The limited partnership interests consist of Consulier's investment in AVM, L.P. and BioSafe Systems, LLC.

AVM, L.P

Consulier owns approximately 10% of AVM's capital as of March 31, 2002 and December 31, 2001. Based on capital and earnings distributions provided in the partnership agreement, Consulier was allocated approximately 5% and 8%, respectively, of AVM's earnings during the three-month periods ended March 31, 2002 and 2001. Under the partnership agreement, Consulier may withdraw all or any portion of its capital account upon 30 days written notice. AVM's general partner may also expel Consulier from the partnership through payment of the balance of Consulier's capital account.

Following is a summary of the results of operations of AVM (in thousands):

At March 31, 2002, no stock options were outstanding.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

RESULTS OF OPERATIONS

THE FOLLOWING COMPARES THE RESULTS OF OPERATIONS FOR THE THREE MONTHS ENDED MARCH 31, 2002 TO THE THREE MONTHS ENDED MARCH 31, 2001:

During the quarter ended March 31, 2002, sales and cost of goods sold decreased \$52,402 and \$31,569, respectively, from the comparable amounts recorded during the quarter ended March 31, 2001. Gross profit for the three months ended March 31, 2002 decreased \$20,833 compared to the three months ended March 31, 2001. Net Income for the first quarter of 2002 was \$271,081, or \$0.05 per share, compared to \$3,850, or \$0.00 per share, in the first quarter of 2001. The increase in net income is related primarily to an increase of \$228,322 in investment income from related parties, and of \$62,465 in undistributed income of equity investee.

Interest expense declined \$30,342 due to the reduction in notes payable banks and the partial redemption of bonds payable in the second quarter of 2001.

Other income consisting of investment income and interest income/expense increased \$312,729, from \$484,203 in the first quarter of 2002 compared to \$171,474 in 2001, primarily attributable to the \$228,322 increase in earnings from AVM, and the \$62,465 increase in undistributed income of BioSafe. Income before income taxes increased \$411,960 from income of \$11,283 in the first quarter of 2001 to income of \$423,243 in the first quarter of 2002.

The effective tax rate decreased to approximately 36 % in the first quarter of 2002 compared to 66% in 2001 due to an increase of approximately \$14,000 in deferred income tax expense in the first quarter of 2001.

Consulier's consolidated income for the quarter ended March 31, 2002 was \$271,081, or \$0.05 basic and diluted earnings per share compared to income of \$3,850, or \$0.00 basic and diluted earnings per share, for first quarter 2001.

AUTOMOTIVE PARTS DISTRIBUTION - Net sales of Consulier's Southeast automotive parts distribution represented 99% and 94% of Consulier's net sales in the first quarters of 2002 and 2001 respectively. This segment's sales decreased by less than 2%, or \$10,980, in the 2002 quarter to \$776,708, compared to \$787,688 in the 2001 quarter.

The automotive parts distribution segment had income before income taxes of

Edgar Filing: CONSULIER ENGINEERING INC - Form 10QSB

\$95,989 in the first quarter of 2002 compared to \$47,758 in the first quarter of 2001. The increase is primarily attributable to a decrease of approximately \$29,000 in payroll and related expenses as a result of decreasing the number of employees from 20 to 12 during 2001.

10

CONSULIER ENGINEERING, INC. AND SUBSIDIARIES

HOUSEHOLD AND TOOL PRODUCTS - C-6 incurred a net loss of \$6,276 in the first quarter of 2002, consisting primarily of freight charges, compared to a net loss of \$9,000 in the first quarter of 2001.

INVESTMENT IN AVM - Investment income from Consulier's AVM limited partnership interest was \$314,408 in the first quarter of 2002, a 265% increase from the comparable 2001 quarter's income of \$86,086. This represents annualized returns of 61% and 17%, respectively, on Consulier's average investment during each year.

INVESTMENT IN BIOSAFE - Equity in income of BioSafe was \$110,422 in the first quarter of 2002, a 130% increase over the comparable 2001 quarter's income of \$47,957. This represents the Company's 40% interest in BioSafe's net income of approximately \$276,000 in the first quarter of 2002, compared to \$120,000 in the first quarter of 2001.

LIQUIDITY AND CAPITAL RESOURCES

At March 31, 2002, Consulier's cash totaled \$208,442 as compared to \$150,032 at December 31, 2001, an increase of \$58,410. Net cash used in operations increased to \$724,521 in the first three months of 2002 compared to \$99,737 of net cash provided in the first three months of 2001. Net cash provided by investing activities increased from \$94,459 in the first three months of 2001 to \$782,931 in the first three months of 2002, resulting primarily from a decrease of \$442,054 in due from principal shareholder, and a \$190,270 increase in distributions from partnership interest.

The ability of Consulier to continue to generate cash flow in excess of its normal operating requirements depends almost entirely on the performance of its limited partnership investment in AVM. Consulier cannot, with any degree of assurance, predict whether there will be a continuation of the net return experienced in the period that the AVM limited partnership interest has been owned. However, Consulier does not expect that the rate of return will decline to the point where Consulier has negative cash flow. Furthermore, although AVM has given Consulier no indication of any intention on its part to redeem the partnership interest, there can be no assurance that AVM will not do so in the future.

During the first quarter of 2002, a significant portion of the Company's excess cash funds continued to be advanced to the Company's principal shareholder, under demand receivables.

On April 16, 2002, the Company entered into agreement granting a line of credit of up to \$900,000 to Asset Assistance Group, LLC. The line of credit expires one year from April 16, 2002 and approximately \$278,000 is outstanding at May 15, 2002. Sources for funding the line of credit are expected to be investment income from AVM and repayments of outstanding amounts/advances by the principal shareholder.

CONSULIER ENGINEERING, INC. AND SUBSIDIARIES

FUTURE OUTLOOK

Based on AVM's recent operations and operating results over the past five years, management expects continued annualized returns in 2002 on Consulier's limited partnership investment. However, there is no guarantee that the annualized return of 61% in the first quarter of 2002 will be maintained.

Sales in the automotive parts distribution segment are expected to increase in 2002 due to the reorganization of the sales department and training of salespeople, strengthening of existing product lines, and increased marketing and promotion. Southeast is scheduled to attend numerous trade shows in key locations around the world to promote and sell its products.

In December 2000, Consulier entered into a multi-year strategic alliance and distribution agreement with Norpak Manufacturing Inc. (Norpak) of Toronto, Canada and its related company Veridien Corp. (Veridien) of St. Petersburg, Florida. Veridien has a full line of top quality cleaning products that they manufacture and distribute to national and regional retailers and distributors.

Norpak also with a full line of cleaning products and retail as well as distribution sources, has been contracted to be the main distributor for the soap in Canada. Norpak is responsible for the sales, marketing, retailing and distribution of the soap in Canada. These agreements include pricing schedules for products at distributorship levels.

Veridien and Norpak are working with Consulier to launch the product to national and regional retailers and major distributors.

In addition to the above, Consulier maintains a sales and marketing department developing new retail and distribution outlets nationally and internationally. There are several trade shows scheduled for marketing the soap throughout 2002 and the internet web site continues to be a good lead generator with applications for distribution being received through the site from countries all over the world.
