Issuance of METC Senior Secured Notes and ITC Midwest First Mortgage Bonds, Series B and Series C

METC Senior Secured Notes

On December 18, 2008, Michigan Electric Transmission Company, LLC (*METC*), an indirect wholly-owned subsidiary of ITC Holdings Corp. (the *Company*), issued \$50,000,000 aggregate principal amount of its 6.63% Senior Secured Notes due 2014 (the *METC Notes*) in a private placement in reliance on an exemption from registration under the Securities Act of 1933.

The *METC Notes* were issued under *METC* 's first mortgage indenture (the *Mortgage Indenture*), dated December 10, 2003, between The Bank of New York Mellon Trust Company, N.A., as successor to JPMorgan Chase Bank, as trustee (the *Trustee*), as supplemented by the fourth supplemental indenture thereto, dated as of December 11, 2008, between *METC* and the Trustee (the *Fourth Supplemental Indenture* and, together with the *Mortgage Indenture*, the *METC Indenture*). The *METC Notes* are secured by a first mortgage lien on substantially all of *METC* 's real and tangible personal property equally with all other securities theretofore or thereafter issued under the *Mortgage Indenture*, with such exceptions as described in, and such releases as permitted by, the *METC Indenture*.

Interest on the *METC Notes* is payable semi-annually on June 30 and December 30 of each year, commencing on June 30, 2009, at a fixed rate of 6.63% per annum. *METC* may redeem the *METC Notes*, in whole or in part, in an amount not less than \$5,000,000 in aggregate principal amount in the case of a partial redemption, at any time or from time to time with not less than 30 nor more than 60 days' prior notice at a redemption price equal to the sum of (a) 100% of the principal amount of such *METC Notes*, (b) accrued and unpaid interest thereon to the redemption date and (c) a make-whole amount, if any, determined using a discount rate of treasuries plus 50 basis points. The principal amount of the *METC Notes* is payable on December 18, 2014.

The *METC Notes* and the *METC Indenture* contain events of default customary for such a transaction, including, without limitation, failure to pay interest on any Security (as defined in the *METC Indenture*) for 5 days after becoming due; failure to pay principal on any Security when due; failure to comply with material covenants contained in the *METC Indenture*, subject to a 10-day cure period; failure to comply with other covenants contained in the *METC Indenture* and the other financing agreements relating to the offering of the *METC Notes*, subject to a 30-day cure period; breaches of representations and warranties; defaults in respect of obligations relating to certain debt; certain unsatisfied judgments; certain material ERISA events; termination of transmission service; termination of material transmission documents; and certain events relating to reorganization, bankruptcy and insolvency of *METC*. If an Event of Default (as defined in the *METC Indenture*) occurs, any holder of the Securities may accelerate its Securities (rather than all the Securities) pursuant to any payment Event of Default; the trustee or holders of a majority of the outstanding principal amount of the Securities may accelerate all the

Securities pursuant to any Event of Default; and all amounts are automatically accelerated pursuant to any reorganization, bankruptcy or insolvency Event of Default.

The above description of the METC Indenture does not purport to be a complete statement of the parties' rights and obligations thereunder. Such description is qualified in its entirety by reference to the Fourth Supplemental Indenture, a copy of which is attached to this Current Report on Form 8-K as Exhibit 4.22, and which is incorporated herein by reference.
