**LIFE TIME FITNESS, INC. AND SUBSIDIARIES**  
**NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**1. Basis of Presentation**

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary to fairly present the consolidated financial position, results of operations and cash flows for the periods have been included.

These interim consolidated financial statements and the related notes should be read in conjunction with the annual consolidated financial statements and notes included in the latest Form 10-K, as filed with the Securities and Exchange Commission ( SEC ), which includes audited consolidated financial statements for the three fiscal years ended December 31, 2006.

**2. Share-Based Compensation**

We have four share-based compensation plans, the FCA, Ltd. 1996 Stock Option Plan (the 1996 Plan), the Life Time Fitness, Inc. 1998 Stock Option Plan (the 1998 Plan), the Life Time Fitness, Inc. 2004 Long-Term Incentive Plan (the 2004 Plan) and an Employee Stock Purchase Plan (the ESPP), collectively, the share-based compensation plans. In connection with approval for the 2004 Plan, our Board of Directors approved a resolution to cease making additional grants under the 1996 Plan and the 1998 Plan. The types of awards that may be granted under the 2004 Plan include incentive and non-qualified options to purchase shares of common stock, stock appreciation rights, restricted shares, restricted share units, performance awards and other types of share-based awards. As of September 30, 2007, we had granted a total of 5,587,165 options to purchase common stock under all of the share-based compensation plans, of which options to purchase 1,249,837 shares were outstanding, and a total of 390,611 restricted shares were outstanding, of which 291,368 restricted shares were unvested. We use the term restricted shares to define nonvested shares granted to employees and non-employee directors, whereas Statement of Financial Accounting Standards No. 123, Share-Based Payment (SFAS 123(R)) reserves that term for fully vested and outstanding shares whose sale is contractually or governmentally prohibited for a specified period of time.

The total number of options to purchase common stock include shares that vest on continued service (time-based) or upon achievement of certain market condition criteria (market-based). Most of the time-based options vest over a period of four or five years. The market-based options were granted to certain members of management at or around the time of our initial public offering. Upon meeting specific market performance criteria governing these stock options, sixty percent of these shares had vested as of December 31, 2005. The remaining forty percent of the shares, upon meeting additional specific market performance criteria, vested during the second quarter of 2006.

Total share-based compensation expense included in our consolidated statements of operations for the three and nine months ended September 30, 2007 and 2006, was as follows (in thousands):

	<b>Three Months Ended</b>		<b>Nine Months Ended</b>	
	<b>September 30,</b>		<b>September 30,</b>	
	<b>2007</b>	<b>2006</b>	<b>2007</b>	<b>2006</b>
Share-based compensation expense related to stock options	\$ 705	\$ 821	\$ 2,406	\$ 5,045
Share-based compensation expense related to restricted shares	1,120	423	3,174	1,124
Share-based compensation expense related to ESPP	30		91	
Total share-based compensation expense	\$ 1,855	\$ 1,244	\$ 5,671	\$ 6,169

**Table of Contents**

The following table summarizes the stock option transactions for the nine months ended September 30, 2007:

<b>Options</b>	<b>Shares</b>	<b>Weighted Average Exercise Price</b>	<b>Weighted Average Remaining Contractual Term (in years)</b>	<b>Aggregate Intrinsic Value (in thousands)</b>
Outstanding at December 31, 2006	1,724,599	\$ 20.15		
Granted	2,477	50.85		
Exercised	(454,439)	16.75		
Canceled	(22,800)	25.21		
Outstanding at September 30, 2007	1,249,837	\$ 21.36	6.8	\$ 49,971
Vested or Expected to Vest at September 30, 2007	1,195,809	\$ 21.18	6.7	\$ 48,021
Exercisable at September 30, 2007	668,889	\$ 17.98	6.3	\$ 29,004

The weighted average grant date fair value of stock options granted during the nine months ended September 30, 2007 and 2006, was \$20.35 and \$18.39, respectively. The aggregate intrinsic value of options (the amount by which the market price of the stock on the date of exercise exceeded the exercise price of the option) exercised during the nine months ended September 30, 2007 and 2006 was \$16.2 million and \$20.5 million, respectively. As of September 30, 2007, there was \$5.2 million of unrecognized compensation expense related to stock options that is expected to be recognized over a weighted average period of 1.5 years.

The fair value of each stock option was estimated on the date of the grant using the Black-Scholes option pricing model, using the following assumptions:

<b>Weighted Average Valuation Assumptions <sup>(1)</sup></b>	<b>Three Months Ended September 30,</b>		<b>Nine Months Ended September 30,</b>	
	<b>2007</b>	<b>2006</b>	<b>2007</b>	<b>2006</b>
Risk-free interest rate <sup>(2)</sup>		4.7%	4.7%	4.9%
Expected dividend yield				
Expected stock price volatility <sup>(3)</sup>		36.0%	36.9%	36.0%
Expected life of stock options (in years) <sup>(3)</sup>		5.0	5.0	5.0

(1) Forfeitures are estimated based on historical experience and projected employee turnover.

(2) Based on the five-year Treasury constant maturity interest

rate with the term that is consistent with the expected life of our stock options.

- (3) We estimate the expected life and volatility of stock options based on an average of the expected lives and volatilities assumptions reported by a peer group of publicly traded companies.

- (4) No options were granted in the three months ended September 30, 2007.

Net cash proceeds from the exercise of stock options were \$7.6 million and \$8.9 million for the nine months ended September 30, 2007, and 2006, respectively. The excess income tax benefit realized from stock option exercises total \$4.5 million and \$5.4 million, respectively, for those same periods.

A summary of restricted stock activity follows:

	<b>Restricted Shares</b>	<b>Range of Market Price per Share on Grant Date</b>
	<b>Outstanding</b>	
Balance at December 31, 2006	210,894	\$ 24.75-50.82
Granted	147,176	49.06-53.95
Canceled	(3,020)	46.51-49.06
Vested	(63,682)	24.75-50.82
Balance at September 30, 2007	291,368	\$ 24.75-53.95

**Table of Contents**

During the nine months ended September 30, 2007 and 2006, we issued 147,176 and 37,206 shares of restricted stock, respectively, with an aggregate fair value of \$7.2 million and \$1.7 million, respectively. The fair market value of restricted shares that vested during the nine months ended September 30, 2007 was \$2.7 million. The total value of each restricted stock grant, based on the fair market value of the stock on the date of grant, is amortized to compensation expense on a straight-line basis over the related vesting period.

Our ESPP provides for the sale of our common stock to our employees at discounted purchase prices. The cost per share under this plan is 90% of the fair market value of our common stock on the last day of the purchase period, as defined. The current purchase period under the ESPP began July 1, 2007 and ends December 31, 2007. Compensation expense under the ESPP is based on the discount of 10% at the end of the purchase period.

In June 2006, our Board of Directors authorized the repurchase of 500,000 shares of our common stock from time to time in the open market or otherwise for the primary purpose of offsetting the dilutive effect of shares pursuant to our ESPP. During the first nine months of 2007, we repurchased 12,635 shares for approximately \$0.7 million. As of September 30, 2007, there were 478,865 remaining shares authorized to be repurchased for this purpose. The shares repurchased to date have been purchased in the open market and, upon repurchase, became authorized but unissued shares of our common stock.

**3. Earnings per Share**

Basic earnings per common share (EPS) is computed by dividing net income by the weighted average number of shares of common stock outstanding during each period. Diluted EPS is computed similarly to basic EPS, except that the denominator is increased for any dilutive common stock equivalents, such as the assumed exercise of dilutive stock options using the treasury stock method and unvested restricted stock awards using the treasury stock method. A reconciliation of these amounts is as follows (share amounts and net income in thousands):

	<b>Three Months Ended</b>		<b>Nine Months Ended</b>	
	<b>September 30,</b>		<b>September 30,</b>	
	<b>2007</b>	<b>2006</b>	<b>2007</b>	<b>2006</b>
Net income	\$ 18,350	\$ 13,639	\$ 48,969	\$ 36,457
Weighted average number of common shares outstanding				
basic	37,630	36,172	37,061	36,006
Effect of dilutive stock options and restricted stock awards	679	888	590	970
Weighted average number of common shares outstanding diluted	38,309	37,060	37,651	36,976
Basic earnings per common share	\$ 0.49	\$ 0.38	\$ 1.32	\$ 1.01
Diluted earnings per common share	\$ 0.48	\$ 0.37	\$ 1.30	\$ 0.99

**4. Common Stock Offering**

On August 29, 2007, we closed on the public offering, issuance and sale of 1,500,000 shares of our common stock, and on September 7, 2007, we closed on the issuance and sale of 175,000 shares of our common stock pursuant to exercise of the underwriters' over-allotment option. The shares were sold to the public at \$55.40 per share, and the resulting proceeds totaled \$92.5 million, net of underwriting discounts and commissions and offering expenses of \$0.3 million. We used the net proceeds to repay a portion of the amounts outstanding under our revolving credit facility.

**Table of Contents****5. Operating Segments**

Our operations are conducted mainly through our sports and athletic, professional fitness, family recreation and resort/spa centers. We have aggregated the activities of our centers into one reportable segment as none of the centers meet the quantitative thresholds for separate disclosure under SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information, and each of the centers has similar expected economic characteristics, service and product offerings and customers. Our chief operating decision maker uses EBITDA as the primary measure of segment performance. For purposes of segment financial reporting and discussion of results of operations, Centers represent the revenue and associated costs (including general and administrative expenses) from membership dues and enrollment fees, all in-center activities including personal training, spa, cafe and other activities offered to members and non-member participants and rental income generated at the centers. Included in the All Other category in the table below is operating information related to nutritional products, media, athletic events, and two restaurants, and expenses, including interest expense, and corporate assets (including depreciation and amortization) not directly attributable to centers. The accounting policies of the Centers and operations classified as All Other are the same as those described in the summary of significant accounting policies in the annual consolidated financial statements and notes included in the latest Form 10-K, as filed with the SEC.

Financial data and reconciling information for our reporting segment to the consolidated amounts in the financial statements are as follows (in thousands):

	<b>Centers</b>	<b>All Other</b>	<b>Consolidated</b>

Depreciation and amortization	30,913	4,468	35,381
EBITDA	\$ 108,813	\$ (254)	\$ 108,559
Total assets	\$ 779,345	\$ 116,526	\$ 895,871

**Table of Contents****6. Income Taxes**

We adopted the provisions of FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48), on January 1, 2007. No cumulative effect upon adoption of FIN 48 was recorded; however, certain amounts have been presented in the consolidated balance sheet in conformance with the requirements of the statement.

At January 1 and September 30, 2007, we provided a liability for \$9.4 million and \$10.7 million, respectively, included in other liabilities on the consolidated balance sheet, for unrecognized tax benefits related to various federal and state income tax matters. Of these amounts, \$1.1 million and \$1.3 million, respectively, would affect our effective tax rate if recognized.

Interest and penalties related to unrecognized tax benefits are recognized as a component of the provision for income taxes. At January 1, 2007, we recorded a liability of \$0.8 million for interest and penalties. The liability for the payment of interest and penalties did not materially change during the nine months ended September 30, 2007.

We file tax returns in the U.S. federal jurisdiction and various state jurisdictions. The tax years 2004 through 2006 remain open to examination. Approximately \$9.1 million of unrecognized tax benefits relate to items that are affected by expiring statutes of limitation within the next 12 months, of which \$0.5 million may impact our effective tax rate.

**7. Supplementary Cash Flow Information**

Decreases (increases) in operating assets and increases (decreases) in operating liabilities are as follows:

	<b>For the Nine Months Ended September 30,</b>	
	<b>2007</b>	<b>2006</b>
Accounts receivable	\$ (1,241)	\$ 2,330
Income taxes receivable	1,843	7,255
Inventories	(3,964)	(1,275)
Prepays and other current assets	(2,619)	(2,357)
Deferred membership origination costs	(5,663)	(3,005)
Accounts payable	6,189	1,415
Accrued expenses	7,539	11,063
Deferred revenue	6,595	7,640
Deferred rent	(165)	2,587
Other liabilities	439	
	<b>\$ 8,953</b>	<b>\$ 25,653</b>

**8. Commitments and Contingencies**

*Litigation* We are engaged in legal proceedings incidental to the normal course of business. Due to their nature, such legal proceedings involve inherent uncertainties, including but not limited to, court rulings, negotiations between affected parties and governmental intervention. We have established reserves for matters that are probable and estimable in amounts we believe are adequate to cover reasonable adverse judgments not covered by insurance. Based upon the information available to us and discussions with legal counsel, it is our opinion that the outcome of the various legal actions and claims that are incidental to our business will not have a material adverse impact on the consolidated financial position, results of operations or cash flows; however, such matters are subject to many uncertainties, and the outcome of individual matters are not predictable with assurance.

**Table of Contents**

**9. Subsequent Event**

On October 10, 2007, we entered into a three-year floating rate interest to fixed rate interest rate swap hedge, with our LIBOR-indexed variable rate revolving credit facility hedged with a 4.825% fixed interest rate, plus the applicable spread, on a notional amount of \$125.0 million. The transaction will be accounted for in accordance with SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities, as amended and interpreted, which requires all derivatives be recorded at fair value on the balance sheet and establishes criteria for designation and effectiveness of derivative transactions for which hedge accounting is applied.

**Item 2.**

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF  
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

**Forward-Looking Statements**

The following discussion may contain forward-looking statements regarding us and our business, prospects and results of operations that are subject to certain risks and uncertainties posed by many factors and events that could cause our actual business, prospects and results of operations to differ materially from those that may be anticipated by such forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those described under Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2006. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this report. We undertake no obligation to revise any forward-looking statements in order to reflect events or circumstances that may subsequently arise. Readers are urged to carefully review and consider the various disclosures made by us in this report and in our other reports filed with the SEC that advise interested parties of the risks and factors that may affect our business.

The interim financial statements filed on this Form 10-Q and the discussions contained herein should be read in conjunction with the annual consolidated financial statements and notes included in the latest Form 10-K, as filed with the SEC, which includes audited consolidated financial statements for the three fiscal years ended December 31, 2006.

**Overview**

We operate distinctive and large sports and athletic, professional fitness, family recreation and resort/spa centers. As of October 15, 2007, we operated 68 centers primarily in residential locations across 15 states under the LIFE TIME FITNESS brand. We commenced operations in 1992 by opening centers in the Minneapolis and St. Paul, Minnesota area. During this period of initial growth, we refined the format and model of our center while building our membership base, infrastructure and management team. As a result, several of the centers that opened during our early years have designs that differ from our current model center.

We compare the results of our centers based on how long the centers have been open at the most recent measurement period. We include a center for comparable center revenue purposes beginning on the first day of the thirteenth full calendar month of the center's operation, prior to which time we refer to the center as a new center. As we grow our presence in existing markets by opening new centers, we expect to attract some memberships away from our other existing centers already in those markets, reducing revenue and initially lowering the memberships of those existing centers. In addition, as a result of new center openings in existing markets, and because older centers will represent an increasing proportion of our center base over time, our comparable center revenue may be lower in future periods than in the past. Of the eight new centers and two acquisitions we plan to open or take over operations in 2007, we expect that seven will be in existing markets. We do not expect that operating costs of our planned new centers will be significantly higher than centers opened in the past, and we also do not expect that the planned increase in the number of centers will have a material adverse effect on the overall financial condition or results of operations of existing centers. Another result of opening new centers, as well as the assumption of operations of acquired facilities, including seven leased facilities in 2006, is that our center operating margins may be lower than they have been historically while the centers build membership base. We expect both the addition of pre-opening expenses and the lower revenue volumes characteristic of newly-opened centers, as well as the facility costs for the seven leased centers, to affect our center operating margins at these new centers and on a consolidated basis. Our operating results generally do not include the center owned by Bloomingdale LIFE TIME Fitness, L.L.C. because it is accounted for as an investment in an unconsolidated affiliate and is not consolidated in our financial statements.

**Table of Contents**

We measure performance using such key operating statistics as average revenue per membership, including membership dues and enrollment fees, average in-center revenue per membership and center operating expenses, with an emphasis on payroll and occupancy costs, as a percentage of sales and comparable center revenue growth. We use center revenue and EBITDA margins to evaluate overall performance and profitability on an individual center basis. In addition, we focus on several membership statistics on a center-level and system-wide basis. These metrics include growth of center membership levels and growth of system-wide memberships, percentage of center memberships to target capacity, center membership usage, center membership mix among individual, couple and family memberships and center attrition rates.

We have three primary sources of revenue. First, our largest source of revenue is membership dues and enrollment fees paid by our members. We recognize revenue from monthly membership dues in the month to which they pertain. We recognize revenue from enrollment fees over the expected average life of the membership, which we estimate to be 36 months. Second, we generate revenue, which we refer to as in-center revenue, at our centers from fees for personal training, dieticians, group fitness training and other member activities, sales of products at our LifeCafe, sales of products and services offered at our LifeSpa and renting space in certain of our centers. And third, we have expanded the LIFE TIME FITNESS brand into other wellness-related offerings that generate revenue, which we refer to as other revenue, including our media, corporate wellness and athletic events businesses. Our primary media offering is our magazine, *Experience Life*. Other revenue also includes our two restaurants and rental income on one office building.

Center operations expenses consist primarily of salary, commissions, payroll taxes, benefits, real estate taxes and other occupancy costs, utilities, repairs and maintenance, supplies, administrative support and communications to operate our centers. Advertising and marketing expenses consist of our marketing department costs and media and advertising costs to support center membership growth and our media, athletic event and nutritional product businesses. General and administrative expenses include costs relating to our centralized support functions, such as accounting, information systems, procurement, real estate and development and member relations. Our other operating expenses include the costs associated with our media, corporate wellness and athletic events businesses, our two restaurants and other corporate expenses, as well as gains or losses on our dispositions of assets. Our total operating expenses may vary from period to period depending on the number of new centers opened during that period and the number of centers engaged in presale activities.

Our primary capital expenditures relate to the construction of new centers and updating and maintaining our existing centers. The land acquisition, construction and equipment costs for a current model center, since 2000, has ranged from approximately \$18 to \$36 million, and can vary considerably based on variability in land cost and the cost of construction labor, as well as whether or not a tennis area is included or whether or not we expand the gymnasium. The average cost for the current model centers opened in 2006 increased to \$29.5 million as a result of higher land costs and higher construction costs in states where we are opening centers. We expect the average cost of new centers constructed in 2007 to be approximately \$30 million. We perform maintenance and make improvements on our centers and equipment throughout each year. We conduct a more thorough remodeling project at each center approximately every four to six years.

**Critical Accounting Policies and Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the U.S., or GAAP, requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. In recording transactions and balances resulting from business operations, we use estimates based on the best information available. We use estimates for such items as depreciable lives, volatility factors, expected lives and rate of return in determining fair value of option grants, tax provisions and provisions for uncollectible receivables. We also use estimates for calculating the amortization period for deferred enrollment fee revenue and associated direct costs, which are based on the weighted average expected life of center memberships. We revise the recorded estimates when better information is available, facts change or we can determine actual amounts. These revisions can affect operating results.

Our critical accounting policies and use of estimates are discussed in and should be read in conjunction with the annual consolidated financial statements and notes included in the latest Form 10-K, as filed with the SEC, which includes audited consolidated financial statements for the three fiscal years ended December 31, 2006.

**Table of Contents****Results of Operations**

The following table sets forth our statement of operations data as a percentage of total revenues and also sets forth other financial and operating data:

	<b>For the Three Months Ended September 30,</b>		<b>For the Nine Months Ended September 30,</b>	
	<b>2007</b>	<b>2006</b>	<b>2007</b>	<b>2006</b>
<b>Revenue</b>				
Center revenue:				
Membership dues	66.0%	65.9%	65.8%	65.8%
Enrollment fees	3.8	4.5	3.8	4.5

<b>Income before income taxes</b>	18.1	17.6	16.9	16.3
Provision for income taxes	7.3	7.5	6.8	6.5
<b>Net income</b>	10.8%	10.1%	10.1%	9.8%
<b>Other financial and operating data:</b>				
Average center revenue per membership	\$ 345	\$ 328	\$ 1,016	\$ 958
Average in-center revenue per membership	\$ 99	\$ 91	\$ 294	\$ 269
Centers open at end of period	67	56	67	56
Number of memberships at end of period	492,410	427,765	492,410	427,765

*Three months ended September 30, 2007, Compared to Three months ended September 30, 2006*

*Total revenue.* Total revenue increased \$34.8 million, or 25.8%, to \$169.5 million for the three months ended September 30, 2007, from \$134.7 million for the three months ended September 30, 2006.

Total center revenue grew \$34.6 million, or 26.4%, to \$165.8 million for the three months ended September 30, 2007, from \$131.2 million for the three months ended September 30, 2006. Comparable center revenue increased 5.1% for the three months ended September 30, 2007 compared to the three months ended September 30, 2006. Of the \$34.6 million increase in total center revenue,

66.4% was from membership dues, which increased \$23.0 million, due to increased memberships at new centers, junior membership programs and increased sales of Sports, Advantage and other value-added memberships.

32.4% was from in-center revenue, which increased \$11.2 million primarily as a result of our members increased use of our personal training, member activities, LifeCafe and LifeSpa products and services. As a result of this in-center revenue growth and our focus on broadening our offerings to our members, average in-center revenue per membership increased to \$99 for the three months ended September 30, 2007, from \$91 for the three months ended September 30, 2006.

**Table of Contents**

1.2% was from enrollment fees, which are deferred until a center opens and recognized on a straight-line basis over 36 months. Enrollment fees increased \$0.4 million for the three months ended September 30, 2007 to \$6.5 million. Our number of memberships increased 15.1% to 492,410 at September 30, 2007, from 427,765 at September 30, 2006.

Other revenue increased \$0.1 million, or 3.2%, to \$3.7 million for the three months ended September 30, 2007, which was primarily due to increased advertising revenue from our media business.

*Center operations expenses.* Center operations expenses totaled \$97.6 million, or 58.9% of total center revenue (or 57.6% of total revenue), for the three months ended September 30, 2007 compared to \$77.7 million, or 59.2% of total center revenue (or 57.7% of total revenue), for the three months ended September 30, 2006. This \$19.9 million increase primarily consisted of \$11.4 million in additional payroll-related costs to support increased memberships at new centers and an increase of \$4.6 million in facility-related costs, including incremental lease expense for the seven leased centers for which we assumed operations in late July 2006, utilities and real estate taxes, and an increase in expenses to support in-center products and services. As a percent of total revenue, center operations expense declined slightly due to dues revenue growth and productivity improvements that more than offset lower center operating margins associated with new centers including the leased centers.

*Advertising and marketing expenses.* Advertising and marketing expenses were \$5.4 million, or 3.2% of total revenue, for the three months ended September 30, 2007, compared to \$4.9 million, or 3.6% of total revenue, for the three months ended September 30, 2006. These expenses increased primarily due to advertising for our new centers and those centers engaging in presale activities. As a percent of total revenue, advertising and marketing expenses decreased primarily due to fewer and more efficient marketing campaigns.

*General and administrative expenses.* General and administrative expenses were \$9.8 million, or 5.8% of total revenue, for the three months ended September 30, 2007, compared to \$8.7 million, or 6.5% of total revenue, for the three months ended September 30, 2006. These expenses increased primarily due to increased costs to support the growth in our membership and center base. As a percent of total revenue, general and administrative expense decreased primarily due to increased efficiencies and productivity improvements.

*Other operating expenses.* Other operating expenses were \$4.3 million for the three months ended September 30, 2007, compared to \$3.9 million for the three months ended September 30, 2006.

*Depreciation and amortization.* Depreciation and amortization was \$14.9 million for the three months ended September 30, 2007, compared to \$11.7 million for the three months ended September 30, 2006. This \$3.2 million increase was due primarily to depreciation on our new centers opened in 2006 and the first nine months of 2007.

*Interest expense, net.* Interest expense, net of interest income, was \$7.1 million for the three months ended September 30, 2007, compared to \$4.2 million for the three months ended September 30, 2006. This increase was primarily the result of increased average debt balances and increased interest rates on floating rate debt.

*Provision for income taxes.* The provision for income taxes was \$12.4 million for the three months ended September 30, 2007, compared to \$10.1 million for the three months ended September 30, 2006. This \$2.3 million increase was due to an increase in income before income taxes of \$6.9 million.

*Net income.* As a result of the factors described above, net income was \$18.4 million, or 10.8% of total revenue, for the three months ended September 30, 2007, compared to \$13.6 million, or 10.1% of total revenue, for the three months ended September 30, 2006.

***Nine months ended September 30, 2007, Compared to Nine months ended September 30, 2006***

*Total revenue.* Total revenue increased \$112.1 million, or 30.1%, to \$484.7 million for the nine months ended September 30, 2007, from \$372.6 million for the nine months ended September 30, 2006.

Total center revenue grew \$110.5 million, or 30.3%, to \$474.8 million for the nine months ended September 30, 2007, from \$364.3 million for the nine months ended September 30, 2006. Comparable center revenue increased 6.3% for the nine months ended September 30, 2007 compared to the nine months ended September 30, 2006. Of the \$110.5 million increase in total center revenue,

**Table of Contents**

66.8% was from membership dues, which increased \$73.8 million, due to increased memberships at new centers, junior membership programs and increased sales of Sports, Advantage and other value-added memberships.

31.5% was from in-center revenue, which increased \$34.9 million primarily as a result of our members increased use of our personal training, member activities, LifeCafe and LifeSpa products and services. As a result of this in-center revenue growth and our focus on broadening our offerings to our members, average in-center revenue per membership increased to \$294 for the nine months ended September 30, 2007, from \$269 for the nine months ended September 30, 2006.

1.7% was from enrollment fees, which are deferred until a center opens and recognized on a straight-line basis over 36 months. Enrollment fees increased \$1.8 million for the nine months ended September 30, 2007 to \$18.6 million. Our number of memberships increased 15.1% to 492,410 at September 30, 2007, from 427,765 at September 30, 2006.

Other revenue increased \$1.5 million, or 18.4%, to \$9.9 million for the nine months ended September 30, 2007, which was primarily due to increased advertising revenue from our media business.

*Center operations expenses.* Center operations expenses totaled \$281.2 million, or 59.2% of total center revenue (or 58.0% of total revenue), for the nine months ended September 30, 2007 compared to \$211.3 million, or 58.0% of total center revenue (or 56.7% of total revenue), for the nine months ended September 30, 2006. This \$69.8 million increase primarily consisted of \$37.0 million in additional payroll-related costs to support increased memberships at new centers and an increase of \$17.5 million in facility-related costs, including incremental lease expense for the seven leased centers for which we assumed operations in late July 2006, utilities and real estate taxes, and an increase in expenses to support in-center products and services. As a percent of total center revenue, center operations expense increased primarily due to the lower center operating margins associated with new centers including the leased centers.

*Advertising and marketing expenses.* Advertising and marketing expenses were \$18.2 million, or 3.8% of total revenue, for the nine months ended September 30, 2007, compared to \$15.5 million, or 4.2% of total revenue, for the nine months ended September 30, 2006. These expenses increased primarily due to advertising for our new centers and those centers engaging in presale activities.

*General and administrative expenses.* General and administrative expenses were \$30.9 million, or 6.4% of total revenue, for the nine months ended September 30, 2007, compared to \$28.4 million, or 7.5% of total revenue, for the nine months ended September 30, 2006. This \$2.5 million increase was primarily due to increased costs to support the growth in our membership and center base in 2007. As a percent of total revenue, general and administrative expense decreased primarily due to lower share-based compensation expense from the market-based options in the first nine months of 2007 compared to the same period in 2006, as well as productivity improvements.

*Other operating expenses.* Other operating expenses were \$11.4 million for the nine months ended September 30, 2007, compared to \$9.5 million for the nine months ended September 30, 2006.

*Depreciation and amortization.* Depreciation and amortization was \$43.3 million for the nine months ended September 30, 2007, compared to \$35.4 million for the nine months ended September 30, 2006. This \$7.9 million increase was due primarily to depreciation on our new centers opened in 2006 and the first nine months of 2007.

*Interest expense, net.* Interest expense, net of interest income, was \$19.0 million for the nine months ended September 30, 2007, compared to \$12.5 million for the nine months ended September 30, 2006. This increase was primarily the result of increased average debt balances and increased interest rates on floating rate debt.

*Provision for income taxes.* The provision for income taxes was \$32.7 million for the nine months ended September 30, 2007, compared to \$24.3 million for the nine months ended September 30, 2006. This \$8.4 million increase was due to an increase in income before income taxes of \$21.0 million.

*Net income.* As a result of the factors described above, net income was \$49.0 million, or 10.1% of total revenue, for the nine months ended September 30, 2007, compared to \$36.5 million, or 9.8% of total revenue, for the nine months ended September 30, 2006.

**Table of Contents****Liquidity and Capital Resources*****Liquidity***

Historically, we have satisfied our liquidity needs through various debt arrangements, sales of equity and cash provided by operations. Principal liquidity needs have included the development of new centers, debt service requirements and expenditures necessary to maintain and update our existing centers and their related fitness equipment. We believe that we can satisfy our current and longer-term debt service obligations and capital expenditure requirements with cash flow from operations, by the extension of the terms of or refinancing our existing debt facilities, through sale-leaseback transactions and by continuing to raise long-term debt or equity capital, although there can be no assurance that such actions can or will be completed. Our business model operates with negative working capital because we carry minimal accounts receivable due to our ability to have monthly membership dues paid by electronic draft, we defer enrollment fee revenue and we fund the construction of our new centers under standard arrangements with our vendors that are paid with proceeds from long-term debt.

***Operating Activities***

As of September 30, 2007, we had total cash and cash equivalents of \$0.8 million and \$7.0 million of restricted cash that serves as collateral for certain of our debt arrangements. We also had \$133.4 million available under the existing terms of our revolving credit facility as of September 30, 2007.

Net cash provided by operating activities was \$107.3 million for the nine months ended September 30, 2007, compared to \$103.0 million for the nine months ended September 30, 2006.

***Investing Activities***

Investing activities consist primarily of purchasing real property, constructing new centers and purchasing new fitness equipment. In addition, we invest in capital expenditures to maintain and update our existing centers. We finance the purchase of our property and equipment by cash payments or by financing through notes payable or capital lease obligations. For current model centers, our investment, through September 30, 2007, has ranged from approximately \$18 to \$36 million, which includes the land, the building and approximately \$3 million of exercise equipment, furniture and fixtures. We expect the average cost of new centers constructed in 2007 to be approximately \$30 million.

Net cash used in investing activities was \$314.6 million for the nine months ended September 30, 2007, compared to \$175.5 million for the nine months ended September 30, 2006. The increase of \$139.1 million was primarily due to capital expenditures for the construction of new centers, purchase of land for future centers and updates to our existing centers.

The following schedule reflects capital expenditures by type of expenditure (in thousands):

	<b>For the Nine Months Ended September 30,</b>	
	<b>2007</b>	<b>2006</b>
Capital expenditures for new center land, building and construction	\$ 245,981	\$ 148,667
Capital expenditures for updating existing centers, center acquisitions and corporate infrastructure	64,497	23,931
Total capital expenditures	\$ 310,478	\$ 172,598

At October 15, 2007, we had purchased the real property for the eight new centers that we plan to open in 2007, six of which had already opened, as well as the relevant assets for two acquired centers. In addition, we had purchased the real property for seven of the ten large format centers we plan to open in 2008, and we had entered into an agreement to purchase real property or lease property for the development of three large format centers that we plan to open in 2008.

We expect our capital expenditures to be approximately \$80 to \$90 million in the remaining three months of 2007, of which we expect approximately \$10 to \$15 million for the updating of existing centers and corporate infrastructure as well as the remodel of the seven centers leased in July 2006 and the completion of a new office building, which we

plan to move into during the fourth quarter of 2007. In addition, we expect to incur approximately \$70 to \$75 million for new center construction. We plan to fund these capital expenditures with cash from operations and our revolving line of credit.

**Table of Contents*****Financing Activities***

Net cash provided by financing activities was \$201.1 million for the nine months ended September 30, 2007, compared to \$74.4 million for the nine months ended September 30, 2006. The change of \$126.7 million was primarily due to a new \$105.0 million mortgage financing and \$92.5 million in common stock offering proceeds, partially offset by repayments on our revolving credit facility.

On August 24, 2007, we entered into an underwriting agreement with Credit Suisse Securities (USA) LLC (the Underwriter), relating to the public offering, issuance and sale of 1,500,000 shares of our common stock which closed on August 29, 2007, plus up to an additional 175,000 shares for the underwriter's over-allotment option (the Offering), which was exercised on September 3, 2007 and closed on September 7, 2007. The public offering price of shares sold in the Offering was \$55.40 per share.

On April 15, 2005, we entered into a Credit Agreement, with U.S. Bank National Association, as administrative agent and lead arranger, J.P. Morgan Securities, Inc., as syndication agent, and the banks party thereto from time to time (the U.S. Bank Facility). On May 31, 2007, we entered into a Second Amended and Restated Credit Agreement effective May 31, 2007 to amend and restate our U.S. Bank Facility. The material changes to the U.S. Bank Facility increase the amount of the facility from \$300.0 million to \$400.0 million, which may be increased by an additional \$25.0 million upon the exercise of an accordion feature, and extend the term of the facility by a little over one year to May 31, 2012. Interest on the amounts borrowed under the U.S. Bank Facility continues to be based on (i) a base rate, which is the greater of (a) U.S. Bank's prime rate and (b) the federal funds rate plus 50 basis points, or (ii) an adjusted Eurodollar rate, plus, in either case (i) or (ii), the applicable margin within a range based on our consolidated leverage ratio. In connection with the amendment and restatement of the U.S. Bank Facility, the applicable margin ranges were reduced to zero at all times (from zero to 25 basis points) for base rate borrowings and decreased to 62.5 to 150 basis points (from 75 to 175 basis points) for Eurodollar borrowings. As of September 30, 2007, \$247.8 million was outstanding on the U.S. Bank Facility, plus \$18.8 million related to letters of credit.

The weighted average interest rate and debt outstanding under the revolving credit facility for the nine months ended September 30, 2007 was 6.8% and \$217.6 million, respectively. The weighted average interest rate and debt outstanding under the revolving credit facility for the nine months ended September 30, 2006 was 6.5% and \$121.5 million, respectively.

On January 24, 2007, LTF CMBS I, LLC, a wholly owned subsidiary, obtained a commercial mortgage-backed loan in the original principal amount of \$105.0 million from Goldman Sachs Commercial Mortgage Capital, L.P. pursuant to a loan agreement dated January 24, 2007. The mortgage financing is secured by six properties owned by the subsidiary and operated as Life Time Fitness centers located in Tempe, Arizona, Commerce Township, Michigan, and Garland, Flower Mound, Willowbrook and Sugar Land, Texas. The mortgage financing matures in February 2017. Interest on the amounts borrowed under the mortgage financing referenced above is 6.03% per annum, with a constant monthly debt service payment of \$0.6 million. Our subsidiary LTF CMBS I, LLC, as landlord, and LTF Club Operations Company, Inc., another wholly owned subsidiary of ours as tenant, entered into a lease agreement dated January 24, 2007 with respect to the properties. The initial term of the lease ends in February 2022, but the lease term may be extended at the option of LTF Club Operations Company, Inc. for two additional periods of five years each. Our subsidiaries may not transfer any of the properties except as permitted under the loan agreement. We guarantee the obligations of our subsidiary under the lease.

As additional security for LTF CMBS I, LLC's obligations under the mortgage financing, the subsidiary granted a security interest in all assets owned from time to time by the subsidiary including the properties which had a net book value of \$99.1 million on January 24, 2007, the revenues from the properties and all other tangible and intangible property, and certain bank accounts belonging to the subsidiary that the lender has required pursuant to the mortgage financing.

We are in compliance in all material respects with all restrictive and financial covenants under our various credit facilities as of September 30, 2007.

The total liability for uncertain tax positions under FIN 48 at September 30, 2007 was approximately \$10.7 million (refer to Note 6). We do not expect a significant payment related to unrecognized tax benefits within the next twelve months.

**Table of Contents****Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

We invest our excess cash in highly liquid short-term investments. These investments are not held for trading or other speculative purposes. Changes in interest rates affect the investment income we earn on our cash and cash equivalents and, therefore, impact our cash flows and results of operations. As of September 30, 2007 and December 31, 2006, our floating rate indebtedness was approximately \$247.8 million and \$245.0 million, respectively. If long-term floating interest rates were to have increased by 100 basis points during the nine months ended September 30, 2007, our interest costs would have increased by approximately \$1.6 million. If short-term interest rates were to have increased by 100 basis points during the nine months ended September 30, 2007, our interest income from cash equivalents would have increased by less than \$0.1 million. These amounts are determined by considering the impact of the hypothetical interest rates on our floating rate indebtedness and cash equivalents balances at September 30, 2007.

**Item 4. CONTROLS AND PROCEDURES**

As of the end of the period covered by this report, we conducted an evaluation, under the supervision and with the participation of the principal executive officer and principal financial officer, of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the Exchange Act)). Based on this evaluation, the principal executive officer and principal financial officer concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms and is accumulated and communicated to our management, including the principal executive and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. There was no change in our internal control over financial reporting identified in connection with the evaluation required by Rule 13a-15(d) and 15d-15(d) of the Exchange Act that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
