FORWARD LOOKING STATEMENTS

This current report on Form 8-K contains forward-looking statements that are based on current expectations, estimates, forecasts and projections about our company, the industries in which we operate and other matters, as well as management's beliefs and assumptions and other statements regarding matters that are not historical facts. These statements include, in particular, statements about our projected and forecasted financial and operational performance, cost savings, including cost savings estimated in connection with the combination of our Life Sciences and Analytical Instruments businesses, revenue opportunities and the sources and uses of funds for our proposed refinancing of our existing debt. For example, when we use words such as projects, expects, anticipates, intends, plans, believes, seeks, estimates, should, may, variations of such words or other words that convey uncertainty of future events or outcome, we are making forward-looking statements. Our forward-looking statements are subject to risks and uncertainties. You should note that many important factors could affect us in the future and could cause results to differ materially from those expressed in our forward-looking statements, including risks related to our debt levels, our ability to comply with the financial covenants in our credit agreements, our ability to complete our proposed refinancing of our existing debt, demand for and market acceptance of our existing and our new products, a downturn in our customers' markets, international operations, our ability to integrate acquired businesses and licensed technologies into our existing business, risks associated with the integration of our Life Sciences and Analytical Instruments businesses and competition. For a discussion of some of these factors, please read carefully the information under the caption "Forward-Looking Information and Factors Affecting Future Performance" in our most recently filed quarterly report on Form 10-Q.

This current report on Form 8-K also contains estimates made by third parties and by us relating to market size and growth and other industry data, including our ranking within our markets. These estimates involve a number of assumptions and limitations, and investors are cautioned not to give undue weight to such estimates. We have not independently verified the accuracy of the estimates made by third parties. In addition, projections, assumptions and estimates of our future performance and the future performance of the industries in which we operate are necessarily subject to a high degree of uncertainty and risk due to a variety of factors, including those described under the caption "Forward-Looking Information and Factors Affecting Future Performance" in our most recently filed quarterly report on Form 10-Q. These and other factors could cause results to differ materially from those expressed in the estimates made by third parties.
