REPORT OF REGISTERED PUBLIC ACCOUNTING FIRM

Goodrich Corporation

Benefit Design and Administration Committee

We have audited the accompanying statements of net assets available for benefits of Goodrich Corporation Employees Savings Plan as of December 31, 2006 and 2005, and the related statement of changes in net assets available for benefits for the year ended December 31, 2006. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2006 and 2005, and the changes in its net assets available for benefits for the year ended December 31, 2006, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2006, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

Goodrich Corporation Employees Savings Plan
Notes to Financial Statements
December 31, 2006

1. Description of the Plan

The following description of Goodrich Corporation Employees Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all non-bargaining unit employees and substantially all bargaining unit employees of Goodrich Corporation (the Company) and all subsidiaries of the Company to which the Plan has been extended. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective February 1, 1994, Goodrich Corporation Savings Plan Master Trust (the Master Trust) was established to hold the assets of the Plan and the assets of Goodrich Corporation Savings Plan for Wage Employees. On April 5, 2005, all assets, totaling \$720,751, of the Goodrich Corporation Savings Plan for Wage Employees were transferred into the Plan. The transferred assets related primarily to the active employees of the Company's plating operation in Cleveland, Ohio. When the assets of the Goodrich Corporation Savings Plan for Wage Employees were transferred into the Goodrich Corporation Employees Savings Plan, the Plan no longer belonged to a Master Trust.

During 2006, the fair value of trust to trust transfers of assets from the Goodrich Corporation Savings Plan for Rohr Employees totaled \$252,751, which related to employees moving from Rohr union status to salary status.

Goodrich acquired Sensors Unlimited in November 2005. The employees of Sensors Unlimited continued to participate in the Sensors Unlimited 401(K) Plan until June 30, 2006 at that time they became eligible to participate in the Plan effective July 1, 2006. The assets from the Sensors Unlimited 401(K) Plan merged into the Goodrich Corporation Employees Savings Plan on September 1, 2006, and the fair value of assets in the amount of \$1,612,232 was transferred to the Fidelity Management Trust Company (the Trustee)

Participation in the Plan

The Plan offers participants the choice of two savings options: an after-tax savings option and a pre-tax, 401(k) savings option. Under the after-tax savings option, participant contributions are subject to federal income taxes, whereas under the pre-tax savings option the participant postpones paying federal income taxes on the amount of contributions deducted from his or her salary until the contributions are withdrawn from the Plan. Participants can elect to participate in either or both of the savings options. Participants can contribute to each of the investment funds under both savings options. Participants age 50 or older can contribute pre-tax catch-up contributions to the Plan, subject to limitations.

Contributions

Each employee who elects to become a participant in the Plan may make pre-tax or after-tax contributions up to 25% of their qualified compensation, as defined in the Plan document. Maximum pre-tax participant contributions (which are limited by Internal Revenue Service regulations) were \$15,000 for 2006. Highly compensated employees may be limited to contributing a lower percentage than 25% in order to facilitate the Plan's passing of non-discrimination testing. Participants age 50 or older can contribute pre-tax catch-up contributions to the Plan, subject to limitations. Effective June 1, 2003 the Company match for all non-bargaining employees participating in the Plan was decreased from 100% to 50% on the first 6% of eligible earnings.

In December 2005, the Plan was amended to change the Company match that applies to non-bargaining unit and certain bargaining unit employees hired after 12/31/2005 to 100% of participant contributions up to 6% of pay. In addition, these participants will receive a Company contribution equal to 2% of eligible pay at the end of each Plan year provided they are still employed. This 2% contribution is subject to a 3-year vesting schedule. In addition, non-bargaining unit and certain bargaining unit employees hired prior to 12/31/2005 who elected to freeze pension benefit service, effective 7/1/2006, receive the same match and Company contributions as new hires.

Table of Contents

Goodrich Corporation Employees Savings Plan
Notes to Financial Statements
December 31, 2006

Vesting Provisions

Participant contributions and earnings thereon are always fully vested. The Company match contribution and other Company contributions made to participant accounts subsequent to December 31, 2001 and earnings thereon are 100% vested. As discussed above, the Plan was amended in December 2005 to provide discretionary contributions, and the additional 2% Company contribution is subject to a 3-year vesting schedule.

Participant Accounts

Each participant's account is credited with the participant's contributions and the Company's contributions. The accounts are further adjusted for allocations of the Plan's investment income or losses and administrative expenses. The Plan provides for the acceptance of rollover contributions from other plans qualified under the Internal Revenue Code (Code).

Dividends, interest and proceeds from sale of investments in each fund are reinvested in the respective fund.

Benefit Payments

Company contributions made after January 1, 1990, but prior to January 1, 2002, may not be withdrawn until the participant reaches age 55 or upon termination, disability or death. Company matching contributions made on or after January 1, 2002, may not be withdrawn until age 59½ or upon termination, disability or death.

A participant may make an in-service withdrawal of his or her pre-tax contributions upon incurring a financial hardship, subject to certain conditions as set forth in the Plan document.

A participant who elects to withdraw from the Plan is paid the fair value of his or her vested account balance.

Distributions from the Company Stock Fund are made in cash or stock. Distributions from the other funds are made in cash.

Forfeiture of Interest

Upon a participant's separation from service, the portion of investments attributable to contributions made by the Company which have not vested shall remain in such accounts. Such nonvested amounts shall be forfeited on the date which is the earlier of the participant receiving a full distribution of the vested portion of the account balance or 60 consecutive months after separation from service. If the participant is rehired before such forfeiture, the nonvested portion shall remain in the participant's account.

All amounts forfeited under the Plan will remain in the Plan and be used to reduce future contributions to the Plan by The Company. If the Plan is terminated, any forfeited amounts not yet applied against the Company's contributions will accrue ratably to the remaining participants in the Plan at the date of termination.

Participant Loans

Participants may borrow against their participant contributions and related earnings as permitted under the Code not to exceed the lesser of \$50,000 or 50% of their vested account balance as defined in the Plan document. Loan terms range from 1 to 5 years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with prevailing market rates as determined monthly by the Trustee. Principal and interest are paid ratably through monthly payroll deductions. Rates for loans in 2006 ranged from 6.00% to 8.25%.

Table of Contents

Goodrich Corporation Employees Savings Plan
Notes to Financial Statements
December 31, 2006

Administrative Expenses

Investment management fees and administrative expenses related to recordkeeping are charged against the earnings of the investment funds in which the participants' funds are invested. Fees for certain transactions, such as withdrawals and loan processing, are charged directly to the account of the participant reporting such a transaction.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue such contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of a termination of the Plan, all participants will become 100% vested and the net assets of the Plan will be distributed to the participants based on the value of their accounts. Since this is an individual account plan, the Pension Benefit Guaranty Corporation does not guarantee any benefits.

The foregoing description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. Copies of the Plan document are available from the Human Resource Department of the Company.

2. Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

New Accounting Pronouncement

In December 2005, the Financial Accounting Standards Board (FASB) issued FASB Staff Position AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP). The FSP defines the circumstances in which an investment contract is considered fully benefit responsive and provides certain reporting and disclosure requirements for fully benefit responsive investment contracts in defined contribution health and welfare and pension plans. The financial statement presentation and disclosure provisions of the FSP are effective for financial statements issued for annual periods ending after December 15, 2006 and are required to be applied retroactively to all prior periods presented for comparative purposes. The Plan has adopted the provisions of the FSP at December 31, 2006.

As required by the FSP, investments in the accompanying Statements of Net Assets Available for Benefits include fully benefit responsive investment contracts recognized at fair value. AICPA Statement of Position 94-4-1, *Reporting of Investment Contracts Held by Health and Welfare Benefit Plans and Defined Contribution Pension Plans*, as amended, requires fully benefit responsive investment contracts to be reported at fair value in the Plan's Statement of Net Assets Available for Benefits with a corresponding adjustment to reflect these investments at contract value. The requirements of the FSP have been applied retroactively to the Statement of Net Assets Available for Benefits as of December 31, 2005 presented for comparative purposes. Adoption of the FSP had no effect on the Statement of Changes in Net Assets Available for Benefits for any period presented.

Investment Valuation

The Goodrich Stock Fund is a unitized fund comprised of common stock of Goodrich and short-term cash investments. The unit value of the fund is derived from the fair value of the common stock based on quoted market prices in an active market and the short-term cash investments. Investments in the individual Fidelity mutual funds and investments under the brokerage link are valued at quoted market prices in an active market on the last business day of the Plan year.

The Plan's investments are stated at fair value, which generally equals the quoted market price on the last business day of the Plan year. The shares of mutual funds are valued at quoted active market prices that represent the net asset value of shares held by the Plan

Table of Contents

Goodrich Corporation Employees Savings Plan
Notes to Financial Statements
December 31, 2006

at year-end. The contract value of participation units owned in the collective trust fund is based on quoted redemptive values, as determined by the Trustee, on the last business day of the Plan year. The fair value of participation units owned by fund is determined based on the fair value of the underlying fixed income portfolio on the last day of the Plan year. Fixed income securities with a maturity of 61 days or more held by the Funds are valued each day based on readily available market quotations received from independent or affiliated commercial pricing services. Such pricing services will generally provide bid-side quotations.

The loans to participants are valued at their outstanding balance, which approximates fair value. Temporary investments represent investments in short-term fixed income obligations, the fair value of which approximates cost. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. Investments

The following presents investments that represent 5 percent or more of the Plan's net assets.

	December 31,	
	2006	2005
JP Morgan Chase & Co. 2A Stable Value Fund	\$ 230,043,091	\$ 212,526,243
Goodrich Corporation 2I Company Stock	220,279,251	239,885,913
The Bank of New York Company, Inc. 2C S&P Index Fund	168,528,027	152,781,283
Fidelity Management & Research Corp Freedom 2020 Fund	95,151,212	77,390,530
T. Rowe Price Group, Inc. 2E Large Cap Growth Fund	69,696,110	72,470,883

During 2006, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as determined by quoted market prices by \$92,823,100 as follows:

Mutual Funds	\$ 67,412,705
Goodrich Stock Fund	25,410,395
	\$ 92,823,100

The Plan's investment funds included the EnPro Stock Fund, which held shares of EnPro Industries, Inc. common stock that were received in May 2002 in connection with the spin-off of the Company's Engineered Industrial Products segment. At the time of the spin-off, the Plan advised participants that the EnPro Stock Fund would no longer exist as an investment option in the Plan effective January 1, 2005. Shares of EnPro common stock held in the EnPro Stock Fund at January 1, 2005 were liquidated and the final balance invested in another investment option as determined by the Company.

4. Income Tax Status

The Plan received a determination letter from the Internal Revenue Service dated July 22, 2004, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its

Table of Contents

Goodrich Corporation Employees Savings Plan
Notes to Financial Statements
December 31, 2006

qualification. The Goodrich Corporation Benefit Design and Administration Committee believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

5. Transactions with Parties-in-Interest

The Company pays most legal and all accounting expenses of the Plan. Other than as described above or pursuant to the Trust Agreement with Fidelity Investments, the Plan has had no agreements or transactions with any parties-in-interest that are prohibited transactions under ERISA section 3(14).

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
