ANNUAL REPORT
TO STOCKHOLDERS

DECEMBER 31, 2001

PORTFOLIO MANAGER COMMENTARY

Dear Fellow Stockholders:

2001 turned out to be a year that most of us would rather forget, an annus horribilis so to speak. However, there was a bright spot for us. In 2001, the Blue Chip Value Fund performed very well on a relative basis. The Fund's Net Asset Value (NAV) was down 2.97%, while its benchmark, the S&P 500, was down 11.88%. The Fund started the year trading at a discount to its NAV and ended the year at a premium, so the market performance for the Fund was up 14.07%. In a bear market year, we were very pleased with these results.

In 2001, the best performing sector for the Fund, on both an absolute basis and relative to its benchmark, was the consumer cyclical sector. Consumer spending held up remarkably well all year given the economic environment and a variety of stocks performed well for the Fund. TJX Companies Inc., the parent company for TJMaxx and Marshalls, did well as consumers were attracted to its discount format and as the company was able to exploit some excellent buying opportunities from overstocked retailers. Tricon Global Restaurants Inc. is the company that owns Taco Bell, KFC and Pizza Hut. It had suffered through poor sales and a revamping of menus and we finally began to see improved results from the company late in the year. Cendant Corp., the franchisor of hotels, rental cars, and real estate offices, continued its turnaround and the stock performed well, even given the environment post September 11. Finally, the Fund's media and publishing stocks performed exceptionally well with the best returns coming from USA Networks Inc. and Westwood One Inc.

Another positive for the portfolio was the technology sector where we managed to have double digit positive returns versus the benchmark's double

Edgar Filing: BLUE CHIP VALUE FUND INC - Form N-30D

digit negative returns. We did this partly by avoiding some of the largest technology stocks that we simply saw as too expensive and partly by finding stocks with valuations that already reflected the weak operating environment. The Fund had very solid returns from Microsoft Corp., IBM Corp., Sun Microsystems Inc., Avnet Inc. and American Power Conversion.

The healthcare sector was also positive for performance. This was due primarily to the Fund's healthcare services stocks, Tenet Healthcare Corp. and Omnicare Inc. Pricing and utilization trends have improved in the healthcare industry for providers and it appears to us that the stocks moved up in 2001 in recognition of these trends. We also had strong performance from Millipore Corp., a company that makes purification

products for biopharmaceutical production and research and for microelectronics. The company announced that it would split into two separate companies, which in our opinion will unlock the value in the biopharmaceutical business.

Both the energy and utility sectors were disappointing for us in 2001. In energy, we simply underestimated how much weaker demand would hurt oil and gas prices. Thus, the Fund's investments in oil and gas service providers did not pay off. In the utility sector, the Fund owns mostly companies that we believe should benefit from deregulation of the industry, such as Dynegy Inc., Mirant Corp. and Reliant Resources Inc. In light of the pricing problems in California and the demise of energy trading powerhouse Enron Corp. (which the Fund did not own), these stocks did not perform well. However, we have maintained our commitment to this area because we do not believe the trend towards deregulation will be reversed and the stocks are trading at what we believe are terrific valuations.

We're pleased with the Fund's relative performance in 2001. Our value style of investing was a clear advantage relative to the S&P 500, but the Fund also outperformed the S&P 500 Value Index by almost 9% in 2001. In our opinion, there is still plenty of uncertainty for investors to worry about, but on the margin we believe there is less uncertainty than there was immediately after the events of September 11. The monetary and fiscal stimulus the government is providing appears to be very positive for the economy. We are hopeful the bear market has run its course.

Sincerely,

/s/ Charlotte T. Petersen

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

Blue Chip Value Fund, Inc.'s (the "Fund") Dividend Reinvestment and Cash Purchase Plan offers stockholders the opportunity to reinvest dividends and capital gain distributions in additional shares of the Fund. A stockholder may also make additional cash investments under the Plan. There is no service charge for participation.

Participating stockholders will receive additional shares issued at a price equal to the net asset value per share as of the close of the New York Stock Exchange on the record date ("Net Asset Value"), unless at such time the Net Asset Value is higher than the market price of the Fund's common stock, plus brokerage commission. In this case, the Fund will attempt, generally over the next 10 business days (the "Trading Period"), to acquire shares of the Fund's common stock in the open market at a price plus brokerage commission which is less than the Net Asset Value. In the event that prior to the time such acquisition is completed, the market price of such common stock plus commission equals or exceeds the Net Asset Value, or in the event that such market purchases are unable to be completed by the end of the Trading Period, then the balance of the distribution shall be completed by issuing additional shares at Net Asset Value.

Participating stockholders may also make additional cash investments (minimum \$50 and maximum \$10,000 per month) by check or money order (or by wire for a \$10 fee) to acquire additional shares of the Fund. Please note, however, that these additional shares will be purchased at market value plus brokerage

Edgar Filing: BLUE CHIP VALUE FUND INC - Form N-30D

commission (without regard to net asset value) per share.

A stockholder owning a minimum of 50 shares may join the Plan by sending an Enrollment Form to the Plan Agent at Mellon Investor Services, LLC, Overpeck Centre, 85 Challenger Road, Ridgefield Park, NJ, 07660.

The automatic reinvestment of dividends and distributions will not relieve participants of any income taxes that may be payable (or required to be withheld) on dividends or distributions, even though the stockholder does not receive the cash. Participants must own at least 50 shares at all times.

A stockholder may elect to withdraw from the Plan at any time on 15-days' prior written notice, and receive future dividends and distributions in cash. There is no penalty for withdrawal from the Plan and stockholders who have withdrawn from the Plan may rejoin in the future.

The Fund may amend the Plan at any time upon 30-days prior notice to participants.

Additional information about the Plan may be obtained from Blue Chip Value Fund, Inc. by writing to 1225 17th Street, 26th Floor, Denver, CO 80202, by telephone at (800) 624-4190 or by visiting us at www.blu.com.

If your shares are registered with a broker, you most likely can still participate in the Dividend Reinvestment Plan. Please contact your broker about how to participate and to inquire if there are any fees which may be charged by the broker to your account.

CHANGE IN FUNDAMENTAL INVESTMENT POLICY

Recently enacted SEC regulations require a fund to invest at least 80% of its net assets in the type of investment suggested by the fund's name. Accordingly, on February 5, 2002, the Board of Directors approved a change to the Fund's fundamental policy such that the Fund will invest at least 80% (formerly 75% of its total assets) of its net assets (including the amount of any borrowings for investment purposes) in equity securities of large companies with headquarters in the United States, such as those included in, or similar in size to those included in, the S&P 500 Index.

CHANGE IN PORTFOLIO MANAGER

Charlotte T. Petersen, the Fund's portfolio manager, has notified Denver Investment Advisors LLC ("DIA") that she will be resigning from DIA's staff on a date to be agreed upon (but not later than July 12, 2002). DIA expects to appoint a successor portfolio manager from investment personnel now assigned to the Fund and is confident that its staff and other resources will continue to provide the Fund effective portfolio management in accordance with its investment objective and policies.

Dividends and distributions, if any, are assumed for purposes of this calculation to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Rights offerings, if any, are assumed for purposes of this calculation to be fully subscribed under the terms of the rights offering. Generally, total investment return based on net asset value will be higher than total investment return based on market value in periods where there is an increase in the discount or a decrease in the premium of the market value to the net asset value from the beginning to the end of such periods. Conversely, total investment return based on the net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of such periods.

(2) A portfolio turnover rate is the percentage computed by taking the lesser of purchases or sales of portfolio securities (excluding short-term investments) for a year and dividing it by the monthly average of the market value of the portfolio securities during the year. Purchases and sales of investment securities (excluding short-term securities) for the year ended December 31, 2001 were \$116,270,477 and \$105,432,037, respectively.

BLUE CHIP VALUE FUND, INC.

NOTES TO FINANCIAL STATEMENTS

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Blue Chip Value Fund, Inc. (the "Fund") is registered under the Investment Company Act of 1940, as amended, as a diversified, closed-end management investment company.

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

SECURITY VALUATION - Each investment security is generally valued at the last sale price at period end reported by the principal exchange on which the issue was traded or, if no sale is reported, at a value based on the average closing bid and asked price. When market quotations are not readily available or when events occur that make established valuation methods unreliable, securities

Edgar Filing: BLUE CHIP VALUE FUND INC - Form N-30D

of the Fund may be valued at fair value determined in good faith by or under the direction of the Board of Directors. Securities for which market quotations are not readily available are valued in good faith by or under the direction of the Board of Directors. Short-term securities having a remaining maturity of 60 days or less are valued at amortized cost which approximates market value.

FEDERAL INCOME TAXES - The Fund intends to comply with the requirements of the Internal Revenue Code that are applicable to regulated investment companies and to distribute all of its taxable income to its stockholders. Therefore, no provision has been made for federal income taxes.

INVESTMENT TRANSACTIONS - Investment transactions are accounted for on the date the investments are purchased or sold (trade date). Realized gains and losses from investment transactions and unrealized appreciation and depreciation of investments are determined on the first-in, first-out basis for both financial statement and federal income tax purposes. Dividend income is recorded on the ex-dividend date. Interest income, which includes interest earned on money market funds, is accrued and recorded daily.

DISTRIBUTIONS TO STOCKHOLDERS - Distributions to stockholders are recorded on the ex-dividend date. Distributions are classified to conform to the tax reporting requirements of the Internal Revenue Code. If the Fund's total distributions for the year (exclusive of long-term capital gains dividends) exceed its net investment income and short-term capital gains for such year, a portion of such distributions may constitute a non-taxable return of capital.

The Fund distributes at least 2.5% of its net asset value quarterly to its stockholders.

CLASSIFICATION OF DISTRIBUTIONS TO STOCKHOLDERS - The Fund adjusts the classification of distributions to stockholders to reflect the differences between financial statement amounts and distributions determined in accordance with income tax regulations. No such adjustments were made during the current year.

USE OF ESTIMATES - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and disclosures made in the accompanying notes to the financial statements. Actual results could differ from those estimates.

AS OF DECEMBER 31, 2001:

Cost of investments for income tax purposes	\$140,480,584
	=====

3. INVESTMENT ADVISORY AND ADMINISTRATION SERVICES

The Fund has an Investment Advisory Agreement with Denver Investment Advisors LLC ("DIA"), whereby a management fee is paid to DIA based on an annual rate of 0.65% of the Fund's average weekly net assets up to \$100,000,000 and 0.50% of the Fund's average weekly net assets in excess of \$100,000,000. The management fee is paid monthly based on the average of the net assets of the Fund computed as of the last business day the New York Stock Exchange is open

Edgar Filing: BLUE CHIP VALUE FUND INC - Form N-30D

each week. Certain officers and directors of the Fund are also officers of DIA.

Effective September 1, 1999, ALPS Mutual Funds Services, Inc. ("ALPS") and DIA entered into an Administrative Agreement to serve as the Fund's co-administrators. The administrative services fee is based on an annual rate for ALPS and DIA, respectively, of 0.08% and 0.01% of the

Fund's average daily net assets up to \$75,000,000, 0.04% and 0.005% of the Fund's average daily net assets between \$75,000,000 and \$125,000,000, and 0.02% and 0.005% of the Fund's average daily net assets in excess of \$125,000,000. The administrative services fee is paid monthly.

4. CAPITAL TRANSACTIONS

In 2001, the Fund completed a rights offering to existing stockholders. The Fund issued rights to purchase an additional share of the Fund for each five shares owned as of February 28, 2001. The subscription period began March 2, 2001 and extended through 5:00 p.m., Eastern Time, March 29, 2001. The price of the shares issued was \$6.45, which represented 95% of the closing price of the Fund's common stock of \$6.79 on March 30, 2001, the pricing date of the offering. The Fund's net asset value on March 30, 2001 was \$7.88. There were 3,522,591 shares issued in the rights offering for proceeds, net of offering expenses, of \$22,551,862.

5. CHANGE OF INDEPENDENT AUDITORS

On February 8, 2000, Ernst & Young LLP ("Ernst & Young") resigned as the Fund's independent auditors. During the Fund's fiscal years ended December 31, 1999 and 1998, Ernst & Young's reports on the Fund's financial statements contained no adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope, or accounting principles. During the Fund's fiscal years ended December 31, 1999 and 1998, there were no disagreements with Ernst & Young on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to the satisfaction of Ernst & Young, would have caused it to make reference to the subject matter of the disagreement in connection with its report on the financial statements for such years. During the Fund's fiscal years ended December 31, 1999 and 1998, there were no events of the kind described in Item 304(a)(1)(v) of Regulation S-K under the Securities Exchange Act of 1934.

On February 8, 2000, after recommendation by the Board's Audit Committee, the Fund, by action of its Board of Directors, including a majority of the members of the Board of Directors who are not "interested persons" of the Fund (as that term is defined in the 1940 Act), selected Deloitte & Touche LLP ("Deloitte & Touche") as the independent auditors to audit the Fund's financial statements for the fiscal year ended December 31, 2000. During the Fund's fiscal years ended December 31, 1999 and 1998, neither the Fund nor anyone on its behalf has consulted Deloitte & Touche on items which (i) concerned the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on the Fund's financial statements, or (ii) concerned the subject of a disagreement (as defined in paragraph (a)(1)(iv) of Item 304 of Regulation S-K) or reportable events (as described in paragraph (a)(1)(v) of said Item 304).

6. SENIOR SECURITIES

At the time of its organization and public offering in 1987, the Fund borrowed a total of \$7,375,500 in the form of 8 1/2% Senior Installment Notes (the "Notes"). Pursuant to the Notes, the Fund made monthly payments of principal and interest, the last of which was paid in May 1993. The Fund has had no Senior Securities outstanding since May 1993. The following table sets forth
