QUESTIONS AND ANSWERS

Q: WHY AM I RECEIVING THIS PROXY STATEMENT AND CARD?

A: The Board of Directors of Remington Oil and Gas Corporation is soliciting your proxy for the 2003 Annual Meeting of Stockholders and any adjournments or postponements thereof. The meeting will be held at 9:00 a.m. CDT on Tuesday, May 27, 2003, at the Park Cities Hilton, Dallas, Texas. This Proxy Statement and card are initially being provided to stockholders on or about April 24, 2003.

Q: WHAT AM I VOTING ON?

A: The election of seven directors who will constitute the Company's Board of Directors.

Q. WHO IS ENTITLED TO VOTE?

A: Stockholders as of the close of business on April 16, 2003. Each share of common stock is entitled to one vote. As of April 16, 2003, there were 26,459,991 shares of Remington common stock outstanding.

Q: HOW DO I GIVE VOTING INSTRUCTIONS?

A: You may attend the meeting and vote and give instructions in person or by mail. Instructions are on the proxy card. The persons named on the proxy card will vote all properly executed proxies that are delivered pursuant to this solicitation and not subsequently revoked in accordance with the instructions given by you.

Q: MAY I CHANGE MY VOTE?

A: Yes, you may revoke your proxy by submitting a subsequent proxy or by written request received by the Company's secretary before the meeting. The Company's executive offices are located at 8201 Preston Road, Suite 600, Dallas, Texas 75225-6211. The telephone number is (214) 210-2650.

Q: HOW DO I VOTE IF I HOLD MY STOCK THROUGH A BROKER, BANK OR OTHER NOMINEE?

A: Only stockholders of record as of April 16, 2003, are entitled to vote. If you hold your shares through a broker, bank, or other nominee, you hold your shares in "street name." You most likely will receive a request for voting instructions from the record holder through whom you hold your shares. Follow the instructions in such a request in order for the record holder to follow your voting wishes.

Q: WHAT DOES IT MEAN IF I GET MORE THAN ONE PROXY CARD?

A: You will receive a proxy card for each account that you have. Please vote proxies for all accounts to ensure that all your shares are voted.

Q: WHAT CONSTITUTES A QUORUM?

A: A majority of the outstanding shares of the Company must be represented at the meeting, whether in person or by proxy, for there to be a quorum for the meeting. For purposes of determining the existence of a quorum so that business may be conducted at the meeting, abstentions are counted as are properly executed proxies which withhold voting authority on any matter. Abstentions for purposes of tabulating the vote have the same effect as a vote against the proposal as does a proxy withholding voting authority.

Q: WHO PAYS THE EXPENSE OF SOLICITING PROXIES?

A: The Company pays the cost of soliciting proxies. The officers or other

Edgar Filing: REMINGTON OIL & GAS CORP - Form DEF 14A

employees of the Company may solicit proxies to have a larger representation at the meeting.

Q: ARE THERE ANY OTHER MATTERS WHICH MAY BE BROUGHT BEFORE THE MEETING?

A: The Board of Directors knows of no matters to be brought before the meeting other than the election of directors discussed in this Proxy Statement.

Q: DOES THE COMPANY HAVE A NOMINATING COMMITTEE CONSISTING OF ONLY INDEPENDENT DIRECTORS?

A: All five members of the Nominating and Corporate Governance Committee are independent.

Q: HOW IS THE COMPANY'S SLATE OF NOMINEES FOR DIRECTOR DETERMINED?

A: The Nominating and Corporate Governance Committee by a majority vote proposes a slate of directors to the full Board who must approve the slate by a majority vote in order for the slate to be presented at the Annual Meeting.

Q: WHY DOES THE SLATE OF DIRECTORS FOR THIS YEAR'S ANNUAL MEETING CONSIST OF ONLY SEVEN DIRECTORS?

A: Three current directors, David H. Hawk, James Arthur Lyle and Don D. Box are not standing for re-election. The new nominee for director is Robert P. Murphy, the Company's Chief Operating Officer.

1

QUESTIONS AND ANSWERS—CONTINUED

Q: HOW MANY INDEPENDENT DIRECTORS ARE THERE ON REMINGTON'S BOARD OF DIRECTORS?

A: At present our Board consists of nine members. Six members are independent, one member is considered affiliated with a major stockholder, and two members are officers of the Company. If the proposed slate of directors is elected, the Board will consist of seven members, five of whom are independent, and two of whom are officers of the Company.

Q: WHAT BOARD COMMITTEES ARE THERE AND HOW ARE THEIR MEMBERS AND CHAIRMEN SELECTED?

A: There are currently four standing committees of the Board: Audit, Compensation, Nominating and Corporate Governance, and Executive. The members of these committees and their chairmen are selected by a vote of the Board. All members of the Audit, Nominating and Corporate Governance, and Compensation committees must be independent directors.

Q: DO YOU INTEND TO INCREASE THE SIZE OF THE BOARD OF DIRECTORS BACK TO NINE MEMBERS?

A: Under our By-laws, the Board may fill vacancies on the Board, or the Nominating and Corporate Governance Committee can propose a slate of directors that results in an increase in the size of the Board. Board size is an issue to be studied as the Board considers appropriate.

INDEPENDENT PUBLIC ACCOUNTANTS

Edgar Filing: REMINGTON OIL & GAS CORP - Form DEF 14A

The Audit Committee of our Board of Directors has selected Ernst & Young LLP as our principal independent public accountants. Ernst & Young performed our audit for the fiscal year ended December 31, 2002. A representative of Ernst & Young is expected to be present at our Annual Meeting. The representative will have the opportunity to make a statement if so desired, and will be available to respond to appropriate questions.

On April 17, 2002, our Board of Directors, based on the recommendation of our Audit Committee, dismissed Arthur Andersen as our principal independent public accountants and selected Ernst & Young. Arthur Andersen had been our principal independent public accountants since 1996. There had been no disagreements with Arthur Andersen on any matter of accounting principles or practices, financial statement disclosure or auditing scopes or procedures during that period. Our principal independent public accountants' report on the financial statements for either of the past two years has not contained an adverse opinion or a disclaimer of opinion, and was not qualified or modified as to uncertainty, audit scope, or accounting principles. During our two most recent fiscal years prior to the engagement of Ernst & Young, we did not consult Ernst & Young with respect to the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on our consolidated financial statements, or any other matters or reportable events listed in Items 304(a)(2)(i) and (ii) of Regulation S-K.

FEES

For the fiscal year ended December 31, 2002, we incurred the following charges from Arthur Andersen in connection with their services:

Audit Fees -- \$24,000 for various review procedures in connection with the financial statements for the year ended December 31, 2001. No such fees to Arthur Andersen were incurred pertaining to fiscal year ended December 31, 2002;

Financial Information Systems Design and Implementation Fees -- None

All Other Fees -- \$20,625. This amount represents fees for work by Arthur Andersen relating to corporate taxes.

For the fiscal year ended December 31, 2002, we incurred the following charges from Ernst & Young in connection with their services:

Audit Fees -- \$120,000. This amount represents the aggregate fees to Ernst & Young for the independent audit of our financial statements and review of our interim financial statements for fiscal year ended December 31, 2002;

Financial Information Systems Design and Implementation Fees -- None

All Other Fees -- \$4,800. This amount represents fees for work by Ernst & Young relating to preparation of benefit plan annual reports.

AUDIT COMMITTEE REPORT

The Audit Committee, consisting solely of independent directors, submits the following report:

The Audit Committee of our Board of Directors consists of the three directors named below. Each member of the committee is an independent director as defined by the proposed New York Stock Exchange rules. In addition, our Board of Directors has determined that all three members are independent and Audit Committee Financial Experts as defined by Securities and Exchange Commission

Edgar Filing: REMINGTON OIL & GAS CORP - Form DEF 14A

rules. This year, our Board of Directors approved a revision of our Audit Committee Charter. The revised charter, which contains among other things the Audit Committee's key practices, is set forth in full below. During 2002 the Committee met six times.

On April 17, 2002, the Company dismissed Arthur Andersen as its independent public accountants and engaged Ernst & Young LLP to serve as the Company's independent public accountants for fiscal year 2002 (see the Company's Current Report on Form 8-K filed with the Securities and Exchange Commission on April 24, 2002).

In discharging its oversight responsibility as to the audit process, the Committee obtained from Ernst & Young a formal written statement describing all relationships between Ernst & Young and the Company that might bear on Ernst & Young's independence consistent with Independence Standards Board Standard No. 1, "Independence Discussions with Audit Committees;" discussed with Ernst & Young any relationships that may affect their objectivity and independence, including the compatibility of non-audit services with Ernst & Young's independence; and satisfied itself as to Ernst & Young's independence. The Committee also discussed with management and Ernst & Young the quality and adequacy of the Company's internal controls.

The Committee discussed and reviewed with Ernst & Young all communications required by generally accepted auditing standards, including those described in Statement on Auditing Standards No. 61, as amended, "Communication with Audit Committees," and discussed and reviewed the results of Ernst & Young's examination of the financial statements, including quarterly unaudited financial statements.

The Committee reviewed the audited financial statements of the Company for the year ended December 31, 2002, with management and Ernst & Young.

Based on the above-mentioned review and discussions with management and Ernst & Young, the Committee recommended to the Board that the Company's audited financial statements be included in its Annual Report on Form 10-K for the year ended December 31, 2002, for filing with the Securities and Exchange Commission.

STOCK OPTION PLANS

We have stock option plans for our employees and directors because we believe these options act as both an incentive and a reward for the long-term growth of our Company. The core of our stock option program is the 1997 stock option plan. Both directors and employees are eligible for options under this plan. Significant attributes of the 1997 plan include the following:

- Approved by the stockholders.
- Administered by the Compensation Committee of our Board of Directors.
- Subject to adjustments, up to 3,750,000 shares of our common stock may be issued under the plan.
- Up to 25% of issuable shares may be issued to any single individual.
- Both qualified incentive and non-qualified options may be issued.
- No options may be granted after December 4, 2007.

The importance of whether an option is granted as a qualified incentive option or a non-qualified option is mainly tax driven. If an option is an incentive option, the exercise price can be no less than the fair market value on the date of grant. Additional details concerning the 1997 stock option plan are contained in the plan itself. For a copy of the plan, call Investor Relations at (214) 210-2650.

the tenth year; and a dividend rate of zero. We made no adjustments for nontransferability or risk of forfeiture. Our use of this model does not constitute an endorsement or an acknowledgment that such model can accurately determine the value of options. No assurance can be given that the actual value, if any, realized by an executive upon the exercise of these options will approximate the estimated values calculated by using the Black-Scholes model.

CONTINGENT STOCK GRANTS

In 1999, the Board of Directors approved contingent awards of stock to employees and directors totaling 679,937 shares of our common stock. The number of shares awarded to each employee and director was based on the employee's annual base salary as of June 17, 1999, or in the case of non-employee directors, \$100,000, divided by \$4.19, which was the closing stock price on June 17, 1999. In order for the grant to become effective, our stock had to close above a trigger price of \$10.42 for 20 consecutive trading days within 5 years of the grant date. This trigger was achieved on January 24, 2001. Recipients of the grant must remain an employee or a director during the vesting schedules in order to receive the shares. Employees and directors individually elected one of two vesting periods. The first vesting schedule has 50% percent of the grant vesting on June 17, 2002, with an additional 25% vesting on June 17, 2003, and the final 25% vesting on June 17, 2004. 264,863 shares are subject to this vesting schedule. The second vesting option has 20% of the grant vesting on January 17, 2002, with an additional 20% vesting on each successive January 17 through 2006. 395,090 shares are subject to the second vesting schedule. While 679,937 shares of restricted stock were granted in 1999, as of April 15, 2003, 659,953 shares are subject to the grant because a director voluntarily surrendered 23,880 shares, a new employee was granted 6,535 shares, and an employee terminated, forfeiting

Edgar Filing: REMINGTON OIL & GAS CORP - Form DEF 14A

2,639 shares. The number of shares subject to the grant may decrease to the degree that participants fail to remain with us during the vesting period. In the event of a participant's death while employed or serving as a director with us, or reaching the retirement age of 65 or receiving long term disability benefits while employed with us, a grant becomes 100% vested. In addition, the grants can become 100% vested upon a change of control.

22

PENSION PLANS

Our defined benefit pension plans provide retirement and other benefits to eligible employees upon reaching the "normal retirement age," which is age 65 or after 3 years of service (5 years if employment terminated prior to January 1, 2001), if later. Directors who are not also employees of the Company are not eligible to participate in the plans. Employees are eligible to participate on January 1 following the completion of six months of service or the attainment of age 20 1/2, if later. Additional provisions are made for early or late retirement, disability retirement and benefits to surviving spouses. At normal retirement age, an eligible employee will receive a monthly retirement income equal to 35% of his or her average monthly compensation during the three consecutive calendar years in the prior 10 years which provide the highest average compensation, plus 0.65% of such average compensation in excess of the amount shown in the Social Security Covered Compensation Table (as published annually by the Internal Revenue Service) multiplied by his or her years of service, limited to 35 years. If an employee terminates employment (other than by death or disability) before completion of three years of service (five years if employment terminated prior to January 1, 2001), no benefits are payable. If an employee terminates employment after three years of service (five years if employment terminated prior to January 1, 2001), the employee is entitled to all accrued benefits. The following table illustrates the annual pension for plan participants that retire at "normal retirement age" in 2002:

(1) As of December 31, 2002, the Internal Revenue Code does not allow qualified plan compensation to exceed \$200,000 or the benefit payable annually to exceed \$160,000. The Internal Revenue Service will adjust these limitations for inflation in future years. When the limitations are raised, the

Edgar Filing: REMINGTON OIL & GAS CORP - Form DEF 14A

compensation considered and the benefits payable under the pension plans will increase to the level of the new limitations or the amount otherwise payable under the pension plans, whichever amount is lower.

- (2) Subject to the above limitations, compensation in this table is generally equal to all of a participant's cash compensation paid in a fiscal year (the total of Salary, Bonus, and Other Annual Compensation in the Summary Compensation Table). Average compensation in this table is the average of a plan participant's compensation during the highest three consecutive years out of the prior 10 years.

- (4) The normal form of payment is a life annuity for a single participant or a 50% joint and survivor annuity for a married participant. Such benefits are not subject to a deduction for Social Security or other offset amounts.

CHANGE IN CONTROL ARRANGEMENTS AND EMPLOYMENT CONTRACTS

All of our full-time regular employees are covered by a severance plan that we adopted in 1997. Under this plan, if an employee is involuntarily terminated, as that term is defined in the plan, the employee will be entitled to a payment of between two months base pay and eighteen months base pay depending on the employee's job and years of service. If an employee voluntarily quits, is terminated for cause as defined in the plan, dies, leaves due to a disability for which benefits are payable, or the termination is expected to be of short duration, the employee is not eligible for payment under the plan. In addition, under certain circumstances, a change in control could cause immediate vesting and triggering of stock options and contingent stock grants. As of December 31, 2002, if the contingent stock grants were vested by a change in control, it would result in the issuance of a maximum aggregate of 447,192 shares to directors and employees.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION IN COMPENSATION DECISIONS

David E. Preng, William E. Greenwood, and James Arthur Lyle served on the compensation committee in 2002. No executive officer or employee serves on the compensation committee of the Board. None of our executive officers serves on the board of directors of any other entity that has an executive officer serving on our Board.

26

BOARD COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

We believe that employing and retaining highly qualified and high performing executive officers is vital to our achievement of long-term business goals. To this end, the Compensation Committee of the Board of Directors (the "Committee") developed an executive compensation program which is designed to attract and retain such officers.

The philosophy is to develop a systematic, competitive executive compensation program which recognizes an executive officer's position and responsibilities, takes into account competitive compensation levels payable within the industry by similarly sized companies, and reflects both individual and Company performance.

The executive compensation program developed by the Committee is composed of the following three elements: (i) a base salary, (ii) a performance-based annual cash incentive (short-term), and (iii) a stock-based incentive (long-term). Under this program, short-term and long-term incentives are "at risk" and are based on performance of the Company versus defined goals.

The Committee compiles data reflecting the compensation practices of a broad range of organizations in the oil and gas industry that are similar to us in size and performance. For both the base salary and annual cash incentives portions of executive compensation discussed below, the Committee adopted a philosophy of paying the executive officers at a level that is competitive and within the ranges reflected by the data compiled.

BASE SALARIES

Base salary is the portion of an executive officer's total compensation package which is payable for performing the specific duties and assuming the specific responsibilities defining the executive's position with the Company. The Committee's objective is to provide each executive officer a base salary that is competitive at the desired level.

ANNUAL CASH INCENTIVES

The Committee developed a performance-based annual cash incentive plan covering the executive officers and top managers. The objectives in designing the plan are to reward participants for accomplishing objectives which are generally measurable and increase shareholder value. Under the annual cash incentive plan, the Committee has established a "target" cash incentive award for each executive officer (including the Chief Executive Officer) that is payable based mostly upon the Company's achieving certain performance targets and, to a lesser extent, for achieving highly challenging individual performance objectives. The performance targets are increasing reserves and production; controlling finding,

Edgar Filing: REMINGTON OIL & GAS CORP - Form DEF 14A

development, production, and general and administrative costs; and achieving an acceptable overall return on capital; all of which are competitive with a peer group of oil and gas companies. The Committee also determined that award levels under the plan should be fiscally prudent.

BOARD COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION - CONTINUED

LONG-TERM STOCK-BASED INCENTIVES

We maintain a stock option plan for officers and other employees. The philosophy is to award stock options to selected plan participants based on their levels within the Company and upon individual merit. The plan is to grant stock options which are competitive within the industry for other individuals at the employee's level and which provide the employee a meaningful incentive to remain with the Company, to increase performance, and to focus on achieving long-term increases in shareholder value. Other factors the Committee considers in granting stock options include the employee's contributions toward achieving the Company's long-term objectives, such as reserve and production growth, as well as the employee's contributions in achieving the Company's short-term and long-term profitability targets.

TRANSACTIONS

A resolution adopted in 1992 by our Board of Directors authorizes us to enter into a transaction with an affiliate of ours so long as the Board of Directors determines that such a transaction is fair and reasonable to us and is on terms no less favorable to us than can be obtained from an unaffiliated party in an arms' length transaction.
