PROSPECTUS

Maximum Offering of $2,200,000,000
Minimum Offering of $2,000,000

We are a recently formed company that intends to invest in a diversified portfolio of medical office buildings, healthcare-related facilities and quality commercial office properties. We may also invest up to 15.0% of our total assets in real estate related securities. We are externally managed by Grubb & Ellis Healthcare REIT Advisor, LLC, our advisor, which is an affiliate of ours. We intend to qualify as a real estate investment trust, or REIT, for federal income tax purposes beginning with our taxable year ending December 31, 2007.

We are offering to the public up to $2,000,000,000 in shares of our common stock in our primary offering for $10.00 per share and $200,000,000 in shares of our common stock to be issued pursuant to our distribution reinvestment plan for $9.50 per share during our primary offering. We reserve the right to reallocate the shares of common stock we are offering between the primary offering and the distribution reinvestment plan.

This investment involves a high degree of risk. You should purchase these securities only if you can afford the complete loss of your investment. See Risk Factors beginning on page 15 to read about risks you should consider before buying shares in our common stock. These risks include:

- No public market exists for our shares. Our shares cannot be readily sold and there are significant restrictions on the ownership, transferability and redemption of our shares. If you are able to sell your shares, you would likely have to sell them at a substantial discount.

- This is considered a blind pool offering because we have acquired a limited number of properties and have not identified most of the properties or securities we plan to acquire with the proceeds from this offering. As a result, you will not be able to evaluate the economic merits of most of our investments prior to purchasing shares.

- The amount of distributions we may pay, if any, is uncertain. Due to the risks involved in the ownership of real estate, there is no guarantee of any return on your investment in us and you may lose money.

- We may incur debt up to 300% of our net assets, or more if such excess is approved by a majority of our independent directors, which could lead to an inability to pay distributions to our stockholders.

- We may be required to borrow money, sell assets or issue new securities for cash to pay our distributions.

- Distributions payable to our stockholders may include a return of capital, which will lower your tax basis in our shares.

- We rely on our advisor and its affiliates for our day-to-day operations and the selection of our investments. We will pay substantial fees to our advisor and its affiliates for these services and the agreements governing these fees were not negotiated at arm s-length.

Some of our officers and one of our directors are officers of our advisor and our sponsor, which manages our advisor. Some of the owners of our sponsor are owners of our property manager and dealer manager. As a result, our sponsor and its affiliates will face conflicts of interest, including significant conflicts in allocating time among us and similar programs sponsored by our sponsor.

If we fail to qualify as a REIT, it would adversely affect our operations and our ability to make distributions to our stockholders.

Neither the Securities and Exchange Commission, the Attorney General of the State of New York nor any other state securities regulator has approved or disapproved of these securities, passed on or endorsed the merits of this offering or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense. The use of projections or forecasts in this offering is prohibited. Any representation to the contrary and any predictions, written or oral, as to the cash benefits or tax consequences you will receive from an investment in shares of our common stock is prohibited.

* The selling commissions and all or a portion of the marketing support fee will not be charged with regard to shares sold in our primary offering to or for the account of our directors and officers, our affiliates and certain persons affiliated with broker-dealers participating in the primary offering. Selling commissions will not be charged for shares sold in the primary offering to investors that have engaged the services of a financial advisor paid on a fee-for-service basis by the investor. Selling commissions will be reduced in connection with sales of certain minimum numbers of shares. The reduction in these fees will be accompanied by a corresponding reduction in the per share purchase price. See Plan of Distribution.

Our shares will be offered to investors on a best efforts basis through NNN Capital Corp., our affiliate and an affiliate of our advisor and the dealer manager for this offering. The minimum initial investment is $1,000, except for purchases by (1) our existing stockholders, including purchases made pursuant to our distribution reinvestment plan, and (2) existing investors in other programs sponsored by our sponsor, Grubb & Ellis Company, or any of our sponsor s affiliates, which may be in lesser amounts.

As of January 8, 2007, excluding shares purchased by our executive officers and directors, our dealer manager and our advisor and its affiliates, we had received and accepted subscriptions in our offering for 200,846 shares of common stock, or $2,004,000, thereby exceeding the minimum offering. Having raised the minimum offering, the offering proceeds were released by the escrow agent to us and are available for the acquisition of properties and the other purposes disclosed in the prospectus. As of December 7, 2007, we had received and accepted subscriptions in our offering for 19,995,950 shares of common stock, or approximately $199,720,000, excluding shares issued pursuant to our distribution reinvestment plan. We will sell shares until the earlier of September 20, 2009, or the date on which the maximum has been sold.

The date of this prospectus is December 14, 2007.

SUITABILITY STANDARDS

The shares we are offering are suitable only as a long-term investment for persons of adequate financial means. There currently is no public market for our shares. Therefore, it likely will be difficult for you to sell your shares and, if you are able to sell your shares, it is likely you would sell them at a substantial discount. You should not buy these shares if you need to sell them immediately, will need to sell them quickly in the future or cannot bear the loss of your entire investment.

In consideration of these factors, we have established suitability standards for all stockholders, including subsequent transferees. These suitability standards require that a purchaser of shares have either:

a net worth of at least $150,000; or

an annual gross income of at least $45,000 and a net worth of at least $45,000.

Several states have established suitability standards different from those we have established. Shares will be sold only to investors in these states who meet the special suitability standards set forth below.

Arizona, California, Michigan, Missouri, North Carolina and Tennessee Investors must have either (1) a net worth of at least $225,000, or (2) gross annual income of at least $60,000 and a net worth of at least $60,000.

Kansas Investors must have either (1) a minimum net worth of at least $250,000 or (2) a minimum annual gross income of at least $70,000. In addition, it is recommended by the Office of the Kansas Securities Commissioner that you not invest, in the aggregate, more than 10% of your liquid net worth in this and similar direct participation investments.

Maine Investors must have either (1) a net worth of at least $50,000 and an annual gross income of at least $50,000, or (2) a net worth of at least $200,000.

Massachusetts, Ohio and Pennsylvania Investors must have either (1) a net worth of at least $250,000 or (2) a gross annual income of $70,000 and a net worth of at least $70,000. In addition, an investor s investment in our common stock and the securities of our affiliates may not exceed 10% of that investor s liquid net worth.

New Mexico Investors must have either (1) a net worth of at least $250,000 or (2) a gross annual income of $70,000 and a net worth of at least $70,000.

Iowa Investors must have either (1) a net worth of at least $250,000 or (2) an annual gross income of at least $70,000 and net worth of at least $70,000. In addition, investors may not invest more than 10% of their liquid net worth in us.

Washington Investors must have either (1) a net worth of at least $250,000 or (2) an annual gross income of at least $70,000 and net worth of at least $70,000.

For purposes of determining suitability of an investor, net worth in all cases should be calculated excluding the value of an investor s home, home furnishings and personal automobiles.

In the case of sales to fiduciary accounts (such as an individual retirement account, or IRA, Keogh Plan, or pension or profit sharing plan), these suitability standards must be met by the beneficiary, the fiduciary account or by the person who directly or indirectly supplied the funds for the purchase of the shares if that person is the fiduciary. In the case of

gifts to minors, the suitability standards must be met by the custodian account or by the donor.

These suitability standards are intended to help ensure that, given the long-term nature of an investment in our shares, our investment objectives and the relative illiquidity of our shares, our shares are an appropriate investment for those of you who become stockholders. Each participating broker-dealer must make every reasonable effort to determine that the purchase of shares is a suitable and appropriate investment for each stockholder based on information provided by the stockholder in the subscription agreement or otherwise. Each participating broker-dealer is required to maintain records of the information used to determine that an investment in shares is suitable and appropriate for each stockholder for a period of six years. Our subscription

Table of Contents

agreement requires you to represent that you meet the applicable suitability standards. We will not sell any shares to you unless you are able to make these representations.

The minimum initial investment is 100 shares ($1,000), except for purchases by (1) our existing stockholders, including purchases made pursuant to our distribution reinvestment plan, and (2) existing investors in other programs sponsored by our sponsor, Grubb & Ellis Company, or any of our sponsor s affiliates, which may be in lesser amounts. In order to satisfy the minimum purchase requirements for retirement plans, unless otherwise prohibited by state law, a husband and wife may jointly contribute funds from their separate IRAs, provided that each such contribution is made in increments of $100. You should note that an investment in shares of our common stock will not, in itself, create a retirement plan and that, in order to create a retirement plan, you must comply with all applicable provisions of the Internal Revenue Code of 1986, as amended, or the Internal Revenue Code.

About this Prospectus	14
RISK FACTORS	15
Investment Risks	15
There is currently no public market for our common stock. Therefore, it will be difficult for you to sell your shares and, if you are able to sell your shares, you will likely sell them at a substantial discount	15
This is a blind pool offering because we have identified a limited number of the specific investments we intend to make with the net proceeds we will receive from this offering. If we are unable to find suitable investments, we may not be able to achieve our investment objectives	15
You may be unable to sell your shares because your ability to have your shares repurchased pursuant to our share repurchase plan is subject to significant restrictions and limitations	15
This is a best efforts offering and if we are unable to raise substantial funds, we will be limited in the number and type of investments we may make, which will result in a less diversified portfolio	16
This is a fixed price offering and the fixed offering price may not accurately represent the current value of our assets at any particular time. Therefore the purchase price you paid for shares of our common stock may be higher than the value of our assets per share of our common stock at the time of your purchase	16
Payments to our advisor related to its subordinated participation interest in our operating partnership will reduce cash available for distribution to our stockholders	16
The business and financial due diligence investigation of us was conducted by an affiliate. That investigation might not have been as thorough as an investigation conducted by an unaffiliated third party, and might not have uncovered facts that would be important to a potential investor	16

We presently intend to effect a liquidity event by September 20, 2013; however, there can be no assurance that we will effect a liquidity event within such time or at all. If we do not effect a liquidity event, it will be very difficult for you to have liquidity for your investment in shares of our common stock 17
Risks Relating to Our Business 17
We have a limited operating history and there is no assurance that we will be able to successfully achieve our investment objectives; and the prior performance of other NNN programs may not be an accurate predictor of our future results 17
We may suffer from delays in locating suitable investments, which could reduce our ability to make distributions to our stockholders and your return on your investment 17
The availability and timing of cash distributions to our stockholders is uncertain 17
We may not have sufficient cash available from operations to pay distributions, and, therefore, distributions may include a return of capital. 18
We may not have sufficient cash available from operations to pay distributions, and, therefore, distributions may be paid with offering proceeds or borrowed funds 18
We are uncertain of our sources of debt or equity for funding our future capital needs. If we cannot obtain funding on acceptable terms, our ability to make necessary capital improvements to our properties may be impaired or delayed 18
The recent downturn in the credit markets has increased the cost of borrowing and has made financing difficult to obtain, each of which may have a material adverse effect on our results of operations and business 19
We may structure acquisitions of property in exchange for limited partnership units in our operating partnership on terms that could limit our liquidity or our flexibility 19
Our success will be dependent on the performance of our advisor 19
Our results of operations, our ability to pay distributions to our stockholders and our ability to dispose of our investments are subject to general economic and regulatory factors we cannot control or predict 20
Our advisor and its affiliates have no obligation to defer or forgive fees or loans or advance any funds to us, which could reduce our ability to make investments or pay distributions 20
The ongoing SEC investigation of Triple Net Properties could adversely impact our advisor s ability to perform its duties to us 20
Risks Related to Conflicts of Interest 21
We will compete with other NNN programs for investment opportunities. As a result, our advisor may not cause us to invest in favorable investment opportunities which may reduce our returns on our investments 21
The conflicts of interest faced by our officers and our non-independent director may cause us not to be managed solely in the best interests of our stockholders, which may adversely affect our results of operation and the value of your investment 21
If we enter into joint ventures with affiliates, we may face conflicts of interest or disagreements with our joint venture partners that will not be resolved as quickly or on terms as advantageous to us as would be the case if the joint venture had been negotiated at arm s length with an independent joint venture partner 22
Our advisor will face conflicts of interest relating to its compensation structure, which could result in actions that are not necessarily in the long-term best interests of our stockholders 22
The distribution payable to our advisor upon termination of the advisory agreement may influence decisions about terminating our advisor or our acquisition or disposition of investments. 23
We may acquire assets from, or dispose of assets to, affiliates of our advisor, which could result in us entering into transactions on less favorable terms than we would receive from a third party or that negatively affect the public s perception of us 23

Table of Contents

The fees we pay our advisor under the advisory agreement and the distributions payable to our advisor under our operating partnership agreement were not determined on an arm s-length basis and therefore may not be on the same terms as those we could negotiate with an unrelated party	23
Risks Associated with Our Organizational Structure	23
We may issue preferred stock or other classes of common stock, which issuance could adversely affect the holders of our common stock issued pursuant to this offering	23
The limit on the percentage of shares of our common stock that any person may own may discourage a takeover or business combination that may have benefited our stockholders	24
Our board of directors may change our investment objectives without seeking stockholder approval.	24
Maryland law and our organizational documents limit your right to bring claims against our officers and directors	24
Certain provisions of Maryland law could restrict a change in control even if a change in control were in our stockholders interests	25
Your investment return may be reduced if we are required to register as an investment company under the Investment Company Act	25
Risks Related to Investments in Real Estate	26
Changes in national, regional or local economic, demographic or real estate market conditions may adversely affect our results of operations and our ability to pay distributions to our stockholders or reduce the value of your investment	26
If we acquire real estate at a time when the real estate market is experiencing substantial influxes of capital investment and competition for income producing properties, the real estate investments we make may not appreciate or may decrease in value	26
Competition with third parties in acquiring properties and other investments may reduce our profitability and the return on your investment	26
Some or all of our properties may incur vacancies, which may result in reduced revenue and resale value, a reduction in cash available for distribution and a diminished return on your investment	27
We are dependent on tenants for our revenue, and lease terminations could reduce our distributions to our stockholders	27
Long-term leases may not result in fair market lease rates over time; therefore, our income and our distributions to our stockholders could be lower than if we did not enter into long-term leases	27
We may be unable to secure funds for future tenant or other capital improvements, which could limit our ability to attract or replace tenants and decrease your return on investment	27
Uninsured losses relating to real estate and lender requirements to obtain insurance may reduce your returns	28
Delays in the acquisition, development and construction of real properties may have adverse effects on our results of operations and returns to our stockholders	28
Uncertain market conditions relating to the future disposition of properties could cause us to sell our properties at a loss in the future	28
We face possible liability for environmental cleanup costs and damages for contamination related to properties we acquire, which could substantially increase our costs and reduce our liquidity and cash distributions to stockholders	28
Our real estate investments may be concentrated in medical office or other healthcare-related facilities, making us more vulnerable economically than if our investments were diversified	29
Certain of our properties may not have efficient alternative uses, so the loss of a tenant may cause us not to be able to find a replacement or cause us to spend considerable capital to adapt the property to an alternative use	29
Our medical office buildings, healthcare-related facilities and tenants may be unable to compete successfully	29

Table of Contents

Our costs associated with complying with the Americans with Disabilities Act may reduce our cash available for distributions	30
Our real properties will be subject to property taxes that may increase in the future, which could adversely affect our cash flow	30
Costs of complying with governmental laws and regulations related to environmental protection and human health and safety may be high	30
Risks Relating to the Healthcare Industry	31
Reductions in reimbursement from third party payors, including Medicare and Medicaid, could adversely affect the profitability of our tenants and hinder their ability to make rent payments to us	31
We face increasing competition for the acquisition of medical office buildings and other healthcare-related facilities, which may impede our ability to make future acquisitions or may increase the cost of these acquisitions	31
The healthcare industry is heavily regulated, and new laws or regulations, changes to existing laws or regulations, loss of licensure or failure to obtain licensure could result in the inability of our tenants to make rent payments to us	32
Tenants of our medical office buildings and healthcare-related facilities will be subject to fraud and abuse laws, the violation of which by a tenant may jeopardize the tenant s ability to make rent payments to us	32
Adverse trends in healthcare provider operations may negatively affect our lease revenues and our ability to make distributions to our stockholders	33
Tenants of our medical office buildings and healthcare-related facilities may be subject to significant legal actions that could subject them to increased operating costs and substantial uninsured liabilities, which may affect their ability to pay their rent payments to us	33
Risks Related to Investments in Real Estate Related Securities	34
We do not have substantial experience in acquiring mortgage loans or investing in real estate related securities, which may result in our real estate related securities investments failing to produce returns or incurring losses	34
Real estate related equity securities in which we may invest are subject to specific risks relating to the particular issuer of the securities and may be subject to the general risks of investing in subordinated real estate securities	34
The mortgage loans in which we may invest and the mortgage loans underlying the mortgage-backed securities in which we may invest may be impacted by unfavorable real estate market conditions, which could decrease their value	34
Delays in liquidating defaulted mortgage loan investments could reduce our investment returns	34
The collateralized mortgage backed securities in which we may invest are subject to several types of risks	35
The mezzanine loans in which we may invest would involve greater risks of loss than senior loans secured by income-producing real properties	35
We expect a portion of our real estate related securities investments to be illiquid and we may not be able to adjust our portfolio in response to changes in economic and other conditions	35
Interest rate and related risks may cause the value of our real estate related securities investments to be reduced	35
If we liquidate prior to the maturity of our real estate securities investments, we may be forced to sell those investments on unfavorable terms or at a loss	36
Risks Associated with Debt Financing	36
We will incur mortgage indebtedness and other borrowings, which may increase our business risks, could hinder our ability to make distributions and could decrease the value of your investment	36
Higher mortgage rates may make it more difficult for us to finance or refinance properties, which could reduce the number of properties we can acquire and the amount of cash distributions we can make to our stockholders	37

Table of Contents

Increases in interest rates could increase the amount of our debt payments and therefore negatively impact our operating results	37
Lenders may require us to enter into restrictive covenants relating to our operations, which could limit our ability to make distributions to our stockholders	37
If we enter into financing arrangements involving balloon payment obligations, it may adversely affect our ability to refinance or sell properties on favorable terms, and to make distributions to stockholders	37
Risks Associated with Joint Ventures	38
The terms of joint venture agreements or other joint ownership arrangements into which we may enter could impair our operating flexibility and our results of operations	38
We may structure our joint venture relationships in a manner which may limit the amount we participate in the cash flow or appreciation of an investment	38
Federal Income Tax Risks	39
Failure to qualify as a REIT for federal income tax purposes would subject us to federal income tax on our taxable income at regular corporate rates, which would substantially reduce our ability to make distributions to our stockholders	39
To qualify as a REIT and to avoid the payment of federal income and excise taxes and maintain our REIT status, we may be forced to borrow funds, use proceeds from the issuance of securities (including this offering), or sell assets to pay distributions, which may result in our distributing amounts that may otherwise be used for our operations	39
If our operating partnership fails to maintain its status as a partnership for federal income tax purposes, its income would be subject to taxation and our REIT status would be terminated.	40
You may have current tax liability on distributions you elect to reinvest in shares of our common stock	40
Dividends paid by REITs do not qualify for the reduced tax rates that apply to other corporate dividends	40
In certain circumstances, we may be subject to federal and state income taxes as a REIT, which would reduce our cash available for distribution to you	40
Distributions to tax-exempt investors may be classified as unrelated business taxable income	41
Complying with the REIT requirements may cause us to forego otherwise attractive opportunities	41
Changes to federal income tax laws or regulations could adversely affect investors	41
Employee Benefit Plan and IRA Risks	41
If you fail to meet the fiduciary and other standards under ERISA or the Internal Revenue Code as a result of an investment in our common stock, you could be subject to criminal and civil penalties	42

QUESTIONS AND ANSWERS ABOUT THIS OFFERING

Set forth below are some of the more frequently asked questions and answers relating to our structure, our management, our business and an offering of this type.

Q: What is a real estate investment trust, or REIT?

A: In general, a REIT is a company that:

- combines the capital of many investors to acquire or provide financing for real estate;
- pays annual distributions to investors of at least 90% of its taxable income (computed without regard to the dividends paid deduction and excluding net capital gain);
- avoids the double taxation treatment of income that would normally result from investments in a corporation because a REIT is not generally subject to federal corporate income taxes on its net income that it distributes to stockholders; and
- allows individual investors to invest in a large-scale diversified real estate portfolio through the purchase of shares in the REIT.

Q: How will you structure the ownership and operation of your assets?

A: We plan to own substantially all of our assets and conduct our operations through an operating partnership, Grubb & Ellis Healthcare REIT Holdings, L.P., which was organized in Delaware on April 20, 2006. We are the sole general partner of Grubb & Ellis Healthcare REIT Holdings, L.P., which we refer to as either Healthcare OP or our operating partnership. Because we will conduct substantially all of our operations through an operating partnership, we are organized in what is referred to as an UPREIT structure.

Q: What is an UPREIT ?

A: UPREIT stands for Umbrella Partnership Real Estate Investment Trust. We use the UPREIT structure because a contribution of property directly to us is generally a taxable transaction to the contributing property owner. In this structure, a contributor of a property who desires to defer taxable gain on the transfer of his or her property may transfer the property to the partnership in exchange for limited partnership units and defer taxation of gain until the contributor later exchanges his or her limited partnership units, normally, on a one-for-one basis for shares of the common stock of the REIT. We believe that using an UPREIT structure gives us an advantage in acquiring desired properties from persons who may not otherwise sell their properties because of unfavorable tax results.

Q: Do you currently own any real estate or real estate related securities?

A: Yes. We have acquired 17 properties. We have not yet identified most of the real estate or real estate related securities we will acquire with the proceeds from this offering. Because we have acquired a limited number of properties and identified a limited number of additional investment opportunities, this offering is considered a blind pool.

Q: What will you do with the money raised in this offering?

A: We will use your net investment proceeds to purchase medical office buildings, healthcare-related facilities and quality commercial office properties. To a lesser extent, we may also invest in real estate related securities. We will focus primarily on investments that produce current income. The diversification of our portfolio is dependent upon the amount of proceeds we receive in this offering. We expect that at least 88.5% of the money you invest will be used to acquire our targeted investments and pay related acquisition fees and expenses and the remaining 11.5% will be used to pay fees and expenses of this offering. Until we invest the proceeds of this offering in our targeted investments, we may invest in short-term, highly liquid or other authorized investments. Such short-term investments will not earn significant returns, and we cannot guarantee how long it will take to fully invest the proceeds in properties.

Q: What kind of offering is this?

A: Through our dealer manager, we are offering a minimum of $2,000,000 in shares of our common stock and a maximum of $2,000,000,000 in shares in our primary offering on a best efforts basis at $10.00 per

share. We are also offering $200,000,000 in shares of common stock pursuant to our distribution reinvestment plan at $9.50 per share to those stockholders who elect to participate in such plan as described in this prospectus. We reserve the right to reallocate the shares of common stock we are offering between the primary offering and the distribution reinvestment plan.

Q: How does a best efforts offering work?

A: When shares are offered to the public on a best efforts basis, the brokers participating in the offering are only required to use their best efforts to sell the shares and have no firm commitment or obligation to purchase any shares. Therefore, we cannot guarantee that any specific number of shares will be sold. We intend to admit stockholders periodically as subscriptions for shares are received, but not less frequently than monthly. As of January 8, 2007, excluding shares purchased by our executive officers and directors, our dealer manager and our advisor and its affiliates, we had received and accepted subscriptions in our offering for 200,846 shares of common stock, or $2,004,000, thereby exceeding the minimum offering. Having raised the minimum offering, the offering proceeds were released by the escrow agent to us and are available for the acquisition of properties and the other purposes disclosed in the prospectus. As of December 7, 2007, we had accepted subscriptions in our offering for 19,995,950 shares of common stock, or approximately $199,720,000, excluding shares issued pursuant to our distribution reinvestment plan.

Q: How long will this offering last?

A: We will sell shares until the earlier of September 20, 2009, or the date on which the maximum has been sold. We also reserve the right to terminate this offering at any time.

Q: Who can buy shares?

A: Generally, you can buy shares pursuant to this prospectus provided that you have either (1) a net worth of at least $150,000, or (2) an annual gross income of at least $45,000 and a net worth of at least $45,000. For this purpose, net worth does not include your home, home furnishings or personal automobiles. However, these minimum levels are higher in certain states, so you should carefully read the more detailed description under Suitability Standards on page i of this prospectus.

Q: Is there any minimum investment required?

A: Yes. The minimum investment is 100 shares, which equals a minimum investment of at least $1,000, except for purchases by (1) our existing stockholders, including purchases made pursuant to our distribution reinvestment plan, and (2) existing investors in other programs sponsored by our sponsor, Grubb & Ellis Company, or any of our sponsor s affiliates, which may be in lesser amounts.

Q: How do I subscribe for shares?

A: Investors who meet the suitability standards described herein may purchase shares of our common stock. See Suitability Standards on page i. Investors seeking to purchase shares of our common stock must proceed as follows:

Read this entire prospectus and any appendices and supplements accompanying this prospectus.

Complete the execution copy of the subscription agreement. A specimen copy of the subscription agreement to be used for the period from the date of this prospectus to December 31, 2007, including instructions for

completing it, is included in this prospectus as Appendix B. A specimen copy of the subscription agreement to be used beginning January 1, 2008, including instructions for completing it, is included in this prospectus as Appendix C.

By executing the subscription agreement and paying the total purchase price for the shares of our common stock subscribed for, each investor represents that he meets the suitability standards as stated in the subscription agreement and agrees to be bound by all of its terms.

Table of Contents

Subscriptions will be effective only upon our acceptance, and we reserve the right to reject any subscription in whole or part. Subscriptions will be accepted or rejected within 30 days of receipt by us and, if rejected, all funds shall be returned to subscribers without deduction for any expenses within 10 business days from the date the subscription is rejected. We are not permitted to accept a subscription for shares of our common stock until at least five business days after the date you receive this prospectus.

An approved trustee must process and forward to us subscriptions made through individual retirement accounts, or IRAs, Keough plans and 401(k) plans. In the case of investments through IRAs, Keough plans and 401(k) plans, we will send the confirmation and notice of our acceptance to the trustee.

Q: If I buy shares, will I receive distributions and how often?

A: Provided we have sufficient available cash flow, we expect to pay distributions on a monthly basis to our stockholders. On February 14, 2007, our board of directors approved a distribution rate of 7.25% per annum to be paid to stockholders beginning with our February 2007 monthly distribution that was paid in March 2007. Our distribution policy is set by our board of directors and is subject to change based on available cash flows. We cannot guarantee the amount of distributions paid in the future, if any.

If you are a taxable stockholder, distributions that you receive, including distributions that are reinvested pursuant to our distribution reinvestment plan, generally will be taxed as ordinary income to the extent they are from our current or accumulated earnings and profits, unless we have designated all or a portion of the distribution as a capital gain distribution. In such case, such designated portion of the distribution will be treated as a capital gain. To the extent that we make a distribution in excess of our current and accumulated earnings and profits, the distribution will be treated first as a tax-free return of capital, reducing the tax basis in your shares, and the amount of each distribution in excess of your tax basis in your shares will be taxable as a gain realized from the sale of your shares. For example, because depreciation expense reduces taxable income but does not reduce cash available for distribution, if our distributions exceed our current and accumulated earnings and profits, the portion of such distributions to you exceeding our current and accumulated earnings and profits (to the extent of your positive basis in your shares) will be considered a return of capital to you for tax purposes. These amounts will not be subject to income tax immediately but will instead reduce the tax basis of your investment, in effect, deferring a portion of your income tax until you sell your shares or we liquidate assuming we do not make any future distributions in excess of our current and accumulated earnings and profits at a time that your tax basis in your shares is zero. If you are a tax-exempt entity, distributions from us generally will not constitute unrelated business taxable income, or UBTI, unless you have borrowed to acquire or carry your stock or have used the shares in a trade or business. There are exceptions to this rule for certain types of tax-exempt entities. Because each investor s tax considerations are different, especially the treatment of tax-exempt entities, we suggest that you consult with your tax advisor. Please see Federal Income Tax Considerations Taxation of Taxable U.S. Stockholders; Federal Income Tax Considerations Treatment of Tax-Exempt Stockholders; and Description of Capital Stock Distribution Reinvestment Plan.

Q: May I reinvest my distributions?

A: Yes. Please see Description of Capital Stock Distribution Reinvestment Plan for more information regarding our distribution reinvestment plan.

Q: If I buy shares of common stock in this offering, how may I later sell them?

A: At the time you purchase the shares of common stock, they will not be listed for trading on any national securities exchange. As a result, if you wish to sell your shares, you may not be able to do so promptly or at all, or you may

only be able to sell them at a substantial discount from the price you paid. In general, however, you may sell your shares to any buyer that meets the applicable suitability standards unless such sale would cause the buyer to own more than 9.8% of the value of our then outstanding capital stock (which includes common stock and any preferred stock we may issue) or more than 9.8% of the value or number of shares, whichever is more restrictive, of our then outstanding common stock. See Suitability Standards and Description of Capital Stock Restriction on Ownership of Shares. We have adopted a share repurchase plan, as discussed under Description of Capital Stock Share Repurchase Plan, which may provide limited liquidity for some of our stockholders.

- an annual report after the end of each year; and
- an annual IRS Form 1099 after the end of each year.

Q: When will I get my detailed tax information?

A: Your Form 1099 tax information will be placed in the mail by January 31 of each year.

PROSPECTUS SUMMARY

This prospectus summary highlights material information contained elsewhere in this prospectus. Because it is a summary, it may not contain all of the information that is important to your decision whether to invest in shares of our common stock. To understand this offering fully, you should read the entire prospectus carefully, including the Risk Factors section. The use of the words we, us or our refers to Grubb & Ellis Healthcare REIT, Inc. and our subsidiaries, including Grubb & Ellis Healthcare REIT Holdings, L.P., except where the context otherwise requires.

Grubb & Ellis Healthcare REIT, Inc.

We were formed as a Maryland corporation on April 20, 2006. We intend to provide investors the potential for income and growth through investment in a diversified portfolio of real estate properties, focusing primarily on medical office buildings, healthcare-related facilities and quality commercial office properties. We may also invest in real estate related securities. We will focus primarily on investments that produce current income. We intend to qualify as a REIT and to elect to be taxed as a REIT commencing with the taxable year ending December 31, 2007.

Our headquarters are located at 1551 N. Tustin Avenue, Suite 300, Santa Ana, California 92705 and our telephone number is 1-877-888-7348. Our sponsor maintains a web site at *www.gbe-reits.com* at which there is additional information about us and our affiliates. The contents of that site are not incorporated by reference in, or otherwise a part of, this prospectus.

Summary Risk Factors

An investment in our common stock is subject to significant risks. Listed below are some of the most significant risks relating to your investment.

- No public market exists for our common stock and therefore it will be difficult for you to sell your shares. If you are able to sell your shares, you would likely have to sell them at a substantial discount.

- We have a limited operating history and there is no assurance we will be able to achieve our investment objectives.

- The amount of distributions we may pay, if any, is uncertain. Due to the risks involved in the ownership of real estate and securities, there is no guarantee of any return on your investment in us and you may lose money.

- Some of our officers and our non-independent director have substantial conflicts of interest because they also serve as officers and directors of our advisor, our sponsor, the dealer manager and their affiliates, each of which may compete with us for the time and attention of these individuals.

- Distributions we pay to our stockholders may include a return of capital, which will lower your tax basis in our shares.

- We rely on our advisor and its affiliates for our day-to-day operations and the selection of our investments. We will pay substantial fees to our advisor and its affiliates for these services and the agreements relating to their compensation were not reached through arm s-length negotiations.

Our advisor and its affiliates will face conflicts of interest, including significant conflicts in allocating time among us and other programs sponsored by Grubb & Ellis Company, Triple Net Properties, LLC, or any of their affiliates, or NNN programs, which could result in actions that are not in your best interests.

There are limitations on the ownership, transferability and redemption of our shares which significantly limit the liquidity of an investment in shares of our common stock.

This is a blind pool offering and you will not have the opportunity to evaluate most of our investments prior to purchasing shares of our common stock.

Table of Contents

This is a best efforts offering and if we are unable to raise substantial funds then we will be limited in the number and type of investments we may make.

The healthcare industry is heavily regulated, and new laws or regulations, changes to existing laws or regulations, loss of licensure or failure to obtain licensure could result in the inability of our tenants to make lease payments to us.

We have paid distributions from sources other than our cash flow from operations, including from the proceeds of this offering or from borrowed funds; if we pay future distributions from sources other than our cash flow from operations, we will have fewer funds for real estate investments and your overall return may be reduced.

If we fail to qualify as a REIT, it would adversely affect our operations and our ability to make distributions to stockholders.

Investment Objectives

Our investment objectives are:

to pay regular cash distributions;

to preserve, protect and return your capital contribution; and

to realize growth in the value of our investments upon our ultimate sale of such investments.

See Investment Objectives, Strategy and Criteria for a more complete description of our business and objectives.

Our Advisor

We are advised by Grubb & Ellis Healthcare REIT Advisor, LLC, or Healthcare Advisor, or our advisor. Our advisor is managed by and is a subsidiary of Triple Net Properties, LLC, or Triple Net Properties, and is also partially owned by certain members of the management of Triple Net Properties through Grubb & Ellis Healthcare Management, LLC, or Grubb & Ellis Healthcare Management. Triple Net Properties is an indirect wholly owned subsidiary of our sponsor, Grubb & Ellis Company, or Grubb & Ellis. Our advisor, which was formed in Delaware on April 20, 2006, supervises and manages our day-to-day operations. Our advisor will use its best efforts, subject to the oversight, review and approval of our board of directors, to, among other things, research, identify, review and make investments in and dispositions of properties and securities on our behalf consistent with our investment policies and objectives. Our advisor performs its duties and responsibilities under an advisory agreement as our fiduciary. The term of the current advisory agreement ends on October 24, 2008, subject to renewals by the parties to the advisory agreement for an unlimited number of successive one-year periods. Our officers and our non-independent director are all employees of our sponsor or its affiliates. The names and biographical information of our officers and our non-independent director are contained under Management Directors and Executive Officers.

Our Sponsor, NNN Realty Advisors and Triple Net Properties

Our sponsor, Grubb & Ellis, headquartered in Santa Ana, California, is one of the largest and most respected commercial real estate services companies. With more than 130 owned and affiliate offices worldwide, Grubb & Ellis offers property owners, corporate occupants and investors comprehensive integrated real estate solutions, including transaction, management, consulting and investment advisory services supported by proprietary market research and extensive local market expertise.

On December 7, 2007, NNN Realty Advisors, Inc., or NNN Realty Advisors, which previously served as our sponsor, merged with and into a wholly owned subsidiary of Grubb & Ellis. The transaction was structured as a reverse merger whereby stockholders of NNN Realty Advisors received shares of Grubb & Ellis in exchange for their NNN Realty Advisors shares and, immediately following the merger, former NNN Realty Advisor stockholders owned approximately 60.1% of Grubb & Ellis. Additionally, six of the nine post-merger directors of Grubb & Ellis were directors of NNN Realty Advisors prior to the merger, including the current Grubb & Ellis Chairman of the Board, Anthony W. Thompson. Scott D. Peters, the Chief Executive Officer,

President and current Chairman of the Board of NNN Realty Advisors, also now serves as Chief Executive Officer, President and a director of Grubb & Ellis.

The merger combines one of the world s leading full-service commercial real estate organizations with a leading sponsor of commercial real estate programs to create a diversified real estate services business providing a complete range of transaction, management and consulting services, and possessing a strong platform for continued growth. Grubb & Ellis continues to use the Grubb & Ellis name and continues to be listed on the New York Stock Exchange under the ticker symbol GBE.

As a result of the merger, we consider Grubb & Ellis to be our sponsor. Upon Grubb & Ellis becoming our sponsor, we changed our name from NNN Healthcare/Office REIT, Inc. to Grubb & Ellis Healthcare REIT, Inc.

Triple Net Properties, the parent and manager of our advisor and an indirect wholly owned subsidiary of our sponsor, offers a diverse line of investment products as well as a full range of services including asset and property management, brokerage, leasing, analysis and consultation. Triple Net Properties is also an active seller of real estate, bringing many of its investment programs full cycle.

On September 16, 2004, Triple Net Properties learned that the Securities and Exchange Commission, or SEC, is conducting an investigation referred to as *In the matter of Triple Net Properties, LLC*. The SEC has requested information from Triple Net Properties relating to disclosure in public and private securities offerings sponsored by Triple Net Properties and its affiliates prior to 2005, or the Triple Net securities offerings. The SEC also has requested information from NNN Capital Corp., the dealer manager for the Triple Net securities offerings and the dealer manager for this offering. The SEC has requested financial and other information regarding the Triple Net securities offerings and the disclosures included in the related offering documents from each of Triple Net Properties and NNN Capital Corp. This investigation could result in the assertion of fines, penalties or administrative remedies. Based on settlement negotiations with the SEC, the management of Triple Net Properties has informed us that it believes the conclusion of this matter will not result in a material adverse effect to its results of operations, financial condition or ability to conduct its business. For more information on the risks related to the SEC investigation, see Risk Factors Risks Relating to Our Business The ongoing SEC investigation of Triple Net Properties could adversely impact our advisor s ability to perform its duties to us.

Our Dealer Manager

An affiliate of our advisor and an indirect wholly owned subsidiary of our sponsor, NNN Capital Corp., will assist us in selling our common stock under this prospectus by serving as the dealer manager of this offering. Since August 1986, the dealer manager has assisted various syndicated REITs, limited partnerships, limited liability companies and other real estate entities in raising money to invest in real estate.

Our Board of Directors

We operate under the direction of our board of directors, the members of which are accountable to us and our stockholders as fiduciaries. The board of directors is responsible for the management and control of our affairs. We have six directors, five of whom are independent of us, our advisor and our advisor s affiliates. Our stockholders will elect our directors annually.

Description of Investments

As of the date of this prospectus, we have acquired 17 properties, and our advisor has identified three additional real properties to purchase with the net proceeds of this offering. We generally will seek to acquire a diversified portfolio

of real estate, focusing primarily on investments that produce current income. Our real estate investments will focus on medical office buildings, healthcare-related facilities and quality commercial office properties. Healthcare-related facilities include facilities leased to hospitals, long-term acute care centers, surgery centers, specialty medical and diagnostic service providers, laboratories, research firms, pharmaceutical and medical supply manufacturers and health insurance firms. We may acquire properties either alone or jointly with another party. We may also invest in real estate related securities, although we have not yet identified any

real estate related securities we plan to acquire. We do not presently intend to invest more than 15% of our total assets in real estate related securities. Our real estate related securities investments will generally focus on common and preferred equities, commercial mortgage-backed securities, or CMBS, other forms of mortgage debt and certain other securities, including collateralized debt obligations and foreign securities.

Our Operating Partnership

We intend to own all of our real properties through our operating partnership, Grubb & Ellis Healthcare REIT Holdings, L.P., or its subsidiaries. We are the sole general partner of the operating partnership and initially invested $2,000 in the operating partnership in exchange for 200 partnership units. The initial limited partner of our operating partnership is our advisor. Our advisor has invested $200,000 in our operating partnership in exchange for partnership units, which provide the advisor with subordinated distribution rights in addition to its rights as a limited partner in the event certain performance-based conditions are satisfied. See Compensation to the Advisor and Affiliates below for a description of our advisor s subordinated distribution rights.

Conflicts of Interest

Some of our officers and our non-independent director are also officers of our sponsor, our advisor and of Triple Net Properties, which manages our advisor, and they are involved in advising and investing in other real estate entities, including other REITs, which may give rise to conflicts of interest. In particular, our officers and non-independent director are involved in the management and advising of other public and private entities that own and operate real estate investments and may compete with us for the time and attention of our executives. The following chart sets forth the positions our officers and non-independent director hold with us, our advisor and the entities affiliated with our advisor that will be paid fees in connection with this offering.

Table of Contents

Type of Compensation (Recipient)	Determination and Method of Calculation	Estimated Amount
Subordinated Participation Interest (our advisor)	Our advisor has a subordinated participation interest of our operating partnership pursuant to which our advisor will receive cash distributions from our operating partnership under the following circumstances:	
Subordinated Distribution of Net Sales Proceeds (payable only if we liquidate our portfolio while Healthcare Advisor is serving as our advisor)	15.0% of any net sales proceeds remaining after we have made distributions to our stockholders of the total amount raised from stockholders (less amounts paid to repurchase shares pursuant to our share repurchase plan) plus an amount equal to an annual 8.0% cumulative, non-compounded return on average invested capital.	Actual amounts depend upon the sale price of properties, and, therefore, cannot be determined at this time.
Subordinated Distribution Upon Listing (payable only if our shares are listed on a national securities exchange while Healthcare Advisor is serving as our advisor)	15.0% of the amount by which (1) the market value of our outstanding common stock at listing plus distributions paid prior to listing exceeds (2) the sum of the total amount of capital raised from our stockholders (less amounts paid to repurchase shares pursuant to our share repurchase plan) plus an amount of cash that, if distributed to stockholders as of the date of listing, would have provided them an annual 8.0% cumulative, non-compounded return on average invested capital.	Actual amounts depend upon the market value of our common stock at the time of listing, among other factors, and, therefore, cannot be determined at this time.

Upon termination of the advisory agreement without cause, our advisor may also be entitled to a subordinated distribution similar to the subordinated distribution upon listing described above. If our advisor receives the subordinated distribution upon a listing, it would no longer be entitled to receive subordinated distributions of net sales proceeds or the subordinated distribution upon a termination of the advisory agreement. If our advisor receives the subordinated distribution upon termination of the advisory agreement, it would no longer be entitled to receive subordinated distributions of net sales proceeds or the subordinated distribution upon listing. There are many additional conditions and restrictions on the amount of compensation our advisor and its affiliates may receive. For a more detailed explanation of these fees and expenses payable to our advisor and its affiliates, please see Compensation Table.

Prior Investment Programs

The section of this prospectus entitled Prior Performance Summary contains a discussion of the NNN programs sponsored through December 31, 2006. Certain financial data relating to the NNN programs is also provided in the Prior Performance Tables in Appendix A to this prospectus. The prior performance of our affiliates previous real estate programs may not be indicative of our ultimate performance and, thus, you should not assume that you will experience financial performance and returns comparable to those experienced by investors in these prior programs. You may experience a small return or no return on, or may lose some or all of, your investment in our shares. Please see Risk Factors Risks Relating to Our Business We have no prior operating history and there is no assurance that we will be able to successfully achieve our investment objectives; and the prior performance of other NNN programs may not be an accurate predictor of our future results.

Distribution Reinvestment Plan

You may participate in our distribution reinvestment plan and elect to have the distributions you receive reinvested in shares of our common stock at $9.50 per share during this offering. We may terminate the distribution reinvestment plan at our discretion at any time upon 10 days notice to you. Please see Description of Capital Stock Distribution Reinvestment Plan for a further explanation of our distribution reinvestment plan, a copy of which is attached as Appendix D to this prospectus.

Distribution Policy

In order to qualify as a REIT, we are required to distribute 90% of our annual taxable income to our stockholders. As of the date of this prospectus, we have acquired a limited number of properties, and we have not identified most of the investments we intend to acquire. We cannot predict when, if ever, we will begin to generate sufficient cash flow to pay cash distributions to our stockholders. The amount of any cash distributions will be determined by our board of directors and will depend on the amount of distributable funds, current and projected cash requirements, tax considerations, any limitations imposed by the terms of indebtedness we may incur and other factors. If our investments produce sufficient cash flow, we expect to pay distributions to you on a monthly basis. Because our cash available for distribution in any year may be less than 90% of our taxable income for the year, we may be required to borrow money, use proceeds from the issuance of securities or sell assets to pay out enough of our taxable income to satisfy the distribution requirement. Please see Description of Capital Stock Distribution Policy for a further explanation of our distribution policy.

On February 14, 2007, our board of directors approved a distribution rate of 7.25% per annum to be paid to stockholders beginning with our February 2007 monthly distribution that was paid in March 2007. Our distribution policy is set by our board of directors and is subject to change based on available cash flows. We cannot guarantee the amount of distributions paid in the future, if any.

Liquidity Events

On a limited basis, you may be able to sell shares through our share repurchase plan described below. However, in the future, our board of directors will also consider various forms of liquidity, each of which we refer to as a liquidity event, including; (1) a listing of our common stock on a national securities exchange; (2) our sale or merger in a transaction that provides our stockholders with a combination of cash and/or securities of a publicly traded company; and (3) the sale of all or substantially all of our assets for cash or other consideration. We presently intend to effect a liquidity event by September 20, 2013, seven years from the date of the original prospectus for this offering. However,

there can be no assurance that we will effect a liquidity event within such time or at all. In making the decision whether to effect a liquidity event, our board of directors will try to determine which alternative will result in greater value for our stockholders. Certain merger transactions and the sale of all or substantially all of our assets as well as liquidation would require the affirmative vote of a majority of our outstanding shares of common stock.

Share Repurchase Plan

An investment in shares of our common stock should be made as a long-term investment which is consistent with our investment objectives. However, to accommodate stockholders for an unanticipated or unforeseen need or desire to sell their shares, we have adopted a share repurchase plan to allow stockholders to sell shares, subject to limitations and restrictions. Repurchase of shares, when requested, will generally be made quarterly. All repurchases are subject to a one-year holding period. However, the one-year holding period requirement will be waived for sales following death or disability. Repurchases would be limited to (1) those that could be funded from the net proceeds from the sale of shares under the distribution reinvestment plan in the prior 12 months and (2) 5.0% of the weighted average number of shares outstanding during the prior calendar year. Due to these limitations, we cannot guarantee that we will be able to accommodate all repurchase requests.

During the offering period, the repurchase price will be $9.00 per share. During the 12 months subsequent to the completion of the offering period, the repurchase price will be $9.25 per share. During the next 12 months, the repurchase price will be $9.50 per share and during the subsequent 12 months, $9.75 per share. Thereafter, the repurchase price will be the greater of: (a) $10.00 per share; or (b) a price equal to 10 times our funds available for distribution per weighted average share outstanding for the prior calendar year. For more information, please see the copy of our share repurchase plan attached as Appendix E.

We will terminate our share repurchase plan if and when our shares become listed on a national securities exchange or earlier if our board of directors determines that it is in our best interests to terminate the program. We may amend or modify any provision of the plan at any time, in our board s discretion. Please see Description of Capital Stock Share Repurchase Plan for further explanation of our share repurchase plan.

Employee Benefit Plan and IRA Considerations

The section of this prospectus entitled Employee Benefit Plan and IRA Considerations describes certain considerations associated with a purchase of shares by a pension, profit sharing or other employee benefit plan that is subject to Title I of the Employee Retirement Income Security Act of 1974, as amended, or by an individual retirement account subject to Section 4975 of the Internal Revenue Code. Any plan or account trustee or individual considering purchasing shares for or on behalf of such a plan or account should read that section of this prospectus very carefully.

Restrictions on Share Ownership

Our charter contains restrictions on ownership of the shares that prevent any individual or entity from acquiring beneficial ownership of more than 9.8% of the value of our then outstanding capital stock (which includes common stock and any preferred stock we may issue) or more than 9.8% of the value or number of shares, whichever is more restrictive, of our then outstanding common stock. Please see Description of Capital Stock Restriction on Ownership of Shares for further explanation of the restrictions on ownership of our shares.

About this Prospectus

RISK FACTORS

Your purchase of shares of our common stock involves a number of risks. In addition to other risks discussed in this prospectus, you should specifically consider the following risks before you decide to buy shares of our common stock.

Investment Risks

There is currently no public market for our common stock. Therefore, it will be difficult for you to sell your shares and, if you are able to sell your shares, you will likely sell them at a substantial discount.

There currently is no public market for shares of our common stock. We do not expect a public market for our stock to develop prior to the listing of our shares on a national securities exchange, which we do not expect to occur in the near future and which may not occur at all. Additionally, our charter contains restrictions on the ownership and transfer of our shares, and these restrictions may inhibit your ability to sell your shares. We have adopted a share repurchase plan but it is limited in terms of the amount of shares which may be repurchased annually. Our board of directors may also limit, suspend, terminate or amend our share repurchase plan upon 30 days notice. Therefore, it will be difficult for you to sell your shares promptly or at all. If you are able to sell your shares, you may only be able to sell them at a substantial discount from the price you paid. This may be the result, in part, of the fact that, at the time we make our investments, the amount of funds available for investment will be reduced by up to 11.5% of the gross offering proceeds which will be used to pay selling commissions, the marketing support fee, due diligence expense reimbursements and organizational and offering expenses. We will also be required to use gross offering proceeds to pay real estate commissions, advisory fees and acquisition expenses. Unless our aggregate investments increase in value to compensate for these up front fees and expenses, which may not occur, it is unlikely that you will be able to sell your shares, whether pursuant to our share repurchase plan or otherwise, without incurring a substantial loss. We cannot assure you that your shares will ever appreciate in value to equal the price you paid for your shares. Thus, prospective stockholders should consider the purchase of shares of our common stock as illiquid and a long-term investment, and you must be prepared to hold your shares for an indefinite length of time. Please see Description of Capital Stock Restriction on Ownership of Shares for a more complete discussion on certain restrictions regarding your ability to transfer your shares.

This is a blind pool offering because we have identified a limited number of the specific investments we intend to make with the net proceeds we will receive from this offering. If we are unable to find suitable investments, we may not be able to achieve our investment objectives.

As of the date of this prospectus, we have acquired 17 properties, and our advisor has identified only three additional real estate investments to purchase with the net proceeds we will receive from this offering. As a result, investors in the offering will be unable to evaluate the manner in which most of the net proceeds are invested and the economic merits of our investments prior to subscribing for shares of our common stock. Additionally, you will not have the opportunity to evaluate the transaction terms or other financial or operational data concerning the properties or real estate related securities we acquire in the future. You must rely on our advisor to evaluate our investment opportunities, and our advisor may not be able to achieve our investment objectives, may make unwise decisions or may make decisions that are not in our best interest because of conflicts of interest. See the risks discussed under Risks Related to Conflicts of Interest below. Further, we cannot assure you that acquisitions of real estate or real estate related securities made using the proceeds of this offering will produce a return on our investment or will generate cash flow to enable us to make distributions to our stockholders.

You may be unable to sell your shares because your ability to have your shares repurchased pursuant to our share repurchase plan is subject to significant restrictions and limitations.

Even though our share repurchase plan may provide you with a limited opportunity to sell your shares to us after you have held them for a period of one year, you should be fully aware that our share repurchase plan contains significant restrictions and limitations. Further, our board may limit, suspend, terminate or amend any

Table of Contents

provision of the share repurchase plan upon 30 days notice. Repurchase of shares, when requested, will generally be made quarterly. Repurchases will be limited to (1) those that could be funded from the net proceeds from the sale of shares under the distribution reinvestment plan in the prior 12 months, and (2) 5.0% of the weighted average number of shares outstanding during the prior calendar year. In addition, you must present at least 25% of your shares for repurchase and until three years following this offering, repurchases will be made for less than you paid for your shares. Therefore, in making a decision to purchase shares of our common stock, you should not assume that you will be able to sell any of your shares back to us pursuant to our share repurchase plan at any particular time or at all. Please see Description of Capital Stock Share Repurchase Plan for more information regarding our share repurchase plan.

This is a best efforts offering and if we are unable to raise substantial funds, we will be limited in the number and type of investments we may make, which will result in a less diversified portfolio.

This offering is being made on a best efforts basis, whereby the dealer manager and the broker-dealers participating in the offering are only required to use their best efforts to sell our shares and have no firm commitment or obligation to purchase any of the shares. As a result, if we are unable to raise substantially more than the minimum offering of $2,000,000, we will have limited diversification in terms of the number of investments owned, the geographic regions in which our investments are located and the types of investments that we make. Your investment in our shares will be subject to greater risk to the extent that we lack a diversified portfolio of investments. In such event, the likelihood of our profitability being affected by the poor performance of any single investment will increase.

This is a fixed price offering and the fixed offering price may not accurately represent the current value of our assets at any particular time. Therefore the purchase price you paid for shares of our common stock may be higher than the value of our assets per share of our common stock at the time of your purchase.

This is a fixed price offering, which means that the offering price for shares of our common stock is fixed and will not vary based on the underlying value of our assets at any time. Our board of directors arbitrarily determined the offering price in its sole discretion. The fixed offering price for shares of our common stock has not been based on appraisals for any assets we may own nor do we intend to obtain such appraisals. Therefore, the fixed offering price established for shares of our common stock may not accurately represent the current value of our assets per share of our common stock at any particular time and may be higher or lower than the actual value of our assets per share at such time.

Payments to our advisor related to its subordinated participation interest in our operating partnership will reduce cash available for distribution to our stockholders.

Our advisor holds a subordinated participation interest in our operating partnership, pursuant to which it may be entitled to receive a distribution upon the occurrence of certain events, namely upon dispositions of our assets, the termination or non-renewal of the advisory agreement, other than for cause, or the listing of our common stock on a national securities exchange. The distribution payable to our advisor will equal 15% of proceeds only after we have made distributions to our stockholders of the total amount raised from stockholders (less amounts paid to repurchase shares through our share repurchase plan) plus an annual 8% cumulative, non-compounded return on average invested capital. Any distributions to our advisor by our operating partnership upon dispositions of our assets and such other events will reduce cash available for distribution to our stockholders.

The business and financial due diligence investigation of us was conducted by an affiliate. That investigation might not have been as thorough as an investigation conducted by an unaffiliated third party, and might not have uncovered facts that would be important to a potential investor.

Because our advisor and our dealer manager are affiliates of ours, investors will not have the benefit of an independent due diligence review and investigation of the type normally performed by an unaffiliated, independent underwriter in connection with a securities offering. In addition, Alston & Bird LLP has acted as

16

counsel to us, our advisor and the dealer manager in connection with this offering and, therefore, investors will not have the benefit of due diligence that might otherwise be performed by independent counsel. Under applicable legal ethics rules, Alston & Bird LLP may be precluded from representing us due to a conflict of interest between us and our affiliates. If any situation arises in which our interests are in conflict with those of our affiliates, we would be required to retain additional counsel and may incur additional fees and expenses. The lack of an independent due diligence review and investigation increases the risk of your investment because it may not have uncovered facts that would be important to a potential investor.

We presently intend to effect a liquidity event by September 20, 2013; however, there can be no assurance that we will effect a liquidity event within such time or at all. If we do not effect a liquidity event, it will be very difficult for you to have liquidity for your investment in shares of our common stock.

On a limited basis, you may be able to sell shares through our share repurchase plan. However, in the future we may also consider various forms of liquidity events, including but not limited to (1) listing our common stock on a national securities exchange, (2) our sale or merger in a transaction that provides our stockholders with a combination of cash and/or securities of a publicly traded company, and (3) the sale of all or substantially all of our real property for cash or other consideration. We presently intend to effect a liquidity event by September 20, 2013. However, there can be no assurance that we will effect a liquidity event within such time or at all. If we do not effect a liquidity event, it will be very difficult for you to have liquidity for your investment in shares of our common stock other than limited liquidity through our share repurchase plan.

Because a portion of the offering price from the sale of shares will be used to pay expenses and fees, the full offering price paid by stockholders will not be invested in real estate investments. As a result, stockholders will only receive a full return of their invested capital if we either (1) sell our assets or our company for a sufficient amount in excess of the original purchase price of our assets, or (2) the market value of our company after we list our shares of common stock on a national securities exchange is substantially in excess of the original purchase price of our assets.

Risks Relating to Our Business

We have a limited operating history and there is no assurance that we will be able to successfully achieve our investment objectives; and the prior performance of other NNN programs may not be an accurate predictor of our future results.

We have a limited operating history and we may not be able to achieve our investment objectives. As a result, an investment in our shares of common stock may entail more risks than the shares of common stock of a real estate investment trust with a substantial operating history. In addition, you should not rely on the past performance of other investment programs sponsored by Grubb & Ellis, Triple Net Properties, or any of their affiliates, to predict our future results.

We may suffer from delays in locating suitable investments, which could reduce our ability to make distributions to our stockholders and your return on your investment.

We have identified three future investments, and we have acquired 17 properties. There may be a substantial period of time before the proceeds of this offering are invested in additional suitable investments. Because we are conducting this offering on a best efforts basis over time, our ability to commit to purchase specific assets will also depend, in part, on the amount of proceeds we have received at a given time. If we are delayed or unable to find suitable investments, we may not be able to achieve our investment objectives or make distributions to you.

The availability and timing of cash distributions to our stockholders is uncertain.

We expect to make monthly distributions to our stockholders. However, we bear all expenses incurred in our operations, which are deducted from cash funds generated by operations prior to computing the amount of cash distributions to our stockholders. In addition, our board of directors, in its discretion, may retain any portion of such funds for working capital. We cannot assure you that sufficient cash will be available to make

distributions to you or that the amount of distributions will increase over time. Should we fail for any reason to distribute at least 90% of our REIT taxable income, we would not qualify for the favorable tax treatment accorded to REITs.

We may not have sufficient cash available from operations to pay distributions, and, therefore, distributions may include a return of capital.

Distributions payable to stockholders may include a return of capital, rather than a return on capital. We intend to pay regular cash distributions to our stockholders, typically on a monthly basis. The actual amount and timing of distributions will be determined by our board of directors in its discretion and typically will depend on the amount of funds available for distribution, which will depend on items such as current and projected cash requirements and tax considerations. As a result, our distribution rate and payment frequency may vary from time to time. During the early stages of our operations, we may not have sufficient cash available from operations to pay distributions. Therefore, we may need to use proceeds from the offering or borrow funds to make cash distributions in order to maintain our status as a REIT, which may reduce the amount of proceeds available for investment and operations or cause us to incur additional interest expense as a result of borrowed funds. Further, if the aggregate amount of cash distributed in any given year exceeds the amount of our REIT taxable income generated during the year, the excess amount will be deemed a return of capital.

We may not have sufficient cash available from operations to pay distributions, and, therefore, distributions may be paid with offering proceeds or borrowed funds.

The amount of the distributions we make to our stockholders will be determined by our board of directors and is dependent on a number of factors, including funds available for payment of distributions, our financial condition, capital expenditure requirements and annual distribution requirements needed to maintain our status as a REIT. On February 14, 2007, our board of directors approved a 7.25% per annum distribution to be paid to stockholders beginning with our February 2007 monthly distribution, which was paid in March 2007. For the nine months ended September 30, 2007, we paid distributions of $1,638,000 from cash flow from operations of $2,963,000 for the period. However, as of September 30, 2007, we owed $632,000 to our advisor and its affiliates for operating expenses, on-site personnel and engineering payroll and asset and property management fees, which will be paid from cash flow from operations in the future. Our advisor and its affiliates have no obligations to defer or forgive amounts due to them. As of September 30, 2007, no amounts due to our advisor or its affiliates have been forgiven. In the future, if our advisor or its affiliates do not defer or forgive amounts due to them and as a result if our cash flow from operations is less than the distributions to be paid, we would be required to pay our distributions, or a portion thereof, with proceeds from this offering or borrowed funds. As a result, the amount of proceeds available for investment and operations would be reduced, or we may incur additional interest expense as a result of borrowed funds. In addition, for the nine months ended September 30, 2007, our funds from operations, or FFO, were $1,583,000. We paid distributions of $1,638,000, of which $1,583,000 was paid from FFO and the remainder from proceeds from this offering.

We are uncertain of our sources of debt or equity for funding our future capital needs. If we cannot obtain funding on acceptable terms, our ability to make necessary capital improvements to our properties may be impaired or delayed.

The gross proceeds of the offering will be used to buy a diversified portfolio of real estate and real estate related securities and to pay various fees and expenses. In addition, to qualify as a REIT, we generally must distribute to our stockholders at least 90% of our taxable income each year, excluding capital gains. Because of this distribution requirement, it is not likely that we will be able to fund a significant portion of our future capital needs from retained earnings. Sources of funding may not be available to us on favorable terms or at all. If we do not have access to sufficient funding in the future, we may not be able to make necessary capital improvements to our properties, pay

other expenses or expand our business.

The recent downturn in the credit markets has increased the cost of borrowing and has made financing difficult to obtain, each of which may have a material adverse effect on our results of operations and business.

Recent events in the financial markets have had an adverse impact on the credit markets and, as a result, the availability of credit has become more expensive and difficult to obtain. Some lenders are imposing more stringent restrictions on the terms of credit and there may be a general reduction in the amount of credit available in the markets in which we conduct business. The negative impact on the tightening of the credit markets may have a material adverse effect on us resulting from, but not limited to, an inability to finance the acquisition of properties on favorable terms, if at all, increased financing costs or financing with increasingly restrictive covenants.

The negative impact of the recent adverse changes in the credit markets on the real estate sector generally or our inability to obtain financing on favorable terms, if at all, may have a material adverse effect on our results of operations and business.

We may structure acquisitions of property in exchange for limited partnership units in our operating partnership on terms that could limit our liquidity or our flexibility.

We may acquire properties by issuing limited partnership units in our operating partnership in exchange for a property owner contributing property to the partnership. If we enter into such transactions, in order to induce the contributors of such properties to accept units in our operating partnership, rather than cash, in exchange for their properties, it may be necessary for us to provide them additional incentives. For instance, our operating partnership s partnership agreement provides that any holder of units may exchange limited partnership units on a one-for-one basis for shares of our common stock, or, at our option, cash equal to the value of an equivalent number of our shares. We may, however, enter into additional contractual arrangements with contributors of property under which we would agree to repurchase a contributor s units for shares of our common stock or cash, at the option of the contributor, at set times. If the contributor required us to repurchase units for cash pursuant to such a provision, it would limit our liquidity and thus our ability to use cash to make other investments, satisfy other obligations or to make distributions to stockholders. Moreover, if we were required to repurchase units for cash at a time when we did not have sufficient cash to fund the repurchase, we might be required to sell one or more properties to raise funds to satisfy this obligation. Furthermore, we might agree that if distributions the contributor received as a limited partner in our operating partnership did not provide the contributor with a defined return, then upon redemption of the contributor s units we would pay the contributor an additional amount necessary to achieve that return. Such a provision could further negatively impact our liquidity and flexibility. Finally, in order to allow a contributor of a property to defer taxable gain on the contribution of property to our operating partnership, we might agree not to sell a contributed property for a defined period of time or until the contributor exchanged the contributor s units for cash or shares. Such an agreement would prevent us from selling those properties, even if market conditions made such a sale favorable to us.

Our success will be dependent on the performance of our advisor.

Our ability to achieve our investment objectives and to pay distributions is dependent upon the performance of our advisor in identifying and acquiring investments, the determination of any financing arrangements, the asset management of our investments and operation of our day-to-day activities. You will have no opportunity to evaluate the terms of transactions or other economic or financial data concerning our investments that are not described in this prospectus. We will rely entirely on the management ability of our advisor, subject to the oversight of our board of directors. If our advisor suffers or is distracted by adverse financial or operational problems in connection with its operations unrelated to us, our advisor may be unable to allocate time and/or resources to our operations. If our

advisor is unable to allocate sufficient resources to oversee and perform our operations for any reason, we may be unable to achieve our investment objectives or to pay distributions to our stockholders. In addition, our success depends to a significant degree upon the continued contributions of certain of our sponsor s and advisor s officers and officers of Triple Net Properties, who will manage our advisor, including Scott D. Peters and Andrea R. Biller, each of whom would be difficult

to replace. We currently do not have key man life insurance on any key personnel. If our sponsor, our advisor or Triple Net Properties were to lose the benefit of the experience, efforts and abilities of one or more of these individuals, our operating results could suffer.

Our results of operations, our ability to pay distributions to our stockholders and our ability to dispose of our investments are subject to general economic and regulatory factors we cannot control or predict.

Our results of operations are subject to the risks of a national economic slowdown or disruption, other changes in national or local economic conditions or changes in tax, real estate, environmental or zoning laws. The following factors may affect income from our properties, our ability to dispose of properties, and yields from our properties:

- poor economic times may result in defaults by tenants of our properties and borrowers. We may also be required to provide rent concessions or reduced rental rates to maintain or increase occupancy levels;
- job transfers and layoffs may cause vacancies to increase and a lack of future population and job growth may make it difficult to maintain or increase occupancy levels;
- increases in supply of competing properties or decreases in demand for our properties may impact our ability to maintain or increase occupancy levels;
- changes in interest rates and availability of debt financing could render the sale of properties difficult or unattractive;
- periods of high interest rates may reduce cash flow from leveraged properties; and
- increased insurance premiums, real estate taxes or energy or other expenses may reduce funds available for distribution or, to the extent such increases are passed through to tenants, may lead to tenant defaults. Also, any such increased expenses may make it difficult to increase rents to tenants on turnover, which may limit our ability to increase our returns.

Some or all of the foregoing factors may affect the returns we receive from our investments, our results of operations, our ability to pay distributions to our stockholders or our ability to dispose of our investments.

Our advisor and its affiliates have no obligation to defer or forgive fees or loans or advance any funds to us, which could reduce our ability to make investments or pay distributions.

In the past, our sponsor or its affiliates have, in certain circumstances, deferred or forgiven fees and loans payable by programs sponsored or managed by NNN Realty Advisors or Triple Net Properties. Our advisor and its affiliates have no obligation to defer or forgive fees owed by us to our advisor or its affiliates or to advance any funds to us. As a result, we may have less cash available to make investments or pay distributions.

The ongoing SEC investigation of Triple Net Properties could adversely impact our advisor s ability to perform its duties to us.

On September 16, 2004, Triple Net Properties, learned that the SEC is conducting an investigation referred to as In the matter of Triple Net Properties, LLC. The SEC has requested information from Triple Net Properties relating to disclosure in certain public and private securities offerings sponsored by Triple Net Properties and its affiliates during 1998 through 2004, or the Triple Net securities offerings. The SEC also has requested information from NNN Capital Corp., the dealer manager for the Triple Net securities offerings and the dealer manager for this offering. The SEC has

requested financial and other information regarding the Triple Net securities offerings and the disclosures included in the related offering documents from each of Triple Net Properties and NNN Capital Corp.

Triple Net Properties and NNN Capital Corp. are engaged in settlement negotiations with the SEC staff regarding this matter. The settlement negotiations are continuing, and any settlement negotiated with the SEC staff must be approved by the Commission. Since the matter is not concluded, it remains subject to the risk

that the SEC may seek additional remedies, including substantial fines and injunctive relief that, if obtained, could materially adversely affect our advisor s ability to perform its duties to us, because our advisor is controlled by Triple Net Properties, and could also materially adversely affect our dealer manager s ability to conduct this offering. Additionally, any resolution of this matter that reflects negatively on the reputation of Triple Net Properties or NNN Capital Corp. could materially and adversely affect the willingness of potential investors to invest in Triple Net Properties offerings, including this offering. The matters that are the subject of this investigation could also give rise to claims against Triple Net Properties by investors in its programs. At this time, Triple Net Properties cannot assess the outcome of the investigation by the SEC.

Risks Related to Conflicts of Interest

We will be subject to conflicts of interest arising out of relationships among us, our officers, our advisor and its affiliates, including the material conflicts discussed below. The Conflicts of Interest section of this prospectus provides a more detailed discussion of these conflicts of interest.

We will compete with other NNN programs for investment opportunities. As a result, our advisor may not cause us to invest in favorable investment opportunities which may reduce our returns on our investments.

Our sponsor, Triple Net Properties and their affiliates have sponsored existing programs with investment objectives and strategies similar to ours, and may sponsor other similar programs in the future. As a result, we may be buying properties at the same time as one or more of the other NNN programs managed or advised by affiliates of our advisor. Officers and employees of our advisor may face conflicts of interest in allocating investment opportunities between us and these other programs. For instance, our advisor may select properties for us that provide lower returns to us than properties that its affiliates select to be purchased by another NNN program. We cannot be sure that officers and employees acting for or on behalf of our advisor and on behalf of managers of other NNN programs will act in our best interests when deciding whether to allocate any particular investment to us. We are subject to the risk that as a result of the conflicts of interest between us, our advisor and other entities or programs managed by its affiliates, our advisor may not cause us to invest in favorable investment opportunities that our advisor locates when it would be in our best interest to make such investments. As a result, we may invest in less favorable investments, which may reduce our returns on our investments and ability to pay distributions.

The conflicts of interest faced by our officers and our non-independent director may cause us not to be managed solely in the best interests of our stockholders, which may adversely affect our results of operation and the value of your investment.

Some of our officers and our non-independent director are officers of our advisor, Triple Net Properties, which manages our advisor, our sponsor and other affiliated entities which will receive fees in connection with this offering and operations. Scott D. Peters is our Chief Executive Officer, President and Chairman of the Board and also serves as the Chief Executive Officer of our advisor, the Chief Executive Officer of Triple Net Properties, the Chief Executive Officer, President and a director of our sponsor and the Chief Executive Officer, President and Chairman of the Board of NNN Realty Advisors, a wholly owned subsidiary of our sponsor. Mr. Peters currently owns approximately 2.0% of Grubb & Ellis outstanding common stock and he has de minimis ownership in several other NNN programs. Shannon K S Johnson is our Chief Financial Officer and also serves as a Financial Reporting Manager of Triple Net Properties. Ms. Johnson has de minimis equity ownership in our sponsor and no equity ownership in any NNN programs. Andrea R. Biller is our Executive Vice President and Secretary and also serves as the Executive Vice President of our advisor, the General Counsel and Executive Vice President of Triple Net Properties, the General Counsel, Executive Vice President and Secretary of our sponsor and the General Counsel, Executive Vice President, Secretary and a director of NNN Realty Advisors. Ms. Biller owns less than 1.0% of our sponsor s outstanding common stock and she has de minimis ownership in several NNN programs. Danny Prosky is our Vice President

Acquisitions and also serves as the Managing Director Health Care Properties of Triple Net Properties. Mr. Prosky has no equity ownership in our sponsor or any NNN programs, other than 3,000 shares of our common stock. In addition, each of Mr. Peters, Ms. Johnson, Ms. Biller and Mr. Prosky holds options to purchase a de minimis amount of our sponsor s outstanding common stock. As of December 14, 2007, each of Mr. Peters and Ms. Biller own 18.0% membership interests in Grubb & Ellis Healthcare Management, LLC, which owns 25.0% of the membership interest of our advisor.

Some of the NNN programs in which our officers and non-independent director have invested and to which they provide services, have investment objectives similar to our investment objectives. These individuals have legal and fiduciary obligations to these entities which are similar to those they owe to us and our stockholders. As a result, they may have conflicts of interest in allocating their time and resources between our business and these other activities. During times of intense activity in other programs, the time they devote to our business may decline and be less than we require. If our officers and non-independent director, for any reason, are not able to provide sufficient resources to manage our business, our business will suffer and this may adversely affect our results of operations and the value of your investment.

If we enter into joint ventures with affiliates, we may face conflicts of interest or disagreements with our joint venture partners that will not be resolved as quickly or on terms
as advantageous to us as would be the case if the joint venture had been negotiated at arm s length with an independent joint venture partner.

In the event that we enter into a joint venture with any other program sponsored or advised by our sponsor or one of its affiliates, we may face certain additional risks and potential conflicts of interest. For example, securities issued by the other NNN programs may never have an active trading market. Therefore, if we were to become listed on a national securities exchange, we may no longer have similar goals and objectives with respect to the resale of properties in the future. Joint ventures between us and other NNN programs will not have the benefit of arm s length negotiation of the type normally conducted between unrelated co-venturers. Under these joint venture agreements, none of the co-venturers may have the power to control the venture, and an impasse could be reached regarding matters pertaining to the joint venture, including the timing of a liquidation, which might have a negative impact on the joint venture and decrease returns to you.

Our advisor will face conflicts of interest relating to its compensation structure, which could result in actions that are not necessarily in the long-term best interests of our stockholders.

Under the advisory agreement between us, our operating partnership, our advisor and Triple Net Properties, and pursuant to the subordinated participation interest our advisor holds in our operating partnership, our advisor is entitled to fees and distributions that are structured in a manner intended to provide incentives to our advisor to perform in our best interests and in the best interests of our stockholders. The fees our advisor is entitled to include real estate commissions, an asset management fee and disposition fees. The distributions our advisor may become entitled to receive would be payable upon distribution of net sales proceeds to our stockholders, the listing of our shares or the termination of the advisory agreement, other than for cause. Please see Compensation Table for a description of the fees and distributions payable to our advisor and its affiliates. However, because our advisor does not maintain a significant equity interest in us and is entitled to receive substantial minimum compensation regardless of performance, our advisor s interests are not wholly aligned with those of our stockholders. In that regard, the only fee our advisor receives with respect to ongoing operation and management of properties is the asset management fee, which is based on the amount of our initial investment and not the performance of those investments, which could result in our advisor not having adequate incentive to manage our portfolio to provide profitable operations during the period we hold our investments. On the other hand, our advisor could be motivated to recommend riskier or more speculative investments in order to increase the fees payable to our advisor or for us to generate the specified levels of

performance or net sales proceeds that would entitle our advisor to fees or distributions.

The distribution payable to our advisor upon termination of the advisory agreement may influence decisions about terminating our advisor or our acquisition or disposition of investments.

Our advisor s entitlement to fees upon the sale of our assets and to participate in net sales proceeds could result in our advisor recommending sales of our investments at the earliest possible time at which sales of investments would produce the level of return which would entitle the advisor to compensation relating to such sales, even if continued ownership of those investments might be in the best long-term interest of our stockholders. The subordinated participation interest may require our operating partnership to make a distribution to our advisor upon termination of the advisory agreement, other than for cause, if our advisor meets the performance thresholds included in our operating partnership agreement. This distribution will not be paid if we terminate the advisory agreement after the listing of our shares. To avoid making this distribution, our independent directors may decide against terminating the advisory agreement prior to our listing of our shares even if, but for the requirement to make this distribution, termination of the advisory agreement would be in the best interest of our stockholders. In addition, the requirement to make this distribution could cause our independent directors to make different investment or disposition decisions than they would otherwise make, in order to satisfy our obligation to the terminated advisor.

We may acquire assets from, or dispose of assets to, affiliates of our advisor, which could result in us entering into transactions on less favorable terms than we would receive from a third party or that negatively affect the public s perception of us.

We may acquire assets from affiliates of our advisor. Further, we may also dispose of assets to affiliates of our advisor. Affiliates of our advisor may make substantial profits in connection with such transactions and may owe fiduciary and/or other duties to the selling or purchasing entity in these transactions, and conflicts of interest between us and the selling or purchasing entities could exist in such transactions. Because our independent directors would rely on our advisor in identifying and evaluating any such transaction, these conflicts could result in transactions based on terms that are less favorable to us than we would receive from a third party. Also, the existence of conflicts, regardless of how they are resolved, might negatively affect the public s perception of us.

The fees we pay our advisor under the advisory agreement and the distributions payable to our advisor under our operating partnership agreement were not determined on an arm s-length basis and therefore may not be on the same terms as those we could negotiate with an unrelated party.

Our independent directors relied on information and recommendations provided by our advisor to determine the fees and distributions payable to our advisor and its affiliates under the advisory agreement and pursuant to the subordinated participation interest in our operating partnership. As a result, these fees and distributions cannot be viewed as having been determined on an arms -length basis and we cannot assure you that an unaffiliated party would not be willing and able to provide to us the same services at a lower price.

Risks Associated with Our Organizational Structure

We may issue preferred stock or other classes of common stock, which issuance could adversely affect the holders of our common stock issued pursuant to this offering.

Investors in this offering do not have preemptive rights to any shares issued by us in the future. We may issue, without stockholder approval, preferred stock or other classes of common stock with rights that could dilute the value of your shares of common stock. Our charter authorizes us to issue 1,200,000,000 shares of capital stock, of which 1,000,000,000 shares of capital stock are designated as common stock and 200,000,000 shares of capital stock are

designated as preferred stock. Our board of directors may increase the aggregate number of authorized shares of capital stock or the number of authorized shares of capital stock of any class or series without stockholder approval. If we ever created and issued preferred stock with a distribution preference over our common stock, payment of any distribution preferences of outstanding preferred stock would reduce the amount of funds available for the payment of distributions on our common stock. Further, holders of preferred stock are normally entitled to receive a preference payment in the event we

liquidate, dissolve or wind up before any payment is made to our common stockholders, likely reducing the amount common stockholders would otherwise receive upon such an occurrence. In addition, under certain circumstances, the issuance of preferred stock or a separate class or series of common stock may render more difficult or tend to discourage:

- a merger, offer or proxy contest;
- assumption of control by a holder of large block of our securities; or
- removal of incumbent management.

The limit on the percentage of shares of our common stock that any person may own may discourage a takeover or business combination that may have benefited our stockholders.

Our charter restricts the direct or indirect ownership by one person or entity to no more than 9.8% of the value of our then outstanding capital stock (which includes common stock and any preferred stock we may issue) and no more than 9.8% of the value or number of shares, whichever is more restrictive, of our then outstanding common stock. This restriction may discourage a change of control of us and may deter individuals or entities from making tender offers for shares of our common stock on terms that might be financially attractive to stockholders or which may cause a change in our management. This ownership restriction may also prohibit business combinations that would have otherwise been approved by our board of directors and stockholders. In addition to deterring potential transactions that may be favorable to our stockholders, these provisions may also decrease your ability to sell your shares of our common stock.

Our board of directors may change our investment objectives without seeking stockholder approval.

Our charter permits our board of directors to change our investment objectives without seeking stockholder approval. Although our board has fiduciary duties to our stockholders and intends only to change our investment objectives when the board determines that a change is in the best interests of our stockholders, a change in our investment objectives could reduce our payment of cash distributions to our stockholders or cause a decline in the value of our investments.

Maryland law and our organizational documents limit your right to bring claims against our officers and directors.

Maryland law provides that a director will not have any liability as a director so long as he or she performs his or her duties in good faith, in a manner he or she reasonably believes to be in our best interest, and with the care that an ordinarily prudent person in a like position would use under similar circumstances. In addition, our charter provides that, subject to the applicable limitations set forth therein or under Maryland law, no director or officer will be liable to us or our stockholders for monetary damages. Our charter also provides that we will generally indemnify our directors, our officers, our advisor and its affiliates for losses they may incur by reason of their service in those capacities unless (1) their act or omission was material to the matter giving rise to the proceeding and was committed in bad faith or was the result of active and deliberate dishonesty, (2) they actually received an improper personal benefit in money, property or services, or (3) in the case of any criminal proceeding, they had reasonable cause to believe the act or omission was unlawful. Moreover, we may enter into separate indemnification agreements with each of our directors and some of our executive officers. As a result, we and our stockholders may have more limited rights against these persons than might otherwise exist under common law. In addition, we may be obligated to fund the defense costs incurred by these persons in some cases. However, our charter does provide that we may not indemnify or hold harmless our directors, our advisor and its affiliates unless they have determined that the course of conduct that caused the loss or liability was in our best interests, they were acting on our behalf or performing services for us,

the liability was not the result of negligence or misconduct by our non-independent directors, our advisor and its affiliates or gross negligence or willful misconduct by our independent directors, and the indemnification is recoverable only out of our net assets or the proceeds of insurance and not from the stockholders.

Table of Contents

Certain provisions of Maryland law could restrict a change in control even if a change in control were in our stockholders interests.

Certain provisions of the Maryland General Corporation Law applicable to us prohibit business combinations with:

- any person who beneficially owns 10% or more of the voting power of our common stock, which we refer to as an interested stockholder;
- an affiliate of ours who, at any time within the two-year period prior to the date in question, was an interested stockholder; or
- an affiliate of an interested stockholder.

These prohibitions last for five years after the most recent date on which the interested stockholder became an interested stockholder. Thereafter, any business combination with the interested stockholder must be recommended by our board of directors and approved by the affirmative vote of at least 80% of the votes entitled to be cast by holders of our outstanding shares of common stock and two-thirds of the votes entitled to be cast by holders of shares of our common stock other than shares held by the interested stockholder. These requirements could have the effect of inhibiting a change in control even if a change in control were in our stockholders interest. These provisions of Maryland law do not apply, however, to business combinations that are approved or exempted by our board of directors prior to the time that someone becomes an interested stockholder.

Your investment return may be reduced if we are required to register as an investment company under the Investment Company Act.

We are not registered as an investment company under the Investment Company Act of 1940, as amended, or the Investment Company Act. If for any reason, we were required to register as an investment company, we would have to comply with a variety of substantive requirements under the Investment Company Act imposing, among other things:

- limitations on capital structure;
- restrictions on specified investments;
- prohibitions on transactions with affiliates; and
- compliance with reporting, record keeping, voting, proxy disclosure and other rules and regulations that would significantly change our operations.

We intend to operate in such a manner that we will not be subject to regulation under the Investment Company Act. In order to maintain our exemption from regulation under the Investment Company Act, we must comply with technical and complex rules and regulations.

Specifically, in order to maintain our exemption from regulation as an investment company under the Investment Company Act, we intend to engage primarily in the business of investing in interests in real estate and to make these investments within one year after the offering ends. If we are unable to invest a significant portion of the proceeds of this offering in properties within one year of the termination of the offering, we may avoid being required to register as an investment company under the Investment Company Act by temporarily investing any unused proceeds in

government securities with low returns. Investments in government securities likely would reduce the cash available for distribution to investors and possibly lower your returns.

In order to avoid coming within the application of the Investment Company Act, either as a company engaged primarily in investing in interests in real estate or under another exemption from the Investment Company Act, our advisor may be required to impose limitations on our investment activities. In particular, our advisor may limit the percentage of our assets that fall into certain categories specified in the Investment Company Act, which could result in us holding assets we otherwise might desire to sell and selling assets we

otherwise might wish to retain. In addition, we may have to acquire additional assets that we might not otherwise have acquired or be forced to forgo investment opportunities that we would otherwise want to acquire and that could be important to our investment strategy. In particular, our advisor will monitor our investments in real estate related securities to ensure continued compliance with one or more exemptions from investment company status under the Investment Company Act and, depending on the particular characteristics of those investments and our overall portfolio, our advisor may be required to limit the percentage of our assets represented by real estate related securities.

If we were required to register as an investment company, our ability to enter into certain transactions would be restricted by the Investment Company Act. Furthermore, the costs associated with registration as an investment company and compliance with such restrictions could be substantial. In addition, registration under and compliance with the Investment Company Act would require a substantial amount of time on the part of our advisor and its affiliates, thereby decreasing the time they spend actively managing our investments. If we were required to register as an investment company but failed to do so, we would be prohibited from engaging in our business, and criminal and civil actions could be brought against us. In addition, our contracts would be unenforceable unless a court were to require enforcement, and a court could appoint a receiver to take control of us and liquidate our business.

Risks Related to Investments in Real Estate

Changes in national, regional or local economic, demographic or real estate market conditions may adversely affect our results of operations and our ability to pay distributions to our stockholders or reduce the value of your investment.

We will be subject to risks generally incident to the ownership of real property, including changes in national, regional or local economic, demographic or real estate market conditions. We are unable to predict future changes in national, regional or local economic, demographic or real estate market conditions. For example, a recession or rise in interest rates could make it more difficult for us to lease real properties or dispose of them. In addition, rising interest rates could also make alternative interest-bearing and other investments more attractive and therefore potentially lower the relative value of our existing real estate investments. These conditions, or others we cannot predict, may adversely affect our results of operations, our ability to pay distributions to our stockholders or reduce the value of your investment.

If we acquire real estate at a time when the real estate market is experiencing substantial influxes of capital investment and competition for income producing properties, the real estate investments we make may not appreciate or may decrease in value.

The real estate market is currently experiencing a substantial influx of capital from investors. This substantial flow of capital, combined with significant competition for income producing real estate, may result in inflated purchase prices for such assets. To the extent we purchase real estate in such an environment, we are subject to the risk that if the real estate market ceases to attract the same level of capital investment in the future as it is currently attracting, or if the number of companies seeking to acquire such assets decreases, the value of our investment may not appreciate or may decrease significantly below the amount we paid for such investment.

Competition with third parties in acquiring properties and other investments may reduce our profitability and the return on your investment.

We compete with many other entities engaged in real estate investment activities, including individuals, corporations, bank and insurance company investment accounts, pension funds, other REITs, real estate limited partnerships, and foreign investors, many of which have greater resources than we do. Many of these entities may enjoy significant competitive advantages that result from, among other things, a lower cost of capital and enhanced operating

efficiencies. In addition, the number of entities and the amount of funds competing for suitable investments may increase. As such, competition with third parties would result in increased demand

for these assets and therefore increased prices paid for them. If we pay higher prices for properties and other investments, our profitability will be reduced and you may experience a lower return on your investment.

Some or all of our properties may incur vacancies, which may result in reduced revenue and resale value, a reduction in cash available for distribution and a diminished return on your investment.

Some or all of our properties may incur vacancies either by a default of tenants under their leases or the expiration or termination of tenant leases. If vacancies continue for a long period of time, we may suffer reduced revenues resulting in less cash distributions to stockholders. In addition, the resale value of the property could be diminished because the market value of a particular property will depend principally upon the value of the leases of such property.

We are dependent on tenants for our revenue, and lease terminations could reduce our distributions to our stockholders.

The successful performance of our real estate investments is materially dependent on the financial stability of our tenants. Lease payment defaults by tenants would cause us to lose the revenue associated with such leases and could cause us to reduce the amount of distributions to stockholders. If the property is subject to a mortgage, a default by a significant tenant on its lease payments to us may result in a foreclosure on the property if we are unable to find an alternative source of revenue to meet mortgage payments. In the event of a tenant default, we may experience delays in enforcing our rights as landlord and may incur substantial costs in protecting our investment and re-letting our property. Further, we cannot assure you that we will be able to re-lease the property for the rent previously received, if at all, or that lease terminations will not cause us to sell the property at a loss.

Long-term leases may not result in fair market lease rates over time; therefore, our income and our distributions to our stockholders could be lower than if we did not enter into long-term leases.

We may enter into long-term leases with tenants of certain of our properties. Our long-term leases would likely provide for rent to increase over time. However, if we do not accurately judge the potential for increases in market rental rates, we may set the terms of these long-term leases at levels such that even after contractual rental increases the rent under our long-term leases is less than then-current market rental rates. Further, we may have no ability to terminate those leases or to adjust the rent to then-prevailing market rates. As a result, our income and distributions to our stockholders could be lower than if we did not enter into in long-term leases.

We may be unable to secure funds for future tenant or other capital improvements, which could limit our ability to attract or replace tenants and decrease your return on investment.

When tenants do not renew their leases or otherwise vacate their space, it is common that, in order to attract replacement tenants, we will be required to expend substantial funds for tenant improvements and leasing commissions related to the vacated space. Such tenant improvements may require us to incur substantial capital expenditures. If we have not established capital reserves for such tenant or other capital improvements, we will have to obtain financing from other sources and we have not identified any sources for such financing. We may also have future financing needs for other capital improvements to refurbish or renovate our properties. If we need to secure financing sources for tenant improvements or other capital improvements in the future, but are unable to secure such financing or are unable to secure financing on terms we feel are acceptable, we may be unable to make tenant and other capital improvements or we may be required to defer such improvements. If this happens, it may cause one or more of our properties to suffer from a greater risk of obsolescence or a decline in value, or a greater risk of decreased cash flow as a result of fewer potential tenants being attracted to the property or existing tenants not renewing their leases. If we do not have access to sufficient funding in the future, we may not be able to make necessary capital improvements to our properties, pay other expenses or pay distributions to our stockholders.

Uninsured losses relating to real estate and lender requirements to obtain insurance may reduce your returns.

There are types of losses relating to real estate, generally catastrophic in nature, such as losses due to wars, acts of terrorism, earthquakes, floods, hurricanes, pollution or environmental matters, for which we do not intend to obtain insurance unless we are required to do so by mortgage lenders. If any of our properties incurs a casualty loss that is not fully covered by insurance, the value of our assets will be reduced by any such uninsured loss. In addition, other than any reserves we may establish, we have no source of funding to repair or reconstruct any uninsured damaged property, and we cannot assure you that any such sources of funding will be available to us for such purposes in the future. Also, to the extent we must pay unexpectedly large amounts for uninsured losses, we could suffer reduced earnings that would result in less cash to be distributed to stockholders. In cases where we are required by mortgage lenders to obtain casualty loss insurance for catastrophic events or terrorism, such insurance may not be available, or may not be available at a reasonable cost, which could inhibit our ability to finance or refinance our properties. Additionally, if we obtain such insurance, the costs associated with owning a property would increase and could have a material adverse effect on the net income from the property, and, thus, the cash available for distribution to our stockholders.

Delays in the acquisition, development and construction of real properties may have adverse effects on our results of operations and returns to our stockholders.

Delays we encounter in the selection, acquisition and development of real properties could adversely affect your returns. Where properties are acquired prior to the start of constructions or during the early stages of construction, it will typically take several months to complete construction and rent available space. Therefore, you could suffer delays in the receipt of cash distributions attributable to those particular real properties. Delays in completion of construction could give tenants the right to terminate preconstruction leases for space at a newly developed project. We may incur additional risks when we make periodic progress payments or other advances to builders prior to completion of construction. Each of those factors could result in increased costs of a project or loss of our investment. In addition, we will be subject to normal lease-up risks relating to newly constructed projects. Furthermore, the price we agree to for a real property will be based on our projections of rental income and expenses and estimates of the fair market value of real property upon completion of construction. If our projections are inaccurate, we may pay too much for a property.

Uncertain market conditions relating to the future disposition of properties could cause us to sell our properties at a loss in the future.

We intend to hold our various real estate investments until such time as our advisor determines that a sale or other disposition appears to be advantageous to achieve our investment objectives. Our advisor, subject to the oversight of our board of directors, may exercise its discretion as to whether and when to sell a property, and we will have no obligation to sell properties at any particular time. We generally intend to hold properties for an extended period of time, and we cannot predict with any certainty the various market conditions affecting real estate investments that will exist at any particular time in the future. Because of the uncertainty of market conditions that may affect the future disposition of our properties, we cannot assure you that we will be able to sell our properties at a profit in the future. Additionally, we may incur prepayment penalties in the event we sell a property subject to a mortgage earlier than we otherwise had planned. Accordingly, the extent to which you will receive cash distributions and realize potential appreciation on our real estate investments will, among other things, be dependent upon fluctuating market conditions.

We face possible liability for environmental cleanup costs and damages for contamination related to properties we acquire, which could substantially increase our costs and reduce our liquidity and cash distributions to

stockholders.

Because we intend to own and operate real estate, we will be subject to various federal, state and local environmental laws, ordinances and regulations. Under these laws, ordinances and regulations, a current or previous owner or operator of real estate may be liable for the cost of removal or remediation of hazardous or

toxic substances on, under or in such property. The costs of removal or remediation could be substantial. Such laws often impose liability whether or not the owner or operator knew of, or was responsible for, the presence of such hazardous or toxic substances. Environmental laws also may impose restrictions on the manner in which property may be used or businesses may be operated, and these restrictions may require substantial expenditures. Environmental laws provide for sanctions in the event of noncompliance and may be enforced by governmental agencies or, in certain circumstances, by private parties. Certain environmental laws and common law principles could be used to impose liability for release of and exposure to hazardous substances, including asbestos-containing materials into the air, and third parties may seek recovery from owners or operators of real estate for personal injury or property damage associated with exposure to released hazardous substances. In addition, new or more stringent laws or stricter interpretations of existing laws could change the cost of compliance or liabilities and restrictions arising out of such laws. The cost of defending against these claims, complying with environmental regulatory requirements, conducting remediation of any contaminated property, or of paying personal injury claims could be substantial, which would reduce our liquidity and cash available for distribution to you. In addition, the presence of hazardous substances on a property or the failure to meet environmental regulatory requirements may materially impair our ability to use, lease or sell a property, or to use the property as collateral for borrowing.

Our real estate investments may be concentrated in medical office or other healthcare-related facilities, making us more vulnerable economically than if our investments were diversified.

As a REIT, we will invest primarily in real estate. Within the real estate industry, we intend primarily to acquire or selectively develop and own medical office buildings, healthcare-related facilities and quality commercial office properties. We are subject to risks inherent in concentrating investments in real estate. These risks resulting from a lack of diversification become even greater as a result of our business strategy to invest to a substantial degree in healthcare-related facilities.

A downturn in the commercial real estate industry generally could significantly adversely affect the value of our properties. A downturn in the healthcare industry could negatively affect our lessees ability to make lease payments to us and our ability to make distributions to our stockholders. These adverse effects could be more pronounced than if we diversified our investments outside of real estate or if our portfolio did not include a substantial concentration in medical office buildings and healthcare-related facilities.

Certain of our properties may not have efficient alternative uses, so the loss of a tenant may cause us not to be able to find a replacement or cause us to spend considerable capital to adapt the property to an alternative use.

Some of the properties we will seek to acquire are specialized medical facilities. If we or our tenants terminate the leases for these properties or our tenants lose their regulatory authority to operate such properties, we may not be able to locate suitable replacement tenants to lease the properties for their specialized uses. Alternatively, we may be required to spend substantial amounts to adapt the properties to other uses. Any loss of revenues or additional capital expenditures required as a result may have a material adverse effect on our business, financial condition and results of operations and our ability to make distributions to our stockholders.

Our medical office buildings, healthcare-related facilities and tenants may be unable to compete successfully.

Our medical office buildings and healthcare-related facilities often face competition from nearby hospitals and other medical office buildings that provide comparable services. Some of those competing facilities are owned by governmental agencies and supported by tax revenues, and others are owned by nonprofit corporations and may be supported to a large extent by endowments and charitable contributions. These types of support are not available to our buildings.

Similarly, our tenants face competition from other medical practices in nearby hospitals and other medical facilities. Our tenants failure to compete successfully with these other practices could adversely affect their

ability to make rental payments, which could adversely affect our rental revenues. Further, from time to time and for reasons beyond our control, referral sources, including physicians and managed care organizations, may change their lists of hospitals or physicians to which they refer patients. This could adversely affect our tenants ability to make rental payments, which could adversely affect our rental revenues.

Any reduction in rental revenues resulting from the inability of our medical office buildings and healthcare-related facilities and our tenants to compete successfully may have a material adverse effect on our business, financial condition and results of operations and our ability to make distributions to our stockholders.

Our costs associated with complying with the Americans with Disabilities Act may reduce our cash available for distributions.

Our properties may be subject to the Americans with Disabilities Act of 1990, as amended, or the ADA. Under the ADA, all places of public accommodation are required to comply with federal requirements related to access and use by disabled persons. The ADA has separate compliance requirements for public accommodations and commercial facilities that generally require that buildings and services be made accessible and available to people with disabilities. The ADA s requirements could require removal of access barriers and could result in the imposition of injunctive relief, monetary penalties or, in some cases, an award of damages. We will attempt to acquire properties that comply with the ADA or place the burden on the seller or other third party, such as a tenant, to ensure compliance with the ADA. However, we cannot assure you that we will be able to acquire properties or allocate responsibilities in this manner. If we cannot, our funds used for ADA compliance may reduce cash available for distributions and the amount of distributions to you.

Our real properties will be subject to property taxes that may increase in the future, which could adversely affect our cash flow.

Our real properties are subject to real and personal property taxes that may increase as tax rates change and as the real properties are assessed or reassessed by taxing authorities. We anticipate that certain of our leases will generally provide that the property taxes or increases therein, are charged to the tenants as an expense related to the real properties that they occupy while other leases will generally provide that we are responsible for such taxes. In any case, as the owner of the properties, we are ultimately responsible for payment of the taxes to the applicable government authorities. If real property taxes increase, our tenants may be unable to make the required tax payments, ultimately requiring us to pay the taxes even if otherwise stated under the terms of the lease. If we fail to pay any such taxes, the applicable taxing authority may place a lien on the real property and the real property may be subject to a tax sale. In addition, we will generally be responsible for real property taxes related to any vacant space.

Costs of complying with governmental laws and regulations related to environmental protection and human health and safety may be high.

All real property investments and the operations conducted in connection with such investments are subject to federal, state and local laws and regulations relating to environmental protection and human health and safety. Some of these laws and regulations may impose joint and several liability on customers, owners or operators for the costs to investigate or remediate contaminated properties, regardless of fault or whether the acts causing the contamination were legal.

Under various federal, state and local environmental laws, a current or previous owner or operator of real property may be liable for the cost of removing or remediating hazardous or toxic substances on such real property. Such laws often impose liability whether or not the owner or operator knew of, or was responsible for, the presence of such hazardous or toxic substances. In addition, the presence of hazardous substances, or the failure to properly remediate

those substances, may adversely affect our ability to sell, rent or pledge such real property as collateral for future borrowings. Environmental laws also may impose restrictions on the manner in which real property may be used or businesses may be operated. Some of these laws and regulations have been amended so as to require compliance with new or more stringent standards as of future dates. Compliance with new or more stringent laws or regulations or stricter interpretation of existing laws may

require us to incur material expenditures. Future laws, ordinances or regulations may impose material environmental liability. Additionally, our tenants operations, the existing condition of land when we buy it, operations in the vicinity of our real properties, such as the presence of underground storage tanks, or activities of unrelated third parties may affect our real properties. In addition, there are various local, state and federal fire, health, life-safety and similar regulations with which we may be required to comply, and which may subject us to liability in the form of fines or damages for noncompliance. In connection with the acquisition and ownership of our real properties, we may be exposed to such costs in connection with such regulations. The cost of defending against environmental claims, of any damages or fines we must pay, of compliance with environmental regulatory requirements or of remediating any contaminated real property could materially and adversely affect our business, lower the value of our assets or results of operations and, consequently, lower the amounts available for distribution to you.

Risks Relating to the Healthcare Industry

Reductions in reimbursement from third party payors, including Medicare and Medicaid, could adversely affect the profitability of our tenants and hinder their ability to make rent payments to us.

Sources of revenue for our tenants may include the federal Medicare program, state Medicaid programs, private insurance carriers and health maintenance organizations, among others. Efforts by such payors to reduce healthcare costs will likely continue, which may result in reductions or slower growth in reimbursement for certain services provided by some of our tenants. In addition, the failure of any of our tenants to comply with various laws and regulations could jeopardize their ability to continue participating in Medicare, Medicaid and other government sponsored payment programs.

The healthcare industry continues to face various challenges, including increased government and private payor pressure on healthcare providers to control or reduce costs. It is possible that our tenants will continue to experience a shift in payor mix away from fee-for-service payors, resulting in an increase in the percentage of revenues attributable to managed care payors, and general industry trends that include pressures to control healthcare costs. Pressures to control healthcare costs and a shift away from traditional health insurance reimbursement to managed care plans have resulted in an increase in the number of patients whose healthcare coverage is provided under managed care plans, such as health maintenance organizations and preferred provider organizations. These changes could have a material adverse effect on the financial condition of some or all of our tenants. The financial impact on our tenants could restrict their ability to make rent payments to us, which would have a material adverse effect on our business, financial condition and results of operations and our ability to make distributions to our stockholders.

We face increasing competition for the acquisition of medical office buildings and other healthcare-related facilities, which may impede our ability to make future acquisitions or may increase the cost of these acquisitions.

We compete with many other entities engaged in real estate investment activities for acquisitions of medical office buildings and healthcare-related facilities, including national, regional and local operators, acquirers and developers of healthcare real estate properties. The competition for healthcare real estate properties may significantly increase the price we must pay for medical office buildings and healthcare-related facilities or other assets we seek to acquire and our competitors may succeed in acquiring those properties or assets themselves. In addition, our potential acquisition targets may find our competitors to be more attractive because they may have greater resources, may be willing to pay more for the properties or may have a more compatible operating philosophy. In particular, larger healthcare real estate REITs may enjoy significant competitive advantages that result from, among other things, a lower cost of capital and enhanced operating efficiencies. In addition, the number of entities and the amount of funds competing for suitable investment properties may increase. This competition will result in increased demand for these assets and therefore increased prices paid for them. Because of an increased interest in single-property acquisitions among tax-motivated individual purchasers, we may pay higher prices if we purchase single properties in comparison with

portfolio acquisitions. If we pay higher prices for medical office buildings, healthcare-related facilities and

quality commercial office properties, our business, financial condition and results of operations and our ability to make distributions to our stockholders may be materially and adversely affected.

The healthcare industry is heavily regulated, and new laws or regulations, changes to existing laws or regulations, loss of licensure or failure to obtain licensure could result in the inability of our tenants to make rent payments to us.

The healthcare industry is heavily regulated by federal, state and local governmental bodies. Our tenants generally will be subject to laws and regulations covering, among other things, licensure, certification for participation in government programs, and relationships with physicians and other referral sources. Changes in these laws and regulations could negatively affect the ability of our tenants to make lease payments to us and our ability to make distributions to our stockholders.

Many of our medical properties and their tenants may require a license or certificate of need, or CON, to operate. Failure to obtain a license or CON, or loss of a required license or CON would prevent a facility from operating in the manner intended by the tenant. These events could materially adversely affect our tenants ability to make rent payments to us. State and local laws also may regulate expansion, including the addition of new beds or services or acquisition of medical equipment, and the construction of healthcare-related facilities, by requiring a CON or other similar approval. State CON laws are not uniform throughout the United States and are subject to change. We cannot predict the impact of state CON laws on our development of facilities or the operations of our tenants.

In addition, state CON laws often materially impact the ability of competitors to enter into the marketplace of our facilities. The repeal of CON laws could allow competitors to freely operate in previously closed markets. This could negatively affect our tenants abilities to make rent payments to us.

In limited circumstances, loss of state licensure or certification or closure of a facility could ultimately result in loss of authority to operate the facility and require new CON authorization to re-institute operations. As a result, a portion of the value of the facility may be reduced, which would adversely impact our business, financial condition and results of operations and our ability to make distributions to our stockholders.

Tenants of our medical office buildings and healthcare-related facilities will be subject to fraud and abuse laws, the violation of which by a tenant may jeopardize the tenant s ability to make rent payments to us.

There are various federal and state laws prohibiting fraudulent and abusive business practices by healthcare providers who participate in, receive payments from or are in a position to make referrals in connection with government-sponsored healthcare programs, including the Medicare and Medicaid programs. Our lease arrangements with certain tenants may also be subject to these fraud and abuse laws.

These laws include:

- the Federal Anti-Kickback Statute, which prohibits, among other things, the offer, payment, solicitation or receipt of any form of remuneration in return for, or to induce, the referral of any item or service reimbursed by Medicare or Medicaid;

- the Federal Physician Self-Referral Prohibition, which, subject to specific exceptions, restricts physicians from making referrals for specifically designated health services for which payment may be made under Medicare or Medicaid programs to an entity with which the physician, or an immediate family member, has a financial relationship;

the False Claims Act, which prohibits any person from knowingly presenting false or fraudulent claims for payment to the federal government, including claims paid by the Medicare and Medicaid programs; and

the Civil Monetary Penalties Law, which authorizes the U.S. Department of Health and Human Services to impose monetary penalties for certain fraudulent acts.

Each of these laws includes criminal and/or civil penalties for violations that range from punitive sanctions, damage assessments, penalties, imprisonment, denial of Medicare and Medicaid payments and/or exclusion from the Medicare and Medicaid programs. Certain laws, such as the False Claims Act, allow for individuals to bring whistleblower actions on behalf of the government for violations thereof. Additionally, states in which the facilities are located may have similar fraud and abuse laws. Investigation by a federal or state governmental body for violation of fraud and abuse laws or imposition of any of these penalties upon one of our tenants could jeopardize that tenant s ability to operate or to make rent payments, which may have a material adverse effect on our business, financial condition and results of operations and our ability to make distributions to our stockholders.

Adverse trends in healthcare provider operations may negatively affect our lease revenues and our ability to make distributions to our stockholders.

The healthcare industry is currently experiencing:

- changes in the demand for and methods of delivering healthcare services;
- changes in third party reimbursement policies;
- significant unused capacity in certain areas, which has created substantial competition for patients among healthcare providers in those areas;
- continuing pressure by private and governmental payors to reduce payments to providers of services; and
- increased scrutiny of billing, referral and other practices by federal and state authorities.

These factors may adversely affect the economic performance of some or all of our tenants and, in turn, our lease revenues and our ability to make distributions to our stockholders.

Tenants of our medical office buildings and healthcare-related facilities may be subject to significant legal actions that could subject them to increased operating costs and substantial uninsured liabilities, which may affect their ability to pay their rent payments to us.

As is typical in the healthcare industry, certain types of tenants of our medical office buildings and healthcare-related facilities may often become subject to claims that their services have resulted in patient injury or other adverse effects. Many of these tenants may have experienced an increasing trend in the frequency and severity of professional liability and general liability insurance claims and litigation asserted against them. The insurance coverage maintained by these tenants may not cover all claims made against them nor continue to be available at a reasonable cost, if at all. In some states, insurance coverage for the risk of punitive damages arising from professional liability and general liability claims and/or litigation may not, in certain cases, be available to these tenants due to state law prohibitions or limitations of availability. As a result, these types of tenants of our medical office buildings and healthcare-related facilities operating in these states may be liable for punitive damage awards that are either not covered or are in excess of their insurance policy limits. We also believe that there has been, and will continue to be, an increase in governmental investigations of certain healthcare providers, particularly in the area of Medicare/Medicaid false claims, as well as an increase in enforcement actions resulting from these investigations. Insurance is not available to cover such losses. Any adverse determination in a legal proceeding or governmental investigation, whether currently asserted or arising in the future, could have a material adverse effect on a tenant s financial condition. If a tenant is unable to obtain or maintain insurance coverage, if judgments are obtained in excess of the insurance coverage, if a tenant is required to pay uninsured punitive damages, or if a tenant is subject to an uninsurable government

enforcement action, the tenant could be exposed to substantial additional liabilities, which may affect the tenant s ability to pay rent, which in turn could have a material adverse effect on our business, financial condition and results of operations and our ability to make distributions to our stockholders.

Risks Related to Investments in Real Estate Related Securities

We do not have substantial experience in acquiring mortgage loans or investing in real estate related securities, which may result in our real estate related securities investments failing to produce returns or incurring losses.

None of our officers or the management personnel of our advisor have any substantial experience in acquiring mortgage loans or investing in the real estate related securities in which we may invest. We may make such investments to the extent that our advisor, in consultation with our board of directors, determines that it is advantageous for us to do so. Our and our advisor s lack of expertise in making real estate related securities investments may result in our real estate related securities investments failing to produce returns or incurring losses, either of which would reduce our ability to make distributions to our stockholders.

Real estate related equity securities in which we may invest are subject to specific risks relating to the particular issuer of the securities and may be subject to the general risks of investing in subordinated real estate securities.

We may invest in common and preferred stock of both publicly traded and private real estate companies, which involves a higher degree of risk than debt securities due to a variety of factors, including that such investments are subordinate to creditors and are not secured by the issuer s property. Our investments in real estate related equity securities will involve special risks relating to the particular issuer of the equity securities, including the financial condition and business outlook of the issuer. Issuers of real estate related common equity securities generally invest in real estate or real estate related assets and are subject to the inherent risks associated with real estate related investments discussed in this prospectus, including risks relating to rising interest rates.

The mortgage loans in which we may invest and the mortgage loans underlying the mortgage-backed securities in which we may invest may be impacted by unfavorable real estate market conditions, which could decrease their value.

If we make investments in mortgage loans or mortgage-backed securities, we will be at risk of loss on those investments, including losses as a result of defaults on mortgage loans. These losses may be caused by many conditions beyond our control, including economic conditions affecting real estate values, tenant defaults and lease expirations, interest rate levels and the other economic and liability risks associated with real estate described above under the heading Risks Related to Investments in Real Estate. If we acquire property by foreclosure following defaults under our mortgage loan investments, we will have the economic and liability risks as the owner described above. We do not know whether the values of the property securing any of our real estate securities investments will remain at the levels existing on the dates we initially make the related investment. If the values of the underlying properties drop, our risk will increase and the values of our interests may decrease.

Delays in liquidating defaulted mortgage loan investments could reduce our investment returns.

If there are defaults under our mortgage loan investments, we may not be able to foreclose on or obtain a suitable remedy with respect to such investments. Specifically, we may not be able to repossess and sell the underlying properties quickly which could reduce the value of our investment. For example, an action to foreclose on a property securing a mortgage loan is regulated by state statutes and rules and is subject to many of the delays and expenses of lawsuits if the defendant raises defenses or counterclaims. Additionally, in the event of default by a mortgagor, these restrictions, among other things, may impede our ability to foreclose on or sell the mortgages property or to obtain proceeds sufficient to repay all amounts due to us on the mortgage loan.

The collateralized mortgage backed securities in which we may invest are subject to several types of risks.

Collateralized mortgage backed securities, or CMBS, are bonds which evidence interests in, or are secured by, a single commercial mortgage loan or a pool of commercial mortgage loans. Accordingly, the mortgage-backed securities we invest in are subject to all the risks of the underlying mortgage loans.

In a rising interest rate environment, the value of CMBS may be adversely affected when payments on underlying mortgages do not occur as anticipated, resulting in the extension of the security s effective maturity and the related increase in interest rate sensitivity of a longer-term instrument. The value of CMBS may also change due to shifts in the market s perception of issuers and regulatory or tax changes adversely affecting the mortgage securities markets as a whole. In addition, CMBS are subject to the credit risk associated with the performance of the underlying mortgage properties. In certain instances, third party guarantees or other forms of credit support can reduce the credit risk.

CMBS are also subject to several risks created through the securitization process. Subordinate CMBS are paid interest only to the extent that there are funds available to make payments. To the extent the collateral pool includes a large percentage of delinquent loans, there is a risk that interest payment on subordinate CMBS will not be fully paid. Subordinate securities of CMBS are also subject to greater credit risk than those CMBS that are more highly rated.

The mezzanine loans in which we may invest would involve greater risks of loss than senior loans secured by income-producing real properties.

We may invest in mezzanine loans that take the form of subordinated loans secured by second mortgages on the underlying real property or loans secured by a pledge of the ownership interests of either the entity owning the real property or the entity that owns the interest in the entity owning the real property. These types of investments involve a higher degree of risk than long-term senior mortgage lending secured by income producing real property because the investment may become unsecured as a result of foreclosure by the senior lender. In the event of a bankruptcy of the entity providing the pledge of its ownership interests as security, we may not have full recourse to the assets of such entity, or the assets of the entity may not be sufficient to satisfy our mezzanine loan. If a borrower defaults on our mezzanine loan or debt senior to our loan, or in the event of a borrower bankruptcy, our mezzanine loan will be satisfied only after the senior debt. As a result, we may not recover some or all of our investment. In addition, mezzanine loans may have higher loan -to -value ratios than conventional mortgage loans, resulting in less equity in the real property and increasing the risk of loss of principal.

We expect a portion of our real estate related securities investments to be illiquid and we may not be able to adjust our portfolio in response to changes in economic and other conditions.

We may purchase real estate related securities in connection with privately negotiated transactions which are not registered under the relevant securities laws, resulting in a prohibition against their transfer, sale, pledge or other disposition except in a transaction that is exempt from the registration requirements of, or is otherwise in accordance with, those laws. As a result, our ability to vary our portfolio in response to changes in economic and other conditions may be relatively limited. The mezzanine and bridge loans we may purchase will be particularly illiquid investments due to their short life, their unsuitability for securitization and the greater difficulty of recoupment in the event of a borrower s default.

Interest rate and related risks may cause the value of our real estate related securities investments to be reduced.

Interest rate risk is the risk that fixed income securities such as preferred and debt securities, and to a lesser extent dividend paying common stocks, will decline in value because of changes in market interest rates. Generally, when market interest rates rise, the market value of such securities will decline, and vice versa. Our investment in such securities means that the net asset value and market price of the common shares may tend to decline if market interest rates rise.

During periods of rising interest rates, the average life of certain types of securities may be extended because of slower than expected principal payments. This may lock in a below-market interest rate, increase the security s duration and reduce the value of the security. This is known as extension risk. During periods of declining interest rates, an issuer may be able to exercise an option to prepay principal earlier than scheduled, which is generally known as call or prepayment risk. If this occurs, we may be forced to reinvest in lower yielding securities. This is known as reinvestment risk. Preferred and debt securities frequently have call features that allow the issuer to repurchase the security prior to its stated maturity. An issuer may redeem an obligation if the issuer can refinance the debt at a lower cost due to declining interest rates or an improvement in the credit standing of the issuer. These risks may reduce the value of our real estate related securities investments.

If we liquidate prior to the maturity of our real estate securities investments, we may be forced to sell those investments on unfavorable terms or at a loss.

Our board of directors may choose to effect a liquidity event in which we liquidate our assets, including our real estate related securities investments. If we liquidate those investments prior to their maturity, we may be forced to sell those investments on unfavorable terms or at loss. For instance, if we are required to liquidate mortgage loans at a time when prevailing interest rates are higher than the interest rates of such mortgage loans, we would likely sell such loans at a discount to their stated principal values.

Risks Associated with Debt Financing

We will incur mortgage indebtedness and other borrowings, which may increase our business risks, could hinder our ability to make distributions and could decrease the value of your investment.

We intend to finance a portion of the purchase price of our investments in real estate and real estate related securities by borrowing funds. We have not identified any sources of debt financing as of the date of this prospectus. We anticipate that, after an initial phase of our operations when we may employ greater amounts of leverage to enable us to purchase properties more quickly and therefore generate distributions for our stockholders sooner, our overall leverage will not exceed 60.0% of the combined fair market value of our assets. Under our charter, we have a limitation on borrowing which precludes us from borrowing in excess of 300.0% of the value of our net assets, or more if such excess is approved by a majority of our independent directors and is disclosed in our next quarterly report along with the justification for such excess. Net assets for purposes of this calculation are defined to be our total assets (other than intangibles), valued at cost prior to deducting depreciation or other non-case reserves, less total liabilities. Generally speaking, the preceding calculation is expected to approximate 75.0% of the sum of (a) the aggregate cost of our real property investments before non-cash reserves and depreciation and (b) the aggregate cost of our investments in real estate related securities. In addition, we may incur mortgage debt and pledge some or all of our real properties as security for that debt to obtain funds to acquire additional real properties or for working capital. We may also borrow funds to satisfy the REIT tax qualification requirement that we distribute at least 90.0% of our annual REIT taxable income to our stockholders. Furthermore, we may borrow if we otherwise deem it necessary or advisable to ensure that we maintain our qualification as a REIT for federal income tax purposes.

High debt levels will cause us to incur higher interest charges, which would result in higher debt service payments and could be accompanied by restrictive covenants. If there is a shortfall between the cash flow from a property and the cash flow needed to service mortgage debt on that property, then the amount available for distributions to stockholders may be reduced. In addition, incurring mortgage debt increases the risk of loss since defaults on indebtedness secured by a property may result in lenders initiating foreclosure actions. In that case, we could lose the property securing the loan that is in default, thus reducing the value of your investment. For tax purposes, a foreclosure on any of our properties will be treated as a sale of the property for a purchase price equal to the outstanding balance of the debt secured by the mortgage. If the outstanding balance of the debt secured by the mortgage exceeds our tax basis in the

property, we will recognize taxable income on foreclosure, but we would not receive any cash proceeds. We may give full or partial guarantees to lenders of mortgage debt to the entities that own our properties. When we give a guaranty on behalf of an entity that owns one of our properties, we will be responsible to the lender for satisfaction of the debt if it is

not paid by such entity. If any mortgage contains cross collateralization or cross default provisions, a default on a single property could affect multiple properties. If any of our properties are foreclosed upon due to a default, our ability to pay cash distributions to our stockholders will be adversely affected.

Higher mortgage rates may make it more difficult for us to finance or refinance properties, which could reduce the number of properties we can acquire and the amount of cash distributions we can make to our stockholders.

Until recently, the Federal Reserve Board has significantly increased short-term interest rates since June 2004. If mortgage debt is unavailable on reasonable terms as a result of increased interest rates or other factors, we may not be able to finance the initial purchase of properties. In addition, if we place mortgage debt on properties, we run the risk of being unable to refinance such debt when the loans come due, or of being unable to refinance on favorable terms. If interest rates are higher when we refinance debt, our income could be reduced. We may be unable to refinance debt at appropriate times, which may require us to sell properties on terms that are not advantageous to us, or could result in the foreclosure of such properties. If any of these events occur, our cash flow would be reduced. This, in turn, would reduce cash available for distribution to you and may hinder our ability to raise more capital by issuing securities or by borrowing more money.

Increases in interest rates could increase the amount of our debt payments and therefore negatively impact our operating results.

Interest we pay on our debt obligations will reduce cash available for distributions. If we incur variable rate debt, increases in interest rates would increase our interest costs, which would reduce our cash flows and our ability to make distributions to you. If we need to repay existing debt during periods of rising interest rates, we could be required to liquidate one or more of our investments in properties at times which may not permit realization of the maximum return on such investments.

Lenders may require us to enter into restrictive covenants relating to our operations, which could limit our ability to make distributions to our stockholders.

When providing financing, a lender may impose restrictions on us that affect our ability to incur additional debt and affect our distribution and operating policies. Loan documents we enter into may contain covenants that limit our ability to further mortgage the property, discontinue insurance coverage, or replace our advisor. These or other limitations may adversely affect our flexibility and our ability to achieve our investment objectives.

If we enter into financing arrangements involving balloon payment obligations, it may adversely affect our ability to refinance or sell properties on favorable terms, and to make distributions to stockholders.

Some of our financing arrangements may require us to make a lump-sum or balloon payment at maturity. Our ability to make a balloon payment at maturity is uncertain and may depend upon our ability to obtain additional financing or our ability to sell the particular property. At the time the balloon payment is due, we may or may not be able to refinance the balloon payment on terms as favorable as the original loan or sell the particular property at a price sufficient to make the balloon payment. The refinancing or sale could affect the rate of return to stockholders and the projected time of disposition of our assets. In an environment of increasing mortgage rates, if we place mortgage debt on properties, we run the risk of being unable to refinance such debt if mortgage rates are higher at a time a balloon payment is due. In addition, payments of principal and interest made to service our debts, including balloon payments, may leave us with insufficient cash to pay the distributions that we are required to pay to maintain our qualification as a REIT. Any of these results would have a significant, negative impact on your investment.

Risks Associated with Joint Ventures

The terms of joint venture agreements or other joint ownership arrangements into which we may enter could impair our operating flexibility and our results of operations.

In connection with the purchase of real estate, we may enter into joint ventures with third parties, including affiliates of our advisor. We may also purchase or develop properties in co-ownership arrangements with the sellers of the properties, developers or other persons. These structures involve participation in the investment by other parties whose interests and rights may not be the same as ours. Our joint venture partners may have rights to take some actions over which we have no control and may take actions contrary to our interests. Joint ownership of an investment in real estate may involve risks not associated with direct ownership of real estate, including the following:

- a venture partner may at any time have economic or other business interests or goals which become inconsistent with our business interests or goals, including inconsistent goals relating to the sale of properties held in a joint venture or the timing of the termination and liquidation of the venture;

- a venture partner might become bankrupt and such proceedings could have an adverse impact on the operation of the partnership or joint venture;

- actions taken by a venture partner might have the result of subjecting the property to liabilities in excess of those contemplated; and

- a venture partner may be in a position to take action contrary to our instructions or requests or contrary to our policies or objectives, including our policy with respect to qualifying and maintaining our qualification as a REIT.

Under certain joint venture arrangements, neither venture partner may have the power to control the venture, and an impasse could be reached, which might adversely affect the joint venture and decrease potential returns to you. If we have a right of first refusal or buy/sell right to buy out a venture partner, we may be unable to finance such a buy-out or we may be forced to exercise those rights at a time when it would not otherwise be in our best interest to do so. If our interest is subject to a buy/sell right, we may not have sufficient cash, available borrowing capacity or other capital resources to allow us to purchase an interest of a venture partner subject to the buy/sell right, in which case we may be forced to sell our interest when we would otherwise prefer to retain our interest. In addition, we may not be able to sell our interest in a joint venture on a timely basis or on acceptable terms if we desire to exit the venture for any reason, particularly if our interest is subject to a right of first refusal of our venture partner.

We may structure our joint venture relationships in a manner which may limit the amount we participate in the cash flow or appreciation of an investment.

We may enter into joint venture agreements, the economic terms of which may provide for the distribution of income to us otherwise than in direct proportion to our ownership interest in the joint venture. For example, while we and a co-venturer may invest an equal amount of capital in an investment, the investment may be structured such that we have a right to priority distributions of cash flow up to a certain target return while the co-venturer may receive a disproportionately greater share of cash flow than we are to receive once such target return has been achieved. This type of investment structure may result in the co-venturer receiving more of the cash flow, including appreciation, of an investment than we would receive. If we do not accurately judge the appreciation prospects of a particular investment or structure the venture appropriately, we may incur losses on joint venture investments or have limited

participation in the profits of a joint venture investment, either of which could reduce our ability to make cash distributions to our stockholders.

Federal Income Tax Risks

Failure to qualify as a REIT for federal income tax purposes would subject us to federal income tax on our taxable income at regular corporate rates, which would substantially reduce our ability to make distributions to our stockholders.

We intend to qualify as a REIT for federal income tax purposes commencing with the taxable year ending December 31, 2007, but as of the date of this prospectus we are not qualified as a REIT. Our qualification as a REIT will depend on our ability to meet various requirements set forth in the Internal Revenue Code concerning, among other things, the ownership of our outstanding common stock, the nature of our assets, the sources of our income and the amount of our distributions to our stockholders. The REIT qualification requirements are extremely complex, and interpretations of the federal income tax laws governing qualification as a REIT are limited. Accordingly, we cannot be certain that we will be successful in operating so as to qualify as a REIT. At any time new laws, interpretations or court decisions may change the federal tax laws relating to, or the federal income tax consequences of, qualification as a REIT. It is possible that future economic, market, legal, tax or other considerations may cause our board of directors to revoke our REIT election, which it may do without stockholder approval.

Although we have not requested, and do not expect to request, a ruling from the Internal Revenue Service, or IRS, that we qualify as a REIT, we have received an opinion of our counsel that, based on certain assumptions and representations, we will so qualify. You should be aware, however, that opinions of counsel are not binding on the IRS or any court. The REIT qualification opinion only represents the view of our counsel based on its review and analysis of existing law and therefore could be subject to modification or withdrawal based on future legislative, judicial or administrative changes to the federal income tax laws, any of which could be applied retroactively. The validity of the opinion of our counsel and of our qualification as a REIT will depend on our continuing ability to meet the various REIT requirements described herein.

If we were to fail to qualify as a REIT for any taxable year, we would be subject to federal income tax on our taxable income at corporate rates. In addition, we would generally be disqualified from treatment as a REIT for the four taxable years following the year in which we lose our REIT status. Losing our REIT status would reduce our net earnings available for investment or distribution to stockholders because of the additional tax liability. In addition, distributions to stockholders would no longer be deductible in computing our taxable income, and we would no longer be required to make distributions. To the extent that distributions had been made in anticipation of our qualifying as a REIT, we might be required to borrow funds or liquidate some investments in order to pay the applicable corporate income tax. In addition, although we intend to operate in a manner intended to qualify as a REIT, it is possible that future economic, market, legal, tax or other considerations may cause our board of directors to recommend that we revoke our REIT election.

As a result of all these factors, our failure to qualify as a REIT could impair our ability to expand our business and raise capital, and would substantially reduce our ability to make distributions to our stockholders.

To qualify as a REIT and to avoid the payment of federal income and excise taxes and maintain our REIT status, we may be forced to borrow funds, use proceeds from the issuance of securities (including this offering), or sell assets to pay distributions, which may result in our distributing amounts that may otherwise be used for our operations.

To obtain the favorable tax treatment accorded to REITs, we normally will be required each year to distribute to our stockholders at least 90% of our real estate investment trust taxable income, determined without regard to the deduction for distributions paid and by excluding net capital gains. We will be subject to federal income tax on our

undistributed taxable income and net capital gain and to a 4% nondeductible excise tax on any amount by which distributions we pay with respect to any calendar year are less than the sum of (1) 85% of our ordinary income, (2) 95% of our capital gain net income and (3) 100% of our undistributed income from prior years. These requirements could cause us to distribute amounts that otherwise would be spent on acquisitions of properties and it is possible that we might be required to borrow funds, use proceeds

Table of Contents

from the issuance of securities (including this offering) or sell assets in order to distribute enough of our taxable income to maintain our REIT status and to avoid the payment of federal income and excise taxes.

If our operating partnership fails to maintain its status as a partnership for federal income tax purposes, its income would be subject to taxation and our REIT status would be terminated.

We intend to maintain the status of our operating partnership as a partnership for federal income tax purposes. However, if the IRS were to successfully challenge the status of our operating partnership as a partnership, it would be taxable as a corporation. In such event, this would reduce the amount of distributions that our operating partnership could make to us. This would also result in our losing REIT status and becoming subject to a corporate level tax on our own income. This would substantially reduce our cash available to pay distributions and the return on your investment. In addition, if any of the entities through which our operating partnership owns its properties, in whole or in part, loses its characterization as a partnership for federal income tax purposes, it would be subject to taxation as a corporation, thereby reducing distributions to our operating partnership. Such a recharacterization of our operating partnership or an underlying property owner could also threaten our ability to maintain REIT status.

You may have current tax liability on distributions you elect to reinvest in shares of our common stock.

If you participate in our distribution reinvestment plan, you will be deemed to have received, and for income tax purposes will be taxed on, the amount reinvested in shares of our common stock to the extent the amount reinvested was not a tax-free return of capital. As a result, unless you are a tax-exempt entity, you may have to use funds from other sources to pay your tax liability on the value of the common stock received.

Dividends paid by REITs do not qualify for the reduced tax rates that apply to other corporate dividends.

Tax legislation enacted in 2003 and 2006 generally reduces the maximum tax rate for qualified dividends paid by corporations to individuals to 15% through 2010. Dividends paid by REITs, however, generally continue to be taxed at the normal rate applicable to the individual recipient, rather than the 15% preferential rate. Although this legislation does not adversely affect the taxation of REITs or dividends paid by REITs, the more favorable rates applicable to regular corporate dividends could cause investors who are individuals to perceive investments in REITs to be relatively less attractive than investments in the stocks of non-REIT corporations that pay qualified dividends, which could adversely affect the value of the stock of REITs, including our common stock. See Federal Income Tax Considerations Taxation of Taxable U.S. Stockholders Distributions Generally.

In certain circumstances, we may be subject to federal and state income taxes as a REIT, which would reduce our cash available for distribution to you.

Even if we qualify and maintain our status as a REIT, we may be subject to federal income taxes or state taxes. For example, net income from a prohibited transaction will be subject to a 100% tax. We may not be able to make sufficient distributions to avoid excise taxes applicable to REITs. We may also decide to retain capital gains we earn from the sale or other disposition of our property and pay income tax directly on such income. In that event, our stockholders would be treated as if they earned that income and paid the tax on it directly. However, stockholders that are tax-exempt, such as charities or qualified pension plans, would have no benefit from their deemed payment of such tax liability. We may also be subject to state and local taxes on our income or property, either directly or at the level of the companies through which we indirectly own our assets. Any federal or state taxes we pay will reduce our cash available for distribution to you.

Distributions to tax-exempt investors may be classified as unrelated business taxable income.

Neither ordinary nor capital gain distributions with respect to our common stock nor gain from the sale of common stock should generally constitute unrelated business taxable income to a tax-exempt investor. However, there are certain exceptions to this rule. In particular:

- part of the income and gain recognized by certain qualified employee pension trusts with respect to our common stock may be treated as unrelated business taxable income if shares of our common stock are predominately held by qualified employee pension trusts, and we are required to rely on a special look-through rule for purposes of meeting one of the REIT share ownership tests, and we are not operated in a manner to avoid treatment of such income or gain as unrelated business taxable income;

- part of the income and gain recognized by a tax exempt investor with respect to our common stock would constitute unrelated business taxable income if the investor incurs debt in order to acquire the common stock; and

- part or all of the income or gain recognized with respect to our common stock by social clubs, voluntary employee benefit associations, supplemental unemployment benefit trusts and qualified group legal services plans which are exempt from federal income taxation under Sections 501(c)(7), (9), (17) or (20) of the Internal Revenue Code may be treated as unrelated business taxable income.

See Federal Income Tax Considerations Treatment of Tax-Exempt Stockholders section of this prospectus for further discussion of this issue if you are a tax-exempt investor.

Complying with the REIT requirements may cause us to forego otherwise attractive opportunities.

To qualify as a REIT for federal income tax purposes, we must continually satisfy tests concerning, among other things, the sources of our income, the nature and diversification of our assets, the amounts we distribute to our stockholders and the ownership of shares of our common stock. We may be required to make distributions to stockholders at disadvantageous times or when we do not have funds readily available for distribution, or we may be required to liquidate otherwise attractive investments in order to comply with the REIT tests. Thus, compliance with the REIT requirements may hinder our ability to operate solely on the basis of maximizing profits.

Changes to federal income tax laws or regulations could adversely affect investors.

In recent years, numerous legislative, judicial and administrative changes have been made to the federal income tax laws applicable to investments in REITs and similar entities. Additional changes to tax laws are likely to continue to occur in the future, and we cannot assure you that any such changes will not adversely affect the taxation of a stockholder. Any such changes could have an adverse effect on an investment in shares of our common stock. We urge you to consult with your own tax advisor with respect to the status of legislative, regulatory or administrative developments and proposals and their potential effect on an investment in shares of our common stock.

Employee Benefit Plan and IRA Risks

We, and our investors that are employee benefit plans or individual retirement accounts, or IRAs, will be subject to risks relating specifically to our having employee benefit plans and IRAs as stockholders, which risks are discussed below. The Employee Benefit Plan and IRA Considerations section of this prospectus provides a more detailed

discussion of these employee benefit plan and IRA investor risks.

Table of Contents

If you fail to meet the fiduciary and other standards under ERISA or the Internal Revenue Code as a result of an investment in our common stock, you could be subject to criminal and civil penalties.

There are special considerations that apply to pension, profit-sharing trusts or IRAs investing in our common stock. If you are investing the assets of a pension, profit sharing or 401(k) plan, health or welfare plan, or an IRA in us, you should consider:

- whether your investment is consistent with the applicable provisions of ERISA and the Internal Revenue Code, or any other applicable governing authority in the case of a government plan;

- whether your investment is made in accordance with the documents and instruments governing your plan or IRA, including your plan s investment policy;

- whether your investment satisfies the prudence and diversification requirements of Sections 404(a)(1)(B) and 404(a)(1)(C) of ERISA;

- whether your investment will impair the liquidity of the plan or IRA;

- whether your investment will produce unrelated business taxable income, referred to as UBTI and as defined in Sections 511 through 514 of the Internal Revenue Code, to the plan or IRA; and

- your need to value the assets of the plan annually in accordance with ERISA and the Internal Revenue Code.

In addition to considering their fiduciary responsibilities under ERISA and the prohibited transaction rules of ERISA and the Internal Revenue Code, trustees or others purchasing shares should consider the effect of the plan asset rules under ERISA and regulations of the U.S. Department of Labor. To avoid our assets from being considered plan assets under those rules, our charter prohibits benefit plan investors from owning 25% or more of our common stock prior to the time that the common stock qualifies as a class of publicly-offered securities, within the meaning of the ERISA plan asset rules. However, we cannot assure you that those provisions in our charter will be effective in limiting benefit plan investor ownership to less than the 25% limit. For example, the limit could be unintentionally exceeded if a benefit plan investor misrepresents its status as a benefit plan. Even if our assets are not considered to be plan assets, a prohibited transaction could occur if we or any of our affiliates is a fiduciary (within the meaning of ERISA) with respect to an employee benefit plan or IRA purchasing shares, and, therefore, in the event any such persons are fiduciaries (within the meaning of ERISA) of your plan or IRA, you should not purchase shares unless an administrative or statutory exemption applies to your purchase.

ESTIMATED USE OF PROCEEDS

The following table sets forth our best estimates of how we intend to use the proceeds raised in this offering assuming that we sell specified numbers of shares pursuant to the primary offering. The number of shares of our common stock to be offered pursuant to our primary offering may vary from these assumptions since we have reserved the right to reallocate the shares offered between the primary offering and the distribution reinvestment plan. Shares of our common stock in the primary offering will be offered to the public on a best efforts basis at $10.00 per share. The table below shows two scenarios:

- the Minimum Offering assumes that we did not sell more than the minimum offering of $2,000,000 by selling 200,000 shares at $10.00 per share pursuant to our primary offering; and

- the Maximum Offering assumes that we reach the maximum offering of $2,000,000,000 by selling 200,000,000 shares at $10.00 per share pursuant to our primary offering.

Under both scenarios, we have not given effect to any special sales or volume discounts that could reduce the selling commissions or marketing support fees for sales pursuant to the primary offering. Reduction in these fees will be accompanied by a corresponding reduction in the per share purchase price, but will not affect the amounts available to us for investments. See Plan of Distribution for a description of the special sales and volume discounts.

The following table assumes that we do not sell any shares in our distribution reinvestment plan. As long as our shares are not listed on a national securities exchange, it is anticipated that all or substantially all of the proceeds from the sale of shares pursuant to our distribution reinvestment plan will be used to fund repurchases of shares under our share repurchase plan. Because we do not pay selling commissions or marketing support fees or reimburse due diligence expenses for shares sold pursuant to our distribution reinvestment plan, we receive greater net proceeds from the sale of shares in the distribution reinvestment plan than in the primary offering. As a result, if we reallocate shares from the distribution reinvestment plan to the primary offering, our net proceeds could be less.

Many of the figures set forth below represent management s best estimate since they cannot be precisely calculated at this time. We expect that at least 88.5% of the money you invest will be used to buy investments in real property and real estate related securities and pay related acquisition fees and expenses, while we expect the remaining 11.5% will be used to pay expenses and fees, including the payment of fees to our advisor and the dealer manager for this offering.

Our board of directors is responsible for reviewing our fees and expenses on at least an annual basis and with sufficient frequency to determine that the expenses incurred are in the best interest of the stockholders. The independent directors are responsible for reviewing the performance of our advisor and determining that the compensation to be paid to our advisor is reasonable in relation to the nature and quality of the services to be performed and that the provisions of the advisory agreement are being carried out. The fees set forth below may not be increased without approval of the independent directors.

(1) Organizational and offering expenses consist of reimbursement of, among other items, the cumulative cost of actual legal, accounting, printing and other accountable offering expenses, including, but not limited to, amounts to reimburse our advisor for marketing, salaries and direct expenses of its employees, employees of its affiliates and others while engaged in registering and marketing the shares of our common stock to be sold in this offering, which shall include, but not be limited to, development of marketing materials and marketing presentations, participating in due diligence, training seminars and educational conferences and coordinating generally the marketing process for this offering. A portion of our organizational and offering expense reimbursement may be used for wholesaling activities and therefore deemed to be additional underwriting compensation pursuant to FINRA Rule 2710. Our advisor will be responsible for the payment of our cumulative organizational and offering expenses, other than the selling commissions, the marketing support fee and the due diligence reimbursement, to the extent they exceed 1.5% of the aggregate gross proceeds from the sale of shares of our common stock sold in the primary offering without recourse against or reimbursement by us.

(2) Until required in connection with the acquisition of real estate investments, substantially all of the net proceeds of the offering may be invested in short-term, highly-liquid investments including government obligations, bank certificates of deposit, short-term debt obligations and interest-bearing accounts or other authorized investments as determined by our board of directors.

(3) Acquisition fees paid by any party to any person in connection with the purchase, development or construction of real properties. Acquisition fees do not include acquisition expenses. We will pay our advisor or its affiliate

acquisition fees of 3.0% of the contract purchase price of properties we acquire. We will not pay any fees for acquisitions of real estate related securities investments. We may pay up to 4.0% of the total development costs of any development property that we acquire, but we do not currently intend to acquire any properties in the development phase. For purposes of this table, we have assumed (a) that no investments are made in real estate related securities, (b) that we will only acquire properties in the operational phase and (c) no debt is incurred for property acquisitions. These assumptions may change due to different factors including changes in the allocation of shares between the primary offering and the distribution reinvestment plan, the extent to which proceeds from the distribution reinvestment plan are used to repurchase shares under our share repurchase plan the extent to which we invest in real estate related

securities and the extent to which we invest in properties in the development stage. To the extent that we incur debt or issue new shares of our common stock outside of this offering or interests in our operating partnership in order to acquire real properties, then the acquisition fees and amounts invested in real properties will exceed the amount stated above.

(4) Acquisition expenses include any and all expenses incurred in connection with the selection, evaluation and acquisition of, and investment in properties, whether or not acquired or made, including, but not limited to, legal fees and expenses, travel and communications expenses, cost of appraisals and surveys, nonrefundable option payments on property not acquired, accounting fees and expenses, computer use related expenses, architectural, engineering and other property reports, environmental and asbestos audits, title insurance and escrow fees, loan fees or points or any fee of a similar nature paid to a third party, however designated, transfer taxes, and personnel and miscellaneous expenses related to the selection, evaluation and acquisition of properties. We will reimburse our advisor for acquisition expenses, whether or not the evaluated property is acquired. Our acquisition expenses will not exceed 0.5% of the purchase price of properties we evaluate and acquire. The reimbursement of acquisition fees and expenses, including real estate commissions paid to third parties, will not exceed, in the aggregate, 6.0% of the purchase price or total development cost, unless fees in excess of such limits are approved by a majority of the disinterested directors and by a majority of the disinterested independent directors.

(5) Although we do not anticipate establishing a general working capital reserve out of the proceeds from this offering, we may establish capital reserves with respect to particular investments. See Management s Discussion and Analysis of Financial Condition and Results of Operations for a discussion of the capital plan that our advisor will establish for each of our investments.

INVESTMENT OBJECTIVES, STRATEGY AND CRITERIA

Investment Objectives

Our investment objectives are:

- to pay regular cash distributions;
- to preserve, protect and return your capital contributions; and
- to realize growth in the value of our investments upon our ultimate sale of such investments.

We cannot assure you that we will attain these objectives or that our capital will not decrease. Our board of directors may change our investment objectives if it determines it is advisable and in the best interests of our stockholders.

Decisions relating to the purchase or sale of investments will be made by our advisor, subject to oversight by our board of directors. See Management for a description of the background and experience of our directors and officers as well as the officers of our advisor.

Investment Strategy

We intend to invest in a diversified portfolio of real estate and real estate related securities, focusing primarily on investments that produce current income. Our real estate investments will focus on medical office buildings, healthcare-related facilities and quality commercial office properties. We may also invest in real estate related securities. However, we do not presently intend to invest more than 15% of our total assets in real estate related securities. Our real estate related securities investments will generally focus on common and preferred stock of public

or private real estate companies, commercial mortgage-backed securities, or CMBS, other forms of mortgage debt and certain other securities, including collateralized debt obligations and foreign securities. We will seek to maximize long-term stockholder value by generating sustainable growth in cash flow and portfolio value. In order to achieve these objectives, we may invest using a number of investment structures which may include direct acquisitions, joint ventures, leveraged investments, issuing securities for property and direct and indirect investments in real estate. In order to maintain our exemption from regulation

Table of Contents

as an investment company under the Investment Company Act, we may be required to limit our investments in real estate related securities. See Investment Company Act Considerations below.

In addition, when and as determined appropriate by our advisor, the portfolio may also include properties in various stages of development other than those producing current income. These stages would include, without limitation, unimproved land both with and without entitlements and permits, property to be redeveloped and repositioned, newly constructed properties and properties in lease-up or other stabilization, all of which will have limited or no relevant operating histories and no current income. Our advisor will make this determination based upon a variety of factors, including the available risk adjusted returns for such properties when compared with other available properties, the appropriate diversification of the portfolio, and our objectives of realizing both current income and capital appreciation upon the ultimate sale of properties.

For each of our investments, regardless of property type, our advisor will seek to invest in properties with the following attributes:

Quality. We will seek to acquire properties that are suitable for their intended use with a quality of construction that is capable of sustaining the property s investment potential for the long-term, assuming funding of budgeted maintenance, repairs and capital improvements.

Location. We will seek to acquire properties that are located in established or otherwise appropriate markets for comparable properties, with access and visibility suitable to meet the needs of its occupants.

Market; Supply and Demand. We will focus on local or regional markets which have potential for stable and growing property level cash flow over the long-term. These determinations will be based in part on an evaluation of local economic, demographic and regulatory factors affecting the property. For instance, we will favor markets that indicate a growing population and employment base or markets that exhibit potential limitations on additions to supply, such as barriers to new construction. Barriers to new construction include lack of available land and stringent zoning restrictions. In addition, we will generally seek to limit our investments in areas that have limited potential for growth.

Predictable Capital Needs. We will seek to acquire properties where the future expected capital needs can be reasonably projected in a manner that would allow us to meet our objectives of growth in cash flow and preservation of capital and stability.

Cash Flow. We will seek to acquire properties where the current and projected cash flow, including the potential for appreciation in value, would allow us to meet our overall investment objectives. We will evaluate cash flow as well as expected growth and the potential for appreciation.

We will not invest more than 10% of the offering proceeds available for investment in unimproved or non-income producing properties or in other investments relating to unimproved or non-income producing property. A property: (1) not acquired for the purpose of producing rental or other operating income, or (2) with no development or construction in process or planned in good faith to commence within one year will be considered unimproved or non-income producing property for purposes of this limitation.

We are not limited as to the geographic area where we may acquire properties. We are not specifically limited in the number or size of properties we may acquire or on the percentage of our assets that we may invest in a single property or investment. The number and mix of properties we acquire will depend upon real estate and market conditions and other circumstances existing at the time we are acquiring our properties and making our investments and the amount of proceeds we raise in this and potential future offerings.

Real Property Investments

We intend to invest in a diversified portfolio of properties, focusing primarily on properties that produce current income. We will generally seek investments in medical office buildings, healthcare-related facilities and quality commercial office properties.

Our advisor will generally seek to acquire properties on our behalf of the types described above that will best enable us to meet out investment objectives, taking into account the diversification of our portfolio at the time, relevant real estate and financial factors, the location, income-producing capacity and the prospects for long-range appreciation of a particular property and other considerations. As a result, we may acquire properties other than the types described above. In addition, we may acquire properties that vary from the parameters described above for a particular property type.

The consideration for each real estate investment must be authorized by a majority of our directors or a duly authorized committee of our board of directors, ordinarily based on the fair market value of the investment. If the majority of our independent directors or a duly authorized committee of our board of directors so determines, or if the investment is to be acquired from an affiliate, the fair market value determination will be supported by an appraisal obtained from a qualified, independent appraiser selected by a majority of our independent directors.

Our investments in real estate generally will take the form of holding fee title or long-term leasehold interests. Our investments may be made either directly through our operating partnership or indirectly through investments in joint ventures, limited liability companies, general partnerships or other co-ownership arrangements with the developers of the properties, affiliates of our advisor or other persons. See Joint Venture Investments below.

In addition, we may purchase properties and lease them back to the sellers of such properties. Our advisor will use its best efforts to structure any such sale-leaseback transaction such that the lease will be characterized as a true lease and so that we will be treated as the owner of the property for federal income tax purposes. However, no assurance can be given that the IRS will not challenge such characterization. In the event that any such sale-leaseback transaction is re-characterized as a financing transaction for federal income tax purposes, deductions for depreciation and cost recovery relating to such property would be disallowed or significantly reduced.

Our obligation to close a transaction involving the purchase of a real property asset will generally be conditioned upon the delivery and verification of certain documents from the seller or developer, including, where appropriate:

- plans and specifications;
- environmental reports (generally a minimum of a Phase I investigation);
- building condition reports;
- surveys;
- evidence of marketable title subject to such liens and encumbrances as are acceptable to our advisor;
- audited financial statements covering recent operations of real properties having operating histories unless such statements are not required to be filed with the SEC and delivered to stockholders;

title insurance policies; and

liability insurance policies.

In determining whether to purchase a particular property, we may, in circumstances in which our advisor deems it appropriate, obtain an option on such property, including land suitable for development. The amount paid for an option, if any, is normally surrendered if the property is not purchased, and is normally credited against the purchase price if the property is purchased. We may also enter into arrangements with the seller or developer of a property whereby the seller or developer agrees that if, during a stated period, the property does

not generate a specified cash flow, the seller or developer will pay in cash to our company a sum necessary to reach the specified cash flow level, subject in some cases to negotiated dollar limitations.

We will not purchase or lease properties in which our sponsor, our advisor, our directors or any of their affiliates have an interest without a determination by a majority of our disinterested directors and a majority of our disinterested independent directors that such transaction is fair and reasonable to us and at a price to us no greater than the cost of the property to the affiliated seller or lessor, unless there is substantial justification for the excess amount and the excess amount is reasonable. In no event will we acquire any such property at an amount in excess of its current appraised value as determined by an independent expert selected by our disinterested independent directors.

We intend to obtain adequate insurance coverage for all properties in which we invest. However, there are types of losses, generally catastrophic in nature, for which we do not intend to obtain insurance unless we are required to do so by mortgage lenders. See Risk Factors Risks Related to Investments in Real Estate Uninsured losses relating to real estate and lender requirements to obtain insurance may reduce your returns.

Medical Office Buildings and Healthcare-Related Facilities

We intend to invest a portion of the net proceeds available for investment in medical office buildings and healthcare-related facilities. Healthcare-related facilities include facilities leased to hospitals, long-term acute care centers, surgery centers, specialty medical and diagnostic service providers, laboratories, research firms, pharmaceutical and medical supply manufacturers and health insurance firms. The market for medical office buildings and healthcare-related facilities in the United States continues to expand. According to the U.S. Department of Health and Human Services, national healthcare expenditures rose from 13.7% to 16.2% of the U.S. gross domestic product (GDP) between 1999 and 2005 and are projected to reach 20% by 2015, as shown below.

Similarly, overall healthcare expenditures have risen sharply since 1999. In 2005, healthcare expenditures reached $2 trillion and are expected to grow at a relatively stable rate of approximately 7.2% per year to reach $4 trillion by 2015, as shown below.

Table of Contents

We believe that demand for medical office buildings and healthcare-related facilities will increase due to a number of factors, including:

An aging population is requiring and demanding more medical services. Between 2004 and 2050, the U.S. population over 65 years of age is projected to more than double from 36 million to nearly 87 million people. The number of older Americans is also growing as a percentage of the total U.S. population as the baby boomers approach their 60s. In 2004, the number of persons older than 65 comprised 12% of the total U.S. population and is projected to grow to nearly 21% by 2050, as shown in the graph below.

Based on the information above and the projected increase in health expenditures per capita through 2015, as shown below, we believe that healthcare expenditures for the population over 65 years of age will also continue to rise as a disproportionate share of healthcare dollars is spent on older Americans since they require more treatment and management of chronic and acute health conditions.

Table of Contents

We believe this increased demand will continue to create a substantial need in many regions for the development of additional healthcare-related facilities, such as medical office buildings, clinics, outpatient facilities and ambulatory surgery centers. As a result, we believe this will increase the pool of suitable, quality properties meeting our acquisition criteria. However, our results of operations and our ability to attain our investment objectives will depend solely upon the performance of the real estate assets and real estate related investments we acquire.

Complex state and federal regulations govern physician hospital referrals. Patients typically are referred to particular hospitals by their physicians. To restrict hospitals from inappropriately influencing physicians to refer patients to them, federal and state governments adopted Medicare and Medicaid anti-fraud laws and regulations. One aspect of these complex laws and regulations addresses the leasing of medical office space by hospitals to physicians. One intent of the regulations is to restrict medical institutions from providing facilities to physicians at below market rates or on other terms that may present an opportunity for undue influence on physician referrals. The regulations are complex, and adherence to the regulations is time consuming and requires significant documentation and extensive reporting to regulators. The costs associated with regulatory compliance have encouraged many hospital and physician groups to seek third-party ownership and/or management of their healthcare-related facilities.

Physicians are increasingly forming practice groups. To increase the numbers of patients they can see and thereby increase market share, physicians have formed and are forming group practices. By doing so, physicians can gain greater influence in negotiating rates with managed care companies and hospitals in which they perform services. Also, the creation of these groups allows for the dispersion of overhead costs over a larger revenue base and gives physicians the financial ability to acquire new and expensive diagnostic equipment. Moreover, certain group practices may benefit from certain exceptions to federal and state self-referral laws, permitting them to offer a broader range of medical services within their practices and to participate in the facility fee related to medical procedures. This increase in the number of group practices has led to the construction of new medical facilities in which the groups are housed and provide medical services.

We believe that healthcare-related real estate rents and valuations are less susceptible to changes in the general economy than general commercial real estate due to demographic trends and the resistance of rising healthcare expenditures to economic downturns. For this reason, healthcare-related real estate investments could potentially offer a more stable return to investors compared to other types of real estate investments.

Table of Contents

We believe the confluence of these factors over the last several years has led to the following trends, which encourage third-party ownership of existing and newly developed medical properties:

De-Centralization and Specialization. There is a continuing evolution toward delivery of medical services through smaller facilities located near patients and designed to treat specific diseases and conditions. In order to operate profitably within a managed care environment, physician practice groups and other medical services providers are aggressively trying to increase patient populations, while maintaining lower overhead costs by building new healthcare facilities in areas of population or patient growth. Continuing population shifts and ongoing demographic changes create a demand for additional properties, including an aging population requiring and demanding more medical services.

Increasing Regulation. Evolving regulatory factors affecting healthcare delivery create an incentive for providers of medical services to focus on patient care, leaving real estate ownership and operation to third-party real estate professionals. Third-party ownership and management of hospital-affiliated medical office buildings substantially reduces the risk that hospitals will violate complex Medicare and Medicaid fraud and abuse statutes.

Modernization. Hospitals are modernizing by renovating existing properties and building new properties and becoming more efficient in the face of declining reimbursement and changing patient demographics. This trend has led to the development of new, smaller, specialty healthcare-related facilities as well as improvements to existing general acute care facilities.

Redeployment of Capital. Medical providers are increasingly focused on wisely investing their capital in their medical business. A growing number of medical providers have determined that third-party development and ownership of real estate with long term leases is an attractive alternative to investing their capital in bricks-and-mortar. Increasing use of expensive medical technology has placed additional demands on the capital requirements of medical services providers and physician practice groups. By selling their real estate assets and relying on third-party ownership of new healthcare properties, medical services providers and physician practice groups can generate the capital necessary to acquire the medical technology needed to provide more comprehensive services to patients and improve overall patient care.

Physician Practice Ownership. Many physician groups have reacquired their practice assets and real estate from national physician management companies or otherwise formed group practices to expand their market share. Other physicians have left hospital-based or HMO-based practices to form independent group practices. These physician groups are interested in new healthcare properties that will house medical businesses that regulations permit them to own. In addition to existing group practices, there is a growing trend for physicians in specialties, including cardiology, oncology, women s health, orthopedics and urology, to enter into joint ventures and partnerships with hospitals, operators and financial sponsors to form specialty hospitals for the treatment of specific diseases. We believe a significant number of these types of organizations have no interest in owning real estate and are aggressively looking for third-parties to develop and own their healthcare properties.

The current regulatory environment remains an ongoing challenge for healthcare providers, who are under pressure to comply with complex healthcare laws and regulations designed to prevent fraud and abuse. These regulations, for example, prohibit physicians from referring patients to entities in which they have investment interests and prohibit hospitals from leasing space to physicians at below market rates. As a result, healthcare providers seek reduced liability costs and have an incentive to dispose of real estate to third parties, thus reducing the risk of violating fraud and abuse regulations. This environment creates investment opportunities for owners, acquirers and joint venture partners of healthcare real estate who understand the needs of healthcare professionals and can help keep tenant costs

low. While the current regulatory environment is positive for healthcare operators, there is uncertainty as to the future of government policies and its potential impact on healthcare provider profitability.

Quality Commercial Office Properties

We also intend to invest a portion of the offering proceeds available for investment after the payment of fees and expenses in quality commercial office properties. These properties are generally in desirable locations, generally are of high quality construction, may offer personalized tenant amenities and attract high quality tenants. We also believe that a portfolio consisting of a substantial investment in this type of property enhances our liquidity opportunities for investors by making the sale of individual properties, multiple properties or our investment portfolio as a whole attractive to institutional investors and by making a possible listing of our shares attractive to the public investment community.

Joint Venture Investments

We may enter into joint ventures, general partnerships and other arrangements with one or more institutions or individuals, including real estate developers, operators, owners, investors and others, some of whom may be affiliates of our advisor, for the purpose of acquiring real estate. Such joint ventures may be leveraged with debt financing or unleveraged. We may enter into joint ventures to further diversify our investments or to access investments which meet our investment criteria that would otherwise be unavailable to us. In determining whether to invest in a particular joint venture, our advisor will evaluate the real estate that such joint venture owns or is being formed to own under the same criteria described elsewhere in this prospectus for the selection of our other properties. However, we will not participate in tenant-in-common syndications or transactions.

Joint ventures with unaffiliated third parties may be structured such that the investment made by us and the co-venturer are on substantially different terms and conditions. For example, while we and a co-venturer may invest an equal amount of capital in an investment, the investment may be structured such that we have a right to priority distributions of cash flow up to a certain target return while the co-venturer may receive a disproportionately greater share of cash flow than we are to receive once such target return has been achieved. This type of investment structure may result in the co-venturer receiving more of the cash flow, including appreciation, of an investment than we would receive. See Risk Factors Risks Associated with Joint Ventures We may structure our joint venture relationships in a manner which may limit the amount we participate in the cash flow or appreciation of an investment.

We may only enter into joint ventures with other NNN programs or affiliates of our advisor or any of our directors for the acquisition of properties if:

- a majority of our directors, including a majority of the independent directors, approve the transaction as being fair and reasonable to us; and

- the investment by us and such affiliate are on substantially the same terms and conditions that are no less favorable than those that would be available to unaffiliated third parties.

Our entering into joint ventures with our advisor or any of its affiliates will result in certain conflicts of interest. See Conflicts of Interest Joint Ventures with Affiliates of Our Advisor.

Securities Investments

We may invest in the following types of real estate related securities: (1) equity securities such as common stocks, preferred stocks and convertible preferred securities of public or private real estate companies (including other REITs, real estate operating companies and other real estate companies); (2) debt securities such as CMBS, commercial mortgages, mortgage loan participations and debt securities issued by other real estate companies; and (3) certain other types of securities that may help us reach our diversification and other investment objectives. These other

securities may include, but are not limited to, mezzanine loans, bridge loans, various types of collateralized debt obligations and certain non-U.S. dollar denominated securities.

Our advisor will have substantial discretion with respect to the selection of specific securities investments. Our charter provides that we may not invest in equity securities unless a majority of the directors (including a majority of independent directors) not otherwise interested in the transaction approve such investment as being

fair, competitive and commercially reasonable. Consistent with such requirements, in determining the types of real estate related securities investments to make, our advisor will adhere to a board-approved asset allocation framework consisting primarily of components such as (1) target mix of securities across a range of risk/reward characteristics, (2) exposure limits to individual securities and (3) exposure limits to securities subclasses (such as common equities, mortgage debt and foreign securities). Within this framework, our advisor will evaluate specific criteria for each prospective real estate related securities investment including:

- positioning the overall portfolio to achieve an optimal mix of real property and real estate related securities investments;
- diversification benefits relative to the rest of the securities assets within our portfolio;
- fundamental securities analysis;
- quality and sustainability of underlying property cash flows;
- broad assessment of macro economic data and regional property level supply and demand dynamics;
- potential for delivering high current income and attractive risk-adjusted total returns; and
- additional factors considered important to meeting our investment objectives.

We are not specifically limited in the number or size of our real estate related securities investments, or on the percentage of the net proceeds from this offering that we may invest in a single real estate related security or pool of real estate related securities. However, we do not presently intend to invest more than 15% of our total assets in securities. The specific number and mix of real estate related securities in which we invest will depend upon real estate market conditions, other circumstances existing at the time we are investing in our real estate related securities and the amount of proceeds we raise in this offering. We will not invest in securities of other issuers for the purpose of exercising control and the first or second mortgages in which we intend to invest will likely not be insured by the Federal Housing Administration or guaranteed by the Veterans Administration or otherwise guaranteed or insured.

Borrowing Policies

We intend to use secured and unsecured debt as a means of providing additional funds for the acquisition of properties and real estate related securities. Our ability to enhance our investment returns and to increase our diversification by acquiring assets using additional funds provided through borrowing could be adversely impacted if banks and other lending institutions reduce the amount of funds available for the types of loans we seek. When interest rates are high or financing is otherwise unavailable on a timely basis, we may purchase certain assets for cash with the intention of obtaining debt financing at a later time.

We anticipate that aggregate borrowings, both secured and unsecured, will not exceed 60.0% of all of our properties combined fair market values, as determined at the end of each calendar year beginning with our first full year of operation. For these purposes, the fair market value of each asset will be equal to the purchase price paid for the asset or, if the asset was appraised subsequent to the date of purchase, then the fair market value will be equal to the value reported in the most recent independent appraisal of the asset. Our policies do not limit the amount we may borrow with respect to any individual investment.

Our aggregate secured and unsecured borrowings will be reviewed by our board of directors at least quarterly. Our charter precludes us from borrowing in excess of 300.0% of the value of our net assets. Net assets for purposes of this

calculation are defined as our total assets (other than intangibles), valued at cost prior to deducting depreciation, reserves for bad debts and other non-cash reserves, less total liabilities. The preceding calculation is generally expected to approximate 75.0% of the sum of (1) the aggregate cost of our properties before non-cash reserves and depreciation and (2) the aggregate cost of our securities assets. However, we may temporarily borrow in excess of these amounts if such excess is approved by a majority of our independent directors and disclosed to stockholders in our next quarterly report, along with an explanation for such excess. In such event, we will review our debt levels at that time and take action to reduce any such excess as soon as practicable.

On the acquisition dates of each of our first four real estate acquisitions, our leverage exceeded 300.0%. In accordance with our charter, a majority of our directors, including a majority of our independent directors, approved our leverage exceeding 300.0% in connection with the acquisitions. The board of directors determined that the excess leverage was justified because it enabled us to purchase the property during the initial stages of our offering, thereby improving our ability to meet our goal of acquiring a diversified portfolio of properties to generate current income for investors and preserve investor capital. As of December 13, 2007, our leverage does not exceed 300.0%. We may exceed our charter s leverage guidelines again during the early stages of our operations. We will take action to reduce any such excess as soon as practicable.

By operating on a leveraged basis, we will have more funds available for our investments. This will generally allow us to make more investments than would otherwise be possible, potentially resulting in enhanced investment returns and a more diversified portfolio. However, our use of leverage increases the risk of default on loan payments and the resulting foreclosure of a particular asset. In addition, lenders may have recourse to assets other than those specifically securing the repayment of the indebtedness.

Our advisor will use its best efforts to obtain financing on the most favorable terms available to us and will refinance assets during the term of a loan only in limited circumstances, such as when a decline in interest rates makes it beneficial to prepay an existing loan, when an existing loan matures or if an attractive investment becomes available and the proceeds from the refinancing can be used to purchase such investment. The benefits of the refinancing may include an increased cash flow resulting from reduced debt service requirements, an increase in distributions from proceeds of the refinancing, and an increase in diversification and assets owned if all or a portion of the refinancing proceeds are reinvested.

Our charter restricts us from borrowing money from any of our directors or from our advisor and its affiliates unless such loan is approved by a majority of our directors (including a majority of the independent directors) not otherwise interested in the transaction, as fair, competitive and commercially reasonable and no less favorable to us than comparable loans between unaffiliated parties.

Disposition Policies

We intend to hold each property or real estate related securities investment we acquire for an extended period. However, circumstances might arise which could result in a shortened holding period for certain investments. In general, the holding period for securities assets is expected to be shorter than the holding period for real property assets. An investment in a property or security may be sold before the end of the expected holding period if:

- diversification benefits exist associated with disposing of the investment and rebalancing our investment portfolio;
- an opportunity arises to pursue a more attractive investment;
- in the judgment of our advisor, the value of the investment might decline;
- with respect to properties, a major tenant involuntarily liquidates or is in default under its lease;
- the investment was acquired as part of a portfolio acquisition and does not meet our general acquisition criteria;
- an opportunity exists to enhance overall investment returns by raising capital through sale of the investment; or
- in the judgment of our advisor, the sale of the investment is in our best interests.

The determination of whether a particular property or real estate related securities investment should be sold or otherwise disposed of will be made after consideration of relevant factors, including prevailing economic conditions, with a view toward maximizing our investment objectives. We cannot assure you that this objective will be realized. The selling price of a property which is net leased will be determined in large part by the amount of rent payable under the lease(s) for such property. If a tenant has a repurchase option at a formula price, we may be limited in realizing any appreciation. In connection with our sales of properties

we may lend the purchaser all or a portion of the purchase price. In these instances, our taxable income may exceed the cash received in the sale. See Federal Income Tax Considerations Failure to Qualify as a REIT. The terms of payment will be affected by custom in the area in which the investment being sold is located and the then-prevailing economic conditions.

Liquidity Events

On a limited basis, you may be able to sell shares through our share repurchase plan. However, in the future, our board of directors will also consider various forms of liquidity events, including but not limited to (1) a listing of our common stock on a national securities exchange, (2) our sale or merger in a transaction that provides our stockholders with a combination of cash and/or securities of a publicly traded company, and (3) the sale of all or substantially all of our assets for cash or other consideration. We presently intend to effect a liquidity event by September 20, 2013. However, there can be no assurance that we will effect a liquidity event within such time or at all. In making the decision whether to effect a liquidity event, our board of directors will try to determine which alternative will result in greater value for our stockholders. Certain merger transactions and the sale of all or substantially all of our assets as well as liquidation would require the affirmative vote of holders of a majority of our outstanding shares of common stock.

Construction and Development Activities

From time to time, we may construct and develop real estate assets or render services in connection with these activities. We may be able to reduce overall purchase costs by constructing and developing property versus purchasing a finished property. Developing and constructing properties would, however, expose us to risks such as cost overruns, carrying costs of projects under construction or development, availability and costs of materials and labor, weather conditions and government regulation. See Risk Factors Risks Relating to Investments in Real Estate for additional discussion of these risks. We will retain independent contractors to perform the actual construction work on tenant improvements, such as installing heating, ventilation and air conditioning systems.

Tenant Improvements

We anticipate that tenant improvements required at the time of our acquisition of a property will be funded from our offering proceeds. However, at such time as a tenant of one of our properties does not renew its lease or otherwise vacates its space in one of our buildings, it is likely that, in order to attract new tenants, we will be required to expend substantial funds for tenant improvements and tenant refurbishments to the vacated space. Since we do not anticipate maintaining permanent working capital reserves, we may not have access to funds required in the future for tenant improvements and tenant refurbishments in order to attract new tenants to lease vacated space.

Terms of Leases

The terms and conditions of any lease we enter into with our tenants may vary substantially from those we describe in this prospectus. However, we expect that a majority of our leases will require the tenant to pay or reimburse us for some or all of the operating expenses of the building based on the tenant s proportionate share of rentable space within the building. Operating expenses typically include, but are not limited to, real estate taxes, sales and use taxes, special assessments, utilities, insurance and building repairs, and other building operation and management costs. We will probably be responsible for the replacement of specific structural components of a property such as the roof of the building or the parking lot. We expect that many of our leases will generally have terms of five or more years, some of which may have renewal options.

Investment Limitations

Our charter places numerous limitations on us with respect to the manner in which we may invest our funds prior to a listing of our common stock. These limitations cannot be changed unless our charter is amended, which requires approval of our board of directors and our stockholders. Until our common stock is listed, unless our charter is amended, we will not:

make investments in unimproved property or indebtedness secured by a deed of trust or mortgage loans on unimproved property in excess of 10% of our total assets;

invest in commodities or commodity futures contracts, except for futures contracts when used solely for the purpose of hedging in connection with our ordinary business of investing in real properties;

invest in real estate contracts of sale, otherwise known as land sale contracts, unless the contract is in recordable form and is appropriately recorded in the chain of title;

make or invest in mortgage loans unless an appraisal is obtained concerning the underlying property except for those mortgage loans insured or guaranteed by a government or government agency. In cases where a majority of our independent directors determines, and in all cases in which the transaction is with any of our directors, our advisor or any of their respective affiliates, such appraisal shall be obtained from an independent appraiser. We will maintain such appraisal in our records for at least five years and it will be available for your inspection and duplication. We will also obtain a mortgagee s or owner s title insurance policy as to the priority of the mortgage;

make or invest in mortgage loans, including construction loans, on any one property if the aggregate amount of all mortgage loans on such property, including our loans, would exceed an amount equal to 85% of the appraised value of such property as determined by appraisal unless substantial justification exists for exceeding such limit because of the presence of other underwriting criteria;

make or invest in mortgage loans that are subordinate to any lien or other indebtedness of any of our directors, our advisor or any of their respective affiliates;

issue securities redeemable solely at the option of the holder (this limitation, however, does not limit or prohibit the operation of our share repurchase plan);

issue debt securities unless the historical debt service coverage (in the most recently completed fiscal year) as adjusted for known changes is anticipated to be sufficient to properly service that higher level of debt;

issue equity securities on a deferred payment basis or other similar arrangement;

issue options or warrants to purchase shares to our advisor, any of our directors or any of their respective affiliates except on the same terms as the options or warrants are sold to the general public; options or warrants may be issued to persons other than our directors, our advisor or any of their respective affiliates, but not at exercise prices less than the fair market value of the underlying securities on the date of grant and not for consideration (which may include services) that in the judgment of the independent directors has a market value less than the value of such options or warrants on the date of grant;

engage in investment activities that would cause us to be classified as an investment company under the Investment Company Act;

make any investment that is inconsistent with our objectives of qualifying and remaining qualified as a REIT unless and until our board of directors determines, in its sole discretion, that REIT qualification is not in our best interest;

invest in real estate contracts of sale unless such contracts of sale are in recordable form and appropriately recorded in the chain of title; or

engage in the business of underwriting or the agency distribution of securities issued by other persons.

Table of Contents

In addition, we do not intend to invest in junior debt secured by a mortgage on real estate which is subordinate to the lien or other senior debt except where the amount of such junior debt plus any senior debt does not exceed 90% of the appraised value of such property and, if after giving effect thereto, the value of all such junior debt in which we have invested would not then exceed 25% of our net assets.

Change in Investment Objectives and Policies

Our charter requires that the independent directors review our investment policies at least annually to determine that the policies we are following are in the best interests of our stockholders. Each determination and the basis therefor is required to be set forth in the minutes of the applicable meetings of our directors. The methods of implementing our investment policies also may vary as new investment techniques are developed. Our investment objectives and policies may be altered by our board of directors without the approval of the stockholders.

Issuing Securities for Property

Subject to limitations contained in our organizational and governance documents, we may issue, or cause to be issued, shares of our stock or limited partnership units in out our operating partnership in any manner (and on such terms and for such consideration) in exchange for real estate. Existing stockholders have no preemptive rights to purchase such shares or limited partnership units in any such offering, and any such offering might cause a dilution of a stockholder s initial investment.

In order to induce the contributors of such properties to accept units in our operating partnership, rather than cash, in exchange for their properties, it may be necessary for us to provide them additional incentives. For instance, our operating partnership s partnership agreement provides that any holder of units may exchange limited partnership units on a one-for-one basis for shares of our common stock, or, at our option, cash equal to the value of an equivalent number of our shares. We may, however, enter into additional contractual arrangements with contributors of property under which we would agree to repurchase a contributor s units for shares of our common stock or cash, at the option of the contributor, at set times. In order to allow a contributor of a property to defer taxable gain on the contribution of property to our operating partnership, we might agree not to sell a contributed property for a defined period of time or until the contributor exchanged the contributor s units for cash or shares. Such an agreement would prevent us from selling those properties, even if market conditions made such a sale favorable to us. Such transactions are subject to the risks described in Risk Factors Risks Relating to Our Business We may structure acquisitions of property in exchange for limited partnership units in our operating partnership on terms that could limit our liquidity or our flexibility. Although we may enter into such transactions with other existing or future Triple Net programs, we do not currently intend to do so. If we were to enter into such a transaction with an entity managed by Triple Net Properties or its affiliates, we would be subject to the risks described in Risk Factors Risks Related to Conflicts of Interest We may acquire assets from, or dispose of assets to, entities managed by affiliates of our advisor, which could result in us entering into transactions on less favorable terms than we would receive from a third party or that negatively affect the public s perception of us. Any such transaction would be subject to the restrictions and procedures described in Conflicts of Interest Certain Conflict Resolution Restrictions and Procedures.

Real Estate Acquisitions

As of the date of this prospectus, we have acquired 17 properties and identified three additional proposed real estate investments. Our advisor will continually evaluate various potential investments on our behalf and engage in discussions and negotiations with real property sellers, developers, brokers, lenders, investment managers and others regarding such potential investments. While this offering is pending, if we believe that a reasonable probability exists that we will acquire a specific property or make a material investment in real estate related securities, this prospectus

will be supplemented to disclose the negotiations and pending acquisition of such property or securities investment. We expect that this will normally occur upon the signing of a purchase agreement for the acquisition of a specific property or real estate related securities investment, but may occur before or after such signing or upon the satisfaction or expiration of major contingencies in any

such purchase agreement, depending on the particular circumstances surrounding each potential investment. A supplement to this prospectus will describe any information that we consider appropriate for an understanding of the transaction. Further data will be made available after any pending investment is consummated, also by means of a supplement to this prospectus, if appropriate. You should understand that the disclosure of any proposed investment cannot be relied upon as an assurance that we will ultimately consummate such investment or that the information provided concerning the proposed investment will not change between the date of the supplement and any actual purchase.

Investment Company Act Considerations

We intend to operate in such a manner that we will not be subject to regulation under the Investment Company Act. In order to maintain our exemption from regulations under the Investment Company Act, we must comply with technical and complex rules and regulations.

In order to maintain our exemption from regulation as an investment company, we intend to engage primarily in the business of investing in interests in real estate and make these investments within one year after the offering ends. If we are unable to invest a significant portion of the proceeds of this offering in properties within one year of the termination of the offering, we may avoid being required to register as an investment company under the Investment Company Act by temporarily investing any unused proceeds in government securities with low returns. Investments in government securities likely would reduce the cash available for distribution to investors and possibly lower your returns.

Our advisor will continually review our investment activity and will take appropriate actions to attempt to ensure that we do not come within the application of the Investment Company Act. These actions may include limiting the percentage of our assets that fall into certain categories specified in the Investment Company Act, which could result in us holding assets we otherwise might desire to sell and selling assets we otherwise might wish to retain. In addition, we may have to acquire additional assets that we might not otherwise have acquired or be forced to forgo investment opportunities that we would otherwise want to acquire and that could be important to our investment strategy. In particular, our advisor will monitor our investments in real estate related securities to ensure continued compliance with one or more exemptions from investment company status under the Investment Company Act and, depending on the particular characteristics of those investments and our overall portfolio, our advisor may be required to limit the percentage of our assets represented by real estate related securities. If at any time the character of our investments could cause us to be deemed an investment company for purposes of the Investment Company Act, we will take the necessary action to attempt to ensure that we are not deemed to be an investment company. If we were required to register as an investment company, our ability to enter into certain transactions would be restricted by the Investment Company Act. See Risk Factors Risks Associated with Our Organizational Structure Your investment return may be reduced if we are required to register as an investment company under the Investment Company Act.

INVESTMENTS IN REAL PROPERTIES

Acquired Real Properties

The following provides a summary of the properties acquired by us. For more information regarding the financing of these acquisitions, see Management s Discussion and Analysis of Financial Condition and Results of Operations Financing.

Southpointe Office Parke and Epler Parke I

On January 22, 2007, we acquired all of the membership interests of NNN Southpointe, LLC for a total purchase price of $14,800,000, plus closing costs. NNN Southpointe, LLC has a fee simple ownership of Southpointe Office Parke and Epler Parke I, a portfolio of seven multi-tenant office/medical office buildings located in Indianapolis, Indiana. We acquired the membership interests from NNN South Crawford Member, LLC, an indirect wholly-owned subsidiary of our former sponsor, NNN Realty Advisors.

NNN Southpointe, LLC acquired Southpointe Office Parke and Epler Parke I on August 18, 2006 for a purchase price of $14,800,000. In connection with the purchase, NNN Southpointe, LLC entered into a secured loan with LaSalle Bank National Association, or LaSalle, evidenced by a promissory note in the principal amount of $9,146,000. We financed the purchase price of NNN Southpointe, LLC through the assumption of the $9,146,000 secured note and used approximately $5,115,000 of the proceeds from a $7,500,000 unsecured loan from NNN Realty Advisors. The balance of the purchase price was provided by funds raised through this offering. Since we acquired Southpointe Office Parke and Epler Parke I from an indirect subsidiary of NNN Realty Advisors our independent directors engaged an independent appraiser to value the property. A majority of our board of directors, including a majority of our independent directors, have determined that the transaction is fair and reasonable to us and at a price to us no greater than the cost of the investment to our sponsor or its appraised value, as determined by the independent appraiser. An acquisition fee of $444,000, or 3.0% of the purchase price, was paid to our advisor and its affiliate.

The buildings in Southpointe Office Parke and Epler Parke I consist of approximately 97,000 square feet of gross leasable area. The buildings are approximately 87.1% leased with approximately 76.3% of the leased space occupied by medical tenants. We intend to continue to lease the buildings to medical, retail and office tenants.

Built between 1991 and 1996, Southpointe Office Parke is comprised of six buildings on approximately 8.5 acres and contains approximately 76,000 square feet of gross leasable area adjacent to Community Hospital South, a 150-bed acute care hospital, which is part of the Community Health Network, a five-hospital system located in Indianapolis, Indiana. Community Hospital South admits approximately 40,000 hospital patients each year and has over 8,800 employees. Approximately 84.9% of the space at Southpointe Office Parke is leased and approximately 93.8% of the space leased is occupied by medical tenants, while the remaining space is leased to two small retail tenants. No tenant occupies 10.0% or more of the gross leasable area.

Built in 2002, the Epler Parke I building is situated on approximately 2.8 acres and located approximately three miles from the Southpointe Office Parke buildings. The building contains approximately 21,000 square feet of gross leasable area and is approximately 94.9% leased to five tenants. Circle Design Group leases approximately 13,000 square feet, or approximately 63.6% of the space, pursuant to a lease that expires on July 31, 2012. Circle Design is one of the largest consulting engineering firms in Indiana. The rental rate per annum for Circle Design is approximately $210,000 or $15.85 per square foot. Circle Design does not have a renewal option on its lease. The four other tenants are Eric Treadwell, DDS, United Auto Credit Corporation, Brookwood Denture Specialists, Inc. and Phillip Kuntel, each of whom is engaged in the principal business of dentistry, auto finance, dentistry and insurance, respectively. Eric Treadwell, DDS is the only tenant besides Circle Design that occupies more than 10.0% of the space. Eric Treadwell, DDS leases approximately 2,000 square feet under a lease that runs until August 31, 2011. Eric Treadwell, DDS has one five-year renewal option with six months notice. The annual rent is approximately $33,000 through August 2007 and $34,000 through August 2009. From August 2009 until the end of the lease the annual rent is approximately $35,000.

Triple Net Properties Realty, Inc., or Realty, serves as the property manager and provides services and receives certain fees and expense reimbursements in connection with the operation and management of Southpointe Office Parke and Epler Parke I.

NNN Gallery Medical, LLC has fee simple ownership of The Gallery Professional Building, an eight-story medical building located in downtown St. Paul, Minnesota. NNN Gallery Medical, LLC acquired The Gallery Professional Building on February 5, 2007, for a purchase price of $8,800,000. In connection with the purchase, NNN Gallery Medical, LLC entered into a secured loan with LaSalle evidenced by a promissory note in the principal amount of $6,000,000. We financed the purchase price of NNN Medical Gallery, LLC through the assumption of the $6,000,000 secured note (but not for interest payments for periods prior to March 9, 2007) and a $1,000,000 loan from NNN Realty Advisors. The balance of the purchase price was provided by funds raised through this offering. Since we acquired The Gallery Professional Building from a subsidiary of NNN Realty Advisors, an independent appraiser was engaged by the independent directors to value the property. The terms of the acquisition have been approved by a majority of our board of directors, including a majority of our independent directors, as fair and reasonable to us and at a price no greater than the cost of the investment to NNN Realty Advisors subsidiary or the property s appraised value, as determined by the independent appraiser. An acquisition fee of $264,000, or 3.0% of the purchase price, was paid to our advisor and its affiliate.

The Gallery Professional Building consists of approximately 105,000 square feet of gross leasable area. The building is approximately 73.2% leased, with approximately 69.6% occupied by medical tenants. We intend to continue to lease the building to medical tenants.

St. Joseph s Hospital recently began construction on an $80.0 million expansion and renovation of the hospital, which will include building a new hospital tower, expanding the emergency department and adding two new operating rooms.

Summit Orthopedics leases approximately 24,000 square feet, or approximately 22.5% of the space, pursuant to two leases: one for approximately 13,000 square feet that expires on May 31, 2011 and a second lease for approximately 11,000 square feet that expires on March 31, 2017. Summit Orthopedics is comprised of seven clinics and two surgery centers located in Minnesota, with both a clinic and a surgery center located within The Gallery Professional Building. The rental rate per annum for Summit Orthopedics is approximately $403,000, or approximately $17.00 per square foot. Summit Orthopedics does not have a renewal option on either lease. HealthEast Care Systems is currently the largest health care provider in the Twin Cities East Metro area, and the adjacent St. Joseph s Hospital is part of this network. The rental rate per annum for HealthEast Care Systems is approximately $303,000, or approximately $15.38 per square foot. HealthEast Care Systems has two renewal terms of five years each on its lease for approximately 14,000 square feet expiring on January 31, 2018. Tucson Medical Office Portfolio

On November 20, 2007, we, through our wholly-owned subsidiary, NNN Healthcare/Office REIT Tucson Medical Office, LLC, acquired a fee simple interest in certain real property located at 2001 W. Orange Grove Road, Tucson, Arizona, or the Desert Life property, and a long-term leasehold interest in certain real property located at 6261 North La Cholla Boulevard, Tucson, Arizona, or the La Cholla property, located in Tucson, Arizona, which we collectively refer to as the Tucson Medical Office Portfolio, from unaffiliated third parties for a total purchase price of $21,050,000, plus closing costs.

We used $22,000,000 in borrowings under our secured revolving line of credit with LaSalle to finance the purchase price of the Tucson Medical Office Portfolio as well as to pay closing costs and for working capital. An acquisition fee of $632,000, or 3.0% of the purchase price, was paid to our advisor and its affiliate.

The Tucson Medical Office Portfolio is a two project portfolio comprised of seven multi-tenant medical office buildings located on 10.2 acres of land on the Northwest Medical Center campus in Tucson, Arizona. The Desert Life property consists of six multi-tenant contiguous buildings built between 1979 and 1980, that consists of approximately 56,000 square feet of gross leasable area that is approximately 59.6% leased. The La Cholla Medical Building, built in 1994, consists of approximately 55,000 square feet of gross leasable area that is approximately 68.9% leased.

The principal businesses occupying the buildings are healthcare providers and researchers. Tenants typically require proximity to the Northwest Medical Center, a 300-bed full-service hospital, which is located within walking distance to the Tucson Medical Office Portfolio. The three largest tenants, Fresenius Medical Care North America, Genova Clinical Research and Laboratory Corporation of America, have been occupants of the property since 2007, 2005, and 1993, respectively.

Fresenius leases approximately 10,000 square feet pursuant to a lease that expires in April 2017. Fresenius provides dialysis care, products and services. The rental rate per annum for Fresenius is approximately $227,000, or $23.00 per square foot.

Genova leases approximately 8,000 square feet pursuant to a lease that expires in October 2009. Genova provides research services for the pharmaceutical industry. The rental rate per annum for Genova is approximately $62,000, or $20.80 per square foot.

Laboratory Corporation of America leases approximately 7,000 square feet pursuant to a lease that expires in May 2008. Laboratory Corporation operates a nationwide network of medical testing locations and patient service centers.

The rental rate per annum for Laboratory Corporation of America is approximately $137,000, or $20.47 per square foot.

Realty serves as the property manager and provides services and receives certain fees and expense reimbursements in connection with the operation and management of the Tucson Medical Office Portfolio as provided in our advisory agreement.

The Tucson Medical Office Portfolio faces competition from other nearby medical office buildings that provide comparable services. Most of the medical office buildings with which the Tucson Medical Office Portfolio competes are located on or near the Northwest Medical Center campus.

Management currently has minimal renovation plans for the property and believes that the property is suitable for its intended purpose and adequately covered by insurance. For federal income tax purposes, the depreciable basis in the Tucson Medical Office Portfolio is approximately $19.6 million. We calculate depreciation for income tax purposes using the straight line method. We depreciate buildings based upon an estimated useful life of 39 years. For 2006, the Tucson Medical Office Portfolio paid real estate taxes of approximately $154,000 at a primary rate of approximately 8.42% and a secondary rate of approximately 6.1%.

The following table sets forth the lease expirations of the Tucson Medical Office Portfolio for the next 10 years, including the number of tenants whose leases will expire in the applicable year, the total area in square feet covered by such leases and the percentage of gross annual rent represented by such leases.

Lima Medical Office Portfolio

On December 7, 2007, we acquired Lima Medical Office Portfolio, located in Lima, Ohio, or the Lima Medical property, for a total purchase price of $25,250,000, plus closing costs. We acquired the property from an unaffiliated third party. We financed the purchase price using a combination of $26,000,000 in borrowings under a secured revolving line of credit with LaSalle. An acquisition fee of $758,000, or 3.0% of the purchase price, was paid to our advisor and its affiliate.

The Lima Medical property consists of six multi-tenant medical office buildings, five of which are located on the campus of St. Rita s Medical Center in Lima, Ohio. The sixth medical office building is located in the downtown square of Lima, approximately one mile away from the hospital campus. The on-campus buildings were built in 1970, 1985, 1990, 1996, and 2004. The off-campus building is located in a renovated historic theater and was built in the 1920 s. The property is comprised of approximately 193,000 square feet with St. Rita s Medical Center occupying approximately 55.3% of the property. The six buildings are currently 80.5% leased.

St. Rita s Medical Center, based in Lima, Ohio, is a non-profit healthcare provider serving a 10-county area of northwest and west-central Ohio. St. Rita s Medical Center is part of the obligated group of Catholic Healthcare Partners (CHP), one of the largest not-for-profit health systems in the country and the largest in Ohio. This

organization structure makes St. Rita s Medical Center main hospital the largest medical facility within a 70-mile radius of Lima, Ohio. St. Rita s Medical Center is a member of West Central Ohio Health Partner s, one of CHP s nine regional consortiums. CHP has a Moody s credit rating of Aa3 and a Standard & Poor s rating of AA- and its operating revenue was $3.36 billion in its fiscal year ended December 31, 2005.

As of November 2006, St. Rita s Medical Center operated 330 of 425 licensed beds. The construction of a new tower connected to the main hospital will add an additional 36 operational beds by the end of 2007. The St. Rita s Medical Center Emergency Department treats approximately 58,000 cases annually and has approximately 4,000 employees. As of June 2006, it is Allen County s largest employer. In 2005, St. Rita s Medical Center began a $130 million expansion project that will add six new inpatient and outpatient service

floors and encompass 350,000 square feet in new and renovated space. St. Rita s Medical Center began utilizing the new space in May 2007, with full utilization expected by the end of the year. After completion, two of the medical office buildings in the Lima Medical property will enjoy significantly closer physical integration with the hospital.

Realty serves as the property manager and provide services and receives certain fees and expense reimbursements in connection with the operation and management of the Lima Medical property.

The Lima Medical property faces competition from other nearby medical office buildings that provide comparable services. Most medical office buildings with which the Lima Medical property competes are located on either the campuses of nearby hospitals or in surrounding suburban areas.

Other than the construction described above, management currently has minimal renovation plans for the property and believes that the property is suitable for its intended purpose and adequately covered by insurance. For federal income tax purposes, the depreciable basis in the Lima Medical property is approximately $25.6 million. We calculate depreciation for income tax purposes using the straight line method. We depreciate buildings based upon an estimated useful life of 39 years. For 2006, the Lima Medical property paid real estate taxes of approximately $385,000 at a primary rate of approximately 1.3%.

The following table sets forth the lease expirations of the Lima Medical property for the next 10 years, including the number of tenants whose leases will expire in the applicable year, the total area in square feet covered by such leases and the percentage of gross annual rent represented by such leases.

MANAGEMENT

Board of Directors

We operate under the direction of our board of directors, the members of which are accountable to us and our stockholders as fiduciaries. The board of directors is responsible for the management and control of our affairs. We have no employees, and the board of directors has retained our advisor to manage our day-to-day operations and to implement our investment strategy, subject to the board s direction, oversight and approval.

We currently have six members on our board of directors, five of whom are independent of us, our advisor and our advisor s affiliates. Our charter and bylaws provide that the number of our directors may be established by a majority of the entire board of directors, but that number may not be fewer than three nor more than 15. The charter also provides that a majority of the directors must be independent directors and that at least one of the independent directors must have at least three years of relevant real estate experience. An independent director is a person who is not an officer or employee of our advisor or its affiliates and has not otherwise been affiliated with such entities for the previous two years.

Directors are elected annually and serve until the next annual meeting of stockholders or until their successor has been duly elected and qualified. There is no limit on the number of times a director may be elected to office. Although the number of directors may be increased or decreased, a decrease will not have the effect of shortening the term of any incumbent director.

Any director may resign at any time and may be removed with or without cause by the stockholders upon the affirmative vote of at least a majority of all the votes entitled to be cast at a meeting called for the purpose of the proposed removal. The notice of the meeting shall indicate that the purpose, or one of the purposes, of the meeting is to determine if the director shall be removed.

Any vacancy created by an increase in the number of directors or the death, resignation, removal, adjudicated incompetence or other incapacity of a director shall be filled by a vote of a majority of the remaining directors. The independent directors will nominate replacements for vacancies in the independent director positions.

Duties of Directors

Our charter was reviewed and ratified by a unanimous vote of our directors, including our independent directors. The responsibilities of our board of directors include:

- approving and overseeing our overall investment strategy, which will consist of elements such as (1) allocation of percentages of capital to be invested in real estate properties and real estate related securities, (2) allocation of percentages of capital to be invested in medical office properties, healthcare-related facilities and quality commercial office properties, (3) diversification strategies, (4) investment selection criteria and (5) investment disposition strategies;

- approving all real property acquisitions, developments and dispositions, including the financing of such acquisitions and developments;

- approving specific discretionary limits and authority to be granted to our advisor in connection with the purchase and disposition of real estate related securities that fit within the asset allocation framework;

approving and overseeing our debt financing strategy;

approving and monitoring the performance of our advisor;

approving joint ventures, limited partnerships and other such relationships with third parties;

determining our distribution policy and declaring distributions from time to time;

approving amounts available for repurchases of shares of our common stock; and

Table of Contents

approving a liquidity event, such as the listing of our shares on a national securities exchange, the liquidation of our portfolio, our merger with another company or similar transaction providing liquidity to our stockholders.

Our directors are not required to devote all of their time to our business and are only required to devote the time to our affairs as their duties may require. Our directors meet quarterly or more frequently if necessary in order to discharge their duties.

The directors have established and periodically review written policies on investments and borrowings consistent with our investment objectives and monitor our administrative procedures, investment operations and performance and those of our advisor to assure that such policies are carried out.

The independent directors are also responsible for reviewing our fees and expenses on at least an annual basis and with sufficient frequency to determine that the expenses incurred are in the best interest of the stockholders.

In order to reduce or eliminate certain potential conflicts of interest, our charter requires that a majority of the independent directors, and a majority of directors not otherwise interested in the transaction, must approve all transactions with any of our directors, our advisor, or any of their affiliates. The independent directors are also responsible for reviewing the performance of our advisor and determining that the compensation paid to our advisor and the distributions that may be payable to our advisor pursuant to its subordinated participation interest in our operating partnership are reasonable in relation to the nature and quality of services to be performed and that the provisions of the advisory agreement are being carried out. As a part of their review of our advisor s compensation, the independent directors will consider factors such as:

the quality and extent of service and advice furnished by our advisor;

the amount of the fees and other compensation paid to our advisor in relation to the size, composition and performance of our investments;

the success of our advisor in generating appropriate investment opportunities;

rates charged to comparable externally advised REITs and other investors by advisors performing similar services;

additional revenues realized by our advisor and its affiliates through their relationship with us, whether paid by us or by others with whom we do business; and

the performance of our investment portfolio.

Committees of the Board of Directors

Our board of directors may establish committees it deems appropriate to address specific areas in more depth than may be possible at a full board meeting, provided that the majority of the members of each committee are independent directors. Our board of directors has established an audit committee. We do not have a compensation committee because we do not plan to pay any compensation to our officers. However, if in the future we provide any compensation to our officers, we will establish a compensation committee comprised entirely of independent directors to determine the nature and amount of such compensation.

Our audit committee s primary function is to assist the board of directors in fulfilling its oversight responsibilities by reviewing the financial information to be provided to the stockholders and others, the system of internal controls which management has established, and the audit and financial reporting process. The audit committee is responsible for the selection, evaluation and, when necessary, replacement of our independent registered public accounting firm. Under our audit committee charter, the audit committee will always be comprised solely of independent directors. The audit committee is currently comprised of W. Bradley Blair, II, Maurice J. DeWald, Warren D. Fix and Gary T. Wescombe, all of whom are independent directors. Mr. DeWald currently serves as the chairman and has been designated as the audit committee financial expert.

Incentive Stock Plan

We have adopted an incentive stock plan, which we will use to attract and retain qualified independent directors, employees and consultants providing services to us who are considered essential to our long-term success by offering these individuals an opportunity to participate in our growth through awards in the form of, or based on, our common stock. Although we do not currently intend to hire any employees, any employees we may hire in the future would also be eligible to participate in our incentive stock plan.

The incentive stock plan provides for the granting of awards to participants in the following forms to those independent directors, employees, and consultants selected by the plan administrator for participation in the incentive stock plan:

options to purchase shares of our common stock, which may be nonstatutory stock options or incentive stock options under the U.S. tax code,

stock appreciation rights, which give the holder the right to receive the difference between the fair market value per share on the date of exercise over the grant price;

performance awards, which are payable in cash or stock upon the attainment of specified performance goals;

restricted stock, which is subject to restrictions on transferability and other restrictions set by the committee;

restricted stock units, which give the holder the right to receive shares of stock, or the equivalent value in cash or other property, in the future;

deferred stock units, which give the holder the right to receive shares of stock, or the equivalent value in cash or other property, at a future time;

- dividend equivalents, which entitle the participant to payments equal to any dividends paid on the shares of stock underlying an award; and/or

- other stock based awards in the discretion of the plan administrator, including unrestricted stock grants.

Any such awards will provide for exercise prices, where applicable, that are not less than the fair market value of our common stock on the date of the grant. Any shares issued under the incentive stock plan will be subject to the ownership limits contained in our charter.

Our board of directors or a committee of its independent directors will administer the incentive stock plan, with sole authority to select participants, determine the types of awards to be granted and all of the terms and conditions of the awards, including whether the grant, vesting or settlement of awards may be subject to the attainment of one or more performance goals. No awards will be granted under the plan if the grant,

vesting and/or exercise of the awards would jeopardize our status as a REIT under the Internal Revenue Code or otherwise violate the ownership and transfer restrictions imposed under our charter.

The maximum number of shares of common stock that may be issued upon the exercise or grant of an award under the incentive stock plan is 2,000,000. In the event of a nonreciprocal corporate transaction that causes the per-share value of our common stock to change, such as a stock dividend, stock split, spin-off, rights offering, or large nonrecurring cash dividend, the share authorization limits of the incentive stock plan will be adjusted proportionately.

Unless otherwise provided in an award certificate, upon the death or disability of a participant, or upon a change in control, all of such participant s outstanding awards under the incentive stock plan will become fully vested. The plan will automatically expire on the tenth anniversary of the date on which it is adopted, unless extended or earlier terminated by the board of directors. The board of directors may terminate the plan at any time, but such termination will have no adverse impact on any award that is outstanding at the time of such termination. The board of directors may amend the plan at any time, but any amendment would be subject to stockholder approval if, in the reasonable judgment of the board, stockholder approval would be required by any law, regulation or rule applicable to the plan. No termination or amendment of the plan may, without the written consent of the participant, reduce or diminish the value of an outstanding award determined as if the award had been exercised, vested, cashed in or otherwise settled on the date of such amendment or termination. The board may amend or terminate outstanding awards, but those amendments may require consent of the participant and, unless approved by the stockholders or otherwise permitted by the antidilution provisions of the plan, the exercise price of an outstanding option may not be reduced, directly or indirectly, and the original term of an option may not be extended.

Under Section 162(m) of the Internal Revenue Code, a public company generally may not deduct compensation in excess of $1 million paid to its chief executive officer and the four next most highly compensated executive officers. In order for awards granted after the expiration of such grace period to be exempt, the incentive stock plan must be amended to comply with the exemption conditions and be resubmitted for approval by our stockholders.

Limited Liability and Indemnification of Directors, Officers and Others

Our organizational documents limit the personal liability of our stockholders, directors and officers for monetary damages subject to the limitations of the Statement of Policy Regarding Real Estate Investment Trusts adopted by the North American Securities Administrators Association, or the NASAA Guidelines. We also maintain a directors and officers liability insurance policy. The Maryland General Corporation Law allows directors and officers to be indemnified against judgments, penalties, fines, settlements and reasonable expenses actually incurred in connection with a proceeding unless the following can be established:

- an act or omission of the director or officer was material to the cause of action adjudicated in the proceeding, and was committed in bad faith or was the result of active and deliberate dishonesty;
- the director or officer actually received an improper personal benefit in money, property or services; or
- with respect to any criminal proceeding, the director or officer had reasonable cause to believe his or her act or omission was unlawful.

In spite of the above provisions of the Maryland General Corporation Law, our charter provides that our directors, our advisor and its affiliates will be held harmless and indemnified by us for losses only if all of the following conditions are met:

the indemnitee determined, in good faith, that the course of conduct which caused the loss, liability or expense was in our best interests;

the indemnitee was acting on our behalf or performing services for us;

in the case of affiliated directors, our advisor or its affiliates, the liability or loss was not the result of negligence or misconduct by the party seeking indemnification; and

in the case of independent directors, the liability or loss was not the result of gross negligence or willful misconduct by the party seeking indemnification.

In addition, any indemnification or any agreement to hold harmless is recoverable only out of our assets and not from our stockholders.

On January 17, 2007, we entered into indemnification agreements with four of our independent directors, W. Bradley Blair, II, Maurice J. DeWald, Warren D. Fix, Gary T. Wescombe, and each of our officers and non-independent director, Scott D. Peters, Danny Prosky and Andrea R. Biller. On March 1, 2007, we entered into an indemnification agreement with our officer, Shannon K S Johnson. On April 18, 2007, we entered into an indemnification agreement with our independent director, Larry L. Mathis. Pursuant to the terms of these indemnification agreements, we will indemnify and advance expenses and costs incurred by our directors and officers in connection with any claims, suits or proceedings brought against such directors and officers as a result of his or her service. However, our indemnification obligation is subject to the limitations set forth in the indemnification agreements and in our charter.

The general effect to investors of any arrangement under which any of our controlling persons, directors or officers are insured or indemnified against liability is a potential reduction in distributions resulting from our payment of premiums, deductibles and other costs associated with such insurance or, to the extent any such loss is not covered by insurance, our payment of indemnified losses. In addition, indemnification could reduce the legal remedies available to us and our stockholders against the indemnified individuals, however this provision does not reduce the exposure of our directors and officers to liability under federal or state securities laws, nor does it limit our stockholder s ability to obtain injunctive relief or other equitable remedies for a violation of a director s or an officer s duties to us or our stockholders, although the equitable remedies may not be an effective remedy in some circumstances.

The SEC takes the position that indemnification against liabilities arising under the Securities Act of 1933 is against public policy and unenforceable. Indemnification of our directors, officers, our advisor or its affiliates or any person acting as a broker-dealer on our behalf, including our dealer manager, will not be allowed for liabilities arising from or out of a violation of state or federal securities laws, unless one or more of the following conditions are met:

there has been a successful adjudication on the merits of each count involving alleged securities law violations;

such claims have been dismissed with prejudice on the merits by a court of competent jurisdiction; or

a court of competent jurisdiction approves a settlement of the claims against the indemnitee and finds that indemnification of the settlement and the related costs should be made, and the court considering the request for indemnification has been advised of the position of the SEC and of the published position of any state securities regulatory authority in the state in which our securities were offered as to indemnification for violations of securities laws.

Our operating partnership must also indemnify us and our directors, officers and other persons we may designate against damages and other liabilities in our capacity as general partner. See The Operating Partnership Agreement Indemnification.

its affiliates combine local market knowledge with a national service network to provide innovative, customized solutions for real estate owners, corporate occupants and investors.

On December 7, 2007, NNN Realty Advisors, which previously served as our sponsor, merged with and into a wholly owned subsidiary of our current sponsor, Grubb & Ellis. The transaction was structured as a reverse merger whereby stockholders of NNN Realty Advisors received shares of Grubb & Ellis in exchange for their NNN Realty Advisors shares and, immediately following the merger, former NNN Realty Advisor stockholders owned approximately 60.1% of Grubb & Ellis. Additionally, six of the nine post-merger directors of Grubb & Ellis were directors of NNN Realty Advisors prior to the merger, including the current Grubb & Ellis Chairman of the Board, Anthony W. Thompson. Scott D. Peters, the Chief Executive Officer, President and current Chairman of the Board of NNN Realty Advisors, also now serves as Chief Executive Officer, President and a director of Grubb & Ellis.

Grubb & Ellis continues to use the Grubb & Ellis name and continues to be listed on the New York Stock Exchange under the ticker symbol GBE.

As a result of the merger, we consider Grubb & Ellis to be our sponsor. Upon Grubb & Ellis becoming our sponsor, we changed our name from NNN Healthcare/Office REIT, Inc. to Grubb & Ellis Healthcare REIT, Inc.

The Advisory Agreement

The term of our advisory agreement is one year and ends on October 24, 2008. The advisory agreement may be renewed for an unlimited number of successive one-year periods upon the mutual consent of the parties. The independent directors will evaluate the performance of our advisor before renewing the advisory agreement. The advisory agreement may be terminated:

- immediately by us for cause , or upon the bankruptcy of our advisor;
- immediately by the advisor for good reason; or
- without cause or penalty upon 60 days written notice by our advisor or by us upon the approval of a majority of our independent directors.

Cause is defined in the advisory agreement to mean fraud, criminal conduct, willful misconduct or willful or grossly negligent breach of fiduciary duty by our advisor, or any uncured material breach of the advisory agreement by our advisor. Good reason is defined in the advisory agreement to mean either:

- any failure by us to obtain a satisfactory agreement from a successor to assume and agree to perform our obligations under the advisory agreement; or
- any uncured material breach of the advisory agreement by us.

In the event of the termination of the advisory agreement, our advisor will cooperate with us and take all reasonable steps requested to assist our board of directors in making an orderly transition of the advisory function. Should a

termination of the advisory agreement with our current advisor occur, our board of directors will select a successor advisor that the board of directors has determined possesses sufficient qualifications to perform the advisory services. Our board of directors would also be required to determine the compensation that we will pay to any successor advisor is reasonable in relation to the nature and quality of the services to be performed for us and is within the limits prescribed in our charter.

Our advisor and its affiliates expect to engage in other business ventures and, as a result, their resources will not be dedicated exclusively to our business. However, pursuant to the advisory agreement, our advisor s key personnel must devote sufficient resources to management of our operations to permit our advisor to discharge its obligations. Our advisor may assign the advisory agreement to an affiliate upon approval of our board of directors, including a majority of our independent directors. We may assign or transfer the advisory agreement to a successor entity in which case the successor entity shall be bound by the terms of the advisory agreement.

Our advisor may not make any real property acquisitions, developments or dispositions, including real property portfolio acquisitions, developments and dispositions, without the prior approval of the majority of our board of directors. The actual terms and conditions of transactions involving investments in real estate shall be determined by our advisor, subject to the approval of our board of directors.

We will reimburse our advisor for all of the costs it incurs in connection with the services provided to us under the advisory agreement, including, but not limited to:

- organizational and offering expenses, which consist of, among other items, the cumulative cost of actual legal, accounting, printing and other accountable offering expenses, including, but not limited to, amounts to reimburse our advisor for marketing, salaries and direct expenses of its employees, employees of its affiliates and others while engaged in registering and marketing the shares of our common stock to be sold in this offering, which shall include, but not be limited to, development of marketing materials and marketing presentations, participating in due diligence and marketing meetings and coordinating generally the marketing process for this offering. Our advisor and its affiliates will be responsible for the payment of our cumulative organizational and offering expenses, other than the selling commissions, the marketing support fee and the due diligence reimbursement, to the extent they exceed 1.5% of the aggregate gross proceeds from the sale of shares of our common stock sold in the primary offering without recourse against or reimbursement by us;

- the actual cost of goods and services used by us and obtained from entities not affiliated with our advisor, including brokerage fees paid in connection with the purchase and sale of our properties and other investments;

- administrative services including personnel costs, provided, however, that no reimbursement shall be made for personnel costs in connection with services for which our advisor receives a separate fee; and

- acquisition fees and expenses, including real estate commissions paid to third parties, which will not exceed, in the aggregate, 6.0% of the purchase price or total development cost, unless fees in excess of such limits are approved by a majority of our disinterested directors and a majority of our independent disinterested directors; acquisition expenses are defined to include expenses related to the selection and acquisition of properties, whether or not acquired.

Although there is no specific limit as to the amount of the administrative services that our advisor or its affiliates may provide to us, such as accounting and finance, internal audit, investor relations and legal services, we will reimburse our advisor and its affiliates for these services at cost and they may not be reimbursed for services for which they otherwise receive a fee under the advisory agreement. In addition, the cost of these administrative services is included in our operating expenses and therefore is subject to the reimbursement limitations described below.

Our advisor must reimburse us at least annually for reimbursements paid to the advisor in any year to the extent that such reimbursements to the advisor cause our total operating expenses to exceed the greater of (1) 2.0% of our average invested assets, which means the average monthly book value of our assets invested directly or indirectly in equity interests and loans secured by real estate during the 12-month period before deducting depreciation, bad debts or other non-cash reserves, or (2) 25.0% of our net income, which is defined as our total revenues less total operating expenses

for any given period excluding reserves for depreciation and

bad debt, unless the independent directors have determined that such excess expenses were justified based on unusual and non-recurring factors. The total operating expenses means all expenses paid or incurred by us, as determined under accounting principles generally accepted in the United States of America, or GAAP, that are in any way related to our operation, including asset management fees, but excluding: (a) the expenses of raising capital such as organizational and offering expenses, legal, audit, accounting, underwriting, brokerage, registration and other fees, printing and other such expenses and taxes incurred in connection with the issuance, distribution, transfer and registration of shares of our common stock; (b) interest payments; (c) taxes; (d) non-cash expenditures such as depreciation, amortization and bad debt reserves; (e) reasonable incentive fees based on the gain in the sale of our assets; and (f) acquisition fees and expenses (including expenses relating to potential acquisitions that we do not close), disposition fees on the resale of real property and other expenses connected with the acquisition, disposition, management and ownership of real estate interests, mortgage loans or other real property (including the costs of foreclosure, insurance premiums, legal services, maintenance, repair and improvement of real property). Our advisor must reimburse the excess expenses to us unless the independent directors determine that the excess expenses were justified based on unusual and nonrecurring factors which they deem sufficient. Within 60 days after the end of any of our fiscal quarters for which total operating expenses for the 12 months then-ended exceed the limitation, we will send to our stockholders a written disclosure, together with an explanation of the factors the independent directors considered in arriving at the conclusion that the excess expenses were justified. However, at our advisor s option, our advisor or its affiliates, as applicable, may defer receipt of any portion of the asset management fee or reimbursement of expenses and elect to receive such payments, without interest, in any subsequent fiscal year that our advisor designates.

Our advisor and its affiliates will be paid compensation, fees, expense reimbursements, interest and distributions in connection with services provided to us. See Compensation Table. In the event the advisory agreement is terminated, our advisor and its affiliates will be paid all accrued and unpaid fees and expense reimbursements earned prior to the termination.

We have agreed to indemnify, defend and hold harmless our advisor and its affiliates, including all of their respective officers, managers and employees, from and against any and all liability, claims, damages or losses arising in the performance of their duties under the advisory agreement, and related expenses, including reasonable attorneys fees, to the extent such liability, claims, damages or losses and related expenses are not fully reimbursed by insurance, provided that (1) our advisor and its affiliates have determined that the cause of conduct which caused the loss or liability was in our best interests, (2) our advisor and its affiliates were acting on behalf of or performing services for us, and (3) the indemnified claim was not the result of negligence, misconduct, or fraud of our advisor or its affiliates or the result of a breach of the agreement by our advisor or its affiliates.

Any indemnification made to our advisor, its affiliates or their officers, managers or employees may be made only out of our net assets and not from our stockholders. Our advisor will indemnify and hold us harmless from contract or other liability, claims, damages, taxes or losses and related expenses, including attorneys fees, to the extent that such liability, claims, damages, taxes or losses and related expenses are not fully reimbursed by insurance and are incurred by reason of our advisor s bad faith, fraud, willful misfeasance, misconduct, or reckless disregard of its duties, but our advisor shall not be held responsible for any action of our board of directors in following or declining to follow the advice or recommendation given by our advisor.

Grubb & Ellis, our sponsor, Triple Net Properties and their affiliates have sponsored other real estate programs and may in the future sponsor real estate programs that have investment objectives similar to ours. As a result, our sponsor and its affiliates, including Triple Net Properties, could be subject to conflicts of interest between us and other NNN programs. Our advisory agreement provides that if Triple Net Properties identifies an opportunity to make an investment in one or more office buildings or other facilities for which greater than 50% of the gross rentable space is leased to, or reasonably expected to be leased to, one or more medical or healthcare-related tenants, either directly or

indirectly through an affiliate or in a joint venture or other co-ownership arrangement, for itself or for any other NNN program, then Triple Net Properties will provide us with the first opportunity to purchase such investment. Triple Net Properties will provide all

necessary information related to such investment to our advisor, in order to enable our board of directors to determine whether to proceed with such investment. Our advisor will present the information to our board of directors within three business days of receipt from Triple Net Properties. If our board of directors does not affirmatively authorize our advisor to proceed with the investment on our behalf within seven days of receipt of such information from our advisor, then Triple Net Properties may proceed with the investment opportunity for its own account or offer the investment opportunity to any other person or entity.

Ownership Interests

Healthcare Advisor has acquired 20,000 limited partnership units of our operating partnership, for which it contributed $200,000. As of the date of this prospectus, Healthcare Advisor is the only limited partner of our operating partnership. Healthcare Advisor may not sell any of these units during the period it serves as our advisor. Any resale of our shares that our advisor or its affiliates may acquire in the future will be subject to the provisions of Rule 144 promulgated under the Securities Act of 1933, which rule limits the number of shares that may be sold at any one time and the manner of such resale. Our advisor also holds 200 shares of our common stock. Although our advisor and its affiliates are not prohibited from acquiring additional shares, our advisor currently has no options or warrants to acquire any shares and has no current plans to acquire additional shares of our common stock.

In addition to its right to participate with other partners in our operating partnership on a proportionate basis in distributions, our advisor s limited partnership interest in our operating partnership also entitles it to a subordinated participation interest. The subordinated participation interest entitles our advisor to receive a cash distribution under the circumstances described below:

Subordinated Distribution of Net Sales Proceeds. After our operating partnership has paid us distributions (all of which we intend to distribute to our stockholders) in an amount necessary to provide our stockholders, collectively, a return of the total amount of capital raised from stockholders (less amounts paid to repurchase shares pursuant to our share repurchase plan program) plus an annual 8.0% cumulative, non-compounded return on average invested capital, Healthcare Advisor is entitled to receive a cash distribution from our operating partnership equal to 15.0% of the remaining net proceeds from the sales of properties. Healthcare Advisor shall not be entitled to any further participating distributions described in the preceding sentence if (1) our shares become listed on a national securities exchange or (2) the advisory agreement is terminated for any reason.

Subordinated Distribution Upon Listing. Upon the listing of our shares on a national securities exchange, Healthcare Advisor would become entitled to receive a cash distribution from our operating partnership equal to 15.0% of the amount by which (1) the market value of our outstanding shares of common stock plus distributions paid prior to listing, exceeds (2) the sum of the total amount of capital raised from stockholders (less amounts paid to repurchase shares pursuant to our share repurchase program) and an amount of cash that, if distributed to the stockholders as of the date of listing, would have provided them an annual 8.0% cumulative, non-compounded return on average invested capital through the date of listing. Healthcare Advisor shall not be entitled to receive this distribution if our shares are listed following the termination of the advisory agreement for any reason. The market value of the shares at listing will be based on the market value of the outstanding common stock averaged over the 30 trading days beginning 180 days after the shares are first listed. The subordinated distribution upon listing may be paid in cash or shares of our common stock, as determined by our board of directors, including a majority of our independent directors. In the event that we elect to satisfy the distribution obligation in the form of shares of our common stock, the number of shares will be determined based on the market value following listing.

Subordinated Distribution Upon Termination. Upon termination or non-renewal of the advisory agreement, other than a termination of the agreement by us for cause, Healthcare Advisor would become entitled to receive a cash distribution from our operating partnership in an amount equal to

15.0% of the amount, if any, by which (1) the appraised value of our assets on the termination date, less any indebtedness secured by such assets, plus total distributions paid through the termination date, exceeds (2) the sum of the total amount of capital raised from stockholders (less amounts paid to repurchase shares pursuant to our share repurchase plan) and the total amount of cash that, if distributed to them as of the termination date, would have provided them an annual 8.0% cumulative, non-compounded return on average invested capital through the termination date. Healthcare Advisor shall not be entitled to receive this distribution if our shares of common stock have been listed on a national securities exchange prior to the termination of the advisory agreement. Our operating partnership may satisfy the distribution obligation by either paying cash or issuing an interest-bearing promissory note. If the promissory note is issued and not paid within five years after the termination date, we would be required to purchase the promissory note (including accrued but unpaid interest) in exchange for cash or shares of our common stock.

The actual amount of these distributions cannot be determined at this time as they are dependent upon our results of operations and, in the case of the subordinated distribution upon listing, the market value of our common stock following listing. See Compensation Table and The Operating Partnership Agreement Distributions and Allocations.

Property Manager

Certain of our real properties may be managed and leased by Triple Net Properties Realty, Inc., or Realty. Realty, an indirect wholly owned subsidiary of Grubb & Ellis and an affiliate of our advisor, was organized in 1998 to lease and manage real properties acquired by affiliated entities or other third parties.

We will pay Realty a property management fee equal to 4.0% of the gross income from each of our real properties that it manages. For each property managed directly by entities other than Realty, we will pay Realty a monthly oversight fee of up to 1.0% of the gross income of the property. In addition, we may pay Realty a separate fee for the one-time initial lease-up of newly constructed real properties it manages for us in an amount not to exceed the fee customarily charged in arm s length transactions by others rendering similar services in the same geographic area for similar real properties, as determined by a survey of brokers and agents in such area. Such fee is generally expected to range from 3.0% to 8.0% of the projected first years annual gross revenues of the property. However, the actual percentage is variable and will depend on factors such as geographic location and real property type (for example, commercial office or medical office).

In the event that Realty assists a tenant with tenant improvements, a separate fee may be charged to the tenant and paid by the tenant. This fee will not exceed 5.0% of the cost of the tenant improvements. Realty will only provide these services if the provision of the services does not cause any of our income from the applicable real property to be treated as other than rents from real property for purposes of the applicable REIT requirements described under Federal Income Tax Considerations.

Realty will hire, direct and establish policies for employees who will have direct responsibility for the operations of each real property it manages, which may include but is not limited to on-site managers and building and maintenance personnel. Certain employees of Realty may be employed on a part-time basis and may also be employed by our advisor, the dealer manager or certain companies affiliated with them. Realty will also direct the purchase of equipment and supplies and will supervise all maintenance activity. The management fees to be paid to Realty will include, without additional expense to us, all of Realty s general overhead costs.

Realty expects to own a significant interest in a title insurance agency joint venture with unaffiliated third party title insurance professionals that will provide title and escrow services in connection with our acquisition,

financing and sale of properties. We expect that we will pay a material amount of title insurance premiums to this joint venture on an annual basis.

Dealer Manager

NNN Capital Corp. is an indirect wholly owned subsidiary of Grubb & Ellis and a member of FINRA. Since August 1986, our dealer manager has participated in and facilitated the distribution of securities of entities affiliated with Triple Net Properties. Our dealer manager will provide certain sales, promotional and marketing services to us in connection with the distribution of the shares of common stock offered pursuant to this prospectus. See Plan of Distribution.

We will pay our dealer manager a selling commission of up to 7.0% of the gross proceeds from the sale of shares of our common stock sold in the primary offering and a marketing support fee of up to 2.5% of the gross proceeds from the sale of shares of our common stock sold in the primary offering. In addition, we will pay our dealer manager up to 0.5% of the gross proceeds from the sale of shares of our common stock in the primary offering for reimbursement of actual *bona fide* due diligence expenses. No such fees or expense reimbursement will be paid for shares of our common stock issued pursuant to the distribution reinvestment plan.

In addition, we may pay our affiliated property manager a separate fee for any leasing activities in an amount not to exceed the fee customarily charged in arm s-length transactions by others rendering similar services in the same geographic area for similar properties as determined by a survey of brokers and agents in such area. Such fee is generally expected to range from 3.0% to 8.0% of the gross revenues generated during the initial term of the lease. Subordinated Participation Interest in Healthcare OP (our advisor)		
Subordinated Distribution of Net Sales Proceeds (payable only if we liquidate our portfolio while Healthcare Advisor is serving as our advisor)(6)	After distributions to our stockholders, in the aggregate, of a full return of capital raised from stockholders (less amounts paid to repurchase shares pursuant to our share repurchase program) plus an annual cumulative, non-compounded return of 8.0% on average invested capital, the distribution will be equal to 15.0% of the remaining net proceeds from the sales of properties.	Actual amounts depend upon the sale price of properties, and, therefore, cannot be determined at this time.
Subordinated Distribution Upon Listing (payable only if our shares are listed on a national securities exchange while Healthcare Advisor is serving as our advisor)(7)(8)	Upon the listing of our shares of common stock on a national securities exchange, a distribution equal to 15.0% of the amount by which (1) the market value of our outstanding common stock at listing plus distributions paid prior to listing exceeds (2) the sum of the total amount of capital raised from stockholders (less amounts paid to repurchase shares pursuant to our share repurchase plan) and the amount of cash that, if distributed to stockholders as of the date of listing would have provided them an annual 8.0% cumulative, non-compounded return on average invested capital through the date of listing.	Actual amounts depend upon the market value of our common stock at the time of listing, among other factors, and, therefore, cannot be determined at this time.

(1) Selling commissions may be reduced or waived in connection with certain categories of sales, such as sales for which a volume discount applies, sales through investment advisors or banks acting as trustees or fiduciaries and sales to our affiliates.

(2) The organizational and offering expense reimbursement consists of compensation for incurrence on our behalf of legal, accounting, printing and other offering expenses, including for marketing, salaries and director expenses of our advisor s employees, employees of its affiliates and others while engaged in registering and marketing the shares of our common stock, which shall include development of marketing materials and marketing presentations, planning and participating in due diligence and marketing meetings

and generally coordinating the marketing process for us. Our advisor and its affiliates will be responsible for the payment of our cumulative organizational and offering expenses, other than the selling commissions, the marketing support fee and due diligence expense reimbursement, to the extent they exceed 1.5% of the aggregate gross proceeds from the sale of shares of our common stock sold in the primary offering on a best efforts basis without recourse against or reimbursement by us.

(3) We will pay our advisor or its affiliates the acquisition fee upon the closing of a real property acquisition transaction for properties that are in the operational stage or as a percentage of completion for properties in the development stage. Acquisition expenses include any and all expenses incurred in connection with the selection, evaluation and acquisition of, and investment in properties, including, but not limited to, legal fees and expenses, travel and communications expenses, cost of appraisals and surveys, nonrefundable option payments on property not acquired, accounting fees and expenses, computer use related expenses, architectural, engineering and other property reports, environmental and asbestos audits, title insurance and escrow fees, loan fees or points or any fee of a similar nature paid to a third party, however designated, transfer taxes, and personnel and miscellaneous expenses related to the selection, evaluation and acquisition of properties. We will reimburse our advisor for acquisition expenses, whether or not the evaluated property is acquired. We expect that our acquisitions expenses will equal no more than 0.5% of the purchase price of acquired properties. Our charter limits our ability to pay acquisition fees if the total of all acquisition fees and expenses, including real estate commissions paid to third parties, would exceed 6.0% of the contract purchase price or total development cost. Under our charter, a majority of our disinterested directors, including a majority of the disinterested independent directors, would have to approve any acquisition fees (or portion thereof) which would cause the total of all acquisition fees and expenses relating to a real property acquisition to exceed 6.0% of the purchase price.

(4) Our advisor must reimburse us at least annually for reimbursements paid to the advisor in any year to the extent that such reimbursements to the advisor cause our total operating expenses to exceed the greater of (1) 2.0% of our average invested assets, or (2) 25.0% of our net income, which is defined as our total revenues less total expenses for any given period excluding reserves for depreciation and bad debt, unless the independent directors have determined that such excess expenses were justified based on unusual and non-recurring factors. Average invested assets means the average monthly book value of our assets invested directly or indirectly in equity interests and loans secured by real estate during the 12-month period before deducting depreciation, bad debts or other non-cash reserves. Total operating expenses means all expenses paid or incurred by us, as determined under GAAP, that are in any way related to our operation, including asset management fees, but excluding (a) the expenses of raising capital such as organizational and offering expenses, legal, audit, accounting, underwriting, brokerage, registration and other fees, printing and other such expenses and taxes incurred in connection with the issuance, distribution, transfer and registration of shares of our common stock; (b) interest payments; (c) taxes; (d) non-cash expenditures such as depreciation, amortization and bad debt reserves; (e) reasonable incentive fees based on the gain in the sale of our assets; and (f) acquisition fees and expenses (including expenses relating to potential acquisitions that we do not close), disposition fees on the resale of real property and other expenses connected with the acquisition, disposition, management and ownership of real estate interests, mortgage loans or other real property (including the costs of foreclosure, insurance premiums, legal services, maintenance, repair and improvement of real property).

(5) Although we are most likely to pay disposition fees in our liquidity stage, these fees may also be earned during our operational stage.

(6) The distribution is payable only if we liquidate our portfolio while Healthcare Advisor is serving as our advisor.

(7) The market value of the shares at listing will be based on the market value of the outstanding common stock averaged over the 30 trading days beginning 180 days after the shares are first listed. The subordinated

distribution upon listing may be paid in cash or shares, as determined by our board of directors, including a majority of the independent directors. In the event that we elect to satisfy the distribution obligation in the form of shares, the number of shares will be determined based on the listed market price described above. The distribution is payable only if our shares are listed on a national securities exchange.

(8) Upon termination of the advisory agreement without cause, our advisor will be entitled to a similar distribution, which we refer to as the subordinated distribution upon termination. Such distribution, if any, will equal 15.0% of the amount by which (1) the appraised value of our assets on the termination date, less any indebtedness secured by such assets, plus total distributions paid through the termination date, exceeds (2) the sum of the total amount of capital raised from our stockholders (less amounts paid to repurchase shares pursuant to our share repurchase plan) and the total amount of cash that, if distributed to them as of the termination, would have provided them an annual 8.0% cumulative, non-compounded return on average invested capital through the date of termination. Our operating partnership would satisfy the distribution obligation by either paying cash or issuing an interest-bearing promissory note. If the promissory note is issued and not paid within five years, we would be required to purchase the promissory note in exchange for cash or shares of our common stock. Our advisor cannot earn the subordinated distribution upon termination if it has already received the subordinated distribution upon listing. The subordinated distribution upon termination may occur during the liquidity stage or during the operational stage.

If at any time the shares become listed on a national securities exchange, we will negotiate in good faith with our advisor a fee structure appropriate for an entity with a perpetual life. A majority of the independent directors must approve the new fee structure negotiated with our advisor. In negotiating a new fee structure, the independent directors shall consider all of the factors they deem relevant, including but not limited to:

- the size of the advisory fee in relation to the size, composition and profitability of our portfolio;
- the success of our advisor in generating opportunities that meet our investment objectives;
- the rates charged to other REITs and to investors other than REITs by advisors performing similar services;
- additional revenues realized by our advisor and its affiliates through their relationship with us;
- the quality and extent of service and advice furnished by our advisor;
- the performance of our investment portfolio, including income, conservation or appreciation of capital, frequency of problem investments and competence in dealing with distress situations;
- the quality of our portfolio in relationship to the investments generated by our advisor for its own account or for other clients; and
- other factors related to managing a public company, such as stockholder services and support and compliance with securities laws, including the Sarbanes-Oxley Act.

Since our advisor is entitled to differing levels of compensation for undertaking different transactions on our behalf, such as the real estate commissions, the asset management fee and the subordinated unit distribution of net sales proceeds, our advisor has the ability to affect the nature of the compensation it receives by undertaking different transactions. However, our advisor is subject to oversight by our board of directors and is obligated pursuant to the advisory agreement to provide us a continuing and suitable investment program consistent with our investment objectives and policies, as determined by our board of directors. See Management The Advisory Agreement. Because these fees or expenses are payable only with respect to certain transactions or services, they may not be recovered by our advisor or its affiliates by reclassifying them under a different category.

BENEFICIAL OWNERSHIP

The following table shows, as of November 30, 2007, the amount of shares of our common stock and units of our operating partnership beneficially owned by (1) any person who is known by us to be the beneficial owner of more than 5.0% of the outstanding shares of our common stock, (2) our directors and chief executive officer and (3) all of our directors and executive officers as a group. The percentage of common stock beneficially owned is based on 19,802,667 shares of our common stock outstanding as of November 30, 2007. Beneficial ownership is determined in accordance with the rules of the SEC and generally includes securities over which a person has voting or investment power and securities that a person has the right to acquire within 60 days.

CONFLICTS OF INTEREST

We are subject to various conflicts of interest arising out of our relationship with our advisor and its affiliates, including conflicts related to the existing advisory agreement pursuant to which our advisor will be compensated by us. See Compensation Table. Our independent directors have an obligation to function on our behalf in all situations in which a conflict of interest may arise and have a fiduciary obligation to act in the best interest of the stockholders. See Management. However, we cannot assure you that the independent directors will be able to eliminate or reduce the risks related to these conflicts of interest. Some of these conflicts of interest and restrictions and procedures we have adopted to address these conflicts are described below.

Interests in Other Real Estate Programs

Other than performing services as our advisor, our advisor presently has no interests in other real estate programs. However, some of our officers and our non-independent director are officers of our advisor, Grubb & Ellis, our

sponsor, NNN Realty Advisors, our former sponsor and wholly owned subsidiary of our current sponsor, and Triple Net Properties, which manages our advisor, and other affiliated entities which will receive fees in connection with this offering and operations. Scott D. Peters is our Chief Executive Officer, President and Chairman of the Board and also serves as the Chief Executive Officer of our advisor, the Chief Executive Officer and President of Triple Net Properties, the Chief Executive Officer, President and a director of our sponsor and the Chief Executive Officer, President and Chairman of the Board of NNN Realty Advisors. Mr. Peters currently owns approximately 2.0% of our sponsor s outstanding common stock and he has de minimis ownership in several other NNN programs. Shannon K S Johnson is our Chief Financial Officer and

Table of Contents

also serves as a Financial Reporting Manager of Triple Net Properties. Ms. Johnson has de minimis ownership in our sponsor and no equity ownership in any NNN programs. Andrea R. Biller is our Executive Vice President and Secretary and also serves as the Executive Vice President of our advisor, General Counsel and Executive Vice President of Triple Net Properties, General Counsel, Executive Vice President and Secretary of our sponsor and the General Counsel, Executive Vice President, Secretary and a director of NNN Realty Advisors. Ms. Biller owns less than 1.0% of our sponsor s outstanding common stock and she has de minimis ownership in several NNN programs. Danny Prosky is our Vice President Acquisitions and also serves as the Managing Director Health Care Properties of Triple Net Properties. Mr. Prosky has no equity ownership in our sponsor or any NNN programs, other than 3,000 shares of our common stock. In addition, each of Mr. Peters, Ms. Johnson, Ms. Biller and Mr. Prosky holds options to purchase a de minimis amount of our sponsor s outstanding common stock. As of December 14, 2007, each of Mr. Peters and Ms. Biller own 18.0% membership interests in Grubb & Ellis Healthcare Management, LLC, which owns 25.0% of the membership interest of our advisor. These persons are presently, and plan in the future to continue to be, involved with other real estate programs and activities sponsored by our sponsor, Grubb & Ellis and its affiliates that have investment objectives similar to ours. In addition, to the extent that Grubb & Ellis acts as a broker for the seller or us in a transaction in which we acquire a property, these officers and director may cause us to pay a higher price for the property than we might otherwise pay to increase the commission that Grubb & Ellis is entitled to receive.

In the event that we and any other entity formed or managed by Grubb & Ellis or its affiliates are in the market for similar real estate, Grubb & Ellis and its affiliates will attempt to reduce the conflict of interest by reviewing the investment portfolio of each such affiliated entity and following the conflict resolution procedures described below in making a decision as to which real estate program will make such investments. See Certain Conflict Resolution Restrictions and Procedures below.

Grubb & Ellis and its affiliates are not prohibited from engaging, directly or indirectly, in any other business or from possessing interests in any other business venture or ventures, including businesses and ventures involved in the acquisition, development, ownership, management, leasing or sale of real estate projects of the type that we will seek to acquire. None of the NNN affiliated entities are prohibited from raising money for another entity that makes the same types of investments that we target and we may co-invest with any such entity. All such potential co-investments will be subject to approval by our independent directors.

Allocation of Our Advisor s Time

We rely on our advisor to manage our day-to-day activities and to implement our investment strategy. Our advisor and certain of its affiliates, including its principals and management personnel, are presently, and plan in the future to continue to be, involved with real estate programs and activities unrelated to us. As a result, our advisor and its affiliates will have conflicts of interest in allocating their time between us and other programs and activities in which they are involved. See Risk Factors Risk Related to Conflicts of Interest. However, our advisor believes that it and its affiliates have sufficient personnel to discharge fully their responsibilities to all of the programs and ventures in which they are or will be involved.

In addition, we have no employees and some of our officers are also officers of our advisor and officers and/or members of our sponsor and its affiliates. Our advisor will rely on these officers, its other employees and employees of its affiliates to manage and operate our business. The same employees of our advisor and its affiliates who will manage and operate our business will also be actively involved in activities other than our business. Those individuals spend a material amount of time managing those activities and operations that are unrelated to our business. As a result, those individuals will face conflicts of interest in allocating their time between our operations and those other activities and operations. In addition, our officers owe fiduciary duties to these other entities, which may conflict with the fiduciary duties they owe to us and our stockholders. See Risk Factors Risks Related to Conflicts of Interest.

Competition

Conflicts of interest will exist to the extent that we may acquire properties in the same geographic areas where other NNN programs own the same type of properties. In such a case, a conflict could arise in the leasing of our properties in the event that we and another program managed by Grubb & Ellis or its affiliates were to compete for the same tenants in negotiating leases, or a conflict could arise in connection with the resale of our properties in the event that we and another program managed by Grubb & Ellis or its affiliates were to attempt to sell similar properties at the same time.

In addition, our advisor will seek to reduce conflicts that may arise with respect to properties available for sale or rent by making prospective purchasers or tenants aware of all such properties. However, these conflicts cannot be fully avoided in that our advisor may establish differing compensation arrangements for employees at different properties or differing terms for resales or leasing of the various properties.

Affiliated Dealer Manager

NNN Capital Corp., our dealer manager is an indirect wholly owned subsidiary of Grubb & Ellis. This relationship may create conflicts of interest in connection with the performance of due diligence by the dealer manager. Although the dealer manager will examine the information in the prospectus for accuracy and completeness, the dealer manager is an affiliate of our advisor and will not make an independent due diligence review and investigation of our company or this offering of the type normally performed by an unaffiliated, independent underwriter in connection with the offer of securities. Accordingly, you do not have the benefit of such independent review and investigation. However, certain of the participating brokers-dealers may make their own independent due diligence investigations.

Our dealer manager is currently involved in offerings for other NNN programs. The dealer manager is not prohibited from acting in any capacity in connection with the offer and sale of securities of other NNN programs that may have some or all investment objectives similar to ours.

Affiliated Property Manager

Realty is an indirect wholly owned subsidiary of Grubb & Ellis. Realty performs certain property management services for us and our operating partnership. The property manager is affiliated with our sponsor and Triple Net Properties, which manages our advisor, and in the future there is potential for a number of the members of our sponsor s management team and the property manager to overlap. As a result, we might not always have the benefit of independent property management to the same extent as if our sponsor and the property manager were unaffiliated and did not share any employees or managers. In addition, given that our property manager is affiliated with us, our sponsor and our advisor, any agreements with the property manager will not be at arm s length. As a result, any such agreement will not have the benefit of arm s length negotiations of the type normally conducted between unrelated parties.

Lack of Separate Representation

Alston & Bird LLP is counsel to us, our advisor and certain affiliates in connection with this offering and other matters and may in the future act as counsel to us, our advisor and certain affiliates. There is a possibility that in the future the interests of the various parties may become adverse. In the event that a dispute was to arise between us and our advisor or any of our respective affiliates, we will retain separate counsel for such matters as and when appropriate.

Joint Ventures with Affiliates of Our Advisor

Subject to approval by our board of directors and a separate approval of our independent directors, we may enter into joint ventures or other arrangements with affiliates of our advisor to acquire, develop and/or manage properties. However, we will not participate in tenant in common syndications or transactions. See Investment Objectives, Strategy and Criteria Joint Venture Investments. Our advisor and its affiliates may have conflicts of interest in determining which of such entities should enter into any particular joint venture

agreement. Our joint venture partners may have economic or business interests or goals which are or that may become inconsistent with our business interests or goals. Should any such joint venture be consummated, our advisor may face a conflict in structuring the terms of the relationship between our interests and the interests of the affiliated co-venturer and in managing the joint venture. Since our advisor and its affiliates will make investment decisions on our behalf, agreements and transactions between our advisor s affiliates and any such affiliated joint venture partners will not have the benefit of arm s-length negotiation of the type normally conducted between unrelated parties.

Fees and Other Cash Distributions to Our Advisor and its Affiliates

A transaction involving the purchase and sale of properties may result in the receipt of commissions, fees and other cash distributions to our advisor and its affiliates, including the acquisition fees and the asset management fee under the advisory agreement and the subordinated distribution of net sales proceeds payable to our advisor pursuant to its subordinated participation interest in our operating partnership. Subject to the oversight of our board of directors, our advisor has considerable discretion with respect to all decisions relating to the terms and timing of all transactions. Therefore, our advisor may have conflicts of interest concerning certain actions taken on our behalf, particularly due to the fact that certain fees will generally be payable to our advisor and its affiliates regardless of the quality of the properties acquired or the services provided to us. However, the cash distributions payable to our advisor relating to the sale of our properties are subordinated to the return to the stockholders of their capital contributions plus cumulative returns on such capital.

Each transaction we enter into with our advisor or its affiliates is subject to an inherent conflict of interest. Our board of directors may encounter conflicts of interest in enforcing our rights against any affiliate in the event of a default by or disagreement with an affiliate or in invoking powers, rights or options pursuant to any agreement between us and our advisor or any of its affiliates. A majority of the independent directors who are otherwise disinterested in the transaction must approve each transaction between us and our advisor or any of its affiliates as being fair and reasonable to us and on terms and conditions no less favorable to us than those available from unaffiliated third parties.

Interests in Our Investments

We are permitted to make or acquire investments in which our directors, officers or stockholders, our advisor or any of our or their respective affiliates have direct or indirect pecuniary interests. However, any such transaction in which our advisor, our directors or any of their respective affiliates has any interest would be subject to the limitations described below under the caption Certain Conflict Resolution Restrictions and Procedures.

Certain Conflict Resolution Restrictions and Procedures

In order to reduce or eliminate certain potential conflicts of interest, our charter and the advisory agreement contain restrictions and conflict resolution procedures relating to (1) transactions we enter into with our advisor, our directors or their respective affiliates, (2) certain future offerings and (3) allocation of properties among affiliated entities. Each of the restrictions and procedures that applies to transactions with our advisor and its affiliates will also apply to any transaction with any entity or real estate program advised, managed or controlled by Grubb & Ellis and its affiliates. These restrictions and procedures include, among others, the following:

Except as otherwise described in this prospectus, we will not accept goods or services from our advisor or its affiliates unless a majority of our directors, including a majority of the independent directors, not otherwise interested in the transactions, approve such transactions as fair, competitive and commercially reasonable to us and on terms and conditions not less favorable to us than those available from unaffiliated third parties.

We will not purchase or lease any asset (including any property) in which our advisor, any of our directors or any of their respective affiliates has an interest without a determination by a majority of

Table of Contents

our directors, including a majority of the independent directors, not otherwise interested in such transaction, that such transaction is fair and reasonable to us and at a price to us no greater than the cost of the property to our advisor, such director or directors or any such affiliate, unless there is substantial justification for any amount that exceeds such cost and such excess amount is determined to be reasonable. In no event will we acquire any such asset at an amount in excess of its appraised value. We will not sell or lease assets to our advisor any of our directors or any of their respective affiliates unless a majority of our directors, including a majority of the independent directors, not otherwise interested in the transaction, determine the transaction is fair and reasonable to us, which determination will be supported by an appraisal obtained from a qualified, independent appraiser selected by a majority of our independent directors.

We will not make any loans to our advisor, any of our directors or any of their respective affiliates. In addition, any loans made to us by our advisor, our directors or any of their respective affiliates must be approved by a majority of our directors, including a majority of the independent directors, not otherwise interested in the transaction, as fair, competitive and commercially reasonable, and no less favorable to us than comparable loans between unaffiliated parties.

Our advisor and its affiliates shall be entitled to reimbursement, at cost, for actual expenses incurred by them on our behalf or on behalf of joint ventures in which we are a joint venture partner, subject to the limitation on reimbursement of operating expenses to the extent that they exceed the greater of 2% of our average invested assets or 25% of our net income, as described in Management The Advisory Agreement.

Our advisory agreement provides that if Triple Net Properties identifies an opportunity to make an investment in one or more office buildings or other facilities for which greater than 50% of the gross rentable space is leased to, or reasonably expected to be leased to, one or more medical or healthcare-related tenants, either directly or indirectly through an affiliate or in a joint venture or other co-ownership arrangement, for itself or for any other NNN program, then Triple Net Properties will provide us with the first opportunity to purchase such investment. Triple Net Properties will provide all necessary information related to such investment to our advisor, in order to enable our board of directors to determine whether to proceed with such investment. Our advisor will present the information to our board of directors within three business days of receipt from Triple Net Properties. If our board of directors does not affirmatively authorize our advisor to proceed with the investment on our behalf within seven days of receipt of such information from our advisor, then Triple Net Properties may proceed with the investment opportunity for its own account or offer the investment opportunity to any other person or entity.

(1) Net loss and distributions per share are based upon the weighted-average number of shares of our common stock outstanding. Distributions by us of our current and accumulated earnings and profits for federal income tax purposes are taxable to stockholders as ordinary income. Distributions in excess of these earnings and profits

generally are treated as a non-taxable reduction of the stockholder s basis in the shares to the extent thereof (a return of capital for tax purposes) and, thereafter, as taxable gain. These distributions in excess of earnings and profits will have the effect of deferring taxation of the distributions until the sale of the stockholder s common stock.

(2) One of our objectives is to provide cash distributions to our stockholders from cash generated by our operations. Funds from operations is not equivalent to our net income or loss as determined under accounting principles generally accepted in the United States of America, or GAAP. Due to certain unique operating characteristics of real estate companies, the National Association of Real Estate Investment Trusts, or NAREIT, an industry trade group, has promulgated a measure known as Funds From Operations, or FFO, which it believes more accurately reflects the operating performance of a REIT such as us.

We define FFO, a non-GAAP measure, consistent with the standards established by the White Paper on FFO approved by the Board of Governors of NAREIT, as revised in February 2004. The White Paper defines FFO as net income or loss computed in accordance with GAAP, excluding gains or losses from

Table of Contents

sales of property but including asset impairment writedowns, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. Adjustments for unconsolidated partnerships and joint ventures are calculated to reflect FFO.

We are disclosing FFO and intend to disclose FFO in future filings because we consider FFO to be an appropriate supplemental measure of a REIT s operating performance as it is based on a net income analysis of property portfolio performance that excludes non-cash items such as depreciation. The historical accounting convention used for real estate assets requires straight-line depreciation of buildings and improvements, which implies that the value of real estate assets diminishes predictably over time. Since real estate values historically rise and fall with market conditions, presentations of operating results for a REIT, using historical accounting for depreciation, could be less informative. The use of FFO is recommended by the REIT industry as a supplemental performance measure.

For additional information, see Management s Discussion and Analysis of Financial Condition and Results of Operations Funds from Operations , which includes a reconciliation of our GAAP net income available to stockholders to FFO for the period for the nine months ended September 30, 2007 and from April 28, 2006 (Date of Inception) through December 31, 2006.

MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the consolidated financial statements and information (and notes thereto) as of December 31, 2006 and April 28, 2006 (Date of Inception), together with our results of operations and cash flows for the period from April 28, 2006 (Date of Inception) through December 31, 2006 and the interim unaudited condensed consolidated financial statements and information (and notes thereto) as of September 30, 2007, together with our results of operations for the nine months ended September 30, 2007 and for the period from April 28, 2006 (Date of Inception) through September 30, 2006 and cash flows for the nine months ended September 30, 2007 and for the period from April 28, 2006 (Date of Inception) through September 30, 2006.

Overview and Background

We were formed as a Maryland corporation on April 20, 2006. We were initially capitalized on April 28, 2006, and therefore we consider that the date of our inception. We intend to provide investors the potential for income and growth through investment in a diversified portfolio of real estate properties, focusing primarily on medical office buildings, healthcare-related facilities and quality commercial office properties that produce current income. We may also invest in real estate related securities. We intend to qualify as a REIT for federal income tax purposes for our taxable year ended December 31, 2007.

We are conducting a best efforts initial public offering, our offering, in which we are offering a minimum of 200,000 shares of our common stock aggregating at least $2,000,000, the minimum offering, and a maximum of 200,000,000 shares of our common stock for $10.00 per share and 21,052,632 shares of our common stock pursuant to our distribution reinvestment plan at $9.50 per share, aggregating up to $2,200,000,000, the maximum offering. Shares purchased by our executive officers and directors, by NNN Capital Corp., our dealer manager, by Grubb & Ellis Healthcare REIT Advisor, LLC, our advisor, or by its affiliates did not count towards the minimum offering. On January 8, 2007, excluding shares purchased by our executive officers and directors, our dealer manager and our advisor and its affiliates, we had received and accepted subscriptions in this offering for 200,846 shares of our common stock, or $2,004,000, thereby exceeding the minimum offering. As of December 7, 2007, we had received and accepted subscriptions in this offering for 19,995,950 shares of our common stock, or approximately $199,720,000, excluding shares issued pursuant to our distribution reinvestment plan.

We conduct substantially all of our operations through our operating partnership. We are externally advised by our advisor, pursuant to an advisory agreement between us, our advisor and Triple Net Properties, the managing member of our advisor. The advisory agreement has a one-year term that expires in October 2008, and is subject to successive one-year renewals upon the mutual consent of the parties. Our advisor supervises and manages our day-to-day operations and selects the properties and securities we acquire, subject to oversight by our board of directors. Our advisor also provides marketing, sales and client services on our behalf. Our advisor is affiliated with us in that we and our advisor have common officers, some of whom also own an indirect equity interest in our advisor. Our advisor engages affiliated entities, including Realty, to provide various services to us and our future properties.

On December 7, 2007, NNN Realty Advisors, which previously served as our sponsor, merged with and into a wholly owned subsidiary of Grubb & Ellis. The transaction was structured as a reverse merger whereby stockholders of NNN Realty Advisors received shares of Grubb & Ellis in exchange for their NNN Realty Advisors shares and, immediately following the merger, former NNN Realty Advisor stockholders owned approximately 60.1% of Grubb & Ellis. Additionally, six of the nine post-merger directors of Grubb & Ellis were directors of NNN Realty Advisors prior to

the merger, including the current Grubb & Ellis Chairman of the Board, Anthony W. Thompson. Scott D. Peters, the Chief Executive Officer, President and current Chairman of the Board of NNN Realty Advisors, also now serves as Chief Executive Officer, President and a director of Grubb & Ellis. As a result of the merger, we consider Grubb & Ellis to be our sponsor.

As of December 14, 2007, we had purchased 17 properties comprising approximately 1,902,000 square feet of gross leasable area, or GLA.

Business Strategies

We intend to invest in a diversified portfolio of real estate and real estate related securities, focusing primarily on investments that produce current income. Our real estate investments will focus on medical office buildings, healthcare-related facilities and quality commercial office properties. We may also invest in real estate related securities. However, we do not presently intend to invest more than 15.0% of our total assets in real estate related securities. Our real estate related securities investments will generally focus on common and preferred stock of public or private real estate companies, collateralized mortgage-backed securities, other forms of mortgage debt and certain other securities, including collateralized debt obligations and foreign securities. We will seek to maximize long-term stockholder value by generating sustainable growth in cash flow and portfolio value. In order to achieve these objectives, we may invest using a number of investment structures which may include direct acquisitions, joint ventures, leveraged investments, issuing securities for property and direct and indirect investments in real estate. In order to maintain our exemption from regulation as an investment company under the Investment Company Act, we may be required to limit our investments in real estate related securities.

In addition, when and as determined appropriate by our advisor, the portfolio may also include properties in various stages of development other than those producing current income. These stages would include, without limitation, unimproved land, both with and without entitlements and permits, property to be redeveloped and repositioned, newly constructed properties and properties in lease-up or other stabilization, all of which will have limited or no relevant operating histories and no current income. Our advisor will make this determination based upon a variety of factors, including the available risk adjusted returns for such properties when compared with other available properties, the appropriate diversification of the portfolio, and our objectives of realizing both current income and capital appreciation upon the ultimate sale of properties.

For each of our investments, regardless of property type, our advisor will seek to invest in properties with the following attributes:

Quality. We will seek to acquire properties that are suitable for their intended use with a quality of construction that is capable of sustaining the property s investment potential for the long-term, assuming funding of budgeted maintenance, repairs and capital improvements.

Location. We will seek to acquire properties that are located in established or otherwise appropriate markets for comparable properties, with access and visibility suitable to meet the needs of its occupants.

Market; and Supply and Demand. We will focus on local or regional markets which have potential for stable and growing property level cash flow over the long-term. These determinations will be based in part on an evaluation of local economic, demographic and regulatory factors affecting the property. For instance, we will favor markets that indicate a growing population and employment base or markets that exhibit potential limitations on additions to supply, such as barriers to new construction. Barriers to new construction include lack of available land and stringent zoning restrictions. In addition, we will generally seek to limit our investments in areas that have limited potential for growth.

Predictable Capital Needs. We will seek to acquire properties where the future expected capital needs can be reasonably projected in a manner that would allow us to meet our objectives of growth in cash flow and preservation of capital and stability.

Cash Flow. We will seek to acquire properties where the current and projected cash flow, including the potential for appreciation in value, would allow us to meet our overall investment objectives. We will evaluate cash flow as well as expected growth and the potential for appreciation.

We will not invest more than 10.0% of the offering proceeds available for investment in unimproved or non-income producing properties or in other investments relating to unimproved or non-income producing property. A property: (1) not acquired for the purpose of producing rental or other operating income; or (2) with no development or construction in process or planned in good faith to commence within one year will be considered unimproved or non-income producing property for purposes of this limitation.

Table of Contents

We are not limited as to the geographic area where we may acquire properties. We are not specifically limited in the number or size of properties we may acquire or on the percentage of our assets that we may invest in a single property or investment. The number and mix of properties we acquire will depend upon real estate and market conditions and other circumstances existing at the time we are acquiring our properties and making our investments and the amount of proceeds we raise in this and potential future offerings.

Critical Accounting Policies

We believe that our critical accounting policies are those that require significant judgments and estimates such as those related to revenue recognition, allowance for uncollectible accounts, capitalization of expenditures,

depreciation of assets, impairment of real estate, properties held for sale, purchase price allocation, and qualification as a REIT. These estimates are made and evaluated on an on-going basis using information that is currently available as well as various other assumptions believed to be reasonable under the circumstances.

Use of Estimates

The preparation of financial statements in accordance with GAAP requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. Actual results could differ from those estimates, perhaps in material adverse ways, and those estimates could be different under different assumptions or conditions.

Revenue Recognition, Tenant Receivables and Allowance for Uncollectible Accounts

In accordance with Statement of Financial Accounting Standards, or SFAS, No. 13, *Accounting for Leases*, as amended and interpreted, we will recognize base rental income on a straight-line basis over the terms of the respective lease agreements (including rent holidays). Differences between rental income recognized and amounts contractually due under the lease agreements will be credited or charged, as applicable, to rent receivable. Tenant reimbursement revenue, which is comprised of additional amounts recoverable from tenants for common area maintenance expenses and certain other recoverable expenses, will be recognized as revenue in the period in which the related expenses are incurred.

Tenant receivables and unbilled deferred rent receivables will be carried net of the allowances for uncollectible tenant receivables and unbilled deferred rent. An allowance will be maintained for estimated losses resulting from the inability of certain tenants to meet their contractual obligations under their lease agreements. We also will maintain an allowance for deferred rent receivables arising from the straight-lining of rents. We will determine the adequacy of this allowance by continually evaluating individual tenant receivables considering the tenant s financial condition, security deposits, letters of credit, lease guarantees, if applicable, and current economic conditions.

Capitalization of Expenditures and Depreciation of Assets

The cost of operating properties will include the cost of land and completed buildings and related improvements. Expenditures that increase the service life of properties will be capitalized; the cost of maintenance and repairs will be charged to expense as incurred. The cost of building and improvements will be depreciated on a straight-line basis over the estimated useful lives of the buildings and improvements, ranging primarily from 15 to 39 years and the shorter of the lease term or useful life, ranging from one to 10 years for tenant improvements. Furniture, fixtures and equipment will be depreciated over five years. When depreciable property will be retired or disposed of, the related costs and accumulated depreciation will be removed from the accounts and any gain or loss reflected in operations.

Impairment

Our properties will be carried at the lower of historical cost less accumulated depreciation or fair value. We will assess the impairment of a real estate asset when events or changes in circumstances indicate that the net book value may not be recoverable. Indicators we consider important and that we believe could trigger an impairment review include the following:

significant negative industry or economic trends;

a significant underperformance relative to historical or projected future operating results; and

a significant change in the manner in which the asset is used.

In the event that the carrying amount of a property exceeds the sum of the undiscounted cash flows (excluding interest) that would be expected to result from the use and eventual disposition of the property, we would recognize an impairment loss to the extent the carrying amount exceeds the estimated fair value of the property. The estimation of expected future net cash flows will be inherently uncertain and will rely on subjective assumptions dependent upon future and current market conditions and events that affect the ultimate

value of the property. It will require us to make assumptions related to future rental rates, tenant allowances, operating expenditures, property taxes, capital improvements, occupancy levels, and the estimated proceeds generated from the future sale of the property.

Properties Held for Sale

We will account for our properties held for sale in accordance with SFAS No. 144, *Accounting for the Impairment or Disposal of Long Lived Assets,* or SFAS No. 144, which addresses financial accounting and reporting for the impairment or disposal of long-lived assets and requires that, in a period in which a component of an entity either has been disposed of or is classified as held for sale, the income statements for current and prior periods shall report the results of operations of the component as discontinued operations.

In accordance with SFAS No. 144, at such time as a property is held for sale, such property will be carried at the lower of (1) its carrying amount or (2) fair value less costs to sell. In addition, a property being held for sale ceases to be depreciated. We will classify operating properties as property held for sale in the period in which all of the following criteria are met:

management, having the authority to approve the action, commits to a plan to sell the asset;

the asset is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such assets;

an active program to locate a buyer and other actions required to complete the plan to sell the asset has been initiated;

the sale of the asset is probable and the transfer of the asset is expected to qualify for recognition as a completed sale within one year;

the asset is being actively marketed for sale at a price that is reasonable in relation to its current fair value; and

given the actions required to complete the plan to sell the asset, it is unlikely that significant changes to the plan would be made or that the plan would be withdrawn.

Purchase Price Allocation

In accordance with SFAS No. 141, *Business Combinations*, we, with assistance from independent valuation specialists, will allocate the purchase price of acquired properties to tangible and identified intangible assets based on their respective fair values. The allocation to tangible assets (building and land) will be based upon our determination of the value of the property as if it were vacant using discounted cash flow models similar to those used by independent appraisers. Factors considered by us will include an estimate of carrying costs during the expected lease-up periods considering current market conditions and costs to execute similar leases. Additionally, the purchase price of the applicable property will be allocated to the above or below market value of in-place leases and the value of in-place leases and related tenant relationships.

The value allocable to the above or below market component of the acquired in-place leases will be determined based upon the present value (using a discount rate which reflects the risks associated with the acquired leases) of the difference between (1) the contractual amounts to be paid pursuant to the lease over its remaining term and (2) management s estimate of the amounts that would be paid using fair market rates over the remaining term of the lease. The amounts allocated to above market leases will be included in the intangible assets and below market lease

values will be included in intangible liabilities in our consolidated financial statements and will be amortized to rental income over the weighted average remaining term of the acquired leases with each property.

The total amount of other intangible assets acquired will be further allocated to in-place lease costs and the value of tenant relationships based on management s evaluation of the specific characteristics of each tenant s lease and our overall relationship with that respective tenant. Characteristics considered by management in allocating these values will include the nature and extent of the credit quality and expectations of lease renewals, among other factors.

These allocations will be subject to change based on continuing valuation analysis, or other evidence, until the allocations are finalized or the stipulated time of one year from the date of acquisition.

Qualification as a REIT

For our taxable year ended December 31, 2007, we intend to elect to be taxed as a REIT under Section 856 through 860 of the Internal Revenue Code and, upon the election being made, we will be taxed as such beginning with our taxable year ended December 31, 2007. Because of our intention to elect REIT status in 2007, we will not benefit from the loss incurred in the year ended December 31, 2006. To qualify as a REIT, we must meet certain organizational and operational requirements, including a requirement to currently distribute at least 90.0% of our REIT taxable income to stockholders. As a REIT, we generally will not be subject to federal income tax on taxable income that we distribute to our stockholders. If we fail to qualify as a REIT in any taxable year, we will then be subject to federal income taxes on our taxable income at regular corporate rates starting with that year and will not be permitted to qualify for treatment as a REIT for federal income tax purposes for four years following the year during which qualification is lost unless the Internal Revenue Service were to grant us relief under certain statutory provisions. Such an event could have a material adverse effect on our net income and net cash available for distribution to stockholders. However, we believe that we will be organized and will operate in such a manner as to qualify for treatment as a REIT for federal income tax purposes.

Factors Which May Influence Results of Operations

Rental Income

The amount of rental income generated by our properties depends principally on our ability to maintain the occupancy rates of currently leased space, to lease currently available space and lease space available from unscheduled lease terminations at the existing rental rates. Negative trends in one or more of these factors could adversely affect our rental income in future periods.

Scheduled Lease Expirations

As of September 30, 2007, our consolidated properties were 91.5% leased. 1.8% of the leased GLA expires during the remainder of 2007. Our leasing strategy for 2007 focuses on negotiating renewals for leases scheduled to expire during the remainder of the year. If we are unable to negotiate such renewals, we will try to identify new tenants or collaborate with existing tenants who are seeking additional space to occupy. Of the leases expiring in 2007, we anticipate, but cannot assure, that all of the tenants will renew for another term.

Sarbanes-Oxley Act

The Sarbanes-Oxley Act of 2002, as amended, or the Sarbanes-Oxley Act, and related laws, regulations and standards relating to corporate governance and disclosure requirements applicable to public companies, have increased the costs of compliance with corporate governance, reporting and disclosure practices which are now required of us. These costs may have a material impact on our results of operations and could impact our ability to pay distributions to our stockholders. Furthermore, we expect that these costs will increase in the future due to our continuing implementation of compliance programs mandated by these requirements. Any increased costs may affect our ability to distribute funds to our stockholders.

In addition, these laws, rules and regulations create new legal bases for potential administrative enforcement, civil and criminal proceedings against us in case of non-compliance, thereby increasing the risks of liability and potential sanctions against us. We expect that our efforts to comply with these laws and regulations will continue to involve

significant, and potentially increasing costs and our failure to comply, could result in fees, fines, penalties or administrative remedies against us.

The increases were primarily related to two full quarters of rental income at the Southpointe property, the Crawfordsville property, the Gallery property and the Lenox property. Also, the increase was related to a full quarter of rental income at the Commons V property, the Peachtree property, the Thunderbird property and the Triumph Hospital Portfolio. In addition to the increase, we received rental income from the Gwinnett property for 66 days, the 1 and 4 Market property for 47 days, the Kokomo property for 32 days, the St. Mary property for 26 days, the 2750 Monroe property for 21 days and the EFSC property for three days.

In addition to the increase, rental expense was comprised of the Gwinnett property for 66 days, the 1 and 4 Market property for 47 days, the Kokomo property for 32 days, the St. Mary property for 26 days, the 2750 Monroe property for 21 days and the EFSC property for three days.

of $2,312,000 and $0, respectively, and amortization of identified intangible assets of $2,937,000 and $0, respectively. The increase from prior quarter is due to the increase in the number of properties owned by us.

Interest Expense

For the nine months ended September 30, 2007 and for the period from April 28 (Date of Inception) through September 30, 2006, interest expense was related to interest expense primarily on our mortgage loan

payables and line of credit of $2,164,000 and $0, respectively, interest expense on the unsecured note payables to NNN Realty Advisors of $84,000, and $0, respectively, and amortization of loan fees associated with acquiring the mortgage loan payables of $54,000 and $0, respectively, that are being amortized to interest expense over the terms of the related mortgage note payables.

For the Period from April 28, 2006 (Date of Inception) through December 31, 2006

As of December 31, 2006, we had not raised the minimum offering nor had we acquired any real estate properties or real estate related investments. We are not aware of any material trends or uncertainties, other than national economic conditions affecting real estate generally, that may reasonably be expected to have a material impact, favorable or unfavorable, on revenues or income from the acquisition, management and operation of properties other than those listed in Risk Factors.

If we fail to raise significant proceeds above our minimum offering, we will not have enough proceeds to invest in a diversified real estate portfolio. Our real estate portfolio would be concentrated in a small number of properties, resulting in increased exposure to local and regional economic downturns and the poor performance of one or more of our properties and, therefore, expose our stockholders to increased risk. In addition, many of our expenses are fixed regardless of the size of our real estate portfolio. Therefore, depending on the amount of offering proceeds we raise, we would expend a larger portion of our income on operating expenses. This would reduce our profitability and, in turn, the amount of net income available for distribution to our stockholders.

For the period from April 28, 2006 (Date of Inception) through December 31, 2006, we had a net loss of approximately $242,000, or $149.03 per share due to general and administrative expenses related to directors and officers insurance premiums of $68,000, directors fees of $55,000, restricted stock compensation of $51,000 and professional and legal fees of $68,000. We expect general and administrative expenses to increase in the future based on a full year of operations as well as increased activity as we make real estate investments. Our results of operations are not indicative of those expected in future periods.

Our organizational, offering and related expenses are initially being paid by our advisor, our dealer manager and their affiliates on our behalf. These organizational, offering and related expenses include all expenses (other than selling commissions and the marketing support fee) to be paid by us in connection with this offering. As of December 31, 2006, our advisor or its affiliates have incurred $1,093,000. These expenses will only become our liability to the extent selling commissions, the marketing support fee and due diligence expense reimbursement and other organizational and offering expenses do not exceed 11.5% of the gross proceeds of this offering. We have no obligation to reimburse our advisor, our dealer manager or their affiliates for any organizational, offering and related expenses unless we raise the minimum offering. As such, these expenses are not recorded in our accompanying consolidated financial statements because we had not raised the minimum offering as of December 31, 2006. When recorded by us, such expenses will be charged to stockholders equity as such amounts are paid from the gross proceeds of this offering. See Note 4, Related Party Transactions Offering Stage to our accompanying consolidated financial statements for a further discussion of expenses during our offering stage.

Liquidity and Capital Resources

We are dependent upon the net proceeds to be received from our offering to conduct our proposed activities. The capital required to purchase real estate and real estate related securities will be obtained from our offering and from any indebtedness that we may incur.

Our principal demands for funds will be for acquisitions of real estate and real estate related securities, to pay operating expenses and interest on our outstanding indebtedness and to make distributions to our stockholders. In

addition, we will require resources to make certain payments to our advisor and our dealer manager, which during our offering include payments to our advisor and its affiliates for reimbursement of certain organizational and offering expenses and to our dealer manager and its affiliates for selling commissions, non-accountable marketing support fees and due diligence expense reimbursements.

Generally, cash needs for items other than acquisitions of real estate and real estate related securities will be met from operations, future borrowings, and the net proceeds of our offering. However, there may be a delay between the sale of shares of our common stock and our investments in properties and real estate related securities, which could result in a delay in the benefits to our stockholders, if any, of returns generated from our investment operations. We believe that these cash resources will be sufficient to satisfy our cash requirements for the foreseeable future, and we do not anticipate a need to raise funds from other than these sources within the next 12 months.

We currently anticipate that we will require up to $5,331,000 for the next 12 months for capital expenditures. We have reserves with lenders for such capital expenditures of $2,839,000 as of September 30, 2007. To the extent we purchase additional properties in the future, we may require funds for capital expenditures. To the extent funds from operations are not sufficient to fund these expenditures, we would be required to borrow amounts.

Our advisor evaluates potential additional investments and engages in negotiations with real estate sellers, developers, brokers, investment managers, lenders and others on our behalf. Until we invest the proceeds of our offering in properties and real estate related securities, we may invest in short-term, highly liquid or other authorized investments. Such short-term investments will not earn significant returns, and we cannot predict how long it will take to fully invest the proceeds in properties and real estate related securities. The number of properties we may acquire and other investments we will make will depend upon the number of shares sold in our offering and the resulting amount of net proceeds available for investment.

When we acquire a property, our advisor prepares a capital plan that contemplates the estimated capital needs of that investment. In addition to operating expenses, capital needs may also include costs of refurbishment, tenant improvements or other major capital expenditures. The capital plan also sets forth the anticipated sources of the necessary capital, which may include a line of credit or other loans established with respect to the investment, operating cash generated by the investment, additional equity investments from us or joint venture partners or, when necessary, capital reserves. Any capital reserve would be established from the gross proceeds of our offering, proceeds from sales of other investments, operating cash generated by other investments or other cash on hand. In some cases, a lender may require us to establish capital reserves for a particular investment. The capital plan for each investment will be adjusted through ongoing, regular reviews of our portfolio or as necessary to respond to unanticipated additional capital needs.

Cash Flows

Cash flows from operating activities for the nine months ended September 30, 2007 and for the period from April 28, 2006 (Date of Inception) through September 30, 2006, were $2,963,000 and $0, respectively. Such cash flows related primarily to operations from the properties. We anticipate cash flows from operating activities to continue to increase as we purchase more properties and have a full year of operations.

Cash flows used in investing activities for the nine months ended September 30, 2007 and for the period from April 28, 2006 (Date of Inception) through September 30, 2006 were $258,510,000 and $0, respectively. For the nine months ended September 30, 2007, such cash flows related primarily to the acquisition of our 14 properties in the amount of $253,574,000. We anticipate cash flows used in investing activities to continue to increase as we purchase more properties.

Cash flows from financing activities for the nine months ended September 30, 2007 and for the period from April 28, 2006 (Date of Inception) through September 30, 2006, were $259,857,000 and $202,000, respectively. For the nine months ended September 30, 2007, such cash flows related primarily to funds raised from investors in the amount of $157,281,000, borrowings on mortgage loan payables and unsecured note payables to affiliates of $106,210,000 and net borrowings under our secured line of credit with LaSalle of $35,700,000 partially offset by principal repayments

of $19,921,000 on unsecured loans, offering costs of $16,130,000 and distributions of $1,638,000. Additional cash outflows related to debt financing costs of $1,668,000 in relation to the acquisitions. In 2006, such cash flows related to $2,000 from the sale of 200 shares of our common stock to our advisor and $200,000 invested in our operating partnership from our advisor.

Distributions

The amount of the distributions to our stockholders will be determined by our board of directors and are dependent on a number of factors, including funds available for payment of distributions, our financial condition, capital expenditure requirements and annual distribution requirements needed to maintain our status as a REIT under Sections 856 through 860 of the Internal Revenue Code.

We paid our first monthly distribution on February 15, 2007 for the period ended January 31, 2007.

On February 14, 2007, our board of directors approved a 7.25% per annum distribution to be paid to stockholders beginning with our February 2007 monthly distribution, which was paid in March 2007. Distributions are paid monthly.

If distributions are in excess of our taxable income, such distributions will result in a return of capital to our stockholders.

For the nine months ended September 30, 2007, we paid distributions of $1,638,000 from cash flow from operations of $2,963,000 for the period. However, as of September 30, 2007, we owed $632,000 to our advisor and its affiliates for operating expenses, on-site personnel and engineering payroll and asset and property management fees, which will be paid from cash flow from operations in the future.

Our advisor and its affiliates have no obligations to defer or forgive amounts due to them. As of September 30, 2007, no amounts due to our advisor or its affiliates have been forgiven. In the future, if our advisor or its affiliates do not defer or forgive amounts due to them and as a result if our cash flow from operations is less than the distributions to be paid, we would be required to pay our distributions, or a portion thereof, with proceeds from our offering or borrowed funds. As a result, the amount of proceeds available for investment and operations would be reduced, or we may incur additional interest expense as a result of borrowed funds.

For the nine months ended September 30, 2007, our funds from operations, or FFO, was $1,583,000. We paid distributions of $1,638,000, of which $1,583,000 was paid from FFO and the remainder from proceeds from our offering. See our disclosure regarding FFO below.

We paid no distributions during 2006.

Capital Resources

Financing

We anticipate that aggregate borrowings, both secured and unsecured, will not exceed 60.0% of all of our properties combined fair market values, as determined at the end of each calendar year beginning with our first full year of operations. For these purposes, the fair market value of each asset will be equal to the purchase price paid for the asset or, if the asset was appraised subsequent to the date of purchase, then the fair market value will be equal to the value reported in the most recent independent appraisal of the asset. Our policies do not limit the amount we may borrow with respect to any individual investment.

Our charter precludes us from borrowing in excess of 300.0% of the value of our net assets, unless approved by our independent directors and the justification for such excess borrowing is disclosed to our stockholders in our next quarterly report. In accordance with our charter, a majority of our directors, including a majority of our independent directors, approved our leverage exceeding 300.0% in connection with our first four acquisitions. The board of

directors determined that the excess leverage was justified because it enabled us to purchase the properties during the initial stages of our offering, thereby improving our ability to meet our goal of acquiring a diversified portfolio of properties to generate current income for investors and preserve investor capital. As of December 14, 2007, our leverage does not exceed 300.0%. We may, with a majority of our independent directors authority, exceed our charter s leverage guidelines during the early stages of our operations. We will take action to reduce any such excess as soon as practicable. Net assets for purposes of this calculation are defined as our total assets (other than intangibles), valued at cost prior to deducting depreciation, reserves for bad debts and other non-cash reserves, less total liabilities.

Unsecured Note Payables to Affiliate

On January 22, 2007 and March 9, 2007, we entered into unsecured loans with NNN Realty Advisors, evidenced by unsecured promissory notes in the principal amounts of $7,500,000 and $1,000,000, respectively. The unsecured notes provided for maturity dates of July 22, 2007 and September 9, 2007, respectively. The $7,500,000 and $1,000,000 unsecured notes bore interest at a fixed rate of 6.86% and 6.84% per annum, respectively, and required monthly interest-only payments for the terms of the unsecured notes. The unsecured

notes provided for default interest rates in an event of default equal to 8.86% and 8.84% per annum, respectively. On March 28, 2007, we repaid all outstanding principal and accrued interest on both unsecured notes.

On June 8, 2007, we entered into an unsecured loan with NNN Realty Advisors, evidenced by an unsecured promissory note in the principal amount of $4,000,000. The unsecured note provided for a maturity date of December 8, 2007. The $4,000,000 unsecured note bore interest at a fixed rate of 6.82% per annum and required monthly interest-only payments for the term of the unsecured note. The unsecured note provided for a default interest rate in an event of default equal to 8.82% per annum. On June 28, 2007, we repaid all outstanding principal and accrued interest on the unsecured note.

On August 30, 2007 and September 5, 2007, we entered into unsecured loans with NNN Realty Advisors, evidenced by unsecured promissory notes in the principal amounts of $1,300,000 and $6,100,000, respectively. The unsecured notes provided for maturity dates of March 1, 2008 and March 5, 2008, respectively. The $1,300,000 and $6,100,000 unsecured notes bore interest at a fixed rate of 6.85% and 6.86% per annum, respectively, and required monthly interest-only payments for the terms of the unsecured notes. The unsecured notes provided for default interest rates in an event of default equal to 8.85% and 8.86% per annum, respectively. On September 4, 2007 and September 11, 2007, we repaid all outstanding principal and accrued interest on both the $1,300,000 and $6,100,000 unsecured notes, respectively.

Because these loans were related party loans, the terms of the loans and the unsecured notes were approved by our board of directors, including a majority of our independent directors, and deemed fair, competitive and commercially reasonable by our board of directors.

Line of Credit

On September 10, 2007, we entered into a loan agreement, or the loan agreement, with LaSalle Bank N.A. to obtain a secured revolving credit facility in the initial aggregate maximum principal amount of $50,000,000, or the secured revolving line of credit with LaSalle. The proceeds of loans made under the loan agreement may be used to finance the purchase of properties or, provided no event of default has occurred and is continuing, may be used for any other lawful purpose. In addition to loans, our operating partnership may obtain up to $10,000,000 of the credit available under the loan agreement in the form of letters of credit. The initial term of the loan agreement is three years, which may be extended by one 12-month period subject to satisfaction of certain conditions, including payment of an extension fee equal to 0.20% of the principal balance of loans then outstanding.

The actual amount of credit available under the loan agreement is a function of certain loan to cost, loan to value and debt service coverage ratios contained in the loan agreement. The maximum principal amount of the loan agreement may be increased to $120,000,000 subject to the terms of the loan agreement. Also, additional financial institutions may become lenders under the loan agreement.

On December 12, 2007 we entered into a modification of loan agreement, or the modification, to increase the aggregate maximum principal amount of the secured revolving line of credit with LaSalle to $80,000,000 and to revise the definition of applicable margin under the loan agreement. On December 12, 2007, KeyBank joined the group of lenders under the loan agreement.

At our option, loans under the loan agreement bear interest at per annum rates equal to (a) LIBOR plus a margin of 1.50%, (b) the greater of LaSalle s prime rate or the Federal Funds Rate plus 0.50%, or (c) a combination of these rates. Accrued interest under the loan agreement is payable monthly and at maturity. In addition to interest, we are required to pay a fee on the unused portion of the lenders commitments under the loan agreement at a per annum rate equal to 0.20%, payable quarterly in arrears, beginning with the quarter ending December 31, 2007.

Our obligations with respect to the loan agreement are guaranteed by us and by our subsidiaries that own properties that serve as collateral for the loan agreement.

The loan agreement contains various affirmative and negative covenants that are customary for facilities and transactions of this type, including limitations on the incurrence of debt by us and our subsidiaries that own properties that serve as collateral for the loan agreement, limitations on the nature of our business, and limitations on distributions by us and our subsidiaries that own properties that serve as collateral for the loan agreement. The loan agreement also imposes the following financial covenants on us and our operating partnership, as applicable: (a) a minimum ratio of operating cash flow to interest expense, (b) a minimum ratio of operating cash flow to fixed charges, (c) a maximum ratio of liabilities to asset value, (d) a maximum distribution covenant and (e) a minimum net worth covenant, all of which are defined in the loan agreement. In addition, the loan agreement includes events of default that are customary for facilities and transactions of this type.

As of September 30, 2007 and December 31, 2006, borrowings under the secured revolving line of credit with LaSalle totaled $35,700,000 and $0, respectively. Borrowings as of September 30, 2007 bore interest at a weighted-average interest rate of 7.08% per annum.

REIT Requirements

In order to qualify as a REIT for federal income tax purposes, we are required to make distributions to our stockholders of at least 90.0% of REIT taxable income. In the event that there is a shortfall in net cash available due to factors including, without limitation, the timing of such distributions or the timing of the collections of receivables, we may seek to obtain capital to pay distributions by means of debt financing through one or more third parties. We may also pay distributions from cash from capital transactions including, without limitation, the sale of one or more of our properties.

Commitments and Contingencies

Our organizational, offering and related expenses are being paid by our advisor and their affiliates on our behalf. These organizational, offering and related expenses include all expenses (other than selling commissions and the marketing support fee which generally represent 7.0% and 2.5% of our gross offering proceeds, respectively) to be paid by us in connection with our offering. These expenses will only become our liability to the extent selling commissions, the marketing support fee and due diligence expense reimbursement and other organizational and offering expenses do not exceed 11.5% of the gross proceeds of our offering. As of September 30, 2007 and December 31, 2006, our advisor or its affiliates have incurred expenses of $990,000 and $1,728,000, respectively, in excess of 11.5% of the gross proceeds of our offering, and therefore these expenses are not recorded in our accompanying condensed consolidated financial statements as of September 30, 2007 and December 31, 2006. To the extent we raise additional proceeds from our offering, these amounts may become our liability.

Debt Service Requirements

One of our principal liquidity needs is the payment of interest on outstanding indebtedness. As of September 30, 2007, we had fixed and variable mortgage loan payables and the secured revolving line of credit with LaSalle outstanding secured by our properties, in the principal amount of $159,133,000 ($159,031,000, net of discount). As of September 30, 2007, the weighted-average interest rate on our outstanding debt was 6.77% per annum.

Off-Balance Sheet Arrangements

As of September 30, 2007, we had no off-balance sheet transactions, nor do we currently have any such arrangements or obligations.

Inflation

We will be exposed to inflation risk as income from future long-term leases is expected to be the primary source of our cash flows from operations. We expect that there will be provisions in the majority of our tenant leases that would protect us from the impact of inflation. These provisions include rent steps, reimbursement billings for operating expense pass-through charges, real estate tax and insurance reimbursements on a per square foot allowance. However, due to the anticipated long-term nature of the leases, among other factors, the leases may not re-set frequently enough to cover inflation.

Funds from Operations

One of our objectives is to provide cash distributions to our stockholders from cash generated by our operations. FFO is not equivalent to our net income or loss as determined under GAAP. Due to certain unique operating characteristics

of real estate companies, the National Association of Real Estate Investment Trusts, or NAREIT, an industry trade group, has promulgated a measure known as FFO which it believes more accurately reflects the operating performance of a REIT such as us.

We define FFO, a non-GAAP measure, consistent with the standards established by the White Paper on FFO approved by the Board of Governors of NAREIT, as revised in February 2004. The White Paper defines FFO as net income or loss computed in accordance with GAAP, excluding gains or losses from sales of property but including asset impairment writedowns, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. Adjustments for unconsolidated partnerships and joint ventures are calculated to reflect FFO.

We are disclosing FFO and intend to disclose FFO in future filings because we consider FFO to be an appropriate supplemental measure of a REIT s operating performance as it is based on a net income analysis of property portfolio performance that excludes non-cash items such as depreciation. The historical accounting convention used for real estate assets requires straight-line depreciation of buildings and improvements, which implies that the value of real estate assets diminishes predictably over time. Since real estate values historically

rise and fall with market conditions, presentations of operating results for a REIT, using historical accounting for depreciation, could be less informative. The use of FFO is recommended by the REIT industry as a supplemental performance measure.

Presentation of this information is intended to assist the reader in comparing the operating performance of different REITs, although it should be noted that not all REITs calculate FFO the same way, so comparisons with other REITs may not be meaningful. Furthermore, FFO is not necessarily indicative of cash flow available to fund cash needs and should not be considered as an alternative to net income as an indication of our performance. Our FFO reporting complies with NAREIT s policy described above.

The following is the calculation of FFO for the three months ended September 30, 2007 and 2006, for the nine months ended September 30, 2007 and for the period from April 28, 2006 (Date of Inception) through September 30, 2006:

The Chesterfield property is 100.0% leased to St. John s Mercy Rehabilitation, LLC and operates as St. John s Mercy Rehabilitation Hospital. In the proposed transaction, Duke will contribute the Chesterfield property, valued at approximately $36,500,000, to the joint venture, and we will contribute approximately $11,700,000, which we expect to fund through a combination of debt and equity financing. In addition, the joint venture is expected to obtain debt financing of approximately $22,000,000. As a result of these contributions, we will receive an 80.0% interest in the joint venture, and Duke will receive a 20.0% interest in the joint venture as well as a distribution of approximately $33,500,000 in cash. We anticipate that the closing will occur in December of 2007; however, closing is subject to certain agreed upon conditions and there can be no assurance that we will be able to complete the acquisition of the Chesterfield property.

Financing/Interest Rate Swaps

On October 12, 2007, we executed an interest rate swap agreement with Wachovia in connection with the $14,500,000 secured loan on the 1 and 4 Market Exchange property, or the Market Exchange loan. Pursuant to the terms of the original promissory note, the Market Exchange loan bears interest, at our option, at a per annum rate equal to either:

(a) 30-day LIBOR plus 1.35%; or (b) the Prime Rate, as announced by Wachovia Financial from time to time. As a result of the interest rate swap agreement, the Market Exchange loan bears interest at an effective fixed rate of 5.97% per annum from September 28, 2007 through September 28, 2010;

and provides for monthly interest-only payments due on the first day of each calendar month commencing on November 1, 2007.

On October 19, 2007, we executed an interest rate swap agreement with KeyBank in connection with the $30,500,000 secured loan on the EFSC property, or the EFSC loan. Pursuant to the terms of the original promissory note, the EFSC loan bears interest, at our option, at a per annum rate equal to either: (a) a rate equal to the greater of: (1) the prime rate, as established from time to time by KeyBank, or (2) 1.0% in excess of the federal funds effective rate, as defined in the loan agreement; or (b) the Adjusted LIBOR Rate, as defined in the loan agreement. As a result of the interest rate swap agreement, the EFSC loan bears interest at an effective fixed rate of 6.01% per annum from November 1, 2007 through October 1, 2010; and provides for monthly principal and interest payments due on the tenth day of each calendar month commencing on November 10, 2007.

On October 22, 2007, we met the requirements of the EFSC loan and received the $4,500,000 loan holdback held in escrow from KeyBank pursuant to the loan agreement.

On December 5, 2007, we entered into a secured loan, or the Kokomo loan, with Wachovia Financial. The secured loan is evidenced by a loan agreement, or the Kokomo loan agreement, and a promissory note in the principal amount of $8,300,000, or the Kokomo note. The cash proceeds, net of closing costs, of approximately $8,249,000, were used to reimburse funds that we originally used to finance the acquisition of the Kokomo property, which we acquired on August 30, 2007. The Kokomo note is secured by a Mortgage, Assignment, Security Agreement and Fixture Filing, on the Kokomo property, and a Repayment Guaranty. The Kokomo loan provides for monthly interest-only payments due on the first business day of each calendar month. At our option, the Kokomo loan bears interest at per annum rates equal to: (a) 30-day LIBOR plus 1.40%; or (b) the Prime Rate, as announced by Wachovia Financial from time to time. If any monthly installment that is due is not received by Wachovia Financial on or before the 15th day of each month, the loan provides for a late charge equal to 4.0% of such monthly installment.

On December 5, 2007, we entered into an interest rate swap agreement with Wachovia in connection with the $8,300,000 Kokomo loan, with Wachovia Financial. Pursuant to the terms of the promissory note in favor of Wachovia Financial, the Kokomo loan bears interest, at our option, at a per annum rate equal to either: (a) 30-day LIBOR plus 1.40%; or (b) the Prime Rate, as announced by Wachovia Financial from time to time. As a result of the interest rate swap agreement, the Kokomo loan bears interest at a fixed rate of 5.86% per annum from December 5, 2007 through November 30, 2010; and provides for monthly interest-only payments due on the first day of each calendar month commencing on January 2, 2008.

On December 12, 2007 we entered into a modification of loan agreement, or the modification, to increase the aggregate maximum principal amount of the secured revolving line of credit with LaSalle to $80,000,000 and to revise the definition of applicable margin under the loan agreement. On December 12, 2007, KeyBank joined the group of lenders under the loan agreement. As of December 14, 2007, we have $37,600,000 in borrowings outstanding on the secured revolving line of credit.

Recently Issued Accounting Pronouncements

In July 2006, the Financial Accounting Standards Board, or the FASB, issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes*, or FIN No. 48. This interpretation, among other things, creates a two step approach for evaluating uncertain tax positions. Recognition (step one) occurs when an enterprise concludes that a tax position, based solely on its technical merits, is more-likely-than-not to be sustained upon examination. Measurement (step two) determines the amount of benefit that more-likely-than-not will be realized upon settlement. Derecognition of a tax position that was previously recognized would occur when a company subsequently determines that a tax position no longer meets the more-likely-than-not threshold of being sustained. FIN No. 48 specifically prohibits the use of a

valuation allowance as a substitute for derecognition of tax positions, and it has expanded disclosure requirements. FIN No. 48 is effective for fiscal years beginning after December 15, 2006, in which the impact of adoption should be accounted for as a cumulative-effect adjustment to the beginning balance of retained earnings in the year of adoption. The

adoption of FIN No. 48 as of the beginning of the first quarter of 2007 did not have a material impact on our consolidated financial statements.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurement*, or SFAS No. 157. SFAS No. 157 defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and expands disclosures about fair value measurements. The provisions of SFAS No. 157 are effective for fiscal years beginning after November 15, 2007. We will adopt SFAS No. 157 on January 1, 2008. We are evaluating SFAS No. 157 and have not yet determined the impact the adoption, if any, will have on our consolidated financial statements.

In September 2006, the SEC released Staff Accounting Bulletin, or SAB, No. 108, *Considering the Effects of Prior Year Misstatements When Quantifying Current Year Misstatements*, or SAB No. 108, to address diversity in practice regarding consideration of the effects of prior year errors when quantifying misstatements in current year financial statements. The SEC staff concluded that registrants should quantify financial statement errors using both a balance sheet approach and an income statement approach and evaluate whether either approach results in quantifying a misstatement that, when all relevant quantitative and qualitative factors are considered, is material.
SAB No. 108 states that if correcting an error in the current year materially affects the current year s income statement, the prior period financial statements must be restated. SAB No. 108 is effective for fiscal years ending after November 15, 2006. The adoption of SAB No. 108 in the fourth quarter of 2006 did not have a material impact on our consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*, or SFAS No. 159. SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value. The objective of the guidance is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. SFAS No. 159 is effective as of the beginning of the first fiscal year that begins after November 15, 2007. Early adoption is permitted as of the beginning of the fiscal year beginning on or before November 15, 2007, provided the provisions of SFAS No. 157 are applied. We will adopt SFAS No. 159 on January 1, 2008. We are evaluating SFAS No. 159 and have not yet determined the impact the adoption, if any, will have on our consolidated financial statements.

Quantitative and Qualitative Disclosures About Market Risk

As of December 31, 2006, we had not commenced real estate operations and therefore had limited exposure to financial market risks. During the nine months ended September 30, 2007, we assumed or entered into fixed and variable rate mortgage loan payables and a secured line of credit secured by our 14 properties.

Market risk includes risks that arise from changes in interest rates, foreign currency exchange rates, commodity prices, equity prices and other market changes that affect market sensitive instruments. In pursuing our business plan, we expect that the primary market risk to which we will be exposed is interest rate risk.

We may be exposed to the effects of interest rate changes primarily as a result of borrowings used to maintain liquidity and fund expansion and refinancing of our real estate investment portfolio and operations. Our interest rate risk management objectives are to limit the impact of interest rate changes on earnings, prepayment penalties and cash flows and to lower overall borrowing costs while taking into account variable interest rate risk. To achieve our objectives, we may borrow at fixed rates or variable rates. We may also enter into derivative financial instruments such as interest rate swaps and caps in order to mitigate our interest rate risk on a related financial instrument. We will not enter into derivative or interest rate transactions for speculative purposes.

In addition to changes in interest rates, the value of our properties is subject to fluctuations based on changes in local and regional economic conditions and changes in the creditworthiness of tenants, which may affect our ability to refinance our debt if necessary.

Table of Contents

Our interest rate risk is monitored using a variety of techniques. The table below presents, as of September 30, 2007, the principal amounts and weighted-average interest rates by year of expected maturity to evaluate the expected cash flows and sensitivity to interest rate changes.

	Expected Maturity Date						
	2007	2008	2009	2010	Thereafter	Total	Fair Value
xed rate debt							
incipal payments	$ 14,000	$ 150,000	$ 8,588,000	$ 545,000	$ 73,636,000	$ 82,933,000	$ 81,728,00
eighted-average terest rate on aturing debt	5.88%	5.74%	5.80%	5.68%	5.76%	5.77%	
ariable rate debt							
incipal payments	$	$	$	$ 76,200,000	$	$ 76,200,000	$ 76,200,00
eighted-average terest rate on aturing debt ased on rates in fect as of eptember 30, 07)				6.77%		6.77%	

As of September 30, 2007, our debt consisted of fixed and variable mortgage loan payables in the principal amount of $123,433,000 ($123,331,000, net of discount), at a weighted-average interest rate of 6.01% per annum. As of September 30, 2007, we had $35,700,000 outstanding on our line of credit at a weighted-average interest rate of 7.08%.

An increase in the variable interest rate on the line of credit and our variable rate mortgage loan payables constitutes a market risk. As of September 30, 2007, for example a 0.5% increase in LIBOR would have increased our overall annual interest expense by $381,000, or 7.38%.

PRIOR PERFORMANCE SUMMARY

The information presented in the Prior Performance Summary, or Summary, represents the historical experience of real estate and notes programs managed by NNN Realty Advisors, our former sponsor and wholly owned subsidiary of our current sponsor, Grubb & Ellis, Triple Net Properties, an indirect wholly owned subsidiary of Grubb & Ellis or collectively, NNN Realty Advisors Group, through December 31, 2006. Investors in our company should not assume that they will experience returns, if any, comparable to those experienced by investors in these prior notes and real estate programs.

From inception through December 31, 2006, NNN Realty Advisors Group served as an advisor, sponsor or manager to 165 real estate investment programs formed for the purpose of acquiring and operating commercial real estate properties, primarily consisting of retail, office, industrial and medical office buildings, healthcare-related facilities and apartment properties. The programs are either (1) public programs that are required to file public reports with the SEC, or (2) private programs that have no public reporting requirements. From inception through December 31, 2006, there were six public real estate programs and 159 private real estate programs. NNN Realty Advisors Group also served as sponsor and manager of four private notes programs.

Each of the private real estate programs, other than Western Real Estate Investment Trust, began with the formation of a limited liability company, or LLC, to acquire the property. The LLC may sell investor, or membership, units; investors that purchase membership units thus acquire an indirect interest in the property through their equity interest in the LLC. Simultaneously with the acquisition of the property, the LLC may also sell undivided tenant in common interests, or TIC interests, directly in the property. A TIC interest is not an interest in any entity, but rather a direct real property interest. A TIC may be an individual or an entity such as a limited liability company. Typically, the TICs are involved in tax-deferred exchanges structured to comply with the requirements of Section 1031 of the Internal Revenue Code, whereas the cash purchase of LLC membership units does not meet the requirements of Section 1031, although the LLC s interest in the underlying real property interest will also be a TIC interest.

Each private real estate program bears the same name as the respective LLC formed to acquire the property and may include both the sale of interests in the LLC and the individual TIC interests. Thus, the LLC is the de-facto identity of the private program and may acquire either an entire or a partial interest in a property. When a private program owns 100% of a property and all funds are raised from TICs and members of the LLC, the private program is referred to by NNN Realty Advisors Group as a Simple Ownership Structure. Conversely, if the program only owns a partial interest in the property or some portion of the funds are raised through one of the public programs which are advised or managed by NNN Realty Advisors Group, it is referred to by NNN Realty Advisors Group as a Complex Ownership Structure.

The public programs include four corporations, G REIT, Inc. and T REIT, Inc., which have qualified as REITs, and Grubb & Ellis Apartment REIT, Inc. and Grubb & Ellis Healthcare REIT, Inc., which intend to qualify as REITs, and two limited liability companies, NNN 2002 Value Fund, LLC and NNN 2003 Value Fund, LLC. Each of the public programs may acquire wholly-owned or partial interests in real estate properties. When a public program purchases a partial interest in a property that is also partially owned by a private program, the public program may invest either directly in the private program (by investing in the LLC or by purchasing a TIC interest) or outside of the private program by purchasing an interest in the property directly from the seller. However, Grubb & Ellis Apartment REIT, Inc. and Grubb & Ellis Healthcare REIT, Inc. will not participate in tenant-in-common syndications or transactions.

In either the Complex or Simple Ownership Structure, the LLC may or may not retain an interest in the property after the program is closed, depending on whether the program sells the entire interest of the property to TIC investors. If

the LLC retains an ownership interest in the program, it does so as one of the TICs and generally sells its ownership interest to a number of LLC members.

NNN Realty Advisors Group maintains the day-to-day accounting for the LLC as well as the books and records for the property. In addition, NNN Realty Advisors Group is required to report financial data pertinent

to the operation of each program and is responsible for the timely filing of the LLC s income tax return as well as providing year-end tax basis income and expense information to the TICs.

In some instances, the program owns an entire property, as in a Simple Ownership Structure, and the entire operation of the property is attributable to the program. In other instances, where the program owns a portion of a property or has affiliated ownership within the program, as in a Complex Ownership Structure, further allocations and disclosure are required to clarify the appropriate portions of the property s performance attributable to the various ownership interests.

NNN Realty Advisors Group presents the data in Prior Performance Table III for each program on either a GAAP basis or an income tax basis depending on the reporting requirements of the particular program. In compliance with the SEC reporting requirements, the Table III presentation of Revenues, Expenses and Net Income for the public programs has been prepared and presented by NNN Realty Advisors Group in conformity with accounting principles generally accepted in the Unites States of America, or GAAP, which incorporates accrual basis accounting. NNN Realty Advisors Group presents Table III for all private programs on an income tax basis (which can in turn be presented on either a cash basis or accrual basis), as the only applicable reporting requirement is for the year-end tax information provided to each investor. The Table III data for all private programs (which are generally formed using LLCs) are prepared and presented by NNN Realty Advisors Group in accordance with the cash method of accounting for income tax purposes. This is because most, if not all, of the investors in these private programs are individuals required to report to the Internal Revenue Service using the cash method of accounting for income tax purposes, and the LLCs are required to report on this basis when more than 50% of their investors are taxpayers that report using the cash method of accounting for income tax purposes. When GAAP-basis affiliates invest in a private program, as in a Complex Ownership Structure, the ownership presentation in the tables is made in accordance with the cash method of accounting for income tax purposes. This presentation is made for consistency and to present results meaningful to the typical individual investor that invests in an LLC.

While SEC rules and regulations allow NNN Realty Advisors Group to record and report results for its private programs on an income tax basis, investors should understand that the results of these private programs may be different if they were reported on a GAAP basis. Some of the major differences between GAAP accounting and income tax accounting (and, where applicable, between cash basis and accrual basis income tax accounting) that impact the accounting for investments in real estate are described in the following paragraphs:

The primary difference between the cash methods of accounting and accrual methods (both GAAP and the accrual method of accounting for income tax purposes) is that the cash method of accounting generally reports income when received and expenses when paid while the accrual method generally requires income to be recorded when earned and expenses recognized when incurred.

GAAP requires that, when reporting lease revenue, the minimum annual rental revenue be recognized on a straight-line basis over the term of the related lease, whereas the cash method of accounting for income tax purposes requires recognition of income when cash payments are actually received from tenants, and the accrual method of accounting for income tax purposes requires recognition of income when the income is earned pursuant to the lease contract.

GAAP requires that when an asset is considered held for sale, depreciation ceases to be recognized on that asset, whereas for income tax purposes, depreciation continues until the asset either is sold or is no longer in service.

GAAP requires that when a building is purchased, certain intangible assets and liabilities (such as above-and below-market leases, tenant relationships and in-place lease costs) are allocated separately from the building

and are amortized over significantly shorter lives than the depreciation recognized on the building. These intangible assets and liabilities are not recognized for income tax purposes and are not allocated separately from the building for purposes of tax depreciation.

GAAP requires that an asset is considered impaired when the carrying amount of the asset is greater than the sum of the future undiscounted cash flows expected to be generated by the asset, and an

impairment loss must then be recognized to decrease the value of the asset to its fair value. For income tax purposes, losses are generally not recognized until the asset has been sold to an unrelated party or otherwise disposed of in an arm s length transaction.

When the private program owns 100% of the property and the entire fund is raised from TICs and LLC members investing directly in the private program, 100% of the private program s operating results are presented for the relevant years.

When a private real estate program directly invests in and owns a partial interest in the property (as an example, 75%) and the remaining interest of the property (25%) is owned outside of the program by a public program, only the operating results relating to the private program ownership in the property (75%) are presented for the relevant years. The allocation is based on the private program s effective ownership in the property.

When a private real estate program acquires a 100% interest in the property but is jointly owned by a public entity investing directly in the private program, 100% of the private program s operating results will be presented for the relevant years on a cash income tax basis. The affiliated ownership portion of the equity is eliminated in aggregation of all private programs reporting on a cash income tax basis. In such cases, Prior Performance Table III also presents the unaffiliated equity for informational purposes only.

NNN 2004 Notes Program, LLC, NNN 2005 Notes Program, LLC, NNN 2006 Notes Program LLC, and NNN Collateralized Senior Notes, LLC, or the Notes Programs, offered units of interest, or note units. The Notes Programs were formed for the purpose of making secured and unsecured loans to affiliates of NNN Realty Advisors Group for the sole purpose of acquiring and holding real estate. An investor of the Notes Programs invested in note units and made loans to the LLC. Triple Net Properties is the sole member and manager of each of the notes programs LLC and caused the LLC to use the net proceeds of the offering to support its efforts in sponsoring real estate investments by making secured and unsecured loans. Triple Net Properties, as the sole member and manager of the company, has guaranteed the payment of all principal and interest on the note units.

G REIT, Inc.

G REIT, Inc., or G REIT, was formed as a Virginia corporation in December 2001, reincorporated as a Maryland corporation in September 2004 and is qualified as a REIT for federal income tax purposes. G REIT was formed to acquire interests in office, industrial and service properties anchored by government-oriented tenants such as federal, state and local government offices, government contractors and/or government service providers. Triple Net Properties has served as the advisor of G REIT since January 2002. The initial public offering of G REIT s common stock commenced on July 22, 2002 and terminated on February 9, 2004. G REIT s second public offering commenced on January 23, 2004 and terminated on April 30, 2004. As of December 31, 2006, G REIT had raised gross offering proceeds of $437,315,000 in its two public offerings from the issuance of 43,865,000 shares of its common stock to 13,867 investors. As of December 31, 2006, G REIT had purchased interests in 27 real estate properties amounting to an investment by G REIT of $878,955,000 (G REIT s aggregate share of purchase price, including G REIT s aggregate share of debt financing at acquisition). For the years ended December 31, 2002 and 2005, G REIT had a return of capital from cash distributions of $170,000 and $13,865,000, respectively. The source of cash to fund the distributions in 2002 was proceeds from the sale of G REIT s securities. The source of cash to fund the distributions in 2005 was excess historical cash flows from operations.

T REIT, Inc.

T REIT, Inc., or T REIT, was formed as a Virginia corporation in December 1998 and is qualified as a REIT for federal income tax purposes. T REIT was formed to acquire interests in office, industrial, service and retail properties located primarily in tax free states. Triple Net Properties has served as the advisor of T REIT since February 2000. The initial public offering of T REIT s common stock commenced on February 22, 2000. As of May 31, 2002, when the offering was terminated, T REIT had issued 4,720,000 shares of common stock and raised $46,395,000 in aggregate gross proceeds. As of December 31, 2006, T REIT had 1,878 investors and had purchased interests in 20 real estate properties amounting to an investment by T REIT of $125,786,000 (T REIT s aggregate share of purchase price, including T REIT s aggregate share of debt financing at acquisition). As of December 31, 2006, eighteen of these properties had been sold. Of the 20 properties purchased by T REIT, four (20%) were in Nevada, four (20%) were in California, nine (45%) were in Texas, two (10%) were in North Dakota and one (5%) was in Illinois. The properties, which are described below, are all commercial office buildings. None of the property interests acquired by T REIT were apartment community assets, the primary focus of our company. On July 27, 2005, T REIT shareholders approved a plan of liquidation.

As of December 31, 2006, T REIT owned interests in the following properties:

Private Programs

Beginning in April 1998 through December 31, 2006, NNN Realty Advisors Group has advised 159 private real estate investment programs and four private notes programs. Each of the private programs advised by NNN Realty Advisors Group and the properties acquired and sold through December 31, 2006 are described below. Please see Tables III, IV and V under Prior Performance Tables in this prospectus for more information regarding the operating results of the prior funds sponsored by NNN Realty Advisors Group, information regarding the results of the completed programs and information regarding the sales or disposals of properties by these programs.

As of December 31, 2006, 37 private programs, including three private notes programs, have gone full term. Further information regarding the results of the sales and operations of these programs can be found in Prior Performance Table IV.

Adverse Business Developments or Conditions

For some of those private programs detailed below and as noted in Prior Performance Table III, in some circumstances, NNN Realty Advisors Group-sponsored programs had cash flow deficiencies and/or distributions to

investors which represented returns of capital because the distributions were in excess of cash generated from operations, sales and refinancings. Cash deficiencies after cash distributions shown for various programs on Prior Performance Table III occur for a variety of reasons, most of which are the result of either (a) the loss of a major tenant and/or a reduction in leasing rates and, as a result, the operating revenues of a program have decreased or (b) the program held multiple properties or buildings, some of the properties or buildings were sold and distributions were made that were attributable to the sold properties which exceeded the cash generated by the operations of the remaining properties. Operating cash flow available after distributions may be affected by timing of rent collection and the payment of expenses, causing either excess or deficit cash flows after distributions for a given period. In addition, excess operating cash flow after distributions may be retained by the program as reserves to fund anticipated and unanticipated future expenditures or to cover reductions in cash flow resulting from the anticipated or unanticipated loss of a tenant.

For example, in 2001, Market Centre, LLC lost a major tenant in its property and leasing rates were reduced. For that year, Market Centre, LLC showed a cash deficiency and a distribution that was a return of capital. In the year ended December 31, 2002, the program reduced its distributions from 8% to 0%. Thus, in

2002, it did not show a cash deficiency because there were no distributions to investors. Another example is NNN 1397 Galleria Drive LLC, which in August 2003, lost a major tenant in its property. This program reduced its distributions to investors in February 2004. For the year ended December 31, 2003, NNN 1397 Galleria Drive shows a cash deficiency and a distribution to investors as a return of capital. The source of the distributions in excess of cash flows was distributions of the prior years excess cash flow.

In other circumstances, cash deficiencies were the result of sales of properties for programs either owning multiple properties or multiple buildings constituting a single investment. For example, NNN Pacific Corporate Park 1, LLC, NNN 2000 Value Fund, LLC and Western Real Estate Investment Trust, Inc. own either multiple properties or a multi-building property. When a property or a building is sold and proceeds are distributed to investors, there may be a cash deficiency shown because proceeds are distributed in excess of cash generated by operations.

In some circumstances, such as NNN Highbrook, LLC, equity raised is ear-marked to pay for certain future expenses during the operating period of the program. This occurs in master lease apartment programs when reserves are established from investors equity to pay for designated repairs when cash from operations is insufficient to pay for them. Deficit cash flow after distributions and return of capital result as these repair reserves are utilized. In other circumstances, such as NNN 300 Four Falls, LLC, it is anticipated that all equity will not be raised by the time a property is acquired. Mezzanine financing is used to cover the equity funding shortfall at the time of closing. The estimated fees and interest on the mezzanine financing are factored into the equity raise. As expenses related to the mezzanine financing are incurred, they may exceed cash flow generated after distributions, resulting in deficit cash flow and return of capital. In both of these scenarios, deficit cash flow after distributions and return of capital result from paying anticipated expenses from equity funded reserves.

Where distributions are made that exceed the cash flow generated from operations of the programs, the distributions are made either from cash reserves held by the program to be used for distributions, proceeds from the sales or re-financings of properties, distributions of prior years excess cash flows or, loans from NNN Realty Advisors Group or its affiliates. In cases where there are no reserves, the distribution level may be reduced or stopped. In those cases, the reductions or termination in distributions have been noted below.

For the year ended December 31, 2002, the program experienced deficit cash flow after distributions of $20,000 which was covered by the previous year s excess cash flow after distributions. In 1999, Triple Net Properties loaned $8,000 to the program to fund operating shortfalls due to the timing of rent collections, which was repaid in full in 2001. In 2002, an affiliate of

Triple Net Properties loaned $102,000 to the program to fund capital improvements. In February 2003, the property was sold for a loss of $166,000. In 2000, WREIT had deficit cash flow after distributions of $344,000. In 2001, WREIT received a $480,000 loan from T REIT, an entity advised by Triple Net Properties, and a $404,000 loan from a private entity managed by Triple Net Properties. For the years ended December 31, 2000 and 2001, the program had deficit cash flow after distributions of $690,000 and $142,000, respectively. The sources of distributions in excess of cash flows were the prior year s excess cash flow after distributions and return of capital of $475,000 and $202,000, respectively. Cash flow deficits were caused primarily by the timing difference of incurred property tax expense and collection of the related reimbursement of these charges from the tenants at all three properties. In 2002, the program had deficit cash flow after distributions of $37,000 representing return of capital of $234,000. For the year ended December 31, 2003, the program had an overall positive cash flow after distributions, but return of capital relating to the Belmont property of $91,000. For the year ended December 31, 2004, the program experienced a deficit from operating cash flows due to post sale expenses with no offsetting operating income as all the properties had been sold. Excess cash flow after distributions from prior years covered the deficit.

In 2000, Triple Net Properties loaned $239,000 to the program to cover the cost of a legal settlement relating to the Palm Court property. The program reduced distributions to investors during 2000 from 8% to 5% due to reduced available operating cash flow. The property experienced reduced operating cash flow due to the costs of a major redevelopment project which included the relocation of certain tenants within the shopping center and a higher than projected interest rate on the variable rate mortgage loan. In 2002, Triple Net Properties refinanced the property with a $34,000,000 loan at a lower, fixed interest rate with a 10-year term. From refinance proceeds, Triple Net Properties and affiliates received $637,000 in deferred fees and repayment of loans of $1,875,000. With the refinance in place and redevelopment largely complete, cash flow improved and distributions were subsequently increased to 8% retroactively and 9% soon thereafter. On June 25, 2004, the property was sold at a price of $44,410,000. From sale proceeds, Realty received a disposition fee of $444,000 and Realty and Triple Net Properties received deferred property and asset management fees of $1,175,000. The property was sold for a gain of $1,797,000.

For the year ended December 31, 2000, the program had a cash deficiency after distributions of $645,000 and return of capital of $513,000. The cash deficiency was caused primarily by debt service with increasing interest rates on a variable rate loan tied to LIBOR. For the year ended December 31, 2003, the program had a cash deficiency after distributions of $363,000, which was covered by prior years excess cash flow after distributions.

In 2000 and 2001, Triple Net Properties loaned $508,000 and $747,000, respectively, to cover tenant repositioning costs and tenant improvements related to the redevelopment of the property. In 2003, Triple Net Properties and an affiliate of Triple Net Properties loaned $75,000 and $12,000, respectively, for capital improvements and Triple Net Properties loaned $5,000 to the program for the LLC s tax return cost. FEDERAL INCOME TAX CONSIDERATIONS

General

The following is a summary of the material United States federal income tax considerations associated with an investment in our common stock. The statements made in this section of the prospectus are based upon current provisions of the Internal Revenue Code and Treasury Regulations promulgated thereunder, as currently applicable, currently published administrative positions of the IRS and judicial decisions, all of which are subject to change, either prospectively or retroactively. We cannot assure you that any changes will

not modify the conclusions expressed in our counsel s opinions described herein. This summary does not address all possible tax considerations that may be material to an investor and does not constitute legal or tax advice. This summary deals only with our stockholders that hold our stock as capital assets within the meaning of section 1221 of the Internal Revenue Code. Moreover, this summary does not deal with all tax aspects that might be relevant to you, as a prospective stockholder, in light of your personal circumstances, nor does it deal with particular types of stockholders that are subject to special treatment under the federal income tax laws, such as insurance companies, holders whose shares are acquired through the exercise of stock options or otherwise as compensation, holders whose shares are acquired through the distribution reinvestment plan or who intend to sell their shares under the share repurchase plan, tax-exempt organizations except as provided below, financial institutions or broker-dealers, or foreign corporations or persons who are not citizens or residents of the United States. The Internal Revenue Code provisions governing the federal income tax treatment of REITs and their stockholders are highly technical and complex, and this summary is qualified in its entirety by the express language of applicable Internal Revenue Code provisions, Treasury Regulations promulgated thereunder and administrative and judicial interpretations thereof.

We urge you, as a prospective stockholder, to consult your own tax advisor regarding the specific tax consequences to you of a purchase of shares, ownership and sale of the shares and of our election to be taxed as a REIT, including the federal, state, local, foreign and other tax consequences of such purchase, ownership, sale and election and of potential changes in applicable tax laws.

REIT Qualification

We intend to elect to be taxable as a REIT commencing with the year ending December 31, 2007. Alston & Bird LLP has delivered an opinion to us that, commencing with our taxable year ending December 31, 2006, we will be organized in conformity with the requirements for qualification as a REIT under the Internal Revenue Code, and our proposed method of operation will enable us to operate in conformity with the requirements for qualification as a REIT under the Internal Revenue Code.

Investors should be aware that an opinion of counsel is not binding upon the IRS or any court. The opinion of Alston & Bird LLP described above will be based on various assumptions and qualifications and conditioned on representations made by us as to factual matters, including representations regarding the intended nature of our properties and the future conduct of our business. Moreover, our continued qualification and taxation as a REIT depends upon our ability to meet on a continuing basis, through actual annual operating results, the qualification tests set forth in the federal tax laws and described below. Alston & Bird LLP will not review our compliance with those tests on a continuing basis. Accordingly, our actual results of operation for any particular taxable year may not satisfy these requirements. For a discussion of certain tax consequences of our failure to meet these qualification requirements, see Failure to Qualify as a REIT.

Taxation of Grubb & Ellis Healthcare REIT

If we qualify for taxation as a REIT, we generally will not be subject to federal corporate income taxes on that portion of our ordinary income or capital gain that we distribute currently to our stockholders, because the REIT provisions of the Internal Revenue Code, generally allow a REIT to deduct distributions paid to its stockholders. This substantially eliminates the federal double taxation on earnings (taxation at both the corporate level and stockholder level) that usually results from an investment in the stock of a corporation. Even if we qualify for taxation as a REIT, however, we will be subject to federal income taxation described below.

We will be taxed at regular corporate rates on our undistributed REIT taxable income, including undistributed net capital gains.

Under some circumstances, we may be subject to alternative minimum tax.

If we have net income from the sale or other disposition of foreclosure property (which is described below) that is held primarily for sale to customers in the ordinary course of business or other non-qualifying income from foreclosure property, we will be subject to tax at the highest corporate rate on that income.

If we have net income from prohibited transactions (which are described below), the income will be subject to a 100% tax.

If we fail to satisfy either of the 75% or 95% gross income tests (which are discussed below) but have nonetheless maintained our qualification as a REIT because certain conditions have been met, we will be subject to a 100% tax on an amount equal to the greater of the amount by which we fail the 75% or 95% test multiplied by a fraction calculated to reflect our profitability.

If we fail to satisfy the REIT asset tests and continue to qualify as a REIT because we meet other requirements, we will have to pay a tax equal to the greater of $50,000 or the highest corporate income tax rate multiplied by the net income generated by the non-qualifying assets during the time we failed to satisfy the asset tests; if we fail to satisfy other REIT requirements (other than the gross income and asset tests), and continue to qualify as a REIT because we meet other requirements, we will have to pay $50,000 for each other failure.

If we fail to distribute during each year at least the sum of (i) 85% of our REIT ordinary income for the year, (ii) 95% of our REIT capital gain net income for such year and (iii) any undistributed taxable income from prior periods, we will be subject to a 4% excise tax on the excess of the required distribution over the amounts actually distributed.

We may elect to retain and pay tax on our net long-term capital gain. In that case, a United States stockholder would be taxed on its proportionate share of our undistributed long-term capital gain and would receive a credit or refund for its proportionate share of the tax we paid.

If we acquire any asset from a C corporation (i.e., a corporation generally subject to corporate-level tax) in a transaction in which our basis in the asset is determined by reference to the basis of the asset (or any other property) in the hands of the C corporation and we subsequently recognize gain on the disposition of the asset during the 10 year period beginning on the date on which we acquired the asset, then a portion of the gain may be subject to tax at the highest regular corporate rate, unless the C corporation made an election to treat the asset as if it were sold for its fair market value at the time of our acquisition. We refer to this tax as the Built-in Gains Tax.

Our taxable REIT subsidiaries will be subject to federal and state income tax on their taxable incomes. Several provisions regarding the arrangements between a REIT and its taxable REIT subsidiaries ensure that a taxable REIT subsidiary will be subject to an appropriate level of federal income taxation. For example, the Internal Revenue Code limits the ability of our taxable REIT subsidiary to deduct interest payments in excess of a certain amount made to us. In addition, we must pay a 100% tax on some payments that we receive from, or on certain expenses deducted by, the taxable REIT subsidiary if the economic arrangements between us, our tenants and the taxable REIT subsidiary are not comparable to similar arrangements among unrelated parties. In the event that we have taxable REIT subsidiaries in the future, it is possible that those subsidiaries may make interest and other payments to us and to third parties in connection with activities related to our properties. We cannot assure you that our taxable REIT subsidiaries will not be limited in their ability to deduct interest payments made to us. In addition, we cannot assure you that the IRS might not seek to impose the 100% tax on services performed by taxable REIT subsidiaries for tenants of ours, or on a portion of the payments received by us from, or expenses deducted by, our taxable REIT subsidiaries.

The term prohibited transaction generally includes a sale or other disposition of property (other than foreclosure property) that is held primarily for sale to customers in the ordinary course of a REIT s trade or business. Whether property is held primarily for sale to customers in the ordinary course of a trade or business depends on the particular

facts and circumstances surrounding each property. We intend to conduct our operations in such a manner (i) so that no asset we own, directly or through any subsidiary entities other than taxable REIT subsidiaries, will be held for sale to customers in the ordinary course of our trade or business, or (ii) in order to comply with certain safe-harbor provisions of the Internal Revenue Code that would prevent such treatment. However, no assurance can be given that any particular property we own,

directly or through any subsidiary entities other than taxable REIT subsidiaries, will not be treated as property held for sale to customers or that we can comply with those safe-harbor provisions.

Foreclosure property is real property and any personal property incident to such real property (1) that is acquired by a REIT as the result of the REIT having bid in the property at foreclosure, or having otherwise acquired ownership or possession of the property by agreement or process of law, after there was a default (or default was imminent) on a lease of the property or on a mortgage loan held by the REIT and secured by the property, (2) the related loan or lease of which was acquired by the REIT at a time when default was not imminent or anticipated and (3) for which such REIT makes a proper election to treat the property as foreclosure property. REITs generally are subject to tax at the maximum corporate rate on any net income from foreclosure property, including any gain from the disposition of the foreclosure property, other than income that would otherwise be qualifying income for purposes of the 75% gross income test, which is described below. Any gain from the sale of property for which a foreclosure property election has been made will not be subject to the 100% tax on gains from prohibited transactions described above, even if the property would otherwise constitute property held primarily for sale to customers in the ordinary course of a REIT s trade or business. We do not anticipate that we will receive any income from foreclosure property that is not qualifying income for purposes of the 75% gross income test; however, if we do acquire any foreclosure property that we believe will give rise to such income, we intend to make an election to treat the related property as foreclosure property.

Requirements for Qualification as a REIT

In order for us to qualify as a REIT, we must meet and continue to meet the requirements discussed below relating to our organization, sources of income, nature of assets and distributions of income to our stockholders.

Requirements for Qualification

The Internal Revenue Code defines a REIT as a corporation, trust or association:

(1) which is managed by one or more trustees or directors;

(2) the beneficial ownership of which is evidenced by transferable shares or by transferable certificates of beneficial interest;

(3) which would be taxable as a domestic corporation but for sections 856 through 859 of the Internal Revenue Code;

(4) which is neither a financial institution nor an insurance company subject to certain provisions of the Internal Revenue Code;

(5) the beneficial ownership of which is held by 100 or more persons;

(6) not more than 50% in value of the outstanding stock of which is owned, directly or indirectly, by or for five or fewer individuals (as defined in the Internal Revenue Code to include certain entities);

(7) which makes an election to be a REIT (or has made such election for a previous taxable year which has not been revoked or terminated) and satisfies all relevant filing and other administrative requirements established by the IRS that must be met to elect and maintain REIT status;

(8) which uses the calendar year as its taxable year; and

(9) which meets certain other tests, described below, regarding the nature of its income and assets and the amount of its distributions.

The Internal Revenue Code provides that conditions (1) through (4), inclusive, must be met during the entire taxable year, that condition (5) must be met during at least 335 days of a taxable year of 12 months, or during a proportionate part of a taxable year of less than 12 months, and that condition (6) must be met during the last half of each taxable year. For purposes of the sixth requirement, the beneficiaries of a pension or profit-sharing trust described in Section 401(a) of the Internal Revenue Code, and not the pension or profit-sharing

Table of Contents

trust itself, are treated as REIT stockholders. We will be treated as having met condition (6) above for a taxable year if we complied with certain Treasury Regulations for ascertaining the ownership of our stock for such year and if we did not know (or after the exercise of reasonable diligence would not have known) that our stock was sufficiently closely held during such year to cause us to fail condition (6). In addition, conditions (5) and (6) do not apply to a REIT until the second calendar year in which the REIT qualifies as such.

Our articles of incorporation contain restrictions regarding ownership and transfer of shares of our stock that are intended to assist us in continuing to satisfy the share ownership requirements in items (5) and (6) above. See Description of Capital Stock Restriction on Ownership of Shares.

For purposes of the requirements described herein, any corporation that is a qualified REIT subsidiary of ours will not be treated as a corporation separate from us, and all assets, liabilities, and items of income, deduction and credit of our qualified REIT subsidiaries will be treated as our assets, liabilities and items of income, deduction and credit. A qualified REIT subsidiary is a corporation, other than a taxable REIT subsidiary (as described below under Operational Requirements Asset Tests), all of the capital stock of which is owned by a REIT.

In the case of a REIT that is a partner in an entity treated as a partnership for federal income tax purposes, the REIT is treated as owning its proportionate share of the assets of the partnership and as earning its allocable share of the gross income of the partnership for purposes of the requirements described herein. In addition, the character of the assets and gross income of the partnership will retain the same character in the hands of the REIT for purposes of the REIT requirements, including the asset and income tests described below. As a result, our proportionate share of the assets, liabilities and items of income of our operating partnership and of any other partnership, joint venture, limited liability company or other entity treated as a partnership for federal tax purposes in which we or our operating partnership have an interest will be treated as our assets, liabilities and items of income.

Operational Requirements Gross Income Tests

To maintain our qualification as a REIT, we must satisfy annually two gross income requirements.

At least 75% of our gross income, excluding gross income from prohibited transactions, for each taxable year must be derived directly or indirectly from investments relating to real property or mortgages on real property (including rents from real property and interest income derived from mortgage loans secured by real property) and from other specified sources, including qualified temporary investment income, as described below. This is the 75% Gross Income Test.

At least 95% of our gross income, excluding gross income from prohibited transactions, for each taxable year must be derived from the real property investments described above in the 75% Gross Income Test and generally from dividends and interest and gains from the sale or disposition of stock or securities or from any combination of the foregoing. This is the 95% Gross Income Test.

Rents from Real Property

The rents we will receive will qualify as rents from real property for purposes of satisfying the gross income requirements for a REIT only if several conditions are met, including the following:

The amount of rent received from a tenant must not be based in whole or in part on the income or profits of any person; however, an amount received or accrued generally will not be excluded from the term rents from real property solely by reason of being based on a fixed percentage or percentages of gross receipts or sales;

In general, neither we nor an owner of 10% or more of our stock may directly or constructively own 10% or more of a tenant or a subtenant of the tenant (in which case only rent attributable to the subtenant is disqualified);

Table of Contents

Rent attributable to personal property leased in connection with a lease of real property cannot be greater than 15% of the total rent received under the lease, as determined based on the average of the fair market values as of the beginning and end of the taxable year; and

We normally must not operate or manage the property or furnish or render services to tenants, other than (i) through an independent contractor who is adequately compensated and from whom we do not derive any income or (ii) through a taxable REIT subsidiary. However, a REIT may provide services with respect to its properties, and the income derived therefrom will qualify as rents from real property, if the services are usually or customarily rendered in connection with the rental of space only and are not otherwise considered rendered to the occupant. Even if the services provided by us with respect to a property are impermissible tenant services, the income derived therefrom will qualify as rents from real property if such income does not exceed 1% of all amounts received or accrued with respect to that property. For this purpose, such services may not be valued at less than 150% of our direct cost of providing the services, and any gross income deemed to have been derived by us from the performance of noncustomary services pursuant to the 1% de minimis exception will constitute nonqualifying gross income under the 75% and 95% gross income tests. In addition, our taxable REIT subsidiaries may perform some impermissible tenant services without causing us to receive impermissible tenant services income under the REIT income tests. However, several provisions regarding the arrangements between a REIT and its taxable REIT subsidiaries ensure that a taxable REIT subsidiary will be subject to an appropriate level of federal income taxation. For example, the Internal Revenue Code limits the ability of our taxable REIT subsidiary to deduct interest payments in excess of a certain amount made to us. In addition, we must pay a 100% tax on some payments that we receive from, or on certain expenses deducted by, the taxable REIT subsidiary if the economic arrangements between us, our tenants and the taxable REIT subsidiary are not comparable to similar arrangements among unrelated parties. In the event that we have taxable REIT subsidiaries in the future, it is possible that those subsidiaries may make interest and other payments to us and to third parties in connection with activities related to our properties. We cannot assure you that our taxable REIT subsidiaries will not be limited in their ability to deduct interest payments made to us. In addition, we cannot assure you that the IRS might not seek to impose the 100% tax on services performed by taxable REIT subsidiaries for tenants of ours, or on a portion of the payments received by us from, or expenses deducted by, our taxable REIT subsidiaries.

Compliance with 75% and 95% Gross Income Tests

Prior to the making of investments in real properties, we may invest the net offering proceeds in liquid assets such as government securities or certificates of deposit. For purposes of the 75% Gross Income Test, income attributable to a stock or debt instrument purchased with the proceeds received by a REIT in exchange for stock in the REIT (other than amounts received pursuant to a distribution reinvestment plan) constitutes qualified temporary investment income if such income is received or accrued during the one-year period beginning on the date the REIT receives such new capital. To the extent that we hold any proceeds of the offering for longer than one year, we may invest those amounts in less liquid investments in order to satisfy the 75% Gross Income and the 95% Gross Income Tests and the Asset Tests described below. We expect the bulk of the remainder of our income to qualify under the 75% Gross Income and 95% Gross Income Tests as rents from real property and qualifying interest income in accordance with the requirements described above. In this regard, we anticipate that most of our leases will be for fixed rentals with annual consumer price index or similar adjustments and that none of the rentals under our leases will be based on the income or profits of any person. In addition, we do not expect to receive rent from a person of whose stock we (or an owner of 10% or more of our stock) directly or constructively own 10% or more. Also, the portion of the rent attributable to personal property is not expected to exceed 15% of the total rent to be received under any lease. Finally, we anticipate that all or most of the services to be performed with respect to our properties will be performed by our property manager and such services are expected to be those usually or customarily rendered in connection with the rental of

real property and not rendered to the occupant of such property. However, we can give no assurance that the actual sources of our gross income will allow us to satisfy the 75% Gross Income and the 95% Gross Income Tests described above.

Table of Contents

Notwithstanding our failure to satisfy one or both of the 75% Gross Income and the 95% Gross Income Tests for any taxable year, we may still qualify as a REIT for that year if we are eligible for relief under specific provisions of the Internal Revenue Code. These relief provisions generally will be available if:

Our failure to meet these tests was due to reasonable cause and not due to willful neglect; and

Following our identification of the failure, we properly disclose such failures to the IRS.

It is not possible, however, to state whether, in all circumstances, we would be entitled to the benefit of these relief provisions. In addition, as discussed above in Taxation of Grubb & Ellis Healthcare REIT, even if these relief provisions apply, a tax would be imposed with respect to non-qualifying net income.

Operational Requirements Asset Tests

At the close of each quarter of our taxable year, we also must satisfy several tests, or the Asset Tests, relating to the nature and diversification of our assets.

First, at least 75% of the value of our total assets must be represented by real estate assets, cash, cash items (including receivables) and government securities. The term real estate assets includes real property, mortgages on real property, shares of stock in other qualified REITs, property attributable to the temporary investment of new capital as described above and a proportionate share of any real estate assets owned by a partnership in which we are a partner or of any qualified REIT subsidiary of ours.

Second, no more than 25% of the value of our total assets may be represented by securities other than those described above in the 75% asset class.

Third, of the investments included in the 25% asset class, the value of any one issuer s securities that we own may not exceed 5% of the value of our total assets. Additionally, we may not own more than 10% of the voting power of any one issuer s outstanding securities. Furthermore, we may not own more than 10% of the total value of any one issuer s outstanding debt and equity securities. The 10% value limitation will not apply, however, to (1) straight debt securities (discussed below); (2) loans to an individual or an estate; (3) certain rental agreements calling for deferred rents or increasing rents that are subject to section 467 of the Internal Revenue Code, other than with a related person ; (4) obligations to pay qualifying rents from real property; (5) securities issued by a state or any political subdivision of a state, the District of Columbia, a foreign government, any political subdivision of the foreign government, or the Commonwealth of Puerto Rico, but only if the determinations of any payment received or accrued under the security does not depend in whole or in part on the profits of any entity; (6) securities issued by another qualifying REIT; and (7) other arrangements identified in Treasury Regulations (which have not yet been issued or proposed). Additionally, any debt instrument issued by a partnership will not be treated as a security if at least 75% of the partnership s gross income (excluding gross income from prohibited transactions) is derived from sources meeting the requirements of the 75% Gross Income Test. Any debt instrument issued by a partnership also will not be treated as a security to the extent of our interest as a partner in the partnership. Straight debt is generally defined as debt that is payable on demand or at a date certain where the interest rate and the interest payment dates are not contingent on profits, the borrower s discretion or similar factors and there is no convertibility, directly or indirectly, into stock of the debtor. However, a security will not fail to be straight debt if it is subject to certain customary or de minimis contingencies. A security issued by a corporation or partnership will qualify as straight debt only if we or any of our taxable REIT subsidiaries hold no more than 1% of the outstanding non-qualifying securities of such issuer. Mortgage debt secured by real estate assets constitutes a real estate asset and does not constitute a security for purposes of the foregoing tests. For purposes of this Asset Test and

the second Asset Test, securities do not include the equity or debt securities of a qualified REIT subsidiary of ours or an equity interest in any entity treated as a partnership for federal tax purposes. Also, in looking through any partnership to determine our allocable share of any securities owned by the partnership for applying solely the 10% value test, our share of the assets of the partnership will correspond not only to our interest as a partner in the partnership, but also to our

proportionate interest in certain debt securities issued by the partnership. The third Asset Test does not apply in respect of a taxable REIT subsidiary.

Fourth, no more than 20% of the value of our total assets may consist of the securities of one or more taxable REIT subsidiaries. Subject to certain exceptions, a taxable REIT subsidiary is any corporation, other than a REIT, in which we directly or indirectly own stock and with respect to which a joint election has been made by us and the corporation to treat the corporation as a taxable REIT subsidiary of ours and also includes any corporation, other than a REIT or a qualified REIT subsidiary, in which a taxable REIT subsidiary of ours owns, directly or indirectly, more than 35 percent of the voting power or value.

The Asset Tests must generally be met at the close of any quarter in which we acquire securities or other property. Upon full investment of the net offering proceeds, we expect that most of our assets will consist of real estate assets and we therefore expect to satisfy the Asset Tests.

If we meet the Asset Tests at the close of any quarter, we will not lose our REIT status for a failure to satisfy the Asset Tests at the end of a later quarter if such failure occurs solely because of changes in asset values. If our failure to satisfy the Asset Tests results from an acquisition of securities or other property during a quarter, we can cure the failure by disposing of a sufficient amount of non-qualifying assets within 30 days after the close of that quarter. We intend to maintain adequate records of the value of our assets to ensure compliance with the Asset Tests and to take other action within 30 days after the close of any quarter as may be required to cure any noncompliance.

In addition, we will have up to six months to dispose of sufficient assets or otherwise to cure a failure to satisfy the third Asset Test, provided the failure is due to the ownership of assets the total value of which does not exceed the lesser of (1) 1% of our assets at the end of the relevant quarter or (2) $10,000,000. For violations of any of the REIT asset tests due to reasonable cause that are larger than this amount, we may avoid disqualification as a REIT after the 30 day cure period by taking certain steps, including the disposition of sufficient assets within the six month period described above to meet the applicable asset test, paying a tax equal to the greater of $50,000 or the highest corporate tax rate multiplied by the net income generated by the non-qualifying assets during the period of time that the assets were held as non-qualifying assets, and filing a schedule with the IRS that describes the non-qualifying assets.

Operational Requirements Annual Distribution Requirement

To qualify for taxation as a REIT, the Internal Revenue Code requires us to make distributions (other than capital gain distributions) to our stockholders in an amount at least equal to (a) the sum of: (1) 90% of our REIT taxable income (computed without regard to the dividends paid deduction and our net capital gain), and (2) 90% of the net income, if any, from foreclosure property in excess of the special tax on income from foreclosure property, minus (b) the sum of certain items of non-cash income.

We must pay distributions in the taxable year to which they relate. Distributions paid in the subsequent year, however, will be treated as if paid in the prior year for purposes of the prior year s distribution requirement if the distributions satisfy one of the following two sets of criteria:

We declare the distributions in October, November or December, the distributions are payable to stockholders of record on a specified date in such a month, and we actually pay the distributions during January of the subsequent year; or

We declare the distributions before we timely file our federal income tax return for such year, we pay the distributions in the 12-month period following the close of the prior year and not later than the first regular distribution payment after the declaration, and we elect on our federal income tax return for the prior year to

have a specified amount of the subsequent distribution treated as if paid in the prior year.

Even if we satisfy the foregoing distribution requirements, we will be subject to tax thereon to the extent that we do not distribute all of our net capital gain or REIT taxable income as adjusted. Furthermore, if we fail to distribute at least the sum of 85% of our ordinary income for that year, 95% of our capital gain net income for that year, and any undistributed taxable income from prior periods, we would be subject to a 4%

excise tax on the excess of the required distribution over the amounts actually distributed. Distributions that are declared in October, November or December to stockholders of record on a specified date in one of those months and are distributed in the following January are treated as distributed in the previous December for purposes of the excise tax.

In addition, if during the 10-year recognition period, we dispose of any asset subject to the built-in gain rules described above, we must distribute at least 90% of the built-in gain (after tax), if any, recognized on the disposition of the asset.

We intend to make timely distributions sufficient to maintain our REIT status and avoid income and excise taxes; however, it is possible that we may experience timing differences between (1) the actual receipt of income and payment of deductible expenses, and (2) the inclusion of that income and deduction of those expenses for purposes of computing our taxable income. It is also possible that we may be allocated a share of net capital gain attributable to the sale of depreciated property by our operating partnership that exceeds our allocable share of cash attributable to that sale. In those circumstances, we may have less cash than is necessary to meet our annual distribution requirement or to avoid income or excise taxation on undistributed income. We may find it necessary in those circumstances to arrange for financing or raise funds through the issuance of additional shares in order to meet our distribution requirements. If we fail to satisfy the distribution requirement for any taxable year by reason of a later adjustment to our taxable income, we may be able to pay deficiency distributions in a later year and include such distributions in our deductions for distributions paid for the earlier year. In that event, we may be able to avoid being taxed on amounts distributed as deficiency distributions, but we would be required in those circumstances to pay interest to the IRS based upon the amount of any deduction taken for deficiency distributions for the earlier year.

As noted above, we may also elect to retain, rather than distribute, our net long-term capital gains. The effect of such an election would be as follows:

- We would be required to pay the federal income tax on these gains;
- Taxable U.S. stockholders, while required to include their proportionate share of the undistributed long-term capital gains in income, would receive a credit or refund for their share of the tax paid by the REIT; and
- The basis of the stockholder s shares would be increased by the amount of our undistributed long-term capital gains (minus its proportionate share of the amount of capital gains tax we pay) included in the stockholder s long-term capital gains.

Failure to Qualify as a REIT

If we were to fail to satisfy one or more requirements for REIT qualification, other than an asset or income test violation of a type for which relief is otherwise available as described above, we would retain our REIT qualification if the failure was due to reasonable cause and not willful neglect, and if we were to pay a penalty of $50,000 for each such failure. It is not possible to predict whether in all circumstances we would be entitled to the benefit of this relief provision.

If we fail to qualify as a REIT for any reason in a taxable year and applicable relief provisions do not apply, we will be subject to tax (including any applicable alternative minimum tax) on our taxable income at regular corporate rates. We will not be able to deduct distributions paid to our stockholders in any year in which we fail to qualify as a REIT. We also will be disqualified for the four taxable years following the year during which qualification was lost unless we are entitled to relief under specific statutory provisions.

Taxation of Taxable U.S. Stockholders

Definition

In this section, the phrase U.S. stockholder means a holder of our common stock that for federal income tax purposes is:

- a citizen or resident of the United States;
- a corporation or other entity treated as a corporation for U.S. federal income tax purposes created or organized in or under the laws of the United States or of any political subdivision thereof;
- an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust if a U.S. court is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust.

If a partnership holds our stock, the tax treatment of a partner will depend on the status of the partner and the activities of the partnership. Partners in partnerships holding our stock should consult their tax advisors.

For any taxable year for which we qualify for taxation as a REIT, amounts distributed to, and gains realized by, taxable U.S. stockholders with respect to our common stock generally will be taxed as described below. For a summary of the federal income tax treatment of dividends reinvested in additional shares of our common stock pursuant to our distribution reinvestment plan, see Description of Capital Stock Distribution Reinvestment Plan.

Distributions Generally

Under the Jobs Growth Tax Relief Reconciliation Act of 2003, as extended by the Tax Increase Prevention and Reconciliation Act of 2005, certain qualified dividend income received by U.S. non-corporate stockholders in taxable years 2003 through 2010 is subject to tax at the same tax rates as long-term capital gain (generally, under the new legislation, a maximum rate of 15% for such taxable years). Distributions received from REITs, however, generally are not eligible for these reduced tax rates and, therefore, will continue to be subject to tax at ordinary income rates, subject to two narrow exceptions. Under the first exception, distributions received from a REIT may be treated as qualified dividend income eligible for the reduced tax rates to the extent that the REIT itself has received qualified dividend income from other corporations (such as taxable REIT subsidiaries) in which the REIT has invested. Under the second exception, distributions paid by a REIT in a taxable year may be treated as qualified dividend income in an amount equal to the sum of (i) the excess of the REIT s REIT taxable income for the preceding taxable year over the corporate-level federal income tax payable by the REIT for such preceding taxable year and (ii) the excess of the REIT s income that was subject to the Built-in Gains Tax in the preceding taxable year over the tax payable by the REIT on such income for such preceding taxable year. So long as we qualify as a REIT, distributions made to our taxable U.S. stockholders out of current or accumulated earnings and profits (and not designated as capital gain distributions) will be taken into account by them as ordinary income (except, in the case of non-corporate stockholders, to the limited extent that we are treated as receiving qualified dividend income. In addition, as long as we qualify as a REIT, corporate stockholders will not be eligible for the dividends received deduction for any distributions received from us.

To the extent that we make a distribution in excess of our current and accumulated earnings and profits, the distribution will be treated first as a tax-free return of capital, reducing the tax basis in the U.S. stockholder s shares, and the amount of each distribution in excess of a U.S. stockholder s tax basis in its shares will be taxable as gain realized from the sale of its shares. Distributions that we declare in October, November or December of any year payable to a stockholder of record on a specified date in any of these months will be treated as both paid by us and received by the stockholders on December 31 of the year, provided that we actually pay the distribution during January of the following calendar year. U.S. stockholders may not include any of our losses on their own federal income tax returns.

We will be treated as having sufficient earnings and profits to treat as a dividend any distribution by us up to the amount required to be distributed in order to avoid imposition of the 4% excise tax discussed above. Moreover, any deficiency distribution will be treated as an ordinary or capital gain dividend, as the case may be, regardless of our earnings and profits. As a result, stockholders may be required to treat as taxable some distributions that would otherwise result in a tax-free return of capital.

Capital Gain Distributions

Distributions to U.S. stockholders that we properly designate as capital gain distributions normally will be treated as long-term capital gains, to the extent they do not exceed our actual net capital gain, for the taxable year without regard to the period for which the U.S. stockholder has held his or her stock. A corporate U.S. stockholder, however, may be required to treat up to 20% of some capital gain distributions as ordinary income. See Requirements for Qualification as a REIT Operational Requirements Annual Distribution Requirement for the treatment by U.S. stockholders of net long-term capital gains that we elect to retain and pay tax on.

Passive Activity Loss and Investment Interest Limitations

Our distributions and any gain you realize from a disposition of our common stock will not be treated as passive activity income, and stockholders may not be able to utilize any of their passive losses to offset this income in their personal tax returns. Our distributions (to the extent they do not constitute a return of capital) will generally be treated as investment income for purposes of the limitations on the deduction of investment interest. Net capital gain from a disposition of shares and capital gain distributions generally will be included in investment income for purposes of the investment interest deduction limitations only if, and to the extent, you so elect, in which case those capital gains will be taxed as ordinary income.

Certain Dispositions of Our Common Shares

In general, any gain or loss realized upon a taxable disposition of our common stock by a U.S. stockholder who is not a dealer in securities will be treated as long-term capital gain or loss if the shares have been held for more than 12 months and as short-term capital gain or loss if the shares have been held for 12 months or less. If, however, a U.S. stockholder has included in income any capital gains distributions with respect to the shares, any loss realized upon a taxable disposition of shares held for six months or less, to the extent of the capital gains distributions included in income with respect to the shares, will be treated as long-term capital loss.

A redemption of common stock for cash will be treated as a distribution that is taxable as a dividend to the extent of our current or accumulated earnings and profits at the time of the redemption under section 302 of the Internal Revenue Code unless the redemption (a) results in a complete termination of the stockholder s interest in us under section 302(b)(3) of the Internal Revenue Code, (b) is substantially disproportionate with respect to the stockholder under section 302(b)(2) of the Internal Revenue Code, or (c) is not essentially equivalent to a dividend with respect to the stockholder under section 302(b)(1) of the Internal Revenue Code. Under section 302(b)(2) of the Internal Revenue Code a redemption is considered substantially disproportionate if the percentage of the voting stock of the corporation owned by a stockholder immediately after the redemption is less than eighty percent of the percentage of the voting stock of the corporation owned by such stockholder immediately before the redemption. In determining whether the redemption is not treated as a dividend, shares considered to be owned by a stockholder by reason of certain constructive ownership rules set forth in section 318 of the Internal Revenue Code, as well as shares actually owned, must generally be taken into account. A distribution to a stockholder will be not essentially equivalent to a dividend if it results in a meaningful reduction in the stockholder s interest in us. The IRS has published a ruling indicating that a redemption which results in a reduction in the proportionate interest in a corporation (taking into account section 318 constructive ownership rules) of a stockholder whose relative stock interest is minimal (an

interest of less than 1% should satisfy this requirement) and who exercises no control over the corporation s affairs should be treated as being not essentially equivalent to a dividend.

If the redemption is not treated as a dividend, the redemption of common stock for cash will result in taxable gain or loss equal to the difference between the amount of cash received and the stockholder s tax basis in the shares redeemed. Such gain or loss would be capital gain or loss if the common stock were held as a capital asset and would be long-term capital gain or loss if the holding period for the shares exceeds one year.

Information Reporting Requirements and Backup Withholding for U.S. Stockholders

We will report to U.S. stockholders and to the IRS the amount of distributions made or deemed made during each calendar year and the amount of tax withheld, if any. Under some circumstances, U.S. stockholders may be subject to backup withholding on payments made with respect to, or cash proceeds of a sale or exchange of, our common stock. Backup withholding will apply only if the stockholder:

Fails to furnish its taxpayer identification number (which, for an individual, would be his or her social security number);

Furnishes an incorrect taxpayer identification number;

Is notified by the IRS that the stockholder has failed properly to report payments of interest or dividends; or

Under some circumstances, fails to certify, under penalties of perjury, that it has furnished a correct taxpayer identification number and has not been notified by the IRS that the stockholder is subject to backup withholding for failure to report interest and dividend payments or has been notified by the IRS that the stockholder is no longer subject to backup withholding for failure to report those payments.

Backup withholding will not apply with respect to payments made to some stockholders, such as corporations and tax-exempt organizations. Backup withholding is not an additional tax. Rather, the amount of any backup withholding with respect to a payment to a U.S. stockholder will be allowed as a credit against the U.S. stockholder s United States federal income tax liability and may entitle the U.S. stockholder to a refund, provided that the required information is furnished to the IRS. U.S. stockholders should consult their own tax advisors regarding their qualification for exemption from backup withholding and the procedure for obtaining an exemption.

Treatment of Tax-Exempt Stockholders

Distributions from us to a tax-exempt employee pension trust or other domestic tax-exempt stockholder generally will not constitute unrelated business taxable income, or UBTI, unless the stockholder has borrowed to acquire or carry its stock or has used the shares in a trade or business.

However, for tax-exempt stockholders that are social clubs, voluntary employee benefit associations, supplemental unemployment benefit trusts and qualified group legal services plans exempt from federal income taxation under Sections 501(c)(7), (c)(9), (c)(17) and (c)(20) of the Internal Revenue Code, respectively, income from an investment such as ours will constitute UBTI unless the organization properly sets aside or reserves such amounts for purposes specified in the Internal Revenue Code. These tax-exempt stockholders should consult their own tax advisors concerning these set aside and reserve requirements.

Qualified trusts that hold more than 10% (by value) of the shares of pension-held REITs may be required to treat a certain percentage of such a REIT s distributions as UBTI. A REIT is a pension-held REIT only if the REIT would not qualify as such for federal income tax purposes but for the application of a look-through exception to the five or fewer requirement applicable to shares held by qualified trusts and the REIT is predominantly held by qualified trusts. A REIT is predominantly held if either at least one qualified trust holds more than 25% by value of the REIT interests or

qualified trusts, each owning more than 10% by value of the REIT interests, holds in the aggregate more than 50% of the REIT interests. The percentage of any REIT distribution treated as UBTI is equal to the ratio of (a) the UBTI earned by the REIT (treating the REIT as if it were a qualified trust and therefore subject to tax on UBTI) to (b) the total gross income (less certain associated expenses) of the REIT. In the event that this ratio is less than 5% for any year, then the

qualified trust will not be treated as having received UBTI as a result of the REIT distribution. For these purposes, a qualified trust is any trust described in Section 401(a) of the Internal Revenue Code and exempt from tax under Section 501(a) of the Internal Revenue Code.

Statement of Stock Ownership

We are required to demand annual written statements from the record holders of designated percentages of our common stock disclosing the actual owners of the shares. Any record stockholder who, upon our request, does not provide us with required information concerning actual ownership of the shares is required to include specified information relating to his or her shares in his or her federal income tax return. We also must maintain, within the Internal Revenue District in which we are required to file our federal income tax return, permanent records showing the information we have received about the actual ownership of our common stock and a list of those persons failing or refusing to comply with our demand.

State and Local Taxation

We and any operating subsidiaries we may form may be subject to state and local tax in states and localities in which we or they do business or own property. Our tax treatment and the tax treatment of our operating partnership, any operating subsidiaries, joint ventures or other arrangements we or our operating partnership may form or enter into and the tax treatment of the holders of our common stock in local jurisdictions may differ from the federal income tax treatment described above. Consequently, prospective stockholders should consult their own tax advisors regarding the effect of state and local tax laws on their investment in our common stock.

Federal Income Tax Aspects of Our Operating Partnership

The following discussion summarizes certain federal income tax considerations applicable to our investment in our operating partnership. The discussion does not cover state or local tax laws or any federal tax laws other than income tax laws.

Classification as a Partnership

We will be entitled to include in our income a distributive share of our operating partnership s income and to deduct our distributive share of our operating partnership s losses only if our operating partnership is classified for federal income tax purposes as a partnership, rather than as a corporation or an association taxable as a corporation. Under applicable Treasury Regulations, or the Check-the-Box-Regulations, an unincorporated domestic entity with at least two members may elect to be classified either as an association taxable as a corporation or as a partnership. If the entity fails to make an election, it generally will be treated as a partnership for federal income tax purposes. Our operating partnership intends to be classified as a partnership for federal income tax purposes and will not elect to be treated as an association taxable as a corporation under the Check-the-Box-Regulations.

Even though our operating partnership will not elect to be treated as an association for federal income tax purposes, it may be taxed as a corporation if it is deemed to be a publicly traded partnership. A publicly traded partnership is a partnership whose interests are traded on an established securities market or are readily tradable on a secondary market or the substantial equivalent thereof; provided, that even if the foregoing requirements are met, a publicly traded partnership will not be treated as a corporation for federal income tax purposes if at least 90% of the partnership s gross income for each taxable year consists of qualifying income under section 7704(d) of the Internal Revenue Code. Qualifying income generally includes any income that is qualifying income for purposes of the 95% Gross Income Test applicable to REITs. We refer to this exemption from being treated as a publicly traded partnership as the Passive-Type Income Exemption. See Requirements for Qualification as a REIT Operational Requirements

Gross Income Tests.

Under applicable Treasury Regulations, or the PTP Regulations, limited safe harbors from the definition of a publicly traded partnership are provided. Pursuant to one of those safe harbors, or the Private Placement Exclusion, interests in a partnership will not be treated as readily tradable on a secondary market or the

substantial equivalent thereof if (1) all interests in the partnership were issued in a transaction (or transactions) that were not required to be registered under the Securities Act of 1933 and (2) the partnership does not have more than 100 partners at any time during the partnership s taxable year. In determining the number of partners in a partnership, a person owning an interest in a flow-through entity (including a partnership, grantor trust or S corporation) that owns an interest in the partnership is treated as a partner in such partnership only if (a) substantially all of the value of the owner s interest in the flow-through entity is attributable to the flow-through entity s direct or indirect interest in the partnership and (b) a principal purpose of the use of the flow-through entity is to permit the partnership to satisfy the 100 partner limitation. Our operating partnership presently qualifies for the Private Placement Exclusion. Even if our operating partnership were considered a publicly traded partnership under the PTP Regulations because it was deemed to have more than 100 partners, our operating partnership should not be treated as a corporation because it should be eligible for the 90% Passive-Type Income Exception described above.

We have not requested, and do not intend to request, a ruling from the IRS that our operating partnership will be classified as a partnership for federal income tax purposes. If for any reason our operating partnership were taxable as a corporation, rather than a partnership, for federal income tax purposes, we would not be able to qualify as a REIT. See Requirements for Qualification as a REIT Operational Requirements Gross Income Tests and Requirements for Qualification as a REIT Operational Requirements Asset Tests. In addition, any change in our operating partnership s status for tax purposes might be treated as a taxable event, in which case we might incur a tax liability without any related cash distribution. Further, items of income and deduction of our operating partnership would not pass through to its partners, and its partners would be treated as stockholders for tax purposes. Our operating partnership would be required to pay income tax at corporate tax rates on its net income, and distributions to its partners would constitute dividends that would not be deductible in computing our operating partnership s taxable income.

Income Taxation of Our Operating Partnership and Its Partners

Partners, Not Partnership, Subject to Tax. A partnership is not a taxable entity for federal income tax purposes. As a partner in our operating partnership, we will be required to take into account our allocable share of our operating partnership s income, gains, losses, deductions, and credits for any taxable year of our operating partnership ending within or with our taxable year, without regard to whether we have received or will receive any distributions from our operating partnership.

Partnership Allocations. Although a partnership agreement generally determines the allocation of income and losses among partners, such allocations will be disregarded for tax purposes under section 704(b) of the Internal Revenue Code if they do not have substantial economic effect. If an allocation is not recognized for federal income tax purposes, the item subject to the allocation will be reallocated in accordance with the partner s interests in the partnership, which will be determined by taking into account all of the facts and circumstances relating to the economic arrangement of the partners with respect to such item. Our operating partnership s allocations of taxable income and loss are intended to comply with the requirements of section 704(b) of the Internal Revenue Code and the Treasury Regulations promulgated thereunder.

Tax Allocations With Respect to Contributed Properties. Pursuant to section 704(c) of the Internal Revenue Code, income, gain, loss, and deduction attributable to appreciated or depreciated property that is contributed to a partnership in exchange for an interest in the partnership must be allocated for federal income tax purposes in a manner such that the contributor is charged with, or benefits from, the unrealized gain or unrealized loss associated with the property at the time of the contribution. The amount of unrealized gain or unrealized loss is generally equal to the difference between the fair market value of the contributed property at the time of contribution and the adjusted tax basis of such property at the time of contribution. Under applicable Treasury Regulations, partnerships are required to use a reasonable method for allocating items subject to section 704(c) of the Internal Revenue Code and several reasonable allocation methods are described therein.

Under the partnership agreement, depreciation or amortization deductions of our operating partnership generally will be allocated among the partners in accordance with their respective interests in our partnership,

except to the extent that our operating partnership is required under section 704(c) of the Internal Revenue Code to use a different method for allocating depreciation deductions attributable to its contributed properties. In addition, gain or loss on the sale of a property that has been contributed to our operating partnership will be specially allocated to the contributing partner to the extent of any remaining built-in gain or loss with respect to the property for federal income tax purposes. It is possible that we may (1) be allocated lower amounts of depreciation deductions for tax purposes with respect to contributed properties than would be allocated to us if each such property were to have a tax basis equal to its fair market value at the time of contribution, and (2) be allocated taxable gain in the event of a sale of such contributed properties in excess of the economic profit allocated to us as a result of such sale. These allocations may cause us to recognize taxable income in excess of cash proceeds received by us, which might adversely affect our ability to comply with the REIT distribution requirements, although we do not anticipate that this event will occur. The foregoing principles also will affect the calculation of our earnings and profits for purposes of determining the portion of our distributions that are taxable as a dividend. The allocations described in this paragraph may result in a higher portion of our distributions being taxed as a dividend than would have occurred had we purchased such properties for cash.

Basis in Partnership Interest. The adjusted tax basis of our partnership interest in our operating partnership generally will be equal to (1) the amount of cash and the basis of any other property contributed to our operating partnership by us, (2) increased by (A) our allocable share of our operating partnership s income and (B) our allocable share of indebtedness of our operating partnership, and (3) reduced, but not below zero, by (A) our allocable share of our operating partnership s loss and (B) the amount of cash distributed to us, including constructive cash distributions resulting from a reduction in our share of indebtedness of our operating partnership. If the allocation of our distributive share of our operating partnership s loss would reduce the adjusted tax basis of our partnership interest in our operating partnership below zero, the recognition of the loss will be deferred until such time as the recognition of the loss would not reduce our adjusted tax basis below zero. If a distribution from our operating partnership or a reduction in our share of our operating partnership s liabilities would reduce our adjusted tax basis below zero, that distribution, including a constructive distribution, will constitute taxable income to us. The gain realized by us upon the receipt of any such distribution or constructive distribution would normally be characterized as capital gain, and if our partnership interest in our operating partnership has been held for longer than the long-term capital gain holding period (currently one year), the distribution would constitute long-term capital gain.

Sale of Our Operating Partnership s Property. Generally, any gain realized by our operating partnership on the sale of property held for more than one year will be long-term capital gain, except for any portion of such gain that is treated as depreciation or cost recovery recapture. Our share of any gain realized by our operating partnership on the sale of any property held by our operating partnership as inventory or other property held primarily for sale to customers in the ordinary course of our operating partnership s trade or business will be treated as income from a prohibited transaction that is subject to a 100% tax. We, however, do not presently intend to acquire or hold or allow our operating partnership to acquire or hold any property that represents inventory or other property held primarily for sale to customers in the ordinary course of our or our operating partnership s trade or business.

Table of Contents

EMPLOYEE BENEFIT PLAN AND IRA CONSIDERATIONS

The following is a summary of some non-tax considerations associated with an investment in our shares by a Benefit Plan (as defined below). This summary is based on provisions of the Employee Retirement Income Security Act of 1974, as amended, referred to as ERISA, and the Internal Revenue Code, through the date of this prospectus, and relevant regulations, rulings and opinions issued by the Department of Labor and the IRS. We cannot assure you that there will not be adverse court decisions or legislative, regulatory or administrative changes that would significantly modify the statements expressed herein. Any such changes may or may not apply to transactions entered into prior to the date of their enactment.

In addition, this summary does not include a discussion of any laws, regulations or statutes that may apply to investors not covered by ERISA, including, for example, state statutes that impose fiduciary responsibility requirements in connection with the investment of assets of governmental plans, which may have prohibitions that operate similarly to the prohibited transaction rules of ERISA and the Internal Revenue Code.

We collectively refer to employee pension benefit plans subject to ERISA (such as profit sharing, section 401(k) and pension plans), other retirement plans and accounts subject to Section 4975 of the Internal Revenue Code but not subject to ERISA (such as IRAs), and health and welfare plans subject to ERISA as Benefit Plans. Each fiduciary or other person responsible for the investment of the assets of a Benefit Plan seeking to invest plan assets in our shares must, taking into account the facts and circumstances of such Benefit Plan, consider, among other matters:

- whether the investment is consistent with the applicable provisions of ERISA and the Internal Revenue Code;
- whether, under the facts and circumstances pertaining to the Benefit Plan in question, the fiduciary s responsibility to the plan has been satisfied;
- whether the investment will produce UBTI to the Benefit Plan (see Federal Income Tax Considerations Treatment of Tax-Exempt Stockholders);
- the need to value at fair market value the assets of the Benefit Plan annually; and
- whether the assets of the entity in which the investment is made will be treated as plan assets of the Benefit Plan investor.

With respect to Benefit Plans which are subject to ERISA, a plan fiduciary s responsibilities include the following duties:

- to act solely in the interest of plan participants and beneficiaries and for the exclusive purpose of providing benefits to them, as well as defraying reasonable expenses of plan administration;
- to invest plan assets prudently;
- to diversify the investments of the plan unless it is clearly prudent not to do so;
- to ensure sufficient liquidity for the plan;

to follow the plan document and other instruments governing the plan insofar as such documents and instruments are consistent with ERISA; and

to consider whether an investment would constitute or give rise to a prohibited transaction under ERISA.

ERISA also requires that the assets of a Benefit Plan subject to ERISA be held in trust and that the trustee, or a duly authorized named fiduciary or investment manager, have exclusive authority and discretion to manage and control the assets of the plan.

Prohibited Transactions

Section 406 of ERISA and Section 4975 of the Internal Revenue Code prohibit specified transactions involving the assets of a Benefit Plan. In general, these are transactions between the plan and any person that is a party in interest or disqualified person with respect to that Benefit Plan. These transactions are prohibited regardless of how beneficial they may be for the Benefit Plan. Prohibited transactions include the sale, exchange or leasing of property, and the lending of money or the extension of credit, between a Benefit Plan and a party in interest or disqualified person. The transfer to, or use by or for the benefit of, a party in interest, or disqualified person of any assets of a Benefit Plan is also prohibited. A fiduciary of a Benefit Plan also is prohibited from engaging in self-dealing, acting for a person who has an interest adverse to the plan or receiving any consideration for its own account from a party dealing with the plan in a transaction involving plan assets. Furthermore, Section 408 of the Internal Revenue Code states that assets of an IRA trust may not be commingled with other property except in a common trust fund or common investment fund.

Plan Asset Considerations

In order to determine whether an investment in our shares by Benefit Plans creates or gives rise to the potential for either prohibited transactions or commingling of assets as referred to above, a fiduciary must consider whether an investment in our shares by Benefit Plans will cause our assets to be treated as assets of the investing Benefit Plans. Although neither ERISA nor the Internal Revenue Code specifically define the term plan assets, ERISA and a U.S. Department of Labor Regulation, referred to collectively as the Plan Asset Rules, provides guidelines as to the circumstances in which the underlying assets of an entity will be deemed to constitute assets of a Benefit Plan when the plan invests in that entity. Under the Plan Asset Rules, if a Benefit Plan acquires an equity interest in an entity which is neither a publicly-offered security nor a security issued by an investment company registered under the Investment Company Act, the Benefit Plan s assets would include both the equity interest and an undivided interest in each of the entity s underlying assets unless an exception from the Plan Asset Rules applies.

The regulation defines a publicly-offered security as a security that is:

- widely-held;

- freely-transferable; and

- either (1) part of a class of securities registered under Section 12(b) or 12(g) of the Securities Exchange Act of 1934, or (2) sold in connection with an effective registration statement under the Securities Act of 1933, provided the securities are registered under the Securities Exchange Act of 1934 within 120 days (or such later time as may be allowed by the SEC) after the end of the fiscal year of the issuer during which the offering occurred.

The Plan Asset Rules provides that a security is widely held only if it is part of a class of securities that is owned by 100 or more investors independent of the issuer and of one another. A security will not fail to be widely held because the number of independent investors falls below 100 subsequent to the initial public offering as a result of events beyond the issuer s control. Although we anticipate that upon completion of this offering, our common stock will be widely held, our common stock will not be widely held until we sell shares to 100 or more independent investors.

Whether a security is freely transferable depends upon the particular facts and circumstances. For example, our shares are subject to certain restrictions on transferability intended to ensure that we continue to qualify for federal income tax treatment as a REIT. The Plan Asset Rules provide, however, that where the minimum investment in a public

offering of securities is $10,000 or less, a restriction on, or a prohibition of, transfers which would result in a termination or reclassification of the entity for state or federal tax purposes will not ordinarily affect a determination that such securities are freely transferable. The minimum investment in our shares is less than $10,000; thus, the restrictions imposed upon shares in order to maintain our status as a REIT should not cause the shares to be deemed not freely transferable.

Our shares of common stock are being sold in connection with an effective registration statement under the Securities Act of 1933. We expect to be exempt from registration as an investment company under the Investment Company Act. See Investment Objectives, Strategy and Criteria Investment Company Act Considerations.

In the event our assets could be characterized as plan assets of Benefit Plan investors that own shares of our common stock, one exception in the Plan Asset Rules provides that the assets of a Benefit Plan will not include the underlying assets of an entity in which the Benefit Plan invests if equity participation in the entity by benefit plan investors is not significant. Equity participation in an entity by benefit plan investors is considered significant if 25% or more of the value of any class of equity interests in the entity is held by such benefit plan investors. The terms benefit plan investor means (i) employee benefit plans subpart to Part 4 of Title I of ERISA, (ii) plans described in Section 4975(c)(i) of the Internal Revenue Code, and (iii) certain entities or funds whose underlying assets are considered plan assets by reason of investment in such entities or funds by investors described in clause (i) and (ii).

Equity interests held by a person with discretionary authority or control with respect to the assets of the entity, and equity interests held by a person who provides investment advice for a fee (direct or indirect) with respect to such assets or any affiliate of any such person (other than a benefit plan investor), are disregarded for purposes of determining whether equity participation by benefit plan investors is significant. The Plan Asset Rules provide that the 25% of ownership test applies at the time of an acquisition by any person of the equity interests. In addition, an advisory opinion of the Department of Labor takes the position that a redemption of an equity interest by an investor constitutes the acquisition of an equity interest by the remaining investors (through an increase in their percentage ownership of the remaining equity interests). The Department of Labor position necessitates the testing of whether the 25% limitation has been exceeded at the time of a redemption of interests in the entity.

Our charter will prohibit benefit plan investors from owning, directly or indirectly, in the aggregate, 25% or more of our common stock prior to the date that either our common stock qualifies as a class of publicly offered securities or we qualify for another exemption in the Plan Asset Rules other than the 25% limitation. In addition, the charter also provides that we have the power to take certain actions to avoid having our assets characterized as plan assets under the Plan Asset Rules, including the right to redeem shares and to refuse to give effect to a transfer of shares. While we do not expect that we will need to exercise such power, we cannot give any assurance that such power will not be exercised. Based on the foregoing, we believe that our assets should not be deemed to be plan assets of any Benefit Plan that invests in our common stock.

In the event that our underlying assets were treated by the Department of Labor as the assets of investing Benefit Plans, our management would be treated as fiduciaries with respect to each Benefit Plan investor, and an investment in our shares might constitute an inappropriate delegation of fiduciary responsibility to our advisor and expose the fiduciary of the Benefit Plan to co-fiduciary liability under ERISA for any breach by our advisor of the fiduciary duties mandated under ERISA. Further, if our assets are deemed to be plan assets, an investment by an IRA in our shares might be deemed to result in an impermissible commingling of IRA assets with other property.

In addition, if our underlying assets are deemed to be the assets of each benefit plan investor, the prohibited transaction restrictions of ERISA and the Internal Revenue Code would apply to any transaction involving our assets. These restrictions would, for example, require that we avoid transactions with entities that are affiliated with us or our advisor and its or any other fiduciaries or parties-in-interest or disqualified persons with respect to the benefit plan investors unless such transactions otherwise were exempt, statutorily or administratively, from the prohibitions of ERISA and the Internal Revenue Code.

If a prohibited transaction were to occur, the Internal Revenue Code imposes an excise tax equal to 15% of the amount involved and authorizes the IRS to impose an additional 100% excise tax if the prohibited transaction is not corrected in a timely manner. These taxes would be imposed on any disqualified person who participates in the prohibited

transaction. In addition, our advisor and possibly other fiduciaries of Benefit Plans subject to ERISA who permitted the prohibited transaction to occur or who otherwise breached their fiduciary responsibilities, or a non-fiduciary participating in a prohibited transaction, could be required to

restore to the Benefit Plan any profits they realized as a result of the transaction or breach, and make whole the Benefit Plan for any losses incurred as a result of the transaction or breach. For those Benefit Plans that are outside the authority of the IRS, ERISA provides that the Secretary of the Department of Labor may impose civil penalties, which largely parallel the foregoing excise taxes imposed by the IRS, upon parties-in-interest that engage in a prohibited transactions. With respect to an IRA that invests in our shares, the occurrence of a prohibited transaction involving the individual who established the IRA, or his or her beneficiary, would cause the IRA to lose its tax-exempt status under Section 408(e)(2) of the Internal Revenue Code, and such individual would be taxable on the deemed distribution of all assets in the IRA.

Other Prohibited Transactions

Regardless of whether the our assets are characterized as plan assets under the Plan Asset Rules, a prohibited transaction could occur if we, our advisor, any selected dealer or any of their affiliates are a fiduciary (within the meaning of Section 3(21) of ERISA) with respect to any Benefit Plan purchasing our common stock. Accordingly, unless an administrative or statutory exemption applies, shares should not be purchased by a Benefit Plan with respect to which any of the above persons is a fiduciary. A person is a fiduciary with respect to a Benefit Plan under Section 3(21) of ERISA if, among other things, the person has discretionary authority or control with respect to plan assets or provides investment advice for a direct or indirect fee with respect to plan assets or has any authority to do so. Under a regulation issued by the Department of Labor, a person shall be deemed to be providing investment advice if that person renders advice as to the advisability of investing in our shares and that person regularly provides investment advice to the Benefit Plan pursuant to a mutual agreement or understanding (written or otherwise) (1) that the advice will serve as the primary basis for investment decisions, and (2) that the advice will be individualized for the Benefit Plan based on its particular needs.

Any potential investor considering an investment in shares of our common stock that is, or is acting on behalf of, a Benefit Plan is strongly urged to consult its own legal and tax advisors regarding the consequences of such an investment under ERISA, the Internal Revenue Code and any applicable similar laws.

DESCRIPTION OF CAPITAL STOCK

We were formed under the laws of the State of Maryland. The rights of our stockholders are governed by Maryland law as well as our charter and bylaws. The following summary of the terms of our stock is a summary of all material provisions concerning our stock and you should refer to the Maryland General Corporation Law and our charter and bylaws for a full description. The following summary is qualified in its entirety by the more detailed information contained in our charter and bylaws. Copies of our charter and bylaws are filed as exhibits to the registration statement of which this prospectus is a part. You can obtain copies of our charter and bylaws and every other exhibit to our registration statement. Please see Where You Can Find Additional Information below.

Under our charter, we have authority to issue a total of 1,200,000,000 shares of capital stock. Of the total shares authorized, 1,000,000,000 shares are designated as common stock with a par value of $0.01 per share and 200,000,000 shares are designated as preferred stock with a par value of $0.01 per share. In addition, our board of directors may amend our charter, without stockholder approval, to increase or decrease the aggregate number of shares of stock or the number of shares of stock of any class or series that we have authority to issue.

As of November 30, 2007, 19,802,667 shares of our common stock were issued and outstanding, and no shares of our preferred stock were issued and outstanding.

Common Stock

The holders of common stock are entitled to one vote per share on all matters voted on by stockholders, including election of our directors. Our charter does not provide for cumulative voting in the election of our directors. Therefore, the holders of a majority of the outstanding shares of common stock can elect our entire board of directors. Subject to any preferential rights of any outstanding class or series of shares and to the provisions in our charter regarding the restriction on the transfer of common stock, the holders of common stock are entitled to such distributions as may be authorized from time to time by our board of directors and declared by us out of legally available funds and, upon liquidation, are entitled to receive all assets available for distribution to our stockholders. Upon issuance for full payment in accordance with the terms of this offering, all shares issued in the offering will be fully paid and non-assessable. Holders of common stock will not have preemptive rights, which means that you will not have an automatic option to purchase any new shares that we issue. Our shares of common stock will have equal distribution, liquidation and other rights.

Our charter also contains a provision permitting our board of directors, without any action by our stockholders, to classify or reclassify any unissued common stock into one or more classes or series by setting or changing the relative voting, conversion or other rights, preferences, restrictions, limitations as to distributions and qualifications or terms or conditions of redemption of any new class or series of shares.

We will generally not issue certificates for our shares. Shares will be held in uncertificated form, which will eliminate the physical handling and safekeeping responsibilities inherent in owning transferable stock certificates and eliminate the need to return a duly executed stock certificate to effect a transfer. Trust Company of America will act as our transfer agent and registrar through December 31, 2007. Commencing January 1, 2008, we will act as our transfer agent and registrar and will process all subscription agreements and stock transfers. Transfers can be effected simply by mailing a transfer and assignment form to us, which we will provide to you at no charge upon request.

Preferred Stock

Our charter authorizes our board of directors to designate and issue one or more classes or series of preferred stock without stockholder approval, and to establish the relative voting, conversion or other rights, preferences, restrictions, limitations as to distributions and qualifications or terms or conditions of redemption of each class or series of preferred shares so issued. Because our board of directors has the power to establish the preferences and rights of each class or series of preferred stock, it may afford the holders of any series or class of preferred stock preferences, powers and rights senior to the rights of holders of common stock. However, the voting rights per share of any series or class of preferred stock sold in a private offering may not exceed voting rights which bear the same relationship to the voting rights of a publicly held share as the consideration paid to us for each privately-held preferred share bears to the book value of each outstanding publicly held share. In addition, a majority of our independent directors must approve the issuance of preferred stock to our advisor or one of its affiliates. If we ever created and issued preferred stock with a distribution preference over common stock, payment of any distribution preferences of outstanding preferred stock would reduce the amount of funds available for the payment of distributions on the common stock. Further, holders of preferred stock are normally entitled to receive a liquidation preference in the event we liquidate, dissolve or wind up before any payment is made to the common stockholders, likely reducing the amount common stockholders would otherwise receive upon such an occurrence. In addition, under certain circumstances, the issuance of preferred stock may render more difficult or tend to discourage a merger, offer or proxy contest, the assumption of control by a holder of a large block of our securities, or the removal of incumbent management. Our board of directors has no present plans to issue any preferred stock, but may do so at any time in the future without stockholder approval.

Meetings and Special Voting Requirements

An annual meeting of the stockholders will be held each year, at least 30 days after delivery of our annual report. Special meetings of stockholders may be called only upon the request of a majority of our directors, a majority of the independent directors or our president or upon the written request of stockholders

holding at least 10% of the shares. The presence of a majority of the outstanding shares either in person or by proxy shall constitute a quorum. Generally, the affirmative vote of a majority of all votes entitled to be cast is necessary to take stockholder action authorized by our charter, except that a majority of the votes represented in person or by proxy at a meeting at which a quorum is present is sufficient to elect a director.

Under the Maryland General Corporation Law and our charter, stockholders are entitled to vote at a duly held meeting at which a quorum is present on (1) amendments to our charter, (2) our liquidation or dissolution, (3) our reorganization, (4) a merger, consolidation or sale or other disposition of all or substantially all of our assets, and (5) election or removal of our directors. Except with respect to the election of directors or as otherwise provided in our charter, the vote of stockholders holding a majority of our outstanding shares is required to approve any such action, and no such action can be taken by our board of directors without such majority vote of our stockholders. Stockholders are not entitled to exercise any of the rights of an objecting stockholder provided for in Title 3, Subtitle 2 of the Maryland General Corporation Law unless our board of directors determines that such rights shall apply. Stockholders do have the power, without the concurrence of the directors, to remove a director from our board with or without cause, by the affirmative vote of a majority of the shares entitled to vote on such matter.

Stockholders are entitled to receive a copy of our stockholder list upon request. The list provided by us will include each stockholder s name, address and telephone number, if available, and number of shares owned by each stockholder and will be sent within 10 days of our receipt of the request. A stockholder requesting a list will be required to pay reasonable costs of postage and duplication. We have the right to request that a requesting stockholder represent to us that the list will not be used to pursue commercial interests.

In addition to the foregoing, stockholders have rights under Rule 14a-7 under the Securities Exchange Act of 1934, which provides that, upon the request of a stockholder and the payment of the expenses of the distribution, we are required to distribute specific materials to stockholders in the context of the solicitation of proxies by a stockholder for voting on matters presented to stockholders or, at our option, provide requesting stockholders with a copy of the list of stockholders so that the requesting stockholder may make the distribution of such materials.

Restriction on Ownership of Shares

In order for us to qualify as a REIT, not more than 50% of our outstanding shares may be owned by any five or fewer individuals during the last half of any taxable year beginning with the second taxable year in which we qualify as a REIT. In addition, the outstanding shares must be owned by 100 or more persons during at least 335 days of a 12-month taxable year or during a proportionate part of a shorter taxable year beginning with the second taxable year in which we qualify as a REIT. We may prohibit certain acquisitions and transfers of shares so as to ensure our continued qualification as a REIT under the Internal Revenue Code. However, we cannot assure you that this prohibition will be effective.

Our charter contains a limitation on ownership that prohibits any individual or entity from directly acquiring beneficial ownership of more than 9.8% of the value of our then outstanding capital stock (which includes common stock and any preferred stock we may issue) or more than 9.8% of the value or number of shares, whichever is more restrictive, of our then outstanding common stock.

Any attempted transfer of our stock which, if effective, would result in our stock being owned by fewer than 100 persons will be null and void. Any attempted transfer of our stock which, if effective, would result in violation of the ownership limits discussed above or in our being closely held under Section 856(h) of the Internal Revenue Code or otherwise failing to qualify as a REIT, will cause the number of shares causing the violation (rounded to the nearest whole share) to be automatically transferred to a trust for the exclusive benefit of one or more charitable beneficiaries, and the proposed transferee will not acquire any rights in the shares. The automatic transfer will be deemed to be

effective as of the close of business on the business day prior to the date of the transfer. We will designate a trustee of the share trust that will not be affiliated with us. We will also name one or more charitable organizations as a beneficiary of the share trust. Shares-in-trust will remain issued and outstanding shares and will be entitled to the same rights and privileges as all other shares of the same class or series. The

trustee will receive all distributions on the shares-in-trust and will hold such distributions in trust for the benefit of the beneficiary. The trustee will vote all shares-in-trust during the period they are held in trust.

The trustee of the trust will be empowered to sell the shares-in-trust to a qualified person selected by the trustee and to distribute to the applicable prohibited owner an amount equal to the lesser of (1) the sales proceeds received by the trust for such shares-in-trust or (2) (A) if the prohibited owner was a transferee for value, the price paid by the prohibited owner for such shares-in-trust or (B) if the prohibited owner was not a transferee or was a transferee but did not give value for the shares-in-trust, the fair market value of such shares-in-trust, as determined in good faith by our board of directors. Any amount received by the trustee in excess of the amount to be paid to the prohibited owner will be distributed to the beneficiary of the trust. In addition, all shares-in-trust will be deemed to have been offered for sale to us or our designee, at a price per share equal to the lesser of (1) the price per share in the transaction that created such shares-in-trust (or, in the case of devise, gift, or other event other than a transfer for value, the market price of such shares at the time of such devise, gift, or other event) and (2) the market price on the date we, or our designee, accepts such offer.

Any person who acquires shares in violation of the foregoing restriction or who owns shares that were transferred to any such trust is required to give immediate written notice to us of such event. Such person shall provide to us such other information as we may request in order to determine the effect, if any, of such transfer on our status as a REIT.

The foregoing restrictions will continue to apply until our board of directors determines it is no longer in our best interest to continue to qualify as a REIT.

Our board of directors, in its sole discretion, may exempt a person from the limitation on ownership of more than 9.8% of the value of our then outstanding capital stock (which includes common stock and any preferred stock we may issue) or more than 9.8% of the in value or number of shares, whichever is more restrictive, of our then outstanding common stock. However, the board may not exempt any person whose ownership of our outstanding stock would result in our being closely held within the meaning of Section 856(h) of the Internal Revenue Code or otherwise would result in our failing to qualify as a REIT. In order to be considered by the board for exemption, a person also must not own, directly or indirectly, an interest in our tenant (or a tenant of any entity which we own or control) that would cause us to own, directly or indirectly, more than a 9.9% interest in the tenant. The person seeking an exemption must represent to the satisfaction of the board that it will not violate these two restrictions. The person also must agree that any violation or attempted violation of these restrictions will result in the automatic transfer of the shares of stock causing the violation to the share trust.

Any stockholder of record who owns 5% (or such lower level as required by the Internal Revenue Code and the regulations thereunder) or more of the outstanding shares during any taxable year will be asked to deliver a statement or affidavit setting forth the name and address of such record owner, the number of shares actually owned by such stockholder, and such information regarding the beneficial ownership of the shares as we may request in order to determine the effect, if any, of such actual or beneficial ownership on our status as a REIT and to ensure compliance with the ownership limit.

Any subsequent transferee to whom you transfer any of your shares must also comply with the suitability standards we have established for all stockholders. See Suitability Standards.

Distribution Policy

We intend to accrue and pay distributions on a monthly basis. On February 14, 2007, our board of directors approved an increase in our distribution rate from 6.50% per annum to 7.25% per annum. The increased distribution began with the February 2007 monthly distribution, which was paid in March 2007. Distributions are paid to stockholders on a

monthly basis. Our distribution policy is set by our board of directors and is subject to change based on available cash flows. We cannot guarantee the amount of distributions paid in the future, if any, although we expect to make monthly distribution payments following the end of each calendar month. In connection with a distribution to our stockholders, our board of directors approves a monthly distribution for a certain dollar amount per share of our common stock. We then calculate

each stockholder s specific distribution amount for the month using daily record and declaration dates, and your distributions begin to accrue on the date we mail a confirmation of your subscription for shares of our common stock, subject to our acceptance of your subscription.

We are required to make distributions sufficient to satisfy the requirements for qualification as a REIT for tax purposes. We intend to distribute sufficient income so that we satisfy the requirements for qualification as a REIT. In order to qualify as a REIT, we are required to distribute 90% of our annual taxable income to our stockholders. See Federal Income Tax Considerations Requirements for Qualification as a REIT Operational Requirements Annual Distribution Requirement. Generally, income distributed to stockholders will not be taxable to us under the Internal Revenue Code if we distribute at least 90% of our taxable income. See Federal Income Tax Considerations Requirements for Qualification as a REIT.

Distributions will be authorized at the discretion of our board of directors, in accordance with our earnings, cash flow and general financial condition. Our board s discretion will be directed, in substantial part, by its obligation to cause us to comply with the REIT requirements. Because we may receive income from interest or rents at various times during our fiscal year, distributions may not reflect our income earned in that particular distribution period but may be made in anticipation of cash flow which we expect to receive during a later quarter and may be made in advance of actual receipt of funds in an attempt to make distributions relatively uniform. Due to these timing differences, we may be required to borrow money, use proceeds from the issuance of securities or sell assets in order to pay out enough of our taxable income to satisfy the requirement that we distribute at least 90% of our taxable income, other than net capital gains, in order to qualify as a REIT.

Generally, distributions that you receive, including distributions that are reinvested pursuant to our distribution reinvestment plan, will be taxed as ordinary income to the extent they are from current or accumulated earnings and profits. To the extent that we make a distribution in excess of our current and accumulated earnings and profits, the distribution will be treated first as a tax-free return of capital, reducing the tax basis in your shares, and the amount of each distribution in excess of your tax basis in your shares will be taxable as a gain realized from the sale of your shares. If you receive a distribution in excess of our current and accumulated earnings and profits, upon the sale of your shares you may realize a higher taxable gain or a smaller loss because the basis of the shares as reduced will be used for purposes of computing the amount of the gain or loss. In addition, individual investors will be subject to tax at capital gains rates on distributions made by us that we designate as capital gain dividends. However, because each investor s tax considerations are different, we suggest that you consult with your tax advisor. Please see Federal Income Tax Considerations.

Under the Maryland General Corporation Law, if our board of directors gives general authorization for a distribution and provides for or establishes a method or procedure for determining the maximum amount of the distribution, our board of directors may delegate to a committee of directors or one of our officers the power, in accordance with the general authorization, to fix the amount and other terms of the distribution.

We are not prohibited from distributing our own securities in lieu of making cash distributions to stockholders, provided that the securities so distributed to stockholders are readily marketable. Stockholders who receive marketable securities in lieu of cash distributions may incur transaction expenses in liquidating the securities.

Distribution Reinvestment Plan

We currently have a distribution reinvestment plan available that allows you to have your distributions otherwise distributable to you invested in additional shares of common stock.

During this offering, you may purchase shares under our distribution reinvestment plan for $9.50 per share. Thereafter, shares in the plan will be offered (1) 95% of the offering price in any subsequent public equity offering during such offering, and (2) 95% of the most recent offering price for the first 12 months subsequent to the close of the last public offering of shares prior to the listing of the shares on a national securities exchange. After that 12-month period, participants in the distribution reinvestment plan may acquire shares at 95% of the per share valuation determined by our advisor or another firm chosen for that purpose until the listing. From and after the date of such listing, participants may acquire shares at a price equal to

100% of the average daily open and close price per share on the distribution payment date, as reported by the national securities exchange on which the shares are traded. We will not pay selling commissions, the marketing support fee or due diligence expense reimbursements with respect to shares purchased pursuant to our distribution reinvestment plan. A copy of our distribution reinvestment plan as currently in effect is included as Appendix D to this prospectus.

Stockholders participating in our distribution reinvestment plan may purchase whole or fractional shares, subject to certain minimum investment requirements and other restrictions which may be imposed by our board of directors. If sufficient shares of our common stock are not available for issuance under our distribution reinvestment plan, we will remit excess dividends of net cash from operations to the participants. If you elect to participate in the distribution reinvestment plan, you must agree that, if at any time you fail to meet the applicable investor suitability standards or cannot make the other investor representations or warranties set forth in the then current prospectus or the subscription agreement relating to such investment, you will promptly notify our advisor in writing of that fact.

Stockholders purchasing shares of our common stock pursuant to the distribution reinvestment plan will have the same rights and will be treated in the same manner as if such shares of common stock were purchased pursuant to this offering.

Following reinvestment, we will send each participant a written confirmation showing the amount of the distribution, the number of shares of common stock owned prior to the reinvestment, and the total number of shares of common stock owned after the distribution reinvestment.

You may elect to participate in the distribution reinvestment plan by making the appropriate election on the subscription agreement, or by completing the enrollment form or other authorization form available from the plan administrator. Participation in the plan will begin with the next distribution made after receipt of your election. We may terminate the distribution reinvestment plan for any reason at any time upon 10 days prior written notice to participants. Your participation in the plan will also be terminated to the extent that a reinvestment of your distributions in our shares would cause the percentage ownership limitation contained in our charter to be exceeded. In addition, you may terminate your participation in the distribution reinvestment plan by providing us with 10 days written notice. A transfer of common stock will terminate the stockholder s participation in the distribution reinvestment plan with respect to such shares unless the transferee makes an election to participate in the plan.

If you elect to participate in the distribution reinvestment plan and are subject to federal income taxation, you will incur a tax liability for distributions otherwise distributable to you even though you have elected not to receive the distributions in cash but rather to have the distributions withheld and reinvested pursuant to the distribution reinvestment plan. Specifically, you will be treated as if you have received the distribution from us in cash and then applied such distribution to the purchase of additional shares. As a result, you may have a tax liability without receiving cash distributions to pay such liability and would have to rely on sources of funds other than our distributions to pay your taxes. You will be taxed on the amount of such distribution as ordinary income to the extent such distribution is from current or accumulated earnings and profits, unless we have designated all or a portion of the distribution as a capital gain distribution.

Share Repurchase Plan

Our board of directors has adopted a share repurchase plan that provides eligible stockholders with limited, interim liquidity by enabling them to sell their shares back to us in limited circumstances. However, our board of directors could choose to amend the provisions of the share repurchase plan without stockholder approval. Our share repurchase plan permits you to sell your shares back to us after you have held them for at least one year, subject to the significant restrictions and conditions described below.

The prices at which shares may be sold back to us are as follows:

During the offering period at $9.00 per share;

During the 12 months following the end of the offering period at $9.25 per share;

During the next 12 months at $9.50 per share;

During the next 12 months at $9.75 per share; and

Thereafter, at the greater of: (a) $10.00 per share; or (b) a price equal to 10 times our funds available for distribution per weighted average share outstanding for the prior calendar year.

We will make repurchases under our repurchase plan quarterly, at our sole discretion, on a *pro rata* basis. Subject to funds being available, we will limit the number of shares repurchased during any calendar year to 5% of the weighted average number of shares outstanding during the prior calendar year. Funding for our repurchase program will come exclusively from proceeds we receive from the sale of shares under our distribution reinvestment plan.

Our board of directors will redeem shares held by a stockholder who is a natural person, including shares held by such stockholder through a revocable grantor trust, or an IRA or other retirement or profit-sharing plan, with a qualifying disability, as determined by the board of directors, after receiving written notice from such stockholder. We must receive the written notice within 180 days after such stockholder s qualifying disability. This waiver of the one-year holding period will not apply to a stockholder that is not a natural person, such as a trust other than a revocable grantor trust, partnership, corporation or other similar entity.

In connection with repurchase requests upon the death or a qualifying disability of a stockholder (1) we will waive the one-year holding period and (2) the price to be paid for the shares to be repurchased will be (a) during the offering period and for the 36-months thereafter, $10.00 per share (or if the shares were sold at a discount, then at the discounted price) and (b) after the 36-month period following the offering period, the greater of $10.00 per share or a price equal to 10 times our funds available for distribution per weighted average share outstanding for the prior calendar year. In addition, if there are insufficient funds to honor all repurchase requests, preference will be given to shares to be repurchased in connection with a death or qualifying disability.

Our board of directors, in its sole discretion, may choose to terminate, amend or suspend our share repurchase plan at any time if it determines that the funds allocated to our share repurchase plan are needed for other purposes, such as the acquisition, maintenance or repair of properties, or for use in making a declared distribution payment. A determination by the board of directors to terminate, amend or suspend our share repurchase plan will require the affirmative vote of the majority of the board of directors, including a majority of the independent directors.

We cannot guarantee that the funds set aside for our share repurchase plan will be sufficient to accommodate all requests made each year. Pending requests will be honored on a *pro rata* basis if insufficient funds are available to honor all requests. If no funds are available for the plan when repurchase is requested, the stockholder may withdraw the request or ask that we honor the request when funds are available. In addition, you may withdraw a repurchase request upon written notice at any time prior to the date of repurchase.

Stockholders are not required to sell their shares to us. Our share repurchase plan is intended only to provide limited, interim liquidity for stockholders until a liquidity event occurs, such as the listing of our common stock on a national securities exchange, our merger with a listed company or the sale of substantially all of our assets. We cannot guarantee that a liquidity event will occur.

Shares we purchase under our share repurchase plan will be canceled and will have the status of authorized but unissued shares. Shares we acquire through our share repurchase plan will not be reissued unless they are first registered with the SEC under the Securities Act of 1933 and under appropriate state securities laws or otherwise issued in compliance with such laws.

If we terminate, amend or suspend our share repurchase plan, we will send a letter to stockholders informing them of the change, and we will disclose the changes in reports filed with the SEC. For more information, please see the copy of our share repurchase plan attached as Appendix E.

Restrictions on Roll-Up Transactions

In connection with any proposed transaction considered a Roll-up Transaction involving us and the issuance of securities of an entity that would be created or would survive after the successful completion of the Roll-up Transaction, an appraisal of all properties shall be obtained from a competent independent appraiser. The properties shall be appraised on a consistent basis, and the appraisal shall be based on the evaluation of all relevant information and shall indicate the value of the properties as of a date immediately prior to the announcement of the proposed Roll-up Transaction. The appraisal shall assume an orderly liquidation of properties over a 12-month period. The terms of the engagement of the independent appraiser shall clearly state that the engagement is for our benefit and the benefit of our stockholders. A summary of the appraisal, indicating all material assumptions underlying the appraisal, shall be included in a report to stockholders in connection with any proposed Roll-up Transaction.

A Roll-up Transaction is a transaction involving the acquisition, merger, conversion or consolidation, directly or indirectly, of us and the issuance of securities of another entity, or a Roll-up Entity, that would be created or would survive after the successful completion of such transaction. The term Roll-up Transaction does not include:

- a transaction involving our securities that have been for at least 12 months listed on a national securities exchange; or

- a transaction involving our conversion to a corporate, trust, or association form if, as a consequence of the transaction, there will be no significant adverse change in any of the following: stockholder voting rights; the term of our existence; compensation to our advisor; or our investment objectives.

In connection with a proposed Roll-up Transaction, the person sponsoring the Roll-up Transaction must offer to stockholders who vote no on the proposal the choice of:

(1) accepting the securities of a Roll-up Entity offered in the proposed Roll-up Transaction; or

(2) one of the following:

(A) remaining as holders of our stock and preserving their interests therein on the same terms and conditions as existed previously; or

(B) receiving cash in an amount equal to the stockholder s pro rata share of the appraised value of our net assets.

We are prohibited from participating in any proposed Roll-up Transaction:

- that would result in the stockholders having democracy rights in a Roll-up Entity that are less than those provided in our bylaws and described elsewhere in this prospectus, including rights with respect to the election and removal of directors, annual reports, annual and special meetings, amendment of our charter, and our dissolution;

- that includes provisions that would operate to materially impede or frustrate the accumulation of shares by any purchaser of the securities of the Roll-up Entity, except to the minimum extent necessary to preserve the tax status of the Roll-up Entity, or which would limit the ability of an investor to exercise the voting rights of its securities of the Roll-up Entity on the basis of the number of shares held by that investor;

in which investor s rights to access of records of the Roll-up Entity will be less than those provided in the section of this prospectus entitled Description of Capital Stock Meetings and Special Voting Requirements ; or

in which any of the costs of the Roll-up Transaction would be borne by us if the Roll-up Transaction is not approved by the stockholders.

CERTAIN PROVISIONS OF MARYLAND LAW AND OF OUR CHARTER AND BYLAWS

The following description of the terms of our stock and of certain provisions of Maryland law is only a summary. For a complete description, we refer you to the Maryland General Corporation Law, our charter and our bylaws. We have filed our charter and bylaws as exhibits to the registration statement of which this prospectus forms a part.

Business Combinations

Under Maryland law, business combinations between a Maryland corporation and an interested stockholder or an affiliate of an interested stockholder are prohibited for five years after the most recent date on which the interested stockholder becomes an interested stockholder. These business combinations include a merger, consolidation, share exchange, or, in circumstances specified in the statute, an asset transfer or issuance or reclassification of equity securities. An interested stockholder is defined as:

- any person who beneficially owns 10% or more of the voting power of the corporation s shares; or
- an affiliate or associate of the corporation who, at any time within the two-year period prior to the date in question, was the beneficial owner of 10% or more of the voting power of the then-outstanding voting stock of the corporation.

A person is not an interested stockholder under the statute if the board of directors approved in advance the transaction by which he otherwise would have become an interested stockholder. However, in approving a transaction, the board of directors may provide that its approval is subject to compliance, at or after the time of approval, with any terms and conditions determined by the board.

After the five-year prohibition, any business combination between the Maryland corporation and an interested stockholder generally must be recommended by the board of directors of the corporation and approved by the affirmative vote of at least:

- 80% of the votes entitled to be cast by holders of outstanding shares of voting stock of the corporation; and
- two-thirds of the votes entitled to be cast by holders of voting stock of the corporation other than shares held by the interested stockholder with whom or with whose affiliate the business combination is to be effected or held by an affiliate or associate of the interested stockholder.

These super-majority vote requirements do not apply if the corporation s common stockholders receive a minimum price, as defined under Maryland law, for their shares in the form of cash or other consideration in the same form as previously paid by the interested stockholder for its shares.

The statute permits various exemptions from its provisions, including business combinations that are exempted by the board of directors before the time that the interested stockholder becomes an interested stockholder. Our board of directors has adopted a resolution providing that any business combination between us and any other person is exempted from this statute, provided that such business combination is first approved by our board. This resolution, however, may be altered or repealed in whole or in part at any time. If this resolution is repealed, the statute may discourage others from trying to acquire control of us and increase the difficulty of consummating any offer.

Control Share Acquisitions

Maryland law provides that control shares of a Maryland corporation acquired in a control share acquisition have no voting rights except to the extent approved by a vote of two-thirds of the votes entitled to be cast on the matter. Shares owned by the acquiror, by officers or by employees who are directors of the corporation are excluded from shares entitled to vote on the matter. Control shares are voting shares of stock which, if aggregated with all other shares of stock owned by the acquiror or in respect of which the acquiror is able to exercise or direct the exercise of voting power (except solely by virtue of a revocable proxy), would

entitle the acquiror to exercise voting power in electing directors within one of the following ranges of voting power:

- one-tenth or more but less than one-third;
- one-third or more but less than a majority; or
- a majority or more of all voting power.

Control shares do not include shares the acquiring person is then entitled to vote as a result of having previously obtained stockholder approval. A control share acquisition means the acquisition of control shares, subject to certain exceptions.

A person who has made or proposes to make a control share acquisition may compel the board of directors of the corporation to call a special meeting of stockholders to be held within 50 days of demand to consider the voting rights of the shares. The right to compel the calling of a special meeting is subject to the satisfaction of certain conditions, including an undertaking to pay the expenses of the meeting. If no request for a meeting is made, the corporation may itself present the question at any stockholders meeting.

If voting rights are not approved at the meeting or if the acquiring person does not deliver an acquiring person statement as required by the statute, then the corporation may redeem for fair value any or all of the control shares, except those for which voting rights have previously been approved. The right of the corporation to redeem control shares is subject to certain conditions and limitations. Fair value is determined, without regard to the absence of voting rights for the control shares, as of the date of the last control share acquisition by the acquiror or of any meeting of stockholders at which the voting rights of the shares are considered and not approved. If voting rights for control shares are approved at a stockholders meeting and the acquiror becomes entitled to vote a majority of the shares entitled to vote, all other stockholders may exercise appraisal rights. The fair value of the shares as determined for purposes of appraisal rights may not be less than the highest price per share paid by the acquiror in the control share acquisition.

The control share acquisition statute does not apply (1) to shares acquired in a merger, consolidation or share exchange if the corporation is a party to the transaction, or (2) to acquisitions approved or exempted by the charter or bylaws of the corporation.

Our bylaws contain a provision exempting from the control share acquisition statute any and all acquisitions of shares of our stock by any person. There can be no assurance that this provision will not be amended or eliminated at any time in the future.

Subtitle 8

Subtitle 8 of Title 3 of the Maryland General Corporation Law permits a Maryland corporation with a class of equity securities registered under the Securities Exchange Act of 1934 and at least three independent directors to elect to be subject, by provision in its charter or bylaws or a resolution of its board of directors and notwithstanding any contrary provision in the charter or bylaws, to any or all of five provisions:

- a classified board;
- a two-thirds vote requirement for removing a director;
- a requirement that the number of directors be fixed only by vote of the directors;

a requirement that a vacancy on the board be filled only by the remaining directors and for the remainder of the full term of the class of directors in which the vacancy occurred; and

a majority requirement for the calling of a special meeting of stockholders.

In our charter, we have elected that vacancies on the board be filled only by the remaining directors and for the remainder of the full term of the directorship in which the vacancy occurred. Through provisions in our charter and bylaws unrelated to Subtitle 8, we vest in our board of directors the exclusive power to fix the number of directorships. We have not elected to be subject to any of the other provisions of Subtitle 8.

Advance Notice of Director Nominations and New Business

Our bylaws provide that with respect to an annual meeting of stockholders, nominations of individuals for election to the board of directors and the proposal of business to be considered by stockholders may be made only (1) pursuant to our notice of the meeting, (2) by or at the direction of the board of directors or (3) by a stockholder who is entitled to vote at the meeting and who has complied with the advance notice procedures of the bylaws. With respect to special meetings of stockholders, only the business specified in our notice of the meeting may be brought before the meeting. Nominations of individuals for election to the board of directors at a special meeting may be made only (1) pursuant to our notice of the meeting, (2) by or at the direction of the board of directors, or (3) provided that the board of directors has determined that directors will be elected at the meeting by a stockholder who is entitled to vote at the meeting and who has complied with the advance notice provisions of the bylaws.

Anti-takeover Effect of Certain Provisions of Maryland Law and of the Charter and Bylaws

The business combination provisions and the control share acquisition provisions of Maryland law, the provisions of our charter electing to be subject to Subtitle 8, and the advance notice provisions of our bylaws could delay, defer or prevent a transaction or a change in control of our company that might involve a premium price for stockholders or otherwise be in their best interest.

THE OPERATING PARTNERSHIP AGREEMENT

General

Grubb & Ellis Healthcare REIT Holdings, L.P. was formed on April 20, 2006 to acquire, own and operate properties on our behalf. It will allow us to operate as what is generally referred to as an Umbrella Partnership Real Estate Investment Trust, or UPREIT, which is a structure generally utilized to provide for the acquisition of real estate from owners who desire to defer taxable gain otherwise required to be recognized by them upon the disposition of their properties. These owners also may desire to achieve diversity in their investment and other benefits afforded to stockholders in a REIT. For purposes of satisfying the asset and income tests for qualification as a REIT for tax purposes, the REIT s proportionate share of the assets and income of an operating partnership, such as our operating partnership, will be deemed to be assets and income of the REIT.

The property owner s goals are accomplished because a property owner may contribute property to our UPREIT in exchange for limited partnership units on a tax-deferred basis while obtaining rights similar in many respects to those afforded to our stockholders. For example, our operating partnership is structured to make distributions with respect to limited partnership units which will be equivalent to the distributions made with respect to our common stock. In addition, a limited partner in our operating partnership may later redeem his or her limited partnership units and, if we consent, receive shares of our common stock in a taxable transaction.

The partnership agreement for our operating partnership contains provisions which would allow under certain circumstances, other entities, including other Triple Net programs, to merge into or cause the exchange or conversion of their interests for interests in our operating partnership. In the event of such a merger, exchange or conversion, our operating partnership would issue additional limited partnership interests which would be entitled to the same redemption rights as other holders of limited partnership interests in our operating partnership. Further, if our operating partnership needs additional financing for any reason, it is permitted under the partnership agreement to issue additional limited partnership interests which also may be entitled to such redemption rights. As a result, any such merger, exchange or conversion or any separate issuance of redeemable limited partnership interests ultimately

could result in the issuance of a substantial number of shares of our common stock, thereby diluting the percentage ownership interest of other stockholders.

We intend to hold substantially all of our assets through our operating partnership, and we intend to make future acquisitions of properties using the UPREIT structure. We are the sole general partner of our operating

partnership and, as of the date of this prospectus, owned an approximately 1.0% equity percentage interest in our operating partnership. Our advisor is currently the only limited partner of our operating partnership and holds a 99.0% limited partnership interest in our operating partnership resulting from a capital contribution of $200,000 (whereby our advisor acquired 20,000 limited partnership units). These units constitute 100% of the limited partnership units outstanding at this time. As the sole general partner of our operating partnership, we have the exclusive power to manage and conduct the business of our operating partnership.

The following is a summary of the material provisions of the partnership agreement of our operating partnership. You should refer to the partnership agreement, itself, which we have filed as an exhibit to the registration statement, for more detail.

Capital Contributions

If our operating partnership issues additional units to any new or existing partner in exchange for cash capital contributions, the contributor will receive a number of limited partnership units and a percentage interest in our operating partnership calculated based upon the amount of the capital contribution and the value of our operating partnership at the time of such contribution.

As we accept subscriptions for shares, we will transfer the net proceeds of the offering to our operating partnership as a capital contribution; however, we will be deemed to have made capital contributions in the amount of the gross offering proceeds received from investors. Our operating partnership will assume the obligation to pay, and will be deemed to have simultaneously paid, the selling commissions and other costs associated with the offering. If our operating partnership requires additional funds at any time in excess of capital contributions made by us and our advisor or from borrowing, we may borrow funds from a financial institution or other lender and lend such funds to our operating partnership on the same terms and conditions as are applicable to our borrowing of such funds, or we may cause our operating partnership to borrow such funds.

Issuance of Additional Units

As general partner of our operating partnership, we can, without the consent of the limited partners, cause our operating partnership to issue additional units representing general or limited partnership interests. A new issuance may include preferred units, which may have rights which are different and/or superior to those of general partnership units that we hold and/or limited partnership units.

Further, we are authorized to cause our operating partnership to issue partnership interests for less than fair market value if we conclude in good faith that such issuance is in our best interest and the best interest of our operating partnership.

Operations

The partnership agreement of our operating partnership provides that our operating partnership is to be operated in a manner that will enable us to:

- satisfy the requirements for being classified as a REIT for tax purposes;
- avoid any federal income or excise tax liability; and
- ensure that our operating partnership will not be classified as a publicly traded partnership for purposes of Section 7704 of the Internal Revenue Code, which classification could result in our operating partnership being

taxed as a corporation, rather than as a partnership. See Federal Income Tax Considerations Federal Income Tax Aspects of Our Operating Partnership Classification as a Partnership.

In addition to the administrative and operating costs and expenses incurred by our operating partnership in acquiring and operating real estate, our operating partnership will assume and pay when due or reimburse us for payment of all of our administrative and operating costs and expenses and such expenses will be treated as expenses of our operating partnership.

Distributions and Allocations

We intend to distribute to our stockholders 100% of all distributions we receive from our operating partnership. The partnership agreement provides that our operating partnership will distribute cash flow from operations to its partners in accordance with their percentage interests (which will be based on relative capital contributions) at such times and in such amounts as we determine as general partner. The partnership agreement also provides that our operating partnership may distribute net proceeds from the sale to its partners in accordance with their percentage interests. All distributions shall be made such that a holder of one unit of limited partnership interest in our operating partnership will receive annual distributions from our operating partnership in an amount equal to the annual distributions paid to the holder of one of our shares. However, after we have received distributions from our operating partnership equal to the amount necessary to have provided our stockholders, collectively, a return of the total amount of capital raised from stockholders (less amounts paid to repurchase shares pursuant to our share repurchase plan) plus an annual 8.0% cumulative, non-compounded return on average invested capital, 15% of any remaining net proceeds from sales will be distributed to Healthcare Advisor, and the other 85% of such remaining proceeds may be distributed to the partners in accordance with their relative percentage interests at such times and in such amounts as we determine as general partner. Average invested capital is, for a specified period, the aggregate issue price of shares purchased by our stockholders, reduced by distributions of net sales proceeds to us by our operating partnership (all of which we intend to distribute to our stockholders) and by any amounts paid by us to repurchase shares pursuant to our share repurchase plan.

If our shares become listed on a national securities exchange, Healthcare Advisor will no longer be entitled to participate in proceeds from sales as described above. However, if Healthcare Advisor has not been terminated under the advisory agreement as of the date we become listed, Healthcare Advisor will be entitled to receive a distribution from our operating partnership in an amount equal to 15% of the amount, if any, by which (1) the market value of our outstanding shares following listing (determined as described below) plus the cumulative distributions made to us by our operating partnership from our inception through the listing date exceeds (2) the sum of the total amount of capital raised from stockholders (less amounts paid to repurchase shares pursuant to our share repurchase plan) plus an annual 8.0% cumulative, non-compounded return on average invested capital through the date of listing. For purposes of the distribution upon a listing, the market value of our outstanding shares following listing will be calculated based on the average market value of the shares issued and outstanding at the time of listing for the 30 trading days beginning on the 180th day after the shares are first listed on a national securities exchange. The distribution may be paid in cash or shares of our common stock, as determined by our board of directors, including a majority of our independent directors. In the event we elect to satisfy the distribution obligation in the form of shares, the number of shares will be determined based on the market value of our shares as described above. Upon payment of this distribution, all limited partnership units in our operating partnership held by Healthcare Advisor will be redeemed for cash equal to the value of an equivalent number of our shares of common stock.

Healthcare Advisor will likewise no longer be entitled to participate in net sales proceeds as described above following the termination or nonrenewal of our advisory agreement. Upon termination or nonrenewal of the advisory agreement, other than a termination by us for cause, Healthcare Advisor will be entitled to receive a distribution from our operating partnership in an amount equal to 15% of the amount, if any, by which (1) the fair market value of all of the assets of our operating partnership as of the date of the termination (determined by appraisal), less any indebtedness secured by such assets, plus the cumulative distributions made to us by our operating partnership from our inception through the termination date, exceeds (2) the sum of the total amount of capital raised from stockholders (less amounts paid to repurchase shares pursuant to our share repurchase program) plus an annual 8.0% cumulative, non-compounded return on average invested capital through the termination date. However, Healthcare Advisor will not be entitled to this distribution if our shares have been listed on a national securities exchange prior to the

termination of the advisory agreement. Our operating partnership may satisfy the distribution obligation by either paying cash or issuing an interest-bearing promissory note. If the promissory note is issued and not paid within five years of the date of termination, we would be required to purchase the promissory note (including accrued but unpaid interest) in exchange for cash or shares of our common stock. Upon payment of this distribution, all units in

our operating partnership held by Healthcare Advisor will be redeemed by our operating partnership for cash equal to the value of an equivalent number of our shares.

Under the partnership agreement, our operating partnership may issue preferred units that entitle their holders to distributions prior to the payment of distributions for other units of limited partnership units and/or the units of general partnership interest that we hold.

The partnership agreement of our operating partnership provides that net profits will be allocated to the partners in accordance with their percentage interests, subject to compliance with the provisions of Sections 704(b) and 704(c) of the Internal Revenue Code and corresponding Treasury Regulations. However, to the extent that Healthcare Advisor receives a distribution of proceeds from sales or a distribution upon the listing of our shares or upon a termination of the advisory agreement, there will be a corresponding allocation of profits of our operating partnership to Healthcare Advisor. Losses, if any, will generally be allocated among the partners in accordance with their respective percentage interests in our operating partnership.

Upon the liquidation of our operating partnership, after payment of debts and obligations, and after any amounts payable to preferred units, any remaining assets of our operating partnership will be distributed to partners with positive capital accounts in accordance with their respective positive capital account balances.

Amendments

In general, we may amend the partnership agreement as general partner. Certain amendments to the partnership agreement, however, require the consent of each limited partner that would be adversely affected by the amendment, including amendments that would:

convert a limited partner s interest in our operating partnership into a general partnership interest;

require the limited partners to make additional capital contributions to our operating partnership; or

adversely modify the limited liability of any limited partner.

Additionally, the written consent of the general partner and any partner adversely affected is required to amend the partnership agreement to amend these amendment limitations.

Redemption Rights

The limited partners of our operating partnership, including our advisor (subject to specified limitations), have the right to cause our operating partnership to redeem their limited partnership units for, at our option, cash equal to the value of an equivalent number of shares of our common stock or a number of our shares equal to the number of limited partnership units redeemed. Unless we elect in our sole discretion to satisfy a redemption right with a cash payment, these redemption rights may not be exercised if and to the extent that the delivery of shares of our common stock upon such exercise would:

adversely affect our ability to qualify as a REIT under the Internal Revenue Code or subject us to any additional taxes under Section 857 or Section 4981 of the Internal Revenue Code;

violate any provision of our charter or bylaws;

constitute or be likely to constitute a violation of any applicable federal or state securities laws;

result in us being closely held within the meaning of Section 856(h) of the Internal Revenue Code;

cause us to own 10% or more of the ownership interests in a tenant within the meaning of Section 856(d)(2)(B) of the Internal Revenue Code;

cause our operating partnership to become a publicly traded partnership under the Internal Revenue Code; or

cause our operating partnership to cease to be classified as a partnership for federal income tax purposes.

Subject to the foregoing limitations, limited partners may exercise their redemption rights at any time after one year following the date of issuance of their limited partnership units.

We do not expect to issue any of the shares of common stock offered by this prospectus to limited partners of our operating partnership in exchange for their limited partnership units. Rather, in the event a limited partner of our operating partnership exercises its redemption rights, and we elect to purchase the limited partnership units with shares of our common stock, we expect to issue unregistered shares of common stock, or subsequently registered shares of common stock, in connection with such transaction.

Any common stock issued to the limited partners upon redemption of their respective limited partnership units may be sold only pursuant to an effective registration statement under the Securities Act of 1933 or pursuant to an available exemption from registration. We may grant holders of partnership interests registration rights for such shares of common stock.

As a general partner, we will have the right to grant similar redemption rights to holders of other classes of units, if any, in our operating partnership, and to holders of equity interests in the entities that own our properties.

As discussed above under Distributions and Allocations, upon payment of either a distribution upon listing or a distribution upon termination to Healthcare Advisor, all units in our operating partnership held by Healthcare Advisor will be redeemed for cash equal to the value of an equivalent number of shares of our common stock.

Transferability of Interests

We may not voluntarily withdraw as the general partner of our operating partnership or transfer our general partnership interest in our operating partnership (except to a wholly-owned subsidiary), unless the limited partners not affiliated with us or our advisor approve the transaction by majority vote.

With certain exceptions, the limited partners may not transfer their interests in our operating partnership, in whole or in part, without our written consent as the general partner. In addition, Healthcare Advisor may not transfer its interest in our operating partnership or exercise its redemption rights as long as it is acting as our advisor.

Term

Our operating partnership will be dissolved and its affairs wound up upon the earliest to occur of certain events, including:

- the expiration of the term of our operating partnership on December 31, 2036;
- our determination as general partner to dissolve our operating partnership;
- the sale of all or substantially all of the assets of our operating partnership; or
- our withdrawal as general partner of our operating partnership, unless the remaining partners determine to continue the business of our operating partnership.

Tax Matters

We are the tax matters partner of our operating partnership and, as such, have the authority to handle tax audits and to make tax elections under the Internal Revenue Code on behalf of our operating partnership.

Indemnification

The partnership agreement requires our operating partnership to indemnify us, as general partner (and our directors, officers and employees), the limited partners, including Healthcare Advisor (and its managers, members and employees), against damages and other liabilities to the extent permitted by Delaware law, except to the extent that any claim for indemnification results from:

- in the case of us, as general partner, and the limited partners, our or their fraud, willful misconduct or gross negligence;
- in the case of our directors, officers and employees (other than our independent directors), Healthcare Advisor and its managers, members and employees, such person s negligence or misconduct; or
- in the case of our independent directors, such person s gross negligence or willful misconduct.

In addition, we, as general partner and the limited partners will be held harmless and indemnified for losses only if all of the following conditions are met:

- the indemnitee determined, in good faith, that the course of conduct which caused the loss, liability or expense was in our best interests;
- the indemnitee was acting on our behalf or performing services for us;
- such liability or loss was not the result of negligence or misconduct by the directors; and
- such liability or loss was not the result of gross negligence or willful misconduct by the independent directors.

Any indemnification or any agreement to hold harmless is recoverable only out of our assets and not from our stockholders.

The SEC takes the position that indemnification against liabilities arising under the Securities Act of 1933 is against public policy and unenforceable. Indemnification of us, as general partner and the limited partners, will not be allowed for liabilities arising from or out of a violation of state or federal securities laws, unless one or more of the following conditions are met:

- there has been a successful adjudication on the merits of each count involving alleged securities law violations;
- such claims have been dismissed with prejudice on the merits by a court of competent jurisdiction; or
- a court of competent jurisdiction approves a settlement of the claims against the indemnitee and finds that indemnification of the settlement and the related costs should be made, and the court considering the request for indemnification has been advised of the position of the SEC and of the published position of any state

securities regulatory authority in the state in which our securities were offered as to indemnification for violations of securities laws.

Finally, our operating partnership must reimburse us for any amounts paid in satisfaction of our indemnification obligations under our charter. Our operating partnership may not provide indemnification or advancement of expenses to us (or our directors, officers or employees) to the extent that we could not provide such indemnification or advancement of expenses under the limitations of our charter. See Management Limited Liability and Indemnification of Directors, Officers and Others.

PLAN OF DISTRIBUTION

General

We are offering a minimum of $2,000,000 and a maximum of $2,200,000,000 in shares of our common stock in this offering, including $2,000,000,000 in shares of our common stock initially allocated to be offered in the primary offering and $200,000,000 in shares of our common stock initially allocated to be offered pursuant to our distribution reinvestment plan. Prior to the conclusion of this offering, if any of the shares of our common stock initially allocated to the distribution reinvestment plan remain after meeting anticipated obligations under the distribution reinvestment plan, we may decide to sell some or all of such shares of common stock to the public in the primary offering. Similarly, prior to the conclusion of this offering, if the shares of our common stock initially allocated to the distribution reinvestment plan have been purchased and we anticipate additional demand for shares of common stock under our distribution reinvestment plan, we may plan to choose to reallocate some or all of the shares of our common stock allocated to be offered in the primary offering to the distribution reinvestment plan. The shares of our common stock in the primary offering are being offered at $10.00 per share. Shares of our common stock purchased pursuant to our distribution reinvestment plan will be sold at $9.50 per share during this offering.

As of January 8, 2007, excluding shares purchased by our executive officers and directors, our dealer manager and our advisor and its affiliates, we had received and accepted subscriptions in this offering for 200,846 shares of common stock, or $2,004,000, thereby exceeding the minimum offering. Having raised the minimum offering, the offering proceeds were released by the escrow agent to us and are available for the acquisition of properties and other purposes. As of November 30, 2007, we had received and accepted subscriptions in our offering for 19,538,497 shares of common stock, or approximately $195,148,000, excluding shares issued pursuant to our distribution reinvestment plan. We had also issued 226,470 shares pursuant to our distribution reinvestment plan. We will sell shares until the earlier of September 20, 2009, or the date on which the maximum has been sold. However, we reserve the right to terminate this offering at any time prior to such termination date.

Our board of directors determined the offering price of $10.00 per share based on consideration of the offering price of shares offered by similar REITs and the administrative convenience to us and investors of the share price being an even dollar amount. This price bears no relationship to the value of our assets or other established criteria for valuing shares because we have not had any operations as of the date of this prospectus and we have no assets other than subscription proceeds from the sale of shares of our common stock to our advisor at $10.00 per share and the sale of units in our operating partnership to our advisor at $10.00 per unit.

Dealer Manager and Participating Broker-Dealer Compensation and Terms

NNN Capital Corp., an indirect wholly owned subsidiary of Grubb & Ellis and a registered broker-dealer, is serving as the dealer manager for this offering on a best efforts basis, which means generally that the dealer manager will be required to use only its best efforts to sell the shares and it has no firm commitment or obligation to purchase any of the shares. The dealer manager may authorize certain other broker-dealers who are members of FINRA, who we refer to as participating broker-dealers, to sell our shares. Except as provided below, the dealer manager will receive selling commissions of 7.0% of the gross offering proceeds from sales of shares of our common stock in the primary offering, subject to reductions based on volume and special sales. No selling commissions will be paid for sales pursuant to the distribution reinvestment plan. The dealer manager will also receive 2.5% of the gross offering proceeds in the form of a marketing support fee for shares sold in the primary offering. In addition, we may reimburse the dealer manager an additional 0.5% of gross offering proceeds from the primary offering for its *bona fide* due diligence expenses and for those of the participating broker-dealers. No selling commission, marketing support fee or due diligence expense

reimbursement will be paid for shares sold pursuant to the distribution reinvestment plan. We will not pay referral or similar fees to any accountants, attorneys or other persons in connection with the distribution of the shares.

Table of Contents

The dealer manager may allow participating broker-dealers a portion of the marketing support fee of up to 1.5% of the gross sales of the broker-dealer in the primary offering. In addition, the dealer manager may re-allow its due diligence expense reimbursement to participating dealer-brokers incurring such costs.

In addition to the compensation described above, we will also reimburse the dealer-manager and its affiliates for some of their costs in connection with the offering as described in the table below, which sets forth the nature and estimated amount of all items viewed as underwriting compensation by FINRA, assuming we sell all of the shares offered by this prospectus. To show the maximum amount of dealer-manager and participating broker-dealer compensation that we may pay in this offering, this table assumes that all shares are sold through distribution channels associated with the highest possible selling commissions and dealer manager fees.

Dealer-Manager and Participating Broker-Dealer Compensation

	Amount	Percentage of Primary Offering
Marketing allowance	$ 50,000,000	2.5%
Selling commissions	140,000,000	7.0
Salary allocations and transaction-based compensation of sales and marketing managers and their support personnel(1)(2)	4,188,432	0.2
Expense reimbursements for educational conferences and training seminars(1)(3)	3,831,120	0.2
Reimbursement of due diligence expenses(1)(4)	10,000,000	0.5
Legal fees allocable to dealer manager(1)	100,000	*
Total	$ 208,119,552	10.4%

* Less than 0.1%.

(1) Amounts shown are estimates.

(2) These costs are borne by Grubb & Ellis or its affiliates and are not reimbursed by us.

(3) Subject to the cap on organization and offering expenses described below, we will reimburse NNN Capital Corp. or its affiliates for these expenses. In some cases, these payments will serve to reimburse NNN Capital Corp. for amounts it has paid to participating broker-dealers for the items noted. These amounts consist primarily of reimbursements for travel, meals, lodging and attendance fees incurred by broker-dealer personnel, financial advisors and wholesalers and other FINRA-registered personnel associated with NNN Capital Corp. attending educational conferences and training seminars.

(4) We may reimburse the dealer-manager for reimbursements it may make to broker-dealers for reasonable bona fide due diligence expenses up to a maximum of 0.5% of our gross offering proceeds.

As required by the rules of the FINRA, total underwriting compensation will not exceed 10% of our gross offering proceeds, except for bona fide due diligence expenses, which will not exceed 0.5% of our gross offering proceeds. The

FINRA and many states also limit our total organization and offering expenses to 15% of gross offering proceeds.

Table of Contents

Our advisor will receive up to 1.5% of the aggregate gross offering proceeds from the sale of shares of our common stock in the primary offering to reimburse it for our cumulative organizational and offering expenses such as legal, accounting, printing and other offering expenses, including marketing, salaries and direct expenses of its employees, employees of its affiliates and others while engaged in registering and marketing the shares of our common stock, which shall include development of marketing materials and marketing presentations, planning and participating in due diligence meetings, training seminars and educational conferences and generally coordinating the marketing process for us. Our total organization and offering expenses are capped at 11.5% of the gross proceeds of our primary offering, as shown in the following table:

Organization and Offering Expenses

Expense	**Maximum Percent of Gross Offering Proceeds**
Selling commissions	7.0%
Marketing allowance	2.5
Bona fide due diligence reimbursement	0.5
All other organization and offering expenses	1.5
Total	11.5%

A portion of our organizational and offering expense reimbursement may be used for wholesaling activities and therefore deemed to be additional underwriting compensation pursuant to FINRA Rule 2710. Our advisor will be responsible for the payment of our cumulative organizational and offering expenses, other than the selling commissions, marketing support fee and the due diligence expense reimbursement, to the extent they exceed 1.5% of the aggregate gross offering proceeds from the sale of shares of our common stock in the primary offering without recourse against or reimbursement by us.

We have agreed to indemnify the participating broker-dealers and the dealer manager against liabilities, including liabilities under the Securities Act of 1933, that arise out of breaches by us of the dealer manager agreement between us and the dealer manager or material misstatements and omissions contained in this prospectus, other sales material used in connection with this offering or filings made to qualify this offering with individual states. Please see Management Limited Liability and Indemnification of Directors, Officers and Others for a discussion of conditions that must be met for participating broker-dealers or the dealer manager to be indemnified by us for liabilities arising out of state or federal securities laws.

The participating broker-dealers are not obligated to obtain any subscriptions on our behalf, and we cannot assure you that any shares will be sold.

Our executive officers and directors, as well as officers and employees of our advisor and its affiliates, may purchase shares in this offering at a discount. We expect that a limited number of shares will be sold to those individuals. However, except for the share ownership limitations contained in our charter, there is no limit on the number of shares that may be sold to those individuals at this discount. The purchase price for such shares shall be $9.05 per share reflecting the fact that selling commissions in the amount of $0.70 per share and the marketing support fee in the amount of $0.25 per share will not be payable in connection with such sales. The net offering proceeds we receive will not be affected by such sales of shares at a discount. Our advisor and its affiliates have agreed to hold their shares purchased as stockholders for investment and not with a view towards distribution. Shares purchased by our executive

officers and directors, the dealer manager and our advisor or its affiliates did not count toward the sale of the minimum offering proceeds of $2,000,000 required to be sold in this offering.

No selling commission will be charged (and the price will be correspondingly reduced) for sales of shares in the primary offering in the event that the investor has engaged the services of a registered investment advisor or other financial advisor, paid on a fee-for-service basis by the investor. In addition, no selling commission will be charged (and the price will be correspondingly reduced) for sales of shares to retirement plans of participating broker-dealers, to participating broker-dealers in their individual capacities, to IRAs and

Table of Contents

qualified plans of their registered representatives or to any one of their registered representatives in their individual capacities.

In connection with sales of certain minimum numbers of shares to a purchaser, as defined below, certain volume discounts resulting in reductions in selling commissions payable with respect to such sales are available to investors. In such event, any such reduction will be credited to the investor by reducing the purchase price per share payable by the investor. The following table shows the discounted price per share and reduced selling commissions payable for volume discounts.

Shares Purchased	Commission Rate	Price per Share
1 to 50,000	7.0%	$ 10.00
50,001 to 100,000	6.0%	$ 9.90
100,001 to 200,000	5.0%	$ 9.80
200,001 to 500,000	4.0%	$ 9.70
500,001 to 750,000	3.0%	$ 9.60
750,001 to 1,000,000	2.0%	$ 9.50
1,000,001 and up	1.0%	$ 9.40

The reduced selling price per share and selling commissions are applied to the incremental shares falling within the indicated range only. All commission rates are calculated assuming a $10.00 price per share. Thus, for example, an investment of $1,249,996 would result in a total purchase of 126,020 shares as follows:

50,000 shares at $10.00 per share (total: $500,000) and a 7.0% commission;

50,000 shares at $9.90 per share (total: $495,000) and a 6.0% commission; and

26,020 shares at $9.80 per share (total: $254,996) and a 5.0% commission.

The net proceeds to us will not be affected by volume discounts. Requests to apply the volume discount provisions must be made in writing and submitted simultaneously with your subscription for shares. Because all investors will be paid the same distributions per share as other investors, an investor qualifying for a volume discount will receive a higher percentage return on his or her investment than investors who do not qualify for such discount.

Subscriptions may be combined for the purpose of determining the volume discounts in the case of subscriptions made by any purchaser, as that term is defined below, provided all such shares are purchased through the same broker-dealer. The volume discount shall be prorated among the separate subscribers considered to be a single purchaser. Any request to combine more than one subscription must be made in writing submitted simultaneously with your subscription for shares, and must set forth the basis for such request. Any such request will be subject to verification by the dealer manager that all of such subscriptions were made by a single purchaser.

For the purposes of such volume discounts, the term purchaser includes:

an individual, his or her spouse and their children under the age of 21 who purchase the shares for his, her or their own accounts;

a corporation, partnership, association, joint-stock company, trust fund or any organized group of persons, whether incorporated or not;

an employees trust, pension, profit sharing or other employee benefit plan qualified under Section 401(a) of the Internal Revenue Code; and

all commingled trust funds maintained by a given bank.

Notwithstanding the above, in connection with volume sales, investors who would not constitute a single purchaser may request in writing to aggregate subscriptions as part of a combined order for purposes of determining the number of shares purchased, provided that any aggregate group of subscriptions must be

received from the same participating dealer, including the dealer manager. Any such reduction in selling commission will be prorated among the separate subscribers. An investor may reduce the amount of his or her purchase price to the net amount shown in the foregoing table, if applicable. Except as provided in this paragraph, separate subscriptions will not be cumulated, combined or aggregated.

Minimum Offering

As of January 8, 2007, excluding shares purchased by our executive officers and directors, our dealer manager and our advisor and its affiliates, we had received and accepted subscriptions in our offering for 200,846 shares of common stock, or $2,004,000, thereby exceeding the minimum offering. Having raised the minimum offering, the offering proceeds were released by the escrow agent to us and are available for the acquisition of properties and the other purposes disclosed in the prospectus. As of December 7, 2007, we had received and accepted subscriptions in our offering for 19,995,950 shares of common stock, or approximately $199,720,000, excluding shares issued pursuant to our distribution reinvestment plan. We will sell shares until the earlier of September 20, 2009, or the date on which the maximum has been sold. However, we reserve the right to terminate this offering at any time.

Admission of Stockholders

We intend to admit stockholders periodically as subscriptions for shares are received in good order, but not less frequently than monthly. Upon acceptance of subscriptions, subscription proceeds will be transferred from our escrow account into our operating account, out of which we will acquire real estate and pay fees and expenses as described in this prospectus.

Minimum Investment

The minimum purchase is 100 shares, which equals a minimum investment of $1,000, except for purchases by (1) our existing stockholders, including purchases made pursuant to our distribution reinvestment plan, and (2) existing investors in other programs sponsored by our sponsor, Grubb & Ellis, or any of our sponsor s affiliates, which may be in lesser amounts.

The dealer manager and each participating broker-dealer who sells shares have the responsibility to make every reasonable effort to determine that the purchase of shares is appropriate for the investor and that the requisite suitability standards are met. See Suitability Standards. In making this determination, the dealer manager or the participating broker-dealer will rely on relevant information provided by the investor, including information as to the investor s age, investment objectives, investment experience, income, net worth, financial situation, other investments, and other pertinent information. Each investor should be aware that the dealer manager or the participating broker-dealer will be responsible for determining suitability.

The dealer manager or each participating broker-dealer shall maintain records of the information used to determine that an investment in shares is suitable and appropriate for an investor. These records are required to be maintained for a period of at least six years.

Automatic Investment Plan

Investors who desire to purchase shares in this offering at regular intervals may be able to do so through their participating broker-dealer or, if they are investing in this offering other than through a participating broker-dealer, through the dealer manager by completing an automatic investment plan enrollment form. Participation in the automatic investment plan is limited to investors who have already met the minimum purchase requirement in this offering. The minimum periodic investment is $100 per month.

Table of Contents

Investors who reside in the State of Ohio may not participate in the Automatic Investment Plan.

We will provide a confirmation of your monthly purchases under the automatic investment plan within five business days after the end of each month. The confirmation will disclose the following information:

- the amount of the investment;
- the date of the investment; and
- the number and price of the shares purchased by you.

We will pay marketing support fees and selling commissions in connection with sales under the automatic investment plan to the same extent that we pay those fees and commissions on shares sold in this offering outside of the automatic investment plan.

You may terminate your participation in the automatic investment plan at any time by providing us with written notice. If you elect to participate in the automatic investment plan, you must agree that if at any time you fail to meet the applicable investor suitability standards or cannot make the other investor representations set forth in the then-current prospectus and subscription agreement, you will promptly notify us in writing of that fact and your participation in the plan will terminate. See the Suitability Standards section of this prospectus (on page i) and the form of subscription agreement attached hereto as Appendix B.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

The use of the words we, us or our refers to NNN Healthcare/Office REIT, Inc. and our subsidiaries, including NNN Healthcare/Office REIT Holdings, L.P., except where the context otherwise requires.

1. Organization and Description of Business

NNN Healthcare/Office REIT, Inc., a Maryland corporation, was incorporated on April 20, 2006. We were initially capitalized on April 28, 2006, and therefore we consider that our date of inception. We intend to provide investors the potential for income and growth through investment in a diversified portfolio of real estate properties, focusing primarily on medical office buildings, healthcare-related facilities and quality commercial office properties that produce current income. We may also invest in real estate related securities. We intend to qualify as a real estate investment trust, or REIT, for federal income tax purposes for our taxable year ending December 31, 2007.

We are conducting a best efforts initial public offering, or our Offering, in which we are offering a minimum of 200,000 shares of our common stock aggregating at least $2,000,000, or the minimum offering, and a maximum of 200,000,000 shares of our common stock for $10.00 per share and 21,052,632 shares of our common stock pursuant to our distribution reinvestment plan, or the DRIP, at $9.50 per share, aggregating up to $2,200,000,000, or the maximum offering. Shares purchased by our executive officers and directors, by NNN Capital Corp., or our Dealer Manager, by NNN Healthcare/Office REIT Advisor, LLC, or our Advisor, or by its affiliates did not count towards the minimum offering. As of October 31, 2007, we had received and accepted subscriptions in our Offering for 18,059,074 shares of our common stock, or $180,368,000, excluding shares issued under the DRIP.

We conduct substantially all of our operations through NNN Healthcare/Office REIT Holdings, L.P., or our Operating Partnership. We are externally advised by our Advisor, pursuant to an advisory agreement, or the Advisory Agreement, between us, our Advisor and Triple Net Properties, LLC, or Triple Net Properties, who is the managing member of our Advisor. The Advisory Agreement had a one-year term that expired on September 19, 2007 and was subject to successive one-year renewals upon the mutual consent of the parties. On September 18, 2007, our board of directors extended the Advisory Agreement on a month-to-month basis. On October 24, 2007, our board of directors authorized the renewal, for a term of one year ending on October 24, 2008, of our Advisory Agreement. Our Advisor supervises and manages our day-to-day operations and selects the properties and securities we acquire, subject to oversight by our board of directors. Our Advisor also provides marketing, sales and client services on our behalf. Our Advisor is affiliated with us in that we and our Advisor have common officers, some of whom also own an indirect equity interest in our Advisor. Our Advisor engages affiliated entities, including Triple Net Properties Realty, Inc., or Realty, to provide various services to us.

In the fourth quarter of 2006, NNN Realty Advisors, Inc., or NNN Realty Advisors, or our Sponsor, acquired all of the outstanding ownership interests of Triple Net Properties, NNN Capital Corp. and Realty. As a result, we consider NNN Realty Advisors to be our Sponsor. On May 22, 2007, NNN Realty Advisors entered into a definitive merger agreement with Grubb & Ellis Company, or Grubb & Ellis. The merger has been approved by the boards of directors of both NNN Realty Advisors and Grubb & Ellis. The combined company will retain the Grubb & Ellis name and will continue to be listed on the New York Stock Exchange under the ticker symbol GBE. The transaction is expected to close in the fourth quarter of 2007, subject to approval by stockholders of both companies and other customary closing conditions of transactions of this type.

As of September 30, 2007, we had purchased 14 properties comprising 1,547,000 square feet of gross leasable area, or GLA.

2. Summary of Significant Accounting Policies

Our interim unaudited condensed consolidated financial statements and accompanying notes are the representations of our management, who are responsible for their integrity and objectivity. The following accounting policies conform to accounting principles generally accepted in the United States of America, or GAAP, in all material respects, and have been consistently applied in preparing our accompanying interim unaudited condensed consolidated financial statements.

Basis of Presentation

Our accompanying interim unaudited condensed consolidated financial statements include our accounts and those of our Operating Partnership. We operate and intend to continue to operate in an umbrella partnership REIT structure in which our Operating Partnership, or wholly-owned subsidiaries of our Operating Partnership, will own substantially all of the properties acquired on our behalf. We are the sole general partner of our Operating Partnership and as of September 30, 2007 and December 31, 2006, we owned a 99.99% and 1.0%, respectively, general partnership interest therein. Our Advisor is the sole limited partner and as of September 30, 2007 and December 31, 2006, owned a 0.01% and 99.0%, respectively, limited partnership interest therein. Our Advisor is also entitled to certain subordinated distribution rights under the partnership agreement for our Operating Partnership. Because we are the sole general partner of our Operating Partnership and have unilateral control over its management and major operating decisions (even if additional limited partners are admitted to our Operating Partnership), the accounts of our Operating Partnership are consolidated in our consolidated financial statements. All significant intercompany accounts and transactions are eliminated in consolidation.

Interim Financial Data

Our accompanying interim unaudited condensed consolidated financial statements have been prepared by us in accordance with GAAP in conjunction with the rules and regulations of the Securities and Exchange Commission, or the SEC. Certain information and footnote disclosures required for annual financial statements have been condensed or excluded pursuant to SEC rules and regulations. Accordingly, our accompanying interim unaudited condensed consolidated financial statements do not include all of the information and footnotes required by GAAP for complete financial statements. Our accompanying interim unaudited condensed consolidated financial statements reflect all adjustments, which are, in our opinion, of a normal recurring nature and necessary for a fair presentation of our financial position, results of operations and cash flows for the interim period. Interim results of operations are not necessarily indicative of the results to be expected for the full year; such results may be less favorable. Our accompanying interim unaudited condensed consolidated financial statements should be read in conjunction with our audited consolidated financial statements and the notes thereto included in our 2006 Annual Report on Form 10-K, as filed with the SEC.

Use of Estimates

The preparation of our consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. We believe that our critical accounting policies are those that require significant judgments and estimates. These estimates are made and evaluated on an on-going basis using information

that is currently available as well as various other assumptions believed to be reasonable under the circumstances. Actual results could differ from those estimates, perhaps in material adverse ways, and those estimates could be different under different assumptions or conditions.

Restricted Cash

Restricted cash is comprised of impound reserve accounts for property taxes, insurance, capital improvements and tenant improvements.

Allowance for Uncollectible Accounts

Tenant receivables and unbilled deferred rent receivables are carried net of the allowances for uncollectible current tenant receivables and unbilled deferred rent. An allowance is maintained for estimated losses resulting from the inability of certain tenants to meet the contractual obligations under their lease agreements. Our determination of the adequacy of these allowances is based primarily upon evaluations of historical loss experience, individual tenant receivables considering the tenant s financial condition, security deposits, letters of credit, lease guarantees and current economic conditions and other relevant factors. As of September 30, 2007 and December 31, 2006, we had $2,000 and $0, respectively, in allowances for uncollectible accounts as determined to be necessary to reduce receivables to our estimate of the amount recoverable.

Purchase Price Allocation

In accordance with Statements of Financial Accounting Standards, or SFAS, No. 141, *Business Combinations*, we, with the assistance of independent valuation specialists, allocate the purchase price of acquired properties to tangible and identified intangible assets based on their respective fair values. The allocation to tangible assets (building and land) is based upon our determination of the value of the property as if it were vacant using discounted cash flow models similar to those used by independent appraisers. Factors considered by us include an estimate of carrying costs during the expected lease-up periods considering current market conditions and costs to execute similar leases. Additionally, the purchase price of the applicable property is allocated to the above or below market value of in-place leases, the value of in-place leases, tenant relationships and above or below market debt assumed.

The value allocable to the above or below market component of the acquired in-place leases is determined based upon the present value (using a discount rate which reflects the risks associated with the acquired leases) of the difference between: (i) the contractual amounts to be paid pursuant to the lease over its remaining term, and (ii) our estimate of the amounts that would be paid using fair market rates over the remaining term of the lease. The amounts allocated to above market leases are included in identified intangible assets, net and below market lease values are included in identified intangible liabilities, net in the accompanying condensed consolidated balance sheets and are amortized to rental income over the weighted-average remaining term of the acquired leases with each property.

The total amount of other intangible assets acquired is further allocated to in-place lease costs and the value of tenant relationships based on management s evaluation of the specific characteristics of each tenant s lease and our overall relationship with that respective tenant. Characteristics considered by us in allocating these values include the nature and extent of the credit quality and expectations of lease renewals, among other factors.

The value allocable to above or below market debt is determined based upon the present value of the difference between the cash flow stream of the assumed fixed rate mortgage and the cash flow stream of a market fixed rate mortgage. The amounts allocated to above or below market debt are included in mortgage loan payables, net in the accompanying condensed consolidated balance sheets and are amortized to interest expense over the remaining term

of the assumed mortgage.

These allocations are subject to change based on information received within one year of the purchase related to one or more events identified at the time of purchase which confirm the value of an asset or liability received in an acquisition of property.

NNN Healthcare/Office REIT, Inc.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (Continued)

Operating Properties

Operating properties are carried at the lower of fair market value or historical cost less accumulated depreciation. The cost of the operating properties includes the cost of land and completed buildings and related improvements. Expenditures that increase the service life of the properties are capitalized and the cost of maintenance and repairs is charged to expense as incurred. The cost of buildings is depreciated on a straight-line basis over the estimated useful lives of the buildings up to 39 years and for tenant improvements, the shorter of the lease term or useful life, ranging from two months to 120 months. When depreciable property is retired or disposed of, the related costs and accumulated depreciation are removed from the accounts and any gain or loss is reflected in operations.

An operating property is evaluated for potential impairment whenever events or changes in circumstances indicate that its carrying amount may not be recoverable. Impairment losses are recorded on long-lived assets and tenant improvements used in operations. Impairment losses are recorded on an operating property when indicators of impairment are present and the carrying amount of the asset is greater than the sum of the future undiscounted cash flows expected to be generated by that asset. We would recognize an impairment loss to the extent the carrying amount exceeded the fair value of the property. As of September 30, 2007, there were no impairment losses recorded.

Other Assets

Other assets consist primarily of deferred rent receivables, leasing commissions, prepaid expenses, deposits and deferred financing costs. Costs incurred for property leasing have been capitalized as deferred assets. Deferred financing costs include amounts paid to lenders and others to obtain financing. Such costs are amortized using the straight-line method over the term of the related loan, which approximates the effective interest rate method. Amortization of deferred financing costs is included in interest expense in our accompanying condensed consolidated statements of operations. Deferred leasing costs include leasing commissions that are amortized using the straight-line method over the term of the related lease.

Revenue Recognition

In accordance with SFAS No. 13, *Accounting for Leases*, as amended and interpreted, minimum annual rental revenue is recognized on a straight-line basis over the term of the related lease (including rent holidays). Tenant reimbursement revenue, which is comprised of additional amounts recoverable from tenants for common area maintenance expenses and certain other recoverable expenses, is recognized as revenue in the period in which the related expenses are incurred.

Concentration of Credit Risk

Financial instruments that potentially subject us to a concentration of credit risk are primarily cash and accounts receivable from tenants. We have cash in financial institutions that is insured by the Federal Deposit Insurance Corporation, or FDIC, up to $100,000 per institution. As of September 30, 2007 and December 31, 2006, we had cash accounts in excess of FDIC insured limits. We believe this risk is not significant. Concentration of credit risk with respect to accounts receivable from tenants is limited. We perform credit evaluations of prospective tenants, and security deposits are obtained upon lease execution.

Organizational, Offering and Related Expenses

Our organizational, offering and related expenses are being paid by our Advisor and its affiliates on our behalf. These organizational, offering and related expenses include all expenses (other than selling commissions and the marketing support fee which generally represent 7.0% and 2.5% of our gross offering proceeds,

respectively) to be paid by us in connection with our Offering. These expenses will only become our liability to the extent selling commissions, the marketing support fee and due diligence expense reimbursements and other organizational and offering expenses do not exceed 11.5% of the gross proceeds of our Offering. As of September 30, 2007 and December 31, 2006, expenses of $990,000 and $1,728,000, respectively, in excess of 11.5% of the gross proceeds of our Offering, has been incurred by our Advisor or Triple Net Properties and therefore these expenses are not recorded in our accompanying condensed consolidated financial statements as of September 30, 2007 and December 31, 2006. To the extent we raise additional proceeds from our Offering, these amounts may become our liability. See Note 10, Related Party Transactions Offering Stage, for a further discussion of these amounts during our offering stage.

Stock Compensation

We follow SFAS, No. 123(R), *Share-Based Payment*, to account for our stock compensation pursuant to our 2006 Incentive Plan and the 2006 Independent Directors Compensation Plan, a sub-plan of our 2006 Incentive Plan. See Note 12, Stockholders Equity (Deficit) 2006 Incentive Plan and Independent Directors Compensation Plan, for a further discussion of grants under our 2006 Incentive Plan.

Income Taxes

We intend to make an election to be taxed as a REIT, under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended, or the Code, and we intend to be taxed as such beginning with our taxable year ending December 31, 2007. We intend to qualify as a REIT. To qualify as a REIT, we must meet certain organizational and operational requirements, including a requirement to currently distribute at least 90.0% of our ordinary taxable income to stockholders. As a REIT, we generally will not be subject to federal income tax on taxable income that we distribute to our stockholders. If we fail to qualify as a REIT in any taxable year, we will then be subject to federal income taxes on our taxable income at regular corporate rates and will not be permitted to qualify for treatment as a REIT for federal income tax purposes for four years following the year during which qualification is lost unless the Internal Revenue Service grants us relief under certain statutory provisions. Such an event could have a material adverse effect on our net income and net cash available for distribution to stockholders. Because of our intention to elect REIT status in 2007, we will not benefit from the loss incurred for the year ended December 31, 2006.

Per Share Data

We report earnings (loss) per share pursuant to SFAS No. 128, *Earnings Per Share.* Basic earnings (loss) per share attributable for all periods presented are computed by dividing net income (loss) by the weighted average number of shares of our common stock outstanding during the period. Diluted earnings (loss) per share is computed based on the weighted average number of shares of our common stock and all potentially dilutive securities, if any. Shares of restricted common stock give rise to potentially dilutive shares of common stock.

For the three months ended September 30, 2007 and 2006, we recorded a net loss of approximately $1,933,000 and $50,000, respectively. For the nine months ended September 30, 2007 and for the period from April 28, 2006 (Date of Inception) through September 30, 2006, we recorded a net loss of approximately $3,669,000 and $50,000, respectively. As of September 30, 2007 and 2006, 27,000 and 12,000 shares, respectively, of restricted common stock were outstanding, but were excluded from the computation of diluted earnings per share because such shares of

restricted common stock were anti-dilutive during this period.

Segment Disclosure

The Financial Accounting Standards Board, or the FASB, issued SFAS No. 131, *Disclosures about Segments of an Enterprise and Related Information*, which establishes standards for reporting financial and

NNN Healthcare/Office REIT, Inc.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (Continued)

descriptive information about an enterprise s reportable segments. We have determined that we have one reportable segment, with activities related to investing in medical office buildings, healthcare-related facilities and quality commercial office properties. Our investments in real estate are geographically diversified and management evaluates operating performance on an individual property level. However, as each of our properties has similar economic characteristics, tenants, and products and services, our properties have been aggregated into one reportable segment for the nine months ended September 30, 2007 and for the period from April 28, 2006 (Date of Inception) through September 30, 2006.

Recently Issued Accounting Pronouncements

In July 2006 the FASB issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes*, or FIN No. 48. This interpretation, among other things, creates a two-step approach for evaluating uncertain tax positions. Recognition (step one) occurs when an enterprise concludes that a tax position, based solely on its technical merits, is more-likely-than-not to be sustained upon examination. Measurement (step two) determines the amount of benefit that more-likely-than-not will be realized upon settlement. Derecognition of a tax position that was previously recognized would occur when a company subsequently determines that a tax position no longer meets the more-likely-than-not threshold of being sustained. FIN No. 48 specifically prohibits the use of a valuation allowance as a substitute for derecognition of tax positions, and it has expanded disclosure requirements. FIN No. 48 was effective for fiscal years beginning after December 15, 2006, in which the impact of adoption should be accounted for as a cumulative-effect adjustment to the beginning balance of retained earnings in the year of adoption. Our adoption of FIN No. 48 as of the beginning of the first quarter of 2007 did not have any impact on our consolidated financial statements.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurement*, or SFAS No. 157. SFAS No. 157 defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and expands disclosures about fair value measurements. The provisions of SFAS No. 157 are effective for fiscal years beginning after November 15, 2007. We will adopt SFAS No. 157 on January 1, 2008. We are evaluating SFAS No. 157 and have not yet determined the impact the adoption, if any, will have on our consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*, or SFAS No. 159. SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value. The objective of the guidance is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. SFAS No. 159 is effective as of the beginning of the first fiscal year that begins after November 15, 2007. Early adoption is permitted as of the beginning of the fiscal year beginning on or before November 15, 2007, provided the provisions of SFAS No. 157 are applied. We will adopt SFAS No. 159 on January 1, 2008. We are evaluating SFAS No. 159 and have not yet determined the impact the adoption, if any, will have on our consolidated financial statements.

Leverage

In accordance with our charter, a majority of our directors, including a majority of our independent directors, approved our leverage exceeding 300.0% in connection with our first four acquisitions. The board of directors determined that the excess leverage was justified because it enabled us to purchase the properties during the initial stages of our Offering, thereby improving our ability to meet our goal of acquiring a diversified portfolio of properties to generate current income for investors and preserve investor capital. As of November 13, 2007, our leverage does not exceed 300.0%. We may, with a majority of our independent directors authority, exceed our charter s leverage guidelines again during the early stages of our operations. Net assets for purposes of this calculation are defined as our total assets (other than intangibles), valued at cost prior to deducting depreciation, reserves for bad debts and other non-cash reserves, less total liabilities.

9. Commitments and Contingencies

Litigation

We are not presently subject to any material litigation nor, to our knowledge, is any material litigation threatened against us, which if determined unfavorably to us, would have a material adverse effect on our consolidated financial position, results of operations or cash flows.

Environmental Matters

We follow the policy of monitoring our properties for the presence of hazardous or toxic substances. While there can be no assurance that a material environmental liability does not exist at our properties, we are not currently aware of any environmental liability with respect to our properties that would have a material effect on our consolidated financial position, results of operations or cash flows. Further, we are not aware of any environmental liability or any unasserted claim or assessment with respect to an environmental liability that we believe would require additional disclosure or the recording of a loss contingency.

Organizational, Offering and Related Expenses

To the extent we raise additional proceeds from our Offering, these amounts may become our liability. See Note 2, Summary of Significant Accounting Policies Organizational, Offering and Related Expenses for a further discussion.

Other

Our other commitments and contingencies include the usual obligations of real estate owners and operators in the normal course of business. In our opinion, these matters are not expected to have a material adverse effect on our consolidated financial position, results of operations or cash flows.

On-site Personnel and Engineering Payroll

For the three months ended September 30, 2007 and 2006, Triple Net Properties incurred payroll for on-site personnel and engineering on our behalf of $43,000 and $0, respectively, and for the nine months ended September 30, 2007 and for the period from April 28, 2006 (Date of Inception) through September 30, 2006, Triple Net Properties incurred payroll for on-site personnel and engineering on our behalf of $71,000 and $0, respectively, which is included in rental expense on the condensed consolidated statements of operations.

Operating Expenses

We reimburse our Advisor or its affiliates for expenses incurred in rendering its services to us, subject to certain limitations on our operating expenses. However, we cannot reimburse our Advisor and affiliates for fees and costs that exceed the greater of: (1) 2.0% of our average invested assets, as defined in the Advisory Agreement, or (2) 25.0% of our net income, as defined in the Advisory Agreement, unless the board of directors determines that such excess expenses were justified based on unusual and non-recurring factors. For the twelve months ended September 30, 2007, our operating expenses exceeded this limitation by $334,000. We raised the minimum offering and had funds held in escrow released to us to commence real estate operations in January 2007. At this early stage of our operations, our general and administrative expenses are relatively high compared with our funds from operations and our average invested assets. Our board of directors determined that the relationship of our general and administrative expenses to our funds from operations and our average invested assets was justified for the twelve months ended September 30, 2007 given the costs of operating a public company and the early stage of our operations.

For the three months ended September 30, 2007 and 2006, Triple Net Properties incurred on our behalf $68,000 and $0, respectively, and for the nine months ended September 30, 2007 and for the period from April 28, 2006 (Date of Inception) through September 30, 2006, Triple Net Properties incurred on our behalf $494,000 and $0, respectively, which is included in general and administrative in the accompanying condensed consolidated statements of operations or prepaid expenses on the accompanying condensed consolidated balance sheets, as applicable.

The amount of disposition fees paid, including real estate commissions paid to unaffiliated parties, will not exceed the lesser of the customary competitive disposition fee or an amount equal to 6.0% of the contract sales price. For the three months ended September 30, 2007 and 2006, and for the nine months ended September 30, 2007 and for the period from April 28, 2006 (Date of Inception) through September 30, 2006, we did not incur such fees.

Subordinated Distribution Upon Listing

Upon the listing of our shares of common stock on a national securities exchange, our Advisor will be paid a distribution equal to 15.0% of the amount by which (1) the market value of our outstanding common stock at listing plus distributions paid prior to listing exceeds (2) the sum of total amount of capital raised from stockholders (less amounts paid to repurchase shares pursuant to our share repurchase plan) and the amount of cash that, if distributed to stockholders as of the date of listing, would have provided them an annual 8.0% cumulative, non-compounded return on average invested capital through the date of listing. Actual amounts depend upon the market value of shares of our common stock at the time of listing, among other factors. For the three months ended September 30, 2007 and 2006, and for the nine months ended September 30, 2007 and for the period from April 28, 2006 (Date of Inception) through September 30, 2006, we did not incur such distributions.

Subordinated Distribution Upon Termination

Upon termination of the Advisory Agreement, other than a termination by us for cause, our Advisor will be entitled to receive a distribution from our Operating Partnership in an amount equal to 15.0% of the amount, if any, by which (1) the fair market value of all of the assets of our Operating Partnership as of the date of the termination (determined by appraisal), less any indebtedness secured by such assets, plus the cumulative distributions made to us by our Operating Partnership from our inception through the termination date, exceeds (2) the sum of the total amount of capital raised from stockholders (less amounts paid to redeem shares pursuant to our share repurchase plan) plus an annual 8.0% cumulative, non-compounded return on average invested capital through the termination date. We intend to finance the purchase using the LaSalle Line of Credit. We expect to pay our Advisor and its affiliate an acquisition fee of $356,000, or approximately 3.0% of the purchase price, in connection with the acquisition. We anticipate that the closing will occur in the fourth quarter of 2007; however, closing is subject to certain agreed upon conditions and there can be no assurance that we will be able to complete the acquisition of Northmeadow Medical Center.

Interest Rate Swaps

On October 12, 2007, we executed an interest rate swap agreement with Wachovia in connection with the $14,500,000 secured loan on the 1 and 4 Market Exchange property, or the Market Exchange loan. Pursuant to the terms of the original promissory note, the Market Exchange loan bears interest, at our option, at a per annum rate equal to either:

(a) 30-day LIBOR plus 1.35%; or (b) the Prime Rate, as announced by Wachovia Financial from time to time. As a result of the interest rate swap agreement, the Market Exchange loan bears interest at an effective fixed rate of 5.97% per annum from September 28, 2007 through September 28, 2010; and provides for monthly interest-only payments due on the first day of each calendar month commencing on November 1, 2007.

On October 19, 2007, we executed an interest rate swap agreement with KeyBank in connection with the $30,500,000 secured loan on the EFSC property, or the EFSC loan. Pursuant to the terms of the original promissory note, the EFSC loan bears interest, at our option, at a per annum rate equal to either: (a) a rate

equal to the greater of: (i) the prime rate, as established from time to time by KeyBank, or (ii) 1.0% in excess of the federal funds effective rate, as defined in the loan agreement; or (b) the Adjusted LIBOR Rate, as defined in the loan agreement. As a result of the interest rate swap agreement, the EFSC loan bears interest at an effective fixed rate of 6.02% per annum from November 1, 2007 through October 1, 2010; and provides for monthly principal and interest payments due on the tenth day of each calendar month commencing on November 10, 2007.

Line of Credit

As of November 13, 2007, we have repaid $29,300,000 on the LaSalle Line of Credit and $6,400,000 remains outstanding.

EFSC Loan

On October 22, 2007, we met the requirements of the EFSC loan and received the $4,500,000 loan holdback held in escrow from KeyBank pursuant to the loan agreement.

NNN Healthcare/Office REIT, Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
For the Period from April 28, 2006 (Date of Inception) through December 31, 2006

The use of the words we, us or our refers to NNN Healthcare/Office REIT, Inc. and our subsidiary, NNN Healthcare/Office REIT Holdings, L.P., except where the context otherwise requires.

1. Organization and Description of Business

NNN Healthcare/Office REIT, Inc., a Maryland corporation, was incorporated on April 20, 2006 and intends to provide investors the potential for income and growth through investment in a diversified portfolio of real estate properties, focusing primarily on medical office buildings, healthcare-related facilities and quality commercial office properties that produce current income. We may also invest in real estate related securities. We intend to qualify as a real estate investment trust, or REIT, for federal income tax purposes for our taxable year ended December 31, 2007.

We are conducting a best efforts initial public offering, or our Offering, in which we are offering a minimum of 200,000 shares of our common stock aggregating at least $2,000,000, or the minimum offering, and a maximum of 200,000,000 shares of our common stock for $10.00 per share and 21,052,632 shares of our common stock pursuant to our distribution reinvestment plan, or the DRIP, at $9.50 per share, aggregating up to $2,200,000,000, or the maximum offering. Shares purchased by our executive officers and directors, by NNN Capital Corp., or our Dealer Manager, by NNN Healthcare/Office REIT Advisor, LLC, or our Advisor, or by its affiliates did not count towards the minimum offering. On January 8, 2007, excluding shares purchased by our executive officers and directors, our Dealer Manager and our Advisor and its affiliates, we had received and accepted subscriptions in our Offering for 200,846 shares of our common stock, or $2,004,000, thereby exceeding the minimum offering. See Note 10, Subsequent Events Status of our Offering for a further discussion.

We anticipate that we will conduct substantially all of our operations through NNN Healthcare/Office REIT Holdings, L.P., or our Operating Partnership. We are externally advised by our Advisor, pursuant to an advisory agreement, or the Advisory Agreement, between us, our Advisor and Triple Net Properties, LLC, or Triple Net Properties, who is the managing member of our Advisor. The Advisory Agreement has a one-year term that expires in September 2007 and is subject to successive one-year renewals upon the mutual consent of the parties. Our Advisor supervises and manages our day-to-day operations and will select the properties and securities we acquire, subject to oversight by our board of directors. Our Advisor will also provide marketing, sales and client services on our behalf. Our Advisor is affiliated with us in that we and our Advisor have common officers, some of whom also own an indirect equity interest in our Advisor. Our Advisor engages affiliated entities, including Triple Net Properties Realty, Inc., or Realty, to provide various services to us and our future properties.

In the fourth quarter of 2006, NNN Realty Advisors, Inc., or NNN Realty Advisors, or our Sponsor, acquired all of the outstanding ownership interests of Triple Net Properties, NNN Capital Corp. and Realty. As a result, we consider NNN Realty Advisors to be our Sponsor.

As of December 31, 2006, we had neither purchased nor contracted to purchase any investments. See Note 10, Subsequent Events Property Acquisitions for a further discussion on acquisitions.

2. Summary of Significant Accounting Policies

The summary of significant accounting policies presented below is designed to assist in understanding our consolidated financial statements. Such financial statements and accompanying notes are the representations of our

management, who are responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America, or GAAP, in all material respects, and have been consistently applied in preparing our accompanying consolidated financial statements.

NNN Healthcare/Office REIT, Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Basis of Presentation

Our accompanying consolidated financial statements include our accounts and those of our Operating Partnership. We intend to operate in an umbrella partnership REIT structure in which our Operating Partnership, or wholly-owned subsidiaries of our Operating Partnership, will own substantially all of the properties acquired on our behalf. We are the sole general partner of our Operating Partnership and as of December 31, 2006, we owned a 1.0% general partnership interest therein. Our Advisor is a limited partner and as of December 31, 2006, owned a 99.0% limited partnership interest therein. Our Advisor is also entitled to certain subordinated distribution rights under the partnership agreement for our Operating Partnership. Management expects our ownership percentage in our Operating Partnership to increase significantly as we invest net proceeds from our Offering into our Operating Partnership. As of December 31, 2006, our Operating Partnership has no real estate operations and no assets other than the partners initial capital contributions. Because we are the sole general partner of our Operating Partnership and have unilateral control over its management and major operating decisions (even if additional limited partners are admitted to our Operating Partnership), the accounts of our Operating Partnership are consolidated in our consolidated financial statements. All significant intercompany accounts and transactions are eliminated in consolidation.

Use of Estimates

The preparation of our consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. We believe that our critical accounting policies are those that require significant judgments and estimates. These estimates are made and evaluated on an on-going basis using information that is currently available as well as various other assumptions believed to be reasonable under the circumstances. Actual results could differ from those estimates, perhaps in material adverse ways, and those estimates could be different under different assumptions or conditions.

Concentration of Credit Risk

Financial instruments that potentially subject us to a concentration of credit risk are primarily cash. We have cash in financial institutions that is insured by the Federal Deposit Insurance Corporation, or FDIC, up to $100,000 per institution. As of December 31, 2006, we had cash accounts in excess of FDIC insured limits. We believe this risk is not significant.

Restricted Cash Held in Escrow

Restricted funds held in escrow of $1,802,000, including funds received from shares sold to our executive officers and directors, our Dealer Manager, and our Advisor and its affiliates, as of December 31, 2006 are not included in assets and consist of funds received in connection with subscription agreements to purchase shares of our common stock in connection with our Offering. We were required to raise the minimum offering on or before September 20, 2007 (one year following the commencement of our Offering), or, the funds raised, including interest, would have been returned to the subscribers. Therefore, as of December 31, 2006, the funds were held in an escrow account and were not released to or available to us until the minimum offering was raised.

On January 8, 2007, we raised the minimum offering and the funds held in escrow were released to us.

Organizational, Offering and Related Expenses

Our organizational, offering and related expenses are initially being paid by our Advisor, our Dealer Manager and their affiliates on our behalf. These organizational, offering and related expenses include all expenses (other than selling commissions and the marketing support fee) to be paid by us in connection with

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

our Offering. As of December 31, 2006, our Advisor or its affiliates have incurred $1,093,000. These expenses will only become our liability to the extent selling commissions, the marketing support fee and due diligence expense reimbursement and other organizational and offering expenses do not exceed 11.5% of the gross proceeds of our Offering. We have no obligation to reimburse our Advisor, our Dealer Manager or their affiliates for any organizational, offering and related expenses unless we raise the minimum offering. As such, these expenses are not recorded in our accompanying consolidated financial statements since we had not raised the minimum offering as of December 31, 2006. See Note 4, Related Party Transactions Offering Stage for a further discussion of expenses during our offering stage.

Stock Compensation

We follow Statement of Financial Accounting Standards, or SFAS, No. 123(R), *Share-Based Payment*, to account for our stock compensation pursuant to our 2006 Incentive Plan and the 2006 Independent Directors Compensation Plan, a sub-plan of our 2006 Incentive Plan. See Note 6, Stockholders (Deficit) Equity 2006 Incentive Plan and Independent Directors Compensation Plan for a further discussion of grants under our 2006 Incentive Plan.

Income Taxes

We intend to make an election to be taxed as a REIT, under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended, or the Code, and we intend to be taxed as such beginning with our taxable year ended December 31, 2007. We intend to qualify as a REIT. To qualify as a REIT, we must meet certain organizational and operational requirements, including a requirement to currently distribute at least 90.0% of our ordinary taxable income to stockholders. As a REIT, we generally will not be subject to federal income tax on taxable income that we distribute to our stockholders. If we fail to qualify as a REIT in any taxable year, we will then be subject to federal income taxes on our taxable income at regular corporate rates and will not be permitted to qualify for treatment as a REIT for federal income tax purposes for four years following the year during which qualification is lost unless the Internal Revenue Service grants us relief under certain statutory provisions. Such an event could materially adversely affect our net income and net cash available for distribution to stockholders. Because of our intention to elect REIT status in 2007, we will not benefit from the loss incurred in the year ended December 31, 2006.

Per Share Data

We report earnings (loss) per share pursuant to SFAS No. 128, *Earnings Per Share*. Basic earnings (loss) per share attributable for all periods presented are computed by dividing net income (loss) by the weighted average number of shares of our common stock outstanding during the period. Diluted earnings (loss) per share are computed based on the weighted average number of shares of our common stock and all potentially dilutive securities, if any. Restricted shares of common stock give rise to potentially dilutive shares of common stock.

For the period from April 28, 2006 (Date of Inception) through December 31, 2006, we recorded a net loss of approximately $242,000. 16,000 shares of restricted common stock were outstanding as of December 31, 2006, but were excluded from the computation of diluted earnings per share because such shares of restricted common stock were anti-dilutive during this period.

Segment Disclosure

We internally evaluate operations as one segment and therefore do not report segment information.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Recently Issued Accounting Pronouncements

In July 2006, the Financial Accounting Standards Board, or the FASB, issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes*, or FIN No. 48. This interpretation, among other things, creates a two-step approach for evaluating uncertain tax positions. Recognition (step one) occurs when an enterprise concludes that a tax position, based solely on its technical merits, is more-likely-than-not to be sustained upon examination. Measurement (step two) determines the amount of benefit that more-likely-than-not will be realized upon settlement. Derecognition of a tax position that was previously recognized would occur when a company subsequently determines that a tax position no longer meets the more-likely-than-not threshold of being sustained. FTN No. 48 specifically prohibits the use of a valuation allowance as a substitute for derecognition of tax positions, and it has expanded disclosure requirements. FIN No. 48 is effective for fiscal years beginning after December 15, 2006, in which the impact of adoption should be accounted for as a cumulative-effect adjustment to the beginning balance of retained earnings. The adoption of FIN No. 48 as of the beginning of the first quarter of 2007 did not have a material impact on our consolidated financial statements.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurement*, or SFAS No. 157. SFAS No. 157 defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and expands disclosures about fair value measurements. The provisions of SFAS No. 157 are effective for fiscal years beginning after November 15, 2007. We will adopt SFAS No. 157 on January 1, 2008. We are evaluating SFAS No. 157 and have not yet determined the impact the adoption, if any, will have on our consolidated financial statements.

In September 2006, the Securities and Exchange Commission, or the SEC, released Staff Accounting Bulletin, or SAB, No. 108, *Considering the Effects of Prior Year Misstatements When Quantifying Current Year Misstatements*, or SAB No. 108, to address diversity in practice regarding consideration of the effects of prior year errors when quantifying misstatements in current year financial statements. The SEC staff concluded that registrants should quantify financial statement errors using both a balance sheet approach and an income statement approach and evaluate whether either approach results in quantifying a misstatement that, when all relevant quantitative and qualitative factors are considered, is material. SAB No. 108 states that if correcting an error in the current year materially affects the current year s income statement, the prior period financial statements must be restated. SAB No. 108 is effective for fiscal years ending after November 15, 2006. The adoption of SAB No. 108 in the fourth quarter of 2006 did not have a material impact on our consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*, or SFAS No. 159. SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value. The objective of the guidance is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. SFAS No. 159 is effective as of the beginning of the first fiscal year that begins after November 15, 2007. Early adoption is permitted as of the beginning of the fiscal year beginning on or before November 15, 2007, provided the provisions of SFAS No. 157 are applied. We will adopt SFAS No. 159 on January 1, 2008. We are evaluating SFAS No. 159 and have not yet determined the impact the adoption, if any, will have on our consolidated financial statements.

3. Commitments and Contingencies

Litigation

We are not presently subject to any material litigation nor, to our knowledge, is any material litigation threatened against us, which if determined unfavorably to us, would have a material adverse effect on our consolidated financial position, results of operations or cash flows.

4. Related Party Transactions

Some of our executive officers and our non-independent director are also executive officers and/or holders of a direct or indirect interest in our Advisor, Triple Net Properties, Realty, or other affiliated entities. Upon the effectiveness of our Offering, we entered into the Advisory Agreement and a dealer manager agreement, or the Dealer Manager Agreement, with our Dealer Manager. These agreements entitle our Advisor, our Dealer Manager and their affiliates to specified compensation for certain services with regard to our Offering and the investment of funds in real estate assets, among other services, as well as reimbursement of organizational and offering expenses incurred.

Offering Stage

Selling Commissions

Our Dealer Manager will receive selling commissions up to 7.0% of the gross offering proceeds from the sale of shares of our common stock in our Offering. Our Dealer Manager may re-allow all or a portion of these fees to participating broker-dealers. Our Dealer Manager did not receive selling commissions for the period from April 28, 2006 (Date of Inception) through December 31, 2006. Selling commissions are not recorded in our accompanying consolidated financial statements because such commissions were not our liability since we had not raised the minimum offering as of December 31, 2006. When recorded by us, such commissions will be charged to stockholders equity as such amounts are paid to our Dealer Manager from the gross proceeds of our Offering.

Marketing Support Fee and Due Diligence Expense Reimbursement

Our Dealer Manager may receive non-accountable marketing support fees up to 2.5% of the gross offering proceeds from the sale of shares of our common stock in our Offering and may re-allow up to 1.5% of these fees to participating broker-dealers. In addition, we may reimburse our Dealer Manager or its affiliates an additional accountable 0.5% of gross offering proceeds for bona fide due diligence expenses and may re-allow up to 0.5% of these fees to participating broker-dealers. Our Dealer Manager or its affiliates did not receive marketing support fees or due diligence expense reimbursements for the period from April 28, 2006 (Date of Inception) through December 31, 2006. Marketing support fees and due diligence expense reimbursements are not recorded in our accompanying consolidated financial statements because such fees and reimbursements were not our liability since we had not raised the minimum offering as of December 31, 2006. When recorded by us, such fees and reimbursements will be charged to stockholders equity as such amounts are reimbursed to our Dealer Manager or its affiliates from the gross proceeds of our Offering.

Other Organizational and Offering Expenses

Our organizational and offering expenses are paid by our Advisor or Triple Net Properties on our behalf. Our Advisor or Triple Net Properties may be reimbursed for actual expenses incurred for up to 1.5% of the gross offering proceeds for the shares sold under our Offering. No reimbursements were made to our Advisor or Triple Net Properties for the period from April 28, 2006 (Date of Inception) through December 31, 2006 for other organizational and offering expenses. Other organizational and offering expenses are not recorded in our accompanying consolidated financial statements because such expenses were not our liability since we had

not raised the minimum offering as of December 31, 2006. When recorded by us, organizational expenses will be expensed as incurred and offering expenses will be charged to stockholders equity as such amounts are reimbursed to our Advisor or Triple Net Properties from the gross proceeds of our Offering.

Acquisition and Development Stage

Acquisition Fees

Our Advisor or its affiliates will receive, as compensation for services rendered in connection with the investigation, selection and acquisition of properties, an acquisition fee up to 3.0% of the contract purchase price for each property acquired or up to 4.0% of the total development cost of any development property acquired, as applicable. For the period from April 28, 2006 (Date of Inception) through December 31, 2006, we did not incur such fees.

Reimbursement of Acquisition Expenses

Our Advisor or its affiliates will be reimbursed for acquisition expenses related to selecting, evaluating, acquiring and investing in properties, which will not exceed 0.5% of the purchase price of the properties. The reimbursement of acquisition fees and expenses, including real estate commissions paid to unaffiliated parties, will not exceed, in the aggregate, 6.0% of the purchase price or total development costs, unless fees in excess of such limits are approved by a majority of our disinterested independent directors. For the period from April 28, 2006 (Date of Inception) through December 31, 2006, we did not incur such expenses.

Operational Stage

Asset Management Fee

Our Advisor or its affiliates will be paid a monthly fee for services rendered in connection with the management of our assets equal to one-twelfth of 1.0% of the average invested assets calculated as of the close of business on the last day of each month, subject to our stockholders receiving annualized distributions in an amount equal to 5.0% per annum on average invested capital. For the period from April 28, 2006 (Date of Inception) through December 31, 2006, we did not incur such fees.

Property Management Fees

Our Advisor or its affiliates will be paid a monthly property management fee equal to 4.0% of the gross cash receipts from each property managed. For properties managed by other third parties besides our Advisor or its affiliates, our Advisor or its affiliates will be paid up to 1.0% of the gross cash receipts from the property for a monthly oversight fee. For the period from April 28, 2006 (Date of Inception) through December 31, 2006, we did not incur such fees.

Operating Expenses

Our Advisor or its affiliates will be reimbursed for expenses incurred in rendering its services, subject to certain limitations. Fees and costs reimbursed to our Advisor or its affiliates cannot exceed the greater of: (1) 2.0% of our average invested assets, as defined in the Advisory Agreement, or (2) 25.0% of our net income, as defined in the

Advisory Agreement. For the period from April 28, 2006 (Date of Inception) through December 31, 2006, Triple Net Properties incurred $312,000 on our behalf. As of December 31, 2006, we had not reimbursed our Advisor or its affiliates for such expenses.

Liquidity Stage

Disposition Fees

Our Advisor or its affiliates will be paid, for a substantial amount of services relating to a sale of one or more properties, a disposition fee up to the lesser of 1.75% of the contract sales price or 50.0% of a customary competitive real estate commission given the circumstances surrounding the sale, in each case as determined by our board of directors and will not exceed market norms. The amount of disposition fees paid, including real estate commissions paid to unaffiliated parties, will not exceed the lesser of the customary competitive disposition fee or an amount equal to 6.0% of the contract sales price. For the period from April 28, 2006 (Date of Inception) through December 31, 2006, we did not incur such fees.

Subordinated Participation Interest

Subordinated Distribution of Net Sales Proceeds

Upon liquidation of our portfolio, our Advisor will be paid a subordinated distribution of net sales proceeds. The distribution will be equal to 15.0% of the net proceeds from the sales of properties, after subtracting distributions to our stockholders of (1) their initial contributed capital (less amounts paid to repurchase shares pursuant to our share repurchase program) plus (2) an annual cumulative, non-compounded return of 8.0% on average invested capital. Actual amounts depend upon the sales prices of properties upon liquidation. For the period from April 28, 2006 (Date of Inception) through December 31, 2006, we did not incur such distributions.

Subordinated Distribution Upon Listing

Upon the listing of shares of our common stock on a national securities exchange, our Advisor will be paid a distribution equal to 15.0% of the amount by which (1) the market value of our outstanding common stock at listing plus distributions paid prior to listing exceeds (2) the sum of total amount of capital raised from stockholders (less amounts paid to repurchase shares pursuant to our share repurchase plan) and the amount of cash that, if distributed to stockholders as of the date of listing, would have provided them an annual 8.0% cumulative, non-compounded return on average invested capital through the date of listing. Actual amounts depend upon the market value of shares of our common stock at the time of listing, among other factors. For the period from April 28, 2006 (Date of Inception) through December 31, 2006, we did not incur such distributions.

Subordinated Distribution Upon Termination

Upon termination of the Advisory Agreement, other than a termination by us for cause, our Advisor will be entitled to receive a distribution from our Operating Partnership in an amount equal to 15.0% of the amount, if any, by which (1) the fair market value of all of the assets of our Operating Partnership as of the date of the termination (determined by appraisal), less any indebtedness secured by such assets, plus the cumulative distributions made to us by our Operating Partnership from our inception through the termination date, exceeds (2) the sum of the total amount of capital raised from stockholders (less amounts paid to redeem shares pursuant to our share repurchase plan) plus an annual 8.0% cumulative, non-compounded return on average invested capital through the termination date. However, our Advisor will not be entitled to this distribution if shares of our common stock have been listed on a national

securities exchange prior to the termination of the Advisory Agreement. For the period from April 28, 2006 (Date of Inception) through December 31, 2006, we did not incur such distributions.

Due to Affiliates

As of December 31, 2006, approximately $312,000 was payable to Triple Net Properties, primarily for reimbursement of insurance premiums.

5. Minority Interest

In April 2006, we made an initial capital contribution to our Operating Partnership of $2,000 and our Advisor made an initial capital contribution of $200,000 to our Operating Partnership. We used the proceeds from the sale of shares of our common stock to our Advisor to make such capital contribution to our Operating Partnership. Property Acquisitions

On January 22, 2007, we purchased a 100% membership interest in NNN Southpointe, LLC from NNN South Crawford Member, LLC, an indirect wholly-owned subsidiary of our Sponsor, for a total purchase price of $14,800,000. NNN Southpointe, LLC has a fee simple ownership interest in Southpointe Office Parke and Epler Parke I, or the Southpointe property, located in Indianapolis, Indiana. We primarily financed the purchase price of the property through the assumption of an existing mortgage loan payable of $9,146,000 on the property with LaSalle Bank National Association, or LaSalle, and approximately $5,115,000 of the proceeds from a $7,500,000 unsecured loan (as described above) from NNN Realty Advisors. The balance was provided by funds raised through our Offering. An acquisition fee of $444,000, or 3.0% of the purchase price, was paid to our Advisor and its affiliates.

The $9,146,000 existing mortgage loan payable on the Southpointe property matures on September 1, 2016 and bears interest at a fixed rate of 6.113% per annum. Pursuant to our assumption of the mortgage loan payable, we are required to make monthly interest-only payments on the first day of each month through September 1, 2010. Beginning on October 1, 2010, we will be required to make principal and interest payments on the first day of each month until maturity. The mortgage loan provides for a default interest rate of an additional 5.0% per annum in an event of default and late charges in an amount equal to the lesser of (a) an additional 3.0% of the amount of any overdue payments or (b) the maximum amount permitted by applicable law, in addition to any default interest payments.

Since we acquired the NNN Southpointe, LLC membership interests from an indirect wholly-owned subsidiary of our Sponsor, an independent appraiser was engaged to value the property, the transaction was approved by the majority of our directors, including a majority of our independent directors and it was determined by a majority of our board of directors, including a majority of our independent directors that the transaction is fair and reasonable to us and at a price no greater than the cost of the investment to our Sponsor s indirect wholly-owned subsidiary or the property s appraised value.

On January 22, 2007, we purchased a 100% membership interest in NNN Crawfordsville, LLC from NNN South Crawford Member, LLC, for a total purchase price of $6,900,000. NNN Crawfordsville, LLC has a fee simple ownership interest in Crawfordsville Medical Office Park and Athens Surgery Center, or the Crawfordsville property, located in Crawfordsville, Indiana. We primarily financed the purchase price of the property through the assumption of an existing mortgage loan payable of $4,264,000 on the property with LaSalle and approximately $2,385,000 of the proceeds from a $7,500,000 unsecured loan (as described above) from NNN Realty Advisors. The balance was provided by funds raised through our Offering. An acquisition fee of $207,000, or 3.0% of the purchase price, was paid to our Advisor and its affiliates.

The $4,264,000 mortgage loan payable on the Crawfordsville property matures on October 1, 2016 and bears interest at a fixed rate of 6.123% per annum. Pursuant to our assumption of the mortgage loan payable, we are required to make monthly interest-only payments on the first day of each month through October 1, 2010. Beginning on November 1, 2010, we will be required to make principal and interest payments on the first day of each month until maturity. The mortgage loan provides for a default interest rate of an additional 5.0% per annum in an event of default and late charges in an amount equal to the lesser of (a) an additional 3.0% of the amount of any overdue payments or (b) the maximum amount permitted by applicable law, in addition to any default interest payments.

Since we acquired the NNN Crawfordsville, LLC membership interests from an indirect wholly-owned subsidiary of our Sponsor, an independent appraiser was engaged to value the property, the transaction was approved by the majority of our directors, including a majority of our independent directors and it was determined by a majority of our board of directors, including a majority of our independent directors that the transaction is fair and reasonable to us and at a price no greater than the cost of the investment to our Sponsor s indirect wholly-owned subsidiary or the property s appraised value.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

As a result of the acquisitions of the Crawfordsville property and the Southpointe property, as of January 22, 2007, our leverage exceeds 300.0%. In accordance with our charter, a majority of our directors, including a majority of our independent directors, approved our leverage exceeding 300.0% in connection with the acquisitions. The board of directors determined that the excess leverage was justified because it enabled us to purchase the property during the initial stages of our Offering, thereby improving our ability to meet our goal of acquiring a diversified portfolio of properties to generate current income for investors and preserve investor capital. We will likely continue to exceed our charter s leverage guidelines during the early stages of our operations. We will take action to reduce any such excess as soon as practicable. Net assets for purposes of this calculation are defined as our total assets (other than intangibles), valued at cost prior to deducting depreciation, reserves for bad debts and other non-cash reserves, less total liabilities. The preceding calculation is generally expected to approximate 75.0% of the sum of (1) the aggregate cost of our properties before non-cash reserves and depreciation and (2) the aggregate cost of our securities assets.

Basis of Presentation

The accompanying statements of revenues and certain expenses have been prepared for the purpose of complying with the provisions of Article 3-14 of Regulation S-X promulgated by the Securities and Exchange Commission, or the SEC, which requires certain information with respect to real estate operations to be included with certain filings with the SEC. The statements of revenues and certain expenses include the historical revenues and certain operating expenses of the Property, exclusive of items which may not be comparable to the proposed future operations of the Property. Material amounts that would not be directly attributable to future operating results of the Property are excluded, and therefore, the statements of revenues and certain expenses are not intended to be a complete presentation of the Property s revenues and expenses. Items excluded consist of interest expense, depreciation and amortization and federal and state income taxes.

The accompanying statements of revenues and certain expenses are not representative of the actual operations for the period presented, as certain expenses that may not be comparable to the expenses expected to be incurred by NNN Healthcare/Office REIT, Inc. in the future operations of the Property have been excluded.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

All leases are classified as operating leases and minimum rents are recognized on a straight-line basis over the terms of the leases (including rent holidays). Tenant reimbursements for real estate taxes, common area maintenance and other recoverable costs are recognized in the period that the expenses are incurred. For the year ended December 31, 2006 and the nine months ended September 30, 2007 (unaudited), the Property incurred expenses of $65,000 and $49,000, respectively, related to property management

fees.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of revenues and certain expenses during the reporting period. Actual results could differ materially from those estimates.

The aggregate annual future minimum lease payments to be received under the existing non-cancelable operating leases as of December 31, 2006 are as follows:

Thereafter	7,727,000

Amortization expense on the identified intangible assets and liabilities excluding, leasehold interests in land and above and below market leases, is recognized using the straight-line method over an estimated useful life between 1 and 217 months. Amounts allocated to leasehold interests in land are amortized to rental expense on a straight-line basis over the remaining term of the leases ranging from 81 to 96 years.

The amounts allocated to above market leases are included in identified intangible assets and below market lease values are included in identified intangible liabilities in the accompanying unaudited pro forma condensed consolidated balance sheet and are amortized to rental income over the remaining term of the acquired leases with each property which range between 1 and 217 months.

The purchase price allocations, and therefore depreciation and amortization expense, are preliminary and subject to change.

(K) Pursuant to our advisory agreement, our advisor or its affiliates are entitled to receive, for services in managing our properties, a monthly property management fee of up to 4.0% of the gross cash receipts of the property. The historical rates varied. As a result, the pro forma amount shown is reflective of our current advisory agreement.

Also, adjustments were made for an incremental property tax expense assuming the acquisition price and historical property tax rate.

(L) Pursuant to our advisory agreement, our advisor or its affiliates are entitled to receive a monthly asset management fee calculated at one-twelfth of 1.0% of average invested assets, calculated as of the close of business on the last day of each month, subject to our stockholders receiving annualized distributions in an amount equal to at least 5.0% per annum on average invested capital. At the time of the acquisition of the Northmeadow property, the Tucson Medical property and the Lima Medical property, the stockholders had received annualized distributions greater than 5.0% per annum. As such, we assumed an asset management fee was incurred for the nine months ended September 30, 2007.

(M) We assumed the Properties were financed using various debt instruments as noted above in notes (B) through (D). As such, this amount represents interest expense, and the amortization of the corresponding loan fees, on such debt instruments. The LaSalle line of credit bears interest at a variable rate. If rates increase 0.125%, interest expense would increase $49,000.

(N) Represents the weighted-average number of shares of common stock from our initial public offering required to generate sufficient offering proceeds to fund the purchase of the Properties. The calculation assumes the investments were acquired on April 28, 2006 (Date of Inception).

3. Notes to Unaudited Pro Forma Condensed Consolidated Statement of Operations for the Period from April 28, 2006 (Date of Inception) through December 31, 2006.

(O) As reported in our statement of operations for the period from April 28, 2006 (Date of Inception) through December 31, 2006 included in this prospectus.

(P) Amounts represent the estimated operations, including pro forma adjustments, for the period from April 28, 2006 (Date of Inception) through December 31, 2006 of the Southpointe property, the Crawfordsville property, the Gallery property, the Lenox property, the Commons V property, the Peachtree property, the Thunderbird property, the Triumph property, the Gwinnett property, the 1 and 4 Market property, the Kokomo

(Q) Amounts represent the estimated operations of the Northmeadow property for the period from April 28, 2006 (Date of Inception) through December 31, 2006.

(R) Amounts represent the estimated operations of the Tucson Medical property for the period from April 28, 2006 (Date of Inception) through December 31, 2006.

(S) Amounts represent the estimated operations of the Lima Medical property for the period from April 28, 2006 (Date of Inception) through December 31, 2006.

(T) Depreciation expense on the portion of the purchase price allocated to building is recognized using the straight-line method and a 39 year life. Depreciation expense on improvements is recognized using the straight-line method over an estimated useful life between 5 and 217 months. Amortization expense on the identified intangible assets and liabilities excluding, leasehold interests in land and above and below market leases, is recognized using the straight-line method over an estimated useful life between 1 and 217 months. Amounts allocated to leasehold interests in land are amortized to rental expense on a straight-line basis over the remaining term of the leases ranging from 81 to 96 years.

The amounts allocated to above market leases are included in the identified intangible assets and below market lease values are included in identified intangible liabilities in the accompanying unaudited pro forma condensed consolidated balance sheet and are amortized to rental income over the remaining term of the acquired leases with each property which range between 1 and 217 months.

The purchase price allocations, and therefore depreciation and amortization expense, are preliminary and subject to change.

(U) Pursuant to our advisory agreement, our advisor or its affiliates are entitled to receive, for services in managing our properties, a monthly property management fee of up to 4.0% of the gross cash receipts of the property. The historical rates varied. As a result, the pro forma amount shown is reflective of our current advisory agreement.

Also, adjustments were made for an incremental property tax expense assuming the acquisition price and historical property tax rate.

(V) Pursuant to our advisory agreement, our advisor or its affiliates are entitled to receive a monthly asset management fee calculated at one-twelfth of 1.0% of average invested assets, calculated as of the close of business on the last day of each month, subject to our stockholders receiving annualized distributions in an amount equal to at least 5.0% per annum on average invested capital. (W) We assumed the Properties were financed using various debt instruments as noted above in notes (B) through (D). As such, amount represents interest expense, and the amortization of the corresponding loan fees, on such debt instruments. The LaSalle line of credit bears interest at a variable rate. If rates increase 0.125%, interest expense would increase $45,000.

(X) Represents the weighted-average number of shares of common stock from our initial public offering required to generate sufficient offering proceeds to fund the purchase of the Properties. The calculation assumes the investments were acquired on April 28, 2006 (Date of Inception).

APPENDIX A

PRIOR PERFORMANCE TABLES

The following Prior Performance Tables, or Tables, provide information relating to real estate investment and notes programs sponsored by NNN Realty Advisors, our former sponsor and wholly owned subsidiary of our current sponsor, Grubb & Ellis and Triple Net Properties, an indirect wholly owned subsidiary of Grubb & Ellis or collectively, NNN Realty Advisors Group, through December 31, 2006. From inception through December 31, 2006, NNN Realty Advisors Group has served as advisor, sponsor or manager of 165 real estate investment programs, consisting of six public programs required to file public reports with the SEC and 159 private real estate investment programs that have no public reporting requirements. The investment objectives of the public reporting companies have certain investment objectives similar to ours, including the acquisition and operation of commercial properties; the provision of stable cash flow available for distribution to our stockholders; preservation and protection of capital; and the realization of capital appreciation upon the ultimate sale of our properties. One difference in investment objectives between us and the public companies is the focus on a particular type or asset class of commercial property. In particular: G REIT focused on government-oriented office properties; T REIT focused on commercial properties located in tax free states; Grubb & Ellis Apartment REIT focuses on apartment communities; 2002 Value Fund focused on investments in three office properties; and 2003 Value Fund focused on value-added properties in asset classes that include office properties and undeveloped land. Our focus is on medical office buildings, healthcare-related facilities and quality commercial office properties.

The private real estate programs sponsored by NNN Realty Advisors Group also had as their primary investment objective the acquisition, ownership, operation and eventual sale of real estate. While we intend to qualify as a REIT that invests in a diversified portfolio of real estate and real estate related securities, the private real estate programs were structured for the purpose of selling undivided tenant in common interests in a single property through a limited liability company.

As a prospective investor, you should read these Tables carefully together with the summary information concerning the Prior Programs as set forth in the Prior Performance Summary section of this prospectus.

As an investor in our company, you will not own any interest in the Prior Programs and should not assume that you will experience returns, if any, comparable to those experienced by investors in the Prior Programs.

Our advisor is owned and managed by Triple Net Properties. Our advisor is responsible for managing our day-to-day business affairs and assets, administering our bookkeeping and accounting functions, serving as our consultant in connection with policy decisions to be made by our board of directors, managing or causing to be managed our properties, and rendering other property level services as our board of directors deems necessary. The financial results of the Prior Programs thus may provide some indication of our advisor s performance of its obligations during the periods covered. However, general economic conditions affecting the real estate industry and other factors contribute significantly to financial results.

The following tables are included herein:

Table I Experience in Raising and Investing Funds (Unaudited)
Table II Compensation to Sponsor (Unaudited)
Table III Annual Operating Results of Prior Programs (Unaudited)
Table IV Results of Completed Programs (Unaudited)

Table V Sales or Disposals of Properties (Unaudited)

Additional information relating to the acquisition of properties by the Prior Programs is contained in Table VI, which is included in the registration statement which our company has filed with the SEC. We will provide to you copies of any or all information concerning the Prior Programs at no charge upon request.

NNN Realty Advisors Group presents the data in Prior Performance Table III for each program on either a GAAP basis or an income tax basis depending on the reporting requirements of the particular program.

In compliance with the SEC reporting requirements, the Table III presentation of Revenues, Expenses and Net Income for the public programs has been prepared and presented by NNN Realty Advisors Group in conformity with accounting principles generally accepted in the Unites States of America, or GAAP, which incorporate accrual basis accounting. NNN Realty Advisors Group presents Table III for all private programs on an income tax basis (which can in turn be presented on either a cash basis or accrual basis), specifically, the private programs are presented on a cash basis except for Western Real Estate Investment, Inc. and the four Notes Programs, which are presented on an accrual basis, as the only applicable reporting requirement is for the year-end tax information provided to each investor. The Table III data for all other private programs (which are generally formed using LLCs) are prepared and presented by NNN Realty Advisors Group in accordance with the cash method of accounting for income tax purposes. This is because most, if not all, of the investors in these private programs are individuals required to report to the Internal Revenue Service using the cash method of accounting for income tax purposes, and the LLCs are required to report on this basis when more than 50% of their investors are taxpayers that report using the cash method of accounting for income tax purposes. When GAAP-basis affiliates invest in a private program, as in a Complex Ownership Structure, the ownership presentation in the tables is made in accordance with the cash method of accounting for income tax purposes. This presentation is made for consistency and to present results meaningful to the typical individual investor that invests in an LLC.

While SEC rules and regulations allow NNN Realty Advisors Group to record and report results for its private programs on an income tax basis, investors should understand that the results of these private programs may be different if they were reported on a GAAP basis. Some of the major differences between GAAP accounting and income tax accounting (and, where applicable, between cash basis and accrual basis income tax accounting) that impact the accounting for investments in real estate are described in the following paragraphs:

The primary difference between the cash methods of accounting and accrual methods (both GAAP and the accrual method of accounting for income tax purposes) is that the cash method of accounting generally reports income when received and expenses when paid while the accrual method generally requires income to be recorded when earned and expenses recognized when incurred.

GAAP requires that, when reporting lease revenue, the minimum annual rental revenue be recognized on a straight-line basis over the term of the related lease, whereas the cash method of accounting for income tax purposes requires recognition of income when cash payments are actually received from tenants, and the accrual method of accounting for income tax purposes requires recognition of income when the income is earned pursuant to the lease contract.

GAAP requires that when an asset is considered held for sale, depreciation ceases to be recognized on that asset, whereas for income tax purposes, depreciation continues until the asset either is sold or is no longer in service.

GAAP requires that when a building is purchased certain intangible assets and liabilities (such as above-and below-market leases, tenant relationships and in-place lease costs) are allocated separately from the building and are amortized over significantly shorter lives than the depreciation recognized on the building. These intangible assets and liabilities are not recognized for income tax purposes and are not allocated separately from the building for purposes of tax depreciation.

GAAP requires that an asset is considered impaired when the carrying amount of the asset is greater than the sum of the future undiscounted cash flows expected to be generated by the asset, and an impairment loss must then be recognized to decrease the value of the asset to its fair value. For income tax purposes, losses are generally not recognized until the asset has been sold to an unrelated party or otherwise disposed of in an arm s length transaction.

TRANSFER ON DEATH INFORMATION

A Transfer on Death (T.O.D.) designation transfers ownership of shares to the registered owner s beneficiary(ies) upon death; provided that Grubb & Ellis Healthcare REIT, Inc. receives proof of death and other documentation it deems necessary or appropriate.

Until the death of the account owner(s), the T.O.D. beneficiary(is) has (have) no present interest in, or authority over, the T.O.D. account.

A T.O.D. designation may be voided at any time by Grubb & Ellis Healthcare REIT, Inc., in its sole discretion, if there is any doubt as to the validity or effectiveness of a T.O.D. designation.

A T.O.D. designation will not be accepted from residents of Louisiana or Texas.

DISTRIBUTION REINVESTMENT PLAN

The Distribution Reinvestment Plan (the DRIP) for Grubb & Ellis Healthcare REIT, Inc., a Maryland corporation (the Company), offers to holders of the Company s common stock, $0.01 par value per share (the Common Stock), the opportunity to purchase, through reinvestment of distributions, additional shares of Common Stock, on the terms, subject to the conditions and at the prices herein stated.

The DRIP will be implemented in connection with the Company s Registration Statement under the Securities Act of 1933 on Form S-11, including the prospectus contained therein (the Prospectus) and the registered initial public offering of 221,052,632 shares of the Company s Common Stock (the Initial Offering), of which amount 21,052,632 shares will be registered and reserved for distribution pursuant to the DRIP (the Initial DRIP Shares).

Initially, distributions reinvested pursuant to the DRIP will be applied to the purchase of shares of Common Stock at a price per share equal to $9.50 (the Initial Offering DRIP Price) until all of the Initial DRIP Shares have been purchased or until the termination of the Initial Offering, whichever occurs first. Thereafter, the Company may, in its sole discretion, effect additional public equity offerings of Common Stock for use in the DRIP at a price per share equal to 95% of the offering price in such subsequent public equity offering (the Subsequent Offering DRIP Price). The Company may also offer shares of Common Stock under the DRIP at a price per share equal to 95% of the most recent offering price (the Post-Offering DRIP Price) for the first 12 months subsequent to the close of the last public offering of Common Stock prior to the listing of Common Stock on a national securities exchange (a Listing). After that 12-month period, participants in the DRIP may acquire Common Stock under the DRIP at a price per share equal to 95% of the per share valuation determined by the Company s advisor or another firm chosen for that purpose until the Listing (the Pre-Listing DRIP Price). From and after the date of the Listing, participants in the DRIP may acquire Common Stock at a price per share equal to 100% of the average daily open and close price per share on the distribution payment date, as reported by the national securities exchange on which the Common Stock is traded (individually the Listing DRIP Price and collectively referred to herein with the Initial Offering DRIP Price, the Subsequent Offering DRIP Price, the Post-Offering DRIP Price and the Pre-Listing DRIP Price as the DRIP Price).

The DRIP

The DRIP provides you with a simple and convenient way to invest your cash distributions in additional shares of Common Stock. As a participant in the DRIP and during the Initial Offering, you may purchase shares at the Initial Offering DRIP Price until all of the Initial DRIP Shares have been purchased or until the Company elects to terminate the DRIP. If the Company elects to keep the DRIP in effect after the Initial Offering, you may purchase shares at the Subsequent Offering DRIP Price, the Post-Offering DRIP Price, the Pre-Listing DRIP Price or the Listing DRIP Price, as applicable.

You receive free custodial service for the shares you hold through the DRIP.

Shares for the DRIP will be purchased directly from the Company. Such shares will be authorized and may be either previously issued or unissued shares. Proceeds from the sale of Common Stock under the DRIP will be used to provide the Company with funds for its general corporate purposes.

Eligibility

Holders of record of Common Stock are eligible to participate in the DRIP only with respect to 100% of their shares. If your shares are held of record by a broker or nominee and you want to participate in the DRIP, you must make appropriate arrangements with your broker or nominee.

The Company may refuse participation in the DRIP to stockholders residing in states where shares offered pursuant to the DRIP are neither registered under applicable securities laws nor exempt from registration.

Administration

As of the date of the Prospectus, the DRIP will be administered by the Company or an affiliate of the Company (the DRIP Administrator), but a different entity may act as DRIP Administrator in the future. The DRIP Administrator will keep

Table of Contents

all records of your DRIP account and send statements of your account to you. Shares of Common Stock purchased under the DRIP will be registered in the name of each participating stockholder.

Enrollment

You must own shares of Common Stock in order to participate in the DRIP. You may become a participant in the DRIP by completing and signing the enrollment form enclosed with the Prospectus and returning it to us at the time you subscribe for shares. If you receive a copy of the Prospectus or a separate prospectus relating solely to the DRIP and have not previously elected to participate in the DRIP, then you may so elect at any time by completing the enrollment form attached to such prospectus or by other appropriate written notice to the Company of your desire to participate in the DRIP.

Your participation in the DRIP will begin with the first distribution payment after your signed enrollment form is received, provided such form is received on or before 10 days prior to the record date established for that distribution. If your enrollment form is received after the record date for any distribution and before payment of that distribution, that distribution will be paid to you in cash and reinvestment of your distributions will not begin until the next distribution payment date.

Costs

Purchases under the DRIP will not be subject to selling commissions, marketing support fees or due diligence reimbursements. All costs of administration of the DRIP will be paid by the Company. However, any interest earned on distributions on shares within the DRIP will be paid to the Company to defray certain costs relating to the DRIP.

Purchases and Price of Shares

Investment Date. Common Stock distributions will be invested within 30 days after the date on which Common Stock distributions are paid (the Investment Date). Payment dates for Common Stock distributions will be ordinarily on or about the last day of each month but may be changed to quarterly in the sole discretion of the Company. Any distributions not so invested will be returned to participants in the DRIP.

You become an owner of shares purchased under the DRIP as of the Investment Date. Distributions paid on shares held in the DRIP (less any required withholding tax) will be credited to your DRIP account. Distributions will be paid on both full and fractional shares held in your account and are automatically reinvested.

Reinvested Distributions. The Company will use the aggregate amount of distributions to all DRIP participants for each distribution period to purchase shares for such participants. If the aggregate amount of distributions to all DRIP participants exceeds the amount required to purchase all shares then available for purchase, the Company will purchase all available shares and will return all remaining distributions to the DRIP participants within 30 days after the date such distributions are made. The Company will allocate the purchased shares among the DRIP participants based on the portion of the aggregate distributions received on behalf of each participant, as reflected on the Company s books.

You may elect distribution reinvestment only with respect to 100% of shares registered in your name on the records of the Company. Distributions on all shares purchased pursuant to the DRIP will be automatically reinvested. The number of shares purchased for you as a participant in the DRIP will depend on the amount of your distributions on these shares (less any required withholding tax) and the applicable DRIP Price. Your account will be credited with the number of shares, including fractions computed to four decimal places, equal to the total amount invested divided by the applicable DRIP Price.

Optional Cash Purchases. Unless and until determined otherwise by the Company, DRIP participants may not make additional cash payments for the purchase of Common Stock under the DRIP.

Distributions on Shares Held in the DRIP

Distributions paid on shares held in the DRIP (less any required withholding tax) will be credited to your DRIP account. Distributions will be paid on both full and fractional shares held in your account and will be automatically reinvested.

Table of Contents

Account Statements

You will receive a statement of your account within 90 days after the end of the fiscal year. The statements will contain a report of all transactions with respect to your account since the last statement, including information with respect to the distributions reinvested during the year, the number of shares purchased during the year, the per share purchase price for such shares, the total administrative charge retained by the Company or DRIP Administrator on your behalf and the total number of shares purchased on your behalf pursuant to the DRIP. In addition, tax information with respect to income earned on shares under the DRIP for the year will be included in the account statements. These statements are your continuing record of the cost of your purchase and should be retained for income tax purposes.

Book-Entry Shares

The ownership of shares purchased under the DRIP will be noted in book-entry form. The number of shares purchased will be shown on your statement of account. This feature permits ownership of fractional shares, protects against loss, theft or destruction of stock certificates and reduces the costs of the DRIP.

Termination of Participation

You may discontinue reinvestment of distributions under the DRIP with respect to all, but not less than all, of your shares (including shares held for your account in the DRIP) at any time without penalty by notifying the DRIP Administrator in writing no less than 10 days prior to the next Investment Date. A notice of termination received by the DRIP Administrator after such cutoff date will not be effective until the next following Investment Date. Participants who terminate their participation in the DRIP may thereafter rejoin the DRIP by notifying the Company and completing all necessary forms and otherwise as required by the Company.

If you notify the DRIP Administrator of your termination of participation in the DRIP or if your participation in the DRIP is terminated by the Company, the stock ownership records will be updated to include the number of whole shares in your DRIP account. For any fractional shares of stock in your DRIP account, the DRIP Administrator may either (i) send you a check in payment for any fractional shares in your account, or (ii) credit your stock ownership account with any such fractional shares.

A participant who changes his or her address must promptly notify the DRIP Administrator. If a participant moves his or her residence to a state where shares offered pursuant to the DRIP are neither registered nor exempt from registration under applicable securities laws, the Company may deem the participant to have terminated participation in the DRIP.

The Company reserves the right to prohibit certain employee benefit plans from participating in the DRIP if such participation could cause the underlying assets of the Company to constitute plan assets of such plans.

Amendment and Termination of the DRIP

The Company s board of directors (the Board) may, in its sole discretion, terminate the DRIP or amend any aspect of the DRIP without the consent of DRIP participants or other stockholders, provided that written notice of any material amendment is sent to DRIP participants at least 10 days prior to the effective date thereof and provided that we may not amend the DRIP to terminate a participant s right to withdraw from the DRIP. You will be notified if the DRIP is terminated or materially amended. The Board also may terminate any participant s participation in the DRIP at any time by notice to such participant if continued participation will, in the opinion of the Board, jeopardize the status of the Company as a real estate investment trust under the Internal Revenue Code.

Voting of Shares Held Under the DRIP

You will be able to vote all shares of Common Stock (including fractional shares) credited to your account under the DRIP at the same time that you vote the shares registered in your name on the records of the Company.

Stock Dividends, Stock Splits and Rights Offerings

Your DRIP account will be amended to reflect the effect of any stock dividends, splits, reverse splits or other combinations or recapitalizations by the Company on shares held in the DRIP for you. If the Company issues to its

stockholders rights to subscribe to additional shares, such rights will be issued to you based on your total share holdings, including shares held in your DRIP account.

Responsibility of the DRIP Administrator and the Company Under the DRIP

The DRIP Administrator will not be liable for any claim based on an act done in good faith or a good faith omission to act. This includes, without limitation, any claim of liability arising out of failure to terminate a participant s account upon a participant s death, the prices at which shares are purchased, the times when purchases are made, or fluctuations in the market price of Common Stock.

All notices from the DRIP Administrator to a participant will be mailed to the participant at his or her last address of record with the DRIP Administrator, which will satisfy the DRIP Administrator s duty to give notice. DRIP participants must promptly notify the DRIP Administrator of any change in address.

You should recognize that neither the Company nor the DRIP Administrator can provide any assurance of a profit or protection against loss on any shares purchased under the DRIP.

Interpretation and Regulation of the DRIP

The Company reserves the right, without notice to DRIP participants, to interpret and regulate the DRIP as it deems necessary or desirable in connection with its operation. Any such interpretation and regulation shall be conclusive.

Federal Income Tax Consequences of Participation in the DRIP

The following discussion summarizes the principal federal income tax consequences, under current law, of participation in the DRIP. It does not address all potentially relevant federal income tax matters, including consequences peculiar to persons subject to special provisions of federal income tax law (such as tax-exempt organizations, insurance companies, financial institutions, broker dealers and foreign persons). The discussion is based on various rulings of the IRS regarding several types of distribution reinvestment plans. No ruling, however, has been issued or requested regarding the DRIP. The following discussion is for your general information only, and you must consult your own tax advisor to determine the particular tax consequences (including the effects of any changes in law) that may result from your participation in the DRIP and the disposition of any shares purchased pursuant to the DRIP.

Reinvested Distributions. Stockholders subject to federal income taxation who elect to participate in the DRIP will incur a tax liability for distributions allocated to them even though they have elected not to receive their distributions in cash but rather to have their distributions reinvested pursuant to the DRIP. Specifically, DRIP participants will be treated as if they received the distribution from the Company and then applied such distribution to purchase the shares in the DRIP. To the extent that a stockholder purchases shares through the DRIP at a discount to fair market value, the stockholders will be treated for tax purposes as receiving an additional distribution equal to the amount of such discount. A stockholder designating a distribution for reinvestment will be taxed on the amount of such distribution as ordinary income to the extent such distribution is from current or accumulated earnings and profits, unless the Company has designated all or a portion of the distribution as a capital gain dividend. In such case, such designated portion of the distribution will be taxed as a capital gain. To the extent that the Company makes a distribution in excess of the Company s current or accumulated earnings and profits, the distribution will be treated first as a tax-free return of capital, reducing the tax basis in your common stock, and then the distribution in excess of such basis will be taxable as a gain realized from the sale of your common stock.

Receipt of Share Certificates and Cash. You will not realize any income if you receive certificates for whole shares credited to your account under the DRIP. Any cash received for a fractional share held in your account will be treated as an amount realized on the sale of the fractional share. You therefore will recognize gain or loss equal to any difference between the amount of cash received for a fractional share and your tax basis in the fractional share.

Withholding. In the case of participating stockholders whose distributions are subject to withholding of federal income tax, distributions will be reinvested less the amount of tax required to be withheld.

Our board of directors has approved the share repurchase plan below. The plan became effective on September 20, 2006 and was amended effective July 17, 2007. We have received SEC exemptive relief from rules restricting issuer purchases during distributions with respect to our share repurchase plan. However, our board of directors could choose to amend the provisions of the share repurchase plan without stockholder approval.

GRUBB & ELLIS HEALTHCARE REIT, INC.

SHARE REPURCHASE PLAN

The Board of Directors (the Board) of Grubb & Ellis Healthcare REIT, Inc., a Maryland corporation (the Company), has adopted and elected, effective September 20, 2006 and as amended July 17, 2007, to implement a share repurchase plan (the Repurchase Plan) by which shares of the Company s Common Stock (Shares) may be repurchased by the Company from stockholders subject to certain conditions and limitations. The purpose of this Repurchase Plan is to provide limited interim liquidity for stockholders (under the conditions and limitations set forth below) until a liquidity event occurs. No stockholder is required to participate in the Repurchase Plan.

1. *Repurchase of Shares.* The Company may, at its sole discretion, repurchase Shares presented to the Company for cash to the extent it has sufficient proceeds to do so. Any and all Shares repurchased by the Company shall be canceled, and will have the status of authorized but unissued Shares. Shares acquired by the Company through the Repurchase Plan will not be reissued unless they are first registered with the Securities and Exchange Commission under the Securities Act of 1933 and other appropriate state securities laws or otherwise issued in compliance with such laws.

2. *Repurchase Price.*

During Public Offerings. For the period during which the Company is engaged in a public offering of Shares (the Offering), the repurchase price for Shares will be $9.00.

Non-Offering Periods. During the twelve-month period immediately following the termination of the Offering (the First Period), the repurchase price for Shares will be $9.25 per Share. During the twelve-month period immediately following the termination of the First Period (the Second Period), the repurchase price for Shares will be $9.50 per Share. During the twelve-month period immediately following the termination of the Second Period (the Third Period), the repurchase price per Share will be $9.75 per Share. After the termination of the Third Period, the repurchase price per Share will be the greater of: (i) $10.00 per Share; or (ii) a price equal to 10 times the Company s funds available for distribution per weighted average Share outstanding for the prior calendar year.

Death or Disability. If Shares are to be repurchased in connection with a stockholder s death or qualifying disability as provided in Section 4, the repurchase price shall be: (1) prior to the end of the 36-month period following the Offering, $10.00 per Share, or (2) after the 36-month period following the Offering, the greater of (a) $10.00 per Share or (b) a price equal to 10 times the Company s funds available for distribution per weighted average Share outstanding for the prior calendar year. If any Shares that are to be repurchased in connection with a stockholder s death or qualifying disability were originally purchased for less than $10.00 per Share, the equivalent discount will be applied to the repurchase price for the Shares. Appropriate legal documentation will be required for repurchase requests upon death or qualifying disability.

Funds available for distribution. Funds available for distribution means generally the operating cash flow available to pay distributions to the Company s stockholders.

3. *Funding and Operation of Repurchase Plan.* The Company may make purchases under the Repurchase Plan quarterly, at its sole discretion, on a pro rata basis. Subject to funds being available, the Company will limit the number of Shares repurchased during any calendar year to five percent (5%) of the weighted average number of Shares outstanding during the prior calendar year. Funding for the Repurchase Plan will come exclusively from proceeds received from the sale of Shares under the Company s Distribution Reinvestment Plan.

4. *Stockholder Requirements.* Any stockholder may request a repurchase with respect to all or a designated portion of this Shares, subject to the following conditions and limitations:

Holding Period. Only Shares that have been held by the presenting stockholder for at least one (1) year are eligible for repurchase by the Company, except as follows. Subject to the conditions and limitations below, the Company will redeem Shares held for less than the one-year holding period upon the death of a stockholder who is a natural person, including Shares held by such stockholder through a revocable grantor trust, or an IRA or other retirement or profit-sharing plan, after receiving written notice from the estate of the stockholder, the recipient of the Shares through bequest or inheritance, or, in the case of a revocable grantor trust, the trustee of such trust, who shall have the sole ability to request redemption on behalf of the trust. The Company must receive the written notice within 180 days after the death of the stockholder. If spouses are joint registered holders of Shares, the request to redeem the shares may be made if either of the registered holders dies. This waiver of the one-year holding period will not apply to a stockholder that is not a natural person, such as a trust other than a revocable grantor trust, partnership, corporation or other similar entity.

Furthermore, and subject to the conditions and limitations described below, the Board will redeem Shares held by a stockholder who is a natural person, including Shares held by such stockholder through a revocable grantor trust, or an IRA or other retirement or profit-sharing plan, with a qualifying disability, as determined by the Board, after receiving written notice from such stockholder. The Company must receive the written notice within 180 days after such stockholder s qualifying disability. This waiver of the one-year holding period will not apply to a stockholder that is not a natural person, such as a trust other than a revocable grantor trust, partnership, corporation or other similar entity.

Minimum Maximum. A stockholder must present for repurchase a minimum of 25%, and a maximum of 100%, of the Shares owned by the stockholder on the date of presentment. Fractional shares may not be presented for repurchase unless the stockholder is presenting 100% of his Shares.

No Encumbrances. All Shares presented for repurchase must be owned by the stockholder(s) making the presentment, or the party presenting the Shares must be authorized to do so by the owner(s) of the Shares. Such Shares must be fully transferable and not subject to any liens or other encumbrances.

Share Repurchase Form. The presentment of Shares must be accompanied by a completed Share Repurchase Request form, a copy of which is attached hereto as *Exhibit A.* All Share certificates must be properly endorsed.

Deadline for Presentment. The Company will repurchase Shares on or about the last day of each calendar quarter. All Shares presented and all completed Share Repurchase Request forms must be received by the Repurchase Agent (as defined below) on or before the last day of the second month of each calendar quarter in order to have such Shares eligible for repurchase in that same quarter.

Repurchase Request Withdrawal. You may withdraw your repurchase request upon written notice to the Company at any time prior to the date of repurchase.

Repurchase Agent. All repurchases will be effected on behalf of the Company by a registered broker dealer (the Repurchase Agent), who shall contract with the Company for such services. All recordkeeping and administrative functions required to be performed in connection with the Repurchase Plan will be performed by the Repurchase Agent.

Termination, Amendment or Suspension of Plan. The Repurchase Plan will terminate and the Company will not accept Shares for repurchase in the event the Shares of common stock of the Company are listed on any national

securities exchange, the subject of bona fide quotes on any inter-dealer quotation system or electronic communications network or are the subject of bona fide quotes in the pink sheets. Additionally, the Board of Directors of the Company, in its sole discretion, may terminate, amend or suspend the Repurchase Plan if it determines to do so is in the best interest of the Company. A determination by the Company s Board of Directors to terminate, amend or suspend the Repurchase Plan will require the affirmative vote of a majority of the directors, including a majority of the independent directors. If the Company terminates, amends or suspends the Repurchase Plan, the Company will provide stockholders with 30 days advance notice and the Company will disclose the changes in the appropriate report filed with the Securities and Exchange Commission.

5. *Miscellaneous.*

Advisor Ineligible. The Advisor to the Company, Grubb & Ellis Healthcare REIT Advisor, LLC, shall not be permitted to participate in the Repurchase Plan.

Liability. Neither the Company nor the Repurchase Agent shall have any liability to any stockholder for the value of the stockholder s Shares, the repurchase price of the stockholder s Shares, or for any damages resulting from the stockholder s presentation of his Shares or the repurchase of the Shares under this Repurchase Plan, except as result from the Company s or the Repurchase Agent s gross negligence, recklessness or violation of applicable law; provided, however, that nothing contained herein shall constitute a waiver or limitation of any rights or claims a stockholder may have under federal or state securities laws.

Taxes. Stockholders shall have complete responsibility for payment of all taxes, assessments, and other applicable obligations resulting from the Company s repurchase of Shares.

Preferential Treatment of Shares Repurchased in Connection with Death or Disability. If there are insufficient funds to honor all repurchase requests, preference will be given to shares to be repurchased in connection with a death or disability.

equal to LIBOR plus 1.65%. The interest rate increases to LIBOR plus 1.75% should our operating partnership exercise its right to purchase the 20.0% membership interest held by BD St. Louis. If any monthly payment is 10 or more days late, the loan provides for a late charge equal to 5.0% of the unpaid portion of the regularly scheduled payment. In the event of a default, the loan also provides for a default interest rate of 5.0% over National City s corporate market rate, as defined in the promissory note for the loan. Basis of Presentation

The accompanying statements of revenues and certain expenses have been prepared for the purpose of complying with the provisions of Article 3-14 of Regulation S-X promulgated by the Securities and Exchange Commission, or the SEC, which requires certain information with respect to real estate operations to be included with certain filings with the SEC. The statements of revenues and certain expenses include the historical revenues and certain operating expenses of the Property, exclusive of items which may not be comparable to the proposed future operations of the Property. Material amounts that would not be directly attributable to future operating results of the Property are excluded, and therefore, the statements of revenues and certain expenses are not intended to be a complete presentation of the Property s revenues and expenses. Items excluded consist of interest expense, depreciation and amortization and federal and state income taxes.

The accompanying statements of revenues and certain expenses are not representative of the actual operations for the periods presented, as certain expenses that may not be comparable to the expenses expected to be incurred by Grubb & Ellis Healthcare REIT, Inc. in the future operations of the Property have been excluded.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Tenant reimbursements for real estate taxes, common area maintenance and other recoverable costs are recognized in the period that the expenses are incurred.

Repairs and Maintenance

Repairs and maintenance costs are expensed as incurred, while significant improvements, renovations and replacements are capitalized.

Property Management Fees

The owners of the Property contracted with a related party to manage the Property. For the year ended December 31, 2006 and the nine months ended September 30, 2007 (unaudited), the Property incurred expenses of $112,000 and $87,000, respectively, related to property management fees.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of revenues and certain expenses during the reporting period. Actual results could differ materially from those estimates.

Unaudited Interim Information

NOTE 3 LEASES

The Property has entered into operating lease agreements with tenants that expire at various dates through 2014 and are subject to fixed increases in base rent. The aggregate annual future minimum lease payments to be received under the existing non-cancelable operating leases as of December 31, 2006 are as follows:

The Property has an agreement with its tenant, whereby the tenant directly pays for the buildings operating expenses, including but not limited to maintenance, real estate taxes, utilities, management fees, insurance and certain general and administrative expenses. As a result the accompanying statement of revenues and certain expenses do not include these operating expenses.

The accompanying statement of revenues and certain expenses are not representative of the actual operations for the periods presented, as certain expenses that may not be comparable to the expenses expected to be incurred by Grubb & Ellis Healthcare REIT, Inc. in the future operations of the Property have been excluded.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Revenue Recognition

All leases are classified as operating leases and minimum rents are recognized on a straight-line basis over the terms of the leases (including rent holidays).

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of revenues and certain expenses during the reporting period. Actual results could differ materially from those estimates.

Unaudited Interim Information

The statement of revenues and certain expenses for the two months ended September 30, 2007 is unaudited. In the opinion of management, such financial statement reflects all adjustments necessary for a fair presentation of the results of the interim period. All such adjustments are of a normal recurring nature.

The unaudited pro forma condensed consolidated financial statements (including notes thereto) are qualified in their entirety by reference to and should be read in conjunction with the historical September 30, 2007 and December 31, 2006 consolidated financial statements included elsewhere in this prospectus. In management s opinion, all adjustments necessary to reflect the transactions have been made.

The accompanying unaudited pro forma condensed consolidated balance sheet as of September 30, 2007 is presented as if we acquired Northmeadow Medical Center, or the Northmeadow property, Tucson Medical Center Portfolio, or the Tucson Medical property and Lima Medical Office Portfolio, or the Lima Medical property, or collectively the Q4 2007 Previously Reported Transactions, and Highlands Ranch Healthcare Plaza, or the Highlands Ranch property, Park Place Office Park, or the Park Place property, Chesterfield Rehabilitation Center, or the Chesterfield property and Medical Portfolio 1, or the Medical 1 property, on September 30, 2007. Collectively, these properties were acquired using a combination of debt financing and proceeds, net of offering costs, received from our initial public offering through the acquisition date at $10.00 per share. However, the pro forma adjustments assume the debt proceeds and offering proceeds were raised as of September 30, 2007.

The Properties were acquired using a combination of debt financing and proceeds, net of offering costs, received from our initial public offering through the acquisition date at $10.00 per share. In some cases, we secured debt financing on the property subsequent to acquisition. However, the pro forma adjustments assume that the debt proceeds and offering proceeds were raised as of April 28, 2006 (Date of Inception).

The accompanying unaudited pro forma condensed consolidated financial statements are unaudited and are subject to a number of estimates, assumptions, and other uncertainties, and do not purport to be indicative of the actual results of operations or financial position that would have occurred had the acquisitions reflected therein in fact occurred on the dates specified, nor do such financial statements purport to be indicative of the results of operations or financial position that may be achieved in the future. An acquisition fee of $1,109,000, or 3.0% of the purchase price, was paid to our advisor and its affiliate. We allocated the purchase price, plus closing costs, to the fair value of the assets acquired and liabilities assumed as follows: $4,206,000 to land, $28,282,000 to building

and improvements, $2,225,000 to in place leases, $2,085,000 to tenant relationships, $884,000 to above market leases and $(276,000) to below market leases. The purchase price allocations are preliminary and are subject to change.

Also, adjustments were made for an incremental property tax expense assuming the acquisition price and historical property tax rate.

(Q) Pursuant to our advisory agreement, our advisor or its affiliates are entitled to receive a monthly asset management fee calculated at one-twelfth of 1.0% of average invested assets, calculated as of the close of business on the last day of each month, subject to our stockholders receiving annualized distributions in an amount equal to at least 5.0% per annum on average invested capital. At the time of the acquisition of the Highlands Ranch property, the Park Place property, the Chesterfield property and the Medical 1 property, the stockholders had received annualized distributions greater than 5.0% per annum. The LaSalle Line of credit bears interest at a variable rate. If rates increase 0.125%, interest expense would increase $30,000.

(S) Represents the weighted-average number of shares of common stock from our initial public offering required to generate sufficient offering proceeds to fund the purchase of the Properties. The calculation assumes the investments were acquired on April 28, 2006 (Date of Inception) except for the Chesterfield property which was assumed purchased on August 1, 2007.

our proposed acquisition of Cypress Station Medical Building in Houston, Texas;

our proposed acquisition of Epler Parke Building B in Indianapolis, Indiana;

our proposed acquisition of Senior Care Portfolio 1 in California and Texas; and

our proposed acquisition of Vista Professional Center in Lakeland, Florida.

Status of Our Initial Public Offering

As of March 7, 2008, we had received and accepted subscriptions in our offering for 25,476,980 shares of our common stock, or approximately $254,481,000, excluding shares issued under our distribution reinvestment plan.

Acquisition of Fort Road Medical Building

On March 6, 2008, we, through our subsidiary, G&E Healthcare REIT Fort Road Medical, LLC, acquired a fee simple interest in Fort Road Medical Building located in St. Paul, Minnesota, or the Fort Road property, from an unaffiliated third party, for a purchase price of $8,650,000, plus closing costs.

Financing and Fees

We financed the purchase price of the Fort Road property with a secured loan of $5,800,000 from LaSalle Bank National Association, or LaSalle, $3,000,000 in borrowings under our secured revolving line of credit with LaSalle and KeyBank National Association, or KeyBank, as disclosed in our prospectus, and funds from this offering. An acquisition fee of $260,000, or 3.0% of the purchase price, was paid to Grubb & Ellis Healthcare REIT Advisor, LLC, our advisor, and its affiliate.

On March 6, 2008, we, through G&E Healthcare REIT Fort Road Medical, LLC, obtained a secured loan, or the Fort Road loan, with LaSalle. The Fort Road loan is evidenced by a Promissory Note in the principal amount of

$5,800,000, or the Fort Road note. The Fort Road note is secured by a Mortgage, Security Agreement, Assignment of Leases and Rents and Fixture Filing, or the Fort Road mortgage, on the Fort Road property, and a Guaranty of Payment by which we guarantee payment of an amount up to $2,900,000, plus interest at an interest rate equal to the default interest rate, described below, and all costs associated with enforcing the Guaranty of Payment. The Fort Road loan matures on March 6, 2011, but may be extended for two consecutive 12 month periods, each subject to satisfaction of certain conditions, including payment of an extension fee equal to 0.125% of the principal balance then outstanding. The loan provides for monthly principal and interest payments due on the first day of each calendar month, beginning on April 1, 2008. At our option, the loan bears interest at per annum rates equal to: (a) LIBOR plus 1.65%; or (b) a floating rate equal to the Prime Rate, as defined in the Fort Road note. If any monthly payment that is due is not received by LaSalle within five days after such payment is due, the loan provides for a late charge equal to 4.0% of such payment. In the event of a default, the loan also provides for a default interest rate of 4.0% per annum plus the floating rate. Subject to certain conditions, the loan may be prepaid in whole or in part, without

Table of Contents

paying a prepayment premium. The loan documents contain certain customary representations, warranties, covenants and indemnities.

We, through G&E Healthcare REIT Fort Road Medical, LLC, entered into an ISDA interest rate swap confirmation letter agreement dated March 10, 2008, or the Letter Agreement, with LaSalle in connection with the Fort Road loan. As noted above, pursuant to the terms of the Fort Road note in favor of LaSalle, the Fort Road loan bears interest, at our option, at a per annum rate equal to either: (a) LIBOR plus 1.65%; or (b) a floating rate equal to the Prime Rate, as defined in the Fort Road note. As a result of the Letter Agreement, the Fort Road loan bears interest at an effective fixed rate of 4.70% per annum from March 10, 2008 through March 6, 2011; and provides for monthly principal and interest payments due on the first business day of each calendar month commencing on April 1, 2008.

Description of the Property

The Fort Road property consists of one medical office building in St. Paul, Minnesota. The property is located on the United Hospital and Children s Hospitals and Clinics of Minnesota St. Paul campus, and is connected to the hospitals and other medical office buildings in the area by underground tunnels. The Fort Road property is also connected to a 140-unit, twelve floor apartment/condo complex. The Fort Road property was built in 1981 and consists of approximately 50,000 square feet of gross leaseable area, or GLA, located on approximately 1.0 acre of land. As of March 2008, the Fort Road property was approximately 90.2% leased.

The principal businesses occupying the building are healthcare providers. Tenants of the Fort Road property typically require proximity to the United Hospital and Children s Hospitals and Clinics of Minnesota St. Paul campus, a 2,000-bed full-service hospital, and also typically have a direct affiliation with the hospital campus. The two largest tenants, Allina Health System and Children s Hospitals and Clinics of Minnesota St. Paul, have been occupants of the property since 1988 and 2008, respectively.

Allina Health System leases approximately 12,000 square feet, or approximately 24% of the Fort Road property, pursuant to four leases that expire between 2008 and 2010. Allina Health System is a not-for-profit family of hospitals, clinics and other healthcare services that provides such services to communities throughout Minnesota and western Wisconsin. Allina Health System employs more than 22,500 persons, 5,000 physicians and 2,500 volunteers. The rental rate per annum for Allina Health System is approximately $161,000, or $13.41 per square foot, which depicts a blended rate of both their office and storage space rent at the Fort Road property.

Children s Hospitals and Clinics of Minnesota leases approximately 7,400 square feet, or approximately 15% of the property, pursuant to a lease that expires in 2018. Children s Hospitals and Clinics is an independent, not-for-profit heath care system and the seventh-largest children s health care organization in the United States. The rental rate per annum for Children s Hospitals and Clinics Minnesota St. Paul is approximately $133,000, or $18.00 per square foot.

Triple Net Properties Realty, Inc., or Realty, serves as the property manager and provides services and receives certain fees and expense reimbursements in connection with the operation and management of the Fort Road property.

The Fort Road Medical property faces competition from other nearby medical office buildings that provide comparable services. Most of the medical office buildings with which the Fort Road Medical property competes are located on the United Hospital and Children s Hospitals and Clinics Minnesota St. Paul campus.

Management currently has no renovation plans for the property and believes that the property is suitable for its intended purpose and adequately covered by insurance. For federal income tax purposes, the depreciable basis in the Fort Road Medical property will be approximately $8.0 million. We calculate depreciation for income tax purposes using the straight line method. We depreciate buildings based upon estimated useful lives of 39 years. For 2007, the

Fort Road property will pay real estate taxes of approximately $133,000 at a rate of 2.83%.

The following tables sets forth the lease expirations of the Fort Road property for the next ten years, including the number of tenants whose leases will expire in the applicable year, the total area in square feet covered by such leases and the percentage of gross annual rent represented by such leases.

Year	No. of Leases Expiring	Total Square Feet of Expiring Leases	Gross Annual Rent of Expiring Leases	% of Gross Annual Rent Represented by Expiring Leases

As reported in Supplement No. 2 dated January 30, 2008, to our prospectus dated December 14, 2007, or Supplement No. 2, on January 22, 2008, our board of directors approved the acquisition of Liberty Falls Medical Plaza, or the Liberty Falls property. We previously referred to this property as 6770 Cincinnati-Dayton Road, or the 6770 Cincinnati property. Supplement No. 2 stated that upon its completion, the Liberty Falls property would consist of approximately 40,000 square feet of GLA, and that we anticipated purchasing the Liberty Falls property for a purchase price of $7,750,000, plus closing costs.

As the construction of the Liberty Falls property neared completion, the seller determined that the property consists of approximately 44,000 square feet of GLA, with corresponding increases in GLA to both the first and second floors. As such, the purchase price of the Liberty Falls property has been increased by $400,000 to $8,150,000 to reflect the additional rent to be paid by the tenant who has leased the entire first floor. Based on the price adjustment, the acquisition fee of 3.0% of the purchase price that we expect to pay to our advisor and its affiliates also increased, from $233,000 to $245,000.

We still anticipate that the closing will occur in the first quarter of 2008; however, closing is subject to certain agreed upon conditions and there can be no assurance that we will be able to complete the acquisition of the Liberty Falls property.

We expect to pay our advisor and its affiliate an acquisition fee of $336,000, or 3.0% of the purchase price, in connection with the acquisition.

The principal tenants occupying the building are healthcare providers and an insurance provider.

We anticipate purchasing the Epler B property for a purchase price of $5,850,000, plus closing costs, from an unaffiliated third party. We intend to finance the purchase through debt financing and proceeds raised from this offering. We expect to pay our advisor and its affiliate an acquisition fee of $176,000, or 3.0% of the purchase price, in connection with the acquisition.

We anticipate that the closing will occur in the first quarter of 2008; however, closing is subject to certain agreed upon conditions and there can be no assurance that we will be able to complete the acquisition of the Epler B property.

Proposed Acquisition of Senior Care Portfolio 1

The principal tenants occupying the portfolio are senior living operators with geographic concentrations in California and Texas.

We intend to finance the purchase through debt financing and proceeds raised from this offering. We expect to pay our advisor and its affiliate an acquisition fee of $1,188,000, or 3.0% of the purchase price, in connection with the acquisition.

Description of the Property

The Liberty Falls property consists of a Class A multi-tenant medical office building in Liberty Township, Ohio. The construction of this two story medical office building was completed in January 2008. The property consists of approximately 44,000 square feet of gross leasable area, or GLA, located on approximately 2.2 acres of land. The Liberty Falls property is approximately 91.0% leased.

We anticipate that the principal businesses which will occupy the building will be healthcare providers. The largest tenant, Mercy Hospital Fairfield, occupies approximately 22,000 square feet, or approximately 50.0% of the Liberty Falls property, pursuant to a lease that expires on January 31, 2018, with one five-year renewal option. Mercy Hospital Fairfield is part of the Mercy Health Partners of Southwest Ohio, which is a member of Catholic Healthcare Partners. Mercy Hospital Fairfield s main hospital campus is approximately nine miles east of the Liberty Falls property. Mercy Hospital Fairfield employs approximately 1,150 persons,

and has approximately 600 affiliated physicians. The first year rental rate for Mercy Hospital Fairfield is approximately $351,000, or $16.00 per square foot.

Liberty Falls, LLC, the seller, has executed a three year lease for approximately 18,000 square feet, or approximately 41.0% of the Liberty Falls property, during which they may find qualified replacement tenants to lease the space.

Updated Prior Performance Summary Disclosure

The Prior Performance Summary section of the prospectus is hereby updated by the following:

PRIOR PERFORMANCE SUMMARY

The information presented in the Prior Performance Summary, or Summary, represents the historical experience of real estate and notes programs managed by NNN Realty Advisors, our former sponsor and wholly owned subsidiary of our current sponsor, Grubb & Ellis, and Grubb & Ellis Realty Investors, an indirect wholly owned subsidiary of Grubb & Ellis, or collectively, the Grubb & Ellis Group, through December 31, 2007. Investors in our company should not assume that they will experience returns, if any, comparable to those experienced by investors in these prior real estate and notes programs.

From inception through December 31, 2007, Grubb & Ellis Group served as an advisor, sponsor or manager to 206 real estate investment programs formed for the purpose of acquiring and operating commercial and residential real estate properties, primarily consisting of retail, office, industrial and medical office buildings, healthcare-related facilities and apartment properties. The programs are either (1) public programs that are required to file public reports with the SEC, or (2) private programs that have no public reporting requirements. From inception through December 31, 2007, there were six public real estate programs and 200 private real estate programs. Grubb & Ellis Group has also served as sponsor and manager of four private notes programs.

From inception through December 31, 2007, the public real estate programs raised gross offering proceeds of $858,125,000 from 26,395 investors. From inception through December 31, 2007, the public real estate programs purchased interests in 95 real estate properties amounting to an investment of $1,963,199,000 (the public programs aggregate share of the purchase price). Of the 95 properties, 29 were in Texas, 18 in California, seven in Nevada, four in each of Georgia and Arizona, three each in Ohio, Missouri, Indiana, Florida and Colorado, two each in Virginia, Pennsylvania, North Dakota, North Carolina and Nebraska and one each in Illinois, Washington, Utah, Tennessee, Oregon, Minnesota, Maryland and Delaware. Of the 95 properties purchased, based on share of purchase price, 11.6% were residential, 66.9% were office, 12.5% were medical office, 6.2% were healthcare related facilities, 2.3% were retail, 0.4% were industrial and 0.1% were land. As of December 31, 2007, 54 of these interests in real estate properties had been sold.

From inception through December 31, 2007, the private programs raised gross offering proceeds of $2,210,201,000 from 9,354 investors. From inception through December 31, 2007, the private programs purchased interests in 212 real estate properties amounting to an investment of $5,647,190,000 (the private programs aggregate share of the purchase price). Of the 212 properties, 48 were in Texas, 36 in California, 17 in Nevada, 14 in Florida, 13 each in Colorado, Georgia and North Carolina, six in Kansas, five each in Arizona and Tennessee, four each in Ohio, Wisconsin, Illinois and Missouri, three in Virginia, two each in Massachusetts, New Jersey, Oregon, Pennsylvania, South Carolina, Hawaii and South Dakota and one each in Arkansas, Delaware, Indiana, Louisiana, Maryland, Minnesota, Nebraska, Oklahoma and Washington. Of the 212 properties purchased, based on share of purchase price,

11.2% were residential, 75.4% were office, 6.8% were medical office, 5.7% were retail, 0.8% were industrial and 0.1% were land. As of December 31, 2007, 57 of these interests in real estate properties had been sold.

Each of the private real estate programs, other than Western Real Estate Investment Trust, began with the formation of a limited liability company, or LLC, to acquire the property. The LLC may sell investor, or membership, units; investors that purchase membership units thus acquire an indirect interest in the property through their equity interest in the LLC. Simultaneously with the acquisition of the property, the LLC may also sell undivided tenant in common interests, or TIC interests, directly in the property. A TIC interest is not an interest in any entity, but rather a direct real property interest. A TIC may be an individual or an entity such as a limited liability company. Typically, the TICs are involved in tax-deferred exchanges structured to comply with the requirements of Section 1031 of the Internal Revenue Code, whereas the cash purchase of LLC membership units does not meet the requirements of Section 1031, although the LLC s interest in the underlying real property interest will also be a TIC interest.

Each private real estate program bears the same name as the respective LLC formed to acquire the property and may include both the sale of interests in the LLC and the individual TIC interests. Thus, the LLC is the de-facto identity of the private program and may acquire either an entire or a partial interest in a property. When a private program owns 100.0% of a property and all funds are raised from TICs and members of the LLC, the private program is referred to by Grubb & Ellis Group as a Simple Ownership Structure. Conversely, if the program only owns a partial interest in the property or some portion of the funds are raised through one of the public programs which are advised or managed by Grubb & Ellis Group, it is referred to by Grubb & Ellis Group as a Complex Ownership Structure.

The public programs included four corporations: (i) G REIT, Inc. (as of January 28, 2008, G REIT Liquidating Trust became the successor of G REIT, Inc.) which was qualified as a REIT; (ii) T REIT, Inc. (as of July 20, 2007, T REIT Liquidating Trust became the successor of T REIT, Inc.), which was qualified as a REIT through July 20, 2007; (iii) Grubb & Ellis Apartment REIT, Inc., which has qualified as a REIT; and (iv) us, Grubb & Ellis Healthcare REIT, Inc., which intends to qualify as a REIT, and two limited liability companies, NNN 2002 Value Fund, LLC and NNN 2003 Value Fund, LLC. Each of the public programs may acquire wholly-owned or partial interests in real estate properties. However, G REIT Liquidating Trust, T REIT Liquidating Trust and NNN 2002 Value Fund, LLC are currently in the process of liquidation and do not intend to acquire any additional interests in real estate properties. When a public program purchases a partial interest in a property that is also partially owned by a private program, the public program may invest either directly in the private program (by investing in the LLC or by purchasing a TIC interest) or outside of the private program by purchasing an interest in the property directly from the seller. However, Grubb & Ellis Apartment REIT, Inc. and Grubb & Ellis Healthcare REIT, Inc. will not participate in tenant-in-common syndications or transactions.

In either the Complex or Simple Ownership Structure, the LLC may or may not retain an interest in the property after the program is closed, depending on whether the program sells the entire interest of the property to TIC investors. If the LLC retains an ownership interest in the program, it does so as one of the TICs and generally sells its ownership interest to a number of LLC members.

Grubb & Ellis Group provides the day-to-day accounting for the LLC and maintains the books and records for the property. In addition, Grubb & Ellis Group is required to report financial data pertinent to the operation of each program and is responsible for the timely filing of the LLC s income tax return as well as providing year-end tax basis income and expense information to the TICs.

In some instances, the program owns an entire property, as in a Simple Ownership Structure, and the entire operation of the property is attributable to the program. In other instances, where the program owns a portion of a property or has affiliated ownership within the program, as in a Complex Ownership Structure, further allocations and disclosure are required to clarify the appropriate portions of the property s performance attributable to the various ownership interests.

Grubb & Ellis Group presents the data in Prior Performance Table III for each program on either a GAAP basis or an income tax basis depending on the reporting requirements of the particular program. In compliance with the SEC reporting requirements, the Table III presentation of Revenues, Expenses and Net Income for the public programs has been prepared and presented by Grubb & Ellis Group in conformity with accounting principles generally accepted in the Unites States of America, or GAAP, which incorporates accrual

---

basis accounting. Grubb & Ellis Group presents Table III for all private programs on an income tax basis (which can in turn be presented on either a cash basis or accrual basis), as the only applicable reporting requirement is for the year-end tax information provided to each investor. The Table III data for all private programs (which are generally formed using LLCs) are prepared and presented by Grubb & Ellis Group in accordance with the cash method of accounting for income tax purposes. This is because most, if not all, of the investors in these private programs are individuals required to report to the Internal Revenue Service using the cash method of accounting for income tax purposes, and the LLCs are required to report on this basis when more than 50% of their investors are taxpayers that report using the cash method of accounting for income tax purposes. When GAAP-basis affiliates invest in a private program, as in a Complex Ownership Structure, the ownership presentation in the tables is made in accordance with the cash method of accounting for income tax purposes. This presentation is made for consistency and to present results meaningful to the typical individual investor that invests in an LLC.

While SEC rules and regulations allow Grubb & Ellis Group to record and report results for its private programs on an income tax basis, investors should understand that the results of these private programs may be different if they were reported on a GAAP basis. Some of the major differences between GAAP accounting and income tax accounting (and, where applicable, between cash basis and accrual basis income tax accounting) that impact the accounting for investments in real estate are described in the following paragraphs:

The primary difference between the cash methods of accounting and accrual methods (both GAAP and the accrual method of accounting for income tax purposes) is that the cash method of accounting generally reports income when received and expenses when paid while the accrual method generally requires income to be recorded when earned and expenses recognized when incurred.

GAAP requires that, when reporting lease revenue, the minimum annual rental revenue be recognized on a straight-line basis over the term of the related lease, whereas the cash method of accounting for income tax purposes requires recognition of income when cash payments are actually received from tenants, and the accrual method of accounting for income tax purposes requires recognition of income when the income is earned pursuant to the lease contract.

GAAP requires that when an asset is considered held for sale, depreciation ceases to be recognized on that asset, whereas for income tax purposes, depreciation continues until the asset either is sold or is no longer in service.

GAAP requires that when a building is purchased, certain intangible assets and liabilities (such as above-and below-market leases, tenant relationships and in-place lease costs) are allocated separately from the building and are amortized over significantly shorter lives than the depreciation recognized on the building. These intangible assets and liabilities are not recognized for income tax purposes and are not allocated separately from the building for purposes of tax depreciation.

GAAP requires that an asset is considered impaired when the carrying amount of the asset is greater than the sum of the future undiscounted cash flows expected to be generated by the asset, and an impairment loss must then be recognized to decrease the value of the asset to its fair value. For income tax purposes, losses are generally not recognized until the asset has been sold to an unrelated party or otherwise disposed of in an arm s length transaction.

When a private real estate program owns 100.0% of the property and the entire fund is raised from TICs and LLC members investing directly in the private program, 100.0% of the private program s operating results are presented for the relevant years.

When a private real estate program directly invests in and owns a partial interest in the property (as an example, 75.0%) and the remaining interest of the property (25.0%) is owned outside of the program by a public program, only the operating results relating to the private program ownership in the property (75.0%) are presented for the relevant years. The allocation is based on the private program s effective ownership in the property.

Table of Contents

When a private real estate program acquires a 100.0% interest in the property but is jointly owned by a public entity investing directly in the private program, 100.0% of the private program s operating results will be presented for the relevant years on a cash income tax basis. The affiliated ownership portion of the equity is eliminated in aggregation of all private programs reporting on a cash income tax basis. In such cases, Prior Performance Table III also presents the unaffiliated equity for informational purposes only.

NNN 2004 Notes Program, LLC, NNN 2005 Notes Program, LLC, NNN 2006 Notes Program LLC, and NNN Collateralized Senior Notes, LLC, or the Notes Programs, offered units of interest, or note units. The Notes Programs were formed for the purpose of making secured and unsecured loans to affiliates of Grubb & Ellis Group for the sole purpose of acquiring and holding real estate. An investor of the Notes Programs invested in note units and made loans to the LLC. Grubb & Ellis Realty Investors is the sole member and manager of each of the notes programs LLC and caused the LLC to use the net proceeds of the offering to support its efforts in sponsoring real estate investments by making secured and unsecured loans. Grubb & Ellis Realty Investors, as the sole member and manager of the company, has guaranteed the payment of all principal and interest on the note units.

G REIT, Inc. and G REIT Liquidating Trust

G REIT, Inc., or G REIT, was formed as a Virginia corporation in December 2001, reincorporated as a Maryland corporation in September 2004 and was qualified as a REIT for federal income tax purposes. G REIT was formed to acquire interests in office, industrial and service properties anchored by government-oriented tenants such as federal, state and local government offices, government contractors and/or government service providers. Grubb & Ellis Realty Investors has served as the advisor of G REIT since January 2002. The initial public offering of G REIT s common stock commenced on July 22, 2002 and terminated on February 9, 2004. As of December 31, 2007, G REIT had raised gross offering proceeds of $437,315,000 in its two public offerings from the issuance of 43,865,000 shares of its common stock to 13,853 investors. Private Programs

Beginning in April 1998 through December 31, 2007, Grubb & Ellis Group has advised 200 private real estate investment programs and four private notes programs. Each of the private programs advised by Grubb & Ellis Group and the properties acquired and sold through December 31, 2007 are described below. Please see Tables III, IV and V under Prior Performance Tables in this prospectus supplement for more information regarding the operating results of the prior funds sponsored by Grubb & Ellis Group, information regarding the results of the completed programs and information regarding the sales or disposals of properties by these programs.

As of December 31, 2007, 57 private programs, including three private notes programs, have gone full term. Further information regarding the results of the sales and operations of these programs can be found in Prior Performance Table IV.

Adverse Business Developments or Conditions

For some of those private programs detailed below and as noted in Prior Performance Table III, in some circumstances, Grubb & Ellis Group-sponsored programs had cash flow deficiencies and/or distributions to investors which represented returns of capital because the distributions were in excess of cash generated from operations, sales and refinancings. Cash deficiencies after cash distributions shown for various programs on Prior Performance Table III occur for a variety of reasons, most of which are the result of either (a) the loss of a major tenant and/or a reduction in leasing rates and, as a result, the operating revenues of a program have decreased or (b) the program held multiple properties or buildings, some of the properties or buildings were sold and distributions were made that were attributable to the sold properties which exceeded the cash generated by the operations of the remaining properties. Operating cash flow available after distributions may be affected by timing of rent collection and the payment of expenses, causing either excess or deficit cash flows after distributions for a given period. In addition, excess

operating cash flow after distributions may be retained by the program as reserves to fund anticipated and unanticipated future expenditures or to cover reductions in cash flow resulting from the anticipated or unanticipated loss of a tenant.

For example, in 2001, Market Centre, LLC lost a major tenant in its property and leasing rates were reduced. For that year, Market Centre, LLC showed a cash deficiency and a distribution that was a return of capital. In the year ended December 31, 2002, the program reduced its distributions from 8.0% to 0.0%. Thus, in 2002, it did not incur a cash deficiency because there were no distributions to investors. Another example is

Table of Contents

NNN 1397 Galleria Drive LLC, which in August 2003, lost a major tenant in its property. This program reduced its distributions to investors in February 2004. For the year ended December 31, 2003, NNN 1397 Galleria Drive incurred a cash deficiency and a distribution to investors as a return of capital. The source of the distributions in excess of cash flows was distributions of the prior years excess cash flow.

In other circumstances, cash deficiencies were the result of sales of properties for programs either owning multiple properties or multiple buildings constituting a single investment. For example, NNN Pacific Corporate Park 1, LLC, NNN 2000 Value Fund, LLC and Western Real Estate Investment Trust, Inc. own either multiple properties or a multi-building property. When a property or a building is sold and proceeds are distributed to investors, there may be a cash deficiency shown because proceeds are distributed in excess of cash generated by operations.

In some circumstances, such as NNN Highbrook, LLC, equity raised is ear-marked to pay for certain future expenses during the operating period of the program. This occurs in master lease apartment programs when reserves are established from investors equity to pay for designated repairs when cash from operations is insufficient to pay for them. Deficit cash flow after distributions and return of capital result as these repair reserves are utilized. In other circumstances, such as NNN 300 Four Falls, LLC, it is anticipated that all equity will not be raised by the time a property is acquired. Mezzanine financing is used to cover the equity funding shortfall at the time of closing. The estimated fees and interest on the mezzanine financing are factored into the equity raise. As expenses related to the mezzanine financing are incurred, they may exceed cash flow generated after distributions, resulting in deficit cash flow and return of capital. In both of these scenarios, deficit cash flow after distributions and return of capital result from paying anticipated expenses from equity funded reserves.

Where distributions are made that exceed the cash flow generated from operations of the programs, the distributions are made either from cash reserves held by the program to be used for distributions, proceeds from the sales or re-financings of properties, distributions of prior years excess cash flows or, loans from Grubb & Ellis Group or its affiliates. In cases where there are no reserves, the distribution level may be reduced or stopped. In those cases, the reductions or termination in distributions have been noted below.

Telluride Barstow, LLC: The offering period began June 1, 1998 and ended December 16, 1998. The offering raised $1,619,500, or 100.0% of the offering amount. The LLC retained a 32.25% ownership interest in the program with a membership of eight unaffiliated members, three members who were unit holders of Grubb & Ellis Realty Investors at the time of the investment and Grubb & Ellis Realty Investors. The remaining 67.75% was owned by three unaffiliated TICs investing in the program. The program owned an 87.0% interest in the property. Mr. Thompson purchased a 13.0% interest in the property outside of the program.

Property Name	Ownership Interest	Type of Property	Purchase Date	Purchase Price	Mortgage Debt at Purchase	GLA (Sq Ft)	Location
Barstow Road Shopping Center	87.0%	shopping center	05/01/98	$ 4,002,000	$ 3,001,500	78,000	Barstow, CA

For the years ended December 31, 1999 and 2000, the program had deficit cash flow after distributions of $74,000 and $12,000, respectively, which were covered by excess cash flow after distributions in 1998. For the year ended December 31, 2002, the program experienced deficit cash flow after distributions of $20,000 which was covered by the previous year s excess cash flow after distributions. In 1999, Grubb & Ellis Realty Investors loaned $8,000 to the program to fund operating shortfalls due to the timing of rent collections, which was repaid in full in 2001. In 2002, an affiliate of Grubb & Ellis Realty Investors loaned $102,000 to the program to fund capital improvements. In February

2003, the property was sold for a loss of $166,000. Grubb & Ellis Realty Investors received no fees from the sale of the property and the affiliate of Grubb & Ellis Realty Investors forgave the $102,000 loan previously made to the program.

The sources of distributions in excess of cash flows were the prior year s excess cash flow after distributions and return of capital of $475,000 and $202,000, respectively. Cash flow deficits were caused primarily by the timing difference of incurred property tax expense and collection of the related reimbursement of these charges from the tenants at all three properties. In 2002, the program had deficit cash flow after distributions of $37,000 representing return of capital of $234,000. The program reduced distributions to investors during 2000 from 8.0% to 5.0% due to reduced available operating cash flow. The remaining property was also refinanced with a loan amount less than the previously existing loan. In order to extend the loan on the Bank One Building, the program was required to pay additional loan fees of $300,000 and pay down the existing loan by $550,000. Prior Performance Tables

The prior performance tables contained in the Prospectus are hereby updated by the following tables:

The following Prior Performance Tables, or Tables, provide information relating to real estate investment and notes programs sponsored by NNN Realty Advisors, our former sponsor and a wholly owned subsidiary of our current sponsor, Grubb & Ellis Company, or Grubb & Ellis, and Grubb & Ellis Realty Investors, LLC, an indirect wholly owned subsidiary of Grubb & Ellis, or collectively, Grubb & Ellis Group, through December 31, 2007. From inception through December 31, 2007, Grubb & Ellis Group has served as advisor, sponsor or manager of 206 real estate investment programs, consisting of six public programs required to file public reports with the SEC and 200 private real estate investment programs that have no public reporting requirements. The investment objectives of the public reporting companies have certain investment objectives similar to ours, including the acquisition and operation of commercial properties; the provision of stable cash flow available for distribution to our stockholders; preservation and protection of capital; and the realization of capital appreciation upon the ultimate sale of our properties. One difference in investment objectives between us and the public companies is the focus on a particular type or asset class of commercial property. In particular: G REIT focused on government-oriented office properties; T REIT focused on commercial properties located in tax free states; Grubb & Ellis Apartment REIT focuses on apartment communities; 2002 Value Fund focused on investments in three office properties; and 2003 Value Fund focused on value-added properties in asset classes that include office properties and undeveloped land. Our focus is on medical office buildings, healthcare-related facilities and quality commercial office properties.

The private real estate programs sponsored by Grubb & Ellis Group also had as their primary investment objective the acquisition, ownership, operation and eventual sale of real estate. While we intend to qualify as a REIT that invests in a diversified portfolio of real estate and real estate related securities, the private real estate programs were structured for the purpose of selling undivided tenant in common interests in a single property through a limited liability company.

As a prospective investor, you should read these Tables carefully together with the summary information concerning the prior programs as set forth in the Prior Performance Summary section of this prospectus.

As an investor in our company, you will not own any interest in the prior programs and should not assume that you will experience returns, if any, comparable to those experienced by investors in the prior programs.

Our advisor is owned and managed by Grubb & Ellis Realty Investors, LLC. Our advisor is responsible for managing our day-to-day business affairs and assets, administering our bookkeeping and accounting functions, serving as our consultant in connection with policy decisions to be made by our board of directors, managing or causing to be managed our properties, and rendering other property level services as our board of directors deems necessary. The financial results of the Prior Programs thus may provide some indication of our advisor s performance of its obligations during the periods covered. However, general economic conditions affecting the real estate industry and other factors contribute significantly to financial results.

The following tables are included herein:

Table I Experience in Raising and Investing Funds (Unaudited)
Table II Compensation to Sponsor (Unaudited)
Table III Annual Operating Results of Prior Programs (Unaudited)
Table IV Results of Completed Programs (Unaudited)
Table V Sales or Disposals of Properties (Unaudited)

Additional information relating to the acquisition of properties by the Prior Programs is contained in Table VI, which is included in the registration statement which our company has filed with the SEC. We will provide to you copies of any or all information concerning the Prior Programs at no charge upon request.

Grubb & Ellis Group presents the data in Prior Performance Table III for each program on either a GAAP basis or an income tax basis depending on the reporting requirements of the particular program. In compliance with the SEC reporting requirements, the Table III presentation of Revenues, Expenses and Net

Income for the public programs has been prepared and presented by Grubb & Ellis Group in conformity with accounting principles generally accepted in the Unites States of America, or GAAP, which incorporate accrual basis accounting. Grubb & Ellis Group presents Table III for all private programs on an income tax basis (which can in turn be presented on either a cash basis or accrual basis), specifically, the private programs are presented on a cash basis except for Western Real Estate Investment, Inc. and the four Notes Programs, which are presented on an accrual basis, as the only applicable reporting requirement is for the year-end tax information provided to each investor. The Table III data for all other private programs (which are generally formed using LLCs) are prepared and presented by Grubb & Ellis Group in accordance with the cash method of accounting for income tax purposes. This is because most, if not all, of the investors in these private programs are individuals required to report to the Internal Revenue Service using the cash method of accounting for income tax purposes, and the LLCs are required to report on this basis when more than 50.0% of their investors are taxpayers that report using the cash method of accounting for income tax purposes. When GAAP-basis affiliates invest in a private program, as in a Complex Ownership Structure, the ownership presentation in the tables is made in accordance with the cash method of accounting for income tax purposes. This presentation is made for consistency and to present results meaningful to the typical individual investor that invests in an LLC.

While SEC rules and regulations allow Grubb & Ellis Group to record and report results for its private programs on an income tax basis, investors should understand that the results of these private programs may be different if they were reported on a GAAP basis. Some of the major differences between GAAP accounting and income tax accounting (and, where applicable, between cash basis and accrual basis income tax accounting) that impact the accounting for investments in real estate are described in the following paragraphs:

The primary difference between the cash methods of accounting and accrual methods (both GAAP and the accrual method of accounting for income tax purposes) is that the cash method of accounting generally reports income when received and expenses when paid while the accrual method generally requires income to be recorded when earned and expenses recognized when incurred.

GAAP requires that, when reporting lease revenue, the minimum annual rental revenue be recognized on a straight-line basis over the term of the related lease, whereas the cash method of accounting for income tax purposes requires recognition of income when cash payments are actually received from tenants, and the accrual method of accounting for income tax purposes requires recognition of income when the income is earned pursuant to the lease contract.

GAAP requires that when an asset is considered held for sale, depreciation ceases to be recognized on that asset, whereas for income tax purposes, depreciation continues until the asset either is sold or is no longer in service.

GAAP requires that when a building is purchased certain intangible assets and liabilities (such as above-and below-market leases, tenant relationships and in-place lease costs) are allocated separately from the building and are amortized over significantly shorter lives than the depreciation recognized on the building. These intangible assets and liabilities are not recognized for income tax purposes and are not allocated separately from the building for purposes of tax depreciation.

GAAP requires that an asset is considered impaired when the carrying amount of the asset is greater than the sum of the future undiscounted cash flows expected to be generated by the asset, and an impairment loss must then be recognized to decrease the value of the asset to its fair value. For income tax purposes, losses are generally not recognized until the asset has been sold to an unrelated party or otherwise disposed of in an arm s length transaction.

Overview and Background

Grubb & Ellis Healthcare REIT, Inc. (formerly known as NNN Healthcare/Office REIT, Inc.), a Maryland corporation, was incorporated on April 20, 2006. We were initially capitalized on April 28, 2006 and therefore we consider that our date of inception. We provide stockholders the potential for income and growth through investment in a diversified portfolio of real estate properties, focusing primarily on medical office buildings, healthcare-related facilities and quality commercial office properties. We may also invest in real estate related securities. We focus primarily on investments that produce current income. We intend to elect to be treated as a REIT for federal income tax purposes for our taxable year ended December 31, 2007 when we file our fiscal year 2007 tax return.

We are conducting a best efforts initial public offering, or our Offering, in which we are offering up to 200,000,000 shares of our common stock for $10.00 per share and 21,052,632 shares of our common stock pursuant to our distribution reinvestment plan, or the DRIP, at $9.50 per share, aggregating up to $2,200,000,000. As of

March 14, 2008, we had received and accepted subscriptions in our Offering for 25,933,558 shares of our common stock, or $259,042,000, excluding shares issued under the DRIP.

We conduct substantially all of our operations through Grubb & Ellis Healthcare REIT Holdings, L.P. (formerly known as NNN Healthcare/Office REIT Holdings, L.P.), or our operating partnership. We are externally advised by Grubb & Ellis Healthcare REIT Advisor, LLC (formerly known as NNN Healthcare/Office REIT Advisor, LLC), or our advisor, pursuant to an advisory agreement, or the Advisory Agreement, between us, our advisor and Grubb & Ellis Realty Investors, who is the managing member of our advisor. The Advisory Agreement had a one-year term that expired on September 19, 2007 and was subject to successive one-year renewals upon the mutual consent of the parties. On September 18, 2007, our board of directors extended the Advisory Agreement on a month-to-month basis. On October 24, 2007, our board of directors authorized the renewal of our Advisory

Agreement for a term of one year ending on October 24, 2008. Our advisor supervises and manages our day-to-day operations and selects the properties and securities we acquire, subject to the oversight by our board of directors. Our advisor also provides marketing, sales and client services on our behalf. Our advisor is affiliated with us in that we and our advisor have common officers, some of whom also own an indirect equity interest in our advisor. Our advisor engages affiliated entities, including Triple Net Properties Realty, Inc., or Realty, to provide various services to us, including property management services.

On December 7, 2007, NNN Realty Advisors, Inc., or NNN Realty Advisors, which previously served as our sponsor, merged with and into a wholly owned subsidiary of Grubb & Ellis. The transaction was structured as a reverse merger whereby stockholders of NNN Realty Advisors received shares of common stock of Grubb & Ellis in exchange for their NNN Realty Advisors shares of common stock and, immediately following the merger, former NNN Realty Advisor stockholders held approximately 59.5% of the common stock of Grubb & Ellis. As a result of the merger, we consider Grubb & Ellis to be our sponsor. Following the merger, NNN Healthcare/Office REIT, Inc., NNN Healthcare/Office REIT Holdings, L.P., NNN Healthcare/Office REIT Advisor, LLC, NNN Healthcare/Office Management, LLC, Triple Net Properties, LLC and NNN Capital Corp. changed their names to Grubb & Ellis Healthcare REIT, Inc., Grubb & Ellis Healthcare REIT Holdings, L.P., Grubb & Ellis Healthcare REIT Advisor, LLC, Grubb & Ellis Healthcare Management, LLC, Grubb & Ellis Realty Investors, LLC and Grubb & Ellis Securities, Inc., respectively.

As of December 31, 2007, we had purchased 20 properties comprising 2,233,000 square feet of gross leasable area, or GLA.

Business Strategies

We will continue to invest in a diversified portfolio of real estate, focusing primarily on investments that produce current income. Our real estate investments focus on medical office buildings, healthcare-related facilities and quality commercial office properties. We may also invest in real estate related securities. However, we do not presently intend to invest more than 15.0% of our total assets in real estate related securities. Our real estate related securities investments will generally focus on common and preferred stock of public or private real estate companies, collateralized mortgage-backed securities, other forms of mortgage debt and certain other securities, including collateralized debt obligations and foreign securities. We seek to maximize long-term stockholder value by generating sustainable growth in cash flow and portfolio value. In order to achieve these objectives, we may invest using a number of investment structures which may include direct acquisitions, joint ventures, leveraged investments, issuing securities for property and direct and indirect investments in real estate. In order to maintain our exemption from regulation as an investment company under the Investment Company Act of 1940, as amended, or the Investment Company Act, we may be required to limit our investments in real estate related securities.

In addition, when and as determined appropriate by our advisor, the portfolio may also include properties in various stages of development other than those producing current income. These stages would include, without limitation, unimproved land, both with and without entitlements and permits, property to be redeveloped and repositioned, newly constructed properties and properties in lease-up or other stabilization, all of which will have limited or no relevant operating histories and no current income. Our advisor will make this determination based upon a variety of factors, including the available risk adjusted returns for such properties when compared with other available properties, the appropriate diversification of the portfolio, and our objectives of realizing both current income and capital appreciation upon the ultimate sale of properties.

For each of our investments, regardless of property type, our advisor seeks to ensure that we invest in properties with the following attributes:

Quality. We seek to acquire properties that are suitable for their intended use with a quality of construction that is capable of sustaining the property s investment potential for the long-term, assuming funding of budgeted maintenance, repairs and capital improvements.

Location. We seek to acquire properties that are located in established or otherwise appropriate markets for comparable properties, with access and visibility suitable to meet the needs of its occupants.

Market; and Supply and Demand. We focus on local or regional markets which have potential for stable and growing property level cash flow over the long-term. These determinations will be based in part on an evaluation of local economic, demographic and regulatory factors affecting the property. For instance, we will favor markets that indicate a growing population and employment base or markets that exhibit potential limitations on additions to supply, such as barriers to new construction. Barriers to new construction include lack of available land and stringent zoning restrictions. In addition, we will generally seek to limit our investments in areas that have limited potential for growth.

Predictable Capital Needs. We seek to acquire properties where the future expected capital needs can be reasonably projected in a manner that would allow us to meet our objectives of growth in cash flow and preservation of capital and stability.

Cash Flow. We seek to acquire properties where the current and projected cash flow, including the potential for appreciation in value, would allow us to meet our overall investment objectives. We will evaluate cash flow as well as expected growth and the potential for appreciation.

We will not invest more than 10.0% of the offering proceeds available for investment in unimproved or non-income producing properties or in other investments relating to unimproved or non-income producing property. A property: (1) not acquired for the purpose of producing rental or other operating income, or (2) with no development or construction in process or planned in good faith to commence within one year will be considered unimproved or non-income producing property for purposes of this limitation.

We are not limited as to the geographic area where we may acquire properties. We are not specifically limited in the number or size of properties we may acquire or on the percentage of our assets that we may invest in a single property or investment. The number and mix of properties we acquire will depend upon real estate and market conditions and other circumstances existing at the time we are acquiring our properties and making our investments and the amount of proceeds we raise in our Offering and potential future offerings.

Leverage

In accordance with our charter, a majority of our directors, including a majority of our independent directors, approved our leverage exceeding 300.0% of the value of our net assets in connection with our first four acquisitions of real properties. Net assets for purposes of this calculation are defined as our total assets (other than intangibles), valued at cost prior to deducting depreciation, reserves for bad debts and other non-cash reserves, less total liabilities. Our board of directors determined that the excess leverage was justified because it enabled us to purchase the properties during the initial stages of our Offering, thereby improving our ability to meet our goal of acquiring a diversified portfolio of properties to generate current income for stockholders and preserve their capital. As of December 31, 2007 and March 25, 2008, our leverage does not exceed 300.0% of the value of our net assets.

We anticipate that the closings will occur in the first quarter of 2008; however, the closings are subject to certain agreed upon conditions and there can be no assurance that we will be able to complete the acquisition of Senior Care Portfolio 1 and Vista Professional Center.

Critical Accounting Policies

We believe that our critical accounting policies are those that require significant judgments and estimates such as those related to revenue recognition, allowance for uncollectible accounts, capitalization of expenditures, depreciation of assets, impairment of

real estate, properties held for sale, purchase price allocation, and qualification as a REIT. These estimates are made and evaluated on an on-going basis using information that is currently available as well as various other assumptions believed to be reasonable under the circumstances.

Use of Estimates

The preparation of our consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. These estimates are made and evaluated on an on-going basis using information that is currently available as well as various other assumptions believed to be reasonable under the circumstances. Actual results could differ from those estimates, perhaps in material adverse ways, and those estimates could be different under different assumptions or conditions.

Revenue Recognition, Tenant Receivables and Allowance for Uncollectible Accounts

In accordance with Statement of Financial Accounting Standards, or SFAS, No. 13, *Accounting for Leases*, or SFAS No. 13, as amended and interpreted, minimum annual rental revenue is recognized on a straight-line basis over the term of the related lease (including rent holidays). Differences between rental income recognized and amounts contractually due under the lease agreements are credited or charged, as applicable, to rent receivable. Tenant reimbursement revenue, which is comprised of additional amounts recoverable from tenants for common area maintenance expenses and certain other recoverable expenses, is recognized as revenue in the period in which the related expenses are incurred. Tenant reimbursements are recognized and presented in accordance with Emerging Issues Task Force, or EITF, Issue 99-19, *Reporting Revenue Gross as a Principal versus Net as an Agent*, or Issue 99-19. Issue 99-19 requires that these reimbursements be recorded on a gross basis, as we are generally the primary obligor with respect to purchasing goods and services from third-party suppliers, have discretion in selecting the supplier and have credit risk. We recognize lease termination fees if there is a signed termination letter agreement, all of the conditions of the agreement have been met, and the tenant is no longer occupying the property.

Tenant receivables and unbilled deferred rent receivables are carried net of the allowances for uncollectible current tenant receivables and unbilled deferred rent. An allowance is maintained for estimated losses resulting from the inability of certain tenants to meet the contractual obligations under their lease agreements. We also maintain an allowance for deferred rent receivables arising from the straight-lining of rents. Our determination of the adequacy of these allowances is based primarily upon evaluations of historical loss experience, individual tenant receivables considering the tenant s financial condition, security deposits, letters of credit, lease guarantees and current economic conditions and other relevant factors.

Capitalization of Expenditures and Depreciation of Assets

The cost of operating properties includes the cost of land and completed buildings and related improvements. Expenditures that increase the service life of properties are capitalized; the cost of maintenance and repairs is charged to expense as incurred. The cost of building and improvements is depreciated on a straight-line basis over the estimated useful lives of 39 years and the shorter of the lease term or useful life, ranging from one month to 236 months, respectively. Furniture, fixtures and equipment is depreciated over five years. When depreciable property is retired or disposed of, the related costs and accumulated depreciation are removed from the accounts and any gain or loss reflected in operations.

Impairment

Our properties are carried at the lower of historical cost less accumulated depreciation or fair value. We assess the impairment of a real estate asset when events or changes in circumstances indicate that the net book value may not be recoverable. Indicators we consider important and that we believe could trigger an impairment review include the following:

- significant negative industry or economic trends;
- a significant underperformance relative to historical or projected future operating results; and
- a significant change in the manner in which the asset is used.

In the event that the carrying amount of a property exceeds the sum of the undiscounted cash flows (excluding interest) that would be expected to result from the use and eventual disposition of the property, we would recognize an impairment loss to the extent the carrying amount exceeds the estimated fair value of the property. The estimation of expected future net cash flows is inherently uncertain and relies on subjective assumptions dependent upon future and current market conditions and events that

affect the ultimate value of the property. It requires us to make assumptions related to future rental rates, tenant allowances, operating expenditures, property taxes, capital improvements, occupancy levels, and the estimated proceeds generated from the future sale of the property.

Properties Held for Sale

We account for our properties held for sale in accordance with SFAS No. 144, *Accounting for the Impairment or Disposal of Long Lived Assets*, or SFAS No. 144, which addresses financial accounting and reporting for the impairment or disposal of long-lived assets and requires that, in a period in which a component of an entity either has been disposed of or is classified as held for sale, the income statements for current and prior periods shall report the results of operations of the component as discontinued operations.

In accordance with SFAS No. 144, at such time as a property is held for sale, such property is carried at the lower of (1) its carrying amount or (2) fair value less costs to sell. In addition, a property being held for sale ceases to be depreciated. We classify operating properties as property held for sale in the period in which all of the following criteria are met:

- management, having the authority to approve the action, commits to a plan to sell the asset;
- the asset is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such assets;
- an active program to locate a buyer and other actions required to complete the plan to sell the asset has been initiated;
- the sale of the asset is probable and the transfer of the asset is expected to qualify for recognition as a completed sale within one year;
- the asset is being actively marketed for sale at a price that is reasonable in relation to its current fair value; and
- given the actions required to complete the plan to sell the asset, it is unlikely that significant changes to the plan would be made or that the plan would be withdrawn.

Purchase Price Allocation

In accordance with SFAS No. 141, *Business Combinations*, we, with assistance from independent valuation specialists, allocate the purchase price of acquired properties to tangible and identified intangible assets and liabilities based on their respective fair values. The allocation to tangible assets (building and land) is based upon our determination of the value of the property as if it were vacant using discounted cash flow models similar to those used by independent appraisers. Factors considered by us include an estimate of carrying costs during the expected lease-up periods considering current market conditions and costs to execute similar leases. Additionally, the purchase price of the applicable property is allocated to the above or below market value of in-place leases, the value of in-place leases, tenant relationships and above or below market debt assumed.

The value allocable to the above or below market component of the acquired in-place leases is determined based upon the present value (using a discount rate which reflects the risks associated with the acquired leases) of the difference between (1) the contractual amounts to be paid pursuant to the lease over its remaining term and (2) management s estimate of the amounts that would be paid using fair market rates over the remaining term of the lease. The amounts allocated to above market leases are included in the intangible assets and below market lease values are included in

intangible liabilities in our consolidated financial statements and are amortized to rental income over the weighted average remaining term of the acquired leases with each property.

The total amount of other intangible assets acquired is further allocated to in-place lease costs and the value of tenant relationships based on management s evaluation of the specific characteristics of each tenant s lease and our overall relationship with that respective tenant. Characteristics considered by us in allocating these values include the nature and extent of the credit quality and expectations of lease renewals, among other factors.

The value allocable to above or below market debt is determined based upon the present value of the difference between the cash flow stream of the assumed fixed rate mortgage and the cash flow stream of a market fixed rate mortgage. The amounts allocated to above or below market debt are included in mortgage loan payables, net on our accompanying consolidated balance sheets and are amortized to interest expense over the remaining term of the assumed mortgage.

Table of Contents

These allocations are subject to change based on information received within one year of the purchase related to one or more events identified at the time of purchase which confirm the value of an asset or liability received in an acquisition of property.

Qualification as a REIT

We have not yet qualified as a REIT. We intend to make the election to be taxed as a REIT, under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended, or the Code, when we file our tax return for the taxable year ended December 31, 2007. To qualify as a REIT, we must meet certain organizational and operational requirements, including a requirement to distribute at least 90.0% of our ordinary taxable income to stockholders. As a REIT, we generally will not be subject to federal income tax on taxable income that we distribute to our stockholders.

If we fail to qualify as a REIT in any taxable year, we will then be subject to federal income taxes on our taxable income at regular corporate rates and will not be permitted to qualify for treatment as a REIT for federal income tax purposes for four years following the year during which qualification is lost unless the Internal Revenue Service grants us relief under certain statutory provisions. Such an event could have a material adverse effect on our net income and net cash available for distribution to stockholders. Because of our intention to elect REIT status when we file our fiscal year 2007 tax return, we will not benefit from the net loss incurred by us for the year ended December 31, 2006.

Factors Which May Influence Results of Operations

Rental Income

The amount of rental income generated by our properties depends principally on our ability to maintain the occupancy rates of currently leased space and to lease currently available space and space available from unscheduled lease terminations at the existing rental rates. Negative trends in one or more of these factors could adversely affect our rental income in future periods.

Scheduled Lease Expirations

As of December 31, 2007, our consolidated properties were 88.6% leased. 5.6% of the leased GLA expires during the year ended December 31, 2008. Our leasing strategy for 2008 focuses on negotiating renewals for leases scheduled to expire during the remainder of the year. If we are unable to negotiate such renewals, we will try to identify new tenants or collaborate with existing tenants who are seeking additional space to occupy. Of the leases expiring in 2008, we anticipate, but cannot assure, that all of the tenants will renew for another term.

Offering Proceeds

If we fail to raise significant proceeds under our Offering, we will not have enough proceeds to invest in a diversified real estate portfolio. Our real estate portfolio would be concentrated in a small number of properties, resulting in increased exposure to local and regional economic downturns and the poor performance of one or more of our properties and, therefore, expose our stockholders to increased risk. In addition, many of our expenses are fixed regardless of the size of our real estate portfolio. Therefore, depending on the amount of offering proceeds we raise, we would expend a larger portion of our income on operating expenses. This would reduce our profitability and, in turn, the amount of net income available for distribution to our stockholders.

Sarbanes-Oxley Act

The Sarbanes-Oxley Act of 2002, as amended, or the Sarbanes-Oxley Act, and related laws, regulations and standards relating to corporate governance and disclosure requirements applicable to public companies, have increased the costs of compliance with corporate governance, reporting and disclosure practices which are now required of us. These costs may have a material adverse effect on our results of operations and could impact our ability to pay distributions to our stockholders. Furthermore, we expect that these costs will increase in the future due to our continuing implementation of compliance programs mandated by these requirements. Any increased costs may affect our ability to distribute funds to our stockholders. As part of our compliance with the Sarbanes-Oxley Act, we are providing management s assessment of our internal control over financial reporting as of December 31, 2007.

In addition, these laws, rules and regulations create new legal bases for potential administrative enforcement, civil and criminal proceedings against us in case of non-compliance, thereby increasing the risks of liability and potential sanctions against

us. We expect that our efforts to comply with these laws and regulations will continue to involve significant, and potentially increasing costs and, our failure to comply, could result in fees, fines, penalties or administrative remedies against us.

Results of Operations

Our operating results are primarily comprised of income derived from our portfolio of properties.

We are not aware of any material trends or uncertainties, other than national economic conditions affecting real estate generally, that may reasonably be expected to have a material impact, favorable or unfavorable, on revenues or income from the acquisition, management and operation of properties, the financial impact of the downturn of the credit markets, and those risks listed in the Risk Factors section of our prospectus and other filings with the SEC.

We had limited results of operations for the period from April 28, 2006 (Date of Inception) through December 31, 2006 and therefore our results of operations for the year ended December 31, 2007 are not comparable. The increase in operations is due to purchasing 20 properties for the year ended December 31, 2007 as compared to not owning any properties for the period from April 28, 2006 (Date of Inception) through December 31, 2006, except where otherwise noted.

Rental Income

For the year ended December 31, 2007, rental income was $17,626,000 as compared to $0 for the period from April 28, 2006 (Date of Inception) through December 31, 2006. In 2007, rental income was primarily comprised of base rent of $13,785,000 and expense recoveries of $3,075,000.

Rental Expenses

For the year ended December 31, 2007, rental expenses were $6,037,000 as compared to $0 for the period from April 28, 2006 (Date of Inception) through December 31, 2006. In 2007, Rental expenses represent expense at our 20 properties. Rental expenses were primarily comprised of real estate taxes of $1,689,000, utilities of $1,534,000, repairs and maintenance of $1,669,000, property management fees of $574,000 and insurance of $210,000.

General and Administrative

For the year ended December 31, 2007, general and administrative was $3,297,000 as compared to $242,000 for the period from April 28, 2006 (Date of Inception) through December 31, 2006. In 2007, general and administrative consisted primarily of director and officer s insurance premiums of $242,000, directors fees of $248,000, restricted stock compensation of $96,000, professional and legal fees of $637,000, audit fees for the 20 property acquisitions of $372,000, postage and delivery of $40,000 and asset management fees of $1,590,000. In 2006, general and administrative consisted of director and officer s insurance premiums of $68,000, directors fees of $55,000, restricted stock compensation of $51,000 and professional and legal fees of $68,000. The increase in general and administrative was due to a full year of operations and increased legal and professional fees in connection with the acquisition of our 20 properties, as well as asset management fees on the portfolio of 20 properties.

Depreciation and Amortization

For the year ended December 31, 2007, depreciation and amortization was $9,790,000 as compared to $0 for the period from April 28, 2006 (Date of Inception) through December 31, 2006. In 2007, depreciation and amortization was comprised of depreciation on the properties of $4,616,000, amortization of identified intangible assets of

$5,167,000 and amortization of lease commissions of $7,000.

Interest Expense

For the year ended December 31, 2007, interest expense was $6,400,000 as compared to $0 for the period from April 28, 2006 (Date of Inception) through December 31, 2006. In 2007, interest expense was related to interest expense primarily on our mortgage loan payables and our secured revolving line of credit with LaSalle and KeyBank of $4,762,000, interest expense on unsecured note payables to NNN Realty Advisors of $84,000, losses on derivative financial instruments of $1,377,000 related to our interest rate swaps and amortization of loan fees and debt discount of $177,000 that are being amortized to interest expense over the terms of the related debt instruments.

Interest and Dividend Income

For the year ended December 31, 2007, interest and dividend income was $224,000 as compared to $0 for the period from April 28, 2006 (Date of Inception) through December 31, 2006. In 2007, interest and dividend income was related primarily to interest earned on our money market accounts. The increase in interest and dividend income was due to having higher cash balances in 2007 as compared to 2006.

Minority Interests

For the year ended December 31, 2007, minority interests were $8,000 as compared to $0 for the period from April 28, 2006 (Date of Inception) through December 31, 2006. In 2007, minority interests was primarily related to the minority interest owner s 20.0% share in the Chesterfield property.

Net Loss

For the year ended December 31, 2007, we had a net loss of $(7,666,000), or $(0.77) per share, as compared to $(242,000), or $(149.03) per share, for the period from April 28, 2006 (Date of Inception) through December 31, 2006. The increase in net loss was due to the factors discussed above.

Liquidity and Capital Resources

We are dependent upon the net proceeds to be received from our Offering to conduct our proposed activities. The capital required to purchase real estate and real estate related securities will be obtained from our Offering and from any indebtedness that we may incur.

Our principal demands for funds will be for acquisitions of real estate and real estate related securities, to pay operating expenses and interest on our outstanding indebtedness and to make distributions to our stockholders. In addition, we will require resources to make certain payments to our advisor and Grubb & Ellis Securities, Inc., or Grubb & Ellis Securities, or our dealer manager, which during our Offering include payments to our advisor and its affiliates for reimbursement of certain organizational and offering expenses and to our dealer manager and its affiliates for selling commissions, non-accountable marketing support fees and due diligence expense reimbursements.

Generally, cash needs for items other than acquisitions of real estate and real estate related securities will be met from operations, borrowing, and the net proceeds of our Offering, including the proceeds raised through the DRIP. However, there may be a delay between the sale of shares of our common stock and our investments in properties and real estate related securities, which could result in a delay in the benefits to our stockholders, if any, of returns generated from our investments operations. We believe that these cash resources will be sufficient to satisfy our cash requirements for the foreseeable future, and we do not anticipate a need to raise funds from other than these sources within the next twelve months.

Our advisor evaluates potential additional investments and will engage in negotiations with real estate sellers, developers, brokers, investment managers, lenders and others on our behalf. Until we invest the proceeds of our Offering in properties and real estate related securities, we may invest in short-term, highly liquid or other authorized investments. Such short-term investments will not earn significant returns, and we cannot predict how long it will take to fully invest the proceeds in properties and real estate related securities. The number of properties we may acquire and other investments we will make will depend upon the number of shares sold and the resulting amount of the net proceeds available for investment.

When we acquire a property, our advisor prepares a capital plan that contemplates the estimated capital needs of that investment. In addition to operating expenses, capital needs may also include costs of refurbishment, tenant improvements or other major capital expenditures. The capital plan also sets forth the anticipated sources of the necessary capital, which may include a line of credit or other loan established with respect to the investment, operating cash generated by the investment, additional equity investments from us or joint venture partners or, when necessary, capital reserves. Any capital reserve would be established from the gross proceeds of our Offering, proceeds from sales of other investments, operating cash generated by other investments or other cash on hand. In some cases, a lender may require us to establish capital reserves for a particular investment. The capital plan for each investment will be adjusted through ongoing, regular reviews of our portfolio or as necessary to respond to unanticipated additional capital needs.

Other Liquidity Needs

In the event that there is a shortfall in net cash available due to various factors, including, without limitation, the timing of such distributions or the timing of the collections of receivables, we may seek to obtain capital to pay distributions by means of secured or unsecured debt financing through one or more third parties, or our advisor or its affiliates. There are currently no limits or restrictions on the use of proceeds from our advisor or its affiliate which would prohibit us from making the proceeds available for distribution. We may also pay distributions from cash from capital transactions, including, without limitation, the sale of one or more of our properties.

We estimate that our expenditures for capital improvements and tenant improvements will require up to $1,852,000 within the next twelve months. As of December 31, 2007, we had $2,725,000 of restricted cash in loan impounds and reserve accounts for such capital expenditures. We cannot provide assurance, however, that we will not exceed these estimated expenditure and distribution levels or be able to obtain additional sources of financing on commercially favorable terms or at all.

If we experience lower occupancy levels, reduced rental rates, reduced revenues as a result of asset sales, increased capital expenditures and leasing costs compared to historical levels due to competitive market conditions for new and renewal leases, the effect would be a reduction of net cash provided by operating activities. If such a reduction of net cash provided by operating activities is realized, we may have a cash flow deficit in subsequent periods. In connection with such a shortfall in net cash available, we may seek to obtain capital to pay distributions by means of secured or unsecured debt financing through one or more third parties, or our advisor or its affiliates. This estimate is based on various assumptions which are difficult to predict, including the levels of leasing activity at year end and related leasing costs. Any changes in these assumptions could impact the financial results and our ability to fund working capital and unanticipated cash needs. To the extent any distributions are made to stockholders in excess of accumulated earnings, the excess distributions are considered a return of capital to stockholders for federal income tax purposes. Distributions in excess of tax capital are non-taxable to the extent of tax basis. Distributions in excess of tax basis will constitute capital gains.

Cash Flows

Cash flows provided by operating activities for the year ended December 31, 2007 and for the period from April 28, 2006 (Date of Inception) through December 31, 2006, were $7,005,000 and $0, respectively. In 2007, cash flows provided by operating activities related primarily to operations from our properties. We anticipate cash flows from operating activities to continue to increase as we purchase more properties.

Cash flows used in investing activities for the year ended December 31, 2007 and for the period from April 28, 2006 (Date of Inception) through December 31, 2006, were $385,440,000 and $0, respectively. In 2007, cash flows used in investing activities related primarily to the acquisition of our 20 properties in the amount of $380,398,000. We anticipate cash flows used in investing activities to continue to increase as we purchase more properties.

Cash flows provided by financing activities for the year ended December 31, 2007 and for the period from April 28, 2006 (Date of Inception) through December 31, 2006, were $383,700,000 and $202,000, respectively. In 2007, cash flows provided by financing activities related primarily to funds raised from investors in the amount of $210,937,000, borrowings on mortgage loan payables of $148,906,000 and net borrowings under our secured revolving line of credit with LaSalle and KeyBank of $51,801,000, partially offset by principal repayments of $151,000 on mortgage loan payables, offering costs of $22,009,000 and distributions of $3,323,000. Additional cash outflows related to debt financing costs of $2,496,000 in relation to new debt. In 2006, cash flows provided by financing activities related to $2,000 from the sale of 200 shares of our common stock to our advisor and $200,000 invested in our operating

partnership from our advisor. We anticipate cash flows from financing activities to increase in the future as we raise additional funds from investors and incur additional debt to purchase properties.

Distributions

The amount of the distributions to our stockholders is determined by our board of directors and is dependent on a number of factors, including funds available for payment of distributions, our financial condition, capital expenditure requirements and annual distribution requirements needed to maintain our status as a REIT under the Code.

Our board of directors approved a 6.50% per annum distribution to be paid to stockholders beginning on January 8, 2007, the date we reached our minimum offering of $2,000,000. The first distribution was paid on February 15, 2007 for the period ended January 31, 2007. On February 14, 2007, our board of directors approved a 7.25% per annum distribution to be paid to

stockholders beginning with our February 2007 monthly distribution which was paid in March 2007. Distributions are paid monthly.

If distributions are in excess of our taxable income, such distributions will result in a return of capital to our stockholders. Our distribution of amounts in excess of our taxable income have resulted in a return of capital to our stockholders. The income tax treatment for distributions reportable for the years ended December 31, 2007 and 2006 was as follows:

	Year Ended December 31, 2007			Year Ended December 31, 2006	
Ordinary income	$	915,000	15.3%	$	%
Capital gain					
Return of capital		5,081,000	84.7		
	$	5,996,000	100%	$	%

For the year ended December 31, 2007, we paid distributions of $5,996,000 from cash flow from operations of $7,005,000 for the period. The distributions paid in excess of our cash flow from operations was paid using proceeds from our Offering. As of December 31, 2007, we had an amount payable of $1,241,000 to our advisor and its affiliates for operating expenses, on-site personnel and engineering payroll, lease commissions and asset and property management fees, which will be paid from cash flow from operations in the future as they become due and payable by us in the ordinary course of business consistent with our past practice.

Our advisor and its affiliates have no obligations to defer or forgive amounts due to them. As of December 31, 2007, no amounts due to our advisor or its affiliates have been deferred or forgiven. In the future, if our advisor or its affiliates do not defer or forgive amounts due to them and our cash flow from operations is less than the distributions to be paid, we would be required to pay our distributions, or a portion thereof, with proceeds from our Offering or borrowed funds. As a result, the amount of proceeds available for investment and operations would be reduced, or we may incur additional interest expense as a result of borrowed funds.

In addition, for the year ended December 31, 2007, our funds from operations, or FFO, was $2,124,000. We paid the $3,872,000 of distributions in excess of FFO with proceeds from our Offering. See our disclosure regarding FFO below.

Capital Resources

Financing

We anticipate that aggregate borrowings, both secured and unsecured, will not exceed 60.0% of all of our properties and real estate related securities combined fair market values, as determined at the end of each calendar year beginning with our first full year of operations. For these purposes, the fair market value of each asset will be equal to the purchase price paid for the asset or, if the asset was appraised subsequent to the date of purchase, then the fair market value will be equal to the value reported in the most recent independent appraisal of the asset. Our policies do not limit the amount we may borrow with respect to any individual investment. As of December 31, 2007, our aggregate borrowings were 58.2% of all of our properties and real estate related securities combined fair market values.

Our charter precludes us from borrowing in excess of 300.0% of the value of our net assets, unless approved by our independent directors and the justification for such excess borrowing is disclosed to our stockholders in our next quarterly report. Net assets for purposes of this calculation are defined as our total assets (other than intangibles), valued at cost prior to deducting depreciation, reserves for bad debts and other non-cash reserves, less total liabilities. In accordance with our charter, a majority of our directors, including a majority of our independent directors, approved our leverage exceeding 300.0% of the value of our net assets in connection with our first four acquisitions of real properties. Our board of directors determined that the excess leverage was justified because it enabled us to purchase the properties during the initial stages of our Offering, thereby improving our ability to meet our goal of acquiring a diversified portfolio of properties to generate current income for stockholders and preserve their capital. As of December 31, 2007, our leverage did not exceed 300.0% of the value of our net assets.

Mortgage Loan Payables

Mortgage loan payables were $185,899,000 ($185,801,000, net of discount) and $0 as of December 31, 2007 and 2006, respectively. As of December 31, 2007, we had fixed and variable rate mortgage loans with the effective interest rates ranging

from 5.52% to 6.78% per annum and a weighted-average effective interest rate of 6.07% per annum. We had $90,919,000 ($90,821,000 net of discount), or 48.9%, of fixed rate debt at a weighted-average interest rate of 5.79% per annum and $94,980,000, or 51.1%, of variable rate debt at a weighted-average interest rate of 6.35% per annum. We had fixed rate interest rate swaps on all of our variable rate mortgage loan payables, thereby effectively fixing our interest rate on those mortgage loan payables. We are required by the terms of the applicable loan documents to meet certain financial covenants, such as debt service coverage ratios and rent coverage ratios and reporting requirements. As of December 31, 2007, we were in compliance with all such covenants and requirements.

Unsecured Note Payables to Affiliate

For the year ended December 31, 2007 and for the period from April 28, 2006 (Date of Inception) through December 31, 2006, we entered into, and subsequently paid down, the following unsecured loans with NNN Realty Advisors, evidenced by unsecured promissory notes:

Date of Note	Amount	Maturity Date	Interest Rate	Default Interest Rate	Date Paid in Full
01/22/07	$ 7,500,000	07/22/07	6.86%	8.86%	03/28/07
03/09/07	$ 1,000,000	09/09/07	6.84%	8.84%	03/28/07
06/08/07	$ 4,000,000	12/08/07	6.82%	8.82%	06/18/07
08/30/07	$ 1,300,000	03/01/08	6.85%	8.85%	09/04/07
09/05/07	$ 6,100,000	03/05/08	6.86%	8.86%	09/11/07

The unsecured notes bore interest at a fixed rate and required monthly interest-only payments for the terms of the unsecured notes. As of December 31, 2007 and 2006, we had no outstanding balances under the unsecured note payables to affiliate.

Because these loans were related party loans, the terms of the loans and the unsecured notes were approved by our board of directors, including a majority of our independent directors, and deemed fair, competitive and commercially reasonable by our board of directors.

Line of Credit

On September 10, 2007, we entered into a loan agreement, or the Loan Agreement, with LaSalle to obtain a secured revolving credit facility in an aggregate maximum principal amount of $50,000,000, or the LaSalle line of credit. The proceeds of loans made under the Loan Agreement may be used to finance the purchase of properties or, provided no event of default has occurred and is continuing, may be used for any other lawful purpose. In addition to loans, our operating partnership may obtain up to an additional $10,000,000 of the credit available under the Loan Agreement in the form of letters of credit. The initial term of the Loan Agreement is three years, which may be extended by one 12-month period subject to satisfaction of certain conditions, including payment of an extension fee equal to 0.20% of the principal balance of loans then outstanding.

The actual amount of credit available under the Loan Agreement is a function of certain loan to cost, loan to value and debt service coverage ratios contained in the Loan Agreement. The maximum principal amount of the Loan Agreement may be increased to $120,000,000 subject to the terms of the Loan Agreement. Also, additional financial institutions may become lenders under the Loan Agreement.

At our option, loans under the Loan Agreement bear interest at per annum rates equal to (1) LIBOR plus a margin ranging from 1.45% to 1.60%, depending on the ratio of outstanding amounts under the Loan Agreement to the value of the collateral securing the Loan Agreement, (2) the greater of LaSalle s prime rate or the Federal Funds Rate plus 0.50%, or (3) a combination of these rates. Accrued interest under the Loan Agreement is payable monthly and at maturity. In addition to interest, we are required to pay a fee on the unused portion of the lenders commitments under the Loan Agreement at a per annum rate equal to 0.20%, payable quarterly in arrears, beginning with the quarter ending December 31, 2007.

Our obligations with respect to the Loan Agreement are guaranteed by us and by our subsidiaries that own properties that serve as collateral for the Loan Agreement.

The Loan Agreement contains various affirmative and negative covenants that are customary for facilities and transactions of this type, including limitations on the incurrence of debt by us and our subsidiaries that own properties that serve as collateral for the Loan Agreement, limitations on the nature of our business, and limitations on distributions by us and our subsidiaries that own properties that serve as collateral for the Loan Agreement. The Loan Agreement also imposes the following financial covenants on us and our operating partnership, as applicable: (1) a minimum ratio of operating cash flow to interest expense, (2) a minimum ratio of operating cash flow to fixed charges, (3) a maximum ratio of liabilities to asset value, (4) a maximum distribution covenant and (5) a minimum net worth covenant, all of which are defined in the Loan Agreement. In addition, the Loan Agreement includes events of default that are customary for facilities and transactions of this type. As of December 31, 2007, we were in compliance with all such covenants and requirements.

On December 12, 2007, we, along with our subsidiaries, entered into a Modification of Loan Agreement with LaSalle and amended and restated promissory notes with each of LaSalle and KeyBank (1) to increase the aggregate maximum principal

amount available under the LaSalle line of credit from $50,000,000 to $80,000,000; (2) to modify the applicable margin rate for LIBOR loans from a range of 1.45% to 1.60% to a stated margin of 1.50%; (3) to decrease the applicable margin rate for base rate loans from 0.5% to 0.0%; and (4) to add KeyBank as a lender under the LaSalle line of credit, which we refer to as our secured revolving line of credit with LaSalle and KeyBank. Our secured revolving line of credit with LaSalle and KeyBank is secured by the Triumph Hospital Portfolio, the 2750 Monroe property, the Lima Medical property and the Tucson Medical property.

As of December 31, 2007 and 2006, borrowings under our secured revolving line of credit with LaSalle and KeyBank totaled $51,801,000 and $0, respectively. Borrowings as of December 31, 2007 bore interest at a weighted-average interest rate of 6.93% per annum.

REIT Requirements

In order to qualify as a REIT for federal income tax purposes, we are required to make distributions to our stockholders of at least 90.0% of REIT taxable income. In the event that there is a shortfall in net cash available due to factors including, without limitation, the timing of such distributions or the timing of the collections of receivables, we may seek to obtain capital to pay distributions by means of secured debt financing through one or more third parties. We may also pay distributions from cash from capital transactions including, without limitation, the sale of one or more of our properties.

Commitments and Contingencies

Organizational, Offering and Related Expenses

Our organizational, offering and related expenses are being paid by our advisor and its affiliates on our behalf. These organizational, offering and related expenses include all expenses (other than selling commissions and the marketing support fee which generally represent 7.0% and 2.5% of our gross offering proceeds, respectively) to be paid by us in connection with our Offering. These expenses will only become our liability to the extent selling commissions, the marketing support fee and due diligence expense reimbursements and other organizational and offering expenses do not exceed 11.5% of the gross proceeds of our Offering. As of December 31, 2007 and 2006, expenses of $1,086,000 and $1,093,000, respectively, in excess of 11.5% of the gross proceeds of our Offering, have been incurred by our advisor or Grubb & Ellis Realty Investors and these expenses are not recorded in our accompanying consolidated financial statements as of December 31, 2007 and 2006. To the extent we raise additional proceeds from our Offering, these amounts may become our liability. See Note 11, Related Party Transactions Offering Stage, for a further discussion of these amounts during our offering stage.

Repairs and Maintenance Expenses

We are required by the terms of the mortgage loan payable secured by the Thunderbird property to complete certain repairs to the property in the amount of $190,000 by February 2008. We are required by the terms of the mortgage loan payable secured by the Gallery property to complete certain repairs to the property in the amount of $63,000 by January 2008. Funds for these expenditures are held by the lender and are included in restricted cash on our accompanying consolidated balance sheet as of December 31, 2007.

Chesterfield Property

The Operating Agreement with BD St. Louis for the JV Company that owns the Chesterfield property provides that from January 1, 2010 to March 31, 2010, our operating partnership has the right and option to purchase the 20.0% membership interests in the JV Company held by BD St. Louis at a fixed price of $3,900,000. However, if we do not

exercise that right, the Operating Agreement provides that from January 1, 2011 to March 31, 2011, BD St. Louis has the right and option to sell all, but not less than all, of its 20.0% membership interests in the JV Company to our operating partnership at the greater of $10.00 or the fair market value as determined in accordance with the Operating Agreement.

Insurance Coverage

The insurance coverage provided through third-party insurance carriers is subject to coverage limitations. For each type of insurance coverage, should an uninsured or underinsured loss occur, we could lose all or a portion of our investment in, and anticipated cash flows from, one or more of the properties. In addition, there can be no assurance that third-party insurance carriers will be able to maintain reinsurance sufficient to cover any losses that may be incurred. However, management believes that our current insurance coverage is adequate.

Debt Service Requirements

One of our principal liquidity needs is the payment of principal and interest on outstanding indebtedness. As of December 31, 2007, we had fixed and variable mortgage loan payables in the principal amount of $185,899,000 ($185,801,000, net of discount) outstanding secured by our properties and $51,801,000 outstanding under our secured revolving line of credit with LaSalle and KeyBank. As of December 31, 2007, the weighted-average interest rate on our outstanding debt was 6.26% per annum.

The following table provides information with respect to the maturities and scheduled principal repayments of our secured mortgage loan payables and our secured revolving line of credit with LaSalle and KeyBank as of December 31, 2007. The table does not reflect any available extension options.

Off-Balance Sheet Arrangements

As of December 31, 2007 and 2006, we had no off-balance sheet transactions nor do we currently have any such arrangements or obligations.

Inflation

We are exposed to inflation risk as income from future long-term leases is the primary source of our cash flows from operations. There are provisions in the majority of our tenant leases that protect us from the impact of inflation. These provisions include rent steps, reimbursement billings for operating expense pass-through charges, real estate tax and insurance reimbursements on a per square foot allowance. However, due to the long-term nature of the leases, among other factors, the leases may not re-set frequently enough to cover inflation.

Funds from Operations

One of our objectives is to provide cash distributions to our stockholders from cash generated by our operations. Due to certain unique operating characteristics of real estate companies, the National Association of Real Estate Investment Trusts, or NAREIT, an industry trade group, has promulgated a measure known as Funds From Operations, or FFO, which it believes more accurately reflects the operating performance of a REIT such as us. FFO is not equivalent to our net income or loss as determined under GAAP.

We define FFO, a non-GAAP measure, consistent with the standards established by the White Paper on FFO approved by the Board of Governors of NAREIT, as revised in February 2004. The White Paper defines FFO as net income or loss computed in accordance with GAAP, excluding gains or losses from sales of property but including asset impairment writedowns, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. Adjustments for unconsolidated partnerships and joint ventures are calculated to reflect FFO.

The historical accounting convention used for real estate assets requires straight-line depreciation of buildings and improvements, which implies that the value of real estate assets diminishes predictably over time. Since real estate values historically rise and fall with market conditions, presentations of operating results for a REIT, using historical accounting for depreciation, could be less informative. The use of FFO is recommended by the REIT industry as a supplemental performance measure.

Table of Contents

Presentation of this information is intended to assist the reader in comparing the operating performance of different REITs, although it should be noted that not all REITs calculate FFO the same way, so comparisons with other REITs may not be meaningful. Furthermore, FFO is not necessarily indicative of cash flow available to fund cash needs and should not be considered as an alternative to net income as an indication of our performance. Our FFO reporting complies with NAREIT s policy described above.

The following is the calculation of FFO for the year ended December 31, 2007 and for the period from April 28, 2006 (Date of Inception) through December 31, 2006:

	Year Ended December 31, 2007	Period from April 28, 2006 (Date of Inception) through December 31, 2006
Net loss	$ (7,666,000)	$ (242,000)

Depreciation and amortization consolidated properties	9,790,000	
Less:		
Depreciation and amortization related to minority interests		
FFO	$ 2,124,000	$ (242,000)
Weighted average common shares outstanding basic and diluted	9,952,771	1,622

We entered into a services agreement, effective January 1, 2008, with Grubb & Ellis Realty Investors for subscription agreement processing and investor services. The services agreement has an initial one-year term and shall thereafter automatically be renewed for successive one year terms. The services agreement requires Grubb & Ellis Realty Investors to

provide us with a 180 day advance written notice for any termination, while we have the right to terminate upon 30 days advance written notice.

We financed the purchase price of the Texas properties with an advance of $18,000,000 under a $24,800,000 secured loan with Red Mortgage Capital, Inc. and $14,800,000 in borrowings under our secured revolving line of credit with LaSalle and KeyBank. An acquisition fee of $897,000, or 3.0% of the purchase price, was paid to our advisor and its affiliate in connection with the acquisition of the Texas properties. We are currently working toward closing the California properties, and we expect to pay our advisor and its affiliate an acquisition fee of $291,000, or 3.0% of the purchase price, in connection of the acquisition of the California properties.

Recently Issued Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board, or the FASB, issued SFAS No. 157, *Fair Value Measurement,* or SFAS No. 157. SFAS No. 157, which will be applied to other accounting pronouncements that require or permit fair value measurements, defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and provides for expanded disclosure about fair value measurements. SFAS No. 157 was issued to increase consistency and comparability in fair value measurements and to expand disclosures about fair value measurements. In February 2008, the FASB issued FASB Staff Position SFAS No. 157-1, *Application of FASB Statement No. 157 to FASB Statement No. 13 and Other Accounting Pronouncements That Address Fair Value Measurements for Purposes of Lease Classification or Measurement under*

Statement 13, or FSP FAS 157-1. FSP FAS 157-1 defers the effective date of SFAS No. 157 for all non-financial assets and non-financial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis. FSP FAS 157-1 also excludes from the scope of SFAS No. 157 certain leasing transactions accounted for under SFAS No. 13, *Accounting for Leases*. We adopted SFAS No. 157 and FSP FAS 157-1 on a prospective basis on January 1, 2008. The adoption of SFAS No. 157 and FSP FAS 157-1 did not have a material impact on our consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities,* or SFAS No. 159. SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value. The objective of the guidance is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. We adopted SFAS No. 159 on a prospective basis on January 1, 2008. The adoption of SFAS No. 159 did not have a material impact on our consolidated financial statements since we will not be electing to apply the fair value option for any of our eligible financial instruments or other items on the January 1, 2008 effective date.

In December 2007, the FASB issued SFAS No. 141(R), *Business Combinations,* or SFAS No. 141(R), and SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements An Amendment of ARB No. 51,* or SFAS No. 160. These two new standards will significantly change the accounting for and reporting of business combination transactions and noncontrolling (minority) interests in consolidated financial statements. SFAS No. 141(R) requires an acquiring entity to recognize acquired assets and liabilities assumed in a transaction at fair value as of the acquisition date, changes the disclosure requirements for business combination transactions and changes the accounting treatment for certain items, including contingent consideration agreements which will be required to be recorded at acquisition date fair value and acquisition costs which will be required to be expensed as incurred. SFAS No. 160 requires that noncontrolling interests be presented as a component of consolidated stockholders equity, eliminates minority interest accounting such that the amount of net income attributable to the noncontrolling interests will be presented as part of consolidated net income in our accompanying consolidated statements of operations and not as a separate component of income and expense, and requires that upon any changes in ownership that result in the loss of control of the subsidiary, the noncontrolling interest be re-measured at fair value with the resultant gain or loss recorded in net income. SFAS No. 141(R) and SFAS No. 160 require simultaneous adoption and are to be applied prospectively for the first annual reporting period beginning on or after December 15, 2008. Early adoption of either standard is prohibited. We will adopt SFAS No. 141(R) and SFAS No. 160 on January 1, 2009. We are evaluating the impact of SFAS No. 141(R) and SFAS No. 160 and have not yet determined the impact the adoption will have on our consolidated financial statements.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities*, or SFAS No. 161. SFAS No. 161 is intended to improve financial reporting about derivative instruments and hedging activities by requiring enhanced disclosures to enable investors to better understand their effects on an entity s financial position, financial performance, and cash flows. SFAS No. 161 achieves these improvements by requiring disclosure of the fair values of derivative instruments and their gains and losses in a tabular format. It also provides more information about an entity s liquidity by requiring disclosure of derivative features that are credit risk-related. Finally, it requires cross-referencing within footnotes to enable financial statement users to locate important information about derivative instruments. SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. The adoption of SFAS No. 161 is not expected to have a material impact on our consolidated financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders
Grubb & Ellis Healthcare REIT, Inc.

We have audited the accompanying consolidated balance sheets of Grubb & Ellis Healthcare REIT, Inc. and subsidiaries (the Company) as of December 31, 2007 and 2006 and the related consolidated statements of operations, stockholders equity (deficit) and cash flows for the year ended December 31, 2007 and for the period from April 28, 2006 (Date of Inception) through December 31, 2006. Our audits also included the consolidated financial statement schedules listed in the index. These consolidated financial statements and the consolidated financial statement schedules are the responsibility of the Company s management. Our responsibility is to express an opinion on these consolidated financial statements and the consolidated financial statement schedules based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Company s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2007 and 2006, and the results of their operations and their cash flows for the year ended December 31, 2007 and for the period from April 28, 2006 (Date of Inception) through December 31, 2006, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such consolidated financial statement schedules, when considered in relation to the basic consolidated financial statements taken as a whole, present fairly in all material respects, the information set forth therein.

Grubb & Ellis Healthcare REIT, Inc.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
For the Year Ended December 31, 2007 and for the Period from April 28, 2006
(Date of Inception) through December 31, 2006

The use of the words we, us or our refers to Grubb & Ellis Healthcare REIT, Inc. and its subsidiaries, including Grubb & Ellis Healthcare REIT Holdings, L.P., except where the context otherwise requires.

1. Organization and Description of Business

Grubb & Ellis Healthcare REIT, Inc. (formerly known as NNN Healthcare/Office REIT, Inc.), a Maryland corporation, was incorporated on April 20, 2006. We were initially capitalized on April 28, 2006 and therefore we consider that our date of inception. We provide stockholders the potential for income and growth through investment in a diversified portfolio of real estate properties, focusing primarily on medical office buildings, healthcare-related facilities and quality commercial office properties. We may also invest in real estate related securities. We focus primarily on investments that produce current income. We intend to elect to be treated as a real estate investment trust, or REIT, for federal income tax purposes for our taxable year ended December 31, 2007 when we file our fiscal year 2007 tax return.

We are conducting a best efforts initial public offering, or our Offering, in which we are offering up to 200,000,000 shares of our common stock for $10.00 per share and 21,052,632 shares of our common stock pursuant to our distribution reinvestment plan, or the DRIP, at $9.50 per share, aggregating up to $2,200,000,000. As of March 14, 2008, we had received and accepted subscriptions in our Offering for 25,933,558 shares of our common stock, or $259,042,000, excluding shares issued under the DRIP.

We conduct substantially all of our operations through Grubb & Ellis Healthcare REIT Holdings, L.P. (formerly known as NNN Healthcare/Office REIT Holdings, L.P.), or our operating partnership. We are externally advised by Grubb & Ellis Healthcare REIT Advisor, LLC (formerly known as NNN Healthcare/Office REIT Advisor, LLC), or our advisor, pursuant to an advisory agreement, or the Advisory Agreement, between us, our advisor and Grubb & Ellis Realty Investors, LLC, or Grubb & Ellis Realty Investors (formerly known as Triple Net Properties, LLC), who is the managing member of our advisor. The Advisory Agreement had a one-year term that expired on September 19, 2007 and was subject to successive one-year renewals upon the mutual consent of the parties. On September 18, 2007, our board of directors extended the Advisory Agreement on a month-to-month basis. On October 24, 2007, our board of directors authorized the renewal of our Advisory Agreement for a term of one year ending on October 24, 2008. Our advisor supervises and manages our day-to-day operations and selects the properties and securities we acquire, subject to the oversight by our board of directors. Our advisor also provides marketing, sales and client services on our behalf. Our advisor is affiliated with us in that we and our advisor have common officers, some of whom also own an indirect equity interest in our advisor. Our advisor engages affiliated entities, including Triple Net Properties Realty, Inc., or Realty, to provide various services to us, including property management services.

On December 7, 2007, NNN Realty Advisors, Inc., or NNN Realty Advisors, which previously served as our sponsor, merged with and into a wholly owned subsidiary of Grubb & Ellis Company, or Grubb & Ellis. The transaction was structured as a reverse merger whereby stockholders of NNN Realty Advisors received shares of common stock of Grubb & Ellis in exchange for their NNN Realty Advisors shares of common stock and, immediately following the merger, former NNN Realty Advisor stockholders held approximately 59.5% of the common stock of Grubb & Ellis. As a result of the merger, we consider Grubb & Ellis to be our sponsor. Following the merger, NNN Healthcare/Office REIT, Inc., NNN Healthcare/Office REIT Holdings, L.P., NNN Healthcare/Office REIT Advisor, LLC, NNN Healthcare/Office Management, LLC, Triple Net Properties, LLC and NNN Capital Corp. changed their

names to Grubb & Ellis Healthcare REIT, Inc., Grubb & Ellis Healthcare REIT Holdings, L.P., Grubb & Ellis Healthcare REIT Advisor, LLC, Grubb & Ellis Healthcare Management, LLC, Grubb & Ellis Realty Investors, LLC and Grubb & Ellis Securities, Inc., respectively.

As of December 31, 2007, we had purchased 20 properties comprising 2,233,000 square feet of gross leasable area, or GLA.

2. Summary of Significant Accounting Policies

The summary of significant accounting policies presented below is designed to assist in understanding our consolidated financial statements. Such financial statements and accompanying notes are the representations of our management, who are responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

United States of America, or GAAP, in all material respects, and have been consistently applied in preparing our accompanying consolidated financial statements.

Basis of Presentation

Our accompanying consolidated financial statements include our accounts and those of our operating partnership, the wholly owned subsidiaries of our operating partnership and any variable interest entities, as defined, in Financial Accounting Standards Board Interpretation, or FIN, No. 46, *Consolidation of Variable Interest Entities, an Interpretation of Accounting Research Bulletin No. 51,* as revised, or FIN No. 46(R), that we have concluded should be consolidated. We operate and intend to continue to operate in an umbrella partnership REIT structure in which our operating partnership, or wholly-owned subsidiaries of our operating partnership, will own substantially all of the properties acquired on our behalf. We are the sole general partner of our operating partnership and as of December 31, 2007 and 2006, we owned a 99.99% and 1.0%, respectively, general partnership interest therein. Our advisor is a limited partner and as of December 31, 2007 and 2006, owned a 0.01% and 99.0%, respectively, limited partnership interest therein. Our advisor is also entitled to certain subordinated distribution rights under the partnership agreement for our operating partnership. Because we are the sole general partner of our operating partnership and have unilateral control over its management and major operating decisions (even if additional limited partners are admitted to our operating partnership), the accounts of our operating partnership are consolidated in our consolidated financial statements. All significant intercompany accounts and transactions are eliminated in consolidation.

Use of Estimates

The preparation of our consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. These estimates are made and evaluated on an on-going basis using information that is currently available as well as various other assumptions believed to be reasonable under the circumstances. Actual results could differ from those estimates, perhaps in material adverse ways, and those estimates could be different under different assumptions or conditions.

Cash and Cash Equivalents

Cash and cash equivalents consist of all highly liquid investments with a maturity of three months or less when purchased.

Restricted Cash Held in Escrow

Restricted funds held in escrow of $1,802,000, including funds received from shares sold to our executive officers and directors, Grubb & Ellis Securities, Inc., or Grubb & Ellis Securities, or our dealer manager, and our advisor and its affiliates, as of December 31, 2006 are not included in assets and consist of funds received in connection with subscription agreements to purchase shares of our common stock in connection with our Offering. We were required to raise $2,000,000, or the minimum offering, on or before September 20, 2007 (one year following the commencement of our Offering), or the funds raised, including interest, would have been returned to the subscribers. Therefore, as of December 31, 2006, the funds were held in an escrow account and were not released to or available to us until the minimum offering was raised.

On January 8, 2007, we raised the minimum offering and the funds held in escrow were released to us.

Restricted Cash

Restricted cash is comprised of impound reserve accounts for property taxes, insurance, capital improvements and tenant improvements.

Revenue Recognition, Tenant Receivables and Allowance for Uncollectible Accounts

In accordance with Statement of Financial Accounting Standards, or SFAS No. 13, *Accounting for Leases*, or SFAS No. 13, as amended and interpreted, minimum annual rental revenue is recognized on a straight-line basis over the term of the related lease (including rent holidays). Differences between rental income recognized and amounts contractually due under the lease agreements
