The Company had 89,671,608 shares of Common Stock outstanding on the Record Date. The presence at the Meeting, in person or by proxy, of shareholders entitled to cast at least a majority of the votes that all shareholders are entitled to cast on a particular matter will constitute a quorum for the purposes of consideration and action on such matter.

PROPOSAL 1

ELECTION OF DIRECTORS

The Board of Directors currently consists of nine members: Floyd E. Bloom, Robert A. Breyer, Gerri Henwood, Paul J. Mitchell, Richard F. Pops, Alexander Rich, Paul Schimmel, Mark B. Skaletsky, and Michael A. Wall. In June 2004, the Board of Directors, as authorized under the Company’s Bylaws, elected Mark B. Skaletsky to the Board of Directors. Thus, nine directors are to be elected at the Meeting to serve one-year terms until the 2005 annual meeting of shareholders and until their respective successors are elected and shall qualify. The persons named in the accompanying proxy intend to vote for the election of Floyd E. Bloom, Robert A. Breyer, Gerri Henwood, Paul J. Mitchell, Richard F. Pops, Alexander Rich, Paul Schimmel, Mark B. Skaletsky, and Michael A. Wall, unless authority to vote for one or more of such nominees is specifically withheld in the proxy. The persons named in the proxy will have the right to vote cumulatively and to distribute their votes among such nominees as they consider advisable. The Board of Directors is informed that all the nominees are willing to serve as directors, but if any of them should decline to serve or become unavailable for election at the Meeting, an event which the Board of Directors does not anticipate, the persons named in the proxy will vote for such nominee or nominees as may be designated by the Board of Directors, unless the Board of Directors reduces the number of directors accordingly.

The nine nominees for directors receiving the highest number of votes cast by shareholders entitled to vote thereon will be elected to serve on the Board of Directors. Votes that are withheld will be counted in determining the presence of a quorum, but will have no effect on the vote.

CORPORATE GOVERNANCE AND BOARD MATTERS

Independence of Members of the Board of Directors

The Company defines an independent director in accordance with the applicable provisions of the Securities Exchange Act of 1934, as amended (the Exchange Act), the rules promulgated thereunder and the applicable rules of The Nasdaq National Market, Inc. (Nasdaq). Because it is not possible to anticipate or explicitly provide for all potential situations that may affect independence, the Board periodically reviews each director's status as an independent director and whether any independent director has any other relationship with the Company that, in the judgment of the Board, would interfere with the director's exercise of independent judgment in carrying out such director's responsibilities as a director. The Board will make an annual determination whether each director is independent under the applicable provisions of the Exchange Act, the rules promulgated thereunder and the applicable rules of Nasdaq.

The Board of Directors has determined that each of Floyd E. Bloom, Paul J. Mitchell, Paul Schimmel, Mark B. Skaletsky and Alexander Rich are independent within the meaning of the Company's director independence standards and the director independence standards of the Exchange Act and Nasdaq. Furthermore, the Board of Directors has determined that each member of each of the committees of the Board of Directors is independent within the meaning of the Company's, the Exchange Act and Nasdaq's director independence standards.

Executive Sessions of Independent Directors

The Board's policy is to hold meetings of the independent directors following each regularly scheduled in-person Board Meeting (other than in connection with the Annual Meeting of Shareholders). Independent director sessions do not include any employee directors of the Company, and a majority of the independent directors will determine who will assume the responsibility of chairing such sessions.

Policies Governing Director Nominations

Director Qualifications

The Nominating and Corporate Governance Committee is responsible for reviewing with the Board, from time to time, the appropriate qualities, skills and characteristics desired of Board members in the context of the current make-up of the Board. This assessment includes consideration of the following minimum qualifications that the Nominating and Corporate Governance Committee believes must be met by all directors:

Directors must be of high ethical character and share the values of the Company as reflected in the Company's Code of Business Conduct and Ethics applicable to all directors, officers and employees;

Directors must have reputations, both personal and professional, consistent with the image and reputation of the Company;

Directors must have the ability to exercise sound business judgment; and

Directors must have substantial business or professional experience and be able to offer advice and guidance to the Company's management based on that experience.

The Nominating and Corporate Governance Committee also considers numerous other qualities, skills and characteristics when evaluating director nominees, such as:

An understanding of and experience in biotechnology and pharmaceutical industries;

An understanding of and experience in accounting oversight and governance, finance and marketing;

Leadership experience with public companies or other significant organizations;

Table of Contents

International experience; and

Diversity of age, gender, culture and professional background.

These factors and others are considered useful by the Board, and are reviewed in the context of an assessment of the perceived needs of the Board at a particular point in time.

Board members are expected to prepare for, attend, and participate in all Board meetings, meetings of Committees on which they serve and the Company's Annual Meeting of Shareholders. In addition, Directors should stay abreast of the Company's business and markets. Each Board member is expected to ensure that other existing and planned future commitments do not materially interfere with the member's service as an outstanding director. Board members should not hold more than six directorships (including such member's seat on the Company's Board of Directors), but, excluding for this purpose, not-for-profit organizations, trade organizations and related organizations or unless otherwise agreed to by the Nominating and Corporate Governance Committee. These other commitments will be considered by the Nominating and Corporate Governance Committee and the Board when reviewing Board candidates. Directors are expected to report changes in their primary business or professional association, including retirement, to the Chairperson of the Board and the Chairperson of the Nominating and Corporate Governance Committee.

Process for Identifying and Evaluating Director Nominees

The Board is responsible for selecting its own members. The Board delegates the selection and nomination process to the Nominating and Corporate Governance Committee, with the expectation that other members of the Board and management will be requested to take part in the process as appropriate.

Once candidates have been identified, the Nominating and Corporate Governance Committee confirms that the candidates meet all of the minimum qualifications for director nominees established by the Nominating and Corporate Governance Committee. Based on the results of the evaluation process, the Nominating and Corporate Governance Committee recommends candidates for the Board's approval as director nominees for election to the Board. The Nominating and Corporate Governance Committee also recommends candidates for the Board's appointment to the committees of the Board.

Procedure for Recommendation of Director Nominees by Stockholders

The Nominating and Corporate Governance Committee will consider director candidates who are recommended by shareholders of the Company. Shareholders, in submitting recommendations to the Nominating and Corporate Governance Committee for director candidates, shall follow the following procedures:

The Nominating and Corporate Governance Committee must receive any such recommendation for nomination not later than the close of business on the 90th day nor earlier than the close of business on the 150th day prior to the first anniversary of the date of the proxy statement delivered to shareholders in connection with the preceding year's annual meeting.

Such recommendation for nomination must be in writing and include the following:

Name and address of the shareholder making the recommendation, as they may appear on the Company's books and records, and of such record holder's beneficial owner;

Number of shares of capital stock of the Company that are owned beneficially and held of record by such shareholder and such beneficial owner;

Name and address of the individual recommended for consideration as a director nominee (a Director Nominee);

The principal occupation of the Director Nominee;

Table of Contents

The total number of shares of capital stock of the Company that will be voted for the Director Nominee by the shareholder making the recommendation;

All other information relating to recommended candidate that would be required to be disclosed in solicitations of proxies for the election of directors, or is otherwise required, in each case pursuant to Regulation 14A under the Exchange Act (including the recommended candidate's written consent to being named in the proxy statement as a nominee and to serving as a director if approved by the Board and elected); and

A written statement from the shareholder making the recommendation stating why such recommended candidate would be able to fulfill the duties of a director.

Nominations must be sent to the attention of the Secretary of the Company by one of the two methods listed below:

By U.S. Mail (including courier or expedited delivery service):

Alkermes, Inc.

88 Sidney Street
Cambridge, MA 02139
Attn: Secretary of Alkermes, Inc.

By facsimile to:

(617) 621-7856

Attn: Secretary of Alkermes, Inc.

The Secretary of the Company will promptly forward any such nominations to the Nominating and Corporate Governance Committee. Once the Nominating and Corporate Governance Committee receives the nomination of a candidate, the candidate will be evaluated and a recommendation with respect to such candidate will be delivered to the Board. Nominations not made in accordance with the foregoing policy shall be disregarded by the Nominating and Corporate Governance Committee and votes cast for such nominee shall not be counted.

Composition and Responsibilities of the Board of Directors

Size of the Board

The Board size is currently set at nine members. The Board periodically reviews the appropriate size of the Board and, in accordance with the Company's By-laws, this number may be adjusted from time to time.

Board Compensation

It is the general policy of the Board that Board compensation should be a mix of cash and equity based compensation. Full-time employee directors will not be paid for Board membership in addition to their regular employee compensation. Independent directors may not receive consulting, advisory or other compensatory fees from the Company if the receipt of such fees would result in disqualifying the director as an independent director in accordance with the applicable provisions of the Exchange Act, the rules promulgated thereunder and the applicable rules of Nasdaq. To the extent practicable or required by applicable rule or regulation, Independent directors who are affiliated with the Company's service providers or partners or collaborators will undertake to ensure that their compensation from such providers or partners or collaborators does not include amounts connected to payments by the Company.

Operation of Board of Directors

The Company's business, property and affairs are managed under the direction of the Board of Directors. Members of the Board are kept informed of the Company's business through discussions with the Chief Executive Officer and other officers of the Company, by reviewing materials provided to them,

Table of Contents

by visiting the Company's offices and by participating in meetings of the Board and its committees and the Annual Meeting of Shareholders.

Scheduling and Selection of Agenda Items for Board Meetings

In-person Board meetings are scheduled in advance at least four times a year. Furthermore, additional Board meetings may be called upon appropriate notice at any time to address specific needs of the Company. Each director may propose the inclusion of items on the agenda, request the presence of or a report by any member of the Company's management, or at any Board meeting raise subjects that are not on the agenda for that meeting. The Board may also take action from time to time by unanimous written consent.

Typically, the meetings of the Board are held at the Company's headquarters in Cambridge, Massachusetts, but occasionally meetings may be held at other locations at the discretion of the Board.

The annual cycle of agenda items for Board meetings is expected to change on a periodic basis to reflect, e.g., Board requests, changing business and legal issues and the work done by the Board Committees.

Board Committees

The Company currently has three standing Committees: Audit, Compensation, and the Nominating and Corporate Governance Committees. There will, from time to time, be occasions on which the Board may form a new committee or disband a current committee depending upon the circumstances. The Audit, Compensation and Nominating and Corporate Governance Committees shall be composed entirely of independent directors.

During fiscal year 2004 and until April 2004, the Board had four standing Committees: Audit, Compensation, Nominating and Compliance. During April 2004, the Board reconstituted the Nominating and Compliance Committees into the new Nominating and Corporate Governance Committee.

Each Committee has a written charter, approved by the Board, which describes the Committee's general authority and responsibilities. Each Committee will undertake an annual review of its charter, and will work with the Nominating and Corporate Governance Committee and the Board to make such revisions as are considered appropriate.

Each Committee has the authority to engage outside experts, advisors and counsel to the extent it considers appropriate to assist the Committee in its work.

Each Committee will regularly report to the Board concerning the Committee's activities.

Assignment and Term of Service of Committee Members

The Board is responsible for the appointment of Committee members.

Frequency and Length of Committee Meetings and Committee Agenda

The Committee Chairperson, in consultation with the Chairman of the Board and appropriate members of management, will determine the frequency and length of the Committee meetings and develop the Committee's agenda. The agendas and meeting minutes of the Committees will be shared with the full Board, and other Board members are welcome to attend Committee meetings, except that non-independent directors are not permitted to attend the executive sessions of any Committee.

THE BOARD OF DIRECTORS AND ITS COMMITTEES

The Board of Directors held eight meetings during the last fiscal year. Each of the Company's directors attended at least 75% of the aggregate of all meetings held during the year of the Board of Directors and of all committees of which the director was a member. During fiscal year 2004, the Board had four standing committees: Audit, Compensation, Nominating and Compliance. In April 2004, the Board reconstituted the Nominating and Compliance Committees into the Nominating and Corporate Governance Committee. Currently, the standing committees of the Board are the Audit Committee, the Nominating and Corporate Governance Committee and the Compensation Committee. John K. Clarke did not stand for re-election at the 2003 Annual Meeting of Shareholders.

The Audit Committee consists of Floyd E. Bloom, Alexander Rich, Paul J. Mitchell (as of April 2003) and John K. Clarke (until September 2003). In compliance with the Sarbanes-Oxley Act of 2002, the entire Board determined, based on all available facts and circumstances, that Mr. Mitchell is an audit committee financial expert as defined by the Securities and Exchange Commission and is independent of management. The Audit Committee met seven times during the last fiscal year. The Audit Committee operates under a written charter adopted by the Board of Directors, a current copy of which is attached to this proxy statement as *Annex A* and can be found on the Corporate Governance page of the Investor Relations section of the Company's website, available at: <http://www.alkermes.com/investor-relations/index.html>. Each of the members of the Audit Committee is independent as such term is defined in Rule 4200(a)(14) of the National Association of Securities Dealers listing standards.

Under the terms of its current Charter, the Audit Committee is responsible for (1) appointing, compensating and retaining the Company's independent public accountants, (2) overseeing the work performed by any independent public accountants, (3) assisting the Board of Directors in fulfilling its responsibilities by: (i) reviewing the financial reports provided by the Company to the Securities and Exchange Commission (SEC), the Company's shareholders or to the general public (ii) reviewing the Company's internal financial and accounting controls, and (iii) reviewing and approving all related party transactions, (4) recommending, establishing and monitoring procedures designed to improve the quality and reliability of the disclosure of the Company's financial condition and results of operations, and (5) establishing procedures designed to facilitate: (i) the receipt, retention and treatment of complaints relating to accounting, internal accounting controls or auditing matters and (ii) the receipt of confidential, anonymous submissions by employees of concerns regarding questionable accounting or auditing matters. The committee will engage advisors as necessary, distribute relevant funding provided by the Company, and serve as the Qualified Legal Compliance Committee (the QLCC) in accordance with Section 307 of the Sarbanes-Oxley Act of 2002 and the rules and regulations promulgated by the SEC thereunder.

The Nominating and Corporate Governance Committee, consisting of Floyd E. Bloom, Alexander Rich, and Paul Schimmel, was formed in April 2004. The Nominating and Corporate Governance

Wall (until April 2004), met two times during the last fiscal year and otherwise acted by unanimous written consent. Under the terms of its current Charter, the Compensation Committee is responsible for (1) discharging the Board's responsibilities relating to the compensation of the Corporation's executives, (2) administering the Company's incentive compensation and equity plans, and (3) producing an annual report on executive compensation for inclusion in the Company's proxy statement in accordance with applicable rules and regulations. The Compensation Sub-Committee, consisting of John K. Clarke (until September 2003), Paul Schimmel and Paul J. Mitchell (as of September 2003), was responsible for making grants and awards under the Company's stock option and restricted stock award plans to directors and officers as defined under Section 16(a) of the Securities Exchange Act of 1934, as amended. The Compensation Sub-Committee met two times and otherwise acted by written consent. The Compensation Sub-Committee was disbanded as of April 2004. The Limited Compensation Sub-Committee consisting of John K. Clarke (until September 2003) and Paul J. Mitchell (as of September 2003) acted by unanimous written consent. The Limited Compensation Sub-Committee has the authority to make individual grants of options under certain of the Company's stock option plans to purchase no more than 5,000 shares of Common Stock to certain of the Company's employees.

Table of Contents**PROPOSAL 2****APPROVAL OF AMENDMENT TO 1999 STOCK OPTION PLAN**

The Company's 1999 Stock Option Plan (the "1999 Plan") authorizes the grant of options to officers, employees and directors of, and consultants to, the Company or any of its subsidiaries to purchase up to 14,400,000 shares of Common Stock. As of July 19, 2004, options to purchase 1,141,069 shares remained available for grant under the 1999 Plan. In July 2004, the Board of Directors amended the 1999 Plan, subject to shareholder approval, to increase the aggregate number of shares authorized for issuance upon exercise of options granted under the 1999 Plan to 16,900,000. This amendment was designed to enhance the flexibility of the Compensation Committee and the Limited Compensation Sub-Committee of the Board of Directors in granting stock options to the Company's officers, employees, directors and consultants and to ensure that the Company can continue to grant stock options to such persons at levels determined to be appropriate by the Compensation Committee and the Limited Compensation Sub-Committee based on comparable company and other market data. The Company believes that stock options are a critical part of the compensation package offered to new, existing and key employees and is an important tool in the Company's ability to attract and retain talented personnel. The resolution to be presented to the shareholders approving the proposed amendment to the 1999 Plan is attached as Appendix A to this Proxy Statement and is incorporated herein by reference.

The affirmative vote of a majority of the votes cast by all holders of Common Stock entitled to vote will be required to approve the proposed amendment to the 1999 Plan. Abstentions will be counted as present for purposes of determining the presence of a quorum for purposes of this proposal, but will not be counted as votes cast. Broker non-votes (shares held by a broker or nominee as to which the broker or nominee does not have the authority to vote on a particular matter) will not be counted as present for purposes of determining the presence of a quorum for purposes of this proposal and will not be voted. Accordingly, while abstentions will count towards establishing a quorum, neither abstentions nor broker non-votes will effect the outcome of the vote on this proposal.

The Board of Directors recommends that you vote **FOR** the approval of the amendment to the 1999 Plan.

The following table sets forth information regarding options which would have been granted to each of Alkermes' Named Executive Officers, all current executive officers as a group, all current directors who are not executive officers as a group and all employees other than executive officers as a group, had the proposed amendment been in effect during the fiscal year ended March 31, 2004.

Principal Features of the 1999 Plan

The purpose of the 1999 Plan is to enable the Company to offer to certain officers, employees and directors of, and consultants to, the Company or any of its subsidiaries options to acquire equity interests in the Company, thereby helping to attract, retain and reward such persons and strengthen the mutuality of interests between such persons and the Company's shareholders.

Administration

The 1999 Plan is administered by the Compensation Committee by delegation from the Board of Directors. The Compensation Committee has delegated to the Limited Compensation Sub-Committee the authority to make individual grants of options to purchase no more than 5,000 shares of Common Stock to employees who are not Reporting Persons. The total number of options to be granted in any year under the 1999 Plan to participants, the selection and number of participants to receive options, the type and number of options granted to each participant and the other terms and provisions of such options are wholly within the discretion of the Compensation Committee and the Limited Compensation Sub-Committee, subject to the limitations set forth in the 1999 Plan. Therefore, the benefits and amounts that will be received by participants under the 1999 Plan are not currently determinable.

Amendment and Repricings

The 1999 Plan may not be amended without the approval of the Company's shareholders if (a) such amendment would materially increase the benefits to participants under the 1999 Plan or (b) shareholder approval is necessary to comply with the Internal Revenue Code of 1986, as amended (the "Code"), Federal or state securities laws, the rules and regulations of any stock exchange or stock market on which the Common Stock is listed or traded or any other applicable rules or regulations. Additionally, no option previously granted under the plan may be repriced, except for an adjustment to the exercise prices as a result of a merger, reorganization, consolidation, recapitalization, dividend, stock split or other change in corporate structure affecting the Common Stock.

Eligible Participants

The Company's, and any of its subsidiaries', officers, employees, directors and consultants are eligible to be granted options, although only non-incentive options may be granted to non-employee directors and consultants, under the 1999 Plan. The Company estimates that there are currently approximately 500 persons who are eligible to receive options under the 1999 Plan.

Number of Shares Subject to the 1999 Plan

Up to 14,400,000 shares of Common Stock may be issued under the 1999 Plan. The proposed amendment, which has been recommended by the Compensation Committee and adopted by the Board of Directors, increases the number of shares that may be issued upon exercise of options which may be granted under the 1999 Plan to 16,900,000. Such options may either be incentive stock options as defined in Section 422 of the Code, or may be non-qualified stock options. The 1999 Plan will terminate on June 2, 2009 unless sooner terminated by the Board of Directors.

Stock Options

Under the terms of the 1999 Plan, the option exercise price may not be less than 100% (or, with respect to incentive stock options, 110% if the optionee owns more than 10% of the total combined voting power of all classes of stock of the Company) of the fair market value of the underlying stock at the time the option is granted. Options granted under the 1999 Plan are generally nontransferable, and expire upon the earlier of an expiration date fixed by the Compensation Committee and set forth in each individual option award certificate, ten years (or with respect to incentive stock options, five years, if the optionee owns more than 10% of the total combined voting power of all classes of stock of the Company) from the date of grant, and either three months after the date the optionee ceases to be an officer, employee or

Table of Contents

director of, or consultant to, the Company or its subsidiaries or one year after the optionee dies or becomes disabled. Options which have expired or which have been canceled unexercised will be available for future grant under the 1999 Plan.

Under the 1999 Plan, the price payable upon exercise of options may be paid in cash, by check payable to the Company, or in shares of stock of the Company duly owned by the participant or, in the case of non-incentive stock options, by reduction in the number of shares of Common Stock issuable upon such exercise, based, in each case, on the fair market value of the Common Stock on the date of exercise.

Options Outstanding, Exercisable and Available for Future Grant

As of July 19, 2004, options to purchase 12,974,053 shares were outstanding under the 1999 Plan, of which 5,469,943 were exercisable. The exercise prices for the outstanding options ranged from \$4.02 to \$47.16 per share. On July 19, 2004, the average of the high and low sales prices of a share of Common Stock as reported on the Nasdaq National Market was \$11.74. As of July 19, 2004, of all options outstanding under the 1999 Plan, options to purchase 3,728,516 shares had an exercise price of \$11.74 or below, of which 1,122,626 were exercisable. As of July 19, 2004, options to purchase 1,141,069 shares (plus any options that expire unexercised or are cancelled in the future) were available for future grant, exclusive of the additional shares covered by the proposed amendment.

Federal Income Tax Consequences

The Federal income tax discussion set forth below is intended for general information only and does not address the rates of taxation applicable to specific categories of taxpayers or classes of income or the tax consequences to persons who would be subject to liability under Section 16(b) of the Exchange Act with respect to a sale of the shares of Alkermes Common Stock acquired upon exercise of an option. State and local income tax consequences are not discussed and may vary from locality to locality.

Under present Treasury regulations, a participant who is granted a non-qualified option will not realize taxable income at the time the option is granted. In general, a participant will be subject to tax for the year of exercise on an amount of ordinary income equal to the excess of the fair market value of the shares, if any, on the date of exercise over the option exercise price, and the Company will generally be able to receive a deduction for a corresponding amount. In the case of a participant who is an employee, withholding and employment taxes will be imposed on the amount of ordinary income recognized. The participant's basis in the shares so acquired will be equal to the option exercise price plus the amount of ordinary income upon which he is taxed. Upon subsequent disposition of the shares, the participant will realize as capital gain or loss, long-term or short-term, depending upon the length of time the shares are held after the option is exercised, the difference between the amount realized upon such disposition and the participant's basis in the shares.

A participant is not taxed at the time an incentive option is granted. The tax consequences upon exercise and later disposition depend upon whether the participant was an employee of the Company or one of its subsidiaries at all times from the date of grant until three months preceding exercise (one year in the case of death or permanent and total disability) and on whether the participant holds the shares for more than one year after exercising the option and two years after the date of grant of the option.

If the participant satisfies both the employment rule and the holding rule as described above, for regular tax purposes the participant will not realize income upon exercise of an incentive option and the Company will not be allowed an income tax deduction at any time. The difference between the option exercise price and the amount realized upon disposition of the shares by the participant will generally constitute a long-term capital gain or a long-term capital loss, as the case may be.

If the participant meets the employment rule but disposes of the shares before satisfying the holding rule (a disqualifying disposition), the participant generally recognizes as ordinary income, in the year of the disqualifying disposition, any excess of the fair market value of the shares at the date of exercise over the option price. In the case of a sale of the underlying shares, any excess of the sales price over the fair

Table of Contents

market value at the date of exercise will be recognized by the participant as capital gain (long-term or short-term depending on the length of time the stock was held after the option was exercised). If, however, the sales price is less than the fair market value at the date of exercise, then the ordinary income recognized by the participant generally is limited to the excess of the sales price over the option price. In the case of any disqualifying disposition, the Company's tax deduction is limited to the amount of ordinary income recognized by the participant.

Currently, the exercise of incentive options is not subject to income, FICA or FUTA tax withholding. Proposed regulations issued by the Internal Revenue Service would subject incentive options to FICA or FUTA tax withholding at the time of exercise, but the effective date of these regulations has been postponed indefinitely. Any change to the current exemption from FICA and FUTA tax withholding will not take effect until January 1 of the year following the second anniversary of the publication of final regulations or other guidance. It is the current position of the IRS that no tax withholding is required in the event of a disqualifying disposition, but that employers are nevertheless generally required to report any income from a disqualifying disposition on Form W-2.

Different consequences will apply to participants that are subject to the alternative minimum tax.

Employment Contracts and Termination of Employment and Change-in-Control Agreements

Under agreements between the Company and Messrs. Pops, Broecker and Frates and Ms. Biberstein in the event their employment with the Company is terminated for any reason other than as a result of their taking certain actions against, or that have a significant deleterious effect on, the Company, Mr. Pops shall be entitled to receive a payment equal to two-thirds of his then-current annual base salary. Messrs. Broecker and Frates and Ms. Biberstein shall each be entitled to receive payments at the monthly rate of his or her then current annual base salary for up to nine months or until he or she finds other employment, whichever occurs first. Under an agreement between the Company and Mr. Landine, in the event his employment with the Company is terminated for any reason other than as a result of his taking certain actions against, or that have a significant deleterious effect on, the Company, Mr. Landine shall be entitled to receive a payment equal to his then-current base salary for a period of six months.

Mr. Pops has been granted LSARs in connection with a portion of the stock options previously granted to him. Each LSAR provides that after the occurrence of one of several triggering events, including a reorganization or merger of the Company, a sale of the assets of the Company or the acquisition by a person or group of more than 51% of the common stock, Mr. Pops will receive an amount in cash equal to the amount by which the fair market value per share of Common Stock issuable upon exercise of the option on the date such a triggering event occurs exceeds the exercise price per share of the option to which the LSAR relates. A triggering event shall be deemed to have occurred only when the fair market value of the shares subject to the underlying option exceeds the exercise price of such option. When a triggering event occurs, the related option will cease to be exercisable.

The Company has entered into change-in-control agreements with each of Messrs. Pops, Broecker, Frates and Landine and Ms. Biberstein. Under the terms of these agreements, each of the aforementioned executives are entitled to receive certain compensation and benefits in the event of a change-in-control of the Company, which, in summary, is defined as: the acquisition by a person, entity or group (with certain exceptions) of beneficial ownership of 50% or more of the Common Stock; a change in a majority of the incumbent directors on the Board of Directors; a reorganization, merger or consolidation of the Company; or a liquidation, dissolution or sale of all or substantially all of the assets of the Company.

In the event of a change-in-control, each of Messrs. Pops, Broecker, Frates and Landine and Ms. Biberstein will be entitled to continue their employment with the Company for a period of two years following the change-in-control at a monthly base salary at least equal to the highest monthly base salary paid to him or her by the Company in the twelve-month period immediately preceding the change-in-

control, an annual cash bonus at least equal to the annual bonus paid to him or her for the last calendar year prior to the change-in-control and continued participation in the Company's welfare and benefit plans.

In the event the Company terminates any of these executives without cause during such two-year period or if any of these executives terminates his or her employment for good reason (e.g., material diminution in the executive's responsibilities, assignment to the executive of responsibilities not consistent with his or her position or transfer of the executive to a location more than 40 miles from his or her then current place of employment) each is entitled to receive a prorated bonus (based upon the prior year's annual bonus) for the year in which the date of termination occurs. Additionally, each of Messrs. Broecker, Frates and Landine and Ms. Biberstein will receive a lump sum payment equal to the executive's base salary plus his or her annual bonus for the last calendar year before the date of termination and continued participation in the Alkermes' welfare and benefit plans (or reimbursement therefor) for one year following the date of termination; Mr. Pops will receive a lump sum payment equal to two times his base salary plus his annual bonus for the last calendar year before the date of termination and continued participation in the Alkermes' welfare and benefit plans (or reimbursement therefor) for two years following the date of termination. Each executive is also entitled to a gross-up payment equal to the excise tax imposed upon the severance payments under the change-in-control agreement in the event any payment or benefit to the executive, whether pursuant to the change-in-control agreement or otherwise, is considered an excess parachute payment and subject to an excise tax under the Internal Revenue Code.

Compensation of Directors

Each year on or about the date of the Company's annual meeting of shareholders, each non-employee director, currently consisting of Floyd E. Bloom, Gerri Henwood, Paul J. Mitchell, Alexander Rich, Paul Schimmel and Mark B. Skaletsky as well as Michael A. Wall and Robert A. Breyer, part-time employees of the Company, receive an annual retainer fee of \$15,000 paid quarterly, in advance, and an option to purchase 20,000 shares of Common Stock. Effective as of the 2004 Annual Meeting of Shareholders, the annual retainer fee will be increased to \$30,000.

Also, each non-employee and part-time employee director receives an attendance fee of \$1,500 per Board of Directors' meeting and \$750 for each telephonic Board of Directors' meeting and an attendance fee of \$500 for each committee meeting, if such meeting is held on a date other than a date on which a Board of Directors' meeting is held and \$250 for each telephonic committee meeting. Such payments are made on a quarterly basis.

Each non-employee and part-time employee director also receives, on a periodic basis, reimbursement for all reasonable travel expenses incurred in connection with Board of Directors' meetings and meetings of committees of the Board of Directors.

The 20,000 share option is granted automatically under the Alkermes Stock Option Plan for Non-Employee Directors each year on the date of the Company's annual meeting of shareholders for non-employee directors. For part-time employee directors, the Company grants an option for 20,000 shares, under the 1999 Stock Option Plan, each year on or about the date of the Company's annual meeting of shareholders. All of such options are exercisable at the fair market value of the Common Stock on the date such options are granted and vest in full six (6) months following their grant. Non-employee and part-time employee directors do not receive any options to purchase shares of Common Stock except for the yearly grant of options to purchase 20,000 shares of the Company's Common Stock and a one-time grant of an option to purchase 20,000 shares of the Company's Common Stock upon joining the Board of Directors. The initial grant of options are made to non-employee directors under the Alkermes Stock Option Plan for Non-Employee Directors and are made to part-time employee directors under the 1999 Stock Option Plan. During the fiscal year ended March 31, 2004, Alkermes paid consulting fees to Mr. Wall aggregating \$66,667. Mr. Wall's consulting agreement terminated and he became a part-time employee of the Company effective January 1, 2004. As an employee, he will receive compensation of \$85,000 annually from the Company for the work that he performs for the Company outside of his

capacity as a director. During the fiscal year ended March 31, 2004, Alkermes paid to Mr. Wall a salary of \$12,222, for total compensation of \$78,889 during the fiscal year ended March 31, 2004. Alkermes believes that the terms of this recently terminated consulting arrangement and his part-time employee status are no less favorable to Alkermes than those they could have received from an independent third party. Since Mr. Breyer's retirement as President, he has received compensation of \$13,000 per year as a part-time employee of the Company. Upon his initial election to the Board of Directors in June 2004, Mr. Skaletsky received \$3,750 as the pro-rated portion of the cash compensation for non-employee director outlined above and was granted options to purchase 24,000 shares of Common Stock, consisting of an initial grant of an option to purchase 20,000 shares of Common Stock and an option to purchase 4,000 shares of Common Stock, such amount being a pro-rated portion of the annual grant for non-employee directors outlined above.

Compensation Committee Interlocks and Insider Participation

During the last fiscal year, the Compensation Committee consisted of John K. Clark (until September 2003), Michael A. Wall (until April 2004), Paul Schimmel and Paul J. Mitchell (as of September 2003). The Compensation Sub-Committee consisted of John K. Clarke (until September 2003), Paul Schimmel, and Paul J. Mitchell (as of September 2003). The Limited Compensation Sub-Committee, prior to its disbanding in April 2004, consisted of John K. Clarke (until September 2003) and Paul J. Mitchell (as of September 2003). During the prior fiscal year, through December 31, 2003, Mr. Wall was a consultant to the Company. As of January 1, 2004, Mr. Wall is a part-time employee of the Company.

Except as disclosed above, during the last fiscal year, no executive officer of the Company served as (i) a member of the compensation committee (or other committee of the board of directors performing equivalent functions or, in the absence of any such committee, the entire board of directors) of another entity, one of whose executive officers served on the Compensation Committee of the Company; (ii) a director of another entity, one of whose executive officers served on the Compensation Committee of the Company; or (iii) a member of the compensation committee (or other committee of the board of directors performing equivalent functions or, in the absence of any such committee, the entire board of directors) of another entity, one of whose executive officers served as a director of the Company.

REPORT OF THE COMPENSATION COMMITTEE ON EXECUTIVE COMPENSATION

The Compensation Committee (the "Committee") was responsible for reviewing and establishing the cash compensation of the Company's executive officers. The Compensation Sub-Committee (the "Sub-Committee") was responsible, until April 2004, for reviewing and establishing compensation in the form of stock options and restricted common stock awards to the Company's executive officers, at which point the Sub-Committee was disbanded and the Committee took over this responsibility.

Executive Compensation Policies

The Company's executive compensation program is designed to attract, retain and motivate experienced and well-qualified executive officers who will promote the Company's research and product development and commercialization efforts. In establishing executive compensation levels, the Committee is guided by a number of considerations. Because the Company is still in the process of developing its portfolio of product candidates, and because of the volatile nature of biotechnology stocks, the Committee believes that traditional performance criteria, such as revenue growth, net income, profit margins and share price are inappropriate for evaluating and rewarding the efforts of the Company's executive officers. Rather, the Committee bases executive compensation on the achievement of certain product development, corporate partnering, financial, strategic planning and other goals of the Company and the executive officers. In establishing compensation levels, the Committee also evaluates each officer's individual performance using certain subjective criteria, including an evaluation of each officer's initiative, contribution to overall corporate performance and managerial ability. No specific numerical weight is given

Table of Contents

to any of the above-noted subjective or objective performance criteria. In making its evaluations, the Committee consults on an informal basis with other members of the Board of Directors and, with respect to officers other than the Chief Executive Officer, reviews the recommendations of the Chief Executive Officer.

Another consideration which affects the Committee's decisions regarding executive compensation is the high demand for well-qualified personnel. Given such demand, the Committee strives to maintain compensation levels which are competitive with the compensation of other executives in the industry. To that end, the Committee reviews data obtained from a generally available outside survey of compensation and benefits in the biotechnology industry, an internally prepared survey based on peer biotechnology companies' proxy statements and personal knowledge regarding executive compensation at comparable companies.

A third factor which affects compensation levels is the Committee's belief that stock ownership by management is beneficial in aligning management's and shareholders' interests in the enhancement of shareholder value. In accordance with such belief, the Sub-Committee seeks to provide a significant portion of executive compensation in the form of stock options. The Sub-Committee has not, however, targeted a range or specific number of options for each executive position. Rather, it makes its decisions based on the above-mentioned surveys and the general experience of the Sub-Committee members.

Compensation Mix

The Company's executive compensation packages generally include three components: base salary; a discretionary annual cash bonus; and stock options and restricted common stock awards. The Committee generally reviews and establishes the base salary and bonus of each executive officer as of the end of each calendar year.

Base Salary

The Committee seeks to establish base salaries which are competitive for each position and level of responsibility with those of executive officers at various other biotechnology companies of comparable size and stage of development.

Discretionary Cash Bonus

The Committee believes that discretionary cash bonuses are useful on a case by case basis to motivate and reward executive officers. Bonuses for executive officers are not guaranteed, but are awarded from time to time, generally annually, only in the discretion of the Committee; cash bonuses are used to bring annual cash compensation into a competitive range with comparable positions at comparable companies. Criteria for bonuses for executive officers range from success in attracting capital to success in conducting clinical trials, entering into new and expanded collaborations and establishing and expanding the Company's manufacturing capabilities.

Stock Options and Restricted Common Stock Awards

Grants of stock options and awards of restricted common stock under the Company's equity compensation plans are designed to promote the identity of the long-term interests between the Company's executives and its shareholders and to assist in the retention of executives. Since stock options granted by the Company generally become exercisable over a four-year period and forfeiture provisions with respect to restricted common stock awards lapse over a two-year period, their ultimate value is dependent upon the long-term appreciation of the Company's stock price and the executive's continued employment with the Company. In addition, grants of stock options and awards of restricted common stock may result in an increase in executive officers' equity interests in the Company, thereby providing such persons with the opportunity to share in the future value they are responsible for creating.

Table of Contents

When granting stock options and awarding restricted common stock, the Sub-Committee considers the relative performance and contributions of each officer compared to that of other officers within the Company with similar levels of responsibility. The number of options and awards granted to each executive officer is generally determined by the Sub-Committee on the basis of data obtained from a generally available outside survey of stock option grants and restricted common stock awards in the biotechnology industry, an internally prepared survey of peer biotechnology companies' proxy statements and personal knowledge of the Sub-Committee members regarding executive stock options and restricted common stock awards at comparable companies.

Section 162(m) of the Code limits the deductibility of annual compensation over \$1 million to the Chief Executive Officer and the other Named Executive Officers unless certain conditions are met. The Company has considered this limitation with regard to compensation, but has not yet determined what measures, if any, it should take to comply with Section 162(m).

Compensation of the Chief Executive Officer

In establishing Mr. Pops' compensation package, the Committee seeks to maintain a level of total current compensation that is competitive with that of chief executives of other companies in the biotechnology industry at comparable stages of development. In addition, in order to align Mr. Pops' interests with the long-term interests of the Company's shareholders, the Committee and the Sub-Committee attempt to make a significant portion of the value of his total compensation dependent on the long-term appreciation of the Company's stock price.

At the Company's current stage of development, the Committee believes that Mr. Pops' performance as Chief Executive Officer of the Company must be evaluated using mainly subjective criteria, including the Committee's evaluation of the Company's progress in attracting and retaining senior management, identifying new product candidates, identifying and securing corporate collaborators for the development of product candidates, identifying and acquiring new proprietary product development and technology opportunities, identifying and acquiring companies with interesting technology and product candidates, advancing the Company's existing product candidates through the complex drug development and regulatory approval process, preparing for and executing on commercialization activities and raising the necessary capital to fund its research and development efforts and manufacturing capabilities.

In evaluating and establishing Mr. Pops' current compensation package, the Committee considered the following accomplishments of the Company during calendar 2003:

In February 2003, Alkermes announced the approval of Risperdal® ConstaTM in Spain and in October 2003 in France, continuing to increase the number of countries in which this product was marketed by Janssen-Cilag (Janssen), a division of Johnson & Johnson. In February, Alkermes added Kathryn L. Biberstein, an experienced industry executive, as Vice-President and General Counsel.

In March 2003, Amylin Pharmaceutical, Inc. (Amylin), Eli Lilly and Company (Lilly) and Alkermes announced preliminary Phase 2 results and submission of IND for exenatide LAR (sustained release) Program in Type 2 diabetes. The results from this study verified that sustained levels of exenatide are possible and supported the continuation of the Phase 2 program. Based on these data and previous clinical results, an Investigational New Drug application (IND) was submitted to the FDA to support an independent development program for exenatide LAR.

In March 2003, Alkermes completed enrollment in its Phase III clinical trial of Vivitrex® for the treatment of alcohol dependence. The results from this important trial, which were announced in December, would be one of the highlights of the year in the Company's product commercialization programs.

In April 2003, Alkermes added Gerri Henwood, Ph.D., CEO and co-founder of Auxilium A2, Inc., and Paul J. Mitchell, Chief Financial Officer and Treasurer of Kenet, to the Company's Board of Directors. Mr. Mitchell serves on the audit committee as a audit committee financial expert as defined under the Sarbanes Oxley Act of 2002.

Table of Contents

In April 2003, Alkermes announced additional data and analyses submitted to FDA for Risperdal Consta. The Company's partner, Janssen, submitted additional data and analyses to the U.S. Food and Drug Administration (FDA) to fulfill a complete response to the non-approvable letter issued by the FDA regarding the New Drug Application (NDA) for Risperdal Consta long-acting injection. The specific data and analyses provided were generated following discussions with the FDA. In October 2003, having reviewed these and other data and analyses, the FDA approved Risperdal Consta for treating schizophrenia, a major milestone for the Company.

In August 2003, Alkermes raised \$100 million through the sale of convertible subordinated notes. In September 2003, an additional \$25 million was raised through the exercise of the purchaser's overallotment option on these convertible subordinated notes due 2023 in a private placement. The convertible subordinated notes, which are due in 2023, are convertible into shares of Alkermes' common stock at a conversion price of \$13.85 per share. These notes bear interest at 2.5% per year and are subordinated to existing and future senior indebtedness of Alkermes.

In October 2003, the FDA approved Risperdal Consta for treating schizophrenia, and, in early December 2003, Alkermes announced the launch of Risperdal Consta in the United States by its partner, Janssen. The drug is manufactured by Alkermes and marketed in the United States by Janssen. By December 2003, Risperdal Consta had been approved in more than 45 countries around the world.

In December 2003, Alkermes announced preliminary results from its Phase III clinical trial of Vivitrex (naltrexone for injectable suspension) showing a statistically significant reduction in heavy drinking in alcohol dependent patients

During the year, the Company also advanced the development of its product candidates (proprietary and partnered) and initiated feasibility programs with partners and on internal programs that were not disclosed publicly.

Given the significant role played by Mr. Pops in each of the above-noted accomplishments, the Committee increased Mr. Pops' annual base salary effective January 1, 2004 from \$498,750 to \$528,675 and granted Mr. Pops a cash bonus of \$250,000. As additional recognition of Mr. Pops' efforts in calendar 2003, and in furtherance of the Sub-Committee's belief that a significant portion of Mr. Pops' total compensation should be dependent on the long-term appreciation of the Company's stock price, in April, October and December 2003, the Sub-Committee granted Mr. Pops options to purchase 166,250, 149,625 and 184,125 shares, respectively, of Common Stock. The Committee and Sub-Committee believe that each of these actions was particularly appropriate given Mr. Pops' performance during calendar 2003 and in order to maintain his compensation at a competitive level compared to that of the chief executive officers of other similarly sized and positioned biotechnology companies.
