any resulting gain or loss is recognized in income for the period. The cost of maintenance and repairs is charged to income as incurred; significant renewals and betterments are capitalized. Deduction is made for retirements resulting from renewals or betterments.

There was \$10,941 and \$12,000 charged to operations for depreciation expense for the nine months ended December 31, 2003 and 2002, respectively. The Company acquired \$51,821 of net fixed assets from NeoReach, Inc. in its acquisition of its subsidiary.

NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**Reclassifications**

Certain amounts in the December 31, 2002 financial statements were reclassified to conform to the December 31, 2003 presentation.

Earnings (Loss) Per Share of Common Stock

Historical net income (loss) per common share is computed using the weighted average number of common shares outstanding. Diluted earnings per share (EPS) includes additional dilution from common stock equivalents, such as stock issuable pursuant to the exercise of stock options and warrants. Common stock equivalents were not included in the computation of diluted earnings per share when the Company reported a loss because to do so would be antidilutive for periods presented.

The following is a reconciliation of the computation for basic and diluted EPS:

	December 31, 2003	December 31, 2002
Net loss	\$ (1,431,341)	\$ (2,220,189)
Weighted-average common shares Outstanding (Basic)	89,771,571	17,068,691
Weighted-average common stock Equivalents		
Stock options		
Warrants		
Weighted-average common shares Outstanding (Diluted)	89,771,571	17,068,691

Options and warrants outstanding to purchase stock were not included in the computation of diluted EPS for December 31, 2003 and 2002 because inclusion would have been antidilutive.

Recent Accounting Pronouncements

In June 1998, the Financial Accounting Standards Board issued SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities. SFAS No. 133 requires companies to recognize all derivative contracts as either assets or liabilities in the balance sheet and to measure them at fair value. If certain conditions are met, a derivative may be specifically designated as a hedge, the objective of which is to match the timing of the gain or loss recognition on the hedging derivative with the recognition of (i) the changes in fair value of the hedged asset or liability that are attributable to the hedged risk or (ii) the earnings effect of the hedged forecasted transaction. For a derivative not designated as a hedging instrument, the gain or loss is recognized in income in the period of change. On June 30, 1999, the FASB issued SFAS No. 137, Accounting for Derivative Instruments and Hedging Activities-Deferral of the Effective Date of FASB Statement No. 133. SFAS No. 133 as amended by SFAS No. 137 and 138 is effective for all fiscal quarters of fiscal years beginning after June 15, 2000.

Historically, the Company has not entered into derivatives contracts to hedge existing risks or for speculative purposes. Accordingly, the Company does not expect adoption of the new standard to have a material effect on the consolidated financial statements.

In December 1999, the Securities and Exchange Commission issued Staff Accounting Bulletin (SAB) No. 101, Revenue Recognition in Financial Statements. SAB 101 provides guidance for revenue recognition under certain circumstances, and is effective during the first quarter of fiscal year 2001. SAB 101 is not expected to have a material effect on the consolidated results of operations, financial position and cash flows.

On March 16, 2000, the Emerging Issues Task Force issued EITF 99-19 Recording Revenue as a Principal versus Net as an Agent which addresses the issue of how and when revenues should be recognized on a Gross of Net method as the title implies. The emerging Issues Task Force has not reached a consensus but sites SEC Staff Accounting Bulletin 101. EITF 99-19 does not affect the condensed consolidated financial statements.

On July 20, 2000, the Emerging Issues Task Force issued EITF 00-14 Accounting for Certain Sales Incentives which established accounting and reporting requirements for sales incentives such as discounts, coupons, rebates and free products or services. Generally, reductions in or refunds of a selling price should be classified as a reduction in revenue. For SEC registrants, the implementation date is the beginning of the fourth quarter after the registrant's fiscal year end December 15, 1999. Mobilepro and NeoReach, Inc. were on December 31, 2002 served with three complaints in the United States District Court for the District of Maryland in three separate actions seeking relief for failure to pay wages and breach of contract. The three plaintiffs are in the three separate actions seeking relief of approximately \$59,334.67, \$65,383.34 and \$60,750.00, respectively. The three plaintiffs are former employees and all were employed as Senior or Principal Engineers since September 2001, June 2000 and August 2001, respectively. Mobilepro has negotiated settlements with the three former employees with respect to the claims. The Company settled these claims and obtained full releases in October 2003, dismissing the complaints. The Company has been paying down amounts in compliance with the settlement agreement and as of December 31, 2003, there remains \$29,302 outstanding on the settled amounts, which have been paid in January 2004. Any amounts that the Company was able to settle representing savings to the Company have been included in additional paid in capital as an equity contribution.

Mr. Scott R. Smith, a former executive of NeoReach, Inc. filed a formal complaint against the Company on January 10, 2003 with the State of Illinois, Department of Labor for a claim for unpaid wages. The former executive claimed a total of \$97,335 for unpaid wages from February 2002 through August 2002. Business History

Mobilepro is a development stage company and currently trades on the Bulletin Board under the stock symbol "MOBL". The following is a brief history of the Company.

Mobilepro was incorporated on July 14, 2000 and was focused on the integration and marketing of complete mobile information solutions that satisfy the needs of mobile professionals.

The Company with which Mobilepro merged in June of 2001 was first organized in June 1988 as Bud Corp. Bud Corp. changed its name to Tecon, Inc. in July 1992, then to Buyit.com, Inc. in May 1999 and finally to CraftClick.com, Inc. on January 4, 2000. CraftClick's business strategy and focus was to become the premier destination for buyers and sellers of arts and crafts products and supplies through the use of Internet websites. Due to the lack of adequate funding and the lack of generating enough Internet traffic to achieve profitability, CraftClick began to cease business operations in October 2000. CraftClick subsequently disposed of substantially all of its assets in February 2001 when secured creditors foreclosed on outstanding loans made to CraftClick.

In April 2001, CraftClick reorganized pursuant to a Plan of Merger wherein its domicile was changed from Utah to Delaware, and the common stock was subject to a reverse split on the basis of 1 new share for every 100 shares outstanding. On June 6, 2001, CraftClick and Mobilepro entered into an Agreement and Plan of Merger dated June 1, 2001 ("CraftClick Merger Agreement"). Under the CraftClick Merger Agreement, Mobilepro merged with and into CraftClick, with CraftClick being the surviving corporation. On July 9, 2001, the name of the surviving corporation was changed to Mobilepro Corp.

On November 19, 2001, Mobilepro implemented a 200 for 1 reverse stock split of its Common Stock. There were no fractional shares issued. Concurrent with the reverse stock split, Mobilepro issued 3,000,000 new shares of Common Stock to Dungavel, Inc., pursuant to an Investor Rights Agreement, which the Company entered into with Dungavel on June 1, 2001 as part of the merger with CraftClick.

On February 19, 2002, the Company entered into a Stock Purchase Agreement with Mr. Daniel Lozinsky and ZDG Investments, Ltd. and another Stock Purchase Agreement with Mr. Daniel Lozinsky, Ms. Joann Smith and Mr. Scott Smith. ZDG Investments Ltd., Ms. Joann Smith and Mr. Scott Smith were all significant stockholders of the Company at the time. Pursuant to these two stock purchase agreements, Mr. Lozinsky acquired an aggregate of

Edgar Filing: MOBILEPRO CORP - Form 10QSB

2,057,733 shares of Mobilepro Common Stock, representing approximately 64.7% of the Company's voting securities at that time. On February 28, 2002, Mr. Scott Smith resigned as the President, CEO and Chairman of the Company, and Mr. Lozinsky became the President and CEO of the Company. On May 10, 2002, Mr. Arne Dunhem became the Company's President, CEO and Chairman and Mr. Lozinsky became our Senior Vice President. In December 2003, Mr. Arne Dunhem resigned as President, CEO and Chairman of the Company, and Mr. Jay Wright became the President and CEO of the Company.

On March 21, 2002, Mobilepro entered into an Agreement and Plan of Merger with NeoReach, Inc., a private Delaware company, pursuant to which a newly formed, wholly-owned subsidiary of Mobilepro merged into NeoReach in a tax-free transaction. NeoReach is a development stage company designing modem solutions to support third generation (3G) wireless communications systems. The merger was consummated on April 23, 2002. As a result of the merger, NeoReach is now a wholly-owned subsidiary of Mobilepro. On April 23, 2002, the Company issued 12,352,129 shares of its common stock in a one-for-one tax-free stock exchange to the holders of NeoReach's common stock pursuant to the Agreement. This was a cash-less transaction and there were no payments or finder's fees involved. The Board of Directors determined the consideration to be a fair compensation to the NeoReach shareholders. The issuance of the shares were valued at a fair value of \$ 6,546,628, based on the last trading price of \$0.53 and assuming there was actual active trading of our stock at that time. The valuation of NeoReach in the merger agreement was based on several factors, as described in the table below excluding intangible assets and goodwill, including that over thirty-three man-years of development efforts had been accumulated for achieving the prototype third generation modem boards for the base station applications, that a management team and engineering team were in place, that office and laboratory facilities were in place, that six patents had been filed or were already approved, and that contacts and relationships had already been established with potential customers both in the United States and Korea. The value of intangible assets and goodwill, such as contacts, relationships and potential customers, has not been included in the table below since it is difficult to estimate a real value on these items. The transaction was concluded following arms-length negotiations. The Company believes the issuance of the stock to be exempt from registration under Section 4(2) of the Securities Act. The related parties from both the Company and NeoReach were Messrs. Daniel Lozinsky, Arne Dunhem, Scott Smith and Ken Min. Mr. Daniel Lozinsky who was a controlling stockholder of Mobilepro also owned approximately 32.5% of NeoReach.

Business Strategy

We are pursuing both acquisitions and strategic alliances to leverage our wireless technology and intellectual property assets. Our objectives are to create high margin revenues and shareholder value, expand our reach in the global market for integrated wireless and wireline solutions and position the Company to play a more visible role in providing next generation communications products, services and technologies.

We are making progress in developing new accretive acquisitions and alliances which we believe will help us meet our growth objectives. On December 24, 2003, we announced in a press release that we signed a letter of intent with DFW Internet, Inc., a Texas based internet services provider. DFW Internet, Inc. generated approximately \$800,000 (unaudited) in 2003 revenue and was profitable on an unaudited basis. This transaction closed on January 20, 2004.

On January 29, 2004, we announced in a press release that we signed a letter of intent to acquire Internet Express, an Internet services provider based in Beaumont, Texas, which is expected to add nearly \$1.0 million in revenue and be accretive to our 2004 earnings. The completion of the transaction is subject to the signing of definitive agreements and customary closing conditions. The terms of the transaction were not disclosed.

We also announced several recent strategic alliances which are consistent with our current business strategy and business development objectives. On February 4, 2004, we announced a strategic alliance with NetWolves Corporation (Nasdaq: WOLV) whereby we would resell selected Netwolves' products and services including managed services and we would provision bandwidth, with particular emphasis on the government and defense market sectors. On January 26, 2004, we announced a strategic alliance with Global Defense Corporation to focus directly on developing new business and revenue opportunities within the global defense and homeland security market sectors.

In December 2003, we announced the formation of a senior level Advisory Board to assist us in developing new business opportunities, identifying potential alliance partners and providing counsel on new industry developments and market trends and their potential implications for the Company.

To directly capitalize on our core wireless technology assets, we are pursuing a two-pronged plan. First, we are seeking alliance partners to leverage our five patents that cover existing wireless antenna intellectual property. Second, we are moving forward as quickly as possible with a planned Zigbee chip development which we will seek to commercialize on a cost-effective basis. Zigbee represents the next generation of standards-based, reliable, ultra low power, scalable and secure communications specifically designed to support a wide range of new applications in the areas of home automation, monitoring and remote control systems, data telemetry, toys and selected wireless security applications. We are a member of the Zigbee alliance that represents industry players seeking to develop standards and applications for the new Zigbee technology. We also have an existing relationship with the RF Microelectronics Laboratory of the Information and Communications University of the Republic of Korea to cooperate in selected wireless research projects. We are working with the RF Microelectronics Laboratory to support the development of a planned Zigbee chip.

We are a development stage company, and we can give no assurances that we will be able to accomplish these goals, generate sufficient revenues to be profitable, obtain adequate capital funding or continue as a going concern. Our independent auditors have issued a going-concern opinion for the years ended March 31, 2003, March 31, 2002, and March 31, 2001 (See Financial Statements and Supplementary Data). In January 2004, following our business strategy, we acquired a national internet service provider in Texas and expect to emerge from the development stage in the fiscal quarter ending March 31, 2004.

Financial Condition and Changes in Financial Condition

Overall Operating Results:

We had no revenues for the quarter ended December 31, 2003.

Our operating expenses for the three months ended December 31, 2003 were \$573,000, a \$401,231 increase when compared to \$171,769 for the three months ended December 31, 2002. For the nine months ended December 31, 2003 total operating expenses were \$1,210,809. This compares with \$2.171 million for the nine-month period ended December 31, 2002. Our primary expense for the three months and nine-month periods ended December 31, 2003 was for Professional fees and compensation expenses of \$458,784 and \$965,306 respectively. This compares to \$157,547 and \$2.028 million for the three and nine-month periods ended December 31, 2002. Of this amount, common stock issuances valuing \$76,444 and \$690,606 for the nine months ended December 31, 2003 and 2002, respectively, in lieu of cash were issued in connection with consulting fees and expenses for services rendered.

As of December 31, 2003 the Company had \$742,861 in cash compared to \$1,453 as of December 31, 2002. The cash is a result of an equity line arrangement with Cornell Capital Partners, dated February 6, 2003. As of December 31, 2003, accounts payable and accrued liabilities were reduced by \$590,074 through management's ongoing negotiation with the Company's vendors. Of this amount \$374,616 is included in equity as a direct result of the settlements.

Operating Losses

Our net operating loss for the three-month period ended December 31, 2003 was \$637,053, a \$464,062 increase when compared to \$172,991 for the three months ended December 31, 2002. The loss for the nine-month period

Edgar Filing: MOBILEPRO CORP - Form 10QSB

ended December 31, 2003 was \$1,431,341 compared to \$2,220,189 as of December 31, 2002. These losses were incurred primarily as a result of the aforementioned incurred expenses.

As of December 31, 2003 the Company has accumulated \$15,110,325 in operating losses that may, on a limited basis, be offset against future taxable income. There are limitations on the amount of net operating loss carryforwards that can be used due to the change in the control of the management of the Company. No tax benefit has been reported in the financial statements, because as of December 31, 2003, we believe there is a 50% or greater chance the carryforwards will expire unused. Accordingly, the potential tax benefits of the loss carryforwards is offset by a valuation allowance of the same amount.

Liquidity and Capital Resources:

As of December 31, 2003, we had a total Stockholders' Deficit of \$1.320 million compared to \$2.110 million as of March 31, 2003. As of December 31, 2003, the Company did not have any revenues, liquidity or capital resources as we move forward with our business plan and our independent auditors have issued an audit opinion as of March 31, 2003 that raises substantial doubt as to our ability to continue as a going concern. We will need additional financing in order to implement our business plan and continue business. The traditional markets for raising capital have become more difficult in the last two years due to a depressed demand for early-stage equity investments and large well-known business failures.

The Company will need additional financing and may use a private placement offering or debt financing to raise such additional funds, to be used for the following:

- Acquisitions of one or more companies

- Pay-down certain debt, such as a convertible debenture from Cornell Capital. We intend to pay-off debt owed to Mr. Daniel Lozinsky, a Director, and Mr. Arne Dunhem, a former officer and Director, during 2004

- Investment in laboratory facilities including test and simulation equipment

- Acquisition or licensing of certain intellectual property related to the development of modems and communications semiconductor and component technology

- General working capital purposes

We are looking at additional sources for financing but we cannot give any assurances that we will be able to secure any financing.

On October 16, 2002, the Company entered into an equity line of credit arrangement (the "Equity Line") with Cornell Capital Partners, LP ("Cornell"). This agreement was in turn terminated on February 6, 2003 and re-entered the same day February 6, 2003. The Equity Line provides, generally, that Cornell will purchase up to \$10 million of Common Stock over a two-year period, with the timing and amount of such purchases, if any, at the Company's discretion. Any shares of Common Stock sold under the Equity Line will be priced at a 9% discount to the lowest closing bid price of the Common Stock during the five-day period following the Company's notification to Cornell that it is drawing down on the Equity Line. The Company is not permitted to draw down more than \$450,000 in any 30-day calendar period. In addition, there are certain other conditions applicable to the Company's ability to draw down on the Equity Line including the filing and effectiveness of a registration statement registering the resale of all shares of Common Stock that may be issued to Cornell under the Equity Line and the Company's adherence with certain covenants. At the time of each draw down, the Company is obligated to pay Cornell a fee equal to three percent of the amount of each draw down.

Employees

We currently employ two people and three consultants, including Mr. Jay O. Wright our President and Chief Executive Officer. We anticipate that we will need additional people to fill administrative, sales and technical positions if we are successful in raising the capital to implement our business plan.

New Accounting Pronouncements

We have adopted FASB Statement 128. It is not expected that we will be impacted by other recently issued standards. FASB Statement 128 presents new standards for computing and presenting earnings per share (EPS). The Statement is effective for financial statements for both interim and annual periods ending after December 15, 1997.

FASB Statement 131 presents new standards for disclosures about segment reporting. We do not believe that this accounting standard applies to us as all of our operations are integrated for financial reporting and decision-making purposes. However, with the acquisition of DFW Internet, Inc., we will likely need to utilize segment reporting in the future.

Inflation

The Company's results of operations have not been affected by inflation and management does not expect inflation to have a significant effect on its operations in the future.

Recent Events

In December 2003 Mr. Jay O. Wright became our President and Chief Executive Officer. Mr. Wright is employed for four months under the terms of his Executive Employment Agreement with the Company. We are negotiating with Mr. Wright an extension of his Executive Employment Agreement.

In January 2004, we acquired DFW Internet, Inc., a national internet service provider based in Texas. This company offers complete broadband and dialup internet access for individuals and businesses with a full range of connections including DSL, Dialup, T1 and T3 as well as hosting and collection services. They provide internet service in over 30 states and concentrates on offering technical assistance with strong customer support and infrastructure.

On September 8, 2003, the Company announced in a press release that the company had signed a memorandum of understanding for a joint ZigBee integrated circuit development project with a major Korean research laboratory, the RF Microelectronics Laboratory (RFME Lab), which is associated with the Information and Communications University in Daejeon, South Korea. The non-binding agreement calls for a joint development effort toward developing integrated circuits for radio frequency (RF) transceivers of the ZigBee standard. The integrated circuits will be fabricated in complementary metal oxide silicon (CMOS) processes. The RFME Lab has over the years proven to be a leading design center for highly advanced and sophisticated radio technologies miniaturized on semiconductor chips.

On September 9, 2003, the Company announced in a press release that it entered into a memorandum of understanding with Constellation Networks Corporation (CNC), a telecommunications transmission and distribution company headquartered in Traverse City, Michigan, under which it intends to acquire CNC. Terms of the transaction include both stock and cash to fund expansion of CNC's existing international satellite and fiber network. The projected closing date for the transaction was announced to be September 19, 2003. On September 19, 2003 it was subsequently announced that the transaction was delayed due to the need for due diligence and the negotiation of the final detailed terms of the agreement. CNC provides end-to-end global connectivity for the transport of voice, video, Internet, voice over IP and data. CNC uses multiple technology platforms to deliver its services and allow its clients the most flexibility possible. CNC maintains point of presence in New York City, NY and Malmo, Sweden. In January 2004, the Company announced that it was no longer pursuing the Constellation transaction.

On September 19, 2003, the Company also announced that negotiations to acquire GBH Telecom, Inc. have been terminated due to inability of both parties to agree on substantive terms of the transaction.

On September 17, 2003, the Company announced in a press release that the company had signed a strategic cooperation agreement with Seoul-based Axstone Co., Ltd., a leading South Korean wireless technology company. The memorandum of understanding with Axstone calls for a joint development program to include marketing and sales of various wireless solutions including systems and subsystems for CDMA and W-CDMA wireless standards. This includes solutions for third generation wireless networks.

Based on that evaluation, the Company's management, including the Chief Executive Officer and the principal financial officer, concluded that the Company's disclosure controls and procedures were effective as of December 31, 2003. There have been no significant changes in the Company's internal controls or in other factors that could significantly affect internal controls subsequent to December 31, 2003.

As a result of the merger, NeoReach is now a wholly-owned subsidiary of Mobilepro.
