ITEM 2.02 RESULTS OF OPERATIONS AND FINANCIAL CONDITION.

The following information is being furnished under Item 2.02 -- Results of Operations and Financial Condition.

On August 2, 2006, Las Vegas Sands Corp. (the "Company") issued a press release announcing its results of operations for the second quarter ended June 30, 2006. The press release is attached as Exhibit 99.1 to this report and is incorporated by reference into this item.

Within the Company's second quarter 2006 press release, the Company makes reference to certain non-GAAP financial measures including "adjusted net income", "adjusted earnings per diluted share", "adjusted EBITDA" and "adjusted property EBITDAR", which have directly comparable GAAP financial measures. The Company believes that these measures represent important internal measures of performance. Accordingly, where these non-GAAP measures are provided, it is done so that investors have the same financial data that management uses with the belief that it will assist the investment community in properly assessing the underlying performance of the Company on a year-over-year and a quarter sequential basis. Whenever such information is presented, the Company has complied with the provisions of the rules under Regulation G and Item 2.02 of Form 8-K. The specific reasons, in addition to the reasons described above, why the Company's management believes that the presentation of the non-GAAP financial measures provides useful information to investors regarding the Company's financial condition, results of operations and cash flows are as follows:

Adjusted net income and adjusted earnings per diluted share are presented as supplemental disclosure as management believes they are (1) each widely used measures of performance by industry analysts and investors and (2) a principal basis for valuation of gaming companies, as these non-GAAP measures are considered by many as an alternative measure on which to base expectations of future results. These measures also form the basis of certain internal management performance expectations. Accordingly, these measures are presented so that investors have the same financial data that management uses with the belief that it will assist the investment community in properly assessing the underlying performance of the Company on a year-over-year and a quarter sequential basis.

Adjusted property EBITDAR and adjusted EBITDA are supplemental non-GAAP financial measures used by management, as well as industry analysts, to evaluate operations. In particular, management utilizes adjusted property EBITDAR to compare the operating profitability of its casinos with those of its competitors, as well as for certain incentive compensation. In arriving at adjusted property EBITDAR, rental expense is added to adjusted EBITDA because the Company leases its HVAC plant and believes this provides a comparison of operating profitability to Las Vegas competitors that own their HVAC plants. The Company is also presenting adjusted property EBITDAR because it is used by some investors as a way to measure a company's ability to incur and service debt, make capital expenditures and meet working capital requirements. Gaming

companies have historically reported EBITDAR as a supplemental performance measure to GAAP financial measures. In order to view the operations of their casinos on a more stand-alone basis, gaming companies, including Las Vegas

Edgar Filing: LAS VEGAS SANDS CORP - Form 8-K

Sands Corp., have historically excluded pre-opening expense, development expense, and corporate expense, which do not relate to the management of specific casino properties from their EBITDAR calculations. When evaluating adjusted property EBITDAR, investors should consider, among other factors, (1) increasing or decreasing trends in adjusted property EBITDAR and (2) how adjusted property EBITDAR compares to levels of debt and interest expense. However, adjusted property EBITDAR should not be interpreted as an alternative to income from operations (as an indicator of operating performance) or to cash flows from operations (as a measure of liquidity) as determined in accordance with generally accepted accounting principles. The Company has significant uses of cash flow, including capital expenditures, interest payments and debt principal repayments, which are not reflected in adjusted property EBITDAR. Not all companies calculate EBITDAR in the same manner. As a result, adjusted property EBITDAR as presented by Las Vegas Sands Corp. may not be comparable to similarly titled measures presented by other companies. Adjusted property EBITDAR consists of adjusted EBITDAR for a particular property, such as The Venetian in Las Vegas and The Sands Macao in Macao. Accordingly, the measures are presented so that investors have the same financial data that management uses with the belief that it will assist the investment community in properly assessing the underlying performance of the Company on a year-over-year and a quarter sequential basis.

ITEM 9.01 FINANCIAL STATEMENTS AND EXHIBITS.

(d) Exhibits.

99.1 Press Release, dated August 2, 2006.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report on Form 8-K to be signed on its behalf by the undersigned, thereunto duly authorized.
