Board Meetings and Attendance

The Board met nine times during 2004. Committees of the Board met from time to time upon call of the Chairman of the Board or individual committee Chairs. During 2004, each Director attended at least 82% of the total number of meetings of the Board and the committees on which he or she served, except a former Director, Ms. Padmasree Warrior, who attended 10 of the 14 meetings of the Board and committees on which she served in 2004. Ms. Warrior resigned as a Director on June 23, 2005, due to the time commitment required by her other professional responsibilities.

Although we do not have a formal policy with respect to Director attendance at the Annual Meeting of Shareholders, the Directors are encouraged to attend. All of our Directors did attend the 2004 Annual Meeting.

Director Compensation

Each Director (other than Directors who are Company employees) is paid an annual fee of \$30,000 and an attendance fee of \$1,500 per day for meetings of the Board and \$1,000 for committee meetings. The Chairs of the Audit Committee and the Governance, Nomination & Compensation Committee are paid an additional annual fee of \$10,000 each, and the Chairs of the Finance and Technology Strategy Committees are paid an additional fee of \$4,000 each. In addition, in 2003 and 2004, Ferro granted each Director (other than Mr. Ortino) an option to purchase 7,000 shares of Common Stock under the Long-Term Incentive Compensation Plan.

Directors may defer their fees into a Ferro Common Stock account. Amounts so deferred are invested in Ferro Common Stock and dividends on those shares are reinvested in Ferro Common Stock. Ferro distributes the shares in a Director's deferred account after he or she retires or otherwise leaves the Board.

Vote Required

The three nominees who receive the greatest number of votes cast for the election of Directors at the 2005 Annual Meeting by the shares present, in person or by proxy, and entitled to vote will be elected Directors.

Board Recommendation

The Board recommends that you vote **FOR** the election of Ms. Crayton, Mr. Lawrence and Mr. Sullivan. Unless you instruct otherwise on your proxy card or by telephone or Internet voting instructions, your proxy will be voted in accordance with the Board's recommendation.

If the election of Directors is by cumulative voting (see page 26 below), however, the persons appointed by your proxy intend to cumulate the votes represented by the proxies they receive and distribute such votes in accordance with their best judgment.

**HECTOR R. ORTINO
(1942-2005)**

On November 28, 2005, Hector R. Ortino, Ferro's Chairman and Chief Executive Officer, died unexpectedly at age 63. He had served in that role since 1999, during which time he presided over the transformation of Ferro into a technology-based business.

Mr. Ortino began his distinguished career with Ferro Argentina in 1971 and held several financial and operating positions in Argentina and Mexico. In 1983, he moved to Cleveland and served in several progressively more responsible financial and administrative positions, including Executive Vice President and Chief Financial-Administrative Officer. In 1996, he was named Ferro's President and Chief Operating Officer. Before joining Ferro, Mr. Ortino was with Columbia Broadcasting Systems Inc., Argentina and Pfizer, Inc., Argentina.

During his career, Mr. Ortino filled many important leadership roles and was responsible for several critical strategic initiatives at Ferro. As Chairman, he was instrumental in the development and implementation of the Company's current corporate strategy, the Leadership Agenda, which focuses on portfolio management and balancing of springboard, platform and foundation businesses. He also spearheaded the Company's geographic expansion efforts, especially in the Asia-Pacific region. He was also instrumental in the successful execution and integration of the dmc² acquisition, the largest acquisition in Ferro's history.

In addition to serving as Ferro's Chairman and Chief Executive Officer and a Director of the Company, at the time of his death, Mr. Ortino also served as a director of Parker Hannifin Corporation (a producer of motion and control components for commercial, industrial and aerospace markets) and New York Life Insurance Company (a mutual life insurance company). He also served on the boards of numerous civic and cultural organizations and was the 2003 recipient of the Torch of Liberty Award of the Cleveland Anti-Defamation League.

Table of Contents

CORPORATE GOVERNANCE

Ferro's Board has long followed, both formally and informally, corporate governance principles designed to assure that the Board, through its membership, composition, and committee structure, is able to provide informed, competent and independent oversight of the Company.

Below is a description of the corporate governance measures in place to assure that objective is met. Further information about the Company's governance may be found at our website: www.ferro.com.

Corporate Governance Principles

The Board has adopted Corporate Governance Principles. These Corporate Governance Principles, which may be found on Ferro's website, are intended to assure that Ferro's Director qualifications, Committee structure and overall Board processes provide good corporate governance and independent oversight of the Company's management.

Director Independence

The Board has also adopted formal Guidelines for Determining Director Independence, which may also be found on Ferro's website. The purpose of these Guidelines is to assist the Board in its evaluation of and determination as to the independence of members of the Board. The Guidelines meet or exceed in all respects the standards set forth in section 303A of the New York Stock Exchange listing standards, and the Board has determined that all Directors, other than the Chief Executive Officer, qualify as independent under such standards.

Board Committees

The Board has four committees as follows:

Audit Committee

The Audit Committee assists the Board with oversight of the integrity of Ferro's financial statements, Ferro's compliance with legal and regulatory requirements relating to its financial reports (including the annual Audit Committee report as required by the Securities Exchange Act of 1934), Ferro's external independent auditors qualifications, independence, and performance, the performance of Ferro's internal audit and risk management functions, compliance with Ferro's legal and ethical policies and Ferro's accounting practices and systems of internal control. The Audit Committee is not, however, responsible for conducting audits, preparing financial statements, or the accuracy of any financial statements or filings, all of which remain the responsibility of management and the independent auditors. The Committee's charter may be found on Ferro's website.

The members of the Audit Committee are Dr. Hwang and Messrs. Lawrence, Sharp, Sullivan and Weisser. Mr. Lawrence serves as the Chair. Each member of the Audit Committee is independent as required under section 301 of the Sarbanes-Oxley Act of 2002, as well as under the standards contained in section 303A of the New York Stock Exchange listing standards. The Board has determined, in its best judgment, that more than one member of the Audit Committee has the accounting and related financial management experience and expertise to qualify as an audit committee financial expert as defined in section 407 of the Sarbanes-Oxley Act and the Securities and Exchange Commission's rules under that statute. The Board, however, has designated Alberto Weisser as the Audit Committee's named financial expert. (Mr. Weisser's biography is on page 5 above.) The Board has further determined that each member of the Audit Committee has the requisite financial literacy required under section 303A of the New York Stock Exchange listing standards to serve on the Audit Committee.

The Audit Committee met 15 times in 2004. The Audit Committee's report is on page 20 below.

Table of Contents

Governance, Nomination & Compensation Committee

The Governance, Nomination & Compensation Committee is responsible for recommending to the Board corporate governance principles, overseeing adherence to the corporate governance principles adopted by the Board, recommending to the Board criteria and qualifications for new Board members, recommending to the Board nominees for appointment or election as Directors, recommending to the Board the composition of committees and the chairs of each, recommending policies for compensation of Directors, and setting the compensation of executive officers, including Ferro's Chief Executive Officer. The Committee's charter may be found on Ferro's website.

In its role as the nominating body for the Board, the Committee reviews the credentials of potential Director candidates (including potential candidates recommended by shareholders), conducts interviews and makes formal recommendations to the Board for the annual and any interim election of Directors. In making its recommendations, the Committee considers a variety of factors, including skills, independence, background, experience, diversity and compatibility with existing Board members. Other than the foregoing, there are no stated minimum criteria for Director nominees, and the Committee may also consider such other factors as it deems appropriate in the best interests of Ferro and its shareholders.

The Committee identifies nominees by first evaluating the current members of the Board willing to continue in service. If any Board member does not wish to continue in service or if the Committee or the Board decides not to nominate a member for re-election, then the Committee identifies the desired skills and experience in light of the criteria outlined above. The Committee then establishes a pool of potential Director candidates from recommendations from the Board, senior management and shareholders. The Committee may also retain a third party search firm to assist in the identification of Director candidates.

The Committee will consider candidates for Director who are recommended by shareholders. Shareholder recommendations should be submitted in writing to: Secretary, Ferro Corporation, 1000 Lakeside Avenue, Cleveland, Ohio 44114-1147 USA. The recommendation letter should include the shareholder's own name, address and the number of shares owned and the candidate's name, age, business address, residence address and principal occupation, as well as the number of shares the candidate owns. The letter should provide all of the information that would need to be disclosed in the solicitation of proxies for the election of directors under Federal securities laws. Finally, the shareholder should also submit the recommended candidate's written consent to be elected and commitment to serve if elected. Ferro may also require a candidate to furnish additional information regarding his or her eligibility and qualifications.

Messrs. Bulkin, Lawrence, Mee and Sharp are the members of the Governance, Nomination & Compensation Committee, with Mr. Bulkin serving as the Chair. All members of this Committee meet the independence standards contained in section 303A of the New York Stock Exchange's listing standards.

The Governance, Nomination & Compensation Committee met six times in 2004. Its report is on pages 11 to 13 below.

Finance Committee

The Finance Committee has oversight responsibilities with respect to reviewing the Company's capital structure, worldwide capital needs, major capital allocations, financial position and related financial covenants and recommending to the Board financial programs and plans for implementing such programs. This Committee's charter may also be found on Ferro's website.

The Finance Committee met three times in 2004. Ms. Crayton and Messrs. Mee, Sharp and Weisser are the members of the Finance Committee, with Mr. Mee serving as the Chair.

Table of Contents

Technology Strategy Committee

The Technology Strategy Committee has responsibility for considering new business initiatives presented by management in the electronics, pharmaceuticals and other high technology sectors and for evaluating and recommending strategies for developing and adding to the technologies involved in those initiatives.

Ms. Crayton, Dr. Hwang, Mr. Bulkin, and Mr. Sullivan are members of the Technology Strategy Committee, with Ms. Crayton serving as the Chair. This Committee met twice in 2004 and its charter may also be found on Ferro's website.

Other Corporate Governance Measures

Ferro's independent Directors meet at regularly scheduled executive sessions at least once each year. These meetings are chaired by a lead Director selected from among the committee Chairs on a rotating basis. Neither the Chief Executive Officer nor any other member of management attends these meetings. Following each executive session, the non-management Directors invite the Chief Executive Officer to join their meeting and share with him, at their discretion, any observations, comments or concerns they may have.

The independent Directors have access to Ferro management as they deem necessary or appropriate. In addition, the Chairs of the Audit Committee and the Governance, Nomination & Compensation Committee meet periodically with members of senior management.

Finally, Ferro has adopted a series of policies dealing with business conduct and ethics. These policies apply to all Ferro Directors, officers and employees. A summary of these policies may be found on Ferro's website and the full text of the policies is available in print, free of charge, by writing to: General Counsel, Ferro Corporation, 1000 Lakeside Avenue, Cleveland, Ohio 44114-1147 USA. Under the Audit Committee's charter, the Committee is charged with responsibility to assure that all exceptions to and waivers of the Company's ethical and internal control policies are properly disclosed, documented and approved by the Committee and that no employee is disciplined, punished or otherwise disadvantaged as a consequence of reporting in good faith violations of the Company's policies. Exceptions, waivers and amendments of those policies may be made, if at all, only by the Committee and, in the event any such exceptions, waivers or amendments are granted, a description of the change or event will be posted on Ferro's website within four business days. Finally, further to assure compliance, Ferro maintains a hotline that allows employees throughout the world to report confidentially any detected violations of these legal and ethical conduct policies consistent with local legal requirements and subject to local legal limitations.

Any shareholder who wishes to communicate directly and confidentially with the lead Director or the independent Directors as a group may contact the independent Directors at the following website: www.ferrodirectors.com. The independent Directors will handle such communications confidentially.

INFORMATION CONCERNING EXECUTIVE OFFICERS

Report of the Governance, Nomination & Compensation Committee

Our Compensation Program

Ferro's management compensation program is designed to balance current performance with achievement of long-term objectives and to align the interests of senior management with those of the shareholders. The three key elements of this program are (1) an annual base salary, (2) an annual incentive bonus, and (3) long-term incentives. The Chief Executive Officer's compensation includes all three of these elements. The Governance, Nomination & Compensation Committee has general responsibility for administering the compensation program.

Annual Base Salary. The Committee sets the annual base salary of all executive officers, including the Chief Executive Officer. The Chief Executive Officer makes recommendations to the Committee as to the base salaries of officers other than himself. The Chief Executive Officer does not, however, participate in deliberations concerning his own compensation.

Annual Incentive Bonus. Annual cash bonuses are paid to management employees under an annual incentive compensation plan. Under this plan, the Chief Executive Officer's achievement is measured exclusively by attainment of financial performance targets. Awards for other senior managers are based on achievements measured primarily by attainment of financial performance targets, but they are also measured to a lesser extent by personal performance objectives.

Each year the Committee determines which senior managers will participate in the annual incentive compensation plan, determines the applicable percentage of salary to be used for bonus measurement and sets the financial performance targets by which the level of bonus achievement will be measured.

Long-Term Incentives. In 2004, grants of stock options and performance shares were made under the Company's Long-Term Incentive Compensation Plan. Grants of stock options and performance shares reinforce the long-term goal of increasing shareholder value by aligning the interests of management and the interests of the Company's shareholders. The terms of those grants may be summarized as follows:

- o *Stock Options.* Stock options are issued with an exercise price at no less than the current market price at the date of grant. Stock options have a maximum term of ten years and vest evenly over the first four anniversaries of the grant date. The Committee determines which employees receive stock options and the number of option shares granted to such employees in accordance with the terms of the Plan.
- o *Performance Shares.* Employees are awarded a nominal or target number of shares. At the end of a pre-determined performance period (usually three years), a determination is made whether and to what extent the pre-established performance targets have been achieved. Unless target levels of performance are achieved, employees' actual payouts under the Plan can be significantly below the nominal values of the awards. Payments under the Plan are made one-half in shares and one-half in cash.

2004 Executive Compensation

Compensation of the Chief Executive Officer. The Committee was responsible for setting the compensation package for Mr. Ortino, Ferro's deceased former Chairman and Chief Executive Officer. To assist in its evaluations, the Committee retained Watson Wyatt & Company ("Watson Wyatt") as its independent executive compensation consultants. Watson Wyatt's advice was based on a variety of competitive data maintained by, or available to, Watson Wyatt. Companies included in this competitive data differ from those included in the performance graph on page 25 because the Committee believes Ferro competes for executive talent not only with those companies within the same industry, but also with companies with similar operations or of similar size.

Table of Contents

From these data, Watson Wyatt made recommendations to the Committee as to competitive levels of each element of Mr. Ortino's compensation (base salary, annual incentive and long-term incentive). The Committee took these recommendations into consideration in setting Mr. Ortino's compensation. The Committee's policy is to attain competitive levels of executive compensation for each of these elements.

For 2004, the Committee set the following compensation for Mr. Ortino:

Base Salary	Annual Incentive Bonus	Stock Options	Performance Shares
\$800,000	\$ 292,020	175,000 Shares	40,000 Shares

At the beginning of 2004, the Company's management recommended, and the Committee agreed, that executive base salaries should be frozen due to the economic conditions facing the Company at that time. Accordingly, Mr. Ortino's base salary remained at the same level in 2004 as it had been at the end of the preceding year. The Committee's decisions with respect to the incentive elements of Mr. Ortino's compensation were based on Mr. Ortino's continued leadership in the Company's responses to market and economic issues posed by product demand and volatility of raw materials pricing, as well as on his success in integrating a new President and Chief Operating Officer. The recommendations and actions of the Committee included consideration of Watson Wyatt's data as to competitive standards of compensation in the marketplace.

Mr. Ortino's base salary was in the third quartile of competitive market salary data as reported by Watson Wyatt. Mr. Ortino's annual incentive bonus target amount equaled 75% of his base salary, a percentage that, if achieved, would have placed Mr. Ortino's bonus in the third quartile of other companies in the marketplace for 2004 as reported by Watson Wyatt. Based on the mathematical application of performance factors for sales revenue, earnings per share and debt reduction, Mr. Ortino's actual bonus for 2004 equaled 36.5% of his base salary rate.

With respect to long-term incentives, Mr. Ortino's 2004 stock option award was in the fourth quartile and his 2004 performance share award was in the fourth quartile of long-term incentive programs of comparable companies in the marketplace as reported by Watson Wyatt. The actual future value of stock option awards would, of course, have been a function of the market value for Ferro stock in the future. The actual future value of performance share awards would have been a function both of the future market value of Ferro stock and of the degree of achievement of performance targets.

Compensation of Other Senior Executives. The Committee believes that a substantial portion of compensation for other senior executives should be variable, based upon performance of the Company and results achieved by each member of management.

In making its determinations with respect to Messrs. Bays, Gannon, and Kramer and Ms. Pitts, the Committee considered and discussed the same materials and information that were considered with respect to Mr. Ortino. With respect to these executives, the Committee also considered its and Mr. Ortino's evaluation of their individual performances. In the case of Mr. Kramer and Ms. Pitts, who had direct responsibilities with respect to Ferro business operations, their levels of achievement under the Annual Incentive Compensation Plan and Performance Share Plan were also materially affected by the performance of the specific operations for which they were then responsible.

Based on the foregoing, the target bonuses for the four named senior executives as a group were in the second quartile of the peer companies reported in Watson Wyatt's competitive market data.

Section 162(m) Limitation

Section 162(m) of the Internal Revenue Code generally provides that certain compensation in excess of \$1.0 million per year paid to a company's chief executive officer and any of its four highest paid executive officers is not deductible by a company unless the compensation qualifies for an exception. Section 162(m) provides an exception for performance-based compensation if certain procedural requirements, including shareholder approval of the material terms of the performance goals, are satisfied. The 2003 Long-Term Incentive Compensation Plan contains the provisions necessary to qualify the Plan under the section 162(m) exception and preserve the tax deductibility to the Company of compensation paid to executives under these plans in the future. Mr. Ortino received compensation in excess of \$1.0 million in 2004.

Respectfully submitted,

Michael H. Bulkin, Chairman
William B. Lawrence
Michael F. Mee

Footnotes to Summary Compensation Table

(1) James F. Kirsch joined the Company's management team as its President and Chief Operating Officer on October 18, 2004. When he joined the Company, Mr. Kirsch's initial base salary for 2004 was

\$500,000 and he was eligible for an annual bonus payment of up to 60% of his base salary. (He was guaranteed a bonus of at least 50% of his base salary actually paid in 2004 and 2005.) When Mr. Kirsch was named President and Chief Executive Officer on November 30, 2005, following Mr. Ortino's untimely death, the Board increased his base salary to \$600,000 and his target bonus to 75% of his base salary.

- (2) Amounts in this column include primarily dividends paid on as-yet-unmatured performance shares, above-market interest credited under the Company's Executive Deferred Compensation Plan and the incremental cost of personal use of Company aircraft for each of the years 2002, 2003 and 2004 as follows:

	2002			2003			2004		
	PSP Dividends	Above Market Interest	Personal Use of Aircraft	PSP Dividends	Above Market Interest	Personal Use of Aircraft	PSP Dividends	Above Market Interest	Personal Use of Aircraft
Hector R. Ortino	\$38,280	\$9,047	\$60,229	\$62,495	\$11,176	\$83,594	\$72,355	\$4,413	\$51,560
James C. Bays	4,875	0	0	8,265	0	0	12,258	559	0
Thomas M. Gannon				1,740	0	0	8,932	0	0
Dale G. Kramer	7,903	0	0	11,383	0	0	15,631	0	0
Millicent W. Pitts	8,845	0	0	11,383	0	0	16,470	0	0

The method by which the value of personal use of aircraft has been calculated in the table above is different from the method used in previous years. In previous years, the calculation was based on the standard industry fare level. In the table above the value is based on the incremental cost to the Company of the air travel. Incremental cost was calculated based on variable operating cost, which includes fuel and other supplies, travel expenses, equipment rental, flight crew expenses, meals and miscellaneous

handling charges and expenses. Fixed costs were not included in the calculation of incremental cost because those expenses would have been incurred by the Company regardless of the personal use of the aircraft by Company executives. We have recalculated the amounts previously reported for 2002 and 2003 so that all amounts are reported on a consistent incremental cost basis.

- (3) With the exception of grants made to Mr. Gannon at the time he joined Ferro on May 16, 2003, these stock options were granted on February 11, 2002, February 28, 2003, and February 9, 2004.
- (4) The values reported in this column are based on awards

Ferro long-term
incentive
compensation

Table of Contents**Stock Option Grants, Exercises and Year-End Values**

The following table sets forth information with respect to each of the five highest paid executive officers of Ferro named in the Summary Compensation Table regarding grants under the 2003 Long-Term Incentive Compensation Plan during the fiscal year ended December 31, 2004:

Option Grants in 2004

Name	Options Granted ⁽¹⁾	% of Total Options Granted to Employees	Exercise Price	Expiration Date	Present Value at Date of Grant ⁽²⁾
Hector R. Ortino	175,000	21.1%	\$ 26.26	February 9, 2014	\$ 1,188,250
James C. Bays	39,000	4.7%	26.26	February 9, 2014	264,810
Thomas M. Gannon	52,000	6.3%	26.26	February 9, 2014	353,080
Dale G. Kramer	55,000	6.6%	26.26	February 9, 2014	373,450
Millicent W. Pitts	55,000	6.6%	26.26	February 9, 2014	373,450

(1) Stock options have a maximum term of ten years and vest evenly over four years on the anniversary of the grant date. In the case of death, retirement, disability or change in control, the options become 100% vested and exercisable.

(2) The grant date present value of \$6.79 per option share (or 25.9% of the exercise price) was

calculated using the Black-Scholes method of option valuation. The model assumes the following:

(a) an option term of ten years, (b) an interest rate that represents the interest rate on a U.S. Treasury bond with a 30-year maturity, (c) volatility calculated using month-end stock prices for the past three calendar years, and (d) the stock's annual dividend yield over the past three years.

The following table sets forth for each of the five highest compensated executive officers the exercises of stock options under previous Ferro stock option plans during the year ended December 31, 2004:

Option Exercises in 2004

Name	Shares Acquired on Exercise	Value Realized on Exercise	Number of Unexercised Options at December 31, 2004		Value of Unexercised In-the-Money Options at December 31, 2004 ⁽¹⁾

Millicent W. Pitts	0	0	86,967	126,533	152,250	79,613

(1) Value of unexercised in-the-money options is based on Ferro's NYSE closing

Common Stock
price on
December 31,
2004, of \$23.19.

- (2) All of
Mr. Ortino's
options became
immediately
vested and
exercisable as a
result of his
death on
November 28,
2005, pursuant
to the terms of
the Plan
covering such
options. The
options are
currently held
by the estate of
Mr. Ortino.

Mr. Ortino's stock option exercises in 2004 were pursuant to a stock sales plan adopted by Mr. Ortino on March 8, 2004, pursuant to Rule 10b5-1(c)(1) under the Securities Exchange Act of 1934, as amended. (See the discussion of this plan on page 22 below.)

Table of Contents**Performance Share Awards and Payouts**

The following table sets forth information relating to performance share awards under the 2003 Long-Term Incentive Compensation Plan during 2004 to each of the executive officers of Ferro named in the Summary Compensation Table:

Performance Share Awards in 2004

Name	Number of Shares	Estimated Future Payouts in Shares ⁽¹⁾		
		Threshold Performance (25%)	Target Performance (100%)	Maximum Performance (200%)
Hector R. Ortino ⁽²⁾	40,000	10,000	40,000	80,000
James C. Bays	7,000	1,750	7,000	14,000
Thomas M. Gannon	9,400	2,350	9,400	18,800
Dale G. Kramer	9,700	2,425	9,700	19,400
Millicent W. Pitts	9,700	2,425	9,700	19,400

(1) Messrs. Ortino, Bays, and Gannon have performance measurements based on corporate earnings per share growth, sales growth and financial leverage ratios. Mr. Kramer and Ms. Pitts are not eligible to receive payouts for the 2004 Performance Share Awards.

(2) Any performance shares award payout relating to Mr. Ortino will be prorated and paid to his estate.

Each of the awards listed above has a three-year performance cycle ending on December 31, 2006. The participant must continue to be an employee of Ferro until the end of the performance period in order to qualify for payment. However, if a participant dies, is disabled or retires, a pro rata payment is made at the end of the performance period based upon the portion of the performance period during which the participant was employed. Also, in the case of a

change in control, a cash payment is paid at target performance, the time of the change in control equal to (1) the aggregate value of performance share awards based on the remaining term in the executive's employment or change in control agreement and the portion of the performance period that expired prior to the change in control *minus* (2) the value of performance share payments actually made.

The following table sets forth information relating to the performance matrix and actual payouts under the previous Ferro Performance Share Plan for the 2002-2004 performance period to each of our five highest paid executive officers named in the Summary Compensation Table. Each award under the Performance Share Plan was based on a three-year performance cycle ending on December 31, 2004.

The participant's account is distributed in cash and/or Ferro Common Stock.

Under the Retirement Program,* an eligible participant who retires at age 65 with at least 30 years of service will receive a monthly benefit equal to 50% of the average of the participant's highest five consecutive calendar years of compensation (includes base salary, bonuses and incentive compensation substantially equivalent to salary, bonus and performance shares as reflected in the Summary Compensation Table), reduced for 50% of primary social security benefits. Benefits are subject to reduction for service of less than 30 years and for commencement prior to age 60 for elected officers. Service in excess of 30 years will not be taken into account for accrual of retirement benefits. Benefits are payable in a life annuity form with 120 monthly payments guaranteed unless the benefits under the Nonqualified Plan are commuted and paid in a single sum. Furthermore, the benefits payable under the Nonqualified Plan to an eligible participant are conditioned upon the execution of, and compliance with, a non-competition, non-solicitation, non-disparagement and confidentiality agreement.

The five-year average covered compensation for the individuals listed in the Summary Compensation Table was: Mr. Ortino, \$1,897,068; Mr. Bays, \$343,826; Mr. Gannon, \$372,857; Mr. Kramer, \$341,559; and Ms. Pitts, \$445,256. As of December 31, 2004, Messrs. Ortino, Bays, Gannon and Kramer and Ms. Pitts had 33, 3, 1, 5, and 6 whole years of service, respectively.

* Effective April 1, 2006, the Company's U.S. defined benefit pension program for salaried and certain hourly employees has been changed. Under the program

changes announced February 15, 2006, benefits accrued for active employees who were participating in the defined benefit program have been frozen as of March 31, 2006. (This freeze will not affect the benefits of current retirees, former employees or employees hired on or after July 1, 2003.) From April 1, 2006, the affected employees will receive an additional contribution each year from the Company to an existing defined contribution plan that currently covers salaried and certain hourly employees in the United States who were hired on or after July 1, 2003.

Executive Employment Agreement and Change in Control Agreements

The Company is party to an employment agreement with Mr. Kirsch. Under his employment agreement, if Mr. Kirsch's employment were to end on account of a Termination Without Cause (as such term is defined in his employment agreement), the Company would be obligated (1) to pay Mr. Kirsch a lump sum severance payment equal to two times his full year's compensation (base salary plus targeted annual bonus), (2) to provide him continued participation in Ferro's employee benefit programs for up to 24 months, (3) to provide him outplacement services, and (4) to reimburse him for legal fees he incurs as a result of his termination of employment.

Ferro is also a party to change in control agreements (the Change in Control Agreements) with Messrs. Kirsch, Bays, Gannon and Kramer. The purpose of these agreements is to reinforce and encourage each officer's continued attention and dedication to his assigned duties without distraction in the face of solicitations by other employers and the potentially disturbing circumstances arising from the possibility of a change in control of Ferro. Under the respective Change in Control Agreements, if there were a change in control of the Company, the Company would be obligated (1) to pay Messrs. Kirsch, Bays, Gannon and Kramer a lump sum severance payment equal to two times the executive's full year's compensation (base salary plus targeted annual bonus) and (2) to provide the executives with continued participation in Ferro's employee benefit programs for up to 24 months. These agreements limit the executives' right to compete against Ferro after the termination of employment. The Change in Control Agreements are not employment agreements. (Mr. Kramer's agreement terminated when his employment with the Company terminated on March 31, 2006.)

INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS

Report of the Audit Committee

The Audit Committee has reviewed and discussed with Ferro's management and KPMG LLP, Ferro's independent registered public accounting firm, the audited financial statements of the Company for the fiscal year ended December 31, 2004. The Audit Committee has also discussed with KPMG all matters required by generally accepted auditing standards to be discussed. The Audit Committee has received the written disclosures and the letter from KPMG required by Independence Standards Board Standard No. 1, has discussed with KPMG its independence, and has concluded that KPMG is independent.

Based on the review and discussions noted above, the Audit Committee recommended to the Board that the audited financial statements be included in Ferro's Annual Report on Form 10-K for the fiscal year ended December 31, 2004, for filing with the Securities and Exchange Commission.

Respectfully submitted,

William B. Lawrence, Chair
Dr. Jennie S. Hwang
William J. Sharp

Appointment of Independent Registered Public Accountants

The Audit Committee has sole responsibility for appointing the Company's independent registered public accountants. KPMG served as Ferro's auditors for the fiscal year ended December 31, 2004, and is expected to continue as Ferro's auditors for the year 2005. In accordance with its responsibilities under its charter and the New York Stock Exchange listing standards, the Audit Committee will assess periodically the advisability of rotating audit firms for audits in future years.

Representatives of KPMG will attend the Annual Meeting. They will have an opportunity to make a statement if they desire to do so and will be available to respond to appropriate questions.

Fees

The Audit Committee has sole responsibility, in consultation with management, for approving the terms and fees for the engagement of the independent registered public accounting firm for audits of Ferro's financial statements. In addition, the Audit Committee has sole responsibility for determining whether and under what circumstances Ferro's independent registered public accounting firm may be engaged to perform audit-related services and must pre-approve any non-audit related service performed by the independent registered public accountants. Under no circumstances are our independent registered public accountants permitted to perform services of the nature described in Section 201 of the Sarbanes-Oxley Act.

Since May 6, 2003, all of the services provided by KPMG have been approved in accordance with the pre-approval procedures described above.

For the year ended December 31, 2004, KPMG billed the Company aggregate fees of \$14,848,000. Fees for the year 2004, as well as the fees for 2003 (which totaled \$3,019,000), were for the following services:

- 20 -

Table of Contents

	Audit Fees	Audit-Related Fees	Tax Fees	All Other Services
2004	\$ 12,503,000	\$ 2,345,000	\$ 0	\$ 0
2003	\$ 1,862,000	\$ 204,000	\$ 953,000	\$ 0

Audit Fees with respect to 2004 were substantially higher than those incurred in 2003 and prior years. The primary reasons for the increase were the extensive work done by KPMG in connection with the restatement of the Company's financial statements for fiscal year ended December 31, 2003 and the fiscal quarter ended March 31, 2004 that resulted from the Company's independent investigation of accounting irregularities and related matters and an increased scope of work for the 2004 audit. The 2004 Audit Fees also included, for the first time, an audit of our internal controls over financial reporting and management's assessment of the effectiveness of those controls pursuant to Section 404 of the Sarbanes-Oxley Act of 2002. Taken together, these factors, which are detailed in the table below, led to the significant increase in Audit Fees:

Restatement of Financial Statements	Audit of 2004 Financial Statements	Sarbanes-Oxley Section 404 Audits
\$2,302,000	\$ 3,796,000	\$ 6,317,000

The Audit-Related Fees for 2004 related principally to work performed by KPMG with respect to support of the Company's independent investigation of accounting irregularities and related matters, which amounted to \$2,216,000. The Audit-Related Fees for 2003 related principally to work performed by KPMG with respect to Ferro's employee benefit plans and assistance KPMG provided in connection with a forensic investigation.

The Tax Fees for 2003 included \$454,000 for tax compliance, planning and preparation of tax returns and \$499,000 for tax advisory services. Effective January 1, 2004, Ferro discontinued the further use of KPMG's tax advisory services.

The Audit Committee has reviewed all non-audit services described above and has concluded that the provision of these non-audit services is compatible with maintaining KPMG's independence.

* For a more complete description of the internal investigation and the ensuing audit and restatement process, please see the discussion under the heading Restatement on pages 3 to 7 of the Company's Annual Report on Form 10-K for its fiscal year ended December 31,

2004.

(1) With respect to Mr. Kirsch and the officers named in the Summary Compensation Table on page 14 above, shares reported above include 73,500, 27,000, 37,300 and 8,500 shares awarded to Messrs. Kirsch, Bays, Gannon and Kramer,

respectively, with regard to the 2003-2005, 2004-2006, 2005-2007 and 2006-2008 (all of which shares are subject to forfeiture under the former Performance Share Plan and/or the 2003 Long-Term Incentive Compensation Plan), but do not include 4,269 and 5,165 phantom shares held for the accounts of Mr. Kramer and Ms. Pitts, respectively, in the voluntary Executive Employee Deferred Compensation Plan and 712, 1,468, 1,338 and 2,024 phantom shares held for the accounts of Messrs. Kirsch, Bays, Gannon, and Kramer, respectively, in the Supplemental Executive Defined Contribution Plan.

- (2) Mr. Ortino died on November 28, 2005. (See page 7 above.) As a result of his death, his options became immediately vested and exercisable.

Holdings reported for Mr. Ortino are held by his estate or designated beneficiaries.

- (3) On March 8, 2004, Mr. Ortino established a trading plan in accordance with Rule 10b5-1(c)(1) under the Securities Exchange Act of 1934, as amended. Under the plan, Mr. Ortino planned to sell 16,200 shares and exercise up to approximately 165,000 Ferro stock options, subject to the share price of Ferro common stock being at or above \$26.00 per share on the planned sale date. On exercising the options, Mr. Ortino's shares were to be sold into the market net of the impact of the applicable exercise price and tax considerations. These transactions were scheduled to occur over the course of an approximately one-year period. Mr. Ortino adopted this pre-arranged plan to facilitate the orderly exercise of

employee stock options and the sale of common stock for personal financial planning purposes, with the goal of minimizing any market impact and avoiding any concerns about the timing of the transactions.

Before the plan terminated in February 2005, Mr. Ortino exercised 45,000 Ferro stock options and sold 57,130 shares of Ferro common stock under this Plan.

- (4) Shares of former executive officers (Mr. Kramer and Ms. Pitts) and of Mr. Ortino are not included in these totals.

As a group, current Directors and officers have beneficial ownership of 1.7% of our outstanding Common Stock. (This percentage includes shares that would be issued if the Directors and officers exercised all stock options vested within 60 days after the record date for the Annual Meeting.) Mr. Ortino, who owned 2.9% of the outstanding Common Stock, was the only Director or executive officer who owned more than 1.0% of the outstanding shares. (None of our current Directors or executive officers own any of the outstanding shares of Series A ESOP Convertible Preferred Stock.)

The MPW filing also indicates that (a) MPW is the parent holding company of Perkins, Wolf, McDonnell and Company, LLC (Perkins Wolf) and PWMCO, LLC, and is filing on their behalf, and (b) its holdings may also be aggregated within Schedule 13G filings submitted by Janus. - (6) The beneficial owners of the Defined Contribution Master Trust are those of our employees and former employees who participate in the Ferro Corporation Savings and Stock Ownership Plan and the Ferro Corporation Bargaining Unit 401(k) Plan. The Trustee votes the shares in the Plan in accordance with the participants instructions. The Convertible Preferred Stock

is a convertible class of stock that is held in the Plan trust and is non-transferable.

When a participant receives a distribution of his or her account balance, the participant receives either Common Stock or cash. Each share of the Convertible Preferred Stock carries one vote and votes together with the Common Stock on most matters.

At December 31, 2005, the 442,271 shares of Convertible Preferred Stock were convertible into 1,149,371 shares of Common Stock, representing approximately 2.6% of the combined number of shares of Common Stock and Convertible Preferred Stock outstanding.

THE 2006 ANNUAL MEETING

The Company currently anticipates that the 2006 Annual Meeting will be held during the third quarter of 2006. The date, time and place of the 2006 meeting will be announced shortly after the Company files its 2005 Annual Report on Form 10-K with the Securities and Exchange Commission.

**SHAREHOLDER PROPOSALS FOR
THE 2006 ANNUAL MEETING**

Any shareholder who intends to present a proposal at the 2006 Annual Meeting and who wishes to have the proposal included in Ferro's proxy statement and form of proxy for that meeting must deliver the proposal to the Company at our headquarters at 1000 Lakeside Avenue, Cleveland, Ohio 44114-1147, not later than June 1, 2006.

Any shareholder who intends to present a proposal at the 2006 Annual Meeting other than for inclusion in Ferro's proxy statement and form of proxy must deliver the proposal to Ferro at our headquarters at 1000 Lakeside Avenue, Cleveland, Ohio 44114-1147, no later than June 1, 2006, or such proposal will be untimely. Ferro reserves the right to exercise discretionary voting authority on the proposal if a shareholder has failed to submit the proposal by June 1, 2006.

SHAREHOLDER VOTING

Under the Ohio General Corporation Law, if a shareholder desires cumulative voting for election of the Directors, then the shareholder must provide written notice to the President, a Vice President or the Secretary of Ferro at least 48 hours before the meeting. Upon announcement of this notice at the meeting, each shareholder will have cumulative voting rights. Cumulative voting means that each shareholder is entitled to that number of votes equal to the number of shares that he or she owns multiplied by the number of Directors to be elected. Each shareholder may cast all of his or her votes for a single nominee or may distribute his or her votes among as many nominees as he or she sees fit. As indicated on page 6 above, if the election of Directors is by cumulative voting, the persons appointed by the accompanying proxy intend to cumulate the votes represented by the proxies they receive and distribute such votes in accordance with their best judgment in order to elect three nominees for Directors. Those nominees receiving the largest number of votes for the Director positions to be filled will be elected to those positions.

Abstentions and broker non-votes will be deemed to be present for the purpose of determining a quorum for the meeting, but will be deemed not voting on the issues or matters as to which the abstention and non-votes are applicable.

MISCELLANEOUS

Ferro will bear the cost of preparing and mailing this statement, with the accompanying proxy and other instruments. Ferro will also pay the standard charges and expenses of brokerage houses, or other nominees or fiduciaries, for forwarding such instruments to and obtaining proxies from security holders and beneficiaries for whose account they hold registered title to Ferro shares. In addition to using the mail, Directors, officers and other employees of Ferro, acting on its behalf, may also solicit proxies, and Morrow & Co., New York, New York, has been retained, at an estimated cost of \$7,500 plus expenses, to aid in the solicitation of proxies from brokers, institutional holders and individuals who own a large number of shares. Proxies may be solicited personally, or by telephone. This proxy statement and the accompanying proxy will be sent to shareholders by mail on or about March 31, 2006.

Under rules of the Securities and Exchange Commission, to minimize mailing costs we are permitted to send a single set of annual reports and proxy statements to any household at which two or more shareholders reside if they appear to be members of the same family. A number of brokerage firms have also instituted this practice with respect to the delivery of documents to shareholders residing at the same address. With this practice, however, each shareholder continues to receive a separate

Table of Contents

proxy card for voting. Any shareholder affected by this practice who desires to receive multiple copies of annual reports and proxy statements in the future should call Investor Relations at (216) 641-8580.

Only the business set forth above in this notice of meeting will be acted upon at the Annual Meeting of Shareholders.
