PROXY STATEMENT FOR
ANNUAL MEETING OF STOCKHOLDERS
JUNE 12, 2002

INTRODUCTION

This Proxy Statement is furnished to the stockholders of SHEFFIELD PHARMACEUTICALS, INC., a Delaware corporation (the "Company"), in connection with the solicitation by the Board of Directors of the Company of Proxies for the Annual Meeting of Stockholders to be held at the American Stock Exchange at 86 Trinity Place, 14th Floor, New York, New York 10006, on June 12, 2002, at 10:00 a.m., local time, or at any adjournments thereof. The approximate date on which this Proxy Statement and the accompanying Proxy will be first sent or given to stockholders is April 30, 2002.

RECORD DATE AND VOTING SECURITIES

The voting securities of the Company outstanding on April 22, 2002 consisted of 29,563,712 shares of Common Stock, \$.01 par value (the "Common Stock"), entitling the holders thereof to one vote per share. Only stockholders of record as of that date are entitled to notice of and to vote at the Annual Meeting or any adjournments thereof. A majority of the outstanding shares of Common Stock present in person or by proxy is required for a quorum.

PROXIES AND VOTING RIGHTS

Shares of Common Stock represented by Proxies, in the accompanying form of Proxy, which are properly executed, duly returned and not revoked, will be voted in accordance with the instructions contained therein. If no specification is indicated on the Proxy, the shares represented thereby will be voted (i) for the election as directors of the persons who have been nominated by the Board of Directors, (ii) for amendment of the Company's 1993 Stock Option Plan to increase the number of shares of Common Stock available for issuance thereunder from 4,000,000 to 5,000,000 shares, and (iii) for any other matters that may properly come before the Annual Meeting in accordance with the judgment of the person or persons voting the Proxy.

Edgar Filing: SHEFFIELD PHARMACEUTICALS INC - Form DEF 14A

The execution of a Proxy will in no way affect a stockholder's right to attend the Annual Meeting and vote in person. Any Proxy executed and returned by a stockholder may be revoked at any time thereafter if written notice of revocation is given to the Secretary of the Company prior to the vote to be taken at the Annual Meeting or by execution of a subsequent Proxy which is presented to the Annual Meeting, or if the stockholder attends the Annual Meeting and votes by ballot, except as to any matter or matters upon which a vote shall have been cast pursuant to the authority conferred by such Proxy prior to such revocation. Broker "non-votes" and the shares of Common Stock as to which a stockholder abstains are included for purposes of determining the presence or absence of a quorum at the Annual Meeting. A broker "non-vote" occurs when a nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power with respect to that item and has not received instructions from the beneficial owner. Broker "non-votes" are not included in the tabulation of the voting results on the election of directors or issues requiring approval of the majority of the votes present and, therefore, do not have the effect of votes in opposition in such tabulations. An abstention from voting on a matter or a Proxy instructing that a vote be withheld has the same effect as a vote against a matter since it is one less vote for approval.

All expenses in connection with this solicitation will be borne by the Company. It is expected that solicitations will be made primarily by mail, but regular employees or representatives of the Company may also solicit Proxies by telephone, telegraph, facsimile or in person, without additional compensation. In addition, the Company has engaged MacKenzie Partners, Inc., a proxy solicitation firm, to assist in the solicitation of Proxies and will pay such firm a fee, estimated at \$4,000, plus reimbursement of reasonable out-of-pocket expenses. The Company will, upon request, reimburse brokerage houses and persons holding shares in the names of their nominees for their reasonable expenses in sending solicitation material to their principals.

MEETINGS AND COMMITTEES

The Board of Directors of the Company held four meetings during the fiscal year ended December 31, 2001. From time to time during such fiscal year, the members of the Board acted by unanimous written consent. The Board of Directors has standing Stock Option, Compensation, and Audit Committees. The Board of Directors does not have a standing nominating committee or a committee that serves nominating functions. These functions are performed by the Board of Directors of the Company as a whole. Each person who served as a Director in 2001 attended at least 75% of the aggregate number of meetings in 2001 of the Board of Directors and the committees on which he served, with the exception of Roberto Rettani, who attended no meetings prior to his resignation from the Board in September 2001.

The Stock Option Committee reviews, analyzes and approves grants of stock options and stock to eligible persons under the Company's 1993 Stock Option Plan and the Company's 1993 Restricted Stock Plan. The current members of the Stock Option Committee (appointed in June 1997) are Digby W. Barrios and

Edgar Filing: SHEFFIELD PHARMACEUTICALS INC - Form DEF 14A

John M. Bailey. The Stock Option Committee held three meetings in 2001.

The Compensation Committee reviews, analyses and makes recommendations to the Board of Directors regarding compensation of Company directors, employees, consultants and others, including grants of stock options (other than stock option grants under the Company's 1993 Stock Option Plan and the Company's 1996 Directors Stock Option Plan). The current members of the Compensation Committee (appointed in June 1997) are Digby W. Barrios and John M. Bailey. The Compensation Committee held three meetings in 2001 and approved certain actions by written consent.

The Audit Committee is composed of independent directors, in accordance with the American Stock Exchange listing standards, for which information regarding the functions performed by the Committee is set forth in the "Report of the Audit Committee," included in this Proxy Statement. The Audit Committee is governed by a written charter approved by the Board of Directors. The current independent directors of the Audit Committee are Digby W. Barrios, John M. Bailey (both appointed in June 1997), and Todd C. Davis (appointed May 2000). The Audit Committee held four meetings in 2001.

BOARD OF DIRECTORS COMPENSATION

The Company does not currently compensate directors who are also executive officers of the Company or directors who are employees of the Company's strategic alliance partner, Elan Corporation, for their service on the Board of Directors. Under current Company policy, each non-employee director of the Company receives a fee of \$750 for each Board meeting attended and \$400 for each Board committee meeting attended. Directors are reimbursed for their expenses incurred in attending meetings of the Board of Directors or any committee of the Board of Directors. Under the terms of the 1996 Directors Stock Option Plan, each non-employee director receives a grant of an option to purchase 25,000 shares of Common Stock upon initial election, as well as additional option grants to purchase 15,000 shares of Common Stock on January 1 of each year thereafter during eligible tenure. Such options will be exercisable at a price per share equal to the fair market value of the Common Stock on the date of grant and will vest six months from the date of grant.

REPORT OF THE AUDIT COMMITTEE

The responsibilities of the Audit Committee, which are set forth in the Audit Committee Charter adopted by the Board, include providing oversight to the Company's financial reporting process through periodic meetings with the Company's independent auditors and management to review accounting, auditing, internal controls and financial reporting matters. The management of the Company is responsible for the preparation and integrity of the financial reporting information and related systems of internal controls. The Audit Committee, in carrying out its role, relies on the Company's senior management, including senior financial management, and its independent auditors.

We have reviewed and discussed with senior management the Company's audited financial statements to be included in the 2001 Annual Report on Form 10-K. Management has confirmed to us that such financial statements (i) have been prepared with integrity and objectivity and are the responsibility of management, and (ii) have been prepared in conformity with generally accepted accounting principles.

We have discussed with Ernst & Young LLP, the Company's independent auditors, the matters required to be discussed by SAS 61 (Communications with Audit Committee). SAS 61, as amended, requires the independent auditors to

Edgar Filing: SHEFFIELD PHARMACEUTICALS INC - Form DEF 14A

provide us with additional information regarding the scope and results of their audit of the Company's financial statements, including with respect to (i) their responsibility under generally accepted auditing standards, (ii) significant accounting policies, (iii) management judgments and estimates, (iv) any significant audit adjustments, (v) any disagreements with management, and (vi) any difficulties encountered in performing the audit.

We have received from Ernst & Young LLP a letter providing the disclosures required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees) with respect to any relationships between Ernst & Young LLP and the Company that in their professional judgment may reasonably be thought to bear on independence. Ernst & Young LLP has discussed its independence with us, and has confirmed in such letter that, in its professional judgment, it is independent of the Company within the meaning of the federal securities laws. The Audit Committee has considered whether the non-audit services rendered by the Company's independent auditors during the Company's most recent fiscal year are compatible with maintaining the independence of such auditors and believes them to be so.

Based on the review and discussions described above with respect to the Company's audited financial statements, we have recommended to the Board that such financial statements be included in the Company's Annual Report on Form 10-K.

As specified in the Audit Committee Charter, it is not the duty of the Audit Committee to plan or conduct audits or to determine that the Company's financial statements are complete and accurate and in accordance with generally accepted accounting principles. That is the responsibility of management and the Company's independent auditors. In giving our recommendation to the Board, we have relied on (i) management's representation that such financial statements have been prepared with integrity and objectivity and in conformity with generally accepted accounting principles, and (ii) the report of the Company's independent auditors with respect to such financial statements.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

General

The Compensation Committee determines the cash and other incentive compensation, if any, to be paid to the Company's executive officers and key employees. The Stock Option Committee is responsible for the administration and awards under the Company's 1993 Stock Option Plan and the 1993 Restricted Stock Plan. Messrs. Barrios and Bailey are the members of both the Compensation Committee and the Stock Option Committee. Messrs. Barrios and Bailey are "non-employee directors" within the meaning of Rule 16b-3 under the Securities Exchange Act of 1934, as amended. Both the Compensation Committee and the Stock Option Committee met on three occasions in 2001. The Compensation Committee and the Stock Option Committee have reviewed and are in accordance with the compensation paid to executive officers for the fiscal year ended December 31, 2001.

Compensation Policies

The guiding principle of the Company is to establish a compensation program that aligns executive compensation with Company objectives and business strategies, as well as financial performance, with the primary objective of creating shareholder value. In keeping with this principle, the Company seeks to:

- (1) Attract and retain qualified executives who will play a significant role in, and be committed to, the achievement of the Company's long-term goals.
- (2) Reward executives for strategic management, and the creation and long-term maximization of shareholder value.
- (3) Create a performance-oriented environment that rewards performance with respect to the financial goals of the Company.

Annually, individual goals and objectives are agreed upon for each executive officer. An executive officer's performance is reviewed in such areas as financial results, quality of performance, job and professional knowledge, decision making and business judgment, initiative, analytical skills, communication skills, interpersonal and organizational skills, creativity and leadership.

Executive compensation consists of both cash and equity-based compensation. Cash compensation is comprised of base salary and bonus. Base salary is determined with reference to market norms. Bonus compensation is tied to the Company's success in achieving financial and non-financial performance. In 2000, the Compensation Committee approved an incentive compensation program for bonus payments of up to 15% of base salary for the executive officers of the Company. Such bonus payments were to be made at the discretion of the Compensation Committee at the end of the year based upon achievement of agreed-upon goals and objectives for the Company as a whole and for each individual. Two-thirds of any award was to be based upon the achievement of overall Company goals with the remaining one-third based upon the achievement of individual goals. Based upon the assessment of the Compensation Committee as to the degree to which the Company and individual goals were achieved in 2000, the executive officers were awarded the bonuses set forth in the Summary Compensation Table. In 2001, the Compensation Committee did not approve any bonus payable under such program.

Equity-based compensation is comprised primarily of stock option grants. In establishing equity-based compensation, the Company places particular emphasis on the achievement of the Company's long-term performance goals. The Company believes that equity-based compensation closely aligns the economic interest of the Company's executive officers with the economic interests of the Company's shareholders. The Compensation Committee reviews the outstanding unvested options of the key executives from time to time and may grant additional options to encourage the retention of key executives. No options were granted to executive officers in 2001 by the Stock Option Committee.

Chief Executive Officer

The Chief Executive Officer's compensation generally is based on the same policies and criteria as the other executive officers. Mr. Peterson's base salary that was in effect for 2001 was increased by approximately 7.7% in May 2001 from his prior salary based upon the extent to which the Company had

Edgar Filing: SHEFFIELD PHARMACEUTICALS INC - Form DEF 14A

achieved its goals up to that date and the Compensation Committee's view of Mr. Peterson's role in that achievement. Mr. Peterson did not receive a bonus in 2001. In establishing Mr. Peterson's compensation, the factors described above were taken into account. The Compensation Committee and the Stock Option Committee believe that Mr. Peterson's compensation, including salary and stock options, fall within the Company's compensation philosophy and are within industry norms.

Deductibility of Executive Compensation under the Internal Revenue Code

Section 162(m) of the Internal Revenue Code disallows a tax deduction to certain public companies for compensation over \$1 million paid to the Company's Chief Executive Officer and its four other most highly compensated executive officers, subject to a number of exceptions. Qualifying performance-based compensation will not be subject to the deduction limit if certain requirements are met. Both the Company's 1993 Stock Option Plan, as amended, and the Company's 1993 Restricted Stock Plan, are intended to comply with Section 162(m) and meet deductibility requirements. The Company has not and does not currently anticipate in the foreseeable future paying non-performance based compensation in excess of \$1 million per annum to any employee.

for the testing and development of the Company's rights in its Premaire metered solution inhaler technology in respect of therapies for respiratory diseases. In September 2001, the Company amended its 1998 agreement with Zambon whereby Sheffield regained the rights to the Premaire previously granted to Zambon. As part of the amended agreement, Zambon provided a low-interest, \$2.5 million loan to Sheffield to progress the development of the Premaire respiratory program. Upon commercialization, Zambon will be entitled to certain royalties on payments received by Sheffield for albuterol, ipratropium and cromolyn sales for specified periods. In addition to amending the licensing and development agreement, Inpharzam International, S.A. relinquished their right to appoint one Director to the Company's Board and as a result, Roberto Rettani, Managing Director and Chief Executive Officer of Zambon Group SpA, resigned as a director of the Company effective September 2001.

13

In June 1998, the Company consummated a license and financing transaction with Elan International Services Ltd, an affiliate of Elan Corporation, plc. In connection with this transaction, the Company formed Systemic Pulmonary Delivery, Ltd. ("SPD"), a wholly owned subsidiary, and entered into several agreements with Elan International Services Ltd., including a Securities Purchase Agreement and a Joint Development and Operating Agreement. ("RSD"), an 80.1 % owned subsidiary, 19.9% of which is owned by Elan International Services, Ltd., and entered into several agreements related to RSD with Elan International Services Ltd., including a Securities Purchase Agreement and a Joint Development and Operating Agreement. In addition, Elan International Services Ltd. and the Company have licensed certain of their intellectual property rights relating to pulmonary drug delivery systems to RSD.

On April 5, 2002, the Company received notification from Elan International Services, Ltd. that Todd C. Davis, a director of the Company, was no longer Elan's appointed representative on the Board of Directors. Elan has not appointed another representative to the Board, but reserves their right to do so in the future.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires that the Company's officers and directors and persons who own more than 10% of the Company's Common Stock file reports of ownership and changes in ownership with the Securities and Exchange Commission (the "SEC"). Officers, directors and greater than 10% stockholders are required by SEC regulation to furnish the Company with copies of all Section 16(a) forms that they file.

Based solely on its review of the copies of such forms received by it, and written representations from certain reporting persons that no Forms 5 were required for those persons, the Company believes that during the fiscal year ended December 31, 2001, all Section 16(a) filing requirements applicable to its officers, directors and greater than 10% beneficial owners were complied with on a timely basis.

PROPOSAL NO. 2

Edgar Filing: SHEFFIELD PHARMACEUTICALS INC - Form DEF 14A

APPROVAL OF AMENDMENT TO 1993 STOCK OPTION PLAN

In April 2002 the Board of Directors of the Company unanimously approved for submission to a vote of the stockholders proposals to amend the 1993 Stock Option Plan to provide for an increase in the aggregate number of shares reserved for issuance pursuant to the exercise of options granted thereunder from 4,000,000 shares of Common Stock to 5,000,000 shares of Common Stock. A copy of the 1993 Stock Option Plan was filed with the Securities and Exchange Commission, as an exhibit to the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2000.

The purposes of the 1993 Stock Option Plan are to attract and retain the best available personnel for positions of responsibility within the Company, to provide additional incentives to employees of the Company and to promote the success of the Company's business through the grant of options to purchase Common Stock. Each option granted pursuant to the 1993 Stock Option Plan shall be designated at the time of grant as either an "incentive stock option" or as a "non-statutory stock option."

The 1993 Stock Option Plan, as proposed to be amended, would authorize the issuance of a maximum of 5,000,000 shares of Common Stock pursuant to the exercise of options granted thereunder. As of April 22, 2002, stock options to purchase 3,290,300 of the 4,000,000 shares of Common Stock currently available under the 1993 Stock Option Plan have been granted under the 1993 Stock Option Plan and 709,700 shares of Common Stock remained available for future grant, before giving effect to the proposed amendment. As of April 22, 2002, under the 1993 Stock Option Plan (i) the current executive officers of the Company as a group had received options exercisable in the aggregate for 1,050,000 shares of Common Stock, (ii) the named executive officers had individually received options exercisable for the following number of shares of Common Stock: Mr. Fitzgerald, 705,000; Mr. Peterson, 705,000; Mr. Hoffman, 255,000, Dr. Armer, 90,000, Mr. Byron, 595,000 and Mr. Seikmann 595,000; and (iii) employees of the Company and its subsidiaries collectively had received options exercisable in the aggregate for 345,300 shares of Common Stock.

14

The Board of Directors believes it is in the Company's and its stockholders' best interests to approve the amendment to the 1993 Stock Option Plan because it will provide sufficient shares under the Plan to enable the Board to utilize stock based incentive compensation, which rewards long term value creation in keeping with the interests of the Company's shareholders, for both current and future employees of the Company.

SUMMARY OF THE 1993 STOCK OPTION PLAN

The 1993 Stock Option Plan is administered by the Stock Option Committee of the Board of Directors, which is comprised solely of non-employee directors. The Stock Option Committee determines to whom, among those eligible, and the time or times at which options will be granted, the number of shares to be subject to options, the duration of options, any conditions to the exercise of options, and the manner and price at which options may be exercised. In making such determinations, the Stock Option Committee may take into account the nature and period of service of eligible employees, their level of compensation, their past, present and potential contributions to the Company and such other factors as the Stock Option Committee in its discretion deems relevant. Only employees of the Company are eligible to receive options under the 1993 Stock Option Plan. The approximate number of eligible employees is fourteen.

Edgar Filing: SHEFFIELD PHARMACEUTICALS INC - Form DEF 14A

Options may consist of incentive stock options or non-qualified stock options. Incentive stock options granted under the 1993 Stock Option Plan are intended to qualify as "incentive stock options" within the meaning of Section 422 of the Internal Revenue Code.

The Stock Option Committee is authorized to amend, or terminate the 1993 Stock Option Plan, except that, to the extent required by law, rule or regulation, it is not authorized without stockholder approval to amend the 1993 Stock Option Plan to (i) materially increase the number of shares that may be issued pursuant to the exercise of options granted under the 1993 Stock Option Plan (except with regard to adjustments resulting from changes in capitalization); (ii) make any material change in the designation of the employees eligible to be granted options under the 1993 Stock Option Plan; or (iii) materially increase the benefits accruing to participants under the 1993 Stock Option Plan.

No options shall be granted under the 1993 Stock Option Plan after August 30, 2003, but options issued under the 1993 Stock Option Plan prior to such date shall remain in full force and effect until such options have expired or are cancelled.

Each option granted under the 1993 Stock Option Plan is evidenced by a written stock option agreement between the Company and the participant, which specifies the number of shares of Common Stock subject to the option and the other terms and conditions of the option, consistent with the requirements of the 1993 Stock Option Plan. The exercise price of each option is determined by the Stock Option Committee, but may not be less than 100% of the fair market value of the shares of Common Stock covered by the option on the date the option is granted, in the case of an incentive stock option, nor less than 85% of the fair market value of the shares of Common Stock covered by the option on the date the option is granted, in the case of a non-qualified stock option. If an incentive stock option is to be granted to an employee who owns over 10% of the total combined voting power of all classes of Company's stock, then the exercise price may not be less than 110% of the fair market value of the Common Stock covered by the option on the date the option is granted. For any date, fair market value means the closing price per share, as reported in the Wall Street Journal. The closing price per share was \$1.98 on April 22, 2002.

Generally, the exercise price may be paid in cash, by check or in such other forms as the Stock Option Committee may approve, including through shares of Common Stock valued at their fair market value on the date of exercise or a loan from the Company.

Options are generally not transferable by the participant other than by will, by the laws of descent and distribution or pursuant to a qualified domestic relations order, and are exercisable during the participant's lifetime only by the participant.

In the event of a change in control, the options shall be assumed by any successor entity unless the Stock Option Committee determines, in its sole discretion and in lieu of any such assumption, that the options shall be fully exercisable.

Unless otherwise provided in the stock option agreement, the term of each option shall be 5 years from the date of grant, provided that the maximum term of each option shall be 10 years. Notwithstanding the foregoing, incentive stock options granted to an employee who owns over 10% of the total combined voting power of all classes of stock of the Company shall expire not more than 5 years after the date of grant. The 1993 Stock Options Plan provides for the earlier expiration of options of a participant in the event of certain terminations of employment.

Subject to stockholder approval, a maximum of 5,000,000 shares of Common Stock may be issued under the 1993 Stock Option Plan. Shares of Common Stock underlying any option that expires or becomes unexercisable for any reason without having been exercised in full shall be added back to the shares of Common Stock available for issuance under the 1993 Stock Option Plan. If there is a stock split, stock dividend, recapitalization or other relevant change affecting the outstanding shares of Common Stock, appropriate adjustments will be made in the number and kind of shares available for issuance under the 1993 Stock Option Plan, the number and kind of shares as to which outstanding options shall be exercisable and the exercise price per share for any outstanding options.

The Company has filed a registration statement under the Securities Act with respect to 4,000,000 shares of Common Stock issuable pursuant to the 1993 Stock Option Plan. The Company intends to file an additional registration statement under the Securities Act with respect to additional shares of Common Stock issuable pursuant to the Amendment subsequent to the Amendment's approval by the Company's shareholders.

In general, under Section 162(m) of the Internal Revenue Code, income tax deductions of certain publicly-held corporations may be limited to the extent total compensation (including, but not limited to, base salary, annual bonus, stock option exercises, transfers of property and benefits paid under non-qualified plans) for certain executive officers exceeds \$1,000,000 in any one year. However, pursuant to the Section 162(m) treasury regulations, this deduction limit does not apply to certain performance-based compensation. Options granted under the 1993 Stock Option Plan will satisfy the performance based compensation exception if the options are granted by a committee of the Board consisting solely of two or more "outside directors," the 1993 Stock Option Plan sets the maximum number of shares that can be granted to any person within a specified period, the Company's stockholders approve such grant limit and the compensation is based solely on an increase in the fair market value of the Common Stock after the date of grant. The 1993 Stock Option Plan has been designed to comply with these requirements and provides that the maximum number of shares that may be awarded to any participant in any calendar year shall be 500,000.

Federal Tax Consequences

The following summary is intended only as a general guide as to the United States federal income tax consequences under current law of participation in the 1993 Stock Option Plan and does not attempt to describe all possible federal or other tax consequences of such participation or tax consequences based on particular circumstances.

A participant recognizes no taxable income for regular income tax purposes as the result of the grant or exercise of an incentive stock option qualifying under Section 422 of the Internal Revenue Code. However, upon the exercise of an incentive stock option, the difference between the fair market value of the Common Stock on that date and the purchase price will be treated as an adjustment in computing the participant's alternative minimum taxable income for the taxable year in which the exercise occurred and may subject the participant to an alternative minimum tax liability if such tax liability exceeds the participant's regular tax liability for such year. If a participant incurs an alternative minimum tax liability as a result of the exercise of an incentive stock option, special rules, not discussed herein, apply with respect to subsequent sales of the shares within the same calendar year, basis adjustments for purposes of computing the alternative minimum taxable income on a subsequent sale of the shares and tax credits which may arise in subsequent

tax years.

Participants who dispose of the shares acquired upon the exercise of an incentive stock option more than two years following the date the option was granted and one year following the exercise of the option, whichever occurs later, will normally recognize a long-term capital gain or loss equal to the difference, if any, between the sales price and the purchase price of the shares. In this case the Company will not be entitled to any deduction for federal income tax purposes. If a participant disposes of such shares either within two years after the date of grant or within one year after the date of exercise, the participant will recognize ordinary income equal to the lesser of: (a) the excess of the Common Stock's fair market value on the date of exercise over the purchase price, or (b) the participant's actual gain on the sale. Any additional gain (or loss) will be treated as a capital gain (or loss), which will be long- or short- term depending on how long the participant holds the shares. Generally, the Company will be able to deduct for federal income tax purposes any ordinary income recognized by the participant, except to the extent that the deduction is limited by applicable provisions of the Internal Revenue Code or the regulations thereunder.

A participant generally recognizes no taxable income as the result of the grant of a non-qualified stock option. Upon exercise of a non-qualified stock option, the participant normally recognizes ordinary income in an amount equal to the difference between the exercise price and the fair market value of the Common Stock on the exercise date. If the participant is an employee or former employee, the Company generally must withhold income and employment taxes on any such ordinary income. Upon the subsequent sale of the shares, any gain (or loss) will be long- or short-term capital

16

gain, depending on how long the participant holds the shares.
