ULTRALIFE BATTERIES, INC. NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Dollar Amounts in Thousands Except Share and Per Share Amounts) (unaudited)

1. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements of Ultralife Batteries, Inc. and our subsidiaries have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals and adjustments) considered necessary for a fair presentation of the condensed consolidated financial statements have been included. Results for interim periods should not be considered indicative of results to be expected for a full year. Reference should be made to the consolidated financial statements contained in our Form 10-K for the twelve-month period ended December 31, 2006.

The year-end condensed balance sheet data was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America.

Our monthly closing schedule is a weekly-based cycle as opposed to a calendar month-based cycle. While the actual dates for the quarter-ends will change slightly each year, we believe that there are not any material differences when making quarterly comparisons.

2. ACQUISITIONS

We have accounted for the following acquisitions in accordance with the purchase method of accounting provisions of Statement of Financial Accounting Standards (SFAS) No. 141, Business Combinations, whereby the purchase price paid to effect an acquisition is allocated to the acquired tangible and intangible assets and liabilities at fair value.

ABLE New Energy Co., Ltd.

On May 19, 2006, we acquired 100% of the equity securities of ABLE New Energy Co., Ltd. (ABLE), an established manufacturer of lithium batteries located in Shenzhen, China. With more than 50 products, including a wide range of lithium-thionyl chloride and lithium-manganese dioxide batteries and coin cells, this acquisition broadens our expanding portfolio of high-energy power sources, enabling us to further penetrate large and emerging markets such as remote meter reading, RFID (Radio Frequency Identification) and other markets that will benefit from these chemistries. We expect this acquisition will strengthen our global presence, facilitate our entry into the rapidly growing Chinese market, and improve our access to lower material and manufacturing costs.

The initial cash purchase price for ABLE was \$1,896 (net of \$104 in cash acquired), with an additional \$500 cash payment contingent on the achievement of certain performance milestones, payable in separate \$250 increments, when cumulative ABLE revenues from the date of acquisition attain \$5,000 and \$10,000, respectively. The contingent payments will be recorded as an addition to the purchase price when the performance milestones are attained. The equity portion of the purchase price consisted of 96,247 shares of our common stock valued at \$1,000, based on the closing price of the stock on the closing date of the acquisition, and 100,000 stock warrants valued at \$526, for a total equity consideration of \$1,526. The fair value of the stock warrants was estimated using the Black-Scholes option-pricing model with the following weighted-average assumptions as of May 19, 2006 (the date of acquisition):

6

Table of Contents

Risk-free interest rate	4.31%
Volatility factor	61.25%
Dividends	0.00%
Weighted average expected life (years)	2.50

We have incurred \$59 in acquisition related costs, which are included in the total potential cost of the investment of \$3,981. During the second quarter of 2007, \$1 of additional acquisition costs were incurred, which resulted in an increase of goodwill of \$1.

The results of operations of ABLE and the estimated fair value of assets acquired and liabilities assumed are included in our consolidated financial statements beginning on the acquisition date. The estimated excess of the purchase price over the net tangible and intangible assets acquired of \$2,268 (including \$104 in cash) was recorded as goodwill in the amount of \$1,317. The acquired goodwill has been assigned to the Non-Rechargeable Products segment and is not expected to be deductible for income tax purposes.

The following table represents the final allocation of the purchase price to assets acquired and liabilities assumed at the acquisition date:

ASSETS	
Current assets:	
Cash and cash equivalents	\$ 104
Trade accounts receivables, net	318
Inventories	737
Prepaid expenses and other current expenses	73
Total current assets	1,232
Property, plant and equipment, net	740
Goodwill	1,317
Intangible assets:	
Trademarks	90
Patents and technology	390
Customer relationships	820
Distributor relationships	300
Non-compete agreements	40
Total assets acquired	4,929
LIABILITIES	
Current liabilities:	
Accounts payable	1,085
Other current liabilities	110
Total current liabilities	1,195
Long-term liabilities:	,
Other long-term liabilities	65
Deferred tax liability	84
Total liabilities assumed	1,344

Total Purchase Price \$ 3,585

The trademarks intangible asset has an indefinite life and is not being amortized. The intangible assets related to patents and technology, customer relationships and distributor relationships are being amortized as the economic benefits of the intangible assets are being utilized over their weighted-average estimated useful life of eleven years. The non-compete agreements intangible asset is being amortized on a straight-line basis over its estimated useful life of three years.

7

Table of Contents

McDowell Research, Ltd.

On July 3, 2006, we finalized the acquisition of substantially all of the assets of McDowell Research, Ltd. (McDowell), a manufacturer of military communications accessories located in Waco, Texas.

Under the terms of the acquisition agreement, the purchase price of approximately \$25,000 consisted of \$5,000 in cash and a \$20,000 non-transferable, subordinated convertible promissory note to be held by the sellers. The purchase price is subject to a post-closing adjustment based on a final valuation of trade accounts receivable, inventory and trade accounts payable that were acquired or assumed on the date of the closing, using a base value of \$3,000. The final net value of these assets, under our contractual obligation under the acquisition agreement, is \$6,389, an increase of \$944 from what was reported for the quarter ended March 31, 2007, resulting in a revised purchase price of approximately \$28,448. The increase of \$944 resulted from final revisions to the asset valuations during the second quarter of 2007, as further described below. A cash payment of \$1,500 was made to the sellers during the first quarter of 2007 and as of June 30, 2007, we have accrued \$1,889 for the remaining final post-closing adjustment of \$3,389. As of December 31, 2006, we had accrued \$3,000 for the post-closing adjustment. The respective accruals for the post-closing adjustment are included in the Other Current Liabilities line on our Consolidated Balance Sheet. The acquisition agreement and the resultant purchase price is subject to the finalization of substantial negotiations with the sellers pertaining to the valuation of trade accounts receivable, inventory, trade accounts payable and other matters related to the acquisition.

The initial \$5,000 cash portion was financed through a combination of cash on hand and borrowing through the revolver component of our credit facility with our primary lending banks, which was amended to accommodate the acquisition of McDowell. The \$20,000 convertible note carries a five-year term, an annual interest rate of 4% and is convertible at \$15 per share into 1.33 million shares of our common stock, with a forced conversion feature, at our option, at any time after the 30-day average closing price of our common stock exceeds \$17.50 per share. The conversion price is subject to adjustment as defined in the subordinated convertible promissory note. Interest is payable quarterly in arrears, with all unpaid accrued interest and outstanding principal due in full on July 3, 2011. In April 2007, in connection with its dissolution, McDowell distributed the convertible note to its members in proportion to their membership interests. There are now six separate convertible notes aggregating \$20,000. We have incurred \$59 in acquisition related costs, which are included in the approximate total cost of the investment of \$28,448.

The results of operations of McDowell and the estimated fair value of assets acquired and liabilities assumed are included in our consolidated financial statements beginning on the acquisition date. The estimated excess of the purchase price over the net tangible and intangible assets acquired of \$15,373 was recorded as goodwill in the amount of \$13,075. The acquired goodwill has been assigned to the Rechargeable Products and the Communications Accessories segments and is expected to be fully deductible for income tax purposes.

As a result of final revisions to the asset valuations during the second quarter of 2007, values assigned to the tangible assets have been revised. The adjustments to the values for tangible assets from those reported for the quarter ended March 31, 2007 were as follows: trade accounts receivable increased by \$238, accounts payable increased \$4 and other current liabilities decreased by \$4. These adjustments, along with the adjustment to the post-closing adjustment noted above, resulted in an increase to goodwill of \$706.

The following table represents the final allocation of the purchase price to assets acquired and liabilities assumed at the acquisition date:

8

Table of Contents

ASSETS

Current assets:	
Trade accounts receivables, net	\$ 3,532

Debt	37
Total liabilities assumed	2,078

Total Purchase Price \$28,448

The trademarks intangible asset has an indefinite life and is not being amortized. The intangible assets related to patents and technology and customer relationships are being amortized as the economic benefits of the intangible assets are being utilized over their weighted-average estimated useful life of thirteen years. The non-compete agreements intangible asset is being amortized on a straight-line basis over its estimated useful life of two years.

In connection with the McDowell acquisition, we entered into an operating lease agreement for real property in Waco, Texas with a partnership that is 50% owned by Thomas Hauke, who joined us as an executive officer following the completion of the McDowell acquisition. The lease term is for one year, with annual rent of \$227, payable in monthly installments. In June 2007, this lease was extended through September 2007. During the first quarter of 2007, Mr. Hauke resigned from his position.

9

Table of Contents

3. GOODWILL AND OTHER INTANGIBLE ASSETS

The composition of intangible assets was:

		June 30, 2007 Accumulated	
	Gross		
	Assets	Amortization	Net
Trademarks	\$ 3,095	\$	\$3,095
Patents and technology	3,611	1,133	2,478
Customer relationships	2,853	978	1,875
Distributor relationships	315	88	227
Non-compete agreements	208	98	110
Total intangible assets	\$10,082	\$ 2,297	\$7,785
		December 31,	
		2006 Accumulated	
	Gross		
	Gross Assets		Net
Trademarks		Accumulated	Net \$3,090

	Assets \$ 3,090	Accumulated Amortization	\$3,090
Patents and technology	Assets \$ 3,090 3,737	Accumulated Amortization \$ 619	\$3,090 3,118
Patents and technology Customer relationships	\$ 3,090 3,737 2,940	Accumulated Amortization \$ 619 476	\$3,090 3,118 2,464

Amortization expense for intangible assets was \$550 and \$0 for the three-month periods ended June 30, 2007 and July 1, 2006, respectively. Amortization expense for intangible assets was \$1,081 and \$0 for the six-month periods ended June 30, 2007 and July 1, 2006, respectively.

The change in the cost value of total intangible assets is a result of changes in the final valuation of intangible assets in connection with the 2006 acquisitions and the effect of foreign currency translations.

The following table summarizes the goodwill activity by segment for the six months ended June 30, 2007:

	Non- Rechargeable Products	Rechargeable Products	Communications Accessories	Total	
Balance at December 31, 2006	\$1,239	\$ 2,421	\$ 9,684	\$13,344

10

Table of Contents

The following table summarizes the goodwill activity by segment for the six months ended July 1, 2006:

	Non- Rechargeable Products	Rechargeable Products	Communications Accessories	Total
Balance at December 31, 2005	\$	\$	\$	\$
Acquisition of ABLE	516			516
Balance at June 30, 2006	\$516	\$	\$	\$516

4. EARNINGS PER SHARE

Basic earnings per share are calculated by dividing net income by the weighted average number of common shares outstanding during the period. Diluted earnings per share are calculated by dividing net income by potentially dilutive common shares, which include stock options and warrants.

The computation of basic and diluted earnings per share is summarized as follows:

		Three-Mor End		Six-Month Periods Ended			
		June 30, 2007	July 1, 2006	June 30, 2007	July 1, 2006		
Net Income (a)		\$ 1,298	\$ 109	\$ 1,262	\$ 249		
Average Shares Outstanding Effect of Dilutive Securities:	Basic (b)	15,123	14,851	15,100	14,807		
Stock Options / Warrants Restricted Stock Convertible Note Payable		202 6	314	215 5	343		
Average Shares Outstanding	Diluted (c)	15,331	15,165	15,320	15,150		
EPS Basic (a/b) EPS Diluted (a/c)		\$ 0.09 \$ 0.08	\$ 0.01 \$ 0.01	\$ 0.08 \$ 0.08	\$ 0.02 \$ 0.02		

We had options and warrants outstanding to purchase 1,593,933 and 1,184,601 shares of common stock at June 30, 2007 and July 1, 2006, respectively, which were not included in the computation of diluted EPS because these securities were anti-dilutive. We also had 1,333,333 and -0- shares of common stock at June 30, 2007 and July 1, 2006, respectively, reserved under a convertible note payable, which were also not included in the computation of diluted EPS because these securities were anti-dilutive. The anti-dilutive securities were due to the exercise and/or conversion prices were greater than the average market price of the common shares.

5. STOCK-BASED COMPENSATION

a. General

We have various stock-based employee compensation plans. Effective January 1, 2006, we adopted the provisions of SFAS No. 123 (revised 2004), Share-Based Payment (SFAS 123R) requiring that compensation cost relating to share-based payment transactions be recognized in the financial statements. The cost is measured at the grant date,

11

Table of Contents

award, and is recognized as an expense over the employee s requisite service period (generally the vesting period of the equity award). We adopted SFAS 123R using the modified prospective method and, accordingly, did not restate prior periods to reflect the fair value method of recognizing compensation cost. Under the modified prospective approach, SFAS 123R applies to new awards, awards that were unvested as of January 1, 2006 and to awards that were outstanding on January 1, 2006 that are subsequently modified, repurchased or cancelled.

Our shareholders have approved various equity-based plans that permit the grant of options, restricted stock and other equity-based awards. In addition, our shareholders have approved the grant of options outside of these plans.

Our shareholders approved a 1992 stock option plan for grants to key employees, directors and consultants of ours. The shareholders approved reservation of 1,150,000 shares of Common Stock for grant under the plan. During 1997, the Board of Directors and shareholders approved an amendment to the plan increasing the number of shares of Common Stock reserved by 500,000 to 1,650,000. Options granted under the 1992 plan are either Incentive Stock Options (ISOs) or Non-Qualified Stock Options (NQSOs). Key employees are eligible to receive ISOs and NQSOs; however, directors and consultants are eligible to receive only NQSOs. All ISOs vest at twenty percent per year for five years and expire on the sixth anniversary of the grant date. The NQSOs vest immediately and expire on the sixth anniversary of the grant date. On October 13, 2002, this plan expired and as a result, there are no more shares available for grant under this plan. As of June 30, 2007, there were 50,900 stock options outstanding under this plan.

Effective December 2000, we established the 2000 stock option plan which is substantially the same as the 1992 stock option plan. The shareholders approved reservation of 500,000 shares of Common Stock for grant under the plan. In December 2002, the shareholders approved an amendment to the plan increasing the number of shares of Common Stock reserved by 500,000, to a total of 1,000,000.

In June 2004, the shareholders adopted the Ultralife Batteries, Inc. 2004 Long-Term Incentive Plan (LTIP) pursuant to which we were authorized to issue up to 750,000 shares of Common Stock and grant stock options, restricted stock awards, stock appreciation rights and other stock-based awards. In June 2006, the shareholders approved an amendment to the LTIP, increasing the number of shares of Common Stock by an additional 750,000, bringing the total shares authorized under the LTIP to 1,500,000.

Options granted under the amended 2000 stock option plan and the LTIP are either ISOs or NQSOs. Key employees are eligible to receive ISOs and NQSOs; however, directors and consultants are eligible to receive only NQSOs. Most ISOs vest over a three or five year period and expire on the sixth or seventh anniversary of the grant date. All NQSOs issued to non-employee directors vest immediately and expire on either the sixth or seventh anniversary of the grant date. Some NQSOs issued to non-employees vest immediately and expire within three years; others have the same vesting characteristics as options given to employees. As of June 30, 2007, there were 1,734,131 stock options outstanding under the amended 2000 stock option plan and the LTIP.

On December 19, 2005, we granted the current CEO an option to purchase shares of Common Stock at \$12.96 per share outside of any of our equity-based compensation plans, subject to shareholder approval. Shareholder approval was obtained on June 8, 2006. The option to purchase 48,000 shares of Common Stock becomes exercisable in annual increments of 16,000 shares over a three-year period commencing December 9, 2006. The option expires on June 8, 2013.

12

Table of Contents

b. Stock Options

In conjunction with SFAS 123R, we recorded compensation cost related to stock options of \$392 and \$813 for the three- and six-month periods ended June 30, 2007, respectively, and \$308 and \$566 for the three- and six-month periods ended July 1, 2006, respectively. As of June 30, 2007, there was \$2,121 of total unrecognized compensation costs related to outstanding stock options, which is expected to be recognized over a weighted average period of 1.54 years.

We use the Black-Scholes option-pricing model to estimate fair value of stock-based awards. The following weighted average assumptions were used to value options granted during the six-month periods ended June 30, 2007 and July 1, 2006:

	Six-Month	Six-Month
		Period
	Period Ended	Ended
	June 30, 2007	July 1, 2006
Risk-free interest rate	4.54%	4.76%
Volatility factor	57.99%	60.08%
Dividends	0.00%	0.00%
Weighted average expected life (years)	3.75	3.58

We calculate expected volatility for stock options by taking an average of historical volatility over the past five years and a computation of implied volatility. The computation of expected term was determined based on historical experience of similar awards, giving consideration to the contractual terms of the stock-based awards and vesting schedules. The interest rate for periods within the contractual life of the award is based on the U.S. Treasury yield in effect at the time of grant.

Stock option activity for the first six months of 2007 is summarized as follows (in thousands, except shares and per share amounts):

		Weighted Average Exercise	Weighted Average	Aggregate
	Number Price		Remaining Contractual	Intrinsic
	of Shares	Per Share	Term	Value
Shares under option at January 1, 2007	1,815,471	\$ 11.03		
Options granted	173,500	9.70		
Options exercised	(67,140)	4.67		
Options forfeited	(78,300)	9.80		
Options expired	(10,500)	15.16		
Shares under option at June 30, 2007	1,833,031	\$ 11.17	4.52 years	\$2,553
Vested and expected to vest as of June 30,				
2007	1,756,215	\$ 11.19	4.45 years	\$2,508
Options exercisable at June 30, 2007	1,093,137	\$ 11.71	3.62 years	\$1,978

The total intrinsic value of options (which is the amount by which the stock price exceeded the exercise price of the options on the date of exercise) exercised during the six-month period ended June 30, 2007 was \$340.

Prior to adopting SFAS 123R, all tax benefits resulting from the exercise of stock options were presented as operating cash flows in the Condensed Statement of Cash Flows. SFAS 123R requires

13

Table of Contents

cash flows from excess tax benefits to be classified as a part of cash flows from financing activities. Excess tax benefits are realized tax benefits from tax deductions for exercised options in excess of the deferred tax asset attributable to stock compensation costs for such options. We did not record any excess tax benefits in the first six months of 2007 and 2006. Cash received from option exercises under our stock-based compensation plans for the six-month periods ended June 30, 2007 and July 1, 2006 was \$312 and \$555, respectively.

c. Restricted Stock Awards

There were no restricted stock grants awarded during the six-month periods ended June 30, 2007 and July 1, 2006. The activity of restricted stock grants of common stock for the first six months of 2007 is summarized as follows (dollars in thousands, except per share amounts):

			eighted
	Number of		verage int Date
	Shares	Fair	r Value
Unvested at December 31, 2006	72,334	\$	10.50
Granted Vested	(13,334)		10.30
Forfeited			
Unvested at June 30, 2007	59,000	\$	10.55

We recorded compensation cost related to restricted stock grants of \$88 and \$218 for the three- and six-month periods ended June 30, 2007, respectively, and \$0 and \$0 for the three- and six-month periods ended July 1, 2006, respectively. As of June 30, 2007, we had \$519 of total unrecognized compensation expense related to restricted stock grants, which is expected to be recognized over the remaining weighted average period of approximately 1.63 years. The total fair value of these grants that vested during the six-month period ended June 30, 2007 was \$128.

6. COMPREHENSIVE INCOME

The components of our total comprehensive income were:

	Three-Mon End		Six-Month Pe	eriods Ended
	June 30, 2007	July 1, 2006	June 30, 2007	July 1, 2006
Net income (loss)	\$1,298	\$109	\$1,262	\$249
Foreign currency translation adjustments	213	318	340	370
Change in fair value of derivatives, net of tax	(1)	11	(13)	32
Total comprehensive income	\$1,510	\$438	\$1,589	\$651
	14			

Table of Contents

7. INVENTORIES

Inventories are stated at the lower of cost or market with cost determined under the first-in, first-out (FIFO) method. The composition of inventories was:

	June 30, 2007	December 31, 2006
Raw materials	\$21,140	\$14,964
Work in process	5,850	9,061
Finished goods	6,876	4,541
	33,866	28,566
Less: Reserve for obsolescence	2,207	1,206
	\$31,659	\$27,360

8. PROPERTY, PLANT AND EQUIPMENT

Major classes of property, plant and equipment consisted of the following:

		December
	June 30,	31,
	2007	2006
Land	\$ 123	\$ 123
Buildings and leasehold improvements	4,786	4,336
Machinery and equipment	40,996	40,485
Furniture and fixtures	1,173	982
Computer hardware and software	2,295	2,127
Construction in progress	1,968	1,300
	51,341	49,353
Less: Accumulated depreciation	31,945	29,957
	\$19,396	\$19,396

Depreciation expense for property, plant and equipment was \$921 and \$1,855 for the three- and six-month periods ended June 30, 2007, respectively, and \$965 and \$1,783 for the three- and six-month periods ended July 1, 2006, respectively.

9. DEBT

On June 30, 2004, we closed on a \$25,000 credit facility, comprised of a five-year \$10,000 term loan component and a three-year \$15,000 revolving credit component. The facility is collateralized by essentially all of our assets, including all of our subsidiaries. The term loan component is paid in equal monthly installments over five years. The rate of interest, in general, is based upon either a LIBOR rate or Prime, plus a Eurodollar spread (dependent upon a debt to earnings ratio within a predetermined grid). This facility replaced our \$15,000 credit facility that expired on the same date. Availability under the revolving credit component is subject to meeting certain financial covenants, whereas availability under the previous facility was limited by the various asset values. The lenders of the new credit facility are JP Morgan Chase Bank and Manufacturers and Traders Trust Company, with JP Morgan Chase Bank acting as the administrative agent. We are required to meet certain financial covenants, including a debt to earnings

ratio, an EBIT (as defined) to interest expense ratio, and a current assets to total liabilities ratio. In addition, we are required to meet certain non-financial covenants.

On June 30, 2004, we drew down the full \$10,000 term loan. The proceeds of the term loan, to be repaid in equal monthly installments of \$167 over five years, were used for the retirement of outstanding debt and capital expenditures. From June 30, 2004 through August 1, 2004, the interest rate associated with the term loan was based on LIBOR plus a 1.25% Eurodollar spread. On July 1, 2004, we entered into an interest rate swap arrangement in the notional amount of \$10,000 to be effective on August 2, 2004, related to the \$10,000 term loan, in order to take advantage of historically low interest

15

Table of Contents

rates. We received a fixed rate of interest in exchange for a variable rate. The swap rate received was 3.98% for five years. The total rate of interest paid by us is equal to the swap rate of 3.98% plus the Eurodollar spread stipulated in the predetermined grid associated with the term loan. From August 2, 2004 to September 30, 2004, the total rate of interest associated with the outstanding portion of the \$10,000 term loan was 5.23%. On October 1, 2004, this adjusted rate increased to 5.33%, on January 1, 2005 the adjusted rate increased to 5.73%, on April 1, 2005, the adjusted rate increased to 6.48%, on October 3, 2005, the adjusted rate increased to 6.98%, and on February 14, 2007, the adjusted rate increased to 7.23%, and remains at that rate as of June 30, 2007. Derivative instruments are accounted for in accordance with SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities, which requires that all derivative instruments be recognized in the financial statements at fair value. The fair value of this arrangement at June 30, 2007 resulted in an asset of \$57, all of which was reflected as a short-term asset.

Effective July 3, 2006, the banks amended the credit facility to reflect our acquisitions of ABLE and McDowell. As a result, the banks increased the amount of the revolving credit component from \$15,000 to \$20,000, and the financial covenants that we are required to maintain under the facility were revised accordingly. In addition, the revolving credit component of the facility was extended for one additional year.

Effective as of September 30, 2006, we received a waiver letter from the banks concerning our non-compliance with the EBIT (as defined) to interest covenant of the credit facility, as amended. In addition, we received a waiver for a non-financial covenant related to a Change in Control provision, as defined in the credit facility.

Effective February 14, 2007, we entered into Forbearance and Amendment Number Six to the Credit Agreement (Forbearance and Amendment) with the banks. The Forbearance and Amendment provides that the banks will forbear from exercising their rights under the credit facility arising from our failure to comply with certain financial covenants in the credit facility with respect to the fiscal quarter ended December 31, 2006. Specifically, we were not in compliance with the terms of the credit facility because we failed to maintain the required debt-to-earnings and EBIT-to-interest ratios provided for in the credit facility. The banks agreed to forbear from exercising their respective rights and remedies under the credit facility until March 23, 2007 (Forbearance Period), unless we breach the Forbearance and Amendment or unless another event or condition occurs that constitutes a default under the credit facility. Each bank agreed to continue to make revolving loans available to us during the Forbearance Period. Pursuant to the Forbearance and Amendment, the aggregate amount of the banks revolving loan commitment was reduced from \$20,000 to \$15,000. During the Forbearance Period, the applicable revolving interest rate and the applicable term interest rate, in each case as set forth in the credit agreement, both shall be increased by 25 basis points. In addition to a number of technical and conforming amendments, the Forbearance and Amendment revised the definition of

Change in Control in the credit facility to provide that the acquisition of equity interests representing more than 30% of the aggregate ordinary voting power represented by the issued and outstanding equity interests of us shall constitute a Change in Control for purposes of the credit facility. Previously, the equity interests threshold had been set at 20%.

Effective March 23, 2007, we entered into Extension of Forbearance and Amendment Number Seven to Credit Agreement (Extension and Amendment) with the banks. The Extension and Amendment provides that the banks have agreed to extend the Forbearance Period until May 18, 2007. The Extension and Amendment also acknowledged that we continue not to be in compliance with the financial covenants identified above for the fiscal quarter ended December 31, 2006 and did not contemplate being in compliance for the fiscal quarter ending March 31, 2007.

Effective May 18, 2007, we entered into Extension of Forbearance and Amendment Number Eight to Credit Agreement (Second Extension and Amendment) with the banks. The Second Extension and Amendment provides that the banks have agreed to extend the Forbearance Period until August 15,

16

Table of Contents

2007. The Second Extension and Amendment also acknowledged that we continue not to be in compliance with the financial covenants identified above for the fiscal quarter ended March 31, 2007 and did not contemplate being in compliance for the fiscal quarter ending June 30, 2007. Once the Forbearance Period ends, the banks may exercise their rights and remedies under the credit facility without further notice or action. As of June 30, 2007, we were not in compliance with the EBIT-to-interest ratio covenant identified above, and we do not expect to be in compliance with the EBIT-to-interest ratio covenant, as currently stated, for the fiscal quarter ending September 29, 2007.

While we believe relations with our lenders are good and we have received waivers as necessary in the past, there can be no assurance that such waivers can always be obtained. In such case, we believe we have, in the aggregate, sufficient cash, cash generation capabilities from operations, working capital, and financing alternatives at our disposal, including but not limited to alternative borrowing arrangements (e.g. asset secured borrowings) and other available lenders, to fund operations in the normal course and repay the debt outstanding under our credit facility that is subject to the Extension and Amendment.

As of June 30, 2007, we had \$4,167 outstanding under the term loan component of our credit facility with our primary lending bank and \$8,800 was outstanding under the revolver component. As a result of the uncertainty of our ability to comply with the more restrictive financial covenants within the next year, we continued to classify all of the debt associated with this credit facility as a current liability on the Condensed Consolidated Balance Sheet as of June 30, 2007. The revolver arrangement now provides for up to \$15,000 of borrowing capacity, including outstanding letters of credit. At June 30, 2007, we had \$1,440 of outstanding letters of credit related to this facility, as amended May 18, 2007, leaving \$4,760 of additional borrowing capacity. As of August 1, 2007, the \$1,440 letter of credit has expired, providing additional borrowing capacity under the revolver for this amount.

As of June 30, 2007, our wholly-owned U.K. subsidiary, Ultralife Batteries (UK) Ltd., had nothing outstanding under its revolving credit facility with a commercial bank in the U.K. This credit facility provides our U.K. operation with additional financing flexibility for its working capital needs. Any borrowings against this credit facility are collateralized with that company s outstanding accounts receivable balances. There was approximately \$902 in additional borrowing capacity under this credit facility as of June 30, 2007.

10. INCOME TAXES

The asset and liability method, prescribed by SFAS No. 109, Accounting for Income Taxes , is used in accounting for income taxes. Under this method, deferred tax assets and liabilities are determined based on differences between financial reporting and tax bases of assets and liabilities, and are measured using the enacted tax rates and laws that may be in effect when the differences are expected to reverse.

For the three- and six-month periods ended June 30, 2007, we recorded no income tax expense, due to the loss reported for U.S. operations during the period. The effective tax rate for the total consolidated company was 0%. The overall effective rate is the result of the combination of income and losses in each of our tax jurisdictions, which is particularly influenced by the fact that we have not recognized a deferred tax asset pertaining to cumulative historical losses for our U.S. operations and our U.K. subsidiary, as management does not believe it is more likely than not that we will realize the benefit of these losses. As a result, there is no provision for income taxes for the U.S. operations or the U.K. subsidiary reflected in the Condensed Consolidated Statements of Operations.

During the fiscal quarter ended December 31, 2006, we recorded a full valuation allowance on our net deferred tax asset, due to the determination that it was more likely than not that we would not be able to utilize these benefits in the future. At June 30, 2007, we continue to recognize a full valuation allowance on our net deferred tax asset, as we believe that it is more likely than not that we will not

17

Table of Contents

be able to utilize these benefits in the future. We continually monitor the assumptions and performance results to assess the realizability of the tax benefits of the U.S. and U.K. net operating losses and other deferred tax assets.

On January 1, 2007, we adopted the provisions of Financial Accounting Standards Board (FASB) Interpretation No. 48, Accounting for Uncertainty in Income Taxes: An interpretation of FASB Statement No. 109 (FIN 48). As a result of the adoption of FIN 48 and recognition of the cumulative effect of adoption of a new accounting principle, we recorded no increase in the liability for unrecognized income tax benefits, with no offsetting reduction in retained earnings. There was no adjustment to reflect the net difference between the related balance sheet accounts before applying FIN 48, and then as measured pursuant to FIN 48 s provisions.

The tax years 2003 to 2006 remain open to examination by United States taxing jurisdictions, and for our other major jurisdictions (UK and China), the tax years 2001 to 2006 and 2003 to 2006, respectively, remain open to routine examination by foreign taxing authorities.

We have determined that a change in ownership as defined under Internal Revenue Code Section 382 occurred during the fourth quarter of 2003 and again during the third quarter of 2005. As such, the domestic net operating loss carryforward will be subject to an annual limitation. We believe such limitation will not impact our ability to realize the deferred tax asset. In addition, certain of our NOL carryforwards are subject to U.S. alternative minimum tax such that carryforwards can offset only 90% of alternative minimum taxable income. This limitation did not have an impact on income taxes determined for 2006 and 2007.

11. COMMITMENTS AND CONTINGENCIES

We are subject to legal proceedings and claims that arise in the normal course of business. We believe that the final disposition of such matters will not have a material adverse effect on our financial position, results of operations or cash flows.

As of June 30, 2007, we have made commitments to purchase approximately \$921 of production machinery and equipment.

We estimate future costs associated with expected product failure rates, material usage and service costs in the development of our warranty obligations. Warranty reserves are based on historical experience of warranty claims and generally will be estimated as a percentage of sales over the warranty period. In the event the actual results of these items differ from the estimates, an adjustment to the warranty obligation would be recorded. Changes in our product warranty liability during the first six months of 2007 were as follows:

Balance at December 31, 2006	\$ 522
Accruals for warranties issued	272
Settlements made	(21)

Balance at June 30, 2007 \$ 773

A retail end-user of a product manufactured by one of our customers (the Customer) made a claim against the Customer wherein it asserted that the Customer s product, which is powered by one of our batteries, does not operate according to the Customer s product specification. No claim has been filed against us. However, in the interest of fostering good customer relations, in September 2002, we agreed to lend technical support to the Customer in defense of its claim. Additionally, we assured the Customer that we would honor our warranty by replacing any batteries that might be determined to be defective. Subsequently, we learned that the end-user and the Customer settled the matter. In February 2005, we entered into a settlement agreement with the Customer. Under the terms of the agreement, we

Table of Contents 27

18

Table of Contents

have agreed to provide replacement batteries for product determined to be defective, to warrant each replacement battery under our standard warranty terms and conditions, and to provide the Customer product at a discounted price for a period of time in recognition of the Customer s administrative costs in responding to the claim of the retail end-user. In consideration of the above, the Customer released us from any and all liability with respect to this matter. Consequently, we do not anticipate any further expenses with regard to this matter other than our obligation under the settlement agreement. Our warranty reserve as of June 30, 2007 includes an accrual related to anticipated replacements under this agreement. Further, we do not expect the ongoing terms of the settlement agreement to have a material impact on our operations or financial condition.

In conjunction with our purchase/lease of our Newark, New York facility in 1998, we entered into a payment-in-lieu of tax agreement, which provides us with real estate tax concessions upon meeting certain conditions. In connection with this agreement, a consulting firm performed a Phase I and II Environmental Site Assessment, which revealed the existence of contaminated soil and ground water around one of the buildings. We retained an engineering firm, which estimated that the cost of remediation should be in the range of \$230. Through June 30, 2007, total costs incurred have amounted to approximately \$164, none of which has been capitalized. In February 1998, we entered into an agreement with a third party which provides that we and this third party will retain an environmental consulting firm to conduct a supplemental Phase II investigation to verify the existence of the contaminants and further delineate the nature of the environmental concern. The third party agreed to reimburse us for fifty percent (50%) of the cost of correcting the environmental concern on the Newark property. We have fully reserved for our portion of the estimated liability. Test sampling was completed in the spring of 2001, and the engineering report was submitted to the New York State Department of Environmental Conservation (NYSDEC) for review. NYSDEC reviewed the report and, in January 2002, recommended additional testing. We responded by submitting a work plan to NYSDEC, which was approved in April 2002. We sought proposals from engineering firms to complete the remedial work contained in the work plan. A firm was selected to undertake the remediation and in December 2003 the remediation was completed, and was overseen by the NYSDEC. The report detailing the remediation project, which included the test results, was forwarded to NYSDEC and to the New York State Department of Health (NYSDOH). The NYSDEC, with input from the NYSDOH, requested that we perform additional sampling. A work plan for this portion of the project was written and delivered to the NYSDEC and approved. In November 2005, additional soil, sediment and surface water samples were taken from the area outlined in the work plan, as well as groundwater samples from the monitoring wells. We received the laboratory analysis and met with the NYSDEC in March 2006 to discuss the results. On June 30, 2006, the Final Investigation Report was delivered to the NYSDEC by our outside environmental consulting firm. In November 2006, the NYSDEC completed its review of the Final Investigation Report and requested additional groundwater, soil and sediment sampling. A work plan to address the additional investigation was submitted to the NYSDEC in January 2007 and was approved in April 2007. Additional investigation work started in May 2007 and we are currently awaiting results and recommendations from our outside environmental consulting firm. The results of the additional investigation requested by the NYSDEC may increase the estimated remediation costs modestly. At June 30, 2007 and December 31, 2006, we had \$22 and \$35, respectively, reserved for this matter.

We have had certain exigent , non-bid contracts with the government, which have been subject to an audit and final price adjustment, which have resulted in decreased margins compared with the original terms of the contracts. As of June 30, 2007, there were no outstanding exigent contracts with the government. As part of its due diligence, the government has conducted post-audits of the completed exigent contracts to ensure that information used in supporting the pricing of exigent contracts did not differ materially from actual results. In September 2005, the Defense Contracting Audit Agency (DCAA) presented its findings related to the audits of three of the exigent contracts, suggesting a potential pricing adjustment of approximately \$1,400 related to reductions in the cost of materials that occurred prior to the final negotiation of these contracts. We have reviewed these audit reports, have submitted our response to these audits and believe, taken as a whole, the proposed audit

Table of Contents

adjustments can be offset with the consideration of other compensating cost increases that occurred prior to the final negotiation of the contracts. While we believe that potential exposure exists relating to any final negotiation of these proposed adjustments, we cannot reasonably estimate what, if any, adjustment may result when finalized. In addition, we have received a request from the Office of Inspector General of the Department of Defense ("DoD IG") seeking certain information and documents relating to our business with the Department of Defense. We are cooperating with the DoD IG inquiry and are furnishing the requested information and documents. At this time we have no basis for assessing whether we might face any penalties or liabilities on account of the DoD IG inquiry. The aforementioned DCAA-related adjustments could reduce margins and, along with the aforementioned DoD IG inquiry, could have an adverse effect on our business, financial condition and results of operations.

We have been able to obtain certain grants/loans from government agencies to assist with various funding needs. In November 2001, we received approval for a \$300 grant/loan from New York State. The grant/loan was to fund capital expansion plans that we expected would lead to job creation. In this case, we were to be reimbursed after the full completion of the particular project. This grant/loan also required us to meet and maintain certain levels of employment. During 2002, since we did not meet the initial employment threshold, it appeared unlikely at that time that we would be able to gain access to these funds. However, during 2006, our employment levels had increased to a level that exceeded the minimum threshold, and we received these funds in April 2007. As this grant/loan requires us to not only meet, but maintain, our employment levels for a pre-determined time period, we currently reflect the funds that we received as a current liability, in the Other Current Liabilities line on our Consolidated Balance Sheet. In the event our employment levels are not maintained at the specified levels at December 31, 2007 and 2008, we may be required to pay back these funds.

From August 2002 through August 2006, we participated in a self-insured trust to manage our workers compensation activity for our employees in New York State. All members of this trust have, by design, joint and several liability during the time they participate in the trust. In August 2006, we left the self-insured trust and have obtained alternative coverage for our workers—compensation program through a third-party insurer. In the third quarter of 2006, we confirmed that the trust was in an underfunded position (i.e. the assets of the trust were insufficient to cover the actuarially projected liabilities associated with the members in the trust). In the third quarter of 2006, we recorded a liability and an associated expense of \$350 as an estimate of our potential future cost related to the trust s underfunded status. It is likely, however, that the final amount may be more or less, depending upon the ultimate settlement of claims that remain in the trust for the period of time we were a member. It is likely to take several years before resolution of outstanding workers—compensation claims are finally settled. We will continue to review this liability periodically and make adjustments accordingly as new information is collected.

12. BUSINESS SEGMENT INFORMATION

We report our results in four operating segments: Non-Rechargeable Products, Rechargeable Products, Communications Accessories, and Technology Contracts. The Non-Rechargeable Products segment includes: lithium 9-volt, cylindrical and various other non-rechargeable batteries, including seawater-activated. The Rechargeable Products segment includes: our lithium ion and lithium polymer rechargeable batteries and charging systems and accessories, such as cables. In 2006, as a result of the acquisition of McDowell Research, we formed a new segment, Communications Accessories. The Communications Accessories segment includes: power supplies, cables and connector assemblies, RF amplifiers, amplified speakers, equipment mounts, case equipment and integrated communication systems kits. The Technology Contracts segment includes: revenues and related costs associated with various development contracts. We look at our segment performance at the gross margin level, and we do not allocate research and development or selling, general and administrative costs against the segments. All other items that do not specifically relate to these four segments and are not considered in the performance of the segments are considered to be Corporate charges.

13. FIRES AT MANUFACTURING FACILITIES

In May 2004 and June 2004, we experienced two fires that damaged certain inventory and property at our facilities. The May 2004 fire occurred at our Newark facility and was caused by cells that shorted out when a forklift truck accidentally tipped the cells over in an oven in an enclosed area. Certain inventory, equipment and a small portion of the building where the fire was contained were damaged. The June 2004 fire happened at our U.K. location and mainly caused damage to various inventory and the U.K. company s leased facility. The fire was contained mainly in a bunkered, non-manufacturing area designed to store various material, and there was additional smoke and water damage to the facility and its contents. It is unknown how the U.K. fire was started.

The total amount of the two losses and related expenses associated with our owned assets was approximately \$2,000. Of this total, approximately \$450 was related to machinery and equipment, approximately \$750 was related to inventory and approximately \$800 was required to repair and clean up the facilities. The insurance claim related to the fire at our Newark facility was finalized in March 2005. In the first quarter of 2006, we received notice of a final claim settlement for the U.K. facility. As a result of the final settlement for the fire at the U.K. facility, we reflected a gain of \$148 in the first quarter of 2006 related to equipment and inventory damage. In April 2006 we received payment in final settlement. In June 2006 we recorded a gain of \$43 for the favorable settlement of fire damage that pertained to our leased facilities in the U.K.

In November 2006, we experienced a fire that damaged certain inventory and property at our facility in China, which began in a battery storage area. Certain inventory and portions of buildings were damaged. We believe we maintain adequate insurance coverage for this operation. The total amount of the loss pertaining to assets and the related expenses is expected to be approximately \$849. The majority of the insurance claim is related to the recovery of damaged inventory. As of June 30, 2007, our current assets in our Consolidated Balance Sheet included a receivable from insurance companies for approximately \$849, representing proceeds to be received.

14. RECENT ACCOUNTING PRONOUNCEMENTS AND DEVELOPMENTS

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115. SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value. Unrealized gains and losses on items for which the fair value option has been elected will be recognized in earnings at each subsequent reporting date. SFAS No. 159 is effective for an entity s first fiscal year beginning after November 15, 2007. We are currently evaluating any potential impact of adopting this pronouncement.

In December 2006, the FASB issued FASB Staff Position (FSP) EITF 00-19-2 which addresses an issuer s accounting for registration payment arrangements for financial instruments such as equity shares, warrants or debt instruments. This FSP specifies that the contingent obligation to make future payments or otherwise transfer consideration under a registration payment arrangement, whether issued as a separate agreement or included as a provision of a financial instrument or other agreement, should be separately recognized and measured in accordance with FASB SFAS No. 5, Accounting for Contingencies and FASB Interpretation No. 14, Reasonable Estimation of the Amount of a Loss. The financial instrument(s) subject to the registration payment arrangement shall be recognized and measured in accordance with other applicable Generally Acceptable Accounting Principles (GAAP), without regard to the contingent obligation to transfer consideration pursuant to the registration payment arrangement. An entity should recognize and measure a registration payment arrangement as a separate unit of account from the financial instrument(s) subject to that arrangement. Adoption of this FSP may require additional disclosures relating to the nature of the registration payment, settlement alternatives, current carrying amount of the liability representing the issuer sobligations and the maximum potential amount of consideration, undiscounted, that the issuer could

22

Table of Contents

be required to transfer. This FSP shall be effective immediately for registration payment arrangements and the financial instruments subject to those arrangements that are entered into or modified subsequent to the date of issuance of this FSP. For registration payment arrangements and financial instruments subject to those arrangements that were entered into prior to the issuance of this FSP, this guidance shall be effective for financial statements issued for fiscal years beginning after December 15, 2006. The adoption of this pronouncement had no impact on our financial statements.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements , which establishes a framework for measuring fair value and requires expanded disclosure about the information used to measure fair value. The statement applies whenever other statements require, or permit, assets or liabilities to be measured at fair value. The statement does not expand the use of fair value in any new circumstances and is effective for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years, with early adoption encouraged. We are currently evaluating any potential impact of adopting this pronouncement.

In June 2006, the FASB issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes, an interpretation of SFAS No. 109 (FIN 48). This statement clarifies the accounting for uncertainty in income taxes recognized in a company s financial statements in accordance with SFAS No. 109, Accounting for Income Taxes. This Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This Interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. The provisions of FIN 48 are effective for fiscal years beginning after December 15, 2006. The adoption of this pronouncement on January 1, 2007 had no significant impact on our financial statements. See Note 10 for additional information related to the effect of the adoption of FIN 48.

In March 2006, the FASB issued SFAS No. 156, Accounting for Servicing of Financial Assets , an amendment of FASB Statement No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities (SFAS No. 156). SFAS No. 156 requires all separately recognized servicing assets and servicing liabilities to be measured initially at fair value, if practicable, and permits for subsequent measurement using either fair value measurement with changes in fair value reflected in earnings or the amortization and impairment requirements of Statement No. 140. The subsequent measurement of separately recognized servicing assets and servicing liabilities at fair value eliminates the necessity for entities that manage the risks inherent in servicing assets and servicing liabilities with derivatives to qualify for hedge accounting treatment and eliminates the characterization of declines in fair value as impairments or direct write-downs. SFAS No. 156 is effective for an entity s first fiscal year beginning after September 15, 2006. The adoption of this pronouncement had no impact on our financial statements.

In January 2006, the FASB issued SFAS No. 155, Accounting for Certain Hybrid Financial Instruments (SFAS No. 155). SFAS No. 155 amends SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities and SFAS No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities. SFAS No. 155 also resolves issues addressed in SFAS No. 133 Implementation Issue No. D1, Application of Statement 133 to Beneficial Interests in Securitized Financial Assets. SFAS No. 155 eliminates the exemption from applying SFAS No. 133 to interests in securitized financial assets so that similar instruments are accounted for in the same manner regardless of the form of the instruments. SFAS No. 155 allows a preparer to elect fair value measurement at acquisition, at issuance, or when a previously recognized financial instrument is subject to a remeasurement (new basis) event, on an instrument-by-instrument basis. SFAS No. 155 is effective for all financial instruments acquired or issued after the beginning of an entity s first fiscal year that begins after September 15, 2006. The fair value election provided for in paragraph 4(c) of SFAS No. 155 may also be applied upon adoption of SFAS No. 155 for hybrid financial instruments that had been bifurcated under paragraph 12 of SFAS No. 133 prior to the adoption of this Statement. Earlier adoption is permitted as of the beginning of an entity s fiscal year, provided the entity has not yet issued financial

23

Table of Contents

statements, including financial statements for any interim period for that fiscal year. Provisions of SFAS No. 155 may be applied to instruments that an entity holds at the date of adoption on an instrument-by-instrument basis. The adoption of this pronouncement had no significant impact on our financial statements.

In June 2005, the FASB issued FASB Staff Position No. FAS 143-1 (FSP FAS 143-1), Accounting for Electronic Equipment Waste Obligations. FSP FAS 143-1 addresses the accounting for obligations associated with the Directive 2002/96/EC on Waste Electrical and Electronic Equipment (the Directive) adopted by the European Union (EU). FSP FAS 143-1 is effective the latter of the first reporting period that ends after June 8, 2005 or the date that the EU-member country adopts the law. Effective January 2, 2007, the United Kingdom, the only EU-member country in which we have significant operations, adopted the law. The adoption of this law had no significant impact on our financial statements.

Item 2. MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements. This report contains certain forward-looking statements and information that are based on the beliefs of management as well as assumptions made by and information currently available to management. The statements contained in this report relating to matters that are not historical facts are forward-looking statements that involve risks and uncertainties, including, but not limited to, future demand for our products and services, addressing the process of U.S. military procurement, the successful commercialization of our products, general economic conditions, government and environmental regulation, finalization of non-bid government contracts, competition and customer strategies, technological innovations in the non-rechargeable and rechargeable battery industries, changes in our business strategy or development plans, capital deployment, business disruptions, including those caused by fires, raw materials supplies, environmental regulations, and other risks and uncertainties, certain of which are beyond our control. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may differ materially from those described herein as anticipated, believed, estimated or expected.

The following discussion and analysis should be read in conjunction with the accompanying Condensed Consolidated Financial Statements and Notes thereto appearing elsewhere in this Form 10-Q and our Consolidated Financial Statements and Notes thereto contained in our Form 10-K for the year ended December 31, 2006.

The financial information in this Management s Discussion and Analysis of Financial Condition and Results of Operations is presented in thousands of dollars, except for per share amounts.

General

We are a global provider of high-energy power systems and communications accessories for diverse applications. We develop, manufacture and market a wide range of non-rechargeable and rechargeable batteries, charging systems and communications accessories for use in military, industrial and consumer portable electronic products. Through our portfolio of standard products and engineered solutions, we are at the forefront of providing the next generation of power systems and accessories. Our battery technologies allow us to offer batteries and power systems that are flexibly configured, lightweight and generally capable of achieving longer operating time than many competing batteries currently available. Our communications accessories offer users a wide variety of integrated solutions that satisfy the most demanding applications.

We report our results in four operating segments: Non-Rechargeable Products, Rechargeable Products, Communications Accessories, and Technology Contracts. The Non-Rechargeable Products segment includes: lithium 9-volt, cylindrical and various other non-rechargeable batteries, including seawater-activated. The Rechargeable Products segment includes: our lithium ion and lithium polymer rechargeable batteries and charging systems and accessories, such as cables. In 2006, as a result of the acquisition of McDowell Research, we formed a new segment, Communications Accessories. The Communications Accessories segment includes: power supplies, cables and connector assemblies, RF Amplifiers, amplified speakers, equipment mounts, case equipment and integrated communication systems kits. The Technology Contracts segment includes: revenues and related costs associated with various development contracts. We look at our segment performance at the gross margin level, and we do not allocate research and development or selling, general and administrative costs against the segments. All other items that do not specifically relate to these four segments and are not considered in the performance of the segments are considered to be Corporate charges.

We continually evaluate ways to grow, including opportunities to expand through mergers and acquisitions. On May 19, 2006, we acquired 100% of the equity securities of ABLE New Energy Co., Ltd. (ABLE), an established manufacturer of lithium batteries located in Shenzhen, China. The initial cash

Table of Contents

purchase price for ABLE was \$1,896 (net of \$104 in cash acquired), with an additional \$500 cash payment contingent on the achievement of certain performance milestones, payable in separate \$250 increments, when cumulative ABLE revenues from the date of acquisition attain \$5,000 and \$10,000, respectively. The contingent payments will be recorded as an addition to the purchase price when the performance milestones are attained. The equity portion of the purchase price consisted of 96,247 shares of our common stock valued at \$1,000, and 100,000 stock warrants valued at \$526, for a total equity consideration of \$1,526. We have incurred \$59 in acquisition related costs, which are included in the total potential cost of the investment of \$3,981. The results of operations of ABLE and the estimated fair value of assets acquired and liabilities assumed are included in our consolidated financial statements beginning on the acquisition date. The estimated excess of the purchase price over the net tangible and intangible assets acquired of \$2,268 (including \$104 in cash) was recorded as goodwill in the amount of \$1,317. (See Note 2 in Notes to Condensed Consolidated Financial Statements for additional information.)

On July 3, 2006, we finalized the acquisition of substantially all of the assets of McDowell Research, Ltd. (McDowell), a manufacturer of military communications accessories located in Waco, Texas. Under the terms of the acquisition agreement, the purchase price of approximately \$25,000 consisted of \$5,000 in cash and a \$20,000 non-transferable, subordinated convertible promissory note to be held by the sellers. The purchase price is subject to a post-closing adjustment based on a final valuation of trade accounts receivable, inventory and trade accounts payable that were acquired or assumed on the date of the closing, using a base value of \$3,000. The final net value of these assets, under our contractual obligation under the acquisition agreement, is \$6,389, an increase of \$944 from what was reported for the guarter ended March 31, 2007, resulting in a revised purchase price of approximately \$28,448. The increase of \$944 resulted from final revisions to the asset valuations during the second quarter of 2007. A cash payment of \$1,500 was made to the sellers during the first quarter of 2007 and as of June 30, 2007, we have accrued \$1,889 for the remaining final post-closing adjustment of \$3,389. As of December 31, 2006, we had accrued \$3,000 for the post-closing adjustment. The respective accruals for the post-closing adjustment are included in the Other Current Liabilities line on our Consolidated Balance Sheet. The acquisition agreement and the resultant purchase price is subject to the finalization of substantial negotiations with the sellers pertaining to the valuation of trade accounts receivable, inventory, trade accounts payable and other matter related to the acquisition. The initial \$5,000 cash portion was financed through a combination of cash on hand and borrowing through the revolver component of our credit facility with our primary lending banks, which was amended to accommodate the acquisition of McDowell. The \$20,000 convertible note carries a five-year term, and annual interest rate of 4% and is convertible at \$15 per share into 1.33 million shares of our common stock, with a forced conversion feature, at our option, at any time after the 30-day average closing price of our common stock exceeds \$17.50 per share. The conversion price is subject to adjustment as defined in the subordinated convertible promissory note. Interest is payable quarterly in arrears, with all unpaid accrued interest and outstanding principal due in full on July 3, 2011. In April 2007, in connection with its dissolution. McDowell distributed the convertible note to its members in proportion to their membership interests. There are now six separate convertible notes aggregating \$20,000. We have incurred \$59 in acquisition related costs, which are included in the approximate total cost of the investment of \$28,448. The results of operations of McDowell and the estimated fair value of assets acquired and liabilities assumed are included in our consolidated financial statements beginning on the acquisition date. The estimated excess of the purchase price over the net tangible and intangible assets acquired of \$15,373 was recorded as goodwill in the amount of \$13,075. (See Note 2 in Notes to Condensed Consolidated Financial Statements for additional information.)

In June 2007, we announced our decision to move the McDowell operations from Waco, Texas to our Newark, New York facility. We estimate total costs in connection with moving these operations to be approximately \$200, which costs will be incurred primarily during the third quarter of 2007.

26

Table of Contents

Results of Operations

Three-month periods ended June 30, 2007 and July 1, 2006

Revenues. Consolidated revenues for the three-month period ended June 30, 2007 amounted to \$35,196, an increase of \$13,803, or 65%, from the \$21,393 reported in the same quarter in the prior year. Non-rechargeable product sales increased \$4,350, or 24%, from \$18,458 last year to \$22,808 this year. The increase in revenues was mainly attributable to distribution sales of lithium sulfur-dioxide BA-5590 batteries, and an increase in sales of HiRate battery packs to the UK Ministry of Defence (MoD), offset in part by lower sales of cylindrical cell products. Rechargeable product revenues increased \$1,913, or 72%, from \$2,648 to \$4,561, mainly due to higher shipments of multi-cell lithium ion rechargeable battery packs, particularly UBI-2590 batteries, and charger systems, sold primarily to government and defense customers. Sales of Communications Accessories amounted to \$7,688 in 2007 reflecting sales of various products including power supplies, kit systems and case systems associated with the acquisition of McDowell in July 2006. Technology Contract revenues were \$139 in the second quarter of 2007, a decrease of \$148 from the \$287 reported in the second quarter of 2006 mainly due to the timing of various contract awards and the related work being performed on such contracts.

Cost of Products Sold. Cost of products sold totaled \$26,579 for the quarter ended June 30, 2007, an increase of \$9,563, or 56%, from the \$17,016 reported for the same three-month period a year ago. The gross margin on consolidated revenues for the quarter was \$8,617, an increase of \$4,240 over the \$4,377 reported in the same quarter in the prior year due mainly to an enhanced sales mix and higher sales volumes, including the impact from the ABLE and McDowell acquisitions. As a percentage of revenues, consolidated gross margins amounted to 24% in the second quarter of 2007, an increase from 20% reported in the second quarter of 2006. Non-rechargeable product margins were \$6,201, or 27% of revenues, for the second guarter of 2007 compared with \$3,558, or 19% of revenues, in the same period in 2006. Improvements in non-rechargeable gross margins resulted from a more favorable sales mix and improved operating efficiencies at our U.K. manufacturing facility. In our Rechargeable operations, gross margin amounted to \$943 in the second quarter of 2007, or 21% of revenues, compared to \$789, or 30% of revenues, in 2006. This decrease in gross margin was attributable to a shift in product mix. Gross margins in the Communications Accessories segment totaled \$1,451 or 19% of revenues, associated with the acquisition of McDowell in July 2006. These Communications Accessories margins continued to be hampered by the use of premium cost raw material inventory that was procured during the latter part of 2006. Gross margins in the Technology Contract segment amounted to \$22, or 16% of revenues in the second quarter of 2007, compared to \$30, or 10% of revenues, in 2006, a decrease of \$8 mainly due to varying margins realized under different technology contracts.

Operating Expenses. Operating expenses for the three-month period ended June 30, 2007 totaled \$6,900, an increase of \$2,984 from the prior year s amount of \$3,916. Overall, operating expenses as a percentage of sales increased to 20% in the second quarter of 2007 from 18% reported in the prior year. Amortization expense associated with intangible assets related to the acquisitions of ABLE and McDowell caused \$550 (\$294 in selling, general, and administrative expenses and \$256 in research and development costs) in additional operating expenses. Ongoing operating expenses from the acquired companies resulted in approximately \$1,364 of the overall increase in the quarter. The remaining increment of \$1,070 in overall operating expenses is the result of increased corporate costs required to operate a larger, more diverse business. Research and development costs increased \$804 to \$1,688 in 2007 due mainly to intangible asset amortization expense of \$256, the addition of McDowell s product development costs of approximately \$300, and an increase in overall product development and design activity. In addition to the research and development line shown in Operating Expenses, we also consider our efforts in the Technology Contracts segment to be related to key product development efforts. Selling, general, and administrative expenses increased \$2,180 to \$5,212, primarily related to additional costs associated with ABLE and McDowell of approximately \$1,300, the amortization of intangible assets in 2007 of \$294, and an overall increase in general corporate expenses related to operating a larger, more diverse business.

27

Table of Contents

Other Income (Expense). Interest expense, net, for the second quarter of 2007 was \$586, an increase of \$419 from the comparable period in 2006, mainly related to interest on the \$20,000 convertible note issued to partially finance the McDowell acquisition in July 2006, and higher borrowings under our revolving credit facility. During the second quarter of 2006, we recorded a \$43 gain on insurance settlement related to the finalization of an insurance claim for our U.K. operations (see Note 13 in Notes to Condensed Consolidated Financial Statements for additional information.). Miscellaneous income/expense amounted to income of \$167 for the second quarter of 2007 compared with income of \$139 for the same period in 2006. This increase was primarily due to foreign currency exchange gains related to the strengthening of the pound sterling compared with the U.S. dollar.

Income Taxes. We reflected no income tax expense for the second quarter of 2007 compared with a tax provision of \$367 in the second quarter of 2006. The effective consolidated tax rate for the second quarter of 2007 was 0% compared with 77% for the same period in 2006. Since we have significant net operating loss carryforwards from our U.S. and U.K. operations, the cash outlay for income taxes is expected to be nominal for quite some time into the future.

During the fiscal quarter ended December 31, 2006, we recorded a full valuation allowance on our net deferred tax asset, due to the determination that it was more likely than not that we would not be able to utilize these benefits in the future. At June 30, 2007, we continue to recognize a full valuation allowance on our net deferred tax asset, as we believe that it is more likely than not that we will not be able to utilize these benefits in the future. We continually monitor the assumptions and performance results to assess the realizability of the tax benefits of the U.S. and U.K. net operating losses and other deferred tax assets.

Net Income (Loss). Net income and earnings per diluted share were \$1,298 and \$0.08, respectively, for the three months ended June 30, 2007, compared to net income and earnings per diluted share of \$109 and \$0.01, respectively, for the same quarter last year, primarily as a result of the reasons described above. Average common shares outstanding used to compute diluted earnings per share increased from 15,165,000 in the second quarter of 2006 to 15,331,000 in 2007, mainly due to stock option and warrant exercises and restricted stock grants.

Six-month periods ended June 30, 2007 and July 1, 2006

Revenues. Consolidated revenues for the six-month period ended June 30, 2007 amounted to \$67,516, an increase of \$27,804, or 70%, from the \$39,712 reported in the same period in the prior year. Non-rechargeable product sales increased \$6,863, or 20%, from \$34,103 last year to \$40,966 this year. The increase in revenues was mainly attributable to an increase in sales of HiRate and 9-volt batteries, distribution sales of lithium sulfur-dioxide BA-5590 batteries, as well as sales attributable to the addition of ABLE in May 2006, offset in part by lower sales of cylindrical cell products. Rechargeable product revenues increased \$4,877, or 94%, from \$5,213 to \$10,090, mainly due to higher shipments of multi-cell lithium ion rechargeable battery packs, particularly UBI-2590 batteries, and charger systems, sold primarily to government and defense customers. Sales of Communications Accessories amounted to \$16,179 in 2007 reflecting sales of various products including power supplies, kit systems and case systems associated with the acquisition of McDowell in July 2006. Technology Contract revenues were \$281 in the first half of 2007, a decrease of \$115 from the \$396 reported in the first half of 2006 mainly attributed to the timing of various contract awards and the related work being performed on such contracts.

Cost of Products Sold. Cost of products sold totaled \$51,398 for the six-month period ended June 30, 2007, an increase of \$20,033, or 64%, from the \$31,365 reported for the same six-month period a year ago. The gross margin on consolidated revenues for the six-month period was \$16,118, an increase of \$7,771 over the \$8,347 reported in the same six-month period in the prior year due mainly to improved sales mix and higher sales volumes, including the impact from the ABLE and McDowell acquisitions. As a percentage of revenues, consolidated gross margins amounted to 24% in the first half of 2007, an increase from 21% reported in the first half of 2006. Non-rechargeable product margins were \$10,749, or

28

Table of Contents

26% of revenues, for the first half of 2007 compared with \$6,880, or 20% of revenues, in the same period in 2006. Improvements in non-rechargeable gross margins resulted from a more favorable sales mix and improved operating efficiencies at our U.K. manufacturing facility. In our Rechargeable operations, gross margin amounted to \$2,305 in the first half of 2007, or 23% of revenues, compared to \$1,485, or 28% of revenues, in 2006. This decrease in gross margin was attributable to a shift in product mix. Gross margins in the Communications Accessories segment totaled \$2,971 or 18% of revenues, associated with the acquisition of McDowell in July 2006. These Communications Accessories margins were hampered by the use of premium cost raw material inventory that was procured during the latter part of 2006. Gross margins in the Technology Contract segment amounted to \$93, or 33% of revenues in the first half of 2007, compared to a loss of \$18 in 2006, an improvement of \$111 mainly due to varying margins realized under different technology contracts. The negative margin in the first half of 2006 resulted from an adjustment of the anticipated margin on the overall technology contract with General Dynamics.

Operating Expenses. Operating expenses for the six-month period ended June 30, 2007 totaled \$13,810, an increase of \$6,152 from the prior year s amount of \$7,658. Overall, operating expenses as a percentage of sales increased to 20% in the first half 2007 from 19% reported in the prior year. Amortization expense associated with intangible assets related to the acquisitions of ABLE and McDowell caused \$1,081 (\$572 in selling, general, and administrative expenses and \$509 in research and development costs) in additional operating expenses. Ongoing operating expenses from the acquired companies resulted in approximately \$3,055 of the overall increase in the first six months of 2007. The remaining increment of \$2,016 in overall operating expenses is the result of increased corporate costs required to operate a larger, more diverse business. Research and development costs increased \$1,458 to \$3,302 in 2007 due mainly to intangible asset amortization expense of \$509, the addition of McDowell s product development costs of approximately \$600, and an increase in overall product development and design activity. In addition to the research and development line shown in Operating Expenses, we also consider our efforts in the Technology Contracts segment to be related to key product development efforts. Selling, general, and administrative expenses increased \$4,694 to \$10,508, primarily related to additional costs associated with ABLE and McDowell of approximately \$2,400, the amortization of intangible assets in 2007 of \$572, and an overall increase in general corporate expenses related to operating a larger, more diverse business.

Other Income (Expense). Interest expense, net, for the first half of 2007 was \$1,229, an increase of \$902 from the comparable period in 2006, mainly related to interest on the \$20,000 convertible note issued to partially finance the McDowell acquisition in July 2006, and higher borrowings under our revolving credit facility. During 2006, we recorded a \$191 gain on insurance settlement related to the finalization of an insurance claim for our U.K. operations (See Note 13 in Notes to Condensed Consolidated Financial Statements for additional information.). Miscellaneous income/expense amounted to income of \$183 for the first half of 2007 compared with income of \$147 for the same period in 2006. This increase was primarily due to foreign currency exchange gains related to the strengthening of the pound sterling compared with the U.S. dollar.

Income Taxes. We reflected no income tax expense for the first half of 2007 compared with a tax provision of \$451 in the first half of 2006. The effective consolidated tax rate for the first half of 2007 was 0% compared with 64% for the same period in 2006. Since we have significant net operating loss carryforwards from our U.S. and U.K. operations, the cash outlay for income taxes is expected to be nominal for quite some time into the future.

During the fiscal quarter ended December 31, 2006, we recorded a full valuation allowance on our net deferred tax asset, due to the determination that it was more likely than not that we would not be able to utilize these benefits in the future. At June 30, 2007, we continue to recognize a full valuation allowance on our net deferred tax asset, as we believe that it is more likely than not that we will not be able to utilize these benefits in the future. We continually monitor the assumptions and performance results to assess the realizability of the tax benefits of the U.S. and U.K. net operating losses and other deferred tax assets.

29

Table of Contents

Net Income (Loss). Net income and earnings per diluted share were \$1,262 and \$0.08, respectively, for the six months ended June 30, 2007, compared to net income and earnings per diluted share of \$249 and \$0.02, respectively, for the same period last year, primarily as a result of the reasons described above. Average common shares outstanding used to compute diluted earnings per share increased from 15,150,000 in the first half of 2006 to 15,320,000 in 2007, mainly due to stock option and warrant exercises and restricted stock grants. Adjusted EBITDA

In evaluating our business, we consider and use Adjusted EBITDA, a non-GAAP financial measure, as a supplemental measure of our operating performance. We define Adjusted EBITDA as net income (loss) before net interest expense, provision (benefit) for income taxes, depreciation and amortization, plus expenses that we do not consider reflective of our ongoing operations. We use Adjusted EBITDA as a supplemental measure to review and assess our operating performance and to enhance comparability between periods. We also believe the use of Adjusted EBITDA facilitates investors—use of operating performance comparisons from period to period and company to company by backing out potential differences caused by variations in such items as capital structures (affecting relative interest expense and stock-based compensation expense), the book amortization of intangible assets (affecting relative amortization expense), the age and book value of facilities and equipment (affecting relative depreciation expense) and other non-cash expenses. We also present Adjusted EBITDA because we believe it is frequently used by securities analysts, investors and other interested parties as a measure of financial performance. We reconcile Adjusted EBITDA to net income (loss), the most comparable financial measure under U.S. generally accepted accounting principles (U.S. GAAP).

We use Adjusted EBITDA in our decision-making processes relating to the operation of our business together with U.S. GAAP financial measures such as income (loss) from operations. We believe that Adjusted EBITDA permits a comparative assessment of our operating performance, relative to our performance based on our U.S. GAAP results, while isolating the effects of depreciation and amortization, which may vary from period to period without any correlation to underlying operating performance, and of non-cash stock-based compensation, which is a non-cash expense that varies widely among companies. We provide information relating to our Adjusted EBITDA so that securities analysts, investors and other interested parties have the same data that we employ in assessing our overall operations. We believe that trends in our Adjusted EBITDA are a valuable indicator of our operating performance on a consolidated basis and of our ability to produce operating cash flows to fund working capital needs, to service debt obligations and to fund capital expenditures.

The term Adjusted EBITDA is not defined under U.S. GAAP, and is not a measure of operating income, operating performance or liquidity presented in accordance with U.S. GAAP. Our Adjusted EBITDA has limitations as an analytical tool, and when assessing our operating performance, Adjusted EBITDA should not be considered in isolation, or as a substitute for net income (loss) or other consolidated statement of operations data prepared in accordance with U.S. GAAP. Some of these limitations include, but are not limited to, the following:

Adjusted EBITDA (1) does not reflect our cash expenditures or future requirements for capital expenditures or contractual commitments; (2) does not reflect changes in, or cash requirements for, our working capital needs; (3) does not reflect the interest expense, or the cash requirements necessary to service interest or principal payments, on our debt; (4) does not reflect income taxes or the cash requirements for any tax payments; and (5) does not reflect all of the costs associated with operating our business;

although depreciation and amortization are non-cash charges, the assets being depreciated and amortized often will have to be replaced in the future, and Adjusted EBITDA does not reflect any cash requirements for such replacements;

30

Table of Contents

while stock-based compensation is a component of cost of products sold and operating expenses, the impact on our consolidated financial statements compared to other companies can vary significantly due to such factors as assumed life of the stock-based awards and assumed volatility of our common stock; and

other companies may calculate Adjusted EBITDA differently than we do, limiting its usefulness as a comparative measure.

We compensate for these limitations by relying primarily on our U.S. GAAP results and using Adjusted EBITDA only supplementally. Adjusted EBITDA is calculated as follows for the periods presented:

	Three-Month Period Ended			Six-Month Period Ended					
		June 30, 2007		July 1, 2006		June 30, 2007		July 1, 2006	
Net income (loss)	\$	1,298	\$	109	\$	1,262	\$	249	
Add: interest expense, net		586		167		1,229		327	
Add: income tax provision				367				451	
Add: depreciation expense		953		982		1,916		1,817	
Add: amortization expense		550				1,081			
Add: stock-based compensation expense		481		308		1,031		566	
Adjusted EBITDA	\$	3,868	\$	1,933	\$	6,519	\$	3,410	

Liquidity and Capital Resources

As of June 30, 2007, cash and cash equivalents totaled \$553, a decrease of \$167 from the beginning of the year. During the six-month period ended June 30, 2007, operating activities generated \$1,518 in cash as compared to a generation of \$4,471 for the six-month period ended July 1, 2006. The generation of cash from operating activities in 2007 resulted mainly from an increase in earnings before depreciation and amortization and lower receivables, offset in part by an increase in inventories. Inventory levels have increased since the beginning of the year due mainly to a procurement of certain raw materials that were suddenly in short supply, in order to meet anticipated customer demand.

We used \$2,871 in cash for investing activities during the first six-month period of 2007 compared with \$2,597 in cash used for investing activities in the same period in 2006. In 2007, we made a \$1,500 payment related to the asset purchase of McDowell, whereas in 2006 we made an investment of \$1,946 to acquire ABLE. In addition, we spent \$1,370 to purchase plant, property and equipment in 2007, as compared with \$651 for the same period in 2006.

During the six-month period ended June 30, 2007, we generated \$1,073 in funds from financing activities compared to the use of \$970 in funds in the same period of 2006. The financing activities in 2007 included a \$1,800 inflow from drawdowns on the revolver portion of our primary credit facility, offset in part by outflows for principal payments of term debt under our primary credit facility and capital lease obligations. During the first six months of 2007, we issued approximately 67,000 shares of common stock related to the exercises of stock options for which we received approximately \$312 in cash proceeds.

Inventory turnover for the first six months of 2007 was an annualized rate of approximately 3.0 turns per year, down from the 3.2 turns for the full year of 2006. The decline in this metric is mainly due

31

Table of Contents

to the timing of production and shipments, including the impact from procuring materials that were unexpectedly in short supply in late 2006, maintaining a supply of raw materials for surge production for the U.S. military, and the impact of procuring premium priced inventory at our Waco operation in the latter part of 2006. We expect this metric to improve during 2007 as production is brought more in line with shipment schedules and as we work to shorten our supply chain with our vendors. Our Days Sales Outstanding (DSOs) was an average of 55 days for the first six months of 2007, an increase from the 2006 average of 50 days, as our customer base has expanded internationally and the credit terms for non-U.S. customers are generally more lenient than for U.S. customers.

At June 30, 2007, we had outstanding capital lease obligations of \$452.

As of June 30, 2007, we had made commitments to purchase approximately \$921 of production machinery and equipment, which we expect to fund through operating cash flows.

On June 30, 2004, we closed on a \$25,000 credit facility, comprised of a five-year \$10,000 term loan component and a three-year \$15,000 revolving credit component. The facility is collateralized by essentially all of our assets, including all of our subsidiaries. The term loan component is paid in equal monthly installments over five years. The rate of interest, in general, is based upon either a LIBOR rate or Prime, plus a Eurodollar spread (dependent upon a debt to earnings ratio within a predetermined grid). This facility replaced our \$15,000 credit facility that expired on the same date. Availability under the revolving credit component is subject to meeting certain financial covenants, whereas availability under the previous facility was limited by the various asset values. The lenders of the new credit facility are JP Morgan Chase Bank and Manufacturers and Traders Trust Company, with JP Morgan Chase Bank acting as the administrative agent. We are required to meet certain financial covenants, including a debt to earnings ratio, an EBIT (as defined) to interest expense ratio, and a current assets to total liabilities ratio. In addition, we are required to meet certain non-financial covenants.

On June 30, 2004, we drew down the full \$10,000 term loan. The proceeds of the term loan, to be repaid in equal monthly installments of \$167 over five years, were used for the retirement of outstanding debt and capital expenditures. From June 30, 2004 through August 1, 2004, the interest rate associated with the term loan was based on LIBOR plus a 1.25% Eurodollar spread. On July 1, 2004, we entered into an interest rate swap arrangement in the notional amount of \$10,000 to be effective on August 2, 2004, related to the \$10,000 term loan, in order to take advantage of historically low interest rates. We received a fixed rate of interest in exchange for a variable rate. The swap rate received was 3.98% for five years. The total rate of interest paid by us is equal to the swap rate of 3.98% plus the Eurodollar spread stipulated in the predetermined grid associated with the term loan. From August 2, 2004 to September 30, 2004, the total rate of interest associated with the outstanding portion of the \$10,000 term loan was 5.23%. On October 1, 2004, this adjusted rate increased to 5.33%, on January 1, 2005 the adjusted rate increased to 5.73%, on April 1, 2005, the adjusted rate increased to 6.48%, on October 3, 2005, the adjusted rate increased to 6.98%, and on February 14, 2007, the adjusted rate increased to 7.23%, and remains at that rate as of June 30, 2007. Derivative instruments are accounted for in accordance with SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities, which requires that all derivative instruments be recognized in the financial statements at fair value. The fair value of this arrangement at June 30, 2007 resulted in an asset of \$57, all of which was reflected as a short-term asset.

Effective July 3, 2006, the banks amended the credit facility to reflect our acquisitions of ABLE and McDowell. As a result, the banks increased the amount of the revolving credit component from \$15,000 to \$20,000, and the financial covenants that we are required to maintain under the facility were revised accordingly. In addition, the revolving credit component of the facility was extended for one additional year.

Effective as of September 30, 2006, we received a waiver letter from the banks concerning our non-compliance with the EBIT (as defined) to interest covenant of the credit facility, as amended. In addition,

32

Table of Contents

we received a waiver for a non-financial covenant related to a Change in Control provision, as defined in the credit facility.

Effective February 14, 2007, we entered into Forbearance and Amendment Number Six to the Credit Agreement (Forbearance and Amendment) with the banks. The Forbearance and Amendment provides that the banks will forbear from exercising their rights under the credit facility arising from our failure to comply with certain financial covenants in the credit facility with respect to the fiscal quarter ended December 31, 2006. Specifically, we were not in compliance with the terms of the credit facility because we failed to maintain the required debt-to-earnings and EBIT-to-interest ratios provided for in the credit facility. The banks agreed to forbear from exercising their respective rights and remedies under the credit facility until March 23, 2007 (Forbearance Period), unless we breach the Forbearance and Amendment or unless another event or condition occurs that constitutes a default under the credit facility. Each bank agreed to continue to make revolving loans available to us during the Forbearance Period. Pursuant to the Forbearance and Amendment, the aggregate amount of the banks revolving loan commitment was reduced from \$20,000 to \$15,000. During the Forbearance Period, the applicable revolving interest rate and the applicable term interest rate, in each case as set forth in the credit agreement, both shall be increased by 25 basis points. In addition to a number of technical and conforming amendments, the Forbearance and Amendment revised the definition of

Change in Control in the credit facility to provide that the acquisition of equity interests representing more than 30% of the aggregate ordinary voting power represented by the issued and outstanding equity interests of us shall constitute a Change in Control for purposes of the credit facility. Previously, the equity interests threshold had been set at 20%.

Effective March 23, 2007, we entered into Extension of Forbearance and Amendment Number Seven to Credit Agreement (Extension and Amendment) with the banks. The Extension and Amendment provides that the banks have agreed to extend the Forbearance Period until May 18, 2007. The Extension and Amendment also acknowledged that we continue not to be in compliance with the financial covenants identified above for the fiscal quarter ended December 31, 2006 and did not contemplate being in compliance for the fiscal quarter ending March 31, 2007.

Effective May 18, 2007, we entered into Extension of Forbearance and Amendment Number Eight to Credit Agreement (Second Extension and Amendment) with the banks. The Second Extension and Amendment provides that the banks have agreed to extend the Forbearance Period until August 15, 2007. The Second Extension and Amendment also acknowledged that we continue not to be in compliance with the financial covenants identified above for the fiscal quarter ended March 31, 2007 and did not contemplate being in compliance for the fiscal quarter ending June 30, 2007. Once the Forbearance Period ends, the banks may exercise their rights and remedies under the credit facility without further notice or action. As of June 30, 2007, we were not in compliance with the EBIT-to-interest ratio covenant identified above, and we do not expect to be in compliance with the EBIT-to-interest ratio covenant, as currently stated, for the fiscal quarter ending September 29, 2007.

While we believe relations with our lenders are good and we have received waivers as necessary in the past, there can be no assurance that such waivers can always be obtained. In such case, we believe we have, in the aggregate, sufficient cash, cash generation capabilities from operations, working capital, and financing alternatives at our disposal, including but not limited to alternative borrowing arrangements (e.g. asset secured borrowings) and other available lenders, to fund operations in the normal course and repay the debt outstanding under our credit facility that is subject to the Extension and Amendment.

As of June 30, 2007, we had \$4,167 outstanding under the term loan component of our credit facility with our primary lending bank and \$8,800 was outstanding under the revolver component. As a result of the uncertainty of our ability to comply with the more restrictive financial covenants within the next year, we continued to classify all of the debt associated with this credit facility as a current liability on the Condensed Consolidated Balance Sheet as of June 30, 2007. The revolver arrangement now provides for up to \$15,000 of borrowing capacity, including outstanding letters of credit. At June 30, 2007, we had

33

Table of Contents

\$1,440 of outstanding letters of credit related to this facility, as amended May 18, 2007, leaving \$4,760 of additional borrowing capacity. As of August 1, 2007, the \$1,440 letter of credit has expired, providing additional borrowing capacity under the revolver for this amount

As of June 30, 2007, our wholly-owned U.K. subsidiary, Ultralife Batteries (UK) Ltd., had nothing outstanding under its revolving credit facility with a commercial bank in the U.K. This credit facility provides our U.K. operation with additional financing flexibility for its working capital needs. Any borrowings against this credit facility are collateralized with that company s outstanding accounts receivable balances. There was approximately \$902 in additional borrowing capacity under this credit facility as of June 30, 2007.

During the first six-month periods of 2007 and 2006, we issued 67,000 and 81,000 shares of common stock, respectively, as a result of exercises of stock options and warrants. We received approximately \$312 in 2007 and \$555 in 2006 in cash proceeds as a result of these transactions.

We continue to be optimistic about our future prospects and growth potential. We continually explore various sources of liquidity to ensure financing flexibility, including leasing alternatives, issuing new or refinancing existing debt, and raising equity through private or public offerings. Although we stay abreast of such financing alternatives, we believe we have the ability during the next 12 months to finance our operations primarily through internally generated funds or through the use of additional financing that currently is available to us.

If we are unable to achieve our plans or unforeseen events occur, we may need to implement alternative plans. While we believe we can complete our original plans or alternative plans, if necessary, there can be no assurance that such alternatives would be available on acceptable terms and conditions or that we would be successful in our implementation of such plans.

As described in Part II, Item 1, Legal Proceedings of this report, we are involved in certain environmental matters with respect to our facility in Newark, New York. Although we have reserved for expenses related to this potential exposure, there can be no assurance that such reserve will be adequate. The ultimate resolution of this matter may have a significant adverse impact on the results of operations in the period in which it is resolved.

We typically offer warranties against any defects due to product malfunction or workmanship for a period up to one year from the date of purchase. We offer a four-year warranty on certain communications accessories products. We also offer a 10-year warranty on our 9-volt batteries that are used in ionization-type smoke detector applications. We provide for a reserve for this potential warranty expense, which is based on an analysis of historical warranty issues. There is no assurance that future warranty claims will be consistent with past history, and in the event we experience a significant increase in warranty claims, there is no assurance that our reserves would be sufficient. Any such deficiency could have a material adverse effect on our business, financial condition and results of operations. Outlook

Management is projecting revenue between \$33,000 and \$36,000 for our third quarter ending September 29, 2007, based on current backlog, anticipated orders and anticipated delivery schedules. Based on this revenue estimate, management anticipates reporting operating income in the range of \$1,200 to \$1,800, inclusive of approximately \$1,000 of non-cash expenses related to stock-based compensation and intangible asset amortization.

Recent Accounting Pronouncements and Developments

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115. SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value. Unrealized gains and losses on items for which the fair value option has been elected will be recognized in earnings at each subsequent reporting date. SFAS No. 159 is effective for an entity s first fiscal year beginning after November 15, 2007. We are currently evaluating any potential impact of adopting this pronouncement.

In December 2006, the FASB issued FASB Staff Position (FSP) EITF 00-19-2 which addresses an issuer s accounting for registration payment arrangements for financial instruments such as equity shares, warrants or debt instruments. This FSP specifies that the contingent obligation to make future payments or otherwise transfer consideration under a registration payment arrangement, whether issued as a separate agreement or included as a provision of a financial instrument or other agreement, should be separately recognized and measured in accordance with FASB SFAS No. 5, Accounting for Contingencies and FASB Interpretation No. 14, Reasonable Estimation of the Amount of a Loss. The financial instrument(s) subject to the registration payment arrangement shall be recognized and measured in accordance with other applicable Generally Acceptable Accounting Principles (GAAP), without regard to the contingent obligation to transfer consideration pursuant to the registration payment arrangement. An entity should recognize and measure a registration payment arrangement as a separate unit of account from the financial instrument(s) subject to that arrangement. Adoption of this FSP may require additional disclosures relating to the nature of the registration payment, settlement alternatives, current carrying amount of the liability representing the issuer s obligations and the maximum potential amount of consideration, undiscounted, that the issuer could be required to transfer. This FSP shall be effective immediately for registration payment arrangements and the financial instruments subject to those arrangements that are entered into or modified subsequent to the date of issuance of this FSP. For registration payment arrangements and financial instruments subject to those arrangements that were entered into prior to the issuance of this FSP, this guidance shall be effective for financial statements issued for fiscal years beginning after December 15, 2006. The adoption of this pronouncement had no impact on our financial statements.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements , which establishes a framework for measuring fair value and requires expanded disclosure about the information used to measure fair value. The statement applies whenever other statements require, or permit, assets or liabilities to be measured at fair value. The statement does not expand the use of fair value in any new circumstances and is effective for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years, with early adoption encouraged. We are currently evaluating any potential impact of adopting this pronouncement.

In June 2006, the FASB issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes, an interpretation of SFAS No. 109 (FIN 48). This statement clarifies the accounting for uncertainty in income taxes recognized in a company s financial statements in accordance with SFAS No. 109, Accounting for Income Taxes. This Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This Interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. The provisions of FIN 48 are effective for fiscal years beginning after December 15, 2006. The adoption of this pronouncement on January 1, 2007, had no significant impact on our financial statements. (See Note 10 in Notes to Condensed Consolidated Financial Statements for additional information.)

In March 2006, the FASB issued SFAS No. 156, Accounting for Servicing of Financial Assets , an amendment of FASB Statement No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities (SFAS No. 156). SFAS No. 156 requires all separately recognized servicing assets and servicing liabilities to be measured initially at fair value, if practicable, and permits for

Table of Contents

subsequent measurement using either fair value measurement with changes in fair value reflected in earnings or the amortization and impairment requirements of Statement No. 140. The subsequent measurement of separately recognized servicing assets and servicing liabilities at fair value eliminates the necessity for entities that manage the risks inherent in servicing assets and servicing liabilities with derivatives to qualify for hedge accounting treatment and eliminates the characterization of declines in fair value as impairments or direct write-downs. SFAS No. 156 is effective for an entity s first fiscal year beginning after September 15, 2006. The adoption of this pronouncement had no impact on our financial statements.

In January 2006, the FASB issued SFAS No. 155, Accounting for Certain Hybrid Financial Instruments (SFAS No. 155). SFAS No. 155 amends SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities and SFAS No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities. SFAS No. 155 also resolves issues addressed in SFAS No. 133 Implementation Issue No. D1, Application of Statement 133 to Beneficial Interests in Securitized Financial Assets. SFAS No. 155 eliminates the exemption from applying SFAS No. 133 to interests in securitized financial assets so that similar instruments are accounted for in the same manner regardless of the form of the instruments. SFAS No. 155 allows a preparer to elect fair value measurement at acquisition, at issuance, or when a previously recognized financial instrument is subject to a remeasurement (new basis) event, on an instrument-by-instrument basis. SFAS No. 155 is effective for all financial instruments acquired or issued after the beginning of an entity s first fiscal year that begins after September 15, 2006. The fair value election provided for in paragraph 4(c) of SFAS No. 155 may also be applied upon adoption of SFAS No. 155 for hybrid financial instruments that had been bifurcated under paragraph 12 of SFAS No. 133 prior to the adoption of this Statement. Earlier adoption is permitted as of the beginning of an entity s fiscal year, provided the entity has not yet issued financial statements, including financial statements for any interim period for that fiscal year. Provisions of SFAS No. 155 may be applied to instruments that an entity holds at the date of adoption on an instrument-by-instrument basis. The adoption of this pronouncement had no significant impact on our financial statements.

In June 2005, the FASB issued FASB Staff Position No. FAS 143-1 (FSP FAS 143-1), Accounting for Electronic Equipment Waste Obligations. FSP FAS 143-1 addresses the accounting for obligations associated with the Directive 2002/96/EC on Waste Electrical and Electronic Equipment (the Directive) adopted by the European Union (EU). FSP FAS 143-1 is effective the latter of the first reporting period that ends after June 8, 2005 or the date that the EU-member country adopts the law. Effective January 2, 2007, the United Kingdom, the only EU-member country in which we have significant operations, adopted the law. The adoption of this law had no significant impact on our financial statements.

Critical Accounting Policies

Management exercises judgment in making important decisions pertaining to choosing and applying accounting policies and methodologies in many areas. Not only are these decisions necessary to comply with U.S. generally accepted accounting principles, but they also reflect management s view of the most appropriate manner in which to record and report our overall financial performance. All accounting policies are important, and all policies described in Note 1 (Summary of Operations and Significant Accounting Policies) in our Annual Report on Form 10-K should be reviewed for a greater understanding of how our financial performance is recorded and reported.

During the first six months of 2007, there were no significant changes in the manner in which our significant accounting policies were applied or in which related assumptions and estimates were developed.

36

Table of Contents

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK (Dollars in thousands)

We are exposed to various market risks in the normal course of business, primarily interest rate risk and foreign currency risk. Our primary interest rate risk is derived from our outstanding variable-rate debt obligations. In July 2004, we hedged a portion of this risk by entering into an interest rate swap arrangement in connection with the term loan component of our new credit facility. Under the swap arrangement, effective August 2, 2004, we received a fixed rate of interest in exchange for a variable rate. The swap rate received was 3.98% for five years and will be adjusted accordingly for a Eurodollar spread incorporated in the credit agreement. As of June 30, 2007, a one basis point change in the Eurodollar spread would have a less than \$1 value change. (See Note 9 in Notes to Condensed Consolidated Financial Statements for additional information.)

We are subject to foreign currency risk, due to fluctuations in currencies relative to the U.S. dollar. We monitor the relationship between the U.S. dollar and other currencies on a continuous basis and adjust sales prices for products and services sold in these foreign currencies as appropriate to safeguard against the fluctuations in the currency effects relative to the U.S. dollar.

We maintain manufacturing operations in the U.S., the U.K. and China, and export products internationally. We purchase materials and sell our products in foreign currencies, and therefore currency fluctuations may impact our pricing of products sold and materials purchased. In addition, our foreign subsidiaries maintain their books in local currency, which is translated into U.S. dollars for our consolidated financial statements.

Item 4. CONTROLS AND PROCEDURES

Evaluation Of Disclosure Controls And Procedures Our president and chief executive officer (principal executive officer) and our vice president finance and chief financial officer (principal financial officer) have evaluated our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of the end of the period covered by this quarterly report. Based on this evaluation, the president and chief executive officer and vice president finance and chief financial officer concluded that our disclosure controls and procedures were effective as of such date.

Changes In Internal Control Over Financial Reporting In the beginning of the third quarter of fiscal year 2006, we completed our acquisition of substantially all of the assets of McDowell Research, Ltd., a manufacturer of military communications accessories located in Waco, Texas. During the second half of 2006, we performed a limited assessment of McDowell s internal control over financial reporting (ICFR). We have gained a basic understanding of the internal control structure within McDowell, which previously was a closely-held, private company.

Based on this limited assessment, we believe that the following deficiencies that existed as of the end of fiscal year 2006 would result in material weaknesses in McDowell s ICFR if not appropriately remediated during 2007:

- a) Ineffective information systems and related control processes surrounding such systems;
- b) Inadequate controls and supporting documentation for inventory valuations;
- c) Lack of routine and complete reconciliations of general ledger accounts to detailed supporting documentation; and
- d) Levels of staffing that would promote sufficient segregation of duties and assure a sufficient level of expertise in manufacturing accounting and proper application of generally accepted accounting principles.

37

Table of Contents

We are in the process of integrating McDowell into our business and assimilating McDowell s operations, services, products and personnel with our management policies, procedures and strategies. We are in the process of remediating the noted internal control deficiencies and expect to complete the implementation of the necessary changes by the end of the third quarter of 2007.

There has been no other change in the internal control over financial reporting that occurred during the fiscal quarter covered by this quarterly report that has materially affected, or is reasonably likely to materially affect, the internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings (Dollars in thousands)

We are subject to legal proceedings and claims that arise in the normal course of business. We believe that the final disposition of such matters will not have a material adverse effect on our financial position, results of operations or cash flows.

In conjunction with our purchase/lease of our Newark, New York facility in 1998, we entered into a payment-in-lieu of tax agreement, which provides us with real estate tax concessions upon meeting certain conditions. In connection with this agreement, a consulting firm performed a Phase I and II Environmental Site Assessment, which revealed the existence of contaminated soil and ground water around one of the buildings. We retained an engineering firm, which estimated that the cost of remediation should be in the range of \$230. Through June 30, 2007, total costs incurred have amounted to approximately \$164, none of which has been capitalized. In February 1998, we entered into an agreement with a third party which provides that we and this third party will retain an environmental consulting firm to conduct a supplemental Phase II investigation to verify the existence of the contaminants and further delineate the nature of the environmental concern. The third party agreed to reimburse us for fifty percent (50%) of the cost of correcting the environmental concern on the Newark property. We have fully reserved for our portion of the estimated liability. Test sampling was completed in the spring of 2001, and the engineering report was submitted to the New York State Department of Environmental Conservation (NYSDEC) for review. NYSDEC reviewed the report and, in January 2002, recommended additional testing. We responded by submitting a work plan to NYSDEC, which was approved in April 2002. We sought proposals from engineering firms to complete the remedial work contained in the work plan. A firm was selected to undertake the remediation and in December 2003 the remediation was completed, and was overseen by the NYSDEC. The report detailing the remediation project, which included the test results, was forwarded to NYSDEC and to the New York State Department of Health (NYSDOH). The NYSDEC, with input from the NYSDOH, requested that we perform additional sampling. A work plan for this portion of the project was written and delivered to the NYSDEC and approved. In November 2005, additional soil, sediment and surface water samples were taken from the area outlined in the work plan, as well as groundwater samples from the monitoring wells. We received the laboratory analysis and met with the NYSDEC in March 2006 to discuss the results. On June 30, 2006, the Final Investigation Report was delivered to the NYSDEC by our outside environmental consulting firm. In November 2006, the NYSDEC completed its review of the Final Investigation Report and requested additional groundwater, soil and sediment sampling. A work plan to address the additional investigation was submitted to the NYSDEC in January 2007 and was approved in April 2007. Additional investigation work started in May 2007 and we are currently awaiting results and recommendations from our outside environmental consulting firm. The results of the additional investigation requested by the NYSDEC may increase the estimated remediation costs modestly. At June 30, 2007 and December 31, 2006, we had \$22 and \$35, respectively, reserved for this matter.

Item 4. Submission of Matters to a Vote of Security Holders

- (a) On June 6, 2007, we held our Annual Meeting of Shareholders.
- (b) At the Annual Meeting, our shareholders elected to the Board of Directors all eight nominees for Director with the following votes:

DIRECTOR	FOR	AGAINST
Carole Lewis Anderson	13,137,390	74,040
Patricia C. Barron	13,003,689	207,741
Anthony J. Cavanna	13,109,334	102,096
Paula H. J. Cholmondeley	11,140,094	2,071,336
Daniel W. Christman	13,108,584	102,846
John D. Kavazanjian	13,148,450	62,980
Ranjit C. Singh	13,150,072	61,358
Bradford T. Whitmore	13,153,190	58,240

(c) At the Annual Meeting, our shareholders voted for the ratification of the selection of BDO Seidman, LLP as our independent registered public accounting firm for 2007 with the following votes:

FOR	AGAINST	ABSTENTIONS
13,163,891	28,091	19,447

Item 6. Exhibits

- 31.1 Certification of Chief Executive Officer Pursuant to Rule 13a-14(a) of the Securities Exchange Act of 1934, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
- 31.2 Certification of Chief Financial Officer Pursuant to Rule 13a-14(a) of the Securities Exchange Act of 1934, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
- 32 Certification pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
