DSW INC.
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

1. BUSINESS OPERATIONS

DSW Inc. (DSW) and its wholly-owned subsidiaries, including DSW Shoe Warehouse, Inc. (DSWSW) and Brand Technology Services LLC (BTS), are herein referred to collectively as DSW or the Company . On June 29, 2005, DSW commenced an initial public offering (IPO) that closed on July 5, 2005. DSW s Class A Common Shares are listed on the New York Stock Exchange under the ticker symbol DSW . At August 4, 2007, Retail Ventures, Inc. (RVI or Retail Ventures) owned approximately 63.0% of DSW s outstanding Common Shares, representing approximately 93.2% of the combined voting power of DSW s outstanding Common Shares.

DSW operates in two segments, DSW stores and leased departments, and sells better-branded footwear in both. As of August 4, 2007, DSW operated a total of 236 stores located throughout the United States. DSW stores offer a wide selection of brand name and designer dress, casual and athletic footwear for men and women, as well as accessories. During the six months ended August 4, 2007, DSW opened 14 new DSW stores and closed one store. DSW also operates leased shoe departments for three non-affiliated retailers and one affiliated retailer in its leased department segment. During the six months ended August 4, 2007, DSW added three new non-affiliated leased departments, four affiliated leased departments and ceased operations in two non-affiliated leased departments and one affiliated leased department. DSW owns the merchandise, records sales of merchandise net of returns and sales tax, owns the fixtures (except for Filene s Basement, the affiliated retailer) and provides supervisory assistance in these locations. Stein Mart, Inc. (Stein Mart), Gordman s, Inc. (Gordmans), Frugal Fannie s Fashion Warehouse (Frugal Fannie s), and Filene s Basement stores provide the sales associates. DSW pays a percentage of net sales as rent. As of August 4, 2007, DSW supplied merchandise to 267 Stein Mart stores, 63 Gordmans stores, one Frugal Fannie s store, and 33 Filene s Basement stores.

2. BASIS OF PRESENTATION

The accompanying unaudited interim condensed consolidated financial statements should be read in conjunction with the Company s Annual Report on Form 10-K as filed with the Securities and Exchange Commission (SEC) on April 5, 2007 (the 2006 Annual Report).

In the opinion of management, the unaudited interim condensed consolidated financial statements reflect all adjustments, consisting of normal recurring adjustments, which are necessary to present fairly the consolidated financial position, results of operations and cash flows for the periods presented.

3. ADOPTION OF ACCOUNTING STANDARDS

In July 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes*, (FIN 48) and in May 2007, the FASB issued FASB Staff Position FIN 48-1 *Definition of Settlement in FASB Interpretation No. 48*. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise s financial statements in accordance with FASB Statement No. 109, *Accounting for Income Taxes*. The evaluation of a tax position in accordance with FIN 48 is a two step process. The first step is recognition: the enterprise determines whether it is more likely than not that a tax position will be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The second step is measurement: a tax position that meets the more likely than not recognition threshold is measured to determine that amount of benefit to recognize in the financial statements. The tax position is measured at the largest amount of benefit that is greater than 50 percent likely of being realized upon ultimate settlement. FIN 48 provides for a cumulative effect of a change in accounting principle to be recorded as an

adjustment to the opening balance of retained earnings upon the initial adoption. DSW adopted FIN 48 effective February 4, 2007. The impact of this adoption is presented in Note 8.

In September 2006, the FASB issued FASB Statement No. 157, *Fair Value Measurements* which defines fair value, establishes a framework for measuring fair value in GAAP, and expands disclosures about fair value measurements. The intent of this standard is to ensure consistency and comparability in fair value measurements and enhanced disclosures regarding the measurements. This statement is effective for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. DSW is currently evaluating the impact this statement may have on its consolidated financial statements.

-6-

Table of Contents

DSW INC.
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

In February 2007, the FASB issued FASB Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (FAS 159). This statement allows entities to choose to measure financial instruments and certain other financial assets and financial liabilities at fair value. FAS 159 is effective for fiscal years beginning after November 15, 2007. DSW is currently evaluating the impact this statement may have on its consolidated financial statements.

4. STOCK BASED COMPENSATION

DSW has a 2005 Equity Incentive Plan that provides for the issuance of equity awards to purchase up to 4,600,000 common shares, including stock options and restricted stock units to management, key employees of DSW and affiliates, consultants (as defined in the plan), and non-employee directors of DSW.

During the three months ended August 4, 2007 and July 29, 2006, the Company recorded stock based compensation expense of approximately \$1.1 million and \$0.9 million, respectively, and for the six months ended August 4, 2007 and July 29, 2006, the Company recorded stock based compensation expense of approximately \$2.0 million and \$1.6 million, respectively.

Stock Options

The following table illustrates the weighted-average assumptions used in the Black-Scholes option-pricing model for options granted in each of the periods presented.

	Six months ended August 4, 2007		July 29, 2006
Assumptions:			
Risk-free interest rate	4.90%		4.92%
Expected volatility of DSW common stock	36.46%		41.00%
Expected option term	5.0 years		4.8 years
Expected dividend yield	0.0%		0.0%

The weighted-average grant date fair value of each option granted in the three months ended August 4, 2007 and July 29, 2006 was \$15.52 and \$15.25 per share, respectively, and for the six months ended August 4, 2007 and July 29, 2006 was \$17.66 and \$13.39 per share, respectively.

The following table summarizes the Company's stock option activity for the six months ended August 4, 2007 (in thousands):

	Six months ended August 4, 2007
Outstanding beginning of period	1,084
Granted	496
Exercised	(13)
Forfeited	(60)
Outstanding end of period	1,507

Exercisable end of period

324

-7-

Table of Contents

DSW INC.
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

Restricted Stock Units

The following table summarizes DSW's restricted stock unit activity for the six months ended August 4, 2007 (in thousands):

	Six months ended August 4, 2007
Outstanding beginning of period	135
Granted	15
Vested	
Forfeited	(3)
Outstanding end of period	147

The total aggregate intrinsic value of nonvested restricted stock units at August 4, 2007 was \$4.6 million. As of August 4, 2007, the total compensation cost related to nonvested restricted stock units not yet recognized was approximately \$2.1 million with a weighted average expense recognition period remaining of 2.0 years. The weighted average exercise price for all restricted stock units is zero.

Director Stock Units

DSW issues stock units to directors who are not employees of DSW or RVI. During the six months ended August 4, 2007, DSW granted 7,426 director stock units and expensed approximately \$0.3 million related to these grants. As of August 4, 2007, 34,964 director stock units had been issued and no director stock units had been settled.

5. INVESTMENTS

Short-term and long-term investments include auction rate securities and are classified as available-for-sale securities. These securities are recorded at cost, which approximates fair value due to their variable interest rates, which typically reset every 7 to 275 days. Despite the long-term nature of their stated contractual maturities, the Company has the intent and ability to quickly liquidate these securities. As a result of the resetting variable rates, there are no cumulative gross unrealized or realized holding gains or losses from these investments. All income generated from these investments is recorded as interest income.

During the six months ended August 4, 2007, \$23.2 million of cash was used to purchase available-for-sale securities while \$18.9 million was generated by the sale of available-for-sale securities. The table below details the investments classified as available-for-sale at August 4, 2007 and February 3, 2007 (in thousands):

August 4, 2007 Maturity of		February 3, 2007 Maturity of	
Less than 1 year	1 to 3 years	Less than 1 year	1 to 3 years

Aggregate fair value	\$ 100,475	\$	2,500	\$ 98,650	\$
Gross unrecognized holding gains					
Gross unrecognized holding losses					
Net carrying amount	\$ 100,475	\$	2,500	\$ 98,650	\$

6. EARNINGS PER SHARE

Basic earnings per share are based on net income and a simple weighted average of Class A and Class B Common Shares and director stock units outstanding. Diluted earnings per share reflect the potential dilution of Class A Common Shares related to outstanding stock options and restricted stock units. The numerator for the diluted earnings per share calculation is net income. The denominator is the weighted average diluted shares outstanding. For the three and six months ended August 4, 2007 and July 29, 2006, all potentially dilutive stock options were dilutive.

Number of shares for computation of dilutive earnings per share	44,338	44,210	44,349	44,177

7. LONG-TERM OBLIGATIONS

DSW \$150 Million Credit Facility - At August 4, 2007 and February 3, 2007, DSW had no borrowings outstanding under its \$150 million secured revolving credit facility and was in compliance with the terms of the secured revolving credit facility. DSW's obligations under its secured revolving credit facility are collateralized by a lien on substantially all of DSW's and DSWSW's personal property and a pledge of all of its shares of DSWSW. In addition, the facility contains usual and customary restrictive covenants relating to DSW's management and the operation of its business. These covenants, among other things, restrict DSW's ability to grant liens on its assets, incur additional indebtedness, pay cash dividends and redeem its stock, enter into transactions with affiliates and merge or consolidate with another entity. In addition, if at any time DSW utilizes over 90% of its borrowing capacity under the facility, it must comply with a fixed charge coverage ratio test set forth in the facility documents. At August 4, 2007 and February 3, 2007, \$130.1 million and \$136.6 million were available under the facility and no direct borrowings were outstanding. At August 4, 2007 and February 3, 2007, \$19.9 million and \$13.4 million in letters of credit were issued and outstanding, respectively.

Deferred Rent - Many of the Company's operating leases contain predetermined fixed increases of the minimum rental rate during the initial lease term. For these leases, the Company recognizes the related rental expense on a straight-line basis and records the difference between the amount charged to expense and the rent paid as deferred rent and begins amortizing such deferred rent upon the delivery of the lease location by the lessor. The amounts included in the other noncurrent liabilities caption was \$27.2 million and \$26.0 million at August 4, 2007 and February 3, 2007, respectively.

Tenant Allowances - The Company receives cash allowances from landlords, which are deferred and amortized on a straight-line basis over the life of the lease as a reduction of rent expense. These allowances were \$51.5 million and \$48.4 million at August 4, 2007 and February 3, 2007, respectively.

8. INCOME TAXES

Effective February 4, 2007, the Company adopted the provisions of FIN 48. The adoption of FIN 48 resulted in a charge of \$0.1 million to beginning retained earnings.

As of February 4, 2007, the total amount of unrecognized tax benefits was \$2.0 million. Unrecognized tax benefits of \$2.0 million would affect the Company's effective tax rate if recognized. There were no significant changes in components of the unrecognized tax benefits for the six months ended August 4, 2007.

With few exceptions, the Company is no longer subject to U.S. federal or state and local income tax examinations by tax authorities for fiscal years prior to 2000. The Company's U.S. federal income tax returns for fiscal years 2003, 2004 and 2005 are no longer under examination by the IRS, however there are several state audits and appeals ongoing for fiscal years 2000 to 2006. The Company estimates the range of possible changes that may result from the examinations to be insignificant at this time.

DSW is planning to amend certain federal and state tax returns within the next 12 months which will reverse a tax benefit of \$1.1 million related to the deduction of deferred state taxes. This amount was reserved for in fiscal 2006.

Consistent with its historical financial reporting, the Company has elected to classify interest expense related to income tax liabilities, when applicable, as part of the interest expense in its condensed consolidated statement of income rather than income tax expense. The Company will continue to classify income tax penalties as part of operating expenses in its condensed consolidated statements of income. As of August 4, 2007 and February 4, 2007, \$0.3 million was accrued for the payment of interest and penalties.

(unaudited)

9. SEGMENT REPORTING

The Company is managed in two operating segments: DSW stores and leased departments. All of the operations are located in the United States. The Company has identified such segments based on internal management reporting and management responsibilities and measures segment profit as gross profit, which is defined as net sales less cost of sales. The tables below present segment information:

	DSW Stores	Leased Departments (in thousands)	Total
Three months ended August 4, 2007:			
Net sales	\$ 306,100	\$42,618	\$348,718

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

11. COMMITMENTS AND CONTINGENCIES

As previously reported, on March 8, 2005, Retail Ventures announced that it had learned of the theft of credit card and other purchase information from a portion of the Company's customers. On April 18, 2005, Retail Ventures issued the findings from its investigation into the theft. The theft covered transaction information involving approximately 1.4 million credit cards and data from transactions involving approximately 96,000 checks.

The Company and Retail Ventures contacted and continue to cooperate with law enforcement and other authorities with regard to this matter. The Company is involved in a putative class action lawsuit which seeks unspecified monetary damages, credit monitoring and other relief. The lawsuit seeks to certify a class of consumers that is limited geographically to consumers who made purchases at certain stores in Ohio. A second class action lawsuit was resolved in May 2007 after the Company prevailed on a motion to dismiss on all claims in the District Court for the Southern District of Ohio and, on appeal, the parties agreed to a Stipulation of Dismissal filed with the U.S. Court of Appeals for the 6th Circuit.

There can be no assurance that there will not be additional proceedings or claims brought against the Company in the future. The Company has contested and will continue to vigorously contest the claims made against it and will continue to explore its defenses and possible claims against others.

The Company estimated that the potential exposure for losses related to this theft including exposure under currently pending proceedings, ranges from approximately \$6.5 million to approximately \$9.5 million. Because of many factors, including the possible settlement of claims and recoverability under insurance policies, there is no amount in the estimated range that represents a better estimate than any other amount in the range. Therefore, in accordance with Financial Accounting Standard No. 5, *Accounting for Contingencies*, the Company accrued a charge to operations in the first quarter of fiscal 2005 equal to the low end of the range set forth above, or \$6.5 million. As the situation develops and more information becomes available, the amount of the reserve may increase or decrease accordingly. The amount of any such change may be material to the Company's results of operations or financial condition. As of August 4, 2007, the balance of the associated accrual for potential exposure was \$3.2 million. Subsequent to August 4, 2007, the Company paid an additional \$2.7 million from the reserve, leaving a balance of \$0.5 million.

The Company is involved in various legal proceedings that are incidental to the conduct of its business. The Company estimates the range of liability related to pending litigation where the amount of the range of loss can be estimated. The Company records its best estimate of a loss when the loss is considered probable. Where a liability is probable and there is a range of estimated loss, the Company records the most likely estimated liability related to the claim. In the opinion of management, the amount of any liability with respect to these proceedings will not be material to the Company's results of operations or financial condition. As additional information becomes available, the Company will assess the potential liability related to its pending litigation and revise the estimates as needed. Revisions in its estimates and potential liability could materially impact the Company's results of operations and financial condition.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

All references to we, us, our, DSW or the Company in this Quarterly Report on Form 10-Q mean DSW Inc. and its wholly-owned subsidiaries, including DSW Shoe Warehouse, Inc. (DSWSW) and Brand Technology Services LLC (BTS), except where it is made clear that the term only means DSW Inc. DSW Class A Common Shares are listed for trading under the ticker symbol DSW on the New York Stock Exchange (NYSE).

All references to Retail Ventures , or RVI , in this Quarterly Report on Form 10-Q mean Retail Ventures, Inc. and its subsidiaries, except where it is made clear that the term only means the parent company. DSW is a controlled subsidiary of Retail Ventures. RVI Common Shares are listed for trading under the ticker symbol RVI on the NYSE.

Company Overview

DSW is a leading U.S. specialty branded footwear retailer operating 236 shoe stores in 36 states as of August 4, 2007. We offer a wide selection of brand name and designer dress, casual and athletic footwear for women and men. Our typical customers are brand-, quality- and style-conscious shoppers who have a passion for footwear and accessories. Our core focus is to create a distinctive store experience that satisfies both the rational and emotional shopping needs of our customers by offering them a vast, exciting selection of in-season styles combined with the convenience and value they desire. Our stores average approximately 25,000 square feet and hold approximately 30,000 pairs of shoes. We believe this combination of selection, convenience and value differentiates us from our competitors and appeals to consumers from a broad range of socioeconomic and demographic backgrounds. In addition, we also operate leased shoe departments for four other retailers.

Cautionary Statement Regarding Forward-Looking Information for Purposes of the Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995

Some of the statements in this Quarterly Report on Form 10-Q contain forward-looking statements which reflect our current views with respect to, among other things, future events and financial performance. You can identify these forward-looking statements by the use of forward-looking words such as outlook, believes, expects, potential, continues, may, should, seeks, approximately, predicts, intends, plans, estimates, anticipates or those words or other comparable words. Any forward-looking statements contained in this Quarterly Report on Form 10-Q are based upon our historical performance and on current plans, estimates and expectations and assumptions relating to our operations, results of operations, financial condition, growth strategy and liquidity. The inclusion of this forward-looking information should not be regarded as a representation by us or any other person that the future plans, estimates or expectations contemplated by us will be achieved. Such forward-looking statements are subject to numerous risks, uncertainties and other factors that may cause actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. In addition to those described under Part I, Item 1A. Risk Factors, of our Form 10-K filed on April 5, 2007, some important factors that could cause actual results, performance or achievements for DSW to differ materially from those discussed in forward looking statements include, but are not limited to, the following:

our success in opening and operating new stores on a timely and profitable basis;

maintaining good relationships with our vendors;

our ability to anticipate and respond to fashion trends;

fluctuation of our comparable store sales and quarterly financial performance;

disruption of our distribution operations;

our dependence on Retail Ventures for key services;

failure to retain our key executives or attract qualified new personnel;

our competitiveness with respect to style, price, brand availability and customer service;

declining general economic conditions;

risks inherent to international trade with countries that are major manufacturers of footwear; and

security risks related to our electronic processing and transmission of confidential customer information.

If one or more of these or other risks or uncertainties materialize, or if our underlying assumptions prove to be incorrect, actual results, performance or achievements may vary materially from what we may have projected. Furthermore, new factors emerge from time to time and it is not possible for management to predict all such factors, nor can it assess the impact of any such factor on the business or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement. Any forward-looking statement speaks only as of the date on which such statement is made. DSW undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made or to reflect the occurrence of unanticipated events.

Table of Contents

Critical Accounting Policies

The preparation of our consolidated financial statements in conformity with generally accepted accounting principles, or GAAP, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of commitments and contingencies at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. On an ongoing basis, we evaluate our estimates and judgments, including, but not limited to, those related to inventory valuation, depreciation, amortization, recoverability of long-lived assets (including intangible assets), estimates for self insurance reserves for health and welfare, workers compensation and general liability insurance, customer loyalty program, income taxes, contingencies, litigation and revenue recognition. We base these estimates and judgments on our historical experience and other factors we believe to be relevant, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. The process of determining significant estimates is fact-specific and takes into account factors such as historical experience, current and expected economic conditions, product mix, and in some cases, actuarial and appraisal techniques. We constantly re-evaluate these significant factors and make adjustments where facts and circumstances dictate.

While we believe that our historical experience and other factors considered provide a meaningful basis for the accounting policies applied in the preparation of the consolidated financial statements, we cannot guarantee that our estimates and assumptions will be accurate. As the determination of these estimates requires the exercise of judgment, actual results inevitably will differ from those estimates, and such differences may be material to our financial statements.

We believe the following represent the most significant accounting policies, critical estimates and assumptions, among others, used in the preparation of our consolidated financial statements:

Revenue Recognition. Revenues from merchandise sales are recognized at the point of sale and are net of returns and sales tax. Revenue from gift cards is deferred and the revenue is recognized upon redemption of the gift cards. The Company did not recognize income during these periods from unredeemed gift cards and merchandise credits. The Company will continue to review its historical activity and will recognize income from unredeemed gift cards and merchandise credits when deemed appropriate.

Cost of Sales and Merchandise Inventories. Merchandise inventories are stated at the lower of cost, determined using the first-in, first-out basis, or market, using the retail inventory method. The retail inventory method is widely used in the retail industry due to its practicality. Under the retail inventory method, the valuation of inventories at cost and the resulting gross profit are calculated by applying a calculated cost to retail ratio to the retail value of inventories. The cost of the inventory reflected on our consolidated balance sheet is decreased by charges to cost of sales at the time the retail value of the inventory is lowered through the use of markdowns. Hence, earnings are negatively impacted as merchandise is marked down prior to sale. Reserves to value inventory at the lower of cost or market were \$15.6 million on August 4, 2007 and \$21.2 million at February 3, 2007.

Inherent in the calculation of inventories are certain significant management judgments and estimates, including setting the original merchandise retail value or mark-on, markups of initial prices established, reductions in prices due to customers perception of value (known as markdowns), and estimates of losses between physical inventory counts, or shrinkage, which, combined with the averaging process within the retail inventory method, can significantly impact the ending inventory valuation at cost and the resulting gross profit.

We include in the cost of sales expenses associated with warehousing, distribution and store occupancy. Warehousing costs are comprised of labor, benefits and other labor-related costs associated with the operations of the warehouse, which are primarily payroll-related taxes and benefits. The non-labor costs associated with warehousing include rent, depreciation, insurance, utilities and maintenance and other operating costs that are passed to us from the landlord. Distribution costs include the transportation of merchandise to the warehouse and from the warehouse to our stores. Store occupancy costs include rent, utilities, repairs, maintenance,

insurance and janitorial costs and other costs associated with licenses and occupancy-related taxes, which are primarily real estate taxes passed to us by our landlords.

Asset Impairment and Long-lived Assets. We must periodically evaluate the carrying amount of our long-lived assets, primarily property and equipment, and finite life intangible assets when events and circumstances warrant such a review to ascertain if any assets have been impaired. The carrying amount of a long-lived asset is considered impaired when the carrying value of the asset exceeds the expected future cash flows from the asset. Our reviews are conducted at the lowest identifiable level, which includes a store. The impairment loss recognized is the excess of the carrying amount of the asset over its fair value, based on discounted cash flow. Any impairment loss realized is included in cost of sales. There were no impairment losses recorded during the three or six months ended August 4, 2007. We recorded an impairment loss of

-13-

Table of Contents

\$0.8 million during the three and six months ended July 29, 2006. We believe at this time that the long-lived assets carrying amounts and useful lives continue to be appropriate. To the extent these future projections or our strategies change, the conclusion regarding impairment may differ from our current estimates.

Self-insurance Reserves. We record estimates for certain health and welfare, workers compensation and general liability insurance costs that are self-insured programs. These estimates are based on actuarial assumptions and are subject to change based on actual results. Should the total cost of claims for health and welfare, workers compensation and general liability insurance exceed those anticipated, reserves recorded may not be sufficient, and, to the extent actual results vary from assumptions, earnings would be impacted. For example, for workers compensation and liability claims estimates, a 1% increase or decrease to the assumptions for claims costs and loss development factors would increase or decrease our self-insurance accrual by less than \$0.1 million. The self-insurance reserves were \$2.0 million and \$1.7 million at August 4, 2007 and February 3, 2007, respectively.

Customer Loyalty Program. We maintain a customer loyalty program for our DSW stores in which program members receive a discount on future purchases. Upon reaching the target-earned threshold, our members receive certificates for these discounts which must be redeemed within six months. We accrue the anticipated redemptions of the discount earned at the time of the initial purchase. To estimate these costs, we are required to make assumptions related to customer purchase levels and redemption rates based on historical experience. The accrued liability as of August 4, 2007 and February 3, 2007 was \$4.9 million and \$5.0 million, respectively.

Investments. Short-term and long-term investments include auction rate securities and are classified as available-for-sale securities. These securities are recorded at cost, which approximates fair value due to their variable interest rates, which typically reset every 7 to 275 days. Despite the long-term nature of their stated contractual maturities, we have the intent and ability to quickly liquidate these securities. As a result of the resetting variable rates, there are no cumulative gross unrealized or realized holding gains or losses from these investments. All income generated from these investments is recorded as interest income. As of August 4, 2007, we held \$100.5 million in short-term investments and \$2.5 million in long-term investments and at February 3, 2007, we held \$98.7 million in short-term investments and no long-term investments.

Store Closing Reserve. We had accruals related to the closing of one DSW store at August 4, 2007 and February 3, 2007 in the amount of \$0.2 million and \$0.1 million, respectively. During the six months ended August 4, 2007, we recorded \$0.2 million in expenses associated with the closing of one DSW store. During the six months ended July 29, 2006, we recorded \$0.3 million in expenses associated with the closing of two DSW stores. The operating lease at one of the two stores was terminated through the exercise of a lease kick-out option. Expenses related to closed stores are recorded as operating expenses. These reserves are monitored on at least a quarterly basis for changes in circumstances.

Income Taxes. We are required to determine the aggregate amount of income tax expense to accrue and the amount which will be currently payable based upon tax statutes of each jurisdiction we do business in. In making these estimates, we adjust income based on a determination of generally accepted accounting principles for items that are treated differently by the applicable taxing authorities. Deferred tax assets and liabilities, as a result of these differences, are reflected on our balance sheet for temporary differences that will reverse in subsequent years. A valuation allowance is established against deferred tax assets when it is more likely than not that some or all of the deferred tax assets will not be realized. If our management had made these determinations on a different basis, our tax expense, assets and liabilities could be different.

Results of Operations

As of August 4, 2007, we operated 236 DSW stores in 36 states, and leased shoe departments in 267 Stein Mart stores, 63 Gordmans stores, 33 Filene's Basement stores and one Frugal Fannie's store. We manage our operations in two

segments, defined as DSW stores and leased departments. The leased departments are comprised of leased shoe departments in Stein Mart, Gordmans, Frugal Fannie's and Filene's Basement. The following table represents selected components of our historical consolidated results of operations, expressed as percentages of net sales:

-14-

Table of Contents

	Three months ended		Six months ended	
	August 4, 2007	July 29, 2006	August 4, 2007	July 29, 2006
Net sales	100.0%	100.0%	100.0%	100.0%
Cost of sales	(76.7)	(71.8)	(73.0)	(71.1)
Gross profit	23.3	28.2	27.0	28.9

Operating profit	2.4	7.7	6.5	8.3
Interest income, net	0.6	0.6	0.5	0.5
Earnings before income taxes	3.0	8.3	7.0	8.8
Income tax provision	(1.1)	(3.2)	(2.7)	(3.5)
Net income	1.9%	5.1%	4.3%	5.3%

THREE MONTHS ENDED AUGUST 4, 2007 COMPARED TO THREE MONTHS ENDED JULY 29, 2006

Net Sales. Sales for the thirteen week period ended August 4, 2007 increased by 15.7%, or \$47.4 million, to \$348.7 million from \$301.3 million in the thirteen week period ended July 29, 2006. The increase in DSW sales includes a net increase of 31 DSW stores, 117 non-affiliated leased shoe departments and eight affiliated leased shoe departments. The DSW store locations opened subsequent to July 29, 2006 added \$32.3 million in sales for the quarter ended August 4, 2007, while the leased shoe departments opened subsequent to July 29, 2006 added \$12.7 million for the quarter ended August 4, 2007. Leased shoe department sales comprised 12.2% of total net sales in the second quarter of fiscal 2007, compared to 10.3% in the second quarter of fiscal 2006. The increase in sales was partially offset by the loss of sales from the closed stores and leased departments of \$4.8 million.

Our comparable store sales in the second quarter of fiscal 2007 increased 5.9%, or \$16.5 million, compared to the second quarter of fiscal 2006. For the second quarter of fiscal 2007, DSW comparable store sales increased in women's by 7.0%, men's by 2.7%, accessories by 8.6% and athletic by 8.2%. Increases in comparable sales in all categories were primarily driven by significant promotional activity through the summer sale and the sandal sale events.

Gross Profit. Gross profit decreased \$3.7 million to \$81.4 million in the second quarter of fiscal 2007 from \$85.1 million in the second quarter of fiscal 2006, and decreased as a percentage of net sales to 23.3% in the second quarter of fiscal 2007 from 28.2% in the second quarter of fiscal 2006. By operating segment, gross profit as a percentage of sales was:

	August 4, 2007	July 29, 2006
<i>DSW Stores</i>	25.8%	29.7%
<i>Leased Departments</i>	5.6%	15.9%
	23.3%	28.2%

The margin for the second quarter of fiscal 2007 was negatively impacted by an increase in the markdown rate as a result of markdowns related to the second quarter promotional activities in both the store and leased department segments. This was partially offset by an increase in initial mark-up and a decrease in occupancy expense as a percentage of sales. In the leased departments, the decrease in gross profit as a percentage of sales was driven by markdowns taken in the stores added in January 2007. The store occupancy expense decreased to 13.7% of net sales in

the second quarter of fiscal 2007 from 13.9% of net sales in the second quarter of fiscal 2006 as a result of an impairment charge of \$0.8 million taken in the second quarter of 2006.

Operating Expenses. For the second quarter of fiscal 2007, operating expenses increased \$11.0 million to \$73.0 million from \$62.0 million in the second quarter of fiscal 2006, which represented 20.9% and 20.5% of net sales, respectively. The increase in operating expenses as a percent of sales was in part the result of an increase in store expenses, marketing, and overhead expenses, and was partially offset by a decrease in pre-opening costs. Operating expenses for the second quarter of fiscal 2007 include \$0.6 million in pre-opening costs compared to \$1.5 million in pre-opening costs in the second quarter of fiscal 2006. Pre-opening costs are expensed as incurred and therefore do not necessarily reflect expenses for the stores opened in a given fiscal period. Included in operating expenses is the related operating cost, excluding occupancy, associated with operating the leased shoe departments. The DSW stores and leased shoe departments that opened subsequent to July 29, 2006 added \$5.4 million and \$0.4 million, respectively, in expenses in the second quarter of fiscal 2007. These expenses exclude pre-opening and occupancy (excluding depreciation and amortization) expenses.

Operating Profit. Operating profit was \$8.3 million in the second quarter of fiscal 2007 compared to \$23.1 million in the second quarter of fiscal 2006 and decreased as a percentage of net sales to 2.4% in the second quarter of fiscal 2007 from 7.7% in

Table of Contents

the second quarter of fiscal 2006. Operating profit as a percentage of net sales was impacted by a decrease in gross margin and an increase in operating expenses.

Interest Income, Net. Interest income, net for the second quarter of fiscal 2007 was \$1.9 million as compared to \$2.0 million of net interest income for the second quarter of fiscal 2006. Interest income for the three months ended August 4, 2007 was the result of investment activity from funds generated from operations and increased interest income from short term investments.

Income Taxes. Our effective tax rate for the second quarter of fiscal 2007 was 36.5%, compared to 38.8% for the second quarter of fiscal 2006. The decrease in the effective tax rate was primarily due to a reduction of estimated unfavorable permanent expenses including state taxes and an increase of tax exempt income relative to earnings before taxes.

Net Income. For the second quarter of fiscal 2007, net income decreased \$8.8 million, or 57.5%, over the second quarter of fiscal 2006 and represented 1.9% and 5.1% of net sales, respectively. This decrease was primarily the result of the decrease in gross profit and increase in operating expenses as a percentage of sales.

SIX MONTHS ENDED AUGUST 4, 2007 COMPARED TO SIX MONTHS ENDED JULY 29, 2006

Net Sales. Sales for the six months ended August 4, 2007 increased by 14.2%, or \$87.9 million, to \$705.7 million from \$617.8 million in the six months ended July 29, 2006. The increase in DSW sales includes a net increase of 31 DSW stores, 117 non-affiliated leased shoe departments and eight affiliated leased shoe departments. The DSW store locations opened subsequent to July 29, 2006 added \$59.6 million in sales for the six months ended August 4, 2007, while the leased shoe departments opened subsequent to July 29, 2006 added \$27.9 million for the six months ended August 4, 2007. Leased shoe department sales comprised 12.7% of total net sales in the six months ended August 4, 2007, compared to 10.3% in the six months ended July 29, 2006. The increase in sales was partially offset by the loss of sales from the closed stores and leased departments of \$8.8 million.

Our comparable store sales in the six months ended August 4, 2007 increased 0.9%, or \$5.2 million, compared to the six months ended July 29, 2006. For the six months ended August 4, 2007, DSW comparable store sales increased in women's by 1.1%, athletic by 4.6%, and accessories by 0.4%, and decreased in men's by 0.1%.

Gross Profit. Gross profit increased \$12.2 million to \$190.6 million in the six months ended August 4, 2007 from \$178.4 million in the six months ended July 29, 2006, and decreased as a percentage of net sales to 27.0% in the six months ended August 4, 2007 from 28.9% in the six months ended July 29, 2006. By operating segment, gross profit as a percentage of sales was:

	August 4, 2007	July 29, 2006
<i>DSW Stores</i>	29.0%	30.2%
<i>Leased Departments</i>	13.2%	17.3%
	27.0%	28.9%

The gross margin for the six months ended August 4, 2007 was negatively impacted by an increase in the markdown rate as a result of significant promotional activity in both the store and leased department segments. This was partially offset by an increase in the initial mark-up. In the leased departments, the decrease in gross profit as a percentage of sales was driven by markdowns taken in the stores added in January 2007.

Operating Expenses. For the six months ended August 4, 2007, operating expenses increased \$17.7 million to \$145.1 million from \$127.4 million in the six months ended July 29, 2006. The DSW stores and leased shoe departments that opened subsequent to July 29, 2006 added \$9.6 million and \$0.6 million, respectively, in expenses in the six months ended August 4, 2007. These expenses exclude pre-opening and occupancy (excluding depreciation and amortization) expenses.

For the six months ended August 4, 2007, operating expenses as a percentage of sales decreased to 20.5% from 20.6% for the six months ended July 29, 2006. The decrease in operating expenses as a percent of sales was in part the

result of leveraging store expenses, pre-opening expenses and marketing, and was partially offset by an increase in overhead expenses.

Operating Profit. Operating profit was \$45.5 million in the six months ended August 4, 2007 compared to \$51.0 million in the six months ended July 29, 2006 and decreased as a percentage of net sales to 6.5% in the six months ended August 4, 2007 from 8.3% in the six months ended July 29, 2006. Operating profit as a percentage of net sales was impacted by a decrease in gross profit.

Interest Income, Net. Interest income, net for the six months ended August 4, 2007 was \$3.7 million as compared to \$3.3 million of interest income, net for the six months ended July 29, 2006. Interest income for the six months ended August 4, 2007

-16-

Table of Contents

was the result of investment activity from funds generated from operations and increased interest income from short term investments.

Income Taxes. Our effective tax rate for the six months ended August 4, 2007 was 38.5%, compared to 39.5% for the six months ended July 29, 2006. The decrease in the effective tax rate was primarily due to tax exempt interest income and a reduction of state taxes.

Net Income. For the six months ended August 4, 2007, net income decreased \$2.6 million, or 7.9%, over the six months ended July 29, 2006 and represented 4.3% and 5.3% of net sales, respectively. This decrease was primarily the result of decreased gross margin.

Seasonality

Our business, measured in terms of net sales, is subject to seasonal trends. Our net sales, measured on a comparable stores basis, have typically been higher in spring and early fall, when our customers' interest in new seasonal styles increases. Unlike many other retailers, we have not historically experienced a large increase in net sales during our fourth quarter associated with the winter holiday season.

Liquidity and Capital Resources

Our primary ongoing cash requirements are for seasonal and new store inventory purchases, capital expenditures in connection with our expansion, the remodeling of existing stores and infrastructure growth. Since our IPO in July 2005, we have funded our expenditures with cash flows from operations. Our working capital and inventory levels typically build seasonally. We believe that we will be able to continue to fund our operating requirements and the expansion of our business pursuant to our growth strategy in the future with existing cash, cash flows from operations and borrowings, if needed, under the DSW secured revolving credit facility.

For the six months ended August 4, 2007, our net cash provided by operations was \$43.2 million, compared to \$37.4 million provided by operations for the six months ended July 29, 2006. Our net cash flow from operations for the six months ended August 4, 2007 was primarily a result of net income and an increase in accounts payable partially offset by a decrease in accrued expenses and an increase in inventory.

During the six months ended August 4, 2007, we had capital expenditures of \$39.2 million, of which \$37.3 million was paid during the six months ended August 4, 2007. Of this amount, we incurred \$16.3 million for new stores and remodels of existing stores, \$10.6 million related to the corporate office expansion, \$7.9 million related to the start-up of our e-commerce channel and \$4.4 million related to information technology equipment upgrades and new systems, excluding the e-commerce channel.

Net working capital increased \$6.4 million to \$305.1 million at August 4, 2007 from \$298.7 million at February 3, 2007, primarily due to increased prepaid expenses and other assets and inventory related to new stores opened in fiscal 2006 and 2007, partially offset by an increase in accounts payable. Current assets divided by current liabilities at August 4, 2007 and February 3, 2007 were 2.6 and 2.9, respectively.

Our future capital expenditures will depend heavily on the number of new stores we open, the number of existing stores we remodel and the timing of these expenditures. We plan to open at least 35 new DSW stores during fiscal 2007 and at least 30 new stores in each of the next three fiscal years. During fiscal 2006, the average investment required to open a typical new DSW store was approximately \$1.7 million. Of this amount, gross inventory typically accounted for approximately \$740,000, fixtures and leasehold improvements typically accounted for approximately \$700,000 (prior to tenant allowances) and pre-opening advertising and other pre-opening expenses typically accounted for approximately \$210,000. We plan to finance investment in new stores with existing cash and cash flows from operating activities.

We expect to spend approximately \$100 million for capital expenditures in fiscal 2007. These expenditures include investments to make improvements to our information systems, remodel stores, accelerate our store growth, and the start-up of an e-commerce channel.

\$150 Million Secured Revolving Credit Facility. DSW has a \$150 million secured revolving credit facility that expires July 5, 2010. Under this facility, we and our subsidiary, DSWSW, are named as co-borrowers. The DSW facility has borrowing base restrictions and provides for borrowings at variable interest rates based on LIBOR, the prime rate and the Federal Funds effective rate, plus a margin. Our obligations under the secured revolving credit facility are secured by a lien on substantially all of our and DSWSW's personal property and a pledge of our shares of

DSWSW. In addition, our secured revolving credit facility contains usual and customary restrictive covenants relating to our management and the operation of our business. These covenants will,

-17-

Table of Contents

among other things, restrict our ability to grant liens on our assets, incur additional indebtedness, pay cash dividends, redeem our stock, enter into transactions with affiliates and merge or consolidate with another entity. In addition, if at any time we utilize over 90% of our borrowing capacity under the facility, we must comply with a fixed charge coverage ratio test set forth in the facility documents. At August 4, 2007 and February 3, 2007, \$130.1 million and \$136.6 million were available under the \$150 million secured revolving credit facility and no direct borrowings were outstanding. At August 4, 2007 and February 3, 2007, \$19.9 million and \$13.4 million in letters of credit were issued and outstanding, respectively.

Retail Ventures Warrants

In connection with the July 2005 amendment of its term loan agreement, Retail Ventures amended its outstanding warrants to provide Schottenstein Stores Corporation (*SSC*), Cerberus Partners L.P. (*Cerberus*), and Millennium Partners, L.P. (*Millennium*) the right, from time to time, in whole or in part, to (i) acquire Retail Ventures common shares at the then current conversion price (subject to the anti-dilution provisions), (ii) acquire from Retail Ventures Class A Common Shares of DSW at an exercise price of \$19.00 per share (subject to anti-dilution provisions) or (iii) acquire a combination thereof.

As of August 4, 2007 and assuming an exercise price per share of \$19.00, SSC and Cerberus would each receive 328,915 Class A Common Shares, and Millennium would receive 41,989 Class A Common Shares, if they exercised these warrants in full exclusively for DSW Common Shares. The warrants expire in June 2012. Although Retail Ventures has informed us that it does not currently intend or plan to undertake a spin-off of DSW Common Shares to Retail Ventures' shareholders, in the event that Retail Ventures effects a spin-off of its DSW Common Shares to its shareholders in the future, the holders of outstanding unexercised warrants will receive the same number of DSW Common Shares that they would have received had they exercised their warrants in full for Retail Ventures common shares immediately prior to the record date of the spin-off, without regard to any limitations on exercise in the warrants. Following the completion of any such spin-off, the warrants would be exercisable solely for Retail Ventures common shares.

We have entered into an exchange agreement with Retail Ventures whereby, upon the request of Retail Ventures, we will be required to exchange some or all of the Class B Common Shares of DSW held by Retail Ventures for Class A Common Shares.

In connection with the July 2005 amendment and restatement of its convertible loan agreement, Retail Ventures agreed to issue to SSC and Cerberus convertible warrants which will be exercisable from time to time until the later of June 10, 2009 and the repayment in full of Value City's obligations under the amended and restated loan agreement. Under the convertible warrants, SSC and Cerberus will have the right, from time to time, in whole or in part, to (i) acquire Retail Ventures common shares at the conversion price referred to in the convertible loan (subject to antidilution provisions), (ii) acquire from Retail Ventures Class A Common Shares of DSW at an exercise price of \$19.00 per share (subject to antidilution provisions) or (iii) acquire a combination thereof. Although Retail Ventures has informed us that it does not currently intend or plan to undertake a spin-off of DSW Common Shares to Retail Ventures' shareholders, in the event that Retail Ventures effects a spin-off of its DSW Common Shares to its shareholders in the future, the holders of outstanding unexercised warrants will receive the same number of DSW Common Shares that they would have received had they exercised their warrants in full for Retail Ventures common shares immediately prior to the record date of the spin-off, without regard to any limitation on exercise contained in the warrants. Following the completion of any such spin-off, the warrants would be exercisable solely for Retail Ventures common shares. On June 6, 2007, Retail Ventures issued 1,333,333 of its common shares, without par value, to Cerberus in connection with Cerberus' exercise of its remaining outstanding convertible warrants that were originally issued by Retail Ventures on July 5, 2005.

SSC may acquire upon exercise of its convertible warrants, Class A Common Shares of DSW from Retail Ventures. As of August 4, 2007, assuming an exercise price per share of \$19.00, SSC would receive 1,973,685 Class A Common Shares without giving effect to anti-dilution adjustments, if any, if they exercised their convertible warrants exclusively for DSW Common Shares.

Contractual Obligations

DSW had outstanding letters of credit that totaled approximately \$19.9 million at August 4, 2007 and \$13.4 million at February 3, 2007. If certain conditions are met under these arrangements, the Company would be required to satisfy the obligations in cash. Due to the nature of these arrangements and based on historical experience, DSW does not expect to make any significant payments outside of terms set forth in these arrangements.

As of August 4, 2007, we have entered into various construction commitments, including capital items to be purchased for projects that were under construction, or for which a lease has been signed. Our obligations under these commitments aggregated to approximately \$13.4 million as of August 4, 2007. In addition, we have signed lease agreements for 35 new store locations, expected to be opened over the next 18 months, with annual rent of approximately \$12.3 million. In connection with the new lease

-18-

Table of Contents

agreements, we will receive approximately \$8.5 million of tenant and construction allowances, which will reimburse us for expenditures at these locations.

We operate all our stores, warehouses and corporate office space from leased facilities. Lease obligations are accounted for either as operating leases or as capital leases based on lease by lease review at lease inception. The Company had no capital leases outstanding as of August 4, 2007 or February 3, 2007.

Off-Balance Sheet Arrangements

The Company does not intend to participate in transactions that generate relationships with unconsolidated entities or financial partnerships, such as special purpose entities or variable interest entities, which would facilitate off-balance sheet arrangements or other limited purposes. As of August 4, 2007, the Company has not entered into any off-balance sheet arrangements, as that term is described by the SEC.

Proposed Accounting Standards

The Financial Accounting Standards Board (FASB) periodically issues Statements of Financial Accounting Standards (SFAS), some of which require implementation by a date falling within or after the close of the fiscal year. See Note 3 to the Condensed Consolidated Financial Statements for a discussion of the new accounting standards issued and implemented during the six months ended August 4, 2007.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Our cash and cash equivalents are maintained only with maturities of 90 days or less. Our investments typically have interest reset periods of 275 days or less. These financial instruments may be subject to interest rate risk through lost income should interest rates increase during their limited term to maturity or resetting of interest rates. As of August 4, 2007 and February 3, 2007, there was no long-term debt outstanding. Future borrowings, if any, would bear interest at negotiated rates and would be subject to interest rate risk. Because we have no outstanding debt, a hypothetical adverse change of 1% in interest rates would not have a material effect on our financial position.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

We, under the supervision and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, performed an evaluation of our disclosure controls and procedures, as such term is defined in Securities Exchange Act Rules 13a-15(e) and 15d-15(e). Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded, as of the end of the period covered by this report, that such disclosure controls and procedures were effective.

Changes in Internal Control over Financial Reporting

No change was made in our internal control over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

As previously reported, on March 8, 2005, Retail Ventures announced that it had learned of the theft of credit card and other purchase information from a portion of DSW customers. On April 18, 2005, Retail Ventures issued the findings from its investigation into the theft. The theft covered transaction information involving approximately 1.4 million credit cards and data from transactions involving approximately 96,000 checks.

We and Retail Ventures contacted and continue to cooperate with law enforcement and other authorities with regard to this matter. The Company is involved in a putative class action lawsuit which seeks unspecified monetary damages, credit monitoring and other relief. The lawsuit seeks to certify a class of consumers that is limited geographically to consumers who made purchases at certain stores in Ohio. A second class action lawsuit was resolved in May 2007 after we prevailed on a motion to dismiss on all claims in the District Court for the Southern District of Ohio and, on appeal, the parties agreed to a Stipulation of Dismissal filed with the U.S. Court of Appeals for the 6th Circuit.

There can be no assurance that there will not be additional proceedings or claims brought against us in the future. We have contested and will continue to vigorously contest the claims made against us and will continue to explore our defenses and possible claims against others.

We estimated that the potential exposure for losses related to this theft, including exposure under currently pending proceedings, ranges from approximately \$6.5 million to approximately \$9.5 million. Because of many factors, including the possible settlement of claims and recoverability under insurance policies, there is no amount in the estimated range that represents a better estimate than any other amount in the range. Therefore, in accordance with Financial Accounting Standard No. 5, *Accounting for Contingencies*, we accrued a charge to operations in the first quarter of fiscal 2005 equal to the low end of the range set forth above, or \$6.5 million. As the situation develops and more information becomes available, the amount of the reserve may increase or decrease accordingly. The amount of any such change may be material to our results of operations or financial condition. As of August 4, 2007, the balance of the associated accrual for potential exposure was \$3.2 million. Subsequent to August 4, 2007, we have paid an additional \$2.7 million from this reserve, leaving a balance of \$0.5 million.

We are involved in various other legal proceedings that are incidental to the conduct of our business. We estimate the range of liability related to pending litigation where the amount of the range of loss can be estimated. We record our best estimate of a loss when the loss is considered probable. Where a liability is probable and there is a range of estimated loss, we record the most likely estimated liability related to the claim. In the opinion of management, the amount of any liability with respect to these proceedings will not be material to our results of operations or financial condition. As additional information becomes available, we will assess the potential liability related to our pending litigation and revise the estimates as needed. Revisions in our estimates and potential liability could materially impact our results of operations and financial condition.

Item 1A. Risk Factors.

There have been no material changes to DSW's risk factors set forth in Part I, Item 1A of our last Annual Report on Form 10-K for the fiscal year ended February 3, 2007.

Table of Contents**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.**

(a) Recent sales of unregistered securities. Not applicable.

(b) Use of Proceeds. Not applicable.

(c) Purchases of equity securities by the issuer and affiliated purchasers

DSW made no purchases of its Common Shares during the quarter ended August 4, 2007.

Limitations on Payments of Dividends - We do not anticipate paying cash dividends on our Common Shares in the foreseeable future. Presently, we expect that all of our future earnings will be retained for development of our business. The payment of any future dividends will be at the discretion of our board of directors and will depend upon, among other things, future earnings, operations, capital requirements, our general financial condition and general business conditions. Our credit facility restricts the payment of dividends by us, other than dividends paid in stock of the issuer or paid to another affiliate, and cash dividends can only be paid to Retail Ventures by us up to the aggregate amount of \$5.0 million, less the amount of any loan advances made to Retail Ventures by us.

Item 3. Defaults Upon Senior Securities. None.**Item 4. Submission of Matters to a Vote of Security Holders.**

We held our 2007 Annual Meeting of the Shareholders on May 30, 2007. Proxies for the meeting were solicited pursuant to Section 14(a) of the Securities Exchange Act of 1934. Matters discussed or voted on at the annual meeting were the election of three incumbent Class II directors. The following persons continue to serve as Class I directors: Carolee Friedlander, Harvey L. Sonnenberg, Alan J. Tanenbaum, and Heywood Wilansky. The following persons were elected as Class II members of the Board of Directors to serve a two year term until the annual meeting in 2009 or until their successors are duly elected and qualified: Jay L. Schottenstein, Philip B. Miller, and James D. Robbins. Each person received the number of votes for or the number of votes with authority withheld indicated below.

	Shares Voted FOR	Shares WITHHELD
Jay L. Schottenstein	236,746,229	465,092
Philip B. Miller	237,040,572	170,749
James D. Robbins	235,895,530	1,315,791

Item 5. Other Information. None.**Item 6. Exhibits.** See Index to Exhibits on page 23.
