COMPENSATION/ STOCK OPTION COMMITTEE REPORT

ON EXECUTIVE COMPENSATION

The Corporation's executive compensation program is administered by the Compensation/ Stock Option Committee (the Committee), which determines executive officer compensation annually. The Committee is composed of independent directors who are not employees of the Corporation and its determinations with respect to compensation for a fiscal year are made at the beginning of the fiscal year.

In its deliberations, the Committee considers (i) the levels of responsibility associated with each executive's position, (ii) the past performance of the individual executive, (iii) the extent to which any individual, departmental or Corporation-wide goals have been met, (iv) the overall competitive environment and the level of compensation necessary to attract and retain talented and motivated individuals in key positions, and (v) the recommendations of appropriate officers of the Corporation.

The Corporation's compensation program utilizes a combination of base salaries, annual bonuses and stock option awards.

In determining the base salaries paid to the Corporation's executive officers for the year ended December 31, 2001, the Committee considered, in particular, their levels of responsibility, salary increases awarded in the past, and the executive's experience and potential.

The Committee views annual bonuses as a vehicle for rewarding executives for meeting performance objectives. The Committee establishes individual and corporate performance targets each year. Executive officers are eligible to receive annual cash bonuses upon achievement of such pre-determined performance targets. No annual bonuses were paid for the fiscal year ended December 31, 2001.

The Corporation's stock option program is intended to reward the participating executives for their efforts in building shareholder value and improving corporate performance over the long term. The stock option program also promotes the retention of talented executives. In determining the number of options granted to executive officers, the Committee takes into consideration options granted to such executives in previous years and the potential value which may be realized upon exercise of the options as a result of appreciation of the Corporation's stock during the option term.

The Internal Revenue Code limits the deduction a public company is permitted for compensation paid to the chief executive officer and to the four most highly compensated executive officers, other than the chief executive officer. Generally, amounts paid in excess of \$1 million to a covered executive, other than performance-based compensation, cannot be deducted. In order to qualify as performance-based compensation under the tax law, certain requirements must be met, including approval of the performance measures by the stockholders. In its deliberations, the Committee considers ways to maximize deductibility of executive compensation, while retaining the discretion the Committee considers appropriate to compensate executive officers at levels commensurate with their responsibilities and achievements.

Compensation of Robert J. Shillman, President, Chief Executive Officer and Chairman

The Committee established the compensation of Robert J. Shillman, the President, Chief Executive Officer and Chairman of the Board of Directors of the Corporation for the fiscal year ending December 31, 2001, using the same criteria that were used to determine the compensation of other executive officers as described above. In establishing Mr. Shillman's compensation for the fiscal year ending December 31, 2001, the Committee considered his level of responsibility, salary increases awarded in the past, and the significant role that Mr. Shillman has played in setting the strategic direction of the Corporation. Mr. Shillman's base compensation was increased approximately 4.8% to \$325,000 in general recognition of his level of responsibility and his individual efforts for the benefit of the Corporation. In April 2001, Mr. Shillman elected to forego

the remaining 72.6% of his 2001 base salary due to the slowdown in the Corporation's business. Mr. Shillman was granted options for the purchase of 2,250 shares at \$22.685 per share and 39,200 shares at \$24.66 per share.

The foregoing report has been approved by all members of the Committee.
