APPLIED INDUSTRIAL TECHNOLOGIES INCREASES DIVIDEND 17%  
-----

CLEVELAND, OHIO (July 14, 2004) Applied Industrial Technologies (NYSE: AIT) Chairman & Chief Executive Officer David L. Pugh today announced that the Company's Board of Directors declared a quarterly cash dividend of \$0.14 per common share, payable on August 31, 2004, to shareholders of record on August 15, 2004. This cash dividend represents a 17 percent increase over the previous regular quarterly cash dividend rate of \$0.12 per share.

"We are pleased that the shareholders of Applied Industrial Technologies will participate in the improved profitability of the company with an increase in the cash dividend," Pugh said. "The new cash dividend rate is consistent with the Company's stated objective of targeting a 35% payout of earnings."

With more than 430 facilities and 4,300 employee associates across North America, Applied Industrial Technologies offers more than 2 million parts critical to the operations of MRO and OEM customers in virtually every industry. In addition, Applied provides engineering, design and systems integration for industrial and fluid power applications, as well as customized mechanical, fabricated rubber and fluid power shop services. For its fiscal year ended June 30, 2003, the Company posted sales of \$1.46 billion. Financial results for the fiscal year ended June 30, 2004 are expected to be announced in a press release on August 6, 2004. Applied can be visited on the Internet at [www.applied.com](http://www.applied.com).

This press release contains statements that are forward-looking, as that term is defined by the Securities and Exchange Commission in its rules, regulations and releases. Forward-looking statements are often identified by qualifiers such as "expect," "guidance," "see" and similar expressions. Applied intends that such forward-looking statements be subject to the safe harbors created thereby. All forward-looking statements are based on current expectations regarding important risk factors including trends in the industrial sector of the economy, and other risk factors identified in Applied's most recent periodic report and other filings made with the Securities and Exchange Commission. Accordingly, actual results may differ materially from those expressed in the forward-looking statements, and the making of such statements should not be regarded as a representation by the Company or any other person that the results expressed therein will be achieved. Applied assumes no obligation to update publicly or revise any forward-looking statements, whether due to new information, or events, otherwise.
