THE HALLWOOD GROUP INCORPORATED AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
Nine Months Ended September 30, 2007 and 2006
(unaudited)

Note 1 Interim Condensed Consolidated Financial Statements, Accounting Policies and New Accounting Pronouncements

Interim Condensed Consolidated Financial Statements. The interim condensed consolidated financial statements of The Hallwood Group Incorporated and its subsidiaries (the Company) (AMEX: HWG) have been prepared in accordance with the instructions to Form 10-Q and do not include all of the information and disclosures required by accounting principles generally accepted in the United States of America. Although condensed, in the opinion of management, all adjustments considered necessary for a fair presentation have been included. These condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and related disclosures thereto included in Form 10-K for the year ended December 31, 2006.

Organization. The Company is a holding company that currently operates in the textile products and energy business segments.

Textile Products. Textile products operations are conducted through the Company's wholly owned Brookwood Companies Incorporated subsidiary (Brookwood). Brookwood is an integrated textile firm that develops and produces innovative fabrics and related products through specialized finishing, treating and coating processes. Brookwood's subsidiary, Strategic Technical Alliance, LLC (STA) markets advanced breathable, waterproof laminate and other fabrics primarily for military applications. Continued development of these fabrics for military, industrial and consumer applications is a key element of Brookwood's business plan.

Textile products accounts for all of the Company's operating revenues.

Energy. Prior to December 31, 2005, the Company had investments in Hallwood Energy Corporation (HEC), which was sold in December 2004 and Hallwood Energy III, L.P. (HE III), which was sold in July 2005, Hallwood Energy II, L.P. (HE II), Hallwood Energy 4, L.P. (HE 4) and Hallwood Exploration, L.P. (Hallwood Exploration). The Company owned between 20% and 28% of the entities (between 16% and 22% on a fully diluted basis) and accounted for the investments using the equity method of accounting, recording its pro rata share of net income (loss), stockholders' equity/partners' capital transaction and comprehensive income (loss).

Effective December 31, 2005, HE II and Hallwood Exploration were consolidated into HE 4, which was renamed Hallwood Energy, L.P. (Hallwood Energy). At the consolidation date, Hallwood Energy was principally involved in acquiring oil and gas leases and drilling, gathering and sale of natural gas in the Barnett Shale formation located in Parker, Hood and Tarrant Counties in North Texas and the Barnett Shale and Woodford Shale formations in Reeves and Culberson Counties in West Texas and in the Fayetteville Shale formation of Central Eastern Arkansas, and conducting 3-D seismic surveys over optioned land covering a Salt Dome in South Louisiana in order to determine how best to proceed with exploratory activity.

Following the completion of the energy consolidation on December 31, 2005, all energy activities are conducted by Hallwood Energy. Subsequent to the July 2006 sale of its properties in North Texas (discussed below), Hallwood Energy's management has classified its energy investments into three identifiable areas: Central Eastern Arkansas, South Louisiana and West Texas.

In June 2006, Hallwood Energy completed the sale of a 60% undivided working interest in its oil and gas properties in Reeves and Culberson Counties in West Texas and all of its interest in the properties in Parker, Hood and Tarrant Counties in North Texas to Chesapeake Energy Corporation (Chesapeake). Chesapeake assumed operation of these properties.

At September 30, 2007, the Company owned approximately 24% (19% after consideration of profit interests) of Hallwood Energy.

New Accounting Pronouncements. In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48). The Company adopted the provisions of FIN 48 on January 1, 2007. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FASB Statement No. 109, *Accounting for Income Taxes*, and

prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition.

Table of Contents

THE HALLWOOD GROUP INCORPORATED AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
Nine Months Ended September 30, 2007 and 2006
(unaudited)

The Company has completed its evaluation and has determined that there are no significant uncertain tax positions requiring recognition in its consolidated financial statements. The evaluation was performed for the tax years ended December 31, 2003, 2004, 2005 and 2006, the tax years which remain subject to examination by major tax jurisdictions. The Company does not believe there will be any material changes in its unrecognized tax positions over the next 12 months.

The Company may from time to time be assessed interest or penalties by major tax jurisdictions, although any such assessments historically have been minimal and immaterial to its financial results. In the event the Company incurs interest and/or penalties, they will be classified in the financial statements as interest expense or administrative and selling expense, respectively.

The Emerging Issues Task Force (EITF) of the FASB has ratified EITF Issue 06-11, *Accounting for Income Tax Benefits of Dividends on Share-Based Payment Awards* (EITF 06-11) on June 27, 2007. In a stock-based compensation arrangement, employees may be entitled to dividends during the vesting period for nonvested shares or share units and until the exercise date for stock options. These dividend payments generally can be treated as a deductible compensation expense for income tax purposes, thereby generating an income tax benefit for the employer. At issue was how such a realized benefit should be recognized in the financial statements. The EITF has reached a conclusion that an entity should recognize the realized tax benefit as an increase in additional paid-in capital (APIC) and that the amount recognized in APIC should be included in the pool of excess tax benefits available to absorb tax deficiencies on stock-based payment awards. EITF 06-11 will be effective prospectively for the income tax benefits that result from dividends on equity-classified employee share-based payment awards that are declared in fiscal years beginning after December 15, 2007. The Company is currently evaluating the effect that this EITF will have on its financial statements, but does not believe that it will have a material impact on its financial statements.

On April 30, 2007, the FASB issued FASB Staff Position (FSP) No. FIN 39-1, an amendment of FASB Interpretation No. 29. This FSP amends paragraph 3 of Interpretation 39 to replace the terms conditional contracts and exchange contracts with the term derivative instruments as defined in FASB Statement No. 133, *Accounting for Derivative Instruments and Hedging Activities* . It also amends paragraph 10 of Interpretation 39 to permit a reporting entity to offset fair value amounts recognized for the right to reclaim cash collateral (a receivable) or the obligation to return cash collateral (a payable) against fair value amounts recognized for derivative instruments executed with the same counterparty under the same master netting arrangement that have been offset in accordance with the paragraph. The guidance in this FSP is effective for fiscal years beginning after November 15, 2007 and an entity shall recognize the effects of applying this FSP as a change in accounting principle through retrospective application for all financial statements presented unless it is impracticable to do so. The Company is still evaluating the aspects of this FSP, but does not believe it will have a material impact on its financial statements.

Note 3 Investments in and Loans to Hallwood Energy, L.P.

Investments in and loans to Hallwood Energy, L.P. as of the balance sheet dates were as follows (in thousands):

Description of Investment	Cost as of September 30, 2007	Amount at which carried at		Income (loss) for the nine months ended	
		September 30, 2007	December 31, 2006	September 30, 2007	September 30, 2006
Hallwood Energy, L.P.					
- Limited partner interest	\$ 61,468	\$ 37,300	\$ 39,859	\$ (13,646)	\$ (1,698)
- General partner interest	13	9	5	(2)	(1)
- Loans					
Total	\$ 61,481	\$ 37,309	\$ 39,864	\$ (13,648)	\$ (1,699)

At September 30, 2007, the Company owned approximately 24% (19% after consideration of profit interests) of Hallwood Energy. Certain members of Hallwood Energy's management and employees hold profit interests in Hallwood Energy totaling approximately 19%, which entitle the holders to an allocable percentage of Hallwood Energy's net profits after repayment of all obligations and the capital contributions by its partners. The Company accounts for this investment using the equity method of accounting and records its pro rata share of Hallwood Energy's net income (loss) and partner capital transactions.

Hallwood Energy is an upstream energy partnership engaging in the acquisition, development, exploration, production, and sale of hydrocarbons, with a primary focus on natural gas assets. Hallwood Energy's results of operations are and will be largely dependent on a variety of variable factors, including, but not limited to fluctuations in natural gas prices; success of its exploratory drilling activities; the ability to transport and sell its natural gas; regional and national regulatory matters; and the ability to secure, and price of, goods and services necessary to develop its oil and gas leases.

In July 2006, Hallwood Energy completed the sale of a 60% undivided working interest in its oil and gas properties in Reeves and Culberson Counties in West Texas and all of its interest in the properties in Parker, Hood and Tarrant Counties in North Texas to Chesapeake. Chesapeake assumed operation of these properties. Following the July 2006 sale, Hallwood Energy's management classified its energy investments into three identifiable areas: Central Eastern Arkansas, South Louisiana and West Texas.

Certain of the Company's officers and directors are investors in Hallwood Energy. In addition, as members of management of Hallwood Energy, one director and officer and one officer of the Company hold a profit interest in Hallwood Energy.

A description of Hallwood Energy's significant activities during 2007 are provided below.

Loan Financing. In February 2006, Hallwood Energy entered into a \$65,000,000 loan facility, and had drawn \$40,000,000 as of December 31, 2006. Subsequent to December 31, 2006, Hallwood Energy was not in compliance with the proved collateral coverage ratio.

In March 2007 and April 2007, the Company loaned \$5,000,000 and \$4,000,000, respectively, to Hallwood Energy, of which \$7,000,000 was in the form of demand notes bearing interest at 6% above prime rate, and \$2,000,000 was an advance that was repaid four days later with interest. In April 2007, Hallwood Energy made a

request for additional capital contributions in the amount of \$25,000,000 (the April Call). The Company and Hallwood Energy had agreed that the \$7,000,000 of loans would be applied as the Company s portion of the April Call. On May 10, 2007, Hallwood Energy repaid \$257,000 to the Company, which represented the excess of the \$7,000,000 loaned over the Company s share of the capital contribution and related oversubscription.

In April 2007, Hallwood Energy entered into a \$100,000,000 senior secured credit facility (the Credit Facility) with an affiliate of one of the investors (New Lender) and drew \$65,000,000 from the Credit Facility. The proceeds were used to repay the \$40,000,000 drawn under the former loan facility, pay approximately \$9,800,000 for a make-whole fee and incremental interest of approximately \$500,000 to the original lender related to the \$40,000,000 note payable, and transaction fees of approximately \$200,000.

Table of Contents

THE HALLWOOD GROUP INCORPORATED AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
Nine Months Ended September 30, 2007 and 2006
(unaudited)

During the 2007 third quarter, Hallwood Energy drew an additional \$20,000,000 under the Credit Facility. At September 30, 2007, the remaining availability was \$15,000,000, all of which was drawn in October 2007.

The Credit Facility is secured by Hallwood Energy's oil and gas leases, matures on February 1, 2010, and bears interest at a rate of the defined LIBOR rate plus 10.75% per annum. An additional 2% of interest is added upon continuance of any defaulting event. The New Lender may demand that Hallwood Energy prepay the outstanding loans in the event of a defined change of control, qualified sale or event of default, including a material adverse event. In conjunction with executing the Credit Facility, the New Lender resigned its position on the board of directors and assigned its interest in the general partner to the remaining members.

The Credit Facility contains various financial covenants, including maximum general and administrative expenditures and current and proved collateral coverage ratios. The proved collateral coverage ratio covenant is effective June 30, 2008. Non-financial covenants restrict the ability of Hallwood Energy to dispose of assets, incur additional indebtedness, prepay other indebtedness or amend certain debt instruments, pay dividends, create liens on assets, enter into sale and leaseback transactions, make investments, loans or advances, make acquisitions, engage in mergers or consolidations or engage in certain transactions with affiliates, and otherwise restrict certain activities by Hallwood Energy. In October 2007, Hallwood Energy entered into an amendment of its Credit Facility to modify the calculation of the current ratio to include certain capital funding commitments.

The Credit Facility contains a make-whole provision whereby Hallwood Energy is required to pay the New Lender the amount by which the present value of interest and principal from the date of prepayment through January 31, 2009, exceeds the principal amount on the prepayment date.

The New Lender also received warrants exercisable for 2.5% of the partnership interests at an exercise price of 2.5% of 125% of the amount of the total capital contributed to Hallwood Energy at December 31, 2006.

Equity Investments. In November 2006, Hallwood Energy requested an additional capital contribution in the amount of \$25,000,000 from its partners. The Company invested an additional \$6,281,000 to maintain its proportionate interest in Hallwood Energy. The Company utilized a \$452,000 capital contribution receivable to reduce its cash contribution to \$5,829,000. In addition, certain other investors in Hallwood Energy did not elect to fund their proportionate interest of the additional capital contribution; therefore, in December 2006, the Company invested an additional \$425,000 and \$2,000 in January 2007 in excess of its proportionate interest. These contributions were made from existing cash.

Hallwood Energy issued the \$25,000,000 April Call to its partners on April 14, 2007, which was successfully completed in May 2007. Previously, Hallwood Energy received loans of \$7,000,000 each from the Company and an affiliate of the New Lender. These loans were applied to the April Call. In May, Hallwood Energy repaid \$257,000 to the Company, which represented the excess of the \$7,000,000 advanced over the Company's share of the capital contribution and related oversubscription.

In April 2007, Hallwood Investments Limited (HIL), a corporation associated with Mr. Anthony J. Gumbiner, the Company's chairman and principal stockholder, and the New Lender each committed to fund one-half of the April Call and potential additional equity or subordinated debt funding calls totaling \$55,000,000 by Hallwood Energy, to the extent other investors, including the Company, did not respond to a call. Hallwood Energy issued a \$20,000,000 equity call to its partners on May 21, 2007 (the May Call), which was due on July 1, 2007. The Company's proportionate share of the May Call was \$5,091,000. Due to the fact that the Company did not have available sufficient cash, the Company contributed only \$2,501,000 towards the May Call. Because of the Company's inability to meet its full equity call requirement, HIL funded \$2,591,000 of the May Call that was not funded by the Company. In connection with the funding of this amount, Mr. Gumbiner agreed with a special committee of the board of directors of the Company that he would discuss the terms of this investment in the future. The May Call was fully satisfied in August 2007.

Hallwood Energy issued a \$15,000,000 equity call to its partners on August 23, 2007 (the August Call) which was due on September 14, 2007. The Company's proportionate share of the August Call was \$3,684,000. Due to the fact that the Company did not have available sufficient cash, the Company contributed only one-half, or \$1,842,000, toward the August Call. Because of the Company's inability to meet its full equity call requirement, HIL funded \$1,842,000 of the August Call that was not funded by the Company. In October 2007, the special committee appointed to consider the terms of HIL's funding of these capital calls acknowledged the terms of the funding of the capital calls by HIL and determined that, in light of the circumstances, including the Company's recent and current inability to fund any amounts beyond

Nine Months Ended September 30, 2007 and 2006
(unaudited)

those it has made, no further action was required.

As a result of the receipt of sufficient equity contributions from the April, May and August Calls, the \$55,000,000 commitment from HIL and the New Lender was extinguished.

Hallwood Energy issued preferred partnership interests that have a preferential right to any distributions made by Hallwood Energy from operations or upon liquidation for the April, May and August Calls. The preferential right is equal to the amount of the capital contributed with respect to the preferred interest plus 16% per annum, compounded monthly. The preferred interests will receive this priority return before any amounts are paid to the common partnership interests issued for all previous investments in Hallwood Energy. The capital contributed plus the accumulated 16% return attributable to any preferred interest is also convertible to common partnership interests at any time at a price equal to the price of the common partnership interests at December 31, 2006. Distributions on the preferred partnership interests will be accrued and become payable when, as and if declared by the general partner of Hallwood Energy. Hallwood Energy does not anticipate paying any distributions in the foreseeable future.

In November 2007, Hallwood Energy received \$15,000,000 from a new equity partner. In addition, HIL, another existing investor in Hallwood Energy, and the New Lender entered into a letter agreement providing for a total of up to \$15,000,000 in additional funding. Under the terms of this letter, HIL agreed to advance \$7,500,000 and the other investor agreed to advance \$3,000,000 to Hallwood Energy no later than November 15, 2007. These advances will constitute loans to Hallwood Energy with an interest rate of 16% per annum and a maturity of March 1, 2010. Hallwood Energy may repay the advances at any time without penalty in connection with a recapitalization of Hallwood Energy providing for net proceeds not less than the amount being repaid. If any part of these advances remain outstanding on January 2, 2008, then on that date the outstanding amount will automatically be converted into preferred partnership interests having the same terms as the existing class of preferred partnership interests. In addition, if any portion of the advances is converted into preferred partnership interests on January 2, 2008, then the New Lender agrees to contribute to Hallwood Energy the same proportion of \$4,500,000 in exchange for preferred partnership interests. Hallwood Energy also agreed that if any portion of the agreed funding from HIL or the other existing investor is not made, it shall be an event of default under the Credit Facility. Hallwood Energy is in the process of seeking additional capital to finance its proposed 2008 operating budget.

Litigation. In early 2006, Hallwood Energy and Hallwood Petroleum entered into two two-year contracts with Eagle Drilling, LLC (Eagle Drilling), under which the contractor was to provide drilling rigs and crews to drill wells in Arkansas at a daily rate of \$18,500, plus certain expenses for each rig (the Contracts). These Contracts were subsequently assigned by Eagle Drilling, LLC to Eagle Domestic Drilling Operations, LLC (Eagle Domestic), on or about August 24, 2006. Before that, on or about August 14, 2006, one of the masts on the rigs provided under the Contracts collapsed. Hallwood Energy and Hallwood Petroleum requested the contractor to provide assurances that the mast on the other rig, and any mast provided to replace the collapsed mast, were safe and met the requirements of the Contracts. When the contractor refused to provide assurances, Hallwood Energy and Hallwood Petroleum notified the contractor that the Contracts were terminated and on September 6, 2006, filed *Hallwood Petroleum, LLC and Hallwood Energy, L.P. v. Eagle Drilling, LLC and Eagle Domestic Drilling Operations, LLC*, in the 348th District Court of Tarrant County, Texas to recover approximately \$1,688,000 previously deposited with the contractor under the Contracts. Since then, Eagle Domestic and its parent filed for Chapter 11 bankruptcy protection in Case No. 07-30426-H4-11, Jointly Administered Under Case No. 07-30424-H4-11, in the United States District Court for the Southern District of Texas. After the filing of its bankruptcy case, Eagle Domestic filed an adversary action on June 11, 2007 against Hallwood Energy and Hallwood Petroleum in the bankruptcy proceeding to recover unspecified damages, but purportedly in excess of \$10,000,000 (the Eagle Domestic Adversary). Hallwood Energy subsequently filed its answer and counterclaim in the Eagle Domestic Adversary asserting that Hallwood Energy owes nothing to Eagle Domestic, and that Eagle Domestic owes Hallwood approximately \$1,688,000 in unearned pre-payment under the Contracts. A jury trial in the Eagle Domestic Adversary is currently set for April 2008. In October 2006, Eagle

Drilling filed a related lawsuit against Hallwood Energy and Hallwood Petroleum in Oklahoma state court (the Eagle Drilling Action) alleging damages of over \$1,000,000 in connection with unpaid invoices, unpaid downtime and other damages caused as a result of the mast collapsing. In June 2007, the petition in the Eagle Drilling Action was amended to include various additional claims for breach of contract, negligence, tortious breach of contract and for declaratory relief against Hallwood Energy and Hallwood Petroleum. On September 20, 2007, Eagle Drilling filed for Chapter 11 bankruptcy protection in the United States Bankruptcy Court for the Western District of Oklahoma. On October 12, 2007, Hallwood Energy filed its Notice of Removal of the Cleveland County Action in Oklahoma Bankruptcy Court, which initiated Adversary Proceeding No. 07-01209 (the Energy Drilling Adversary) and automatically removed the Eagle Drilling Action to the Oklahoma Bankruptcy Court. Hallwood Energy anticipates asserting its claims for return of the approximately \$1,688,000 in

unearned pre-payment from Eagle Drilling, as a counterclaim against Eagle Drilling in the Eagle Drilling Adversary. On November 11, 2007, Eagle Drilling filed its Motion to Remand the Eagle Drilling Adversary back to Oklahoma state court, or in the alternative to abstain from hearing the claims asserted therein. Hallwood Energy and Hallwood Petroleum are currently unable to determine the impact that this litigation may have on its results of operations or its financial position.

Note 4 Loans Payable

Loans payable at the balance sheet dates were as follows (in thousands):

	September 30, 2007	December 31, 2006
Bank debt		
Revolving credit facility, interest at Libor +1.25% - 1.75% or Prime, due January 2010	\$ 16,968	\$ 10,432
Equipment term loans, interest at various rates, due at various dates through February 2009	247	460
Total	17,215	10,892
Current portion	(199)	(275)
Noncurrent portion	\$ 17,016	\$ 10,617

Revolving Credit Facility. The Company's Brookwood subsidiary has a revolving credit facility in an amount up to \$22,000,000 with Key Bank National Association (the Key Working Capital Revolving Credit Facility). Borrowings are collateralized by accounts receivable, certain finished goods inventory, machinery and equipment and all of the issued and outstanding capital stock of Brookwood and its subsidiaries. The facility bears interest at Brookwood's option of Prime, or Libor plus 1.25% - 1.75% (variable depending on compliance ratios) and contains various covenants. The interest rate was a blended rate of 7.04% and 7.48% at September 30, 2007 and December 31, 2006, respectively. The outstanding balance at September 30, 2007 was \$16,968,000 and Brookwood had \$5,032,000 of borrowing availability under this facility.

Equipment Term Loans. Brookwood has a revolving equipment credit facility in an amount up to \$3,000,000 with Key Bank. Interest rates for the equipment term loans varied between 5.60% and 8.40% with a blended rate of 6.79% and 7.17% at September 30, 2007 and December 31, 2006, respectively. The outstanding balance at September 30, 2007 was \$247,000 and Brookwood had \$2,753,000 of borrowing availability under this facility.

Loan Covenants. Brookwood was in compliance with its loan covenants for the first three quarters of 2007 and for all quarters in 2006. The Key Working Capital Revolving Credit Facility provides for a total debt to tangible net worth ratio covenant and a covenant that Brookwood shall maintain a quarterly minimum net income of not less than one dollar. Cash dividends and tax sharing payments to the Company are contingent upon Brookwood's compliance with the covenants contained in the loan agreement.

Renewal of Credit Facilities. Both of the Key Bank facilities, which had original maturities of January 2007, were renewed in March 2006 for a period of three years with a new maturity of January 30, 2010. The amounts of the respective facilities and the loan covenants were unchanged; however, the interest rate on the Key Working Capital Revolving Credit Facility was reduced, at Brookwood's option, from Prime plus 0.25% or Libor + 1.75% - 3.00% (variable depending on compliance ratios).

Note 5 Stockholders Equity

Stock Options. The Company established the 1995 Stock Option Plan for The Hallwood Group Incorporated which authorized the granting of nonqualified stock options to employees, directors and consultants of the Company. The

1995 Plan authorized options to purchase up to 244,800 shares of common stock of the Company. The exercise prices of all options granted were at the fair market value of the Company's stock on the date of grant, had an expiration date of ten years from date of grant and were fully vested on the date of grant.

The 1995 Stock Option Plan terminated on June 27, 2005. At September 30, 2007, the Company had 4,500 fully vested options outstanding which expire in May 2010. Options issued prior to the termination are not affected; however, no new options can be issued under the 1995 Plan.

Nine Months Ended September 30, 2007 and 2006
(unaudited)

In January 2007, one officer of the Company exercised options to purchase 2,250 shares of the Company's common stock that were scheduled to expire in February 2007. The officer paid the exercise price and related tax withholding requirement by exchanging an equivalent number of common shares valued at the fair market value of the common stock at the time of exercise. The net result of the exercise and exchange was the issuance of 1,273 shares from treasury at an average carrying value of \$14.97 per share.

In June 2007, two officers of the Company exercised options to purchase a total of 7,500 shares of the Company's common stock that were scheduled to expire in September 2007. The officers paid the exercise price and related tax withholding requirement by exchanging an equivalent number of common shares valued at the fair market value of the common stock at the time of exercise. The net result of the exercises and exchanges was the issuance of 3,955 shares from treasury at an average carrying value of \$15.08 per share.

Option activity for the nine months ended September 30, 2007 and status of outstanding options are as follows:

	Number of Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value
Outstanding, January 1, 2007	14,250	\$ 14.77		
Granted				
Exercised	(9,750)	\$ 16.82		
Forfeited				
Outstanding, September 30, 2007	4,500	\$ 10.31	2.67	\$ 318,000
Options exercisable at September 30, 2007	4,500		2.67	\$ 318,000
Options vested at September 30, 2007	4,500		2.67	\$ 318,000

The aggregate intrinsic value in the table above represents the total pre-tax intrinsic value (the difference between the Company's closing stock price on the last trading day of the 2007 third quarter and the exercise price, multiplied by the number of options). The intrinsic value of the options exercised during the 2007 first quarter and second quarter were approximately \$226,000 and \$560,000, respectively. No options were exercised in the 2007 third quarter.

Note 6 Income Taxes

Following is a schedule of the income tax expense (benefit) (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,

Table of Contents

THE HALLWOOD GROUP INCORPORATED AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
Nine Months Ended September 30, 2007 and 2006
(unaudited)

The net deferred tax asset was \$4,203,000 and \$1,655,000 at September 30, 2007 and December 31, 2006, respectively, which was comprised of projected taxable losses for the nine months ended September 30, 2007 that can be carried back for a refund, temporary differences that, upon reversal, can be utilized to offset income from operations and \$531,000 of alternative minimum tax credits. The effective federal tax rate in both periods was 34%. State taxes are determined based upon taxable income apportioned to those states in which the Company does business at their respective tax rates.

Prepaid federal income taxes, principally attributable to the carryback of the Company's 2006 taxable loss, were \$4,888,000 and \$3,861,000 at September 30, 2007 and December 31, 2006, respectively. The Company filed an application for tentative refund with the Internal Revenue Service in March 2007 and received \$1,000,000 in April 2007. In connection with the filing of the 2006 tax return in September 2007, the Company received an additional refund of \$376,000 in October 2007. The Company also filed a carryback of its 2006 taxable loss in September 2007 and expects to obtain an additional refund of approximately \$4,512,000 in the 2007 fourth quarter.

Note 7 Supplemental Disclosures to the Condensed Consolidated Statements of Cash Flows

The following transactions affected recognized assets or liabilities but did not result in cash receipts or cash payments in thousands):

Supplemental schedule of non-cash investing and financing activities:

Description	Nine Months Ended September 30,	
	2007	2006

(unaudited)

Note 8 Computation of Loss Per Common Share

The following table reconciles weighted average shares outstanding from basic to diluted methods (in thousands):

Description	Three Months Ended		Nine Months Ended	
	September 30, 2007	2006	September 30, 2007	2006
Weighted Average Shares Outstanding				
Basic	1,521	1,515	1,518	1,513
Potential shares from assumed exercise of stock options				
Potential repurchase of shares from stock option proceeds				
Diluted	1,521	1,515	1,518	1,513
Net Loss				
Basic and diluted	\$ (367)	\$ (848)	\$ (8,264)	\$ (883)

Due to the losses in all of the 2007 and 2006 periods, potential shares from assumed exercise of stock options in the amounts of 3,000 and 9,000 shares for the three month periods in 2007 and 2006, respectively, and 6,000 and 9,000 shares for the nine month periods, respectively, were antidilutive.

Note 9 Related Party Transactions

Hallwood Investments Limited. The Company has entered into a financial consulting contract with Hallwood Investments Limited (HIL), a corporation associated with Mr. Anthony J. Gumbiner, the Company's chairman and principal stockholder. The contract provides for HIL to furnish and perform international consulting and advisory services to the Company and its subsidiaries, including strategic planning and merger activities, for annual compensation of \$996,000. The annual amount is payable in monthly installments. The contract automatically renews for one-year periods if not terminated by the parties beforehand. Additionally, HIL and Mr. Gumbiner are also eligible for bonuses from the Company or its subsidiaries, subject to approval by the Company's or its subsidiaries' board of directors. The Company also reimburses HIL for reasonable expenses in providing office space and administrative services and for travel and related expenses to and from the Company's corporate office. In addition, the Company also reimbursed Mr. Gumbiner for services, meals and other personal expenses related to the office separately maintained by Mr. Gumbiner. At Mr. Gumbiner's recommendation, the Company's board of directors determined in 2006 that the reimbursement for personal expenses related to his office would not continue after November 2006.

A summary of the fees and expenses related to HIL and Mr. Gumbiner are detailed below (in thousands):

	Three Months Ended		Nine Months Ended	
	September 30, 2007	2006	September 30, 2007	2006
Consulting fees	\$ 249	\$ 249	\$ 747	\$ 747
Office space and administrative services	53	168	127	372
Travel expenses	20	78	36	210

Total	\$ 322	\$ 495	\$ 910	\$ 1,329
-------	--------	--------	--------	----------

In addition, HIL and Mr. Gumbiner perform services for certain affiliated entities that are not subsidiaries of the Company, for which they receive consulting fees, bonuses, stock options, profit interests or other forms of compensation and expenses. The Company recognizes a proportionate share of such compensation and expenses, based upon its ownership percentage in the affiliated entities, through the utilization of the equity method of accounting.

Table of Contents

THE HALLWOOD GROUP INCORPORATED AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
Nine Months Ended September 30, 2007 and 2006
(unaudited)

HIL shares common offices, facilities and certain staff in its Dallas office with the Company. The Company pays certain common general and administrative expenses and charges HIL an overhead reimbursement fee for its allocable share of the expenses. For the three months ended September 30, 2007 and 2006, HIL reimbursed the Company \$41,000 and \$34,000, respectively, for such expenses. For the nine months ended September 30, 2007 and 2006, HIL reimbursed the Company \$116,000 and \$107,000, respectively.

In April 2007, HIL committed to fund one-half of potential additional equity or subordinated debt funding calls totaling \$55,000,000, or \$27,500,000, by Hallwood Energy, to the extent other investors, including the Company, did not respond to a call. In June 2007, HIL funded that portion of the Company's share of the May Call in the amount of \$2,591,000 that the Company did not fund and contributed, along with the New Lender, an additional amount in August 2007 to fully satisfy the May Call, to the extent other Hallwood Energy investors did not respond to the May Call. In September 2007, HIL funded that portion of the Company's share of the August Call in the amount of \$1,842,000 that the Company did not fund and contributed an additional amount, along with the New Lender, in September to fully satisfy the August Call, to the extent other Hallwood Energy investors did not respond to the August Call. At September 30, 2007, the \$55,000,000 commitment from HIL and the New Lender expired as a result of the receipt of sufficient equity contributions from the April Call, May Call and August Call.

In November 2007, HIL committed to fund \$7,500,000 of additional equity to Hallwood Energy no later than November 15, 2007. The advance will constitute a loan to Hallwood Energy with an interest rate of 16% per annum and a maturity of March 1, 2010. Hallwood Energy may repay the advance at any time without penalty in connection with a recapitalization of Hallwood Energy. If any part of the advance remains outstanding on January 2, 2008, then on that date the outstanding amount will automatically be converted into preferred partnership interests having the same terms as the existing class of preferred partnership interests.

Hallwood Energy. Hallwood Energy and its predecessor entities share common offices, facilities and certain staff in its Dallas office with the Company. Hallwood Energy reimburses the Company for its allocable share of the expenses. For the three months ended September 30, 2007 and 2006, Hallwood Energy reimbursed the Company \$77,000 and \$78,000 for such expenses, respectively. For the nine months ended September 30, 2007 and 2006, Hallwood Energy reimbursed the Company \$203,000 and \$247,000, respectively.

Note 10 Litigation, Contingencies and Commitments

Reference is made to Note 20 to the consolidated financial statements contained in Form 10-K for the year ended December 31, 2006.

Litigation. From time to time, the Company, certain of its affiliates and others have been named as defendants in lawsuits relating to various transactions in which it or its affiliated entities participated. In the Company's opinion, no litigation in which the Company, subsidiaries or affiliates is a party is likely to have a material adverse effect on its financial condition, results of operation or cash flows.

On July 31, 2007, Nextec Applications, Inc. filed *Nextec Applications, Inc. v. Brookwood Companies Incorporated and The Hallwood Group Incorporated* in the United States District Court for the Southern District of New York (SDNY No. CV 07-6901) claiming that the defendants infringed five United States patents pertaining to internally-coated webs: U.S. Patent No. 5,418,051; 5,856,245; 5,869,172; 6,071,602 and 6,129,978. On October 3, 2007, the U.S. District Court dismissed The Hallwood Group Incorporated from the lawsuit. Brookwood has answered the lawsuit and intends to vigorously defend these claims.

Hallwood Energy. As a significant investor in Hallwood Energy, the Company may be impacted by litigation involving Hallwood Energy. Refer to Note 3 for a further description of certain litigation involving Hallwood Energy.

Environmental Contingencies. A number of jurisdictions in which the Company operates have adopted laws and regulations relating to environmental matters. Such laws and regulations may require the Company to secure governmental permits and approvals and undertake measures to comply therewith. Compliance with the requirements imposed may be time-consuming and costly. While environmental considerations, by themselves, have not

significantly affected the Company's business to date, it is possible that such considerations may have a significant and adverse impact in the future. The Company actively monitors its

Table of Contents

**THE HALLWOOD GROUP INCORPORATED AND SUBSIDIARIES

Nine Months Ended September 30, 2007 and 2006
(unaudited)**

environmental compliance and while certain matters currently exist, management is not aware of any compliance issues which will significantly impact the financial position, operations or cash flows of the Company.

In August 2005, the Rhode Island Department of Health (RIDOH) issued a compliance order to Kenyon Industries, Inc., a wholly owned subsidiary of Brookwood, (Kenyon), alleging that Kenyon is a non-community water system and ordering Kenyon to comply with the RIDOH program for public water supply systems. Kenyon contested the compliance order and an administrative hearing was held in November 2005. No decision has been rendered. Complying with the RIDOH requirements would necessitate revamping of the plant s water supply system and associated costs of approximately \$100,000.

In August 2005, Kenyon received a Notice of Alleged Violation from The Rhode Island Department of Environmental Management (RIDEM) with notification that Kenyon had failed to comply timely with a requirement to test the destruction efficiency of a thermal oxidizer at its Kenyon plant and that when the test was conducted the equipment was not operating at the required efficiency. Since that time, Kenyon has upgraded and retested the equipment, which met the requirements on the retest. RIDEM has requested additional information regarding the failed test and Kenyon s remedial actions, which Kenyon has provided.

In February 2007, RIDEM issued a Notice of Violation (NOV) accompanied by a \$14,000 fine. Kenyon requested an informal hearing to dispute the allegations in the NOV and the fine. As a result of the informal hearing held in March 2007, a consent agreement was executed and a \$9,500 fine was remitted to RIDEM to close this matter.

In June 2007, RIDEM issued a NOV to Kenyon, alleging that the Company violated certain provisions of its wastewater discharge permit and seeking an administrative penalty of \$79,000. Kenyon filed an Answer and Request for Hearing to dispute certain allegations in the NOV and the amount of the penalty. The informal meeting was held on August 28,2007 and settlement negotiations are ongoing.

No differences have occurred in the basis or methodologies used in the preparation of this interim segment information from those used in the December 31, 2006 annual report. The total assets for the Company's operating segments have not materially changed since the December 31, 2006 annual report.

Note 12 Proposed Plan of Liquidation

In June 2007, the Company received a proposal from Anthony J. Gumbiner, the chairman of the board and beneficial owner of 66% of the outstanding common shares of the Company.

Mr. Gumbiner proposed that the Company's board of directors consider a liquidation of the Company that would include a sale of all of the Company's interests in its Brookwood subsidiary and a disposition of all of the Company's interests in Hallwood Energy. As part of the liquidation proposal, Mr. Gumbiner proposed that Brookwood be sold for cash and the net sale proceeds be distributed to all the Company shareholders pro rata. He also proposed that his pro rata portion of the Company's interests in Hallwood Energy be distributed to him and that he enter into negotiations to purchase the Company's remaining interests in Hallwood Energy for cash, which would be distributed to the other shareholders of the Company. Finally, Mr. Gumbiner proposed that if he were to purchase the Company's remaining interests in Hallwood Energy, other accredited and otherwise qualified shareholders of the Company be given the opportunity to receive in lieu of cash a pro rata portion of the Hallwood Energy interests.

Table of Contents

**THE HALLWOOD GROUP INCORPORATED AND SUBSIDIARIES

Nine Months Ended September 30, 2007 and 2006
(unaudited)**

The Company's board of directors established a special committee of directors to review the proposal. The special committee was authorized by the Company's board of directors to review any alternative proposals that may be received by the Company or the special committee.

In November 2007, Mr. Gumbiner advised the special committee that because his proposal to purchase the Company's interest in Hallwood Energy could conflict with Hallwood Energy's effort to obtain additional capital (as described in Item 2. Management's Discussion and Analysis of Financial Conditions and Results of Operation -

Liquidity and Capital Resources), among other things, he has withdrawn his proposal that the board of directors consider a liquidation of the Company. The board of directors determined that the special committee would continue to consider the Company's strategic alternatives with respect to Brookwood, however. There can be no assurance that the special committee will recommend that the Company take any action with respect to Brookwood, or that any transaction will be completed.

THE HALLWOOD GROUP INCORPORATED AND SUBSIDIARIES

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

General. The Company is a holding company with interests in textiles and energy.

Textile Products. The Company derives substantially all of its operating revenues from the textile activities of its Brookwood Companies Incorporated subsidiary (Brookwood); consequently, the Company's success is highly dependent upon Brookwood's success. Brookwood's success will be influenced in varying degrees by its ability to continue sales to existing customers, cost and availability of supplies, Brookwood's response to competition, its ability to generate new markets and products and the effect of global trade regulation. Although the Company's textile activities have generated positive cash flow in recent years, there is no assurance that this trend will continue.

While Brookwood has enjoyed substantial growth from its military business, there is no assurance this trend will continue. Brookwood's sales to the customers from whom it derives its military business have been more volatile and difficult to predict, a trend the Company believes will continue. In recent years, orders from the military for goods generally were significantly affected by the increased activity of the U.S. military. If this activity does not continue or declines, then orders from the military generally, including orders for Brookwood's products, may be similarly affected. Military sales of \$18,079,000 and \$46,626,000 for the 2007 third quarter and nine month periods, respectively, were 57% and 15% higher than the comparable periods in 2006 of \$11,541,000 and \$40,455,000.

The military had limited orders in the 2007 first quarter for existing products and adopted revised specifications for new products to replace the products for which Brookwood's customers have been suppliers. However, the U.S. government released orders in the 2007 second and third quarters for goods that include Brookwood's products which resulted in the substantial increase in military sales. Changes in specifications or orders presents a potential opportunity for additional sales; however, it is a continuing challenge to adjust to changing specifications and production requirements. Brookwood is currently conducting research and development on various processes and products intended to comply with the revised specifications and participating in the bidding process for the new military products. The 2007 third quarter sales includes revenue from some of these new military products. However, to the extent Brookwood's products are not included in future purchases by the U.S. government for any reason, Brookwood's sales could be adversely affected. In addition, the U.S. government is releasing contracts for shorter periods than in the past. The Company acknowledges the unpredictability in revenues and margins due to military sales and is unable at this time to predict future sale trends.

Unstable global nylon and chemical pricing, and increasing domestic energy costs, coupled with a varying product mix have continued to cause fluctuations in Brookwood's margins, a trend that appears likely to continue.

Brookwood continues to identify new market niches intended to replace sales lost to imports. In addition to its existing products and proprietary technologies, Brookwood has been developing advanced breathable, waterproof laminates and other materials, which have been well received by its customers. Continued development of these fabrics for military, industrial and consumer applications is a key element of Brookwood's business plan. The ongoing enterprise value of Brookwood is contingent on its ability to maintain its level of military business and adapt to the global textile industry; however, there can be no assurance that the positive results of the past can be sustained or that competitors will not aggressively seek to replace products developed by Brookwood.

The textile industry is also significantly affected by legislation and administrative actions restricting or liberalizing trade among world textile producing and consuming countries such as the North American Free Trade Agreement (NAFTA), the World Trade Organization (WTO), the anti-dumping and countervailing duty remedies and enforcement activities by the U.S. Government, and the value of the U.S. dollar in relation to other currencies and world economic developments. However, under NAFTA there are no textile and apparel quotas between the U.S. and either Mexico or Canada for products that meet certain origin criteria. Tariffs among the three countries are either already zero or are being phased out. Also, the WTO recently phased out textile and apparel quotas.

The U.S. has also approved the Central American-Dominican Republic Free Trade Agreement (CAFTA) with several Central American countries (Costa Rica, The Dominican Republic, El Salvador, Guatemala, Honduras and Nicaragua). Under CAFTA, textiles and apparel originating from CAFTA countries will be duty and quota-free,

provided that yarn formed in the U.S. or other CAFTA countries is used to produce the fabric. In addition, the United States recently implemented bilateral free trade agreements with Bahrain, Chile, Israel, Jordan, Morocco and Singapore. Although these actions have the effect of exposing

Table of Contents**THE HALLWOOD GROUP INCORPORATED AND SUBSIDIARIES****Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

Brookwood's market to the lower price structures of the other countries and, therefore, continuing to increase competitive pressures, management is not able to predict their specific impact.

The textile products business is not interdependent with the Company's other business operations. The Company does not guarantee the Brookwood bank facility and is not obligated to contribute additional capital.

Energy. Hallwood Energy is an upstream energy partnership engaging in the acquisition, development, exploration, production, and sale of hydrocarbons, with a primary focus on natural gas assets. Hallwood Energy's results of operations are and will be largely dependent on a variety of variable factors, including, but not limited to fluctuations in natural gas prices; success of its exploratory drilling activities; the ability to transport and sell its natural gas; regional and national regulatory matters; and the ability to secure, and price of, goods and services necessary to develop its oil and gas leases. As of September 30, 2007, the Company owned approximately 24% (19% after consideration of profit interests) of Hallwood Energy.

Hallwood Energy will require significant additional capital investment over the next few years to acquire additional properties and to adequately explore and develop existing and any new properties.

Refer also to the section Investments in and Loans to Hallwood Energy for a further description of the Company's energy activities.

Presentation

The Company intends the discussion of its financial condition and results of operations that follows to provide information that will assist in understanding its financial statements, the changes in certain key items in those financial statements from year to year, and the primary factors that accounted for those changes, as well as how certain accounting principles, policies and estimates affect its financial statements.

Results of Operations

The Company reported a net loss for the 2007 third quarter of \$367,000, compared to a net loss of \$848,000 in 2006. Revenue for the 2007 third quarter was \$32,576,000, compared to \$25,055,000 in 2006.

The net loss for the 2007 nine month period was \$8,264,000, compared to a net loss of \$883,000 in 2006. Revenue for the 2007 nine month period was \$92,949,000, compared to \$84,528,000 in 2006.

Revenues

Textile products sales of \$32,576,000 increased by \$7,521,000, or 30.0%, in the 2007 third quarter, compared to \$25,055,000 in 2006. Sales for the nine month period increased by \$8,421,000, or 10.0%, to \$92,949,000, compared to \$84,528,000 in 2006. The increase in the 2007 third quarter was principally due to an increase of sales of specialty fabric to U.S. military contractors, as a result of increased orders which included new products from the military to Brookwood's customers. Sales for the 2007 nine month period were up for the same reason, although sales in the 2007 first quarter had declined due to the limitation of military orders which were pending the adoption of revised specifications for new products to replace the products for which Brookwood's customers have been suppliers.

Sales to one customer, Tennier Industries, Inc. (Tennier) accounted for more than 10% of Brookwood's net sales during both the 2007 and 2006 three month and nine month periods. Its relationship with Tennier is ongoing. Sales to Tennier, which are included in military sales, were \$11,270,000 and \$26,840,000 in the 2007 third quarter and nine month periods, respectively, compared to \$6,958,000 and \$23,653,000 in 2006. Sales to Tennier represented 34.6% and 27.8% of Brookwood's net sales in the 2007 and 2006 quarters, respectively, and 28.9% and 28.0% in the 2007 and 2006 nine month periods, respectively. Sales to another customer, ORC Industries, Inc. (ORC) accounted for more than 10% of Brookwood's sales in 2006. Its relationship with ORC is ongoing. Sales to ORC, which are included in military sales, were \$1,932,000 and \$6,162,000 in the 2007 third quarter and nine month periods, respectively, compared to \$2,754,000 and \$10,025,000 in 2006. Sales to ORC represented 5.9% and 11.0% of Brookwood's net sales in the 2007 and 2006 quarters, respectively, and 6.6% and 11.9% in the 2007 and 2006 nine month periods, respectively.

Table of Contents**THE HALLWOOD GROUP INCORPORATED AND SUBSIDIARIES****Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

Through 2005, military sales, including the sales to Tennier and ORC, generally comprised an increased portion of Brookwood's total sales and a greater share of gross profit. However, Brookwood had experienced reduced military sales during 2006 and in the 2007 first quarter. Military sales accounted for \$18,079,000 and \$46,626,000 in the 2007 third quarter and nine month periods, respectively, compared to \$11,541,000 and \$40,455,000 in 2006. The military sales represented 55.5% and 46.1% of Brookwood's net sales in the 2007 and 2006 quarters, respectively, and 50.2% and 47.9% in the 2007 and 2006 nine month periods, respectively.

Expenses

Textile products cost of sales of \$26,049,000 for the 2007 third quarter increased by \$5,114,000, or 24.4%, compared to \$20,935,000 in 2006. Cost of sales of \$76,296,000 for the 2007 nine month period increased by \$6,543,000, or 9.4%, compared to \$69,753,000 in 2006. The 2007 third quarter increase principally resulted from higher sales and changes in product mix, while the increase for the 2007 nine month period was principally due to higher sales. Cost of sales includes all costs associated with the manufacturing process, including but not limited to, materials, labor, utilities, depreciation on manufacturing equipment and all costs associated with the purchase, receipt and transportation of goods and materials to Brookwood's facilities, including inbound freight, purchasing and receiving costs, inspection costs, internal transfer costs and other costs of the distribution network. Brookwood believes that the reporting and composition of cost of sales and gross margin is comparable with similar companies in the textile converting and finishing industry.

The higher gross profit margin for the 2007 third quarter, 20.0% versus 16.5%, principally resulted from higher sales volume and changes in product mix, while the higher gross profit margin for the 2007 nine month period, 17.9% versus 17.5%, principally resulted from higher sales.

Administrative and selling expenses were comprised of the following (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2007	2006	2007	2006
Textile products	\$ 3,905	\$ 3,556	\$ 10,880	\$ 10,335
Corporate	1,374	1,148	3,730	3,650
Total	\$ 5,279	\$ 4,704	\$ 14,610	\$ 13,985

Textile products administrative and selling expenses for the 2007 third quarter increased by \$349,000, or 9.8%, from 2006. For the nine months, selling and administrative expenses increased by \$545,000, or 5.3%, compared to 2006. The increase for the nine month period was primarily attributable to higher professional fees (\$112,000), salaries principally due to additional personnel associated with the implementation of Sarbanes-Oxley compliance systems and support of increased sales (\$307,000), rents (\$167,000) and increased sales commissions (\$226,000). Expenses for the 2007 nine month period were offset by reductions in one-time moving expenses incurred related to the Connecticut facility (\$223,000). The textile products administrative and selling expenses included items such as payroll, professional fees, sales commissions, marketing, rent, insurance, travel and royalties. Brookwood conducts research and development activities related to the exploration, development and production of innovative products and technologies. Research and development costs were approximately \$448,000 and \$495,000 in the 2007 and 2006 nine month periods, respectively.

Corporate administrative expenses increased by \$226,000, or 19.7%, for the 2007 third quarter, compared to 2006. For the nine months, corporate expenses increased by \$80,000, or 2.2%, compared to 2006. The increases were principally attributable to Sarbanes-Oxley costs of \$272,000 and \$534,000 and costs associated with the proposed plan

of liquidation discussed in Note 12 to the consolidated financial statements of \$77,000 and \$89,000 for the three month and nine month periods, respectively. Although professional fees were up \$35,000 for the 2007 three month period, they had decreased \$258,000 for the nine month period. Additionally, HIL's office expenses decreased by \$114,000 and \$244,000 for the 2007 three month and nine month periods, respectively.

Other Income (Loss)

For the 2007 third quarter, the equity loss from the Company's investments in Hallwood Energy, representing the Company's pro rata share of loss in Hallwood Energy, was \$1,272,000, compared to \$665,000 in 2006. For the nine months, the equity loss was \$13,648,000, compared to \$1,699,000 in 2006.

Table of Contents**THE HALLWOOD GROUP INCORPORATED AND SUBSIDIARIES****Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

In the 2007 first quarter, Hallwood Energy reported a loss of \$41,799,000, which included an impairment of \$31,680,000 associated with its oil and gas properties, and \$7,100,000, which represents the change in value of the make-whole fee in connection with the April 2007 prepayment of the former credit facility. The make-whole fee was included in interest expense.

In the 2007 second quarter, Hallwood Energy reported a loss of \$7,459,000, which included \$1,894,000, which represents the change in value of the make-whole fee in connection with the new credit facility and \$619,000 as a portion of a make-whole fee in connection with the former credit facility.

In the 2007 third quarter, Hallwood Energy reported a loss of \$5,344,000, which included interest expense of \$3,711,000 (including \$190,000 attributed to the make-whole fee on the new credit facility). Revenue for the 2007 third quarter was \$1,851,000.

In July 2007, Hallwood Energy announced its first gas sales from its newly constructed gathering system in Central Eastern Arkansas. Natural gas began flowing through the system at rates exceeding 6 million cubic feet of gas per day with a current rate of 7,000 cubic feet of gas per day. The \$12,000,000 system currently in service contains 22 miles of gathering pipelines in White County and Hallwood Energy anticipates an additional six mile expansion to support the three rig drilling program presently underway.

The 2006 results for Hallwood Energy included production from two wells in North Texas that were sold in July 2006. Operations in the West Texas and Central Eastern Arkansas regions are in the exploitation stage at September 30, 2007, while South Louisiana remains in the exploration stage.

The Company earned interest income of \$92,000 for the 2007 nine month period from loans it made to Hallwood Energy in the period from March to May 2007.

Interest expense was \$301,000 and \$810,000 in the 2007 third quarter and nine month periods, respectively, compared to \$156,000 and \$407,000 in the 2006 periods. Interest expense principally relates to Brookwood's revolving credit facilities. The increases in interest expense were principally due to an increase in the average outstanding loan amount.

Interest and other income was \$33,000 and \$269,000 in the 2007 third quarter and nine month periods, respectively, compared to \$151,000 and \$385,000 in 2006. The decreases in the 2007 periods are principally attributable to reduced interest income earned on lower balances of cash and cash equivalents, partially offset by a gain from the sale of a marketable security sold in March 2007.

Income Taxes

Following is a schedule of income tax expense (benefit) (in thousands):

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2007	2006	2007	2006
Federal				
Deferred	\$ (168)	\$ (227)	\$ (4,259)	\$ (246)
Current		(230)		(230)
Sub-total	(168)	(457)	(4,259)	(476)
State				
Deferred			(43)	
Current	243	51	512	428
Sub-total	243	51	469	428

Total	\$ 75	\$ (406)	\$ (3,790)	\$ (48)
-------	-------	----------	------------	---------

At September 30, 2007, the deferred tax asset was attributable to a projected taxable loss for 2007 that can be carried back for a refund, temporary differences, that upon reversal, could be utilized to offset income from operations and alternative minimum

Table of Contents**THE HALLWOOD GROUP INCORPORATED AND SUBSIDIARIES****Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

tax credits. The effective federal tax rate in both periods was 34%, while state taxes are determined based upon taxable income apportioned to those states in which the Company does business at their respective tax rates.

Investments in and Loans to Hallwood Energy

At September 30, 2007, the Company owned approximately 24% (19% after consideration of profits interests) of Hallwood Energy. Certain members of Hallwood Energy's management and employees hold profit interests in Hallwood Energy totaling approximately 19%, which entitle the holders to an allocable percentage of Hallwood Energy's net profits after repayment of all obligations and the capital contributions by its partners. The Company accounts for this investment using the equity method of accounting and records its pro rata share of Hallwood Energy's net income (loss) and partner capital transactions.

A description of Hallwood Energy's activities during 2007 are provided below.

Loan Financing. In February 2006, Hallwood Energy entered into a \$65,000,000 loan facility, and had drawn \$40,000,000 as of December 31, 2006. Subsequent to December 31, 2006, Hallwood Energy was not in compliance with the proved collateral coverage ratio.

In March and April 2007, the Company loaned a total of \$5,000,000 and \$4,000,000, respectively, to Hallwood Energy, of which \$7,000,000 was in the form of demand notes bearing interest at 6% above prime rate, and \$2,000,000 was an advance that was repaid four days later with interest. In April 2007, Hallwood Energy made a request for additional capital contributions in the amount of \$25,000,000 (the April Call). The Company and Hallwood Energy had agreed that the \$7,000,000 of loans would be applied as the Company's portion of the April Call. On May 10, 2007, Hallwood Energy repaid \$257,000 to the Company, which represented the excess of the \$7,000,000 loaned over the Company's share of the capital contribution and related oversubscription.

In April 2007, Hallwood Energy entered into a \$100,000,000 senior secured credit facility (the Credit Facility) with an affiliate of one of the investors and drew \$65,000,000 from the Credit Facility. The proceeds were used to repay \$40,000,000 in an existing note payable, pay approximately \$9,800,000 for a make-whole fee and incremental interest of approximately \$500,000 to the original lender related to the \$40,000,000 note payable, and transaction fees of approximately \$200,000.

During the 2007 third quarter, Hallwood Energy drew an additional \$20,000,000 under the Credit Facility. At September 30, 2007, the remaining availability was \$15,000,000, all of which was drawn in October 2007.

The Credit Facility is secured by Hallwood Energy's oil and gas leases, matures on February 1, 2010, and bears interest at a rate of the defined LIBOR rate plus 10.75% per annum. An additional 2% of interest is added upon continuance of any defaulting event. The new lender may demand that Hallwood Energy prepay the outstanding loans in the event of a defined change of control, qualified sale or event of default, including a material adverse event. In conjunction with executing the Credit Facility, the New Lender resigned its position on the board of directors and assigned its interest in the general partner to the remaining members.

The Credit Facility contains various financial covenants, including maximum general and administrative expenditures and current and proved collateral coverage ratios. The proved collateral coverage ratio covenant is effective June 30, 2008. Non-financial covenants restrict the ability of Hallwood Energy to dispose of assets, incur additional indebtedness, prepay other indebtedness or amend certain debt instruments, pay dividends, create liens on assets, enter into sale and leaseback transactions, make investments, loans or advances, make acquisitions, engage in mergers or consolidations or engage in certain transactions with affiliates, and otherwise restrict certain activities by Hallwood Energy. In October 2007, Hallwood Energy entered into an amendment of its Credit Facility to modify the calculation of the current ratio to include certain capital funding commitments.

The Credit Facility contains a make-whole provision whereby Hallwood Energy is required to pay the New Lender the amount by which the present value of interest and principal from the date of prepayment through January 31, 2009, exceeds the principal amount on the prepayment date. The New Lender received warrants exercisable for 2.5% of the partnership interests at an exercise price of 2.5% of 125% of the amount of the total capital contributed to Hallwood Energy at December 31, 2006.

Equity Investments. In November 2006, Hallwood Energy requested an additional capital contribution in the amount of \$25,000,000 from its partners. The Company invested an additional \$6,281,000 to maintain its proportionate interest in Hallwood Energy. The Company utilized a \$452,000 capital contribution receivable to reduce its cash contribution to \$5,829,000. In addition, certain other investors in Hallwood Energy did not elect to fund their proportionate interest of the additional capital

Table of Contents**THE HALLWOOD GROUP INCORPORATED AND SUBSIDIARIES****Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

contribution; therefore, in December 2006, the Company invested an additional \$425,000 and \$2,000 in January 2007 in excess of its proportionate interest. These contributions were made from existing cash.

Hallwood Energy issued the \$25,000,000 April Call to its partners on April 14, 2007, which was successfully completed in May 2007. Previously, Hallwood Energy received loans of \$7,000,000 each from the Company and an affiliate of the new lender. These advances were applied to the April Call. In May, Hallwood Energy repaid \$257,000 to the Company, which represented the excess of the \$7,000,000 advanced over the Company's share of the capital contribution and related oversubscription.

In April 2007, Hallwood Investments Limited (HIL), a corporation associated with Mr. Anthony J. Gumbiner, the Company's chairman and principal stockholder, and the New Lender each committed to fund one-half of the April Call and potential additional equity or subordinated debt funding calls totaling \$55,000,000 by Hallwood Energy, to the extent other investors, including the Company, did not respond to a call. Hallwood Energy issued a \$20,000,000 equity call to its partners on May 21, 2007 (the May Call), which was due on July 1, 2007. The Company's proportionate share of the May Call was \$5,091,000. Due to the fact that the Company did not have available sufficient cash, the Company contributed only \$2,501,000 towards the May Call. Because of the Company's inability to meet its full equity call requirement, HIL funded \$2,591,000 of the May Call that was not funded by the Company. In connection with the funding of this amount, Mr. Gumbiner agreed with a special committee of the board of directors of the Company that he would discuss the terms of this investment in the future. The May Call was fully satisfied in August 2007.

Hallwood Energy issued a \$15,000,000 equity call to its partners on August 23, 2007 (the August Call) which was due on September 14, 2007. The Company's proportionate share of the August Call was \$3,683,000. Due to the fact that the Company did not have available sufficient cash, the Company contributed only one-half, or \$1,842,000, towards the August Call. Because of the Company's inability to meet its full equity call requirement, HIL funded \$1,842,000 of the August Call that was not funded by the Company. In October 2007, the special committee appointed to consider the terms of HIL's funding of these capital calls acknowledged the terms of the funding of the capital calls by HIL and determined that, in light of the circumstances, including the Company's recent and current inability to fund any amounts beyond those it has made, no further action was required.

As a result of the receipt of sufficient equity contributions from the April, May and August Calls, the \$55,000,000 commitment from HIL and the New Lender was extinguished.

Hallwood Energy issued preferred partnership interests that have a preferential right to any distributions made by Hallwood Energy from operations or upon liquidation for the April, May and August calls. The preferential right is equal to the amount of the capital contributed with respect to the preferred interest plus 16% per annum, compounded monthly. The preferred interests will receive this priority return before any amounts are paid to the common interests issued for all previous investments in Hallwood Energy. The capital contributed plus the accumulated 16% return attributable to any preferred interest is also convertible to common partnership interests at any time at a price equal to the price of the common partnership interests at December 31, 2006. Distributions on the preferred partnership interests will be accrued and become payable when, as and if declared by the general partner of Hallwood Energy. Hallwood Energy does not anticipate paying any distributions in the foreseeable future.

In November 2007, Hallwood Energy received \$15,000,000 from a new equity partner. In addition, HIL, another existing investor in Hallwood Energy, and the New Lender entered into a letter agreement providing for a total of up to \$15,000,000 in additional funding. Under the terms of this letter, HIL agreed to advance \$7,500,000 and the other investor agreed to advance \$3,000,000 to Hallwood Energy no later than November 15, 2007. These advances will constitute loans to Hallwood Energy with an interest rate of 16% per annum and a maturity of March 1, 2010. Hallwood Energy may repay the advances at any time without penalty in connection with a recapitalization of Hallwood Energy providing for net proceeds not less than the amount being repaid. If any part of these advances remain outstanding on January 2, 2008, then on that date the outstanding amount will automatically be converted into preferred partnership interests having the same terms as the existing class of preferred partnership interests. In

addition, if any portion of the advances is converted into preferred partnership interests on January 2, 2008, then the New Lender agrees to contribute to Hallwood Energy the same proportion of \$4,500,000 in exchange for preferred partnership interests. Hallwood Energy also agreed that if any portion of the agreed funding from HIL or the other existing investor is not made, it shall be an event of default under the Credit Facility. Hallwood Energy is in the process of seeking additional capital to finance its proposed 2008 operating budget.

Litigation. In early 2006, Hallwood Energy and Hallwood Petroleum entered into two two-year contracts with Eagle Drilling, LLC (Eagle Drilling), under which the contractor was to provide drilling rigs and crews to drill wells in Arkansas at a daily rate

Table of Contents**THE HALLWOOD GROUP INCORPORATED AND SUBSIDIARIES****Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

of \$18,500, plus certain expenses for each rig (the Contracts). These Contracts were subsequently assigned by Eagle Drilling, LLC to Eagle Domestic Drilling Operations, LLC (Eagle Domestic), on or about August 24, 2006. Before that, on or about August 14, 2006, one of the masts on the rigs provided under the Contracts collapsed. Hallwood Energy and Hallwood Petroleum requested the contractor to provide assurances that the mast on the other rig, and any mast provided to replace the collapsed mast, were safe and met the requirements of the Contracts. When the contractor refused to provide assurances, Hallwood Energy and Hallwood Petroleum notified the contractor that the Contracts were terminated and on September 6, 2006, filed *Hallwood Petroleum, LLC and Hallwood Energy, L.P. v. Eagle Drilling, LLC and Eagle Domestic Drilling Operations, LLC*, in the 348th District Court of Tarrant County, Texas to recover approximately \$1,688,000 previously deposited with the contractor under the Contracts. Since then, Eagle Domestic and its parent filed for Chapter 11 bankruptcy protection in Case No. 07-30426-H4-11, Jointly Administered Under Case No. 07-30424-H4-11, in the United States District Court for the Southern District of Texas. After the filing of its bankruptcy case, Eagle Domestic filed an adversary action on June 11, 2007 against Hallwood Energy and Hallwood Petroleum in the bankruptcy proceeding to recover unspecified damages, but purportedly in excess of \$10,000,000 (the Eagle Domestic Adversary). Hallwood Energy subsequently filed its answer and counterclaim in the Eagle Domestic Adversary asserting that Hallwood Energy owes nothing to Eagle Domestic, and that Eagle Domestic owes Hallwood approximately \$1,688,000 in unearned pre-payment under the Contracts. A jury trial in the Eagle Domestic Adversary is currently set for April 2008. In October 2006, Eagle Drilling filed a related lawsuit against Hallwood Energy and Hallwood Petroleum in Oklahoma state court (the Eagle Drilling Action) alleging damages of over \$1,000,000 in connection with unpaid invoices, unpaid downtime and other damages caused as a result of the mast collapsing. In June 2007, the petition in the Eagle Drilling Action was amended to include various additional claims for breach of contract, negligence, tortious breach of contract and for declaratory relief against Hallwood Energy and Hallwood Petroleum. On September 20, 2007, Eagle Drilling filed for Chapter 11 bankruptcy protection in the United States Bankruptcy Court for the Western District of Oklahoma. On October 12, 2007, Hallwood Energy filed its Notice of Removal of the Cleveland County Action in Oklahoma Bankruptcy Court, which initiated Adversary Proceeding No. 07-01209 (the Eagle Drilling Adversary) and automatically removed the Eagle Drilling Action to the Oklahoma Bankruptcy Court. Hallwood Energy anticipates asserting its claims for return of the approximately \$1,688,000 in unearned pre-payment from Eagle Drilling, as a counterclaim against Eagle Drilling in the Eagle Drilling Adversary. On November 11, 2007, Eagle Drilling filed its Motion to Remand the Eagle Drilling Adversary back to Oklahoma state court, or in the alternative to abstain from hearing the claims asserted therein. Hallwood Energy and Hallwood Petroleum are currently unable to determine the impact that this litigation may have on its results of operations or its financial position.

The following table reflects the status of Hallwood Energy's oil and gas investments as of November 1, 2007:

Description	Central	South	West	Total
	Eastern	Louisiana	Texas (a)	
Principal focus	Arkansas Fayetteville Shale	Salt Dome	Barnett and Woodford Shale	
Initial funding	3 rd Quarter 2005	1 st Quarter 2004	3 rd Quarter 2004

THE HALLWOOD GROUP INCORPORATED AND SUBSIDIARIES

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

- a) Hallwood Energy owns a 40% working interest in these properties.
- b) Represents \$40,960,000 in 2005, \$9,427,000 in 2006, \$2,000 in January 2007, \$6,744,000 in April 2007, \$2,501,000 in June 2007, \$1,843,000 in September 2007 and \$4,000 in October 2007.
- c) Before and after consideration of profit interests held by management of Hallwood Energy.
- d) Net acres held is the sum of the total number of acres in which Hallwood Energy owns a working interest multiplied by Hallwood Energy's fractional working interest.
- e) Hallwood Energy holds options to

acquire leases on approximately 17,000 acres. Based on the results of 3-D seismic data that have been analyzed, approximately 4,000-8,000 acres are expected to be retained for future development.

- f) All wells are natural gas wells. Represents the gross number of wells in which Hallwood Energy holds a working interest.

A description of activities in each area is provided below. Forward looking information is from current estimates by the management of Hallwood Energy, based on existing and anticipated conditions.

Central Eastern Arkansas

The primary objective formation is the Fayetteville Shale, which appears to range in depth from approximately 2,700 to 9,400 feet and to have a thickness of 300 to 700 feet.

Hallwood Energy commenced drilling activities in the 2006 first quarter and is currently drilling with three rigs under a long term contract. However, Hallwood Energy has executed an amendment with the rig contractor to revise the contract to provide for three rigs in 2007 and two rigs in 2008. Hallwood Energy's 2007 budget forecasts 25 gross wells to be drilled in this area utilizing the three rigs. Hallwood Gathering, L.P. is currently constructing a 28 mile six, eight and twelve-inch gathering system (22 miles already in service) in White County with a capacity of 15 million cubic feet of gas per day (Mcf/d), with expansion potential to 60 Mcf/d. Natural gas sales began in July 2007.

South Louisiana

Hallwood Energy holds options to acquire leases over approximately 17,000 acres to exploit a salt dome oil and gas opportunity in St. James, Ascension and Assumption parishes. Based on the results of the 3-D seismic data that has been analyzed, approximately 4,000 to 8,000 acres are expected to be retained for future development. Hallwood Energy has secured two rigs, the first rig started in October 2006 and has recently fulfilled its two well commitment. The second rig began drilling in December 2006 and is under contract for two years. The expectations for 2007 are that 5 wells will be drilled. Additional drilling equipment and funding will be assessed and determined based on the results of the initial wells.

West Texas

Hallwood Energy sold a 60% interest and transferred operations in these properties to Chesapeake in July 2006. Chesapeake has drilled to total depth on seven wells. Two of these wells are currently producing and selling gas and two wells are waiting on completion. Chesapeake has fulfilled its drilling operations as defined by the purchase and sale agreement for their 60% working interest. The 2007 budget provided for these rigs to drill five gross wells in West Texas, which have been completed.

Fort Worth Basin, North Texas

These properties were sold to Chesapeake in July 2006. Hallwood Energy no longer has any involvement in activities related to these properties. Hallwood Energy's operating revenues in the year ended December 31, 2006 were from the two producing wells on these properties.

Critical Accounting Policies

There have been no changes to the critical accounting policies identified and set forth in the Company's Form 10-K for the year ended December 31, 2006.

Table of Contents**THE HALLWOOD GROUP INCORPORATED AND SUBSIDIARIES****Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS****Contractual Obligations and Commercial Commitments**

The Company and its subsidiaries have entered into various contractual obligations and commercial commitments in the ordinary course of conducting its business operations, which are provided below as of September 30, 2007 (in thousands):

	Payments Due During the Year Ending December 31,						Total
	2007*	2008	2009	2010	2011	Thereafter	
Contractual Obligations							
Long term debt	\$ 63	\$ 157	\$ 27	\$ 16,968	\$	\$	\$ 17,215
Redeemable preferred stock				1,000			1,000
Operating leases	260	1,012	659	626	349	1,697	4,603
Total	\$ 323	\$ 1,169	\$ 686	\$ 18,594	\$ 349	\$ 1,697	\$ 22,818

* For the three months ended December 31, 2007.

Interest costs associated with the Company's debt, which principally bears interest at variable rates, are not a material component of the Company's expenses. Estimated interest payments, based on the current principal balances and weighted average interest rates, assuming the contractual repayment of the term loan debt and a renewal of the revolving credit facilities at their loan balances as of September 30, 2007, are \$302,000 for the three months ending December 31, 2007 and \$1,202,000, \$1,195,000, \$1,195,000, and \$1,195,000, for the years ending December 31, 2008 through December 31, 2011, respectively.

Employment Contracts. The Company and its Brookwood subsidiary have compensation agreements with various personnel and consultants. Generally, the agreements extend for one-year terms and are renewable annually.

2005 Long-Term Incentive Plan for Brookwood. In December 2005, the Company adopted The Hallwood Group Incorporated 2005 Long-Term Incentive Plan for Brookwood Companies Incorporated (2005 Long-Term Incentive Plan for Brookwood) to attract, retain and motivate key personnel of Brookwood. The terms of the incentive plan provide for a total award amount to participants equal to 15% of the fair market value of consideration received by the Company in a change of control transaction, as defined, in excess of the sum of the liquidation preference plus accrued unpaid dividends on the Brookwood preferred stock (approximately \$20,597,000 at September 30, 2007). Provided certain circumstances are met, the minimum total award amount shall be \$2,000,000. In addition, if certain members of Brookwood senior management do not have at least a two percent equity or debt interest in the entity with which the change of control transaction is completed, then the Company will be obligated to pay an additional \$2,600,000.

Hallwood Energy. The Company's Hallwood Energy affiliate has various contractual obligations and commercial commitments. At September 30, 2007, such obligations and commitments included \$85,000,000 for long-term debt, \$18,473,000 for interest, \$37,364,000 for long-term rig commitments and \$80,000 for operating leases.

Financial Covenants

The principal ratios, required to be maintained under Brookwood's Working Capital Revolving Credit Facility for the last four quarters are provided below:

Description	Requirement	Quarters Ended			
		September 30, 2007	June 30, 2007	March 31, 2007	December 31, 2006
Total debt to tangible net worth	must be less than ratio of 1.50	1.41	1.23	1.08	0.93
Net income	must exceed \$1.00	Yes	Yes	Yes	Yes

Brookwood was in compliance with its loan covenants under the Working Capital Revolving Credit Facility for the first three quarters in 2007 and for all quarters in 2006.

Hallwood Energy. The principal ratios and covenants required to be maintained by Hallwood Energy under its Credit Facility are provided below:

Page 31

Table of Contents

THE HALLWOOD GROUP INCORPORATED AND SUBSIDIARIES

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

General and administrative costs, excluding certain legal fees, can not exceed \$1,700,000 for any quarter, beginning June 30, 2007

Current ratio, as defined, must exceed 1.00 to 1.00 each quarter, beginning June 30, 2007

Proved collateral coverage ratio (including cash) must exceed 2.00 to 1.00 each quarter, beginning June 30, 2008

Non-financial covenants restrict the ability of Hallwood Energy to dispose of assets, incur additional indebtedness, prepay other indebtedness or amend certain debt instruments, pay dividends, create liens on assets, enter into sale and leaseback transactions, make investments, loans or advances, make acquisitions, engage in mergers or consolidations or engage in certain transactions with affiliates, and otherwise restrict certain activities by Hallwood Energy. The new lender may demand that Hallwood Energy prepay the outstanding loan, including the make-whole fee, in the event of a defined change of control, qualified sale or event of default, including a material adverse event. In October 2007, Hallwood Energy entered into an amendment of its Credit Facility to modify the calculation of the current ratio to include certain capital funding commitments.

Hallwood Energy was in compliance with its loan covenants for the quarters ended September 30, 2007 and June 30, 2007.

Table of Contents**THE HALLWOOD GROUP INCORPORATED AND SUBSIDIARIES****Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS****Liquidity and Capital Resources**

General. The Company principally operates in the textile products and energy business segments. The Company's cash position decreased by \$7,905,000 during the 2007 nine month period to \$2,149,000 as of September 30, 2007. The principal source of cash was \$6,323,000 from net bank borrowings. The primary uses of cash were \$2,131,000 for operating activities, \$11,093,000 for additional investments in Hallwood Energy and \$1,005,000 for property, plant and equipment.

Textiles. The Company's textile products segment generates funds from the dyeing, laminating and finishing of fabrics and their sale to customers in the consumer, industrial, medical and military markets. Brookwood maintains a \$22,000,000 working capital revolving credit facility and a \$3,000,000 equipment facility. The facilities have a maturity date of January 2010. At September 30, 2007, Brookwood had approximately \$5,032,000 of unused borrowing capacity on its working capital revolving credit facility and \$2,753,000 on its equipment facility.

Brookwood paid cash dividends to the Company of \$4,500,000 in the 2007 period through September 30, 2007 and \$6,000,000 for all of 2006. In addition, Brookwood made payments to the Company of \$1,052,000 in the 2007 period through September 30, 2007 and \$738,000 for all of 2006 under its tax sharing agreement. Future cash dividends and tax sharing payments are contingent upon Brookwood's continued compliance with the covenants contained in the credit facility. Brookwood was in compliance with its loan covenants for each of the three quarters ended September 30, 2007 and for all quarters in 2006. As Brookwood's total debt to tangible net worth ratio (1.41 at September 30, 2007) approaches the maximum allowable rate of 1.50, future dividends from Brookwood may be limited. The increase in the ratio is principally attributable to an increase in inventory and receivables required by the increased sales and the payment of dividends to the Company in excess of Brookwood's current earnings. There were no significant additional capital requirements as of September 30, 2007.

Energy. In February 2006, Hallwood Energy entered into a \$65,000,000 loan facility, and had drawn \$40,000,000 as of December 31, 2006. Subsequent to December 31, 2006, Hallwood Energy was not in compliance with the provided collateral coverage ratio. In April 2007, Hallwood Energy repaid the \$40,000,000 outstanding principal balance of the former loan from proceeds of a new \$100,000,000 Credit Facility, under which it had drawn \$65,000,000.

Prior to the April 2007 funding under the Credit Facility, the Company had loaned \$7,000,000 to Hallwood Energy pursuant to demand notes bearing interest at 6% above prime rate. In April 2007, Hallwood Energy made a request for additional capital contributions in the amount of \$25,000,000. The Company and Hallwood Energy had agreed that the \$7,000,000 amount previously loaned would be applied as the Company's portion of this capital call. On May 10, 2007, Hallwood Energy repaid \$257,000 to the Company, which represented the excess of \$7,000,000 advanced over the Company's share of the capital contribution and related oversubscription.

In April 2007, HIL and the New Lender each committed to fund one-half of the April Call and potential additional equity or subordinated debt funding calls totaling \$55,000,000 by Hallwood Energy, to the extent other investors, including the Company, do not respond to a call. On May 21, 2007, Hallwood Energy issued a \$20,000,000 equity call, the May Call, to its partners, which was due on July 1, 2007, of which the Company's proportionate share was \$5,091,000. The Company funded \$2,500,000 of the May Call since the Company did not have funds available to fully subscribe to its proportionate share. On August 23, 2007, Hallwood Energy issued a \$15,000,000 equity call, the August Call, to its partners which was due September 14, 2007, of which the Company's proportionate share was \$3,684,000. The Company funded one-half, or \$1,842,000, of the August Call since the Company did not have funds available to fully subscribe to its proportionate share and does not anticipate it will have funds to contribute substantial capital in connection with future calls. To the extent the Company does not make future capital contributions in proportion to its interest in Hallwood Energy, its percentage ownership interest will be reduced.

Hallwood Energy anticipates that it will require \$30,000,000 of additional capital contributions in the fourth quarter of 2007. In November 2007, Hallwood Energy received \$15,000,000 of this amount from a new equity partner. In addition, HIL, another existing investor and the New Lender entered into a letter agreement providing up to

\$15,000,000 of additional funding to Hallwood Energy. Hallwood Energy also anticipates that it will likely require in excess of \$80,000,000 to finance its tentative proposed 2008 operating budget and is in the process of seeking additional capital from external sources. The actual level of Hallwood Energy's capital requirements during 2008 and thereafter will depend on a number of factors that cannot be determined at this time, including future gas prices, costs of field operations, the ability to successfully identify and acquire prospective properties and drill and complete wells, access to gathering and transportation infrastructure, and the availability of alternative sources of capital, such as loans from third parties or equity contributions from new investors.

Page 33

THE HALLWOOD GROUP INCORPORATED AND SUBSIDIARIES

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Future Liquidity. The Company's ability to generate cash flow from operations will depend on its future performance and its ability to successfully implement business and growth strategies. The Company's performance will also be affected by prevailing economic conditions. Many of these factors are beyond the Company's control. Considering its current cash position, its anticipated cash flow from operation and an additional income tax refund of approximately \$4,500,000 in the 2007 fourth quarter, the Company believes it has sufficient funds to meet its liquidity needs, although the Company is unlikely to be able to fund substantial additional capital contributions to Hallwood Energy.

Table of Contents

THE HALLWOOD GROUP INCORPORATED AND SUBSIDIARIES

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

In the interest of providing stockholders with certain information regarding the Company's future plans and operations, certain statements set forth in this Form 10-Q relate to management's future plans, objectives and expectations. Such statements are forward-looking statements. Although any forward-looking statement expressed by or on behalf of the Company is, to the knowledge and in the judgment of the officers and directors, expected to prove true and come to pass, management is not able to predict the future with absolute certainty. Forward-looking statements involve known and unknown risks and uncertainties, which may cause the Company's actual performance and financial results in future periods to differ materially from any projection, estimate or forecasted result. Among others, these risks and uncertainties include those described in the Company's Form 10-K for the year ended December 31, 2006 in the section entitled "Business Competition, Risks and Other Factors". These risks and uncertainties are difficult or impossible to predict accurately and many are beyond the control of the Company. Other risks and uncertainties may be described, from time to time, in the Company's periodic reports and filings with the Securities and Exchange Commission.

Table of Contents

THE HALLWOOD GROUP INCORPORATED AND SUBSIDIARIES

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes to the Company's market risks during the quarter ended September 30, 2007.

The Company is exposed to market risk due to fluctuations in interest rates. The Company historically has utilized both fixed rate and variable rate debt to finance its operations. As of September 30, 2007, the Company's total outstanding loans payable of \$17,215,000 were comprised of \$73,000 of fixed rate debt and \$17,142,000 of variable rate debt. There is inherent rollover risk for borrowings as they mature and are renewed at current market rates. The extent of this risk is not quantifiable or predictable because of the variability of future interest rates and the Company's future financing requirements. A hypothetical increase in interest rates of one percentage point would cause an annual loss in income and cash flows of approximately \$172,000, assuming that outstanding debt remained at current levels.

The Company does not have any derivative financial instruments as of September 30, 2007.

Hallwood Energy has a make-whole provision contained within its former and current loan facilities. The make-whole fee is recorded at its estimated fair value on Hallwood Energy's balance sheet and changes in its fair value are recorded in interest expense in Hallwood Energy's statement of operations.

Table of Contents

THE HALLWOOD GROUP INCORPORATED AND SUBSIDIARIES

Item 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures. It is the conclusion of the Company's principal executive officer and principal financial officer that the Company's disclosure controls and procedures (as defined in Exchange Act rules 13a-15(e) and 15d-15(e)), based on their evaluation of these controls and procedures as of the end of the period covered by this Form 10-Q, are effective at the reasonable assurance level in ensuring that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Company's management, including its executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Management necessarily applied its judgment in assessing the costs and benefits of such controls and procedures, which, by their nature, can provide only reasonable assurance regarding management's control objectives. The design of any system of controls and procedures is based in part upon certain assumptions about the likelihood of future events. There can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote.

In August 2003, the Company's independent registered public accounting firm provided written communications to management and the audit committee on the need to improve the financial closing process at the Brookwood subsidiary. In April 2004, the Company received a further written communication from the independent registered public accounting firm to management and the audit committee on the continued need to improve the Brookwood financial closing process. In March 2005, April 2006 and May 2007, the Company received communications from its independent registered public accounting firm that further improvements in the financial systems and processes at its Brookwood subsidiary are still required. With the addition of new staff, Brookwood's management believes it has made substantial progress both in the timeliness and accuracy of the closing process. In addition, Brookwood is currently implementing a new order processing, manufacturing cost and inventory control system. It has updated its general ledger system, which is integrating various accounting processes. The new systems will further aid in accelerating and automating the financial closing process.

Internal Controls. Other than the improvements noted above, there were no changes in the Company's internal controls over financial reporting that occurred during the last fiscal quarter that have materially affected or are reasonably likely to materially affect these controls.
