SKILLSOFT PLC AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. THE COMPANY

SkillSoft PLC, formerly known as SmartForce PLC (the Company or SkillSoft), was incorporated in Ireland on August 8, 1989. The Company is a provider of web-based training resources that cover a variety of professional, effectiveness, business and information technology topics. On September 6, 2002, the Company completed its merger with SkillSoft Corporation (the Merger). Due to a number of factors, including composition of the board of directors, management team, and concentrated shareholder interest, all of which had SkillSoft Corporation being in a control or majority position, the Merger was accounted for as a reverse acquisition, with SkillSoft Corporation as the accounting acquirer. Accordingly, the historical financial statements of SkillSoft Corporation are the historical financial statements of the combined company, and the assets and liabilities of the Company are accounted for as required under the purchase method of accounting. The results of operations and cash flow of the former SmartForce PLC, the acquired entity for accounting purposes, are included in the financial statements of the combined company from September 6, 2002, the date on which the Merger was consummated. In connection with the Merger, the Company changed its name to SkillSoft PLC and its fiscal year end to January 31 (the fiscal year end of SkillSoft Corporation) from December 31 (the Company's historical fiscal year end).

2. BASIS OF PRESENTATION

The accompanying, unaudited condensed consolidated financial statements included herein have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission (the SEC). Certain information and footnote disclosures, normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States have been condensed or omitted pursuant to such SEC rules and regulations. Nevertheless, the management of the Company believes that the disclosures herein are adequate to make the information presented not misleading. In the opinion of management, the condensed consolidated financial statements reflect all material adjustments (consisting only of those of a normal and recurring nature) which are necessary to present fairly the consolidated financial position of the Company as of April 30, 2003, the results of its operations for the three months ended April 30, 2003 and 2002 and its cash flows for the three months ended April 30, 2003 and 2002. These condensed consolidated financial statements and notes thereto should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended January 31, 2003, as amended. The results of operations for the interim period are not necessarily indicative of the results of operations to be expected for the full year.

3. CASH, CASH EQUIVALENTS AND INVESTMENTS

The Company considers all highly liquid investments with original maturities of 90 days or less at the time of purchase to be cash equivalents. At April 30,

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

2003 and January 31, 2003, cash equivalents consisted mainly of commercial paper, short-term notes and money market funds. The Company accounts for its investments in accordance with Statement of Financial Accounting Standards (SFAS) No. 115, Accounting for Certain Investments in Debt and Equity Securities (SFAS No.115). Under SFAS No. 115, securities that the Company does not intend to hold to maturity are reported at market value, and are classified as available-for-sale. At April 30, 2003, the Company's investments consisted primarily of commercial paper and short-term notes, which had an average maturity of approximately 168 days. These investments are classified as current assets in the accompanying consolidated balance sheets as they mature within one year.

4. REVENUE RECOGNITION

The Company generates revenue from the license of products and services and from providing hosting/ASP services.

The Company follows the provisions of the American Institute of Certified Public Accountants (AICPA) Statement of Position (SOP) 97-2, Software Revenue Recognition, as amended by SOP 98-4 and SOP 98-9 to account for revenue derived pursuant to license agreements under which customers license the Company's products and services. The pricing for the Company's courses varies based upon the number of course titles or the courseware bundle licensed by a customer, the number of users within the customer's organization and the length of the license agreement (generally one, two or three years). License agreements permit customers to exchange course titles, generally on the contract anniversary date. Additional product features, such as hosting and on-line mentoring services, are separately licensed for an additional fee.

The pricing for the Company's multi-modal learning (MML) licenses varies based on the content offering selected by the customer, the number of users within the customer's organization and the length of the license agreement. A MML license provides customers access to a full range of learning products including courseware, Referenceware, simulations, mentoring and prescriptive assessment.

A Referenceware license gives users access to the full library within one or more collections (ITPro, BusinessPro, FinancePro and OfficeEssentials) from Books24x7.com, Inc. (Books). Generally, the pricing for the Company's Referenceware licenses varies based on the collections specified by a customer, the number of users within the customer's organization and the length of the license agreement.

The Company generally bills the annual license fee for the first year of a multi-year agreement in advance. The Company recognizes revenue with respect to courseware licenses either at the time of delivery of products or over the term of the contract, depending on the products included in the license and specific contract terms. In the event that the customer specifies all licensed courses to be delivered at the outset and those courses are available and delivered on or before the contract start date, the Company recognizes license revenue for the first year of the contract upon execution of the contract and delivery of the courses. The Company generally bills license fees for subsequent years of multi-year license arrangements on the anniversary date of the agreement, and if the customer exchanges courses and receives the exchanged courses by the renewal date, revenue is recognized in the manner described above.

In some circumstances, the Company offers payment terms of up to six months from the initial shipment date or anniversary date for multi-year agreements to its customers. To the extent that a customer is given extended

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

payment terms, revenue is recognized as cash becomes due, assuming all of the other elements of revenue recognition have been satisfied.

The Company recognizes revenue ratably over the license period if the number of courses that a customer has access to is not clearly defined, available, or selected at the inception of the contract, or if the contract has additional undelivered elements for which the Company does not have vendor specific objective evidence (VSOE) of the fair value of the various elements. This may occur if the customer does not specify all licensed courses at the outset, the customer chooses to wait for future licensed courses on a when and if available basis, the customer is given exchange privileges that are exercisable other than on the contract anniversaries, or the customer licenses all courses currently available and to be developed during the term of the arrangement. A majority of the Company's contractual arrangements result in the recognition of revenue ratably over the license period.

The Company also derives revenue from extranet hosting/ASP services and online mentoring services. The Company recognizes revenue related to extranet hosting/ASP services and online mentoring services on a straight-line basis over the period in which the service agreements are provided to the extent the Company has VSOE for those services. If the Company does not have VSOE for these services, revenue from the entire arrangement including any implementation fees, is recognized on a straight-line basis over the period in which the services are provided. For multi-element agreements where the Company provides these services, VSOE is the basis used to allocate the total fee to the elements of the arrangement.

The Company recognizes revenue on Referenceware and MML licenses ratably over the term of the agreement, which matches the period the future products or services are delivered.

The Company commences the recognition of revenue from resellers upon final sale to the end user. With respect to reseller agreements with minimum commitments, the Company recognizes revenue related to the portion of the minimum commitment that exceeds the end user sales at the expiration of the commitment period.

The Company provides professional services, including instructor led training, customized content, websites, and implementation services. The Company recognizes service revenue as the services are performed.

The cost of satisfying any post contract support (PCS), which essentially represents a warranty obligation, is accrued at the time license revenue is recognized, as PCS fees are included in the annual license fee. The estimated cost of providing PCS during the agreements is insignificant and the Company does not offer it separately. The accrued PCS costs are included in deferred revenue in the accompanying consolidated balance sheets.

The Company records deferred revenue when either cash is received or amounts have been billed in advance of products or services provided. Deferred revenue includes the unrecognized portion of revenue associated with license fees for which the Company has received payment or for which amounts have been billed and are currently due for payment in 180 days or less. In addition, deferred revenue includes amounts which have been billed and not collected for which revenue is being recognized ratably over the license period. In addition, the Company acquired approximately \$47 million of deferred revenue in connection with the Merger based upon the cost to fulfill the remaining contractual and performance obligations plus a normal operating profit on fulfilling such obligations. As of April 30, 2003, \$10.1 million of deferred revenue relates to the remaining balance of acquired deferred revenue.

5. ACCOUNTING FOR STOCK-BASED COMPENSATION

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

The Company accounts for its stock-based employee compensation plans under the recognition and measurement principles of Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees," (APB No. 25) and related Interpretations under APB No. 25. The Company provides pro forma disclosures only of the compensation expense determined under the fair value provisions of SFAS No. 123, "Accounting for Stock-Based Compensation" (SFAS No. 123).

SFAS No. 123 requires the measurement of the fair value of stock options to employees to be included in the statements of operations or disclosed in the notes to financial statements. The Company elected the disclosure-only alternative under SFAS No. 123, which requires disclosure of the pro forma effects on earnings as if the fair-value-based method of accounting under SFAS No. 123 had been adopted, as well as certain other information. In accordance with SFAS No. 148, "Accounting for Stock-Based Compensation-Transition and Disclosure" (SFAS No. 148), the Company has computed the pro forma disclosures required under SFAS No. 123 for options granted using the Black-Scholes option-pricing model prescribed by SFAS No. 123. The weighted average information and assumptions used for the grants is as follows:

	THREE MONTHS ENDED APRIL 30,	
	2003	2002
Risk-free interest rates.....	3.34-3.60%	4.71-5.14%
Expected dividend yield.....	--	--
Volatility factor.....	103%	104%
Expected lives.....	7 years	7 years
Weighted average fair value of options granted.....	\$ 2.31	\$ 8.01
Weighted average remaining contractual life of options outstanding.....	8.15 years	8.83 years

Had compensation expense for its plans been determined consistent with SFAS No. 123, the Company's net loss and basic and diluted net loss per share would have been increased to the following pro forma amounts (in thousands, except per share data):

	THREE MONTHS ENDED APRIL 30,	
	2003	2002
Net income (loss) --		
As reported.....	\$ (12,575)	\$ 282
Add: Stock-based compensation expense recognized under APB No. 25.....	490	351
Less: Total stock-based compensation expense		

-8-

determined under fair value based method for all awards.....	(1,259)	(3,962)
--	---------	---------

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

Pro forma.....	----- \$(13,344) =====	----- \$ (3,329) =====
Basic and diluted net income (loss) per share --		
As reported.....	\$ (0.13) =====	\$ 0.01 =====
Pro forma.....	\$ (0.13) =====	\$ (0.08) =====

Because additional option grants are expected to be made in future periods, the above pro forma disclosures may not be representative of pro forma effects on results for future periods.

6. BUSINESS COMBINATION

SKILLSOFT CORPORATION

On September 6, 2002, the Company completed the Merger with SkillSoft Corporation, a leading provider of e-Learning courseware and Referenceware for business and IT professionals. As a result of the Merger, each issued and outstanding share of common stock, par value \$0.001 per share, of SkillSoft Corporation (the SkillSoft Common Stock) was automatically converted into the right to receive 2.3674 (the Exchange Ratio) validly issued and fully paid ordinary shares, nominal value E0.11 per share, of the Company, with each ordinary share represented by an American Depository Share of the Company (ADS). The Company also assumed each outstanding option to purchase SkillSoft Common Stock, which had been granted under SkillSoft Corporation's existing stock option plans, under the same exchange ratio. As discussed in Note 1, the Company determined SkillSoft Corporation to be the acquirer for accounting purposes. Therefore, the calculation of the stock consideration is calculated based on SmartForce ordinary shares and options outstanding. Consequently, this transaction resulted in the issuance of approximately 57.4 million ordinary shares (represented by ADSs) of the Company with a fair value of approximately \$317.4 million, the assumption of options to purchase approximately 15.7 million ordinary shares (represented by ADSs) with a Black-Scholes fair value of approximately \$38.9 million, and estimated direct transaction costs of \$15.4 million. The number of ordinary shares issued and options assumed was fixed in the agreement related to the Merger and was not subject to change prior to closing. The fair value of the Company's ADSs was derived using a market price per ADS of \$5.53, which was based on an average of the closing prices for a range of six trading days around the announcement date (June 10, 2002) of the acquisition. The Company paid a premium to obtain a broader distribution channel and a stronger presence in the e-Learning sector. Immediately following the Merger, the former stockholders of SkillSoft Corporation owned approximately 42% of the outstanding ordinary shares of the Company.

Subsequent to the Merger, certain accounting matters were identified relating to the historical financial statements of SmartForce PLC (which, following the Merger, are no longer the Company's historical financial statements - see Note 1.) On November 19, 2002, the Company announced its intent to restate the SmartForce PLC historical financial statements for 1999, 2000, 2001 and the first two quarters of 2002. Although the aforementioned analysis has not yet been completed, management does not believe the impact of such revisions to the purchase price and its allocation, if any, will have a material impact on the consolidated financial position or results of operations of the Company.

7. RESTRUCTURING AND OTHER NON-RECURRING CHARGES

MERGER AND EXIT COSTS

In connection with the Merger, the Company's management approved and initiated

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

plans prior to December 31, 2002 to restructure the operations of pre-Merger SmartForce PLC to eliminate redundant facilities and headcount, reduce cost structure, and better align the Company's operating expenses with existing economic conditions. Consequently, the Company recorded \$30.3 million of costs relating to exiting activities of pre-Merger SmartForce PLC, such as severance and related benefits, costs to vacate leased facilities and other pre-Merger liabilities. These costs were accounted for under EITF 95-3, "Recognition of Liabilities in Connection with Purchase Business Combinations." These costs were recognized as a liability assumed in the purchase business combination and included in the allocation of the purchase price, and have been included as an increase to goodwill.

The reductions in employee headcount totaled approximately 632 employees from the administrative, sales, marketing and development functions, and amounted to a charge of approximately \$14.5 million. Approximately \$10.6 million was paid out against the exit plan accrual through April 30, 2003, and the remaining amount of \$1.8 million, net of adjustments, is expected to be paid by October 2003.

In connection with the exit plan, the Company decided to abandon or downsize certain leased facilities. For the year ended January 31, 2003, facilities consolidation charges of \$12.7 million, consisting of sublease losses, broker commissions and other facility costs, were recorded in connection with the downsizing and closing of sites. As of April 30, 2003, 8 sites had been vacated and 3 sites had been downsized and actions related to the remaining identified sites are scheduled to occur by the end of fiscal 2004. To determine the sublease loss, which is the loss after the Company's cost recovery efforts from subleasing the building, certain assumptions were made related to the (1) time period over which the property will remain vacant, (2) sublease terms and (3) sublease rates. The lease loss is an estimate under SFAS No. 5 "Accounting for Contingencies" and represents the low end of the range and will be adjusted in the future upon triggering events including a change in estimate of time to sublease, actual sublease rates, etc. The Company has estimated that the high end of the lease loss could be \$16.4 million if operating lease rental rates continue to decrease in these markets or should it take longer than expected to find a suitable tenant to sublease the facility.

During the quarter ended April 30, 2003, activity in the Company's merger and exit costs, which are included in accrued expenses (see Note 15), was as follows (in thousands):

-9-

	Employee Severance and Related Costs	Closedown of Facilities	Other	Total
	-----	-----	-----	-----
Merger and exit accrual				
January 31, 2003	\$ 5,967	\$ 11,383	\$ 1,209	\$18,559
Payments made during the				
quarter ended April 30, 2003	(2,039)	(1,085)	(83)	(3,207)
Adjustment to accrual	(2,125)	--	--	(2,125)
	-----	-----	-----	-----
Merger and exit accrual				
April 30, 2003	\$ 1,803	\$ 10,298	\$ 1,126	\$13,227
	=====	=====	=====	=====

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

The adjustment to the merger and exit accrual was due to the settlement of certain liabilities at amounts less than initially recorded.

The Company anticipates that the remainder of the merger and exit accrual will be paid out by October 2011 as follows (in thousands):

Year ended January 31, 2004	\$7,399
Year ended January 31, 2005	4,317
Year ended January 31, 2006	671
Year ended January 31, 2007	260
Year ended January 31, 2008	156
Thereafter	424

Total	\$13,227
	=====

At January 31, 2003, the Company had a remaining accrual balance of approximately \$91,000 related to its acquisition of Books. This balance was paid by March 2003.

RESTRUCTURING AND OTHER NON-RECURRING CHARGES

The Company recorded a \$14.2 million restructuring charge for the year ended January 31, 2003, which was included in the statement of operations. Approximately \$10.2 million of this charge represents the compensation cost of terminated SmartForce PLC employees for services rendered from the date of the Merger through such employees' termination dates and certain other non-recurring compensation costs to terminated and continuing employees of the Company. Also included in the \$14.2 million charge are certain other non-recurring costs incurred by SkillSoft Corporation as a result of the Merger. These costs primarily consist of employee severance and related costs and contractual obligations. Payments made under these obligations through January 31, 2003 and April 30, 2003 aggregated approximately \$9.4 million and \$1.0 million, respectively.

During the three months ended April 30, 2003, the Company recorded an additional \$1.2 million of charges related to further restructuring of the pre-Merger SmartForce PLC operations. These restructuring costs included additional compensation to pre-Merger SmartForce employees as well as additional non-recurring costs as a result of the Merger.

During the quarter ended April 30, 2003, activity in the Company's restructuring provision related to the Merger was as follows (in thousands):

	Employee Severance and Related Costs -----	Contractual Obligations -----	Total -----
Restructuring provision January 31, 2003	\$ 3,254	\$1,556	\$ 4,810
Payments made during the quarter ended April 30, 2003	(1,479)	(735)	(2,214)
Restructuring charge for the quarter ended April 30, 2003	604	589	1,193
	-----	-----	-----

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

Restructuring provision			
April 30, 2003	\$ 2,379	\$1,410	\$ 3,789
	=====	=====	=====

The Company anticipates that the remainder of the restructuring accrual will be paid out by January 2004.

The restructuring charges for the three months ended April 30, 2003 would have been allocated as follows had the Company recorded the expense within the functional department of the restructured activities (in thousands):

Cost of sales	\$	--
Research and development		59
Sales and marketing		282
General and administrative		852

Total	\$	1,193
		=====

For the three months ended April 30, 2003, the Company recorded \$5.4 million in expenses related to the restatement of the historical SmartForce PLC financial statements. These expenses consisted primarily of professional fees including legal, accounting and consulting fees. The Company expects to incur additional costs in this matter which will be expensed as incurred.

8. GOODWILL AND INTANGIBLE ASSETS

On February 1, 2002, the Company adopted SFAS No. 142 "Goodwill and Other Intangible Assets." As a result, the Company will annually evaluate goodwill for impairment. The Company will also evaluate goodwill whenever events and changes in circumstances suggest that the carrying amount may not be recoverable from estimated future cash flows.

-10-

Goodwill and intangible assets are as follows (in thousands):

	April 30, 2003			January 31, 2003		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Ca A
	-----	-----	-----	-----	-----	-----
Internally developed software/courseware	\$ 25,600	\$ 4,435	\$ 21,165	\$ 25,600	\$ 2,822	\$
Customer contracts	12,500	2,681	9,819	12,500	1,888	
Trademarks and trade name	900	--	900	900	--	
	-----	-----	-----	-----	-----	-----
	39,000	7,116	31,884	39,000	4,710	
Goodwill	116,881	--	116,881	119,427	--	1
	-----	-----	-----	-----	-----	-----
	\$155,881	\$ 7,116	\$148,765	\$158,427	\$ 4,710	\$1
	=====	=====	=====	=====	=====	=====

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

The change in goodwill at April 30, 2003 from the amount recorded at January 31, 2003 was due to the settlement of certain liabilities at amounts less than initially recorded and collections of accounts receivable in excess of the estimated realizable value at the purchase date.

Amortization expense for the three months ended April 30, 2003 and the fiscal year ended January 31, 2003 is as follows (in thousands):

	Three Months Ended April 30, 2003 -----	Fiscal Year Ended January 31, 2003 -----
Internal developed software/courseware	\$ 1,613	\$ 2,805
Customer contracts	793	1,878
	-----	-----
	\$ 2,406	\$ 4,683
	=====	=====

Amortization expense for the next five fiscal years is expected to be as follows: (in thousands):

Fiscal Year	Amortization Expense
2004	\$ 9,623
2005	8,996
2006	8,316
2007	4,686
2008	1,248
Thereafter	521

The Company will be conducting its annual impairment test of goodwill in the fourth quarter of the fiscal year ending January 31, 2004.

9. COMPREHENSIVE INCOME (LOSS)

SFAS No. 130, "Reporting Comprehensive Income", requires disclosure of all components of comprehensive income (loss) on an annual and interim basis. Comprehensive income (loss) is defined as the change in equity of a business enterprise during a period resulting from transactions, other events and circumstances from non-owner sources. The components of comprehensive income (loss) for the three months ended April 30, 2003 and 2002 are as follows:

	THREE MONTHS ENDED April 30, 2003	2002 -----
Comprehensive income (loss):		
Net income (loss)	\$ (12,575)	\$ 282
Other comprehensive loss -		
Foreign currency adjustment	(18)	(32)
Unrealized holding gains during the period	158	--

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

Less: reclassification adjustment for gains included in net income	(1,984)	--
	-----	-----
Comprehensive income (loss)	\$ (14,419)	\$ 250
	=====	=====

10. NET INCOME (LOSS) PER SHARE

Basic net income (loss) per share was computed using the weighted average number of shares outstanding during the period. Diluted net income (loss) per share was computed by giving effect to all dilutive potential shares outstanding. Basic and diluted net loss per share for the three months ended April 30, 2003 are the same as outstanding options, and unvested restricted shares, which aggregated 24,958,985 shares, are antidilutive as the

-11-

Company has recorded a net loss for the period. As a result of the reverse acquisition, historical SkillSoft Corporation shares have been restated into SmartForce ADSs using the exchange ratio of one SkillSoft Corporation share per 2.3674 SmartForce ADSs. Historical SkillSoft Corporation shares for all periods presented have been adjusted to reflect this exchange ratio. Basic net income (loss) per share and diluted net loss per share are calculated using the following:

	THREE MONTHS ENDED APRIL 30, 2003	2002
	-----	-----
Basic weighted average shares outstanding	99,599,477	41,114,243
Effect of dilutive shares outstanding	--	2,097,213
	-----	-----
Weighted average common shares outstanding, as adjusted	99,599,477	43,211,456

-12-

11. INCOME TAXES

The Company operates as a holding company with operating subsidiaries in several countries and each subsidiary is taxed based on the laws of the jurisdiction in which it operates.

The Company has significant net operating loss (NOL) carryforwards, which are subject to potential limitations based upon change in control provisions of Section 382 of the Internal Revenue Code, as amended.

The provision for income taxes in the three month period ended April 30, 2003 of \$229,000 relates to income generated in foreign countries which cannot be offset through loss carryforwards.

12. COMMITMENTS AND CONTINGENCIES

See Part II - Item 1, entitled "Legal Proceedings", for a description of litigation involving the Company.

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

13. DISCLOSURES ABOUT SEGMENTS OF AN ENTERPRISE

The Company follows the provisions of SFAS No. 131, "Disclosures About Segments of an Enterprise and Related Information" (SFAS No. 131). SFAS No. 131 established standards for reporting information regarding operating segments in annual financial statements and requires selected information for those segments to be presented in interim financial reports issued to stockholders. SFAS No. 131 also established standards for related disclosures about products and services and geographic areas. Operating segments are identified as components of an enterprise about which separate discrete financial information is available for evaluation by the chief operating decision maker, or decision-making group, in making decisions of how to allocate resources and assess performance. The Company's chief operating decision makers, as defined under SFAS No. 131, are the Chief Executive Officer and the Chief Financial Officer. Prior to the Merger, the Company had viewed its operations and managed its business as principally one operating segment. Subsequent to the Merger, the Company has viewed its operations and manages its business as principally two operating segments -- multi-modal learning and retail certification.

Revenue for the three months ended April 30, 2003 for the multi-modal learning and retail certification segments was \$41.3 million and \$2.3 million, respectively. The net loss for the three months ended April 30, 2003 for the multi-modal learning and retail certification segments was \$11.1 million and \$1.5 million, respectively.

The Company attributes revenues to different geographical areas on the basis of the location of the customer. Revenues by geographic area are as follows (in thousands):

	THREE MONTHS ENDED APRIL 30,	
	2003	2002
Revenue:		
United States.....	\$36,640	\$11,530
United Kingdom.....	1,962	1,482
Canada.....	945	358
Europe, excluding UK.....	3,347	--
Australia/New Zealand.....	616	435
Other (Countries less than 5% individually, by Region).....	103	--
Total revenue.....	\$43,613	\$13,805
	=====	=====

Long-lived tangible assets at international facilities are not significant. There have been no material changes in total assets of either the multi-modal learning or retail certification segments from the amount reported at January 31, 2003.

14. OTHER MATTERS

In June 2003, the Company acquired the assets of GoTrain Corp., an e-Learning business, for approximately \$5 million in cash, which was paid in the second quarter of the fiscal year.

In June 2003, the Company reached an agreement with IP Learn relating to an alleged infringement of certain patent related matters. Under the terms of the

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

agreement, the Company is required to make a cash payment and issue ordinary shares (which will be represented by restricted ADSs) to IP Learn. The Company has recorded a provision of \$2,250,000, which is net of expected insurance proceeds, in general and administrative expenses as of April 30, 2003. Amounts due under this agreement will be paid in the second quarter.

15. ACCRUED EXPENSES

Accrued expenses in the accompanying condensed combined balance sheet consist of the following (in thousands):

	April 30, 2003	January 31, 2003
	-----	-----
Accrued compensation and benefits	\$ 7,343	\$ 16,655
Professional fees	13,526	10,121
Accrued merger related costs	6,972	12,304

-13-

Accrued accounts payable	4,695	8,300
Other	15,007	12,441
	-----	-----
Total Accrued Expenses	\$ 47,543	\$ 59,821
	=====	=====

16. RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In April 2002, the Financial Accounting Standards Board (FASB) issued SFAS No. 145, "Rescission of Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections." Under SFAS No. 145, gains and losses on extinguishments of debt are to be classified as income or loss from continuing operations rather than extraordinary items. The Company was required to adopt SFAS No. 145 in the first quarter of the fiscal year ended January 31, 2004 and the adoption of this statement did not have a material impact on its financial condition or results of operations.

In July 2002, the FASB issued Statement of Financial Accounting Standards SFAS No. 146, "Accounting for Costs Associated with Exit or Disposal Activities." The statement requires companies to recognize costs associated with exit or disposal activities when they are incurred rather than at the date of a commitment to exit or disposal plan. Costs covered by SFAS No. 146 include lease termination costs and certain employee severance costs that are associated with a restructuring, branch closing, or other exit disposal activity. This statement is effective for exit or disposal activities initiated after December 31, 2002. SFAS No. 146 may affect the timing of the Company's recognition of future exit or disposal costs, if any.

In November 2002, the FASB issued Interpretation No. 45 (FIN No. 45), "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others." FIN No. 45 requires a guarantor to record certain guarantees at fair value and to make significant new disclosures, even when the likelihood of making any payments under the guarantee is remote. The interpretation and its disclosure requirements are effective for

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

financial statements of interim or annual periods ending after December 15, 2002. The interpretation's initial recognition and initial measurement provisions are applicable on a prospective basis to guarantees issued or modified after December 31, 2002. The guarantor's previous accounting for guarantees issued prior to December 31, 2002 should not be revised or restated due to the adoption of this interpretation. The adoption of FIN No. 45 did not have a material impact on the Company's financial condition or results of operations.

-14-

In January 2003, the FASB issued Interpretation No. 46 (FIN No. 46), "Consolidation of Variable Interest Entities," which requires the consolidation of a variable interest entity, as defined, by its primary beneficiary. Primary beneficiaries are those companies that are subject to a majority of the risk of loss or entitled to receive a majority of the entity's residual returns, or both. In determining whether it is the primary beneficiary of a variable interest entity, an entity with a variable interest shall treat variable interests in that same entity held by its related parties as its own interests. The Company is currently evaluating the existence of variable interest entities, if any, and the impact of adopting the interpretation on the consolidated financial statements.

In January 2003, the FASB issued SFAS No. 148, "Accounting for Stock-Based Compensation-Transition and Disclosure," an amendment of SFAS No. 123, which provides alternative methods of transition for a voluntary change to fair value based method of accounting for stock-based employee compensation. In addition, SFAS No. 148 amends the disclosure requirements of SFAS No. 123 to require prominent disclosures in annual financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results. The Company has elected to continue to account for stock-based compensation under APB No. 25, and related Interpretations under FIN 44 and elect the disclosure-only alternative under SFAS No. 123 and the enhanced disclosures as required by SFAS No. 148.

ITEM 2. - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Any statement in this Quarterly Report on Form 10-Q about our future expectations, plans and prospects, including statements containing the words "believes," "anticipates," "plans," "expects," "will" and similar expressions, constitute forward-looking statements within the meaning of The Private Securities Litigation Reform Act of 1995. Actual results may differ materially from those indicated by such forward-looking statements as a result of various important factors, including those set forth in this Item 2 under the heading "Future Operating Results".

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our financial statements and notes appearing elsewhere in this Quarterly Report on Form 10-Q.

OVERVIEW

We are the result of the merger of SmartForce PLC (SmartForce or SmartForce PLC) and SkillSoft Corporation. The new combined SkillSoft PLC is a global leader in corporate e-Learning and brings together SmartForce's leading portfolio of IT e-Learning content with SkillSoft Corporation's extensive suite of business skills e-Learning courseware, as well as its information technology (IT) and business Referenceware libraries.

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

The merger of SmartForce and SkillSoft Corporation (the Merger) closed on September 6, 2002. For accounting purposes, the Merger was accounted for as a reverse acquisition, with SkillSoft Corporation as the accounting acquirer. The historical financial statements of SkillSoft Corporation have become our historical financial statements, and the results of operations of SkillSoft PLC (formerly known as SmartForce PLC) are included in our results of operations only from September 6, 2002. For accounting purposes, the purchase price was approximately \$371.7 million which consisted of the value of stock and options issued, and transaction and merger costs. The excess purchase price over the net tangible assets was primarily allocated to goodwill, content and customer base.

A primary reason for the increase in our revenue and operating expenses from the three months ended April 30, 2002 to the three months ended April 30, 2003 is the inclusion of the operating results of SkillSoft PLC. We operate as two reporting segments: multi-modal learning and retail certification. These reporting units are not discussed separately as the impact on the comparison of financial results from period to period is not significant.

We are a leading global provider of comprehensive, multi-modal e-Learning content and software products for business and IT professionals. Multi-modal learning (MML) solutions offer powerful tools to support and enhance the speed and effectiveness of both formal and informal learning processes. MML solutions integrate our in-depth courseware, learning management platform technology and support services to meet our customers' learning needs.

We derive revenue primarily pursuant to license agreements under which customers license our products and services. The pricing for our courses varies based upon the number of course titles or the courseware bundle licensed by a customer, the number of users within the customer's organization and the length of the license agreement (generally one, two or three years). Our license agreements permit customers to exchange course titles, generally on the contract anniversary date. Additional product features, such as hosting and on-line mentoring services, are separately licensed for an additional fee.

The pricing for our MML licenses varies based on the content offering selected by the customer, the number of users within the customer's organization and the length of the license agreement. Our MML license provides customers access to a full range of learning products including courseware, Referenceware, simulations, mentoring and prescriptive assessment.

A Referenceware license from Books gives users access to the full library within one or more collections (ITPro, BusinessPro, FinancePro and OfficeEssentials). Generally, the pricing for our Referenceware licenses varies based on the collections specified by a customer, the number of users within the customer's organization and the length of the license agreement.

We offer discounts from our ordinary pricing, and purchasers of licenses for larger numbers of courses, for larger user bases or for longer periods generally receive discounts. Generally, customers may amend their license agreements, for an additional fee, to gain access to additional courses or product lines and/or to increase the size of the user base. We also derive revenue from hosting fees for clients that use our solutions on an Application Service Provider (ASP) basis, on-line mentoring services and professional services. In selected circumstances, we derive revenue on a pay-for-use basis under which some customers are charged based on the number of courses accessed by users. Revenue derived from pay-for-use contracts has been minimal to date.

We generally bill the annual license fee for the first year of a multi-year agreement in advance. We recognize revenue with respect to courseware licenses either at the time of delivery of products or over the term of the contract, depending on products included in the license and specific contract terms. In the event that the

customer specifies all licensed courses to be delivered at the outset and those courses are available and delivered on or before the contract start date, we recognize license revenue for the first year of the contract upon execution of the contract and delivery of the courses. We generally bill license fees for subsequent years of multi-year license arrangements on the anniversary date of the agreement, and if the customer exchanges courses and receives the exchanged courses by the renewal date, revenue is recognized in the manner described above.

In some circumstances, we offer payment terms of up to six months from the initial shipment date or anniversary date for multi-year agreements to our customers. To the extent that a customer is given extended payment terms, revenue is recognized as cash becomes due, assuming all of the other elements of revenue recognition have been satisfied.

We recognize revenue ratably over the license period if the number of courses that a customer has access to is not clearly defined, available, or selected at the inception of the contract, or if the contract has additional undelivered elements for which we do not have vendor specific objective evidence (VSOE) of the fair value of the various elements. This may occur if the customer does not specify all licensed courses at the outset, the customer chooses to wait for future licensed courses on a when and if available basis, the customer is given exchange privileges that are exercisable other than on the contract anniversaries, or the customer licenses all courses currently available and to be developed during the term of the arrangement. A majority of our contractual arrangements result in the recognition of revenue ratably over the license period.

We also derive revenue from extranet hosting/ASP services and online mentoring services. We recognize revenue related to extranet hosting/ASP services and online mentoring services on a straight-line basis over the period in which the service agreements are provided to the extent we have VSOE for those services. If we do not have VSOE for these services, revenue from the entire arrangement, including any implementation fees, is recognized on a straight-line basis over the period in which the services are provided. For multi-element agreements where we provide these services, VSOE is the basis used to allocate the total fee to the elements of the arrangement.

We recognize revenue on Referenceware and MML licenses ratably over the term of the agreement, which matches the period the future products or services are delivered.

We commence the recognition of revenue from resellers upon the final sale to the end user. With respect to reseller agreements with minimum commitments, we recognize revenue related to the portion of the minimum commitment that exceeds end user sales at the expiration of the commitment period.

We provide professional services, including instructor led training, customized content, websites and implementation services. We recognize professional service revenue as the services are performed. The cost of satisfying any post contract support (PCS), which essentially represents a warranty obligation, is accrued at the time license revenue is recognized, as PCS fees are included in the annual license fee. The estimated cost of providing PCS during the agreements is insignificant and we do not offer it separately. The accrued PCS costs are included in deferred revenue in the accompanying consolidated balance sheets.

We record deferred revenue when either cash is received or amounts have been

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

billed in advance of products or services provided. Deferred revenue includes the unrecognized portion of revenue associated with license fees for which we have received payment or for which amounts have been billed and are currently due for payment in 180 days or less. In addition, deferred revenue includes amounts, which have been billed and not collected, for which revenue is being recognized ratably over the license period. In addition, in connection with the Merger, we acquired approximately \$47 million of deferred revenue which was valued based upon the estimated cost to fulfill the remaining contractual and performance obligations plus a normal operating profit on fulfilling such obligations.

Cost of revenue includes the cost of materials (such as storage media), packaging, shipping and handling, CD duplication the cost of online mentoring and hosting services, royalties and certain infrastructure and occupancy expenses. We generally recognize these costs as incurred. Research and development expenses consist primarily of salaries and benefits, certain infrastructure and occupancy expenses, fees to consultants and course content development fees. We account for software development costs in accordance with SFAS No. 86, "Accounting for the Costs of Computer Software to be Sold, Leased or Otherwise Marketed," which requires the capitalization of certain computer software development costs incurred after technological feasibility is established. To date, development costs after establishment of technological feasibility have been immaterial, and we have expensed all software development costs as incurred. Selling and marketing expenses consist primarily of salaries, commissions and benefits, advertising and promotion, travel and certain infrastructure and occupancy expenses. General and administrative expenses consist primarily of salaries and benefits, consulting and service expenses, legal expenses, other public company costs and certain infrastructure and occupancy expenses.

Deferred compensation consists of two components: (1) the value of unvested options assumed in the Books acquisition and the Merger, and (2) the aggregate difference between the exercise or sale price of common stock options granted or restricted common stock sold during the year ended January 31, 2000 and the fair market value of the common stock as determined for accounting purposes. The deferred compensation is amortized over the vesting period of the underlying stock option or stock.

Amortization of intangibles represents the amortization of intangibles, such as customer value and content, from the Books acquisition and the Merger.

Restructuring and other non-recurring charges primarily consist of compensation cost of severed SmartForce employees for services rendered from the date of the Merger through April 30, 2003 and prior to such employees' termination dates and certain other non-recurring compensation costs to terminated and continuing employees. Additionally, these charges include expenses associated with the pending restatement of SmartForce's financial statements for 1999, 2000, 2001 and the first two quarters of 2002. See Note 7 of the Notes to the Condensed Consolidated Financial Statements.

CRITICAL ACCOUNTING POLICIES

Our significant accounting policies are more fully described in Note 2 of the Notes to the Consolidated Financial Statements in our Annual Report on Form 10-K. However, we believe the accounting policies described below are particularly important to the portrayal and understanding of our financial position and results of operations and require application of significant judgment by our management. In applying these policies, management uses its judgment in making certain assumptions and estimates.

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

REVENUE RECOGNITION

We recognize revenue in accordance with American Institute of Certified Public Accountants (AICPA) Statement of Position (SOP) No. 97-2 "Software Revenue Recognition," as amended by SOP No. 98-4 and SOP No. 98-9. Additionally, for agreements under which we are selling licenses and services, we recognize revenue under EITF 00-3 "Application of AICPA Statement of Position 97-2 to Arrangements That Include the Right to Use Software Stored on Another's Hardware" and Staff Accounting Bulletin No. 101 "Revenue Recognition." These statements require that four basic criteria must be satisfied before revenue can be recognized:

- Persuasive evidence of an arrangement between us and a third party exists;
- Delivery of our product has occurred;
- The sales price for the product is fixed or determinable; and
- Collection of the sales price is probable.

Our management uses its judgment concerning the satisfaction of these criteria, particularly the criteria relating to the determination of when delivery has occurred and the criteria relating to the collectibility of the receivables relating to such sales. Should changes and conditions cause management to determine that these criteria are not met for certain future transactions, revenue recognized for any period could be adversely affected. However, this is mitigated by the fact that the majority of our revenue is recognized ratably over the term of the respective license. Please see the discussion under the "Overview" section concerning how we recognize revenue.

IMPAIRMENT OF GOODWILL

We review the carrying value of goodwill periodically based upon the expected future and discounted operating cash flows of our business. Our cash flow estimates are based on historical results adjusted to reflect our best estimate of future markets and operating conditions. Actual results may differ materially from these estimates. The timing and size of impairment charges involves the application of management's judgment and could significantly affect our operating results. As a result of the Merger, one of our largest assets is goodwill. In response to several factors in the fourth quarter of fiscal 2003, we re-evaluated the fair value of the goodwill established in connection with the Merger and the Books acquisition and recorded an impairment charge of approximately \$250.1 million.

Legal Contingencies

We are currently involved in certain legal proceedings. In connection with these legal proceedings, which we discuss in Part II -- Item 1, management periodically reviews estimates of potential costs to be incurred by us in connection with the adjudication or settlement, if any, of these proceedings. These estimates are developed in consultation with our outside counsel and are based on an analysis of potential litigation outcomes and settlement strategies. In accordance with SFAS No. 5, "Accounting for Contingencies", loss contingencies are accrued if, in the opinion of management, an adverse outcome is probable and such outcome can be reasonably estimated. We do not currently have a basis for concluding that these proceedings will have a material adverse effect on our financial position; however, it is possible that future results for any particular quarter or annual period may be materially adversely affected by changes in our assumptions or the effectiveness of our strategies relating to

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

these proceedings.

RESULTS OF OPERATIONS

THREE MONTHS ENDED APRIL 30, 2003 VERSUS THREE MONTHS ENDED APRIL 30, 2002

Revenue increased \$29.8 million or 216% to \$43.6 million in the three months ended April 30, 2003 from \$13.8 million in the three months ended April 30, 2002. This increase was due primarily to the addition of revenue from SmartForce's historical customer base. To a lesser extent, this increase resulted from our new customers and increased revenue from existing customers.

Cost of revenue increased \$4.7 million or 562% to \$5.5 million in the three months ended April 30, 2003 from \$837,000 in the three months ended April 30, 2002. Cost of revenue as a percentage of total revenue was 13% for the three months ended April 30, 2003 compared to 6% for the three months ended April 30, 2002. These increases were primarily due to increased costs of supporting the SmartForce hosting business and royalty fees associated with SmartForce's IT product line and, to a lesser extent, our Referenceware product line.

Research and development increased \$9.4 or 276% to \$12.8 million in the three months ended April 30, 2003 from \$3.4 million in the three months ended April 30, 2002. Research and development expenses as a percentage of total revenue increased to 29% in the three months ended April 30, 2003 from 25% in the three months ended April 30, 2002. This increase was primarily due to the addition of SmartForce's development organization. We believe our outsourcing strategy for some of our courses provides us significant flexibility to control these costs and although we expect research and development expenses to continue to increase, we expect that they will decrease as a percentage of revenue.

Selling and marketing expenses increased \$15.9 million or 215% to \$23.3 million in the three months ended April 30, 2003 from \$7.4 million in the three months ended April 30, 2002. Selling and marketing expenses as a percentage of total revenue decreased to 53% in the three months ended April 30, 2003 from 54% in the three months ended April 30, 2002. Selling and marketing expenses increased due to the addition of SmartForce's sales and marketing organization and related costs. We believe that a significant investment in selling and marketing to expand our distribution channels worldwide is required to remain competitive, and we therefore expect selling and marketing expenses to increase in amount but decrease as a percentage of revenue.

General and administrative expenses increased \$7.1 million or 394%, to \$8.9 million in the three months ended April 30, 2003 from \$1.8 million in the three months ended April 30, 2002. General and administrative expenses as a percentage of total revenue increased to 20% in the three months ended April 30, 2003 from 13% in the three

-17-

months ended April 30, 2002. General and administrative expenses increased primarily due to the SmartForce-SkillSoft merger. These expenses also increased as a result of higher litigation costs including settlement payments, in the quarter ended April 30, 2003. We anticipate that general and administrative expenses will continue to increase in absolute dollars due primarily to increases in litigation expenses and the increased costs of operating as a public company.

Amortization of intangible assets was \$2.4 million in the three months ended April 30, 2003 and \$81,000 during the three months ended April 30, 2002. The primary reason for the increase was the additional amortization related to

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

intangibles acquired in the Merger.

Stock-based compensation expense increased to \$490,000 in the three months ended April 30, 2003 from \$351,000 in the three months ended April 30, 2002. The increase reflects additional deferred compensation expense as a result of the SmartForce-SkillSoft merger. The expense was primarily the result of amortization of deferred compensation resulting from granting of stock options to employees at exercise prices below the fair market value of the stock and the sale of restricted common stock with sales prices below the fair market value of the stock. The stock options granted and restricted stock sold at prices below fair market value of the stock were granted by SkillSoft Corporation prior to its initial public offering and by Books, prior to its acquisition by SkillSoft Corporation in December 2001.

Restructuring and other non-recurring charges were \$6.6 million in the three months ended April 30, 2003. These charges include an additional \$1.2 million related to further restructuring of the pre-Merger SmartForce PLC operations and \$5.4 million related to the pending restatement of the historical SmartForce PLC financial statements.

Interest income, net decreased to \$363,000 in the three months ended April 30, 2003 from \$414,000 in the three months ended April 30, 2002. This decrease was primarily due to lower interest rates on our cash and cash equivalents and investments.

Gain on sale of investments, net was \$3.7 million for the three months ended April 30, 2003. This was primarily related to a gain of \$3.6 million from the sale of a certain investment.

LIQUIDITY AND CAPITAL RESOURCES

As of April 30, 2003, our principal source of liquidity was our cash and cash equivalents and short-term investments, which totaled \$121.9 million.

Net cash used in operating activities was \$5.3 million and \$4.4 million for the three months ended April 30, 2003 and 2002, respectively. Our net cash used for the three months ended April 30, 2003 reflects primarily our net loss of \$12.6 million and an increase of \$10.2 million in accrued expenses. This was offset by a decrease in our accounts receivable of \$18.4 million, which was the result of increased collections.

Cash provided by investing activities was \$11.2 million and \$221,000 for the three months ended April 30, 2003 and 2002, respectively. Maturation of investments and sales of investments, net of purchases (short and long-term), generated a net cash inflow of approximately \$11.4 million in the three months ended April 30, 2003 compared to a net cash inflow of approximately \$600,000 in the three months ended April 30, 2002.

Cash provided by financing activities was \$0 and \$444,000 for the three months ended April 30, 2003 and 2002, respectively. For the three months ended April 30, 2002, these proceeds related to the exercise of stock options and purchases under the employee stock purchase plan as well as payments on notes receivable related to restricted stock.

Working capital was approximately \$25.0 million and \$31.8 million as of April 30, 2003 and January 31, 2003, respectively. Total assets were approximately \$348.2 million and \$378.1 million as of April 30, 2003 and January 31, 2003, respectively. As of April 30, 2003, goodwill and separately identifiable intangible assets were \$116.9 million and \$31.9 million, respectively.

On April 28, 2003, we signed a term sheet to obtain a \$25 million one-year, secured line of credit from a bank. We expect to execute the definitive loan

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

documents in the near future. Under the terms of the line of credit, the facility is to be initially secured by cash held in a certificate of deposit in the amount of the line, plus a first security interest in all domestic business assets. The cash held in the certificate of deposit is to be released on a quarterly basis beginning the quarter following the achievement of two consecutive minimum levels of operating income. All borrowings under the line of credit bear interest at the lesser of the bank's prime rate or the 30 or 60-day Libor rate plus 2.75%.

As of January 31, 2003, we had worldwide net operating loss carryforwards of approximately \$359 million for income tax purposes available to reduce future income taxes, if any.

We lease certain of our facilities and certain equipment and furniture under operating lease agreements that expire at various dates through 2023. Future minimum lease payments, net of estimated rentals, under these agreements are as follow (in thousands):

FISCAL YEAR ENDING JANUARY 31: -----	FACILITIES -----	OTHER -----	TOTAL -----
2004.....	\$ 6,051	\$1,695	\$ 7,746
2005.....	5,291	814	6,105
2006.....	4,098	77	4,175
2007.....	3,344	12	3,356
2008.....	3,199	2	3,201
Thereafter.....	11,366	--	11,366

We have entered into long-term agreements with third parties to provide content and subject matter expertise. In connection with these agreements, our minimum obligations are approximately \$5.8 million and \$2.3 million for the fiscal years ending January 31, 2004 and 2005, respectively.

We expect to continue to experience significant growth in capital expenditures and operating expenses,

-18-

particularly sales and marketing and product development expenses, for the foreseeable future in order to execute our business plan. To the extent that our execution of the business plan results in increased sales, we expect to experience corresponding increases in deferred revenue and prepaid expenses. We expect that the principal sources of funding for our operating expenses, capital expenditures and other liquidity needs will be a combination of our available cash equivalents and marketable securities (which totaled \$121.9 million as of April 30, 2003) and funds generated from operations. Approximately \$3.2 million was paid out during the quarter ended April 30, 2003 against the accrual established to restructure the operations of pre-Merger SmartForce PLC. Approximately \$7.4 million of the \$30.3 million exit plan accrual is expected to be paid by January 2004, and the remaining value of approximately \$5.8 million is expected to be disbursed through October 2011. In addition, in June 2003, we acquired the assets of GoTrain Corp., an e-Learning business, for approximately \$5 million in cash which was paid during the second quarter. We also reached a litigation settlement agreement in June 2003 which will require a cash payment of approximately \$1.8 million. We believe our current funds and expected cash flows from operating activities will be sufficient to fund our operations for at least the next 12 months. However, there are a number of factors that may negatively impact our available sources of funds including unfavorable outcomes

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

or settlements of pending litigation. The amount of cash generated from operations will be dependent upon the successful execution of our business plan and worldwide economic conditions. In addition, our cash needs may increase due to factors such as unanticipated developments in our business or significant acquisitions.

RECENT ACCOUNTING PRONOUNCEMENTS

In April 2002, the Financial Accounting Standards Board (FASB) issued SFAS No. 145, "Rescission of Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections." Under SFAS No. 145, gains and losses on extinguishments of debt are to be classified as income or loss from continuing operations rather than extraordinary items. We were required to adopt SFAS No. 145 in the first quarter of fiscal 2004 and the adoption of this statement did not have a material impact on our financial condition or results of operations.

In July 2002, the FASB issued Statement of Financial Accounting Standards SFAS No. 146, "Accounting for Costs Associated with Exit or Disposal Activities." The statement requires companies to recognize costs associated with exit or disposal activities when they are incurred rather than at the date of a commitment to exit or disposal plan. Costs covered by SFAS No. 146 include lease termination costs and certain employee severance costs that are associated with a restructuring, branch closing, or other exit disposal activity. This statement is effective for exit or disposal activities initiated after December 31, 2002. SFAS No. 146 may affect the timing of our recognition of future exit or disposal costs, if any.

In November 2002, the FASB issued Interpretation No. 45 (FIN No. 45), "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others." FIN No. 45 requires a guarantor to record certain guarantees at fair value and to make significant new disclosures, even when the likelihood of making any payments under the guarantee is remote. The interpretation and its disclosure requirements are effective for financial statements of interim or annual periods ending after December 15, 2002. The interpretation's initial recognition and initial measurement provisions are applicable on a prospective basis to guarantees issued or modified after December 31, 2002. The guarantor's previous accounting for guarantees issued prior to December 31, 2002 should not be revised or restated due to the adoption of this interpretation. The adoption of FIN No. 45 did not have a material impact on our financial condition or results of operations.

In January 2003, the FASB issued Interpretation No. 46 (FIN No. 46), "Consolidation of Variable Interest Entities," which requires the consolidation of a variable interest entity, as defined, by its primary beneficiary. Primary beneficiaries are those companies that are subject to a majority of the risk of loss or entitled to receive a majority of the entity's residual returns, or both. In determining whether it is the primary beneficiary of a variable interest entity, an entity with a variable interest shall treat variable interests in that same entity held by its related parties as its own interests. We are currently evaluating the existence of variable interest entities, if any, and the impact of adopting the interpretation on the consolidated financial statements.

In January 2003, the FASB issued SFAS No. 148, "Accounting for Stock-Based Compensation-Transition and Disclosure," an amendment of SFAS No. 123, which provides alternative methods of transition for a voluntary change to fair value based method of accounting for stock-based employee compensation. In addition, SFAS No. 148 amends the disclosure requirements of SFAS No. 123 to require prominent disclosures in annual financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results. We have elected to continue to account for stock-based compensation under APB No. 25, and related Interpretations under FIN 44 and

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

elect the disclosure-only alternative under SFAS No. 123 and the enhanced disclosures as required by SFAS No. 148.

-19-

FUTURE OPERATING RESULTS

RISKS RELATED TO LEGAL PROCEEDINGS

IN CONNECTION WITH OUR RESTATEMENT OF THE HISTORICAL FINANCIAL STATEMENTS OF SMARTFORCE, CLASS ACTION LAWSUITS HAVE BEEN FILED AGAINST US AND ADDITIONAL LAWSUITS MAY BE FILED, AND WE ARE THE SUBJECT OF A FORMAL ORDER OF PRIVATE INVESTIGATION ENTERED BY THE SEC.

While preparing the closing balance sheet of SmartForce as at September 6, 2002, the date on which we closed our merger with SkillSoft Corporation, certain accounting matters were identified relating to the historical financial statements of SmartForce (which, following the Merger, are no longer our historical financial statements -- see Note 1 of the Notes to the Consolidated Financial Statements). On November 19, 2002, we announced our intent to restate the SmartForce financial statements for 1999, 2000, 2001 and the first two quarters of 2002. Following this announcement, six lawsuits claiming to be class actions were commenced against us and certain of our current and former directors and officers, by or on behalf of persons claiming to be our shareholders and persons claiming to have purchased or otherwise acquired our securities at specified periods beginning as early as October 19, 1999 and continuing after September 6, 2002. These lawsuits have been consolidated. Additional lawsuits may be filed against us. Regardless of the outcome of the consolidated action, it is likely that we will incur substantial defense costs and that such actions will cause a diversion of our management's time and attention. If we do not prevail in the case we could be required to pay substantial damages or settlement costs, which could have a material adverse effect on our financial condition or results of operation. We are unable at this time to assess the validity of the claims or estimate the possible range of damages that might be incurred as a result of the consolidated lawsuit. We have not yet established any financial reserves relating to this lawsuit. We believe that we have meritorious defenses to these actions and intend to defend ourselves vigorously.

We are the subject of a formal order of private investigation entered by the SEC. We are cooperating with the SEC in connection with this investigation. We will likely incur substantial costs in connection with the SEC investigation, which could cause a diversion of management time and attention. In addition, we could be subject to substantial penalties, fines or regulatory sanctions, which could adversely affect our business.

WE HAVE MISSED THE DEADLINE FOR THREE RECENT SEC FILINGS, WHICH HAS SEVERAL ADVERSE CONSEQUENCES FOR US.

Our Quarterly Report on Form 10-Q for the quarter ended October 31, 2002 and our Annual Report on Form 10-K for the year ended January 31, 2003 were filed with the SEC after their due dates. In addition, we were required to file an amendment to our Current Report on Form 8-K relating to the SmartForce-SkillSoft Corporation merger by November 22, 2002, and that amendment has not yet been filed. Until we file our Form 8-K amendment, we will not be able to have a registration statement under the Securities Act of 1933, covering a public offering of securities, declared effective by the SEC, and we will not be able to make offerings pursuant to existing registration statements (including registration statements on Form S-8 covering employee stock plans), or pursuant to certain "private placement" rules of the SEC under Regulation D, to any

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

purchasers not qualifying as "accredited investors". In addition, our affiliates will not be able to sell our securities pursuant to Rule 144 under the Securities Act until the Form 8-K amendment is filed. Finally, we will not be eligible to use a "short form" registration statement on Form S-3 for a period of 12 months after the time our Form 8-K amendment is filed. These restrictions may impair our ability to raise funds, should we desire to do so, through an equity financing and to attract and retain key employees.

OUR WHOLLY OWNED SUBSIDIARY, SKILLSOFT CORPORATION AND SEVERAL OF ITS EXECUTIVES, THREE OF ITS KEY EMPLOYEES AND A FORMER MAJOR INVESTOR OF SKILLSOFT CORPORATION ARE DEFENDANTS IN LITIGATION WITH NETG WHICH ALLEGES, AMONG OTHER THINGS, MISAPPROPRIATION OF TRADE SECRETS; THIS LITIGATION WILL CONTINUE TO BE COSTLY, MAY DIVERT THE EFFORTS OF OUR MANAGEMENT AND MAY ULTIMATELY RESTRICT OUR ABILITY TO DO BUSINESS.

Our wholly owned subsidiary, SkillSoft Corporation, several of its executives, three of its key employees and its former largest investor are defendants in a lawsuit brought by National Education Training Group, Inc. (NETg), the former employer of these individuals. NETg alleges in substance that various of the defendants breached their fiduciary and contractual obligations to NETg in connection with the organization and operation of SkillSoft Corporation, misappropriated trade secrets from NETg, tortiously interfered with NETg's business and employees and breached provisions of a license agreement with NETg relating to the use of its software. NETg maintains that the trade secrets allegedly misappropriated by SkillSoft Corporation and the other defendants include, among other things:

- various aspects of the design and functionality of its education and training software and products;
- customer lists and information;
- relationships with service providers; and
- NETg's soft skills product line business plan.

The claims seek injunctive relief against the defendants demanding the return, and no future use by these defendants, of the alleged trade secrets. The claims also seek compensatory damages of \$400 million and exemplary damages in the additional amount of \$400 million, compensatory, incidental and consequential damages in an unspecified amount and punitive damages totaling \$50 million or such other amount as the court deems just or appropriate. In answers to interrogatories served on NETg, an expert witness retained by NETg opined that NETg may, based on certain assumptions provided to the expert by NETg's counsel, be entitled to two categories of damages for lost profits of up to \$386.8 million and damages for unjust enrichment which could total up to \$616.3 million. Named as defendants in the lawsuit, in addition to SkillSoft Corporation, are Charles E. Moran, Jerald A. Nine, Jr., Mark A. Townsend, Lee A. Ritze, Dennis E. Brown, Sally H. Hovis, Warburg, Pincus Ventures, L.P. (Warburg), a major investor of SkillSoft Corporation, and each general partner of Warburg.

In addition, NETg also filed suit against SkillSoft Corporation in July 2000 alleging that its educational and training software products infringe a patent allegedly owned by NETg. The complaint seeks both monetary damages

-20-

and injunctive relief. SkillSoft Corporation filed an answer and a counterclaim for a declaration of invalidity of the NETg patent. On April 17, 2001 SkillSoft

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

Corporation filed a request for reexamination of the patent in suit with the United States Patent and Trademark Office (PTO). After a series of interim actions by the PTO and filings by NETg, on April 10, 2002, the PTO issued an office action rejecting all of the claims of the patent. In 2002, the lawsuit was dismissed "without prejudice with leave to reinstate upon full and final resolution of the reexamination proceedings" with the PTO. The patent owner's appeal of the PTO's Office Action rejecting all the claims of the patent remains pending.

If we do not prevail in the NETg cases it could have any or all of the following significant adverse effects on our business and financial performance:

- injunctive relief against SkillSoft Corporation, us and our officers and employees, which could significantly restrict our ability to conduct our business;
- an adverse judgment against us for monetary damages;
- a settlement on unfavorable terms to us;
- our obligations to indemnify our employees and directors for liabilities and expenses they incur in connection with the lawsuits;
- obligations to customers for breach of warranties of noninfringement; or
- a requirement to reengineer our products to avoid patent infringement, which would likely result in additional expense and delay.

In addition, these cases, regardless of their outcome, will continue to result in significant expenses in defending the lawsuits. Our legal expenses related to the defense of these lawsuits totaled approximately \$1.4 million in the fiscal year ended January 31, 2001, \$1.7 million in the fiscal year ended January 31, 2002 and \$4.3 million in the fiscal year ended January 31, 2003. Moreover, these lawsuits may divert the efforts and attention of our management team from normal business operations. While there have been certain settlement discussions between the parties in the lawsuits, at this time, the outcome of these discussions cannot be predicted. Accordingly, we have not recorded any liability related to this matter in our Consolidated Financial Statements.

PENDING AND ANY FUTURE CLAIMS THAT WE INFRINGE UPON THE INTELLECTUAL PROPERTY RIGHTS OF OTHERS COULD RESULT IN COSTLY LITIGATION OR ROYALTY PAYMENTS TO THIRD PARTIES, OR REQUIRE US TO REENGINEER OR CEASE SALES OF OUR PRODUCTS OR SERVICES.

Third parties have in the past and could in the future claim that our current or future products infringe their intellectual property rights. Any claim, with or without merit, could result in costly litigation or require us to reengineer or cease sales of our products or services, any of which could have a material adverse effect on our business. Infringement claims could also result in an injunction in the use of our products or require us to enter into royalty or licensing agreements. Licensing agreements, if required, may not be available on terms acceptable to the combined company or at all.

On June 13, 2002, Lionet Limited, a limited liability company incorporated and doing business in Ireland, filed a claim against us in Dublin, alleging, among other things, that we breached the terms of our software license agreement with Lionet Limited in that we permitted or failed to prevent the decompilation of the provided software products and have failed to cooperate in audits to determine the nature of such alleged copying or de-compilation. Lionet Limited is seeking damages for lost license fees of \$6.8 million and seeks other damages. We are in the process of reviewing the statement of claim and intend to vigorously defend ourselves in this matter.

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

From time to time we learn of parties that claim broad intellectual property rights in the e-Learning area that might implicate our offerings. These parties or others could initiate actions against us in the future.

WE ARE SUBJECT TO OTHER PENDING LEGAL PROCEEDINGS AND WE MAY BECOME SUBJECT TO ADDITIONAL LEGAL PROCEEDINGS. ADVERSE DETERMINATIONS IN THESE PROCEEDINGS COULD MATERIALLY HARM OUR BUSINESS.

Since the end of the third quarter of 1998, a class action lawsuit has been pending in the United States District Court for the Northern District of California against us, one of our subsidiaries, SmartForce USA, and certain of our former and current officers and directors, alleging violation of the federal securities laws. It has been alleged in this lawsuit that we misrepresented or omitted to state material facts regarding our business and financial condition and prospects in order to artificially inflate and maintain the price of our ADSs, and misrepresented or omitted to state material facts in our registration statement and prospectus issued in connection with our merger with Forefront, which also is alleged to have artificially inflated the price of our ADSs.

Although we cannot presently determine the outcome of this action, an adverse resolution of this matter could significantly negatively impact our financial position and results of operations. We believe that we have meritorious defenses to this action and intend to defend ourselves vigorously.

We may be from time to time involved in various lawsuits and legal proceedings, which arise in the ordinary course of business. An adverse resolution of these matters could significantly negatively impact our financial position and results of operations.

-21-

WE COULD INCUR SUBSTANTIAL COSTS RESULTING FROM PRODUCT LIABILITY CLAIMS RELATING TO OUR CUSTOMERS' USE OF OUR PRODUCTS AND SERVICES.

Many of the business interactions supported by our products and services are critical to our customers' businesses. Any failure in a customer's business interaction or other collaborative activity caused or allegedly caused in the future by our products and services could result in a claim for substantial damages against us, regardless of our responsibility for the failure. Although we maintain general liability insurance, including coverage for errors and omissions, there can be no assurance that existing coverage will continue to be available on reasonable terms or will be available in amounts sufficient to cover one or more large claims, or that the insurer will not disclaim coverage as to any future claim.

WE COULD BE SUBJECTED TO LEGAL ACTIONS BASED UPON THE CONTENT WE OBTAIN FROM THIRD PARTIES OVER WHOM WE EXERT LIMITED CONTROL.

It is possible that we could become subject to legal actions based upon claims that our course content infringes the rights of others or is erroneous. Any such claims, with or without merit, could subject us to costly litigation and the diversion of our financial resources and management personnel. The risk of such claims is exacerbated by the fact that our course content is provided by third parties over whom we exert limited control. Further, if those claims are successful, we may be required to alter the content, pay financial damages or obtain content from others.

RISKS RELATED TO THE MERGER BETWEEN SKILLSOFT CORPORATION AND SMARTFORCE

WE MAY NOT BE SUCCESSFUL IN COMPLETING FINAL ASPECTS OF THE INTEGRATION RELATED TO THE BUSINESSES OPERATED BY SKILLSOFT CORPORATION AND SMARTFORCE PRIOR TO THE

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

MERGER AND, AS A RESULT, MAY NOT REALIZE BENEFITS FROM THE MERGER.

We have substantially completed many of the key aspects of the integration of the businesses operated by SkillSoft Corporation and SmartForce prior to the Merger, which was consummated on September 6, 2002. However, the ultimate successful integration of the two businesses will require, among other things, the following:

- completion of the integration of the two companies' products and services, information and software systems and other operations;
- coordination of ongoing and future research and development efforts and marketing activities;
- retention of existing customers of both companies and attraction of additional customers;
- retention of strategic partners of each company and attraction of new strategic partners;
- developing and maintaining uniform standards, controls, procedures and policies;
- identifying and eliminating redundant and underperforming operations and assets;
- effectively leveraging our indirect sales presence;
- capitalizing on cross-selling opportunities;
- the successful migration of the companies' platforms;
- minimization of disruption of each company's ongoing business and distraction of its management;
- limiting expenses related to integration; and
- improving its internal control environment due to challenges in the integration.

We may not succeed in addressing these risks or any other problems encountered in connection with the Merger. The diversion of the attention of management and any difficulties encountered in the process of combining the companies could cause the disruption of, or a loss of momentum in, the activities of our business or could cause the impairment of relationships with customers and business partners. Further, the process of combining the two companies' businesses could negatively affect employee morale and our ability to retain some key employees, and could cause customers to cancel existing license agreements or choose not to purchase new products from us. In addition, we intend to develop new products and services that combine both companies' assets. Difficulties in combining the technology, products and service offerings of the two companies could result in disruption of customer service and longer sales cycles and product implementations, which could cause existing customers to reduce or cease doing business with us altogether, and could cause revenue and operating income to fluctuate and fail to meet expectations.

-22-

CERTAIN ASPECTS OF THE MERGER COULD HARM OUR FINANCIAL RESULTS.

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

In connection with the Merger, certain aspects of the integration of the two companies moving forward could harm our financial results. For example, we have made certain changes in contracting practices, which will have attendant accounting implications. For example, prior to the Merger, SmartForce recorded license revenues with respect to contracts that provide for perpetual licenses to software at the time that it sold the perpetual licenses. Since the Merger, we have been delivering perpetual licenses as part of a bundled offering including services. As a result, the revenue from both the perpetual licenses and services will be recognized as revenues as the services are delivered over time. This means that rather than recognizing substantial license revenue at the time of the execution of these contracts, we will now recognize license revenue ratably over the term of these contracts. In addition, due to purchase accounting in connection with the Merger, a portion of the SmartForce deferred revenue as of September 6, 2002 was reclassified to goodwill and will therefore not be recognized as revenue.

As a result of the integration, we may not obtain some revenue we otherwise might have obtained. For example, although the products and customer bases of the two companies are complementary and should provide us with numerous cross selling opportunities, we do expect some degree of commercial overlap that could negatively impact revenue. Also, we intend to de-emphasize customer service revenue activities to focus on higher margin segments of the business, which we expect will result in lost revenue. In addition, volume discounting of mutual customers now combined as a result of the Merger may result in lower revenues.

If the benefits of the Merger do not exceed the associated costs, including costs associated with integrating the two companies, lost or deferred revenues and dilution of our shareholders resulting from the issuance of our ADSs in connection with the Merger, our financial results, including earnings per share, could be materially harmed.

IF WE ARE UNABLE TO TAKE ADVANTAGE OF OPPORTUNITIES TO MARKET AND SELL THE PRODUCTS AND SERVICES OF THE TWO COMPANIES TO EACH OTHER'S TRADITIONAL CUSTOMERS, DISTRIBUTION CHANNELS AND BUSINESS PARTNERS, WE MAY NOT REALIZE SOME OF THE EXPECTED BENEFITS OF THE MERGER.

Prior to the Merger, we and SkillSoft Corporation each maintained separate and distinct customer bases, distribution channels and business partners specific to our respective businesses. Following the Merger, we are attempting to take advantage of the customer bases and distribution channels of the formerly separate businesses in order to promote and sell the products and services of one company to the traditional customers and business partners of the other company. The products and services of the two companies are highly technical and the salespersons of one company may not be successful in marketing the products and services of the other company. In the event that the traditional customers and business partners of either company are not receptive to the products and services of the other, we may not realize some of the expected benefits of the merger, and our business may be harmed.

WE ARE OPERATING UNDER A NEW NAME, WHICH MAY ADVERSELY AFFECT OUR BUSINESS.

Following the consummation of the Merger, we changed our name from SmartForce PLC to SkillSoft PLC. The adoption of this new name may prevent us from taking advantage of certain goodwill existing customers and strategic partners associate with our former name. Further, we expect to incur an expense in effecting the name change and in marketing efforts to promote brand recognition of the new name.

RISKS RELATED TO THE OPERATION OF OUR BUSINESS

WE AND SKILLSOFT CORPORATION HAVE EXPERIENCED NET LOSSES IN THE PAST, AND WE MAY BE UNABLE TO ACHIEVE OR MAINTAIN PROFITABILITY.

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

SmartForce incurred substantial net losses both recently and in the past, including net losses of \$37.7 million in the three months ended June 30, 2002 and \$19.1 million in the three months ended March 31, 2002. SkillSoft Corporation incurred substantial net losses in every fiscal quarter prior to its fiscal quarter ended January 31, 2002. In addition, the combined company recorded a net loss of \$284 million for the fiscal year ended January 31, 2003 and \$12.6 million for the quarter ended April 30, 2003. We expect to incur significant expenses in connection with the completion of the migration to a unified platform and the continued expansion of this combined business, and, as a result, the business will need to generate significant revenues to achieve and maintain profitability. We cannot guarantee whether our combined business will achieve or sustain profitability in any future period.

OUR QUARTERLY OPERATING RESULTS MAY FLUCTUATE SIGNIFICANTLY. THIS LIMITS YOUR ABILITY TO EVALUATE HISTORICAL FINANCIAL RESULTS AND INCREASES THE LIKELIHOOD THAT OUR RESULTS WILL FALL BELOW MARKET ANALYSTS' EXPECTATIONS, WHICH COULD CAUSE THE PRICE OF OUR ADSS TO DROP RAPIDLY AND SEVERELY.

We have in the past experienced fluctuations in our quarterly operating results, and we anticipate that these fluctuations will continue. As a result, we believe that our quarterly revenue, expenses and operating results are likely to vary significantly in the future. If in some future quarters our results of operations are below the expectations of public market analysts and investors, this could have a severe adverse effect on the market price of our ADSSs.

Our operating results have historically fluctuated, and our operating results may in the future continue to fluctuate, as a result of factors, which include:

- the size and timing of new/renewal agreements and upgrades;
- royalty rates;
- the announcement, introduction and acceptance of new products, product enhancements and technologies by us and our competitors;
- the mix of sales between our field sales force, our other direct sales channels and our telesales channels;
- general conditions in the U.S. or the international economy;

-23-

- the loss of significant customers;
- delays in availability of new products;
- product or service quality problems;
- seasonality -- due to the budget and purchasing cycles of our customers, we expect our revenue and operating results will generally be strongest in the fourth quarter of our fiscal year and weakest in the first quarter;
- the spending patterns of our customers;
- litigation costs and expenses, including the costs related to the restatement of the SmartForce financial statements;
- non-recurring charges related to acquisitions;

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

- growing competition that may result in price reductions; and
- currency fluctuations.

Most of our expenses, such as rent and most employee compensation, do not vary directly with revenue and are difficult to adjust in the short-term. As a result, if revenue for a particular quarter is below our expectations, we could not proportionately reduce operating expenses for that quarter. Any such revenue shortfall would, therefore, have a disproportionate effect on our expected operating results for that quarter.

DEMAND FOR OUR PRODUCTS AND SERVICES MAY BE ESPECIALLY SUSCEPTIBLE TO ADVERSE ECONOMIC CONDITIONS.

Our business and financial performance may be damaged by adverse financial conditions affecting our target customers or by a general weakening of the economy. Companies may not view training products and services as critical to the success of their businesses. If these companies experience disappointing operating results, whether as a result of adverse economic conditions, competitive issues or other factors, they may decrease or forego education and training expenditures before limiting their other expenditures or in conjunction with lowering other expenses.

WE RELY ON A LIMITED NUMBER OF THIRD PARTIES TO PROVIDE US WITH EDUCATIONAL CONTENT FOR OUR COURSES AND REFERENCEWARE, AND OUR ALLIANCES WITH THESE THIRD PARTIES MAY BE TERMINATED OR FAIL TO MEET OUR REQUIREMENTS.

We rely on a limited number of independent third parties to provide us with the educational content for a majority of our courses based on learning objectives and specific instructional design templates that we provide to them. We do not have exclusive arrangements or long-term contracts with any of these content providers. If one or more of our third party content providers were to stop working with us, we would have to rely on other parties to develop our course content. In addition, these providers may fail to develop new courses or existing courses on a timely basis. We cannot predict whether new content or enhancements would be available from reliable alternative sources on reasonable terms. In addition, Books relies on third party publishers to provide all of the content incorporated into its Referenceware products. If one or more of these publishers were to terminate their license with us, we may not be able to find substitute publishers for such content. In addition, we may be forced to pay increased royalties to these publishers to continue our licenses with them.

In the event that we are unable to maintain or expand our current development alliances or enter into new development alliances, our operating results and financial condition could be materially adversely affected. Furthermore, we will be required to pay royalties to some of our development partners on products developed with them, which could reduce our gross margins. We expect that cost of revenues may fluctuate from period to period in the future based upon many factors, including the revenue mix and the timing of expenses associated with development alliances. In addition, the collaborative nature of the development process under these alliances may result in longer development times and less control over the timing of product introductions than for e-Learning offerings developed solely by us. Our strategic alliance partners may from time to time renegotiate the terms of their agreements with us, which could result in changes to the royalty or other arrangements, adversely affecting our results of operations.

The independent third party strategic partners we rely on for educational content and product marketing may compete with us, harming our results of operations. Our agreements with these third parties generally do not restrict them from developing courses on similar topics for our competitors or from

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

competing directly with us. As a result, our competitors may be able to duplicate some of our course content and gain a competitive advantage.

WE RELY ON STRATEGIC ALLIANCES FOR MARKETING, WHICH ALLIANCES ARE NOT EXCLUSIVE, MAY BE TERMINATED OR MAY FAIL TO MEET OUR REQUIREMENTS IN THE FUTURE.

We have developed strategic alliances to market many of our products. However, these relationships are not exclusive, and our marketing partners could market other products in preference to, and in competition with, those developed by us. In addition, we may be unable to continue to market future products through these alliances or may be unable to negotiate additional alliances in the future on acceptable terms, if at all. The marketing efforts of our strategic partners may also disrupt our direct sales efforts.

-24-

OUR SUCCESS DEPENDS ON OUR ABILITY TO MEET THE NEEDS OF THE RAPIDLY CHANGING MARKET.

The market for education and training software is characterized by rapidly changing technology, evolving industry standards, changes in customer requirements and preferences and frequent introductions of new products and services embodying new technologies. New methods of providing interactive education in a technology-based format are being developed and offered in the marketplace, including intranet and Internet offerings. In addition, multimedia and other product functionality features are being added to educational software. Our future success will depend upon the extent to which we are able to develop and implement products which address these emerging market requirements on a cost effective and timely basis. Product development is risky because it is difficult to foresee developments in technology, coordinate technical personnel and identify and eliminate design flaws. Any significant delay in releasing new products could have a material adverse effect on the ultimate success of our products and could reduce sales of predecessor products. We may not be successful in introducing new products on a timely basis. In addition, new products introduced by us may fail to achieve a significant degree of market acceptance or, once accepted, may fail to sustain viability in the market for any significant period. If we are unsuccessful in addressing the changing needs of the marketplace due to resource, technological or other constraints, or in anticipating and responding adequately to changes in customers' software technology and preferences, our business and results of operations would be materially adversely affected.

THE E-LEARNING MARKET IS A DEVELOPING MARKET, AND OUR BUSINESS WILL SUFFER IF E-LEARNING IS NOT WIDELY ACCEPTED.

The market for e-Learning is a new and emerging market. Corporate training and education have historically been conducted primarily through classroom instruction and have traditionally been performed by a company's internal personnel. Many companies have invested heavily in their current training solutions. Although technology-based training applications have been available for several years, they currently account for only a small portion of the overall training market.

Accordingly, our future success will depend upon the extent to which companies adopt technology-based solutions for their training activities, and the extent to which companies utilize the services or purchase products of third-party providers. Many companies that have already invested substantial resources in traditional methods of corporate training may be reluctant to adopt a new strategy that may compete with their existing investments. Even if companies implement technology-based training or e-Learning solutions, they may still choose to design, develop, deliver or manage all or part of their education and

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

training internally. If technology-based learning does not become widespread, or if companies do not use the products and services of third parties to develop, deliver or manage their training needs, then our products and service may not achieve commercial success.

THE SUCCESS OF OUR E-LEARNING STRATEGY DEPENDS ON THE RELIABILITY AND CONSISTENT PERFORMANCE OF OUR INFORMATION SYSTEMS AND INTERNET INFRASTRUCTURE.

The success of our e-Learning strategy is highly dependent on the consistent performance of our information systems and Internet infrastructure. If our Web site fails for any reason or if it experiences any unscheduled downtimes, even for only a short period, our business and reputation could be materially harmed. We have in the past experienced performance problems and unscheduled downtime, and these problems could recur. We currently rely on third parties for proper functioning of computer infrastructure, delivery of our e-Learning applications and the performance of our destination site. Our systems and operations could be damaged or interrupted by fire, flood, power loss, telecommunications failure, break-ins, earthquake, financial patterns of hosting providers and similar events. Any system failures could adversely affect customer usage of our solutions and user traffic results in any future quarters, which could adversely affect our revenues and operating results and harm our reputation with corporate customers, subscribers and commerce partners. Accordingly, the satisfactory performance, reliability and availability of our Web site and computer infrastructure is critical to our reputation and ability to attract and retain corporate customers, subscribers and commerce partners. We cannot accurately project the rate or timing of any increases in traffic to our Web site and, therefore, the integration and timing of any upgrades or enhancements required to facilitate any significant traffic increase to the Web site are uncertain. We have in the past experienced difficulties in upgrading our Web site infrastructure to handle increased traffic, and these difficulties could recur. The failure to expand and upgrade our Web site or any system error, failure or extended down time could materially harm our business, reputation, financial condition or results of operations.

BECAUSE MANY USERS OF OUR E-LEARNING SOLUTIONS WILL ACCESS THEM OVER THE INTERNET, FACTORS ADVERSELY AFFECTING THE USE OF THE INTERNET OR OUR CUSTOMERS' NETWORKING INFRASTRUCTURES COULD HARM OUR BUSINESS.

Many of our customer's users access our e-Learning solutions over the Internet or through our customers' internal networks. Any factors that adversely affect Internet usage could disrupt the ability of those users to access our e-Learning solutions, which would adversely affect customer satisfaction and therefore our business.

For example, our ability to increase the effectiveness and scope of our services to customers is ultimately limited by the speed and reliability of both the Internet and our customers' internal networks. Consequently, the emergence and growth of the market for our products and services depends upon the improvements being made to the entire Internet as well as to its individual customers' networking infrastructures to alleviate overloading and congestion. If these improvements are not made, and the quality of networks degrades, the ability of our customers to use our products and services will be hindered and our revenues may suffer.

-25-

Additionally, a requirement for the continued growth of accessing e-Learning solutions over the Internet is the secure transmission of confidential information over public networks. Failure to prevent security breaches into our products or our customers' networks, or well-publicized security breaches affecting the Internet in general could significantly harm our growth and

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

revenue. Advances in computer capabilities, new discoveries in the field of cryptography or other developments may result in a compromise of technology we use to protect content and transactions, our products or our customers' proprietary information in our databases. Anyone who is able to circumvent our security measures could misappropriate proprietary and confidential information or could cause interruptions in our operations. We may be required to expend significant capital and other resources to protect against such security breaches or to address problems caused by security breaches. The privacy of users may also deter people from using the Internet to conduct transactions that involve transmitting confidential information.

OUR RESTRUCTURING PLANS MAY BE INEFFECTIVE OR MAY LIMIT OUR ABILITY TO COMPETE.

In connection with the Merger, we recorded \$30.3 million in merger and exit costs and \$19.3 million of restructuring and other non-recurring charges. There are several risks inherent in these efforts to transition to a new cost structure. These include the risk that we will not be successful in restoring profitability, and hence we may have to undertake further restructuring initiatives that would entail additional charges and create additional risks. In addition, there is the risk that cost-cutting initiatives will impair our ability to effectively develop and market products and remain competitive. Each of the above measures could have long-term effects on our business by reducing our pool of talent, decreasing or slowing improvements in our products, making it more difficult for us to respond to customers, limiting our ability to increase production quickly if and when the demand for our products increases and limiting our ability to hire and retain key personnel. These circumstances could cause our earnings to be lower than they otherwise might be.

WE DEPEND ON A FEW KEY PERSONNEL TO MANAGE AND OPERATE THE BUSINESS AND MUST BE ABLE TO ATTRACT AND RETAIN HIGHLY QUALIFIED EMPLOYEES.

Our success is largely dependent on the personal efforts and abilities of our senior management. Failure to retain these executives, or the loss of certain additional senior management personnel or other key employees, could have a material adverse effect on our business and future prospects. In addition, certain of our senior executives left the company in connection with the Merger. If we fail to adequately replace these executives or fail to manage the transition to new management effectively, our results of operations could be negatively affected.

We are also dependent on the continued service of our key sales, content development and operational personnel and on our ability to attract, train, motivate and retain highly qualified employees. In addition, we depend on writers, programmers, Web designers and graphic artists. We may be unsuccessful in attracting, training, retaining or motivating key personnel. In particular, the negative consequences (including litigation) of having to restate SmartForce's historical financial statements, uncertainties surrounding the Merger, and our recent adverse operating results and stock price performance could create uncertainties that materially and adversely affect our ability to attract and retain key personnel. The inability to hire, train and retain qualified personnel or the loss of the services of key personnel could have a material adverse effect upon our business, new product development efforts and future business prospects.

CHANGES IN ACCOUNTING STANDARDS REGARDING STOCK OPTION PLANS COULD LIMIT THE DESIRABILITY OF GRANTING STOCK OPTIONS, WHICH COULD HARM OUR ABILITY TO ATTRACT AND RETAIN EMPLOYEES, AND COULD ALSO REDUCE OUR PROFITABILITY.

The Financial Accounting Standards Board is considering whether to require all companies to treat the value of stock options granted to employees as an expense. The United States Congress and other governmental and regulatory authorities have also considered requiring companies to expense stock options.

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

If this change were to become mandatory, we and other companies would be required to record a compensation expense equal to the value of each stock option granted. This expense would be spread over the vesting period of the stock option. Currently, we are generally not required to record compensation expenses in connection with stock option grants. If we were required to expense stock option grants, it would reduce the attractiveness of granting stock options because the additional expense associated with these grants would reduce our profitability. However, stock options are an important employee recruitment and retention tool, and we may not be able to attract and retain key personnel if we reduce the scope of our employee stock option program. Accordingly, in the event we are required to expense stock option grants, either our profitability, or our ability to use stock options as an employee recruitment and retention tool would be adversely impacted.

INCREASED COMPETITION MAY RESULT IN DECREASED DEMAND FOR OUR PRODUCTS AND SERVICES, WHICH MAY RESULT IN REDUCED REVENUES AND GROSS MARGINS AND LOSS OR MARKET SHARE.

The market for corporate education and training solutions is highly fragmented and competitive. We expect the market to become increasingly competitive due to the lack of significant barriers to entry. In addition to increased competition from new companies entering into the market, established companies are entering into the market through acquisitions of smaller companies, which directly compete with us, and this trend is expected to continue. We may also face competition from publishing companies and vendors of application software, including those vendors with whom we have formed development and marketing alliances.

Our primary sources of direct competition are:

- third-party suppliers of instructor-led information technology, business, management and professional skills education and training;
- suppliers of computer-based training and e-Learning solutions;
- internal education and training departments of potential customers; and

-26-

- value-added resellers and network integrators.

Growing competition may result in price reductions, reduced revenue and gross margins and loss of market share, any one of which would have a material adverse effect on our business. Many of our current and potential competitors have substantially greater financial, technical, sales, marketing and other resources, as well as greater name recognition, and we expect to face increasing price pressures from competitors as managers demand more value for their training budgets. Accordingly, we may be unable to provide e-Learning solutions that compare favorably with new instructor-led techniques, other interactive training software or new e-Learning solutions.

OUR BUSINESS IS SUBJECT TO CURRENCY FLUCTUATIONS THAT COULD ADVERSELY AFFECT OUR OPERATING RESULTS.

Due to our multinational operations, our operating results are subject to fluctuations based upon changes in the exchange rates between the currencies in which revenues are collected or expenses are paid. In particular, the value of the U.S. dollar against the euro and related currencies will impact our operating results. Our expenses will not necessarily be incurred in the currency in which revenue is generated, and, as a result, we will be required from time

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

to time to convert currencies to meet our obligations. These currency conversions are subject to exchange rate fluctuations, and changes to the value of the euro, pound sterling and other currencies relative to the U.S. dollar could adversely affect our business and results of operations.

OUR CORPORATE TAX RATE MAY INCREASE, WHICH COULD ADVERSELY AFFECT OUR CASH FLOW, FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Our corporate tax rate may increase, which could adversely affect our cash flow, financial condition and results of operations. We currently have significant foreign operations and generate a majority of our taxable income in Ireland, and some of our Irish operating subsidiaries are taxed at rates substantially lower than tax rates in effect in the United States and other countries in which we have operations. As we have substantial assets and properties located in, and our business operations are principally conducted in, the United States, we are in the process of exploring the reorganization of our operations and repatriating certain assets to Ireland in order to maintain an effective tax rate at the level currently applicable to us. If we are unable to effect such a reorganization, or if at any time our Irish subsidiaries were no longer to qualify for these lower tax rates or if the applicable tax laws were rescinded or later changed, our operating results could be materially adversely affected. Moreover, because we will incur income tax in several countries, an increase in our profitability in one or more of these countries could result in a higher overall tax rate. In addition, if U.S. or other foreign tax authorities were to change applicable tax laws or successfully challenge the manner in which our subsidiaries' profits are currently recognized, our taxes could increase, and our business, cash flow, financial condition and results of operations could be materially adversely affected. In addition, there may be limitations imposed on the level and timing of the utilization of historic net operating losses for tax purposes as a result of the Merger. These limitations may adversely impact cash flow depending on the extent of any such limitation.

WE MAY BE UNABLE TO PROTECT OUR PROPRIETARY RIGHTS. UNAUTHORIZED USE OF OUR INTELLECTUAL PROPERTY MAY RESULT IN DEVELOPMENT OF PRODUCTS OR SERVICES THAT COMPETE WITH OURS.

Our success depends to a degree upon the protection of our rights in intellectual property. We rely upon a combination of patent, copyright, and trademark laws to protect our proprietary rights. We have also entered into, and will continue to enter into, confidentiality agreements with our employees, consultants and third parties to seek to limit and protect the distribution of confidential information. However, we have not signed protective agreements in every case.

Although we have taken steps to protect our proprietary rights, these steps may be inadequate. Existing patent, copyright, and trademark laws offer only limited protection. Moreover, the laws of other countries in which we market our products may afford little or no effective protection of our intellectual property. Additionally, unauthorized parties may copy aspects of our products, services or technology or obtain and use information that we regard as proprietary. Other parties may also breach protective contracts we have executed or will in the future execute. We may not become aware of, or have adequate remedies in the event of, a breach. Litigation may be necessary in the future to enforce or to determine the validity and scope of our intellectual property rights or to determine the validity and scope of the proprietary rights of others. Even if we were to prevail, such litigation could result in substantial costs and diversion of management and technical resources.

OUR NON-U.S. OPERATIONS ARE SUBJECT TO RISKS WHICH COULD NEGATIVELY IMPACT OUR FUTURE OPERATING RESULTS.

We expect that international operations will continue to account for a

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

significant portion of our revenues. Operations outside of the United States are subject to inherent risks, including:

- difficulties or delays in developing and supporting non-English language versions of our products and services;
- political and economic conditions in various jurisdictions;
- difficulties in staffing and managing foreign subsidiary operations;
- longer sales cycles and account receivable payment cycles;
- multiple, conflicting and changing governmental laws and regulations;
- foreign currency exchange rate fluctuations;
- protectionist laws and business practices that may favor local competitors;
- difficulties in finding and managing local resellers;

-27-

- potential adverse tax consequences; and
- the absence or significant lack of legal protection for intellectual property rights.

Any of these factors could have a material adverse effect on our future operations outside of the United States, which could negatively impact our future operating results.

THE MARKET PRICE OF OUR ADSS MAY FLUCTUATE AND MAY NOT BE SUSTAINABLE.

The market price of our ADSs has fluctuated significantly since our initial public offering and is likely to continue to be volatile. In addition, in recent years the stock market in general, and the market for shares of technology stocks in particular, have experienced extreme price and volume fluctuations, which have often been unrelated to the operating performance of affected companies. The market price of our ADSs may continue to experience significant fluctuations in the future, including fluctuations that are unrelated to our performance. As a result of these fluctuations in the price of our ADSs, it is difficult to predict what the price of our ADSs will be at any point in the future, and you may not be able to sell your ADSs at or above the price that you paid for them.

OUR SALES CYCLE MAY MAKE IT DIFFICULT TO PREDICT OUR OPERATING RESULTS.

The period between our initial contact with a potential customer and the purchase of our products (not including SmartCertify) by that customer typically ranges from three to twelve months. Factors that contribute to our long sales cycle, include:

- our need to educate potential customers about the benefits of our products;
- competitive evaluations by customers;

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

- the customers' internal budgeting and approval processes;
- the fact that many customers view training products as discretionary spending, rather than purchases essential to their business; and
- the fact that we target large companies, which often take longer to make purchasing decisions due to the size and complexity of the enterprise.

These long sales cycles, which typically range from three to twelve months or more, make it difficult to predict the quarter in which sales may occur. Delays in sales could cause significant variability in our revenues and operating results for any particular period.

OUR BUSINESS COULD BE ADVERSELY AFFECTED IF OUR PRODUCTS CONTAIN ERRORS.

Software products as complex as ours contain known and undetected errors or "bugs" that result in product failures. The existence of bugs could result in loss of or delay in revenues, loss of market share, diversion of product development resources, injury to reputation or damage to efforts to build brand awareness, any of which could have a material adverse effect on our business, operating results and financial condition.

THE CONVICTION OF ARTHUR ANDERSEN LLP ON OBSTRUCTION OF JUSTICE CHARGES MAY ADVERSELY AFFECT ARTHUR ANDERSEN LLP'S ABILITY TO SATISFY ANY CLAIMS ARISING FROM THE PROVISION OF AUDITING SERVICES TO SKILLSOFT CORPORATION AND MAY IMPEDE OUR ACCESS TO CAPITAL MARKETS AFTER THE MERGER.

Arthur Andersen LLP audited SkillSoft Corporation's financial statements for the fiscal years ended January 31, 2002, January 31, 2001 and January 31, 2000. On March 14, 2002, an indictment was unsealed charging it with federal obstruction of justice arising from the government's investigation of Enron Corp. On June 15, 2002, Arthur Andersen LLP was convicted of these charges. It is possible that the effect of this conviction on Arthur Andersen LLP's financial condition may adversely affect the ability of Arthur Andersen LLP to satisfy any claims arising from its provision of auditing services to SkillSoft Corporation.

Should we seek to access the public capital markets, SEC rules will require us to include or incorporate by reference in any prospectus three years of audited financial statements. The SEC's current rules would require us to present audited financial statements for one or more fiscal years audited by Arthur Andersen LLP and use reasonable efforts to obtain its consent until the audited financial statements for the fiscal year ending January 31, 2005 become available. If prior to that time the SEC ceases accepting financial statements audited by Arthur Andersen LLP, it is possible that the available audited financial statements for the fiscal years ended January 31, 2002, January 31, 2001 and January 31, 2000 audited by Arthur Andersen LLP might not satisfy the SEC's requirements. In that case, we would be unable to access the public capital markets unless Ernst & Young LLP, our current independent accounting firm, or another independent accounting firm, is able to audit the financial statements originally audited by Arthur Andersen LLP. Any delay or inability to access the public capital markets caused by these circumstances could have a material adverse effect on our business, profitability and growth prospects.

ITEM 3. - QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As of April 30, 2003, we did not use derivative financial instruments for speculative or trading purposes.

INTEREST RATE RISK

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

Our general investing policy is to limit the risk of principal loss and to ensure the safety of invested funds by limiting market and credit risk. We currently use a registered investment manager to place our investments in highly liquid money market accounts and government-backed securities. All highly liquid investments with original maturities of three months or less are considered to be cash equivalents. Interest income is sensitive to changes in the general level of U.S. interest rates. Based on the short-term nature of our investments, we have concluded that there is no significant market risk exposure.

-28-

FOREIGN CURRENCY RISK

Due to our multinational operations, our business is subject to fluctuations based upon changes in the exchange rates between the currencies in which we collect revenues or pay expenses and the U.S. dollar. Our expenses are not necessarily incurred in the currency in which revenue is generated, and, as a result, we are required from time to time to convert currencies to meet our obligations. These currency conversions are subject to exchange rate fluctuations, in particular changes to the value of the euro, Canadian dollar and pound sterling relative to the U.S. dollar, which could adversely affect our business and the results of operations.

ITEM 4. - CONTROLS AND PROCEDURES

Following the merger of SmartForce PLC and SkillSoft Corporation on September 6, 2002, we integrated the business processes, human resources, disclosure controls and procedures, and internal controls of the two companies. During this process, significant deficiencies in disclosure controls and procedures and internal controls were identified predominantly with respect to financial reporting at non-U.S. subsidiaries of the former SmartForce PLC and our ability to process the consolidated financial closing cycle. These deficiencies resulted in a significant strain to the internal resources and on the infrastructure of the finance organization and adversely impacted the year-end financial closing process. External resources were engaged to assist management in the year-end financial closing process and in identifying areas for improvement. In addition, permanent resources and accounting process improvements have been and will continue to be added and implemented to improve the non-U.S. finance operations, the financial closing process, and the overall internal control environment.

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, and with the assistance of outside consultants, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures within 90 days prior to the filing date of this quarterly report on Form 10-Q. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that these disclosure controls and procedures need significant improvements with respect to certain aspects of our financial reporting at predominantly the non-U.S. subsidiaries of the former SmartForce PLC and in our ability to process the consolidated financial closing cycle. Our independent auditors have informed us that they believe we have material weaknesses and reportable events in internal control in certain of these areas. We have implemented interim mitigating control procedures as part of the process of preparing our financial statements for the quarter ended April 30, 2003 and the year ended January 31, 2003. Although progress has been made, additional changes to the disclosure controls and procedures, and internal controls will be on-going.

PART II

ITEM 1. - LEGAL PROCEEDINGS

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

SEC INVESTIGATION

On or about February 4, 2003, the Securities Exchange Commission (SEC) informed us that we are the subject of a formal order of private investigation relating to our November 19, 2002 announcement that we would restate the financial statements of SmartForce PLC for the period 1999 through June 2002. We understand that the SEC's investigation concerns SmartForce's financial disclosure and accounting during that period, other related matters, compliance with rules governing reports required to be filed with the SEC, and the conduct of those responsible for such matters. We continue to cooperate with the SEC in this matter.

CLASS ACTION LAWSUITS

Six class action lawsuits have been filed against us and certain of our current and former officers and directors captioned: (1) Gianni Angeloni v. SmartForce PLC d/b/a SkillSoft, William McCabe and Greg Priest; (2) Ari R. Schloss v. SkillSoft PLC f/k/a SmartForce PLC, Gregory M. Priest, Patrick E. Murphy, David C. Drummond and William G. McCabe; (3) Joseph J. Bish v. SmartForce PLC d/b/a SkillSoft, Gregory M. Priest, William G. McCabe, David C. Drummond, John M. Grillos, John P. Hayes and Patrick E. Murphy; (4) Stacey Cohen v. SmartForce PLC d/b/a SkillSoft, William G. McCabe and Greg Priest; (5) Daniel Schmelz v. SmartForce PLC d/b/a SkillSoft, William G. McCabe and Greg Priest; and (6) John O'Donoghue v. SmartForce PLC d/b/a SkillSoft, William G. McCabe and Greg Priest. Each lawsuit was filed in the United States District Court for the District of New Hampshire; the first action was filed on November 22, 2002, the second action was filed on December 4, 2002 and the third and fourth actions were filed on December 11, 2002, the fifth action was filed on December 23, 2002, and the sixth action was filed on January 16, 2003. These lawsuits allege that we misrepresented or omitted to state material facts in our SEC filings and press releases regarding our revenues and earnings and failed to correct such false and misleading SEC filings and press releases, which are alleged to have artificially inflated the price of our ADSs. These lawsuits seek unspecified monetary damages, including punitive damages together with interest, costs, fees and expenses. These lawsuits have all been assigned to Chief Judge Paul J. Barbadoro. On March 26, 2003, Judge Barbadoro consolidated the lawsuits under the caption "In re SmartForce Securities Litigation," Civil Action No. 02-544-B, appointed as lead plaintiffs the Teacher's Retirement System of Louisiana and the Louisiana Sheriff's Pension & Relief Fund, and approved the lead plaintiffs' choice of lead counsel and local counsel. We are awaiting plaintiffs' consolidated amended complaint. We believe that we have meritorious defenses to these actions and intend to defend ourselves vigorously.

-29-

At the end of our fiscal third quarter of 1998, several purported class action lawsuits were filed in the United States District Court for the Northern District of California against us, one of our subsidiaries and certain of our former and current officers and directors alleging violations of the federal securities laws. It has been alleged in these lawsuits that we misrepresented or omitted to state material facts regarding our business and financial condition and prospects in order to artificially inflate and maintain the price of our ADSs, and misrepresented or omitted to state material facts in our registration statement and prospectus issued in connection with our merger with ForeFront, which also is alleged to have artificially inflated the price of our ADSs. The court has set a trial date of September 2003. We believe that we have meritorious defenses to these actions and intend to vigorously defend ourselves against them. Although we cannot presently determine the outcome of these actions, an adverse resolution of these matters could significantly negatively

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

impact our financial position and results of operations.

NETG LITIGATION

Our subsidiary, SkillSoft Corporation, several of its executive officers and key employees, and a former major investor of SkillSoft Corporation are named as defendants in a lawsuit pending in the Circuit Court of Cook County, Illinois filed by National Education Training Group, Inc. ("NETg"), the former employer of several of those individuals.

NETg's most recent complaint alleges in substance that:

- Charles E. Moran, as the former President of NETg, breached his fiduciary duty to NETg by usurping NETg's corporate opportunities, by commencing a rival business while still employed by NETg and by soliciting NETg personnel to join his rival business while still employed by NETg;
- Jerald A. Nine, as the former Vice President of Sales and Marketing of NETg, breached his fiduciary duty to NETg by assisting Mr. Moran in the creation, commencement and operation of the rival concern prior to Mr. Nine's resignation from NETg, by assisting Mr. Moran in the usurpation of corporate opportunities, by failing to inform his superiors at NETg of Mr. Moran's plans to form a rival business and by otherwise failing to use his best efforts on behalf of NETg while still employed there;
- SkillSoft Corporation, Mr. Moran, Mr. Nine, Mark A. Townsend, Dennis E. Brown, Lee A. Ritze and Sally Hovis misappropriated trade secrets of NETg, and SkillSoft Corporation and Mr. Moran tortiously interfered with NETg's "prospective economic advantage;"
- Mr. Moran, Mr. Townsend, Mr. Nine, Mr. Ritze, Mr. Brown and Ms. Hovis breached certain confidentiality and proprietary matters policies of NETg by misappropriating trade secrets and disclosing confidential and proprietary information during and after their employment with NETg;
- Mr. Moran, Mr. Townsend, Mr. Nine, Mr. Ritze and Mr. Brown breached the conflict of interest policy of NETg's former corporate parent, National Education Corporation, by failing to disclose that Mr. Moran formed and solicited funding for SkillSoft Corporation, that Messrs. Townsend, Nine, Ritze and Brown had employment-related discussions with SkillSoft Corporation, and that Mr. Nine participated in forming and soliciting funding for SkillSoft Corporation, during their employment with NETg;
- SkillSoft Corporation and Mr. Moran tortiously interfered with NETg's contractual relations with Mr. Townsend, Mr. Nine, Mr. Brown, Mr. Ritze and Ms. Hovis by offering them employment and inducing them to breach their confidentiality and trade secret obligations to NETg;
- SkillSoft Corporation breached provisions of a license agreement with NETg relating to the use of NETg's software; and
- Warburg Pincus Ventures, L.P., a former major investor in SkillSoft Corporation, tortiously interfered with Mr. Moran's and Mr. Nine's fiduciary duties to NETg.

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

NETg maintains that the trade secrets allegedly misappropriated by the other defendants and SkillSoft Corporation include, among other things:

- various aspects of the design and functionality of its education and training software and products;
- customer lists and information;
- relationships with service providers; and
- NETg's soft skills product line business plan.

The claims seek injunctive relief against SkillSoft Corporation and Messrs. Moran, Nine, Townsend, Brown and Ritze and Ms. Hovis and demand the return, and no future use by SkillSoft Corporation and these defendants, of the alleged trade secrets. The claims also seek compensatory damages of \$400 million, exemplary damages in the additional amount of \$400 million, additional compensatory, incidental and consequential damages in an unspecified amount and punitive damages of \$50 million or such other amount as the court deems just or appropriate. In answers to interrogatories served on NETg, an expert witness retained by NETg opined that NETg may, based on certain assumptions provided to the expert by NETg's counsel, be entitled to two categories of damages, including damages for lost profits of up to \$386.8 million and damages for unjust enrichment of up to \$616.3 million. On April 30, 2001, the court denied SkillSoft Corporation's motion to dismiss all of NETg's claims against SkillSoft Corporation and its executive officers and key employees and granted Warburg, Pincus Ventures, L.P.'s motion to dismiss claims related to its alleged tortious interference with NETg's prospective economic advantage and unfair competition. The case is currently in discovery and a trial has been scheduled for February 2004.

In addition, on July 26, 2000, NETg filed suit against SkillSoft Corporation in the United States District Court for the Northern District of Illinois alleging that SkillSoft Corporation's educational and training software products infringe United States Patent No. 6,039,575, which was issued on March 21, 2000 and is allegedly owned by NETg. The complaint seeks both monetary damages and injunctive relief. SkillSoft Corporation filed its answer and a counterclaim for a declaration of invalidity of the NETg patent on August 17, 2000. NETg filed its reply and affirmative defenses to SkillSoft Corporation's counterclaim on February 2, 2001.

On April 17, 2001, SkillSoft Corporation filed a request for reexamination of the patent in suit with the United States Patent and Trademark Office (the "PTO"). On May 11, 2001, the United States District Court for the Northern District of Illinois entered an order staying the proceedings in NETg's patent infringement action, with certain exceptions, pending resolution of SkillSoft Corporation's request to the PTO to reexamine the patentability of the claims of the patent on which NETg bases the lawsuit and any resulting reexamination proceedings. After a series of interim actions by the PTO and filings by the patent owner, on April 10, 2002 the PTO issued an Office Action rejecting all of the claims of the patent. On September 6, 2002, an order was issued dismissing the Federal Court litigation "without prejudice with leave to reinstate upon full and final resolution of the reexamination proceedings." NETg's appeal of the PTO's Office Action rejecting all of the claims of the patent remains pending and, on or about September 10, 2002, the patent owner filed with the PTO its brief in support of its appeal.

SkillSoft Corporation and the other defendants are vigorously defending themselves against NETg's allegations, and we believe that both SkillSoft Corporation and the other defendants have meritorious defenses to the claims

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

made in the lawsuits. While there have been certain settlement discussions between the parties in the lawsuits, no settlement has yet been reached and we intend to continue to vigorously contest NETg's claims. The current progress and state of the proceedings do not permit an evaluation of the likelihood of an unfavorable outcome or a fair estimate of the amount or range of potential loss, if any. None of the defendants in the first lawsuit were bound by written non-competition or non-solicitation agreements with NETg. We are not yet able to assess our potential liability or the potential liability of the other defendants. Nonetheless,

-31-

SkillSoft Corporation's failure to prevail in this litigation could have any or all of the following significant adverse effects on our business and financial performance:

- injunctive relief issued against SkillSoft Corporation and its officers and employees, which could significantly restrict our ability to conduct our business;
- an adverse judgment against SkillSoft Corporation for monetary damages;
- a settlement on unfavorable terms;
- obligations SkillSoft Corporation has to indemnify its employees for liabilities and expenses they incur in connection with the lawsuits;
- obligations to customers for breach of SkillSoft Corporation's warranty of noninfringement; or
- a requirement to reengineer SkillSoft Corporation's products to avoid patent infringement, which would likely result in additional expense and delay.

In addition, this litigation, regardless of its outcome, will continue to result in significant expenses in defending the lawsuit and may divert the efforts and attention of our management team from normal business operations.

IP LEARN

On April 23, 2002, IP Learn, LLC ("IP Learn") filed a complaint in the United States District Court for the Northern District of California against us. The complaint alleges that we infringed on five United States patents assigned to IP Learn. The complaint was subsequently amended to add an additional patent. The IP Learn patents in question are U.S. Patent Nos. 6,126,448; 6,118,973; 5,934,909; 5,779,486, 5,743,746; and 6,398,556. We believe that these patents are related primarily to computer-aided learning methods and systems. In the complaint, IP Learn asked the court for a preliminary and permanent injunction as well as unspecified damages. On June 27, 2002, we filed our answer to IP Learn's amended complaint, denying infringement and asserting counterclaims seeking declaratory relief that the patents-in-suit are invalid and that we have not infringed the patents-in-suit.

On July 1, 2002, IP Learn served our subsidiary SkillSoft Corporation with an amended complaint alleging that SkillSoft Corporation infringed U.S. Patent Nos. 6,126,448; 6,118,973; 5,934,909; 5,779,486 and 6,398,556. The complaint seeks both monetary damages and injunctive relief. In response to the amended complaint, SkillSoft Corporation filed a motion to dismiss or, in the

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q

alternative, for a more definite statement. The United States District Court for the Northern District of California granted SkillSoft Corporation's motion to dismiss on October 15, 2002, and on October 25, 2002, IP Learn filed its Second Amended Complaint alleging again that SkillSoft Corporation is infringing the five IP United States patents assigned to IP Learn listed above. The Second Amended Complaint seeks both monetary damages in an unspecified amount and injunctive relief. On November 8, 2002, SkillSoft Corporation filed its Answer to the Second Amended Complaint, in which it denied liability and asserted counterclaims seeking declaratory relief that the specified patents are invalid and that SkillSoft Corporation has not infringed the specified patents.

In June 2003, we reached an agreement with IP Learn regarding the settlement of the pending litigation pursuant to which we obtained a license to use certain of IP Learn's patents. Under the terms of the settlement agreement, we are required to make a cash payment and to issue ordinary shares (which will be represented by ADSs). The lawsuits will be dismissed following completion of the settlement.

LIONET

On June 13, 2002, Lionet Limited, a limited liability company incorporated and doing business in Ireland, filed a claim against us in Ireland, alleging, among other things, that we breached the terms of our software license agreement with Lionet Limited in that we permitted or failed to prevent the decompilation of the provided software products and that we have failed to cooperate in audits to determine the nature of such alleged copying or de-compilation. Lionet Limited is seeking damages for lost license fees of \$6.8 million and seeks other damages. We intend to vigorously defend ourselves in this matter.

We are not a party to any other material legal proceedings.
