***Status of Our Public Offerings***

As of October 24, 2008, we had approximately 19.9 million shares available for sale (excluding shares offered pursuant to our distribution reinvestment plan) in our follow-on offering, or approximately \$199.4 million. Based on the shares currently available, we anticipate the offering will close to new investments on or about November 30, 2008.

If all of the shares we are offering pursuant to the follow-on offering have not been sold by May 11, 2009, we may extend the offering as permitted under applicable law. In addition, at the discretion of our board of directors, we may elect to extend the termination date of our offering of shares reserved for issuance pursuant to our distribution reinvestment plan until we have sold all shares allocated to such plan through the reinvestment of distributions, in which case participants in the plan will be notified. The follow-on offering must be registered in every state in which we offer or sell shares. Generally, such registrations are for a period of one year. Thus, we may have to stop selling shares in any state in which our registration is not renewed or otherwise extended annually. We reserve the right to terminate this offering at any time prior to the stated termination date.

Edgar Filing: Cole Credit Property Trust II Inc - Form 424B3

We commenced our initial public offering on June 27, 2005. We terminated our initial public offering on May 22, 2007. We issued a total of 54,838,315 shares in our initial public offering, including 53,909,877 shares sold in the primary offering and 928,438 shares sold pursuant to our distribution reinvestment plan, resulting in gross offering proceeds to us of approximately \$547.4 million.

We commenced our follow-on offering of shares of our common stock on May 23, 2007. Pursuant to the follow-on offering, we are offering up to 143,050,000 shares in a primary offering and up to 6,000,000 shares pursuant to our distribution reinvestment plan. ***Risk Factors***

*The following information supersedes and replaces in its entirety the first paragraph of the risk factor under the caption If we are required to register as an investment company under the Investment Company Act, we could not continue our business, which may significantly reduce the value of your investment on page 30 of the prospectus:*

We are not registered as an investment company under the Investment Company Act of 1940, as amended (Investment Company Act), pursuant to an exemption in Section 3(c)(5)(C) of the Investment Company Act and certain No-Action Letters from the Securities and Exchange Commission. Pursuant to this exemption, (1) at least 55% of our assets must consist of real estate fee interests or loans secured exclusively by real estate or both, (2) at least 25% of our assets must consist of loans secured primarily by real estate (this percentage will be reduced by the amount by which the percentage in (1) above is increased); and (3) up to 20% of our assets may consist of miscellaneous investments. We intend to monitor compliance with these requirements on an ongoing basis. If we were obligated to register as an investment company, we would have to comply with a variety of substantive requirements under the Investment Company Act imposing, among other things:

*The following information supersedes and replaces in its entirety the first paragraph of the risk factor under the caption **Adverse economic conditions will negatively affect our returns and profitability** on page 36 of the prospectus: **Adverse economic and geopolitical conditions will negatively affect our returns and profitability.***

Our operating results may be affected by market and economic challenges, including the current global economic credit environment, which may result from a continued or exacerbated general economic slow down experienced by the nation as a whole or by the local economics where our properties may be located, or by the real estate industry, including the following:

poor economic conditions may result in tenant defaults under leases;

re-leasing may require concessions or reduced rental rates under the new leases;

poor economic conditions may result in lower revenue to us from retailers who pay us a percentage of their revenues under percentage rent leases;

constricted access to credit may result in tenant defaults or non-renewals under leases; and

increased insurance premiums may reduce funds available for distribution or, to the extent such increases are passed through to tenants, may lead to tenant defaults. Increased insurance premiums may make it difficult to increase rents to tenants on turnover, which may adversely affect our ability to increase our returns.

The length and severity of any economic slow down or downturn cannot be predicted. Our operations could be negatively affected to the extent that an economic slow down or downturn is prolonged or becomes more severe.

*The following information supplements the risk factors section under the caption **General Risks Related to Investments in Real Estate** on page 33 of the prospectus:*

***Disruptions in the credit markets and real estate markets could have a material adverse effect on our results of operations, financial condition and ability to pay distributions to you.***

Domestic and international financial markets currently are experiencing significant disruptions which have been brought about in large part by failures in the U.S. banking system. These disruptions have severely impacted the availability of credit and have contributed to rising costs associated with obtaining credit. If debt financing is not available on terms and conditions we find acceptable, we may not be able to obtain financing for investments. If this disruption in the credit markets persists, our ability to borrow monies to finance the purchase of, or other activities related to, real estate assets will be negatively impacted. If we are unable to borrow monies on terms and conditions that we find acceptable, we likely will have to reduce the number of properties we can purchase, and the return on the properties we do purchase may be lower. In addition, we may find it difficult, costly or impossible to refinance indebtedness which is maturing. If interest rates are higher when the properties are refinanced, we may not be able to finance the properties and our income could be reduced. In addition, if we pay fees to lock-in a favorable interest rate, falling interest rates or other factors could require us to forfeit these fees. All of these events would have a material adverse effect on our results of operations, financial condition and ability to pay distributions.

In addition to volatility in the credit markets, the real estate market is subject to fluctuation and can be impacted by factors such as general economic conditions, supply and demand, availability of financing and interest rates. To the extent we purchase real estate in an unstable market, we are subject to the risk that if the real estate market ceases to attract the same level of capital investment in the future that it attracts at the time of our purchases, or the number of companies seeking to acquire properties decreases, the value of our investments may not appreciate or may decrease significantly below the amount we pay for these investments.

***The failure of any bank in which we deposit our funds could reduce the amount of cash we have available to pay distributions and make additional investments.***

We intend to diversify our cash and cash equivalents among several banking institutions in an attempt to minimize exposure to any one of these entities. However, the Federal Deposit Insurance Corporation, or FDIC, only insures amounts up to \$250,000 per depositor per insured bank. We expect that we will have cash and cash equivalents and restricted cash deposited in certain financial institutions in excess of federally insured levels. If any of the banking

institutions in which we have deposited funds ultimately fails, we may lose our deposits over \$250,000. The loss of our deposits could reduce the amount of cash we have available to distribute or invest and could result in a decline in the value of your investment.

*The following information supersedes and replaces in its entirety the second paragraph of the risk factor under the caption "Increases in interest rates could increase the amount of our debt payments and adversely affect our ability to pay distributions to our stockholders" on page 41 of the prospectus:*

As of June 30, 2008, we had approximately \$1.0 billion of indebtedness, approximately \$77.3 million of which was variable rate debt. We incurred variable rate indebtedness in the past and expect that we will incur variable rate indebtedness in the future. To the extent that we incur variable rate debt, increases in interest rates would increase our interest costs, which could reduce our cash flows and our ability to pay distributions to you. In addition, if we need to repay existing debt during periods of rising interest rates, we could be required to liquidate one or more of our investments in properties at times that may not permit realization of the maximum return on such investments.

***Borrowing Policies***

*The following information supplements the section of our prospectus captioned "Investment Objectives and Policies Borrowing Policies" beginning on page 81 of the prospectus:*

On May 23, 2008, Cole Operating Partnership II, LP, the operating partnership of CCPT II, ( Cole OP II ) which we sometimes refer to as the borrower, entered into a revolving credit facility providing for up to \$135.0 million of secured borrowings pursuant to a credit agreement with Bank of America, N.A., as administrative agent, among other things, ( Bank of America ), Banc of America Securities, LLC, as sole lead arranger and sole book manager, JP Morgan Chase Bank, N.A. as syndication agent, and other lending institutions that may become parties to the credit agreement. The credit facility allows Cole OP II to borrow up to \$135.0 million in revolving loans. Subject to meeting certain conditions, the approval of Bank of America and the payment of certain fees, the amount of the credit facility may be increased up to a maximum of \$235.0 million, with each increase being no less than \$25.0 million. Up to 15.0% of the total amount available may be used for issuing letters of credit and up to \$20.0 million may be used for swingline loans, which generally are loans of a minimum of \$100,000 for which the Borrower receives funding on the same day as its loan request, and which are repaid within five business days. The proceeds of the credit facility may be used for acquiring real estate and real estate related assets, working capital and general corporate purposes.

The credit facility matures on May 23, 2011. The borrower has the option to extend the credit facility for an additional twelve month period through May 23, 2012 provided that (i) a written notice of intent to extend the term of the credit agreement is provided at least 30 days, but not more than 90 days prior to May 23, 2011; (ii) no defaults or events of default exist; (iii) the borrower pays to Bank of America a fee equal to fifteen hundredths of one percent (0.15%) of the then existing aggregate commitments; and (iv) certain requirements with respect to the representations and warranties contained in the credit agreement are satisfied.

Loans under the credit facility will bear interest at rates depending upon the type of loan used. For a eurodollar rate loan, the interest rate will be equal to the greater of (a) two and one half percent (2.50%) per annum or (b) the one month, two month, three month or six month London Interbank Offered Rate for the interest period, as selected by borrower, plus the applicable rate. The applicable rate is based upon the overall leverage ratio, generally defined as our total consolidated outstanding indebtedness divided by our total consolidated asset value and ranges from 1.80% at a leverage ratio of less than 50.0% to 2.10% at a leverage ratio of 60.0% to 65.0%.

For each base rate committed loan and each swing line loan, the interest rate will be a per annum amount equal to the base rate plus the applicable rate. The base rate generally is a fluctuating rate per annum equal to (a) 0.25% plus (b) the higher of (i) the federal funds rate plus 0.50% or (ii) Bank of America's prime rate. The applicable rate for base rate committed loans is zero at all leverage ratios.

The borrower has the right to prepay the outstanding amounts in the credit facility, in whole or in part, without premium or penalty provided that (i) prior written notice is received by the administrative agent and (ii) any prepayment of eurodollar rate loans shall be in a principal amount of \$5,000,000 or a whole multiple of \$1,000,000 in excess thereof; and (iii) any prepayment of base rate committed loans shall be in a principal amount of \$500,000 or a whole multiple of \$100,000 in excess thereof or, in each case, if less the entire principal amount thereof then outstanding.

Cole OP II has pledged all of its equity interests in certain of its subsidiary limited liability companies which have been identified by Cole OP II as collateral for its obligations under the credit facility. Subject to certain conditions, Cole OP II may pledge its equity interests in additional subsidiary entities and may remove its pledge of previously

identified subsidiary entities. In addition, we, and each identified subsidiary entity, guarantees the obligations of Cole OP II under the credit facility.

The credit agreement contains customary affirmative, negative and financial covenants, representations, warranties and borrowing conditions. The credit agreement also includes usual and customary events of default and remedies for facilities of this nature. Upon the occurrence of any event of default, the eurodollar rate loans and base rate committed loans will bear interest payable on demand at

an interest rate equal to 2.0% per annum above the interest rate that would otherwise be applicable at that time, until the default is cured. Similarly, the letter of credit fees described below will be increased to a rate of 2.0% above the letter of credit fee that would otherwise be applicable at that time. In addition to Cole OP II failing to pay amounts when due and breaching any of the terms of the credit agreement or related loan documents, events of default include, but are not limited to: (1) failure to pay any principal when due; (2) failure to pay interest and fees within five (5) business days after due; (3) the occurrence of a change of control; (4) a change in management; (5) material inaccuracy of any representation or warranty; (6) the bankruptcy or insolvency of Cole OP II or any consolidated subsidiary; (7) violation of any financial, negative or other covenant; (8) violation of ERISA regulations; and (9) judgments against Cole OP II or any consolidated subsidiary in excess of \$10.0 million or \$25.0 million in aggregate that remain unsatisfied or unstayed for sixty days. If an event of default occurs and is not cured timely, the lenders under the credit facility shall have no obligation to make further disbursements under the credit facility and all outstanding loans shall be immediately due and payable.

Cole OP II was required to pay certain fees under the credit agreement, including an arrangement fee of \$250,000 to Banc of America Securities, LLC along with an upfront fee equal to 0.45% of the total credit facility. In addition, Cole OP II will pay to Bank of America an annual administrative agency fee of \$50,000. Cole OP II will also pay an annualized fee for any unused portion of the credit facility. The unused portion fee is based on the average daily balance of the total aggregate commitment less any borrowing outstanding and is equal to 0.20% on the daily unused portion of the credit facility if daily usage is less than 50.0% of the aggregate commitments and 0.15% on the daily unused portion of the credit facility if daily usage is greater than or equal to 50.0% of the aggregate commitments. Cole OP II must also pay certain fees upon the issuance of each letter of credit under the credit agreement and a quarterly fee based on the outstanding face amounts of any letters of credit.

**Estimated Use of Proceeds**

The Prospectus Summary *Estimated Use of Proceeds of This Offering* section beginning on page 14 of the prospectus and all similar discussions appearing throughout the prospectus are superseded in their entirety as follows:

Depending primarily on the number of shares we sell in this offering and assuming all shares sold under our distribution reinvestment plan are sold at \$9.50 per share, we estimate for each share sold in this offering that between approximately \$8.72 (assuming no shares available under our distribution reinvestment plan are sold) and approximately \$8.76 (assuming all shares available under our distribution reinvestment plan are sold) will be available for the purchase of real estate. We will use the remainder of the offering proceeds to pay the costs of the offering, including selling commissions and the dealer manager fee, and to pay a fee to our advisor for its services in connection with the selection and acquisition of properties. We will not pay selling commissions or a dealer manager fee on shares sold under our distribution reinvestment plan. The table below sets forth our estimated use of proceeds from this offering:

The following table sets forth information about how we intend to use the proceeds raised in this offering, assuming that we sell the maximum offering of 149,050,000 shares of common stock pursuant to this offering. Many of the figures set forth below represent management's best estimate since they cannot be precisely calculated at this time. Assuming a maximum offering, we expect that approximately 87.6% of the money that stockholders invest will be used to buy real estate or make other investments, while the remaining approximately 12.4% will be used for working capital, and to pay expenses and fees including the payment of fees to Cole Advisors II, our advisor, and Cole Capital Corporation, our dealer manager.

The dealer manager, in its sole discretion, may reallocate selling

commissions of  
up to 7% of  
gross offering

other  
broker-dealers

this offering  
attributable to  
the shares sold  
by them and

participating in this offering based on such factors including the participating broker-dealer's level of marketing support, level of due diligence review and success of its sales efforts, each as compared to those of the other participating broker-dealers. Additionally, we will not pay a selling commission or a dealer manager fee on shares purchased pursuant to our distribution reinvestment plan. The amount of selling commissions may be reduced under certain circumstances for volume discounts. See the Plan of Distribution section of this prospectus for a description of such provisions.

- (3) Organization and offering expenses consist of reimbursement of actual legal,

including  
amounts to  
reimburse Cole

Cole Advisors II  
and its affiliates  
are responsible  
for the payment  
of organization  
and offering  
expenses, other  
than selling  
commissions and  
the dealer  
manager fee, to  
the extent they  
exceed 1.5% of  
gross offering  
proceeds,  
without recourse  
against or  
reimbursement  
by us; provided,  
however, that in  
no event will we  
pay or reimburse  
organization and  
offering  
expenses in

excess of 10% of the gross offering proceeds. We currently estimate that approximately \$22,312,500 of organization and offering costs will be incurred if the maximum offering of 149,050,000 shares (approximately \$1,487,500,000) is sold.

- (4) Until required in connection with the acquisition and/or development of properties, substantially all of the net proceeds of the offering and, thereafter, any working capital reserves we may have, may be invested in short-term, highly-liquid investments including government obligations, bank certificates of deposit, short-term debt obligations and interest-bearing accounts.
- (5) Acquisition and advisory fees are defined generally as fees and

commissions paid by any party to any person in connection with identifying, reviewing, evaluating, investing in and the purchase, development or construction of properties. We pay to our advisor acquisition and advisory fees up to a maximum amount of 2% of the contract purchase price of each property acquired, which for purposes of this table we have assumed is an aggregate amount equal to our estimated amount invested in properties. Acquisition and advisory fees do not include acquisition expenses. For purposes of this table, we have assumed that no financing is used to acquire properties or other real estate assets.

- (6) Acquisition expenses include legal fees and expenses, travel expenses, costs of appraisals, nonrefundable

option payments on property not acquired, accounting fees and expenses, title insurance premiums and other closing costs and miscellaneous expenses relating to the selection, acquisition and development of real estate properties. For purposes of this table, we have assumed expenses of 0.5% of average invested assets, which for purposes of this table we have assumed is our estimated amount invested in properties; however, expenses on a particular acquisition may be higher. Notwithstanding the foregoing, the total of all acquisition expenses and acquisition fees payable with respect to a particular property or investment shall be reasonable, and shall not exceed an amount equal to 4% of the contract

purchase price of the property, or in the case of a mortgage loan 4% of the funds advanced, unless a majority of our directors (including a majority of our independent directors) not otherwise interested in the transaction approve fees and expenses in excess of this limit and determine the transaction to be commercially competitive, fair and reasonable to us.

- (7) Working capital reserves typically are utilized for extraordinary expenses that are not covered by revenue generation of the property, such as tenant improvements, leasing commissions and major capital expenditures. Alternatively, a lender may require its own formula for escrow of working capital reserves. Because we expect most of

our leases will be net leases, as described elsewhere herein, we do not expect to maintain significant working capital reserves.

- (8) Includes amounts anticipated to be invested in properties net of fees, expenses and initial working capital reserves.

We may terminate this offering at any time prior to the stated termination date. We reserve the right to reallocate the shares of our common stock we are offering between the primary offering and the distribution reinvestment plan.

**Management Compensation**

The table in the *Management Compensation* section beginning on page 62 of the prospectus and all similar discussions appearing throughout the prospectus, including without limitation the table in the *Prospectus Summary Compensation to Cole Advisors II and its Affiliates* section beginning on page 17 of the prospectus, are superseded in their entirety as follows:

Type of Compensation(1)	Determination of Amount	Estimated Amount for Maximum Offering(2)
<i>Offering Stage</i>		
Selling Commissions Cole Capital Corporation(3)	We will pay to Cole Capital Corporation 7% of the gross offering proceeds before reallocation of commissions earned by participating broker-dealers, except that no selling commission is payable on shares sold under our distribution reinvestment plan. Cole Capital Corporation, our dealer manager, will reallocate 100% of commissions earned to participating broker-dealers.	\$100,135,000
Dealer Manager Fee Cole Capital Corporation(3)	We will pay to Cole Capital Corporation 2% of the gross offering proceeds before reallocation to participating broker-dealers, except that no dealer manager fee is payable on shares sold under our distribution reinvestment plan. Cole Capital Corporation may reallocate all or a portion of its dealer manager fee to participating broker-dealers. See Plan of Distribution.	\$ 28,610,000
Reimbursement of Other Organization and Offering Expenses Cole Advisors II(4)	We will reimburse Cole Advisors II up to 1.5% of our gross offering proceeds. Cole Advisors II will incur or pay our organization and offering expenses (excluding selling commissions and the dealer manager fee). <b>Type of Compensation(1)</b>	<b>Determination of Amount</b>	<b>Estimated Amount for Maximum Offering(2)</b>
Property Management Fees Cole Realty Advisors(8)	We will pay to Cole Realty Advisors up to (i) 2% of the gross revenues from our single-tenant properties and (ii) 4% of the gross revenues from our multi-tenant properties, plus reimbursement of Cole Realty Advisors costs of managing the properties.	Actual amounts are dependent upon the gross revenues from properties and, therefore, cannot be determined at the present time. Because the fee is based on a fixed percentage of the gross revenue and/or market rates, there is no limit on the aggregate amount of these fees.
Leasing Commissions Cole Realty Advisors(8)	We will pay to Cole Realty Advisors prevailing market rates. Cole Realty Advisors may also receive a fee for the initial listing of newly constructed properties, which generally would equal one month's rent.	Actual amounts are dependent upon prevailing market rates in the geographic regions in which we acquire property and, therefore, cannot be determined at the present time. There is no limit on the aggregate amount of these commissions.
Financing Coordination Fee Cole Advisors II(6)	For services in connection with the origination or refinancing of any debt financing we obtain and use to acquire properties or to make other permitted investments, or that is assumed, directly or indirectly, in connection with the acquisition of properties, we will pay our advisor a financing coordination fee equal to 1% of the amount available and/or outstanding under such financing; provided, however, that our advisor will not be entitled to a financing coordination fee in connection with the refinancing of any loan secured by any particular property that was previously subject to a refinancing in which our advisor received such a fee. Financing coordination fees payable from loan proceeds from permanent financing will be paid to our advisor as we acquire and/or assume such permanent financing. However, no acquisition fees will be paid on the investments of loan proceeds from any line of credit until such time as we have invested all net offering proceeds.	Actual amounts are dependent on the amount of any debt financing or refinancing and, therefore, cannot be determined at the present time. Because the fee is based on a fixed percentage of any debt financing, there is no limit on the aggregate amount of these fees.
Operating Expenses Cole Advisors II(9)	We will reimburse the expenses incurred by Cole Advisors II in connection with its provision of administrative services, including related personnel costs, subject to the limitation that we will not reimburse our	Actual amounts are dependent upon the expenses incurred and, therefore, cannot be determined at the present time.

advisor for any amount by which the operating expenses (including the asset management fee) at the end of the four preceding fiscal quarters exceeds the greater of (i) 2% of average invested assets, or (ii) 25% of net income other than any additions to reserves for depreciation, bad debt or other similar non-cash reserves and excluding any gain from the sale of assets for that period.

Type of Compensation(1)	Determination of Amount <i>Liquidation/Listing Stage</i>	Estimated Amount for Maximum Offering(2)
Real Estate Commissions Cole Advisors II or its Affiliates(10)	For substantial assistance in connection with the sale of properties, we will pay our advisor or its affiliates an amount equal to up to one-half of the brokerage commission paid on the sale of property, not to exceed 2% of the contract price of each property sold; provided, however, in no event may the real estate commissions paid to our advisor, its affiliates and unaffiliated third parties exceed 6% of the contract sales price.	Actual amounts are dependent upon the contract price of properties sold and, therefore, cannot be determined at the present time. Because the commission is based on a fixed percentage of the contract price for a sold property, there is no limit on the aggregate amount of these commissions.
Subordinated Participation in Net Sale Proceeds Cole Advisors II(11)	After investors have received a return of their net capital invested and an 8% annual cumulative, non-compounded return, then Cole Advisors II is entitled to receive 10% of remaining net sale proceeds. We cannot assure you that we will provide this 8% return, which we have disclosed solely as a measure for our advisor's incentive compensation.	Actual amounts are dependent upon results of operations and, therefore, cannot be determined at the present time. There is no limit on the aggregate amount of these payments.
Subordinated Incentive Listing Fee Cole Advisors II(11)(12)	Upon listing our common stock on a national securities exchange, our advisor is entitled to a fee equal to 10% of the amount, if any, by which (1) the market value of our outstanding stock plus distributions paid by us prior to listing, exceeds (2) the sum of the total amount of capital raised from investors and the amount of cash flow necessary to generate an 8% annual cumulative, non-compounded return to investors. We have no intent to list our shares at this time. We cannot assure you that we will provide this 8% return, which we have disclosed solely as a measure for our advisor's incentive compensation.	Actual amounts are dependent upon total equity and debt capital we raise and results of operations and, therefore, cannot be determined at the present time. There is no limit on the aggregate amount of this fee.

(1) We will pay all fees, commissions and expenses in cash, other than the subordinated participation in net sales

proceeds and incentive listing fees with respect to which we may pay to Cole Advisors II in cash, common stock, a promissory note or any combination of the foregoing, as we may determine in our discretion.

- (2) The estimated maximum dollar amounts are based on the sale of a maximum of 143,050,000 shares to the public at \$10.00 per share and the sale of 6,000,000 shares at \$9.50 per share pursuant to our distribution reinvestment plan.
- (3) Selling commissions and, in some cases, the dealer manager fee, will not be charged with regard to shares sold to or for the account of certain categories of purchasers. See Plan of Distribution. Selling

commissions and the dealer manager fee will not be charged with regard to shares purchased pursuant to our distribution reinvestment plan.

- (4) These organization and offering expenses include all expenses (other than selling commissions and the dealer manager fee) to be paid by us in connection with the offering, including our legal, accounting, printing, mailing and filing fees, charges of our escrow holder, due diligence expense reimbursements to participating broker-dealers and amounts to reimburse Cole Advisors II for its portion of the salaries of the employees of its affiliates who provide services to our advisor and other costs in connection with preparing supplemental sales materials,

holding educational conferences and attending retail seminars conducted by broker-dealers. Our advisor will be responsible for the payment of all such organization and offering expenses to the extent such expenses exceed 1.5% of the aggregate gross proceeds of this offering.

- (5) This estimate assumes the amount of proceeds available for investment is equal to the gross offering proceeds less the public offering expenses, and we have assumed that no financing is used to acquire properties or other real estate assets. Our board's investment policies limit our ability to purchase property if the total of all acquisition fees and expenses relating to the purchase

exceeds 4% of  
the contract  
purchase price  
unless a  
majority of our  
directors  
(including a  
majority of our  
independent  
directors)

not otherwise interested in the transaction approve fees and expenses in excess of this limit and determine the transaction to be commercially competitive, fair and reasonable to us.

- (6) Included in the computation of such fees will be any real estate commission, acquisition and advisory fee, development fee, construction fee, non-recurring management fee, loan fees, financing coordination fees or points or any fee of a similar nature.
- (7) Aggregate asset value will be equal to the aggregate value of our assets (other than investments in bank accounts, money markets funds or other current assets) at cost before deducting depreciation, bad debts or other similar non-cash reserves and

without reduction for any debt relating to such assets at the date of measurement, except that during such periods in which our board of directors is determining on a regular basis the current value of our net assets for purposes of enabling fiduciaries of employee benefit plans stockholders to comply with applicable Department of Labor reporting requirements, aggregate asset value is the greater of (i) the amount determined pursuant to the foregoing or (ii) our assets aggregate valuation most recently established by our board without reduction for depreciation, bad debts or other similar non-cash reserves and without reduction for any debt secured by or relating to such assets.

- (8) The property management and leasing fees

payable to Cole Realty Advisors are subject to the limitation that the aggregate of all property management and leasing fees paid to Cole Realty Advisors and its affiliates plus all payments to third parties for property management and leasing services may not exceed the amount that other non-affiliated property management and leasing companies generally charge for similar services in the same geographic location. Additionally, all property management and leasing fees, including both those paid to Cole Realty Advisors and third parties, are subject to the limit on total operating expenses as described in footnote (4). Cole Realty Advisors may subcontract its duties for a fee that may be less than the fee provided for in our property management

agreement with  
Cole Realty  
Advisors.

- (9) We may reimburse our advisor in excess of that limit in the event that a majority of our independent directors determine, based on unusual and non-recurring factors, that a higher level of expense is justified. In such an event, we will send notice to each of our stockholders within 60 days after the end of the fiscal quarter for which such determination was made, along with an explanation of the factors our independent directors considered in making such determination. We will not reimburse our advisor for personnel costs in connection with services for which the advisor receives acquisition fees or real estate commissions.

We lease our  
office space from

an affiliate of our advisor and share the space with other Cole-related entities. The amount we will pay under the lease will be determined on a monthly basis based upon on the allocation of the overall lease cost to the approximate percentage of time, size of the area that we utilize and other resources allocated to us.

(10) Although we are most likely to pay real estate commissions to Cole Advisors II or an affiliate in the event of our liquidation, these fees may also be earned during our operational stage.

(11) Upon termination of the advisory agreement, Cole Advisors II may be entitled to a similar performance fee if Cole Advisors II would have been entitled to a subordinated participation in net sale proceeds had the portfolio been liquidated (based on an independent

appraised value of the portfolio) on the date of termination.

Under our charter, we could not increase these success-based fees without the approval of a majority of our independent directors, and any increase in the subordinated participation in net sale proceeds would have to be reasonable. Our charter provides that such incentive fee is presumptively reasonable if it does not exceed 10% of the balance of such net proceeds remaining after investors have received a return of their net capital contributions and an 8% per year cumulative, non-compounded return.

Cole Advisors II cannot earn both the subordinated participation in net sale proceeds and the subordinated incentive listing fee. The subordinated participation in net sale proceeds or the

subordinated listing fee, as the case may be, will be paid in the form of an interest bearing promissory note that will be repaid from the net sale proceeds of each sale after the date of the termination or listing. At the time of such sale, we may, however, at our discretion, pay all or a portion of such promissory note with shares of our common stock. If shares are used for payment, we do not anticipate that they will be registered under the Securities Act and, therefore, will be subject to restrictions on transferability. Any portion of the subordinated participation in net sale proceeds that Cole Advisors II receives prior to our listing will offset the amount otherwise due pursuant to the subordinated incentive listing fee. In no event will the amount paid to Cole Advisors II under the promissory note, if any, including interest

thereon, exceed  
the amount  
considered  
presumptively  
reasonable by the  
NASAA REIT  
Guidelines.

- (12) If at any time the shares become listed on a national securities exchange, we will negotiate in good faith with Cole Advisors II a fee structure appropriate for an entity with a perpetual life. Our independent directors must approve the new fee structure negotiated with Cole Advisors II. The market value of our outstanding stock will be calculated based on the average market value of the shares issued and outstanding at listing over the 30 trading days beginning 180 days after the shares are first listed or included for quotation. We have the option to pay the subordinated incentive listing fee in the form of stock, cash, a promissory note or any combination thereof. In the

event the  
subordinated  
incentive listing  
fee is earned by  
Cole Advisors II  
as a result of the  
listing of the  
shares, any  
previous  
payments of the  
subordinated  
participation in  
net sale proceeds  
will offset the  
amounts due  
pursuant to the  
subordinated  
incentive listing  
fee, and we will  
not be required to  
pay Cole  
Advisors II any  
further  
subordinated  
participation in  
net sale proceeds.

**Summary of Amended and Restated Distribution Reinvestment Plan**

*The first paragraph of the Summary of Amended and Restated Distribution Reinvestment Plan section on page 177 of the prospectus and all similar discussions appearing throughout the prospectus are superseded in their entirety as follows:*

We have adopted an amended and restated distribution reinvestment plan. The amended and restated reinvestment plan allows you to have distributions otherwise payable to you in cash reinvested in additional shares of our common stock. We are offering up to 6,000,000 shares for sale pursuant to our distribution reinvestment plan at a purchase price equal to the higher of \$9.50 per share or 95% of the estimated value of a share of our common stock. Following is a summary of our distribution reinvestment plan. A complete copy of our amended and restated distribution reinvestment plan is included in this prospectus as Appendix D.

**Plan of Distribution**

*The Plan of Distribution The Offering section on page 184 of the prospectus and all similar discussions appearing throughout the prospectus are superseded in their entirety as follows:*

We are offering a maximum of 149,050,000 shares of our common stock to the public through Cole Capital Corporation, our dealer manager, a registered broker-dealer affiliated with our advisor. Of this amount, we are offering 143,050,000 shares in our primary offering at a price of \$10.00 per share, except as provided below. The shares are being offered on a best efforts basis, which means generally that the dealer manager is required to use only its best efforts to sell the shares and it has no firm commitment or obligation to purchase any of the shares. We also are offering up to 6,000,000 shares for sale pursuant to our distribution reinvestment plan. The purchase price for shares sold under our distribution reinvestment plan will be equal to the higher of 95% of the estimated value of a share of common stock, as estimated by our board of directors, and \$9.50 per share. The reduced purchase price for shares purchased pursuant to our distribution reinvestment plan reflects that there will be no fees, commissions or expenses paid with respect to these shares. We reserve the right to reallocate the shares of our common stock we are offering between the primary offering and the distribution reinvestment plan. The offering of shares of our common stock will terminate on or before May 11, 2009, which is two years after the effective date of this offering, unless the offering is extended. In addition, at the discretion of our board of directors, we may elect to extend the termination date of our offering of shares reserved for issuance pursuant to our distribution reinvestment plan until we have sold all shares allocated to such plan through the reinvestment of distributions, in which case participants in the plan will be notified. This offering must be registered in every state in which we offer or sell shares. Generally, such registrations are for a period of one year. Thus, we may have to stop selling shares in any state in which our registration is not renewed or otherwise extended annually. We reserve the right to terminate this offering at any time prior to the stated termination date.

*The seventh paragraph of the Plan of Distribution Compensation We Will Pay for the Sale of Our Shares section beginning on page 184 of the prospectus and all similar discussions appearing throughout the prospectus are superseded in their entirety as follows:*

In addition to the compensation described above, our sponsor may pay certain costs associated with the sale and distribution of our shares. Such payments will be deemed to be underwriting compensation by FINRA. In accordance with the rules of FINRA, the table below sets forth the nature and estimated amount of all items that will be viewed as underwriting compensation by FINRA that are anticipated to be paid by us and our sponsor in connection with the offering. The amounts shown assume we sell all of the shares offered hereby and that all shares are sold in our primary offering through participating broker-dealers, which is the distribution channel with the highest possible selling commissions and dealer manager fees.

	<b>Total Maximum</b>
Selling commissions	\$ 100,135,000
Dealer manager fee reallowance to participating broker-dealers	10,013,500
Dealer manager wholesaling compensation	22,687,500
Expense reimbursements for wholesaling travel and expenses	4,412,000
Broker-dealer conference fees and training and education meetings	2,800,000

Due diligence allowance	160,000
Legal fees of the dealer manager	120,000
Total(1)	\$ 140,328,000

(1) Of this amount, \$100,135,000 and \$28,610,000 will be paid by us from the proceeds of this offering in the form of selling commissions and dealer manager fees, respectively. Subject to the cap on underwriting compensation described below, and in accordance with our limits on reimbursement and payment of organization and offering expenses as disclosed elsewhere in this prospectus, we will reimburse our sponsor or its affiliates for certain expenses that constitute underwriting compensation. In some cases, these payments will serve to reimburse our sponsor or its affiliates for amounts it has paid to participating

broker-dealers.  
Any remaining  
amounts will be  
paid by our  
sponsor without  
reimbursement  
from us.

The total amount of underwriting compensation, including selling commissions, dealer manager fees and other expenses paid or reimbursed by us, our sponsor or any other source in connection with the offering, will not exceed 10% of the gross proceeds of this offering, plus up to an additional 0.5% of gross proceeds (\$500,000 if the maximum offering amount is sold) for reimbursement of *bona fide* due diligence expenses.

### Real Property Investments

We engage in the acquisition and ownership of commercial properties throughout the United States. We invest primarily in income-generating retail, office and distribution properties, net leased to investment grade and other creditworthy tenants.

As of October 27, 2008, we, through separate wholly-owned limited liability companies, have acquired a 100% fee simple interest in 471 properties consisting of approximately 17.8 million gross rentable square feet of commercial space located in 45 states and the U.S. Virgin Islands. The properties were generally acquired through the use of mortgage notes payable and proceeds from our ongoing public offering of our common stock.

The following table summarizes properties acquired between April 30, 2008, the date of our prospectus, and October 27, 2008 in order of acquisition date:

Property	Date Acquired	Year Built	Purchase Price	Fees Paid to Sponsor (1)	Initial Yield (2)	Physical Occupancy

**Potential Property Investments**

Our advisor has identified certain properties as potential suitable investments for us. The acquisition of each such property is subject to a number of conditions. A significant condition to acquiring any one of these potential acquisitions is our ability to raise sufficient proceeds in this offering to pay all or a portion of the purchase price. An additional condition to acquiring these properties may be our securing debt financing to pay the balance of the purchase price. Such financing may not be available on acceptable terms or at all.

Our evaluation of a property as a potential acquisition, including the appropriate purchase price, will include our consideration of a property condition report; unit-level store performance; property location, visibility and access; age of the property, physical condition and curb appeal; neighboring property uses; local market conditions, including vacancy rates; area demographics, including trade area population and average household income; neighborhood growth patterns and economic conditions; and the presence of demand generators.

We will decide whether to acquire each property generally based upon:

satisfaction of the conditions to the acquisition contained in the respective contract;

no material adverse change occurring relating to the properties, the tenant or in the local economic conditions;

our receipt of sufficient net proceeds from the offering of our common stock to the public and financing proceeds to make this acquisition; and

our receipt of satisfactory due diligence information including the appraisal, environmental reports and tenant and lease information.

Other properties may be identified in the future that we may acquire prior to or instead of these properties. Due to the considerable conditions to the consummation of the acquisition of these properties, we cannot make any assurances that the closing of these acquisitions are probable. The properties currently identified are as follows:

(1) See tables below for a reconciliation of this non-GAAP financial

measure to net  
income.

**Reconciliations of Non-GAAP Financial Measures**

We believe that funds from operations ( FFO ) is a beneficial indicator of the performance of a REIT. Because FFO calculations exclude such factors as depreciation and amortization of real estate assets and gains or losses from sales or impairment of operating real estate assets (which can vary among owners of identical assets in similar conditions based on historical cost accounting and useful-life estimates), they facilitate comparisons of operating performance between periods and between other REITs. Our management believes that accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictability over time. Since real estate values have historically risen or fallen with market conditions, many industry investors and analysts have considered the presentation of operating results for real estate companies that use historical cost accounting to be insufficient by themselves. As a result, we believe that the use of FFO, together with the required GAAP presentations, provide a more complete understanding of our performance relative to our competitors and a more informed and appropriate basis on which to make decisions involving operating, financing, and investing activities. Other REITs may not define FFO in accordance with the current National Association of Real Estate Investment Trust s ( NAREIT ) definition or may interpret the current NAREIT definition differently than we do.

FFO is a non-GAAP financial measure and does not represent net income as defined by GAAP. Net income as defined by GAAP is the most relevant measure in determining our operating performance because FFO includes adjustments that investors may deem subjective, such as adding back expenses such as depreciation and amortization. Accordingly, FFO should not be considered as an alternative to net income as an indicator of our operating performance.

Our calculation of FFO is presented in the following table for the periods ended as indicated:

	<b>Three Months Ended</b>	<b>Six Months Ended</b>	<b>Year Ended December 31,</b>
	<b>June 30, 2008</b>	<b>June 30, 2008</b>	<b>2007</b>
Net income	\$ 7,047,454	\$ 7,634,107	\$ 4,480,017
Add:			
Depreciation of real estate assets	9,259,374	17,992,484	20,460,219
Amortization of lease related costs	4,860,576	9,495,169	10,022,054
Impairment on real estate assets		3,550,000	5,400,000
FFO	\$ 21,167,404	\$ 38,671,760	\$ 40,362,290

Set forth below is additional information (often considered in conjunction with FFO) that may be helpful in assessing our operating results:

In order to recognize revenues on a straight-line basis over the terms of the respective leases, we recognized additional revenue by straight-lining rental revenue of approximately \$2.1 million and approximately \$4.2 million during the three and six months ended June 30, 2008, respectively, and approximately \$4.4 million during the year ended December 31, 2007.

Amortization of deferred financing costs totaled approximately \$1.0 million and approximately \$2.8 million during the three and six months ended June 30, 2008, respectively and approximately \$1.9 million during the year ended December 31, 2007.

Net income includes a net gain on disposal of rate lock of approximately \$478,000 for the year ended December 31, 2007.

The following table presents the historic net operating income derived from our investments in real estate assets for the three and six months ended June 30, 2008 and the year ended December 31, 2007.

	<b>Three Months Ended</b>	<b>Six Months Ended</b>	<b>Year Ended</b>
--	-------------------------------	-----------------------------	-------------------

	<b>June 30, 2008</b>	<b>June 30, 2008</b>	<b>December 31, 2007</b>
Rental revenue (1)	\$ 41,724,904	\$ 80,116,370	\$ 87,652,801
Property operating expenses (2)	4,163,082	7,556,701	8,036,479
Net operating income	\$ 37,561,822	\$ 87,673,071	\$ 79,616,322

(1) Rental revenue includes adjustments as defined by GAAP such as straight-line rental revenue, tenant reimbursements and adjustments for the value of above and below market lease amortization.

(2) The primary property operating expense items are property management fees, repairs and maintenance, property taxes, and insurance. Property operating expenses exclude depreciation, amortization, general and administrative expenses, interest expense and asset management fees.

We consider net operating income ( NOI ), to be an appropriate supplemental performance measure, because NOI reflects the operating performance of our real estate assets and excludes certain items that are not considered to be controllable in connection with management of each property such as depreciation and amortization, general and administrative expenses and interest expense.

Edgar Filing: Cole Credit Property Trust II Inc - Form 424B3

NOI is a non-GAAP financial measure and does not represent net income as defined by GAAP. Net income as defined by GAAP is the most relevant measure in determining our operating performance because NOI includes adjustments that investors may deem subjective, such as adding back expenses such as interest expense, depreciation and amortization. Accordingly, NOI should not be considered as an alternative to net income as an indicator of our operating performance.

Our reconciliation of NOI to reported net income is presented in the following table for the periods ended as indicated:

## **Sembler Portfolio Properties**

### ***Overview***

On July 11, 2008 and September 26, 2008, we acquired two multi-tenant retail shopping centers (the Sembler Portfolio Properties ) from an affiliate of the Sembler Company. The Sembler Portfolio Properties consist of a multi-tenant shopping center located in Cumming, Georgia, (the MT Cumming Property ) and a multi-tenant shopping center located in Winter Garden, Florida (the MT Winter Garden Property ). The Sembler Portfolio Properties contain approximately 1.07 million square feet of rentable space. The Sembler Portfolio Properties were constructed in 2007 and 2008, and are approximately 99% leased to 108 tenants. Pursuant to 108 net leases, the tenants are required to pay substantially all operating expenses and capital expenditures in addition to base rent.

The purchase price of the MT Cumming Property and the MT Winter Garden Property was approximately \$58.4 million and \$180.4 million, respectively, exclusive of closing costs. The MT Cumming Property and MT Winter Garden Property were purchased with proceeds from our ongoing public offering and an approximately \$139.4 million loan cross collateralized by both properties.

After reasonable inquiry, we are not aware of any material factors relating to the Sembler Portfolio Properties, other than those discussed above, that would cause the reported financial information not to be necessarily indicative of future operating results.

In evaluating the Sembler Portfolio Properties as potential acquisitions and determining the appropriate amount of consideration to be paid for our interests therein, a variety of factors were considered, including our consideration of property condition reports; unit-level store performance; property location, visibility and access; age of the property, physical condition and curb appeal; neighboring property uses; local market conditions, including vacancy rates; area demographics, including trade area population and average household income; neighborhood growth patterns and economic conditions; and the presence of demand generators.

In accordance with the provisions of Rule 3-14 of Regulation S-X promulgated by the Securities and Exchange Commission, we have included the audited Historical Summary of revenue and certain operating expenses (the Historical Summary ) of the Sembler Portfolio Properties.

The Historical Summary is the responsibility of Cole Credit Property Trust II, Inc. management. Our responsibility is to express an opinion on the Historical Summary based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Historical Summary is free of material misstatement. An audit includes consideration of internal control over financial reporting as it relates to the Historical Summary as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Portfolio s internal control over financial reporting as it relates to the Historical Summary. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the Historical Summary, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the Historical Summary. We believe that our audit provides a reasonable basis for our opinion.

The accompanying Historical Summary was prepared for the purpose of complying with the rules and regulations of the Securities and Exchange Commission (for inclusion in the Registration Statement on Form S-11 of Cole Credit Property Trust II, Inc.) as discussed in Note 1 to the Historical Summary and is not intended to be a complete presentation of the Portfolio s revenues and expenses.

In our opinion, such Historical Summary presents fairly, in all material respects, the revenues and certain operating expenses discussed in Note 1 to the Historical Summary of the Portfolio for the year ended December 31, 2007, in conformity with accounting principles generally accepted in the United States of America.

**Sembler Portfolio Properties**  
**Notes to the Statements of Revenues and Certain Operating Expenses**  
**For the Year Ended December 31, 2007 and**  
**the Six Months Ended June 30, 2008 (Unaudited)**

**1. Basis of Presentation**

On July 11, 2008 and September 26, 2008, Cole Credit Property Trust II, Inc. (the Company) acquired two multi-tenant retail shopping centers containing approximately 1.07 million rentable square feet located in Georgia and Texas.

The statements of revenues and certain operating expenses (the Historical Summary) has been prepared for the purpose of complying with the provisions of Article 3-14 of Regulation S-X promulgated by the Securities and Exchange Commission (the SEC), which requires certain information with respect to real estate operations to be included with certain filings with the SEC. The Historical Summary includes the historical revenues and certain operating expenses of the Sembler Portfolio Properties, exclusive of items which may not be comparable to the proposed future operations of the Sembler Portfolio Properties. The results of the Sembler Portfolio Properties have been aggregated for purposes of the Historical Summary as the acquisitions are considered related by common commercial factors. Material amounts that would not be directly attributable to future operating results of the Sembler Portfolio Properties are excluded, and the financial statements are not intended to be a complete presentation of the Sembler Portfolio Properties revenues and expenses. Items excluded consist of management fees, legal fees, depreciation, amortization, certain non reimbursable real estate taxes, insurance and advertising, other non-operating expenses, and interest expense.

**2. Significant Accounting Policies**

***Revenue Recognition***

The leases are accounted for as operating leases and minimum rental income is recognized on a straight-line basis over the remaining term of each lease. Contingent rental income, such as percentage rents, is recognized when the specific target which triggers the contingent rental income is achieved. Tenant reimbursement revenue is recognized in the same periods in which the related expenses are incurred. Tenant reimbursement revenue includes payments from tenants as reimbursements for property taxes and other property operating expenses.

***Repairs and Maintenance***

Expenditures for repairs and maintenance are the responsibility of the tenant under the respective lease agreements and therefore are not included in the statements of revenues and certain expenses.

***Use of Estimates***

The preparation of historical summaries in conformity with generally accepted accounting principles requires the Company's management to make estimates and assumptions that affect the reported amounts of revenues and certain operating expenses during the reporting period. Actual results could differ from those estimates.

**Sembler Portfolio Properties**  
**Notes to the Statements of Revenues and Certain Operating Expenses**  
**For the Year Ended December 31, 2007 and**  
**the Six Months Ended June 30, 2008 (Unaudited)**

**3. Leases**

The leases have remaining terms of approximately four to 19 years (expiring between 2013 and 2028) and provide for minimum rentals. The tenant leases generally provide for limited increases in rent as a result of fixed increases, which are recognized on a straight-line basis over the terms of the leases. In addition, some of the tenant leases provide for the receipt of percentage rents which are recorded when earned.

The aggregate annual minimum future rental payments on the non-cancelable operating leases in effect as of December 31, 2007 are as follows:

**Year ending December 31:**

2008	\$ 16,510,616
2009	18,137,197
2010	18,133,486
2011	18,068,591
2012	17,923,775
Thereafter	96,084,903
<b>Total</b>	<b>\$ 184,858,568</b>

The above tables do not include future minimum lease payments for renewal periods or rent increases that are based on the Consumer Price Index ( CPI ) or future contingent rents. Payments are also exclusive of potential charges related to real estate taxes and operating cost escalations.

**4. Tenant Concentration**

For the year ended December 31, 2007, no single tenant accounted for more than 10% of the annual rental income for the Sembler Portfolio Properties.

**5. Commitments and Contingencies*****Litigation***

The Sembler Portfolio Properties may be subject to legal claims in the ordinary course of business as a property owner. The Company believes that the ultimate settlement of any potential claims will not have a material impact on the Sembler Portfolio Properties' results of operations.

***Environmental Matters***

In connection with the ownership and operation of real estate, the Sembler Portfolio Properties may be potentially liable for costs and damages related to environmental matters. The Sembler Portfolio Properties have not been notified by any governmental authority of any non-compliance, liability or other claim, and the Company is not aware of any other environmental condition that it believes will have a material adverse effect on the Sembler Portfolio Properties' results of operations.

**SUMMARY FINANCIAL INFORMATION OF BUSINESSES ACQUIRED AND  
PROBABLE BUSINESSES TO BE ACQUIRED  
SUMMARY FINANCIAL DATA  
CAJUN OPERATING COMPANY, INC.**

Series C has entered into a purchase agreement to purchase 191 properties (the Church's Chicken properties) leased to Cajun Operating Company, Inc. (Cajun Operating Company) for approximately \$132.0 million. The Church's Chicken properties consist of approximately 244,075 square feet located throughout the United States. Subject to the satisfactory completion of certain conditions to closing, we expect that Series C will assign all of its rights and obligations under the purchase agreement for the Church's Chicken properties to Cole Credit Property Trust II, Inc., prior to the closing of the transaction.

Cajun Operating Company develops, operates and franchises quick-service restaurants (QSRs), under the trade names Church's Chicken and Texas Chicken in 30 states, two United States territories and 15 foreign countries.

In evaluating the Church's Chicken properties as potential acquisitions and determining the appropriate amount of consideration to be paid for our interests therein, a variety of factors were considered, including: our consideration of property condition reports; unit-level store performance; property location, visibility and access; age of the property, physical condition and curb appeal; neighboring property uses; local market conditions, including vacancy rates; area demographics, including trade area population and average household income; neighborhood growth patterns and economic conditions; and the presence of demand generators. After reasonable inquiry, we are not aware of any material factors relating to these properties, other than those discussed above, that would cause the reported financial information not to be necessarily indicative of future operating results.

Because the Church's Chicken properties are each 100% leased to a single tenant on a long-term basis under a net lease that transfers substantially all of the operating costs to the tenant, we believe that the financial condition and results of operations of the tenant, Cajun Operating Company, are more relevant to investors than the financial statements of the properties acquired in order to enable investors to evaluate the credit-worthiness of the lessee. Additionally, because the properties are subject to a net lease, the historical property financial statements provide limited information other than rental income, which is disclosed in the section captioned "Investment Objectives and Policies - Real Property Investments" beginning on page 87 of the prospectus, as supplemented from time to time. As a result, pursuant to the guidance provided by the Securities and Exchange Commission, we have not provided audited statements of the properties acquired.

The following summary financial data regarding Cajun Operating Company is taken from its previously audited financial statements:

In evaluating the Tractor Supply properties as potential acquisitions and determining the appropriate amount of consideration to be paid for our interests therein, a variety of factors were considered, including: our consideration of property condition reports; unit-level store performance; property location, visibility and access; age of the property, physical condition and curb appeal; neighboring property uses; local market conditions, including vacancy rates; area demographics, including trade area population and average household income; neighborhood growth patterns and economic conditions; and the presence of demand generators. After reasonable inquiry, we are not aware of any material factors relating to the Tractor Supply properties, other than those discussed above, that would cause the reported financial information not to be necessarily indicative of future operating results.

Because the Tractor Supply properties are each 100% leased to a single tenant on a long-term basis under a net lease that transfers substantially all of the operating costs to the tenant, we believe that the financial condition and results of operations of the tenant, Tractor Supply, are more relevant to investors than the financial statements of the individual property acquired in order to enable investors to evaluate the credit-worthiness of the lessee. Additionally, because the properties are subject to a net lease, the historical property financial statements provide limited information other than rental income, which is disclosed in the section captioned Investment Objectives and Policies Real Property Investments beginning on page 87 of the prospectus. **SUMMARY FINANCIAL DATA  
PETSMART, INC.**

We acquired the following properties (the PetSmart properties ) leased to PetSmart, Inc. ( PetSmart ) between April 30, 2008, the date of our prospectus, and October 27, 2008:

<b>Property Location</b>	<b>Date Acquired</b>	<b>Purchase Price</b>	<b>Square Feet</b>	<b>Year Built</b>
McCarran, NV	7/2/2008	\$ 51,525,000	872,710	2008

Daytona Beach, FL	8/5/2008	5,333,000	26,194	1996
Fredericksburg, VA	8/5/2008	5,199,000	26,051	1997
Total		\$ 66,872,000	950,995	

PetSmart operates over 1,000 stores. PetSmart has a Standard & Poor's credit rating of BB and the company's stock is publicly traded on the Nasdaq Global Select Market under the ticker symbol PETM .

In evaluating the PetSmart properties as potential acquisitions and determining the appropriate amount of consideration to be paid for our interests therein, a variety of factors were considered, including: our consideration of property condition reports; unit-level store performance; property location, visibility and access; age of the property, physical condition and curb appeal; neighboring property uses; local market conditions, including vacancy rates; area demographics, including trade area population and average household income; neighborhood growth patterns and economic conditions; and the presence of demand generators. After reasonable inquiry, we are not aware of any material factors relating to these properties, other than those discussed above, that would cause the reported financial information not to be necessarily indicative of future operating results.

Because the PetSmart properties are each 100% leased to a single tenant on a long-term basis under a net lease that transfers substantially all of the operating costs to the tenant, we believe that the financial condition and results of operations of the tenant, PetSmart, are more relevant to investors than the financial statements of the property acquired in order to enable investors to evaluate the credit-worthiness of the lessee. Additionally, because the properties are subject to a net lease, the historical property financial statements provide limited information other than rental income, which is disclosed in the section captioned Investment Objectives and Policies Real Property Investments beginning on page 87 of the prospectus. As a result, pursuant to the guidance provided by the Securities and Exchange Commission, we have not provided audited statements of the properties acquired.

PetSmart currently files its financial statements in reports filed with the Securities and Exchange Commission, and the following summary financial data regarding PetSmart are taken from its previously filed public reports:

**SUMMARY FINANCIAL DATA**  
**PAYLESS SHOESOURCE, INC.**

We acquired the following property (the PL Columbia Property ) leased to Payless ShoeSource Inc., ( Payless ), which is a wholly-owned subsidiary of Collective Brands, Inc ( Collective Brands ) between April 30, 2008, the date of our prospectus, and October 27, 2008:

<b>Property Location</b>	<b>Date Acquired</b>	<b>Purchase Price</b>	<b>Square Feet</b>	<b>Year Built</b>
Columbia, SC (1)	9/30/2008	\$1,400,000	5,534	1998

(1) Property was acquired from Cole Credit Property Fund LP, an affiliate of our advisor. Our board of directors, including all of the independent directors, approved the transaction as being fair and reasonable to us, at a price in excess of the cost to Cole Credit Property Fund LP, but substantial justification exists for such excess, such excess is reasonable and the costs of the interest did not exceed its current fair market value as determined by an independent appraiser approved by our independent directors.

Payless operates over 4,500 retail stores in 16 countries and territories and the company's stock is publicly traded on the New York Stock Exchange under the ticker symbol PSS.

In evaluating the PL Columbia Property as a potential acquisition and determining the appropriate amount of consideration to be paid for our interests therein, a variety of factors were considered, including our consideration of property condition reports; unit-level store performance; property location, visibility and access; age of the property, physical condition and curb appeal; neighboring property uses; local market conditions, including vacancy rates; area demographics, including trade area population and average household income; neighborhood growth patterns and economic conditions; and the presence of demand generators. After reasonable inquiry, we are not aware of any material factors relating to the PL Columbia Property, other than those discussed above, that would cause the reported financial information not to be necessarily indicative of future operating results.

Because the PL Columbia Property is 100% leased to a single tenant on a long-term basis under a net lease that transfers substantially all of the operating costs to the tenant, we believe that the financial condition and results of operations of the lessee, Payless, are more relevant to investors than the financial statements of the property acquired in order to enable investors to evaluate the credit-worthiness of the lessee. Additionally, because the property is subject to a net lease, the historical property financial statements provide limited information other than rental income, which is disclosed in the section captioned *Investment Objectives and Policies Real Property Investments* beginning on page 87 of the prospectus. As a result, pursuant to guidance provided by the Securities and Exchange Commission, we have not provided audited financial statements of the properties acquired.

Collective Brands currently files its financial statements in reports filed with the Securities and Exchange Commission, and the following summary financial data regarding Collective Brands is taken from its previously filed public reports:

**SUMMARY FINANCIAL DATA  
TJX COMPANIES, INC.**

We acquired the following property (the TJ Staunton Property ) leased to the TJX Companies, Inc., ( TJX ) between April 30, 2008, the date of our prospectus, and October 27, 2008:

(1) Property was acquired from Cole Credit Property Fund II LP, LLC, an affiliate of our advisor. Our board of directors, including all of the independent directors, approved the transaction as being fair and reasonable to us, at a price in excess of the cost to Cole Credit Property Fund II LP, LLC, but substantial justification exists for such excess, such excess is reasonable and the costs of the interest did not exceed its current fair market value as determined by an independent appraiser approved by our independent directors.

TJX operates 2,500 stores internationally and the company's stock is publicly traded on the New York Stock Exchange under the ticker symbol TJX.

In evaluating the TJ Staunton Property as a potential acquisition and determining the appropriate amount of consideration to be paid for our interests therein, a variety of factors were considered, including our consideration of property condition reports; unit-level store performance; property location, visibility and access; age of the property, physical condition and curb appeal; neighboring property uses; local market conditions, including vacancy rates; area demographics, including trade area population and average household income; neighborhood growth patterns and economic conditions; and the presence of demand generators. After reasonable inquiry, we are not aware of any material factors relating to the TJ Staunton Property, other than those discussed above, that would cause the reported financial information not to be necessarily indicative of future operating results.

Because the TJ Staunton property is 100% leased to a single tenant on a long-term basis under a net lease that transfers substantially all of the operating costs to the tenant, we believe that the financial condition and results of operations of the lessee, TJX, are more relevant to investors than the financial statements of the property acquired in order to enable investors to evaluate the credit-worthiness of the lessee. Additionally, because the property is subject to a net lease, the historical property financial statements provide limited information other than rental income, which is disclosed in the section captioned "Investment Objectives and Policies - Real Property Investments" beginning on page 87 of the prospectus. As a result, pursuant to guidance provided by the Securities and Exchange Commission, we have not provided audited financial statements of the properties acquired.

In evaluating the BJ Ft.
