(2) Represents the aggregate of:

1,614,082 shares currently held by the selling shareholders; and

484,221 shares of common stock issuable upon exercise of warrants held by the selling shareholders

(3) Estimated solely for the purpose of computing the amount of the registration fee under Rule 457(i) of the Securities Act of 1933, as amended, based on the sum of:

the closing price of \$2.35 per share of common stock on September 16, 2004 for the 1,614,082 issued and outstanding shares (\$3,793,093); and

the maximum amount of consideration to be received by the Registrant in connection with the exercise of the warrants (\$1,442,979).

(4) The Registrant initially filed a Registration Statement on Form F-1 (Registration No. 333-90016) on June 7, 2002 (the Form F-1), to register certain offers and sales of its common stock as set forth in that Registration Statement. Subsequently, the Registrant withdrew the Form F-1 on August 18, 2003. The Registrant is filing this Registration Statement on Form F-3 to register the reoffer and resale of the securities indicated on this cover page. A registration fee of \$969.38 was paid in connection with the filing of the Form F-1. Pursuant to Rule 457(p), the aggregate total dollar amount of the filing fee associated with the unsold common stock under the Form F-1 has previously been offset by the filing fees in the amount of \$202.63 for the Registration Statement on Form F-3, SEC File No. 333-110323, filed on November 7, 2003. The remaining balance of \$766.75 is being further offset by the filing fee of \$663.42 due for this Registration Statement, resulting in a remaining available offset balance of \$103.33.

The Registrant hereby amends this Registration Statement on such date or dates as may be necessary to delay its effective date until the Registrant shall file a further amendment which specifically states that this Registration Statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933 or until the Registration Statement shall become effective on such date as the Commission, acting pursuant to said Section 8(a), may determine.

PROSPECTUS SUMMARY

You should read the following summary together with the more detailed information included at other sections of this prospectus. In addition, you should carefully consider the factors described under **Risk Factors** at page 8 of this prospectus.

LJ International Inc.

We are a totally vertically integrated company that designs, brands, markets and distributes a complete range of fine jewelry. While we specialize in the semi-precious jewelry segment, we also offer high-end pieces set in yellow gold, white gold, platinum or sterling silver and adorned with semi-precious stones, diamonds, pearls and precious stones. We distribute mainly to fine jewelers, department stores, national jewelry chains and electronic and specialty retailers throughout North America and Western Europe. Our product lines incorporate all major categories sought by major retailers, including earrings, necklaces, pendants, rings and bracelets.

We believe that our vertically integrated structure provides significant advantages over our competitors. All profits from value added processes are captured internally, rather than shared with third party manufacturers. This results in very competitive pricing for the retailer and enhanced profits for us. Innovative processes in stone cutting and production further enhance our competitive position.

We employ an international design team and all of our designs and merchandising strategies are proprietary. The exclusive and innovative concepts that we create offer brand potential. Our primary marketing focus has been in North America where we have sold directly to certain high volume customers that need specialized product development services, and through a marketing relationship with International Jewelry Connection (IJC) for those customers that need higher levels of service and training.

We organize our marketing and distribution strategies by retail distribution channels. Concepts are developed for the specific needs of different market segments. We have identified the following as prime retail targets:

- fine jewelers;
- national jewelry chains;
- department stores;
- TV shopping channels; and
- discount chain stores.

For the eight-month period ended December 31, 2002 and the fiscal year ended December 31, 2003, approximately 77% and 74% of our sales were in North America.

RISK FACTORS

This offering involves a high degree of risk. You should carefully consider the risks and uncertainties described below and the other information in this prospectus before deciding whether to invest in shares of our common stock. If any of these risks occur, our business, results of operations and financial condition could be adversely affected. This could cause the trading price of our common stock to decline, and you might lose part or all of your investment.

We depend upon QVC, Inc. for a large portion of our sales and we cannot be certain that these sales will continue. If they do not, our revenues will likely decline.

Although we sell to a large number of customers in a variety of markets, a large portion of our sales involves offerings to one volume customer, QVC, Inc. For the fiscal years ended December 31, 2002 and 2003, QVC, Inc. accounted for approximately 25% and 10% of our sales. Although we have maintained a good and longstanding relationship with this customer, we do not have any long-term contracts with QVC, Inc., who orders only on a purchase order basis. The loss of QVC, Inc. as a customer or a significant reduction in its orders would have a materially adverse effect.

We are controlled by one of our existing shareholders, whose interests may differ from other shareholders.

Our largest shareholder beneficially owns or controls approximately 38.1% of our outstanding shares as of December 31, 2003. Accordingly, he has controlling influence in determining the outcome of any corporate transaction or other matter submitted to the shareholders for approval, including mergers, consolidations and the sale of all, or substantially all, of our assets, election of directors, and other significant corporate actions. He also has the power to prevent or cause a change in control. In addition, without the consent of this shareholder, we could be prevented from entering into transactions that could be beneficial to us. The interests of this shareholder may differ from the interests of the other shareholders.

We face significant competition from larger competitors.

The making and distribution of jewelry is a highly competitive industry characterized by the diversity and sophistication of the product. We compete with major domestic and international companies with substantially greater financial, technical and marketing resources and personnel than us. There can be no assurance other jewelry makers will not similarly develop low-cost, high-volume production capability or an even better process, providing greater competition for us and materially affecting our business prospects.

Table of Contents

There are numerous factors relating to the operations of our business that could adversely affect our success and results.

As a maker and merchandiser of low-cost, high-quality gem-set jewelry, our existing and future operations are and will be influenced by several factors, including:

technological developments in the mass production of jewelry;

our ability to meet the design and production requirements of our customers efficiently;

the market acceptance of our customers' jewelry;

increases in expenses associated with continued sales growth;

our ability to control costs;

our management's ability to evaluate the public's taste and new orders to target satisfactory profit margins;

our capacity to develop and manage the introduction of new designed products; and

our ability to compete.

Quality control is also essential to our operations since customers demand compliance with design and product specifications and consistency of production. We cannot assure that revenue growth will occur on a quarterly or annual basis.

Our production facilities are located in China. Our results of operations and financial condition may, therefore, be influenced by the economic, political, legal and social conditions in China.

Since 1978, the Chinese government has been reforming, and is expected to continue to reform, China's economic and political systems. Such reforms have resulted in significant social progress. Other political, economic and social factors could also lead to further readjustment of the reform measures. This refinement and readjustment process may not always have a positive effect on our operations in China. At times, we may also be adversely affected by changes in policies of the Chinese government such as changes in laws and regulations or their interpretation, the introduction of additional measures to control inflation, changes in the rate or method of taxation and imposition of additional restrictions on currency conversion and remittances abroad.

Our products are currently made at our production facility located in Shenzhen, China. However, our insurance may not adequately cover any losses due to fire, casualty or theft.

We have obtained fire, casualty and theft insurance aggregating approximately \$19.8 million, covering several of our stock in trade, goods and merchandise, furniture and equipment and production facility in China. The proceeds of such insurance may not be sufficient to cover material damage to, or the loss of, our production facility due to fire, severe weather, flood or other cause, and such damage or loss would have a material adverse effect on our financial condition, business and prospects. Consistent with the customary practice among enterprises in

Table of Contents

China and due to the cost in relation to the benefit, we do not carry any business interruption insurance in China.

Sales of our jewelry to retailers are generally stronger during the quarter ending December 31 of each year due to the importance of the holiday selling season.

The approximately 35% of our sales during the fiscal year ended December 31, 2003 to our TV shopping channel customers was not seasonal in nature. It has been our management's experience that the remaining 65% of our total sales is seasonally sensitive and is greater during the quarter ending December 31 of each year.

By further increasing the number of shares of our common stock that may be sold into the market, this offering could cause the market price of our common stock to drop significantly, even if our business is doing well.

On September 1, 2004, we completed a private placement financing in which we sold to the Selling Shareholders 1,614,082 shares of our common stock and warrants to purchase an aggregate of 484,221 shares of our common stock. We agreed to register for resale the shares of common stock and the shares issuable upon exercise of the warrants.

The 2,098,303 shares of our common stock covered by this prospectus consist of the following:

1,614,082 shares of common stock; and

484,221 shares of common stock issuable upon exercise of the warrants at an exercise price of \$2.98 per share through September 3, 2009.

The warrants representing 484,221 shares of common stock currently are out-of-the-money, although they are exercisable. The remaining 1,614,082 shares of common stock covered by this prospectus (i.e., the non-warrant shares) represent approximately 13.15% of the total number of our shares of common stock that are currently issued and outstanding. Sales of these shares in the public market, or the perception that future sales of these shares could occur, could have the effect of lowering the market price of our common stock below current levels and make it more difficult for us and our shareholders to sell our equity securities in the future.

Our holding company structure creates restrictions on the payment of dividends.

We have no direct business operations, other than the ownership of our subsidiaries. While we have no current intention of paying dividends, should we, as a holding company, decide in the future to do so, our ability to pay dividends and meet other obligations depends upon the receipt of dividends or other payments from our operating subsidiaries and other holdings and investments. In addition, our operating subsidiaries are subject to restrictions on their ability to make distributions to us, including as a result of restrictive covenants and

Table of Contents

minimum net worth requirements in loan agreements, restrictions on the conversion of local currency into U.S. dollars or other hard currency and other regulatory restrictions.

It may be difficult to serve us with legal process or enforce judgments against us or our management.

We are a British Virgin Islands holding company, and all or a substantial portion of our assets are located in China and Hong Kong. In addition, all but one of our directors and officers are non-residents of the United States, and all or substantial portions of the assets of such non-residents are located outside the United States. As a result, it may not be possible to effect service of process within the United States upon such persons. Moreover, there is doubt as to whether the courts of the British Virgin Islands, China or Hong Kong would enforce:

judgments of United States courts against us, our directors or our officers based on the civil liability provisions of the securities laws of the United States or any state; or

in original actions brought in the British Virgin Islands, China or Hong Kong, liabilities against us or non-residents based upon the securities laws of the United States or any state.

Some information about us may be unavailable due to exemptions under the Exchange Act for a foreign private issuer.

We are a foreign private issuer within the meaning of the rules under the Exchange Act. As such, we are exempt from certain provisions applicable to United States public companies, including:

the rules under the Exchange Act requiring the filing with the Securities and Exchange Commission of quarterly reports on Form 10-Q or current reports on Form 8-K;

the provisions of Regulation FD aimed at preventing issuers from making selective disclosures of material information;

the sections of the Exchange Act regulating the solicitation of proxies, consents or authorizations in respect of a security registered under the Exchange Act; and

the sections of the Exchange Act requiring insiders to file public reports of their stock ownership and trading activities and establishing insider liability for profits realized from any short-swing trading transaction.

Because of these exemptions, investors are not provided with the same information which is generally available about public companies organized in the United States.

Table of Contents

Since we are a British Virgin Islands company, the rights of our shareholders may be more limited than those of shareholders of a company organized in the United States.

Under the laws of most jurisdictions in the United States, majority and controlling shareholders generally have certain fiduciary responsibilities to the minority shareholders. Shareholder action must be taken in good faith, and actions by controlling shareholders which are obviously unreasonable may be declared null and void. British Virgin Island law protecting the interests of minority shareholders may not be as protective in all circumstances as the law protecting minority shareholders in U.S. jurisdictions. In addition, the circumstances in which a shareholder of a BVI company may sue the company derivatively, and the procedures and defenses that may be available to the company, may result in the rights of shareholders of a BVI company being more limited than those of shareholders of a company organized in the U.S.

Furthermore, our directors have the power to take certain actions without shareholder approval which would require shareholder approval under the laws of most U.S. jurisdictions. The directors of a BVI corporation, subject in certain cases to court approval but without shareholder approval, may implement a reorganization, merger or consolidation, the sale of any assets, property, part of the business, or securities of the corporation. Our ability to amend our Memorandum of Association and Articles of Association without shareholder approval could have the effect of delaying, deterring or preventing a change in our control without any further action by the shareholders, including a tender offer to purchase our common stock at a premium over then current market prices.

There is a risk that forward-looking statements may not come true.

This prospectus and the documents incorporated by reference contain forward-looking statements that involve risks and uncertainties. We use words such as believe, expect, anticipate, plan or similar words to identify forward-looking statements. Forward-looking statements are made based upon our belief as of the date that such statements are made. These forward-looking statements are based largely on our current expectations and are subject to a number of risks and uncertainties, many of which are beyond our control. You should not place undue reliance on these forward-looking statements, which apply only as of the date of this prospectus. Our actual results could differ materially from those anticipated in these forward-looking statements for many reasons, including the risks faced by us described above and elsewhere in this prospectus.

Table of Contents**CAPITALIZATION AND INDEBTEDNESS**

The following table sets forth our capitalization as of July 31, 2004:

on an actual basis (unaudited);

on an as adjusted basis to give effect to the sale of 1,614,082 shares at \$2.20. The sale of 1,614,082 shares raised \$3,551,000. The actual change in common stock and additional paid-in capital reflects total proceeds, less related issuance expenses of \$805,000; and

on an as adjusted basis to give effect to the sale of an assumed 484,221 shares upon exercise of the warrants for cash, and the application of the net proceeds we may receive for our shares. The 484,221 shares assumes that \$1,443,000 is raised at a net per common share price of \$2.98. The actual change in common stock and additional paid-in capital will depend on the actual number of warrants exercised, and whether they are paid for by cash or on a cashless basis.

Table of Contents

According to information supplied to us by the foregoing entities, none of the Selling Shareholders listed above is a broker-dealer and each such Selling Shareholder that is an affiliate of a broker-dealer purchased the common shares covered by this prospectus in the ordinary course of business and, at the time of such purchase, did not have any agreements or understandings, directly or indirectly, with any person to distribute those shares.

To our knowledge, none of the Selling Shareholders nor any of their affiliates, officers, directors, or principal equity holders has held any position or office or has had any material relationship with us within the past three years.

USE OF PROCEEDS

The selling shareholders will receive the net proceeds from the sale of their shares of common stock. We will not receive any proceeds from these sales. We may, however, receive proceeds from the exercise of the 484,221 warrants. Each warrant entitles the holder to purchase one share of common stock at a price of \$2.98 per share through September 3, 2009. The purchase price is payable in cash or on a cashless exercise net basis. If all of the warrants are exercised for cash, we will receive up to \$1,442,979.

DETERMINATION OF OFFERING PRICE

The selling shareholders may use this prospectus from time to time to sell their common stock at a price determined by the shareholder selling the common stock. The price at which the common stock is sold may be based on market prices prevailing at the time of sale, at prices relating to such prevailing market prices, or at negotiated prices.

PLAN OF DISTRIBUTION

The Selling Shareholders of our common stock and any of their pledgees, assignees and successors-in-interest may, from time to time, sell any or all of their shares of Common Stock on any stock exchange, market or trading facility on which the shares are traded or in private transactions. These sales may be at fixed or negotiated prices. The Selling Shareholders may use any one or more of the following methods when selling shares:

ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;

block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;

purchases by a broker-dealer as principal and resale by the broker-dealer for its account;

an exchange distribution in accordance with the rules of the applicable exchange;

Table of Contents

privately negotiated transactions;

settlement of short sales entered into after the date of this prospectus;

broker-dealers may agree with the Selling Shareholders to sell a specified number of such shares at a stipulated price per share;

a combination of any such methods of sale;

through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise; or

any other method permitted pursuant to applicable law.

The Selling Shareholders may also sell shares under Rule 144 under the Securities Act, if available, rather than under this prospectus.

Broker-dealers engaged by the Selling Shareholders may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the Selling Shareholders (or, if any broker-dealer acts as agent for the purchaser of shares, from the purchaser) in amounts to be negotiated. Each Selling Shareholder does not expect these commissions and discounts relating to its sales of shares to exceed what is customary in the types of transactions involved.

In connection with the sale of our common stock or interests therein, the Selling Shareholders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the common stock in the course of hedging the positions they assume. The Selling Shareholders may also sell shares of our common stock short and deliver these securities to close out their short positions, or loan or pledge the common stock to broker-dealers that in turn may sell these securities. The Selling Shareholders may also enter into option or other transactions with broker-dealers or other financial institutions or the creation of one or more derivative securities which require the delivery to such broker-dealer or other financial institution of shares offered by this prospectus, which shares such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

The Selling Shareholders and any broker-dealers or agents that are involved in selling the shares may be deemed to be underwriters within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act. Each Selling Shareholder has informed us that it does not have any agreement or understanding, directly or indirectly, with any person to distribute the Common Stock.

Table of Contents

We are required to pay certain fees and expenses incurred by us incident to the registration of the shares. We have agreed to indemnify the Selling Shareholders against certain losses, claims, damages and liabilities, including liabilities under the Securities Act.

Because Selling Shareholders may be deemed to be underwriters within the meaning of the Securities Act, they will be subject to the prospectus delivery requirements of the Securities Act. In addition, any securities covered by this prospectus which qualify for sale pursuant to Rule 144 under the Securities Act may be sold under Rule 144 rather than under this prospectus. Each Selling Shareholder has advised us that they have not entered into any agreements, understandings or arrangements with any underwriter or broker-dealer regarding the sale of the resale shares. There is no underwriter or coordinating broker acting in connection with the proposed sale of the resale shares by the Selling Shareholders.

We agreed to keep this prospectus effective until the earlier of (i) the date on which the shares may be resold by the Selling Shareholders without registration and without regard to any volume limitations by reason of Rule 144(k) under the Securities Act or any other rule of similar effect or (ii) all of the shares have been sold pursuant to the prospectus or Rule 144 under the Securities Act or any other rule of similar effect. The resale shares will be sold only through registered or licensed brokers or dealers if required under applicable state securities laws (or any comparable jurisdictional law for the British Virgin Islands). In addition, in certain states, the resale shares may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

Under applicable rules and regulations under the Exchange Act, any person engaged in the distribution of the resale shares may not simultaneously engage in market making activities with respect to our common stock for a period of two business days prior to the commencement of the distribution. In addition, the Selling Shareholders will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including Regulation M, which may limit the timing of purchases and sales of shares of our common stock by the Selling Shareholders or any other person. We will make copies of this prospectus available to the Selling Shareholders and have informed them of the need to deliver a copy of this prospectus to each purchaser at or prior to the time of the sale.

DESCRIPTION OF SECURITIES

We have previously registered our common stock under the Exchange Act by filing a Form 8-A on February 20, 1998.

PART II

INFORMATION NOT REQUIRED IN PROSPECTUS

Item 8. Indemnification of Directors and Officers.

As in most United States jurisdictions, the board of directors of a British Virgin Islands company is charged with the management and affairs of the company, and subject to any limitations to the contrary in the Memorandum of Association of the Company, the Board of Directors is entrusted with the power to manage the business and affairs of the Company. In most United States jurisdictions, directors owe a fiduciary duty to the company and its shareholders, including a duty of care, pursuant to which directors must properly apprise themselves of all reasonably available information, and a duty of loyalty, pursuant to which they must protect the interests of the company and refrain from conduct that injures the company or its shareholders or that deprives the company or its shareholders of any profit or advantage. Many United States jurisdictions have enacted various statutory provisions which permit the monetary liability of directors to be eliminated or limited. Under British Virgin Islands law, liability of a director to the company is basically limited to cases of wilful malfeasance in the performance of his duties or to cases where the director has not acted honestly and in good faith and with a view to the best interests of the company. However, under its Memorandum of Association, the Company is authorized to indemnify any person who is made or threatened to be made a party to a legal or administrative proceeding by virtue of being a director, officer or liquidator of the Company, provided such person acted honestly and in good faith and with a view to the best interests of the Company and, in the case of a criminal proceeding, such person had no reasonable cause to believe that his conduct was unlawful. The Company's Memorandum of Association also permits the Company to indemnify any director, officer or liquidator of the Company who was successful in any proceeding against expenses and judgments, fines and amounts paid in settlement and reasonably incurred in connection with the proceeding, where such person met the standard of conduct described in the preceding sentence.

The Company has provisions in its Memorandum of Association that insure or indemnify, to the full extent allowed by the laws of the Territory of the British Virgin Islands, directors, officers, employees, agents or persons serving in similar capacities in other enterprises at the request of the Company.

The Company may obtain a directors and officers insurance policy.

(3) Remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering; and

(4) File a post-effective amendment to the registration statement to include any financial statements required by section 210.3-19 at the start of any delayed offering or throughout a continuous offering.

(b) Filings Incorporating Subsequent Exchange Act documents by reference.

The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to section 13(a) or section 15(d) of the Securities Exchange Act of 1934 that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c) Request for acceleration of effective date.

Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended (the "Act"), may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.
