(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Name of each exchange on which registered
Registered Shares par value CHF 0.25 per share	The NASDAQ Global Select Market; SIX Swiss Exchange

Securities registered or to be registered pursuant to Section 12(g) of the Act: **None**

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes o No ý

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes o No ý

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data file required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§229.405 of this chapter) is not contained herein, and will not be contained, to the best of the registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

(Do not check if a
smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The aggregate market value of the voting shares held by non-affiliates of the registrant, based upon the closing sale price of the shares on September 27, 2013, the last business day of the registrant's second fiscal quarter on the NASDAQ Global Select Market, was approximately \$1,324,236,669. For purposes of this disclosure, voting shares held by persons known to the Registrant to beneficially own more than 5% of the Registrant's shares and shares held by officers and directors of the Registrant have been excluded because such persons may be deemed to be affiliates. This determination is not necessarily a conclusive determination for other purposes.

As of November 10, 2014, there were 163,259,279 shares of the Registrant's share capital outstanding.

Explanatory Note

In this Annual Report on Form 10-K, the registrant is (a) restating its consolidated financial statements for the fiscal year ended March 31, 2012; (b) revising its consolidated financial statements as of and for the fiscal year ended March 31, 2013; (c) restating the Selected Financial Data in Part II, Item 6 as of March 31, 2012 and 2011, and for the year ended March 31, 2011; and (d) revising the Selected Financial Data in Part II, Item 6 as of and for the year ended March 31, 2010. This Annual Report on Form 10-K also includes (a) in Part II, Item 8, revised unaudited quarterly financial data for each of the first three quarters in the fiscal years ended March 31, 2014 and 2013, and restated unaudited quarterly financial data for the quarter ended June 30, 2011, as originally included in the Company's Quarterly Reports on Form 10-Q for those respective periods and revised unaudited quarterly financial data for the fourth quarter in the fiscal year ended March 31, 2013, as originally included in the Company's Fiscal Year 2013 Annual Report on Form 10-K/A, Part II, Item 8 and (b) in Part II, Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations", a revised discussion and analysis as of and for the fiscal years ended March 31, 2013 and 2012. In addition, in lieu of filing an amended Quarterly Report on Form 10-Q for the quarter ended June 30, 2011, the registrant is including restated consolidated statements of operations and cash flows and balance sheet information as of and for the quarter ended June 30, 2011 in Part II Item 8 and restated discussion and analysis for that period in Part II Item 7. The restatement is due to a material accounting misstatement relating to inventory valuation reserves and supplier liabilities related to such inventories of the Company's now-discontinued Revue product identified through an independent investigation conducted by the registrant's Audit Committee, as well as other accounting errors identified by the Audit Committee's investigation and by management. In conjunction with recording of the adjustments related to this restatement, the Company recorded other immaterial adjustments to the consolidated financial statements or financial information included in this Form 10-K for the fiscal years ended March 31, 2013, 2012, 2011 and 2010. For a more detailed explanation of the investigation and the restatement, please see *Part II "Item 7: Management's Discussion and Analysis of Financial Condition and Results of Operations Restatement and Revision of Previously Issued Consolidated Financial Statements"* and *"Item 8: Financial Statements and Supplementary Data Note 2 of Notes to Consolidated Financial Statements."*

In addition to the restated and revised consolidated financial information for this Annual Report on Form 10-K, it also contains revised financial discussion and analysis regarding the fiscal years 2013 and 2012. This revised disclosure is contained in Part I "Item 1A: Risk Factors Risks Related to Our Internal Control Over Financial Reporting and the Restatement of Our Previously Issued Financial Statements," Part II "Item 6: Selected Consolidated Financial Data," "Item 7: Management's Discussion and Analysis of Financial Condition and Results of Operations Restatement and Revision of Previously Issued Consolidated Financial Statements," "Item 8: Note 2 Restatement and Revision of Previously Issued Consolidated Financial Statements", "Item 8: Supplementary Data Quarterly Financial Data" and "Item 9A: Controls and Procedures." The Company believes that presenting this information regarding the restated and revised periods in this Annual Report allows investors to review all pertinent data in a single presentation. The Company has neither filed amendments to (a) the Quarterly Reports on Form 10-Q for the first three quarters in the fiscal years ended March 31, 2014, 2013, 2012, 2011 or 2010 nor to (b) the Annual Report on Form 10-K for the years ended March 31, 2013, 2012, 2011 or 2010 (collectively, the "Affected Reports"). Accordingly, investors should rely only on the financial information and other related disclosures regarding the restated and revised periods in this Annual Report on Form 10-K, and not on the corresponding information and disclosures in the affected reports.

The adjustments made to the historical consolidated financial statements as a result of the restatement are more fully discussed in Note 2, *Restatement and Revision of Previously Issued Financial Statements*, to the Consolidated Financial Statements included in Part II Item 8, *Financial Statements and Supplementary Data*.

FORWARD-LOOKING INFORMATION

This Annual Report on Form 10-K contains forward-looking statements based on beliefs of our management as of the filing date of this Form 10-K. These forward-looking statements include statements related to:

Our business strategy and investment priorities for fiscal year 2015 and beyond, considering competitive offerings and evolving consumer demand trends affecting our products and markets, fluctuations in currency exchange rates, and current and future general regional economic conditions;

Our business and product plans for fiscal year 2015 and beyond, including the impact of reducing complexity in our product portfolio, new product introductions, and product innovation on future operating results and anticipated operating costs;

Our belief that market opportunities for Logitech products are significant in emerging markets such as China, Eastern Europe and Latin America;

Our belief that Logitech is well positioned to compete in providing products and services to enterprise markets with video and audio solutions that support unified communication platforms;

Our belief that Logitech is well positioned to benefit from the growth of the PC Gaming market and that there are significant opportunities for Logitech peripherals with customers of PC and Mac computers;

Our belief that there will be additional demand for complementary peripherals to enhance consumers' experiences with tablets and other mobile platforms;

Our belief that we will continue to improve profitability in our video conferencing, infrastructure and services business in mature markets;

Our plans for capital investments and research and development;

Our ability to comply with current and future regulations affecting our products;

Our ability to project product failure rates or repair costs;

Our belief that the restructuring plans implemented in fiscal year 2014 will reduce costs and expenses and improve future performance and the potential for additional restructuring plans;

Our belief that the implementation of our remediation plan is adequate in order to remediate the identified material weaknesses in the future;

Our expectations regarding our share buyback program;

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

The sufficiency of our cash and cash equivalents, cash generated from operations, and available borrowings under our bank lines of credit to fund capital expenditures and working capital needs; and

The Board of Directors has full confidence in its current management under the leadership of its Chief Executive Officer and Chief Financial Officer.

Factors that might affect these forward-looking statements include, among other things:

General market trends and consumer demand for personal computer peripherals in mature and emerging markets, and for peripherals to use with tablets and other mobile devices with touch interfaces;

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

Table of Contents

Market acceptance of our products, our ability to accurately forecast market trends and consumer demands, the sales mix between our lower- and higher-margin products, and our geographic sales mix;

Our decisions to prioritize investments in peripherals for PC Gaming, tablets and digital music consumption, in growing our sales in China and other high-potential emerging markets, in reducing complexity in our product portfolio, in growing our sales to enterprise customers, in expanding sales of our Lifesize division, and in our other investment priorities, and the impact of those decisions on our current operations and future performance;

The effect of pricing, product, marketing and other initiatives by our competitors and our reaction to them on our net sales, gross margins, and profitability;

Competition in the video conferencing and communications industry, and the rate of adoption of video communications in enterprises;

The impact of a failure to successfully innovate in our current and new product categories across all digital platforms and identify new features or product opportunities and the impact of competition in the new categories of products and the new markets in which we are beginning to, and plan to, enter;

The impact on our net sales, operating expenses and profitability due to changes in worldwide economic and business conditions, including fluctuations in currency exchange rates;

The influence of our product introductions and marketing activities, and the impact of reducing complexity in our product portfolio and on our net sales and profitability growth;

Our ability to implement workforce reductions, planned product initiatives, improvements in operating efficiencies and financial performance, and reductions in operating costs, associated with the restructuring; and

The adverse conclusion of one or more ongoing tax audits in various jurisdictions or a material assessment by a governing tax authority that would adversely affect our profitability.

Forward-looking statements also include, among others, those statements including the words "anticipate," "believe," "could," "estimate," "expect," "forecast," "intend," "may," "plan," "project," "predict," "should," "will" and similar language. These statements reflect our views and assumptions as of the date of this Annual Report on Form 10-K. All forward-looking statements involve risks and uncertainties that could cause our actual performance to differ materially from those anticipated in the forward-looking statements. Factors that might cause or contribute to such differences include, but are not limited to, those discussed under Item 1A, Risk Factors, as well as elsewhere in this Annual Report on Form 10-K and in our other filings with the U.S. Securities and Exchange Commission, or "SEC." You are cautioned not to place undue reliance on the forward-looking statements, which speak only as of the date of this Annual Report on Form 10-K. We undertake no obligation to publicly release any revisions to the forward-looking statements or reflect events or circumstances after the date of this document.

PART I

ITEM 1. BUSINESS

Company Overview

Logitech is a world leader in products that connect people to the digital experiences they care about. Spanning multiple computing, communication and entertainment platforms, we develop and market innovative hardware and software products that enable or enhance digital navigation, music and video entertainment, gaming, social networking, and audio and video communication over the Internet.

Logitech was founded in Switzerland in 1981, and Logitech International S.A. has been the parent holding company of Logitech since 1988. Logitech International S.A. is a Swiss holding company with its registered office in Apples, Switzerland, which conducts its business through subsidiaries in Americas (including North and South America), EMEA (Europe, Middle East, Africa) and Asia Pacific (including, among other countries, China, Taiwan, Japan and Australia). Shares of Logitech International S.A. are listed on both the Nasdaq Global Select Market, under the trading symbol LOGI, and the SIX Swiss Exchange, under the trading symbol LOGN. References in this Form 10-K to the "Company," "Logitech," "we," "our," and "us" refer to Logitech International S.A. and its consolidated subsidiaries.

Logitech has two operating segments, peripherals and video conferencing.

Peripherals

Our peripherals segment, which includes retail and OEM channels, encompasses the design, manufacturing and marketing of peripherals for personal computers (PCs), tablets and other digital platforms. We sell our peripherals products to a network of distributors, retailers and OEMs.

Retail Channel

Our retail peripherals product categories, which we classify as growth, profit maximization or non-strategic, are defined as follows:

Growth Categories:

PC Gaming: Includes PC Gaming mice, keyboards, headsets, gamepads and steering wheels.

Tablet & Other Accessories: Includes keyboards and covers for tablets and smartphones as well as other accessories for mobile devices.

Mobile Speakers: Includes portable wireless Bluetooth speakers.

Profit Maximization Categories:

Pointing Devices: Includes PC-related mice, touchpads and presenters.

PC Keyboards & Desktops: Includes PC keyboards, keyboards used in living rooms and keyboard/mice combo products.

Audio PC & Wearables: Includes PC speakers, PC headsets and in-ear headphones.

Video: Includes retail webcam products as well as Unified Communications webcams.

Remotes: Includes our Harmony product line.

Non-Strategic:

Other: This category comprises a variety of products which we currently intend to transition out of, or have transitioned out of, because they are no longer strategic to our business. Products currently

Table of Contents

included in this category are television (TV) camera, Digital Video Security (DVS), other gaming products not included in our Growth Category and music products, including over-ear headphones, TV and home speakers, Google TV products, and some PC Keyboards & Desktops accessories.

We sell our peripherals products to a network of retailers, including direct sales to retailers and indirect sales through distributors. Our worldwide retail network includes consumer electronics distributors, retailers, mass merchandisers, specialty electronics stores, computer and telecommunications stores, value-added resellers and online merchants. Sales of peripherals to our retail channels were 88%, 87% and 86% of our net sales for the fiscal years 2014, 2013 and 2012, respectively. The large majority of our revenues have historically been derived from sales of our peripherals products for use by consumers.

OEM Channel

Our OEM customers include the majority of the world's largest PC manufacturers. For the fiscal years 2014, 2013 and 2012, Sales to OEM customers were 6%, 7% and 8% of our net sales, respectively.

Video Conferencing

Our video conferencing segment encompasses the design, manufacturing and marketing of Lifesize-branded video conferencing products, infrastructure and services for small and medium size enterprises, public sector, and other business markets. Video conferencing products include SaaS video service, scalable HD (high-definition) video communication endpoints, video conferencing infrastructure software and appliances to support large-scale video deployments, and services to support these products. The video conferencing segment maintains a dedicated marketing and sales organization, which sells Lifesize products and services worldwide. Video conferencing product development and product management organizations are separate, but coordinated with our peripherals business. We sell our video conferencing products and services to distributors, value-added resellers, OEMs, and direct enterprise customers. Sales of video conferencing products were 6%, 7%, and 6% of our net sales in the fiscal year 2014, 2013 and 2012, respectively. Our video conferencing segment also has infrastructure functions, including finance, legal, information technology, and facilities that are separate, but coordinated with our peripherals business.

Industry Overview

Historically, Logitech's business has been driven by the same trends that drove the adoption of desktop and laptop PCs for consumers, businesses and institutional applications, including the growth in affordable processing power, communications bandwidth, the increased accessibility of digital content, and the growing and pervasive use of the Internet for productivity, communication and entertainment. These trends have created opportunities for new applications, new users and dramatically richer interaction between people and digital content.

In the last several years, the PC market has changed dramatically and there continues to be weakness in the global market for new PCs. This dynamic has negatively impacted our net sales in our PC-related categories. The decline in popularity of Desktop PCs, combined with the increased interest in smaller, touch-interfaced computing devices (such as smartphones and tablets) has rapidly changed the market for PC peripherals, while creating opportunities for new peripheral categories. Although the installed base of PC users is large in our traditional mature markets, (the United States, Canada, Western and Nordic Europe, Japan and Australia), consumer demand for PCs has declined in recent years and we believe this trend will continue in future years.

In both mature and emerging markets, a strong installed base of business and enterprise customers purchase peripherals for their PCs. We are experiencing growth in the popularity of smaller, mobile computing devices, such as tablets and smartphones with touch interfaces, which have created new markets and usage models for mobile peripherals and accessories. Logitech offers peripherals and accessories to

Table of Contents

enhance the use of such digital platforms. For example, consumers are optimizing their audio experiences on their tablets and smartphones with wireless mobile speakers that pair easily with their mobile devices. Consumers are also enhancing their tablet experience with a range of keyboards and cases such as the Ultrathin Keyboard Cover for the iPad that enable them to create, consume and do more with their tablets conveniently and comfortably.

The use of video across multiple platforms PCs, laptops and mobile devices such as tablets and smartphones is a continuing trend among consumers. The video communication industry continues to make progress towards a vision in which people can conduct a video call from any of these platforms to any other platform. Lifesize has showcased such video collaboration by enabling video calling among PCs, Macs, tablets, smartphones and video conference equipment.

The trend among businesses and institutions to use video conferencing is even more prevalent than consumer use of video calling, and offers a long-term growth opportunity for Logitech. For businesses and institutions, video conferencing is increasingly substituted for travel, because of high travel costs as well as the productivity gain that can be achieved by a high-quality face-to-face meeting that does not require travel away from the office. Further, with the increased availability of higher Internet bandwidth, video conferencing is becoming a key component of Unified Communications (UC), which is the integration of enterprise-class collaboration and communications solutions such as voicemail, e-mail, chat, presentation sharing and live video meetings. With large, well-financed competitors such as Cisco Systems, Inc., Microsoft Corporation and Polycom, Inc. participating in this market, the competition is intense. However, we believe that Logitech is well positioned with a targeted product portfolio to compete with differentiated video and audio solutions that support the emerging UC platforms.

Finally, we believe that trends established in the consumer technology market, such as brand identity, affordability, ease of installation and use, customer support, and visual appeal, have become important aspects of the purchase decision when buying a consumer electronics product. These are strengths that we believe Logitech offers in both consumer and enterprise markets.

Business Strategy

Logitech's current strategic objectives are to: (1) create sustained growth by investing in growth opportunities, (2) continue to maximize profitability from our PC peripherals, (3) develop a world-class design company, and (4) deliver operating leverage to improve profitability and to create the capacity to invest in growth.

As sales of PCs have declined over the past several years, sales of peripherals targeted for the PC platform have similarly diminished and affected our growth. As a result, we are focusing our investments in product categories with growth opportunities in which we can leverage our areas of expertise, competitive advantages and technology.

Within the overall PC peripherals market, gaming peripherals present a significant opportunity for growth. The PC Gaming platform continues to show strong growth as online gaming and multi-platform experiences gain greater popularity and gaming content becomes increasingly more demanding. We believe Logitech is well positioned to benefit from the PC Gaming market growth.

The increasing popularity of smaller, mobile computing devices such as tablets and smartphones with touch interfaces is rapidly changing the peripherals market. We believe there are significant opportunities for Logitech peripherals and accessories to improve the productivity, navigation and control abilities of tablets, smartphones and other mobile devices, enabling consumers to create, consume and share digital content more conveniently and comfortably.

For today's consumers, listening to music is a popular entertainment activity, fueled by the growth in smartphones, tablets, music services and Internet radio. Logitech has been able to leverage its expertise and experience in audio solutions to create products to take advantage of this trend.

Table of Contents

Our core product categories focus on the substantial worldwide installed base of PC and Mac computers by offering innovative peripherals to address needs for comfort, productivity and easy connectivity, as well as entertainment and communication. We believe that the market for PC peripherals will continue to present opportunities for increased profitability. The installed base of users is large, and the market dynamics provide an opportunity to drive our profitability.

Our video conferencing segment focuses on high-definition universal video collaboration for businesses and institutions. We believe that our strategy of high quality experience combined with a compelling price/performance advantage will allow us to continue to develop profitability in our video conferencing, infrastructure and services business in mature markets, as well as expand into emerging markets.

As we continue to shift the focus of our investment from PC peripherals to our growth categories, our business approach is changing as well. Our product development process and responsiveness to our consumers have become faster. We laid the foundation in fiscal year 2014 for building a design company that leverages technology, innovation and consumer insights. We are continuing to build on this foundation by making design a more integral part of our product development with the goals of creating fewer but more impactful products while increasing consumer satisfaction.

We continually review our product offerings and our strategic direction in light of our profitability targets, competitive conditions, changing consumer trends, and the evolving nature of the interface between the consumer and the digital world. We continue to evaluate non-strategic products as part of our ongoing efforts to strengthen our overall portfolio.

Our turnaround strategy over the past couple of years has been based in part on simplifying the organization, reducing operating costs through global workforce reductions and a reduction in the complexity of our product portfolio, with the goal of better aligning costs with our current business. We are continuing this strategy with the rationalization of our infrastructure and marketing activities and with our efforts to reduce operating expenses including indirect procurement. Our intention is to use the anticipated cost savings from these activities to fund and support our current growth opportunities and incremental investments for future growth.

Product Strategy

To take advantage of the opportunities we anticipate in the growing digital marketplace, Logitech's product strategy focuses on enabling and enhancing the multiple interfaces for input, navigation, audio and video across the many digital devices used by today's consumers and enterprises.

PC Gaming

Our strategy is to continue innovating sophisticated gaming interfaces, by leveraging our deep R&D expertise, which will provide precise and engaging gaming experiences.

Mobile Devices

To seize the growth opportunities in the peripherals market for mobile devices, we are focusing on innovating new features and products to provide excellent consumer experience, and on reducing product cycle time to meet the evolving market demand and frequent introductions of new devices. We have developed a range of products for the tablet market, for both Apple and Android platforms. Recently introduced products for tablets include the Logitech Ultrathin Keyboard Cover for the iPad Mini; the Logitech Keyboard Folio suite of products designed for the iPad, iPad mini, iPad Air, and Logitech PRO for Samsung Galaxy NotePRO 12.2 and Samsung Galaxy TabPRO 12.2. We believe there will be additional demand for complementary peripherals to enhance consumers' experiences with tablets and other mobile devices.

Table of Contents

Digital Music

Logitech has a solid foundation of audio solutions designed to satisfy consumers' needs for music consumption sourced from a variety of platforms. These platforms include music services, Internet radio and mobile devices such as tablets and smartphones. Our music solutions are focused primarily on wireless speakers.

PC/Mac Accessories

Logitech continues to provide new, innovative, high-performance PC and Mac computer navigation devices and audio and video products for the large installed base of PC and Mac computers and for the enterprise market.

Remote Controls

Logitech's Harmony brand of Remotes is well recognized as the leader in huge performance remote controls for home entertainment. We believe this expertise provides a strong foundation for remote controls in the digital home.

Video Conferencing

Our Lifesize division represents our focused investment in the growth of video communications in enterprises and business organizations. Lifesize is a leader in HD communication innovation at multiple price points, offering complete and scalable solutions including hardware, software, endpoints, services and infrastructure to small and medium enterprises. Lifesize is addressing the video conferencing market with affordable and simplified systems that align video with the way people work.

Design & Technological Innovation

Logitech seeks to fulfill the increasing demand for interfaces between people and the expanding digital world across multiple platforms and user environments. The interface evolves as platforms, user models and our target markets evolve. As access to digital information has expanded, we have extended our focus to mobile devices, and the meeting room, in addition to the PC, as access points to the Internet and the digital world. All of these platforms require interfaces that are customized according to how the devices are used. We believe this expansion of access points provides additional attractive opportunities for Logitech because the relevance and importance of navigation, interaction, video and audio interfaces and applications remain substantially the same across platforms.

We recognize that continued investment in product research and development is critical to facilitate innovation of new and improved products and technologies. Three of Logitech's products were selected as 2014 CES (Computer Electronics Show) Innovation Award honorees, including the Logitech Wireless All-in-One Keyboard TK820, a slim, wireless keyboard with a built-in touchpad that integrates typing, touch and gestures, giving you everything you need to control and navigate your computer in one device; the Logitech G602 Wireless Gaming Mouse that delivers 250 hours of non-stop gaming battery life when in performance mode, and up to 1,440 hours of battery life in endurance mode; and the Logitech G430 Surround Sound Gaming Headset, a headset that creates an immersive 360-degree positional sound field and features headset ear cups that are covered in a washable, sports performance mesh cloth that provides a comfortable fit even after many hours of use.

During fiscal year 2014, seven of Logitech's products won the 2014 iF product design award for excellence in the computer and audio/video categories. This year's winners are the UE BOOM, Logitech FabricSkin Keyboard Folio, Logitech G602 Wireless Gaming Mouse, Logitech Ultrathin Touch Mouse, Logitech Wireless Rechargeable Touchpad T650, Logitech Bluetooth Illuminated Keyboard K810 and Logitech Bluetooth Speakers Z600. During fiscal year 2014, Logitech also won Red Dot awards for the UE

Table of Contents

BOOM, Logitech G602 Wireless Gaming Mouse, Logitech Ultrathin Touch Mouse, and Logitech Illuminated Living Room Keyboard K830 and Good Design awards for UE BOOM, Logitech FabricSkin Keyboard Folio for iPad Air, Logitech G602 Wireless Gaming Mouse, Logitech Wireless Rechargeable Touchpad T650, Logitech Bluetooth Illuminated Keyboard K810, and Logitech G600 MMO Gaming Mouse.

Logitech is committed to meeting consumers' needs for peripheral devices; and believes that design & innovation, value and product quality are important elements in gaining market acceptance and strengthening our market position.

Products

Our peripherals segment encompasses the design, manufacturing and marketing of peripherals for PCs, tablets and other digital platforms. We sell our peripherals products to a network of distributors and retailers and to OEMs. The large majority of our revenues have historically been derived from sales of our peripherals products for use by consumers. Our video conferencing segment encompasses the design, manufacturing and marketing of Lifesize video conferencing products, infrastructure and services for the enterprise, public sector, and other business markets. We sell our Lifesize products and services to distributors, value-added resellers, OEMs and, occasionally, direct enterprise customers.

Our brand, portfolio management, product definition and engineering teams in our peripherals segment are responsible for product strategy, technological innovation and development, and for bringing our products to market. Our marketing team is responsible for supporting the Logitech brand, public relations and social media, and digital marketing. Our design team provides creative leadership, consumer insights, design direction and management from concept exploration to product and experience execution. Our retail sales and marketing activities are organized into three geographic regions: Americas (North and South America), EMEA (Europe, Middle East, Africa) and Asia Pacific (China, Japan, Australia, Taiwan, India and other countries). Our infrastructure functions, including finance, legal, information technology, and facilities, are managed globally to support the business areas.

Peripherals

Growth Categories

PC Gaming

Logitech offers a full range of dedicated game controllers for PC gamers including mice and keyboards, headsets, gamepads and steering wheels. Some of our products in this category include:

The Logitech G27 Racing Wheel has several advanced features such as a six-speed gated shifter and clutch pedal, a high-torque, dual-motor force-feedback mechanism, 900 degrees of rotation, an 11-inch wheel, and premium materials such as stainless steel and leather.

The Logitech G930 Wireless Gaming Headset offers high-performance 7.1 channel surround sound, a lag-free 2.4 GHz wireless connection, and three customizable G keys for one-touch command over music, chat, voice morphing and more.

The G500s Laser Gaming Mouse is a versatile mouse with hyper fast, dual mode scrolling features.

The G430 Surround Sound Gaming Headset has Dolby 7.1 Surround Sound, on-cable audio controls, sports-performance cloth ear cups and a folding, noise-cancelling mic.

During fiscal year 2014, our top revenue-generating PC Gaming products included the Logitech G27 Racing Wheel, the Logitech G930 Wireless Gaming Headset, the G500s Laser Gaming Mouse, and the G430 Surround Sound Gaming Headset.

Table of Contents

Tablet & Other Accessories

The Tablet & Other Accessories growth in fiscal year 2014 was driven by demand for the Logitech Ultrathin Keyboard Cover for the iPad. We have leveraged this success by continuing to further enhance this category through the introduction of additional innovative and complementary products, including:

The Logitech Ultrathin Keyboard Cover for iPad mini is an all-in-one solution, which serves as an ultrathin screen protector and built-in keyboard to enhance the iPad mini experience.

The Logitech FabricSkin Keyboard Folio for iPad Air combines on-trend design with intelligent technology for thin-and-light protection with added functionality for the iPad.

The Logitech Ultrathin Keyboard Cover for iPad Air provides an aluminum screen cover for added protection on the go, and doubles as a wireless keyboard.

The Logitech Ultrathin Keyboard Folio for iPad Air and for iPad mini offer a thin-and-light typing experience, with front and back protection for the iPad.

The Logitech Protective Folio for iPad Air and for iPad mini offer protection and a versatility in a thin, light and stylish design.

Mobile Speakers

This category includes portable wireless Bluetooth speakers. Our top revenue-generating wireless speaker products during fiscal year 2014 included the UE BOOM, the 360° portable wireless speaker that provides bold, immersive sound in every direction. The UE BOOM is the primary driver for success in this product category and one of the best-selling products for Logitech during fiscal 2014. The category also includes the UE Mini BOOM, a powerful and portable Bluetooth speaker with unexpectedly loud sound for its small size.

Profit Maximization Categories

Pointing Devices

Logitech offers many varieties of pointing devices, sold through retail channels. Our top revenue-generating pointing devices during fiscal year 2014 include the Logitech Wireless Mouse M325, the Logitech Wireless Mouse M185, the Logitech Performance Mouse MX and the Logitech Wireless Mouse M510. Some of our products in this category include:

The Logitech Wireless Mouse M325 offers a micro-precise scrolling with a feel-good, contoured design.

The Logitech Wireless Mouse M185 is a wireless mouse with nano receiver technology that is compatible with any computer.

The Logitech Wireless Mouse M510 offers a side-to-side scrolling plus zoom feature with programmable controls.

PC Keyboards & Desktops

Logitech offers a variety of corded and cordless keyboards, living room keyboards, and desktops (keyboard-and-mouse combinations). Our top revenue-generating PC keyboard and desktop devices during fiscal year 2014 include the Logitech Wireless Touch Keyboard K400, the Logitech Wireless Combo MK520 and the Logitech Wireless Combo MK270. Some of our products in this category include:

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

The Logitech Wireless Touch Keyboard K400 is a sleek & compact keyboard with a 10-meter wireless range, provides functionality as a living room keyboard.

Table of Contents

The Logitech Wireless Combo MK520 is a full sized keyboard and mouse combo designed for complete comfort.

The Logitech Combo MK270 offers a wireless compact mouse and keyboard with nano technology.

The Logitech Wireless All-in-One Keyboard TK820 provides everything needed to navigate a computer, equipped with a built in touchpad so you can type, touch and swipe with one device.

The Logitech Wireless Keyboard K360 is a compact keyboard that takes up less space while letting you type with more comfort.

Audio PC & Wearables

This category comprises PC speakers, PC headsets, and in-ear earphones designed to enhance the audio experience. Our top revenue-generating products during fiscal year 2014 included the Logitech Speaker System Z623, the Logitech Surround Sound Speakers Z506, the Logitech USB Headset H390, and the Logitech Speaker System Z323. Some of our products in this category include:

The Logitech Speaker System Z623 delivers 200 watts (RMS) of power in a THX-Certified system with multiple inputs.

The Logitech Surround Sound Speakers Z506 delivers 75 watts of power with a 3D stereo and multiple inputs.

The Logitech USB Headset H390 is an USB headset that offers noise cancelling microphone and in-line audio features.

The Logitech Speaker System Z323 delivers a 360-degree sound system with integrated headphone and ported down-firing subwoofer.

The Logitech Z313 delivers 25 watts of power with a compact subwoofer and a convenient control pad.

Video

This category comprises retail and business webcams, as well as Logitech ConferenceCams. Our top revenue-generating webcams during fiscal year 2014 included the Logitech HD Pro Webcam C920, which offers razor-sharp HD video and recordings with 1080p; enhanced by Carl Zeiss optics, and the Logitech ConferenceCam, which delivers crystal-clear sound and HD quality video enhanced by Carl Zeiss optics.

Remotes

Our line of Harmony advanced remote controls for home entertainment systems includes:

The Logitech Harmony Ultimate and the Logitech Harmony Smart Control. Both products feature Logitech's Harmony Hub and Harmony Smartphone App to enable closed-cabinet control and one-touch entertainment access to game consoles from a universal remote or smartphone. The Harmony Hub takes personalizing your activities a step further into home control with the ability to program your Philips Hue lights to the desired brightness and color with a tap of the Logitech Harmony Ultimate.

The Logitech Harmony Touch remote, a premium advanced universal remote that enables customization with an intuitive color touch-screen for control of the home-entertainment system.

The Logitech Harmony 650 remote, a universal remote featuring a color screen and one-click activity buttons.

Table of Contents

Video Conferencing

Our Lifesize division offers HD video communication solutions including a HD SaaS video conferencing service, HD video conferencing products, audio conference telephones, hardware and software infrastructure solutions, video management software, and services to support reliable video and audio communications and help users connect to any network securely and with ease. The Lifesize product line includes:

Lifesize Cloud, a SaaS infrastructure service that supports all of the ways people communicate and is the only solution that offers a connected experience that includes the meeting room. Lifesize Cloud enables secure, immersive communication between meeting room-based video conferencing systems, software applications on PCs and Mac computers, and mobile applications on IOS and Android smartphones and tablets. It offers an intuitive, scalable, and cost-effective solution for looking to deploy business class video conferencing.

The Icon Series, which introduces a new, simplified user experience designed to make video communication simple and intuitive so that anyone can use it without training. It is tightly integrated with the Lifesize UVC Platform and its applications to make it easier for users to experience the full power of their platform.

The 220 Series, which provides full HD video quality at the lowest possible bandwidth, allowing data-sharing, supporting dual HD display, full HD camera, and phone or microphone options. These offer multiple models to support customer room configuration needs and multipoint bridging requirements.

The Lifesize UVC Infrastructure Platform is an integrated, virtualized software platform for video infrastructure. It consolidates the capabilities of multiple video conferencing infrastructure applications and makes them instantly available from one common interface. This integrated platform adds efficiency in operation for IT organizations, easy trial and flexible configuration in a common platform that is scalable to meet future growth needs. It includes applications for multiparty calling, advanced call control, video streaming and recording, mobile and desktop calling including state of the art applications for PC, Mac, and Android and iOS smartphones and tablets.

Competitive Strengths

We believe the key competitive strengths that allow Logitech to be successful in the markets are:

Our innovation capability, including understanding of product development, technology and industrial design excellence, as demonstrated by a list of over 100 industry "firsts" to our name and a patent portfolio of approximately 600 patents.

Our expertise in key engineering disciplines that underlie our products, and our continued enhancement of our products through the use of advanced technologies.

The Logitech, Ultimate Ears (UE), and Lifesize brand names and industrial designs, which are recognized worldwide as symbols of product quality, innovation, ease of use and price-performance value.

Our hybrid model of in-house manufacturing and third-party contract manufacturers allows us to effectively respond to rapidly changing demand and leverage economies of scale.

Our Supply Chain has extensive global reach, key distribution and strategic business relationships combined with extensive analytic modeling expertise, optimization tools and global processes; creating a competitive advantage.

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

Our global presence, capable of drawing on the strengths of our global resources, global distribution system and geographical revenue mix.

Table of Contents

Our expertise in a broad array of PC, Mac and mobile device peripherals.

We believe that we have competed successfully based on these factors. We believe that Logitech's future lies with our ability to continue to capitalize on these strengths.

Research and Development

Logitech is focused on understanding and improving the consumer's overall experience with Logitech products. Our goal is to use research, insights, technology and innovation to deliver great experiences to our users at each consumer touch point and in all Logitech products. We define customer experiences as the focal point of our research and development, and use a process of prototyping, learning and iteration to maximize customer satisfaction. We use metrics and consumer feedback mechanisms to drive meaningful and measurable improvements in our products. We believe that by creating products that people desire and love, we maximize the number of consumers who actively recommend Logitech products, fueling brand preference within and across our many product categories and driving consumer recommendations of our products.

We believe that continued investment in product research and development is critical to Logitech's success. Our international structure provides advantages and synergies to our overall product development efforts. We have development centers in the United States, Switzerland, Ireland, India and Taiwan.

Our research and development expenses for fiscal years 2014, 2013, and 2012 were \$139.4 million, \$155.0 million, and \$162.2 million, respectively. We expect to continue to devote significant resources to research and development, including devices for digital platforms, video communications, wireless technologies, power management, user interfaces and device database management to sustain our competitive position.

Marketing, Sales and Distribution

Principal Markets

Net sales to unaffiliated customers by geographic region for fiscal years 2014, 2013 and 2012 (based on the customers' location) are as follows (in thousands):

	Years Ended March 31,		
	2014	2013	2012
	As Revised		
Americas	\$ 859,893	\$ 808,618	\$ 879,076
EMEA	767,017	799,075	897,557
Asia Pacific	501,803	491,584	539,570
	\$ 2,128,713	\$ 2,099,277	\$ 2,316,203

Sales are attributed to countries on the basis of the customers' locations. Revenues from sales to customers in Switzerland, our home domicile, represented 2% of our total consolidated net sales in fiscal years 2014, 2013 and 2012. In fiscal years 2014, 2013 and 2012, the United States represented 35%, 33% and 34% of our total consolidated net sales, respectively. No other single country represented more than 10% of our total consolidated net sales for fiscal years 2014, 2013 and 2012.

Table of Contents

Marketing

Logitech's marketing organization strives to understand our consumers so that we can create products and provide services that accurately anticipate their needs and reach them through marketing and communication programs that are relevant to them. Logitech builds awareness of our products and recognition of the Logitech brand through targeted advertising, public relations efforts, social media, distinct packaging of our retail products, in-store promotions and merchandising, a Worldwide Web site and other efforts. We also acquire knowledge of our users through customer feedback and market research, including focus groups, product registrations, user questionnaires, primary and multi-client surveys and other techniques. In addition, manufacturers of PCs and other products also receive customer feedback and perform user market research, which sometimes results in requests to Logitech for specific products, features or enhancements.

Sales and Distribution

We sell our peripherals products to a network of distributors, retailers and OEMs. We support these channels with third-party distribution centers located in North America, Europe and Asia Pacific. Some of these distribution centers perform product localization with local language manuals, packaging and power plugs.

Logitech directly sells peripherals products to distributors and large retailers. Distributors in North America include Ingram Micro, Tech Data Corporation, D&H Distributing, and Synnex Corporation. In Europe, pan-European distributors include Ingram Micro, Tech Data, and Gem Distribution. We also sell to many regional distributors such as Actebis GmbH in Germany and Copaco Dc B.V. in the Netherlands. In Asia, major distributors include Beijing Digital China Limited in China, Daiwabo in Japan, and the pan-Asian distributor, Ingram Micro. Our distributor customers typically resell products to retailers, value-added resellers, systems integrators and other distributors with whom Logitech does not have a direct relationship.

In fiscal years 2014, 2013 and 2012, Ingram Micro Inc. and its affiliated entities together accounted for 14%, 11% and 14% of our net sales, respectively. No other customer individually accounted for more than 10% of our net sales during fiscal years 2014, 2013 and 2012. The material terms of our distribution agreements with Ingram Micro and its affiliated entities are summarized as follows:

The agreements are non-exclusive in the particular territory and contain no minimum purchase requirements.

Each agreement may be terminated for convenience at any time by either party. Most agreements provide for termination on 30 days written notice from either party, with two Ingram Micro agreements providing for termination on 90 days notice.

We generally offer an allowance for marketing activities equal to a negotiated percentage of sales and volume rebates related to purchase volumes or sales of specific products to specified retailers. These terms vary by agreement.

Most agreements allow price protection credits to be issued for on-hand or in-transit new inventory if we, in our sole discretion, lower the price of the product.

We grant limited stock rotation return rights, which vary by agreement.

Logitech's peripherals products can be purchased in most major retail chains, where we typically have access to significant shelf space. These chains in the U.S. include Best Buy, Wal-Mart, Staples, Target, and Office Depot. In Europe, chains include Metro Group (MediaMarkt and Saturn), Carrefour Group, Kesa Electricals, Fnac, and Dixons Stores Group PLC. In Asia Pacific, retail chains include Australia's Dick Smith Electronics Limited. Logitech products can also be purchased online either directly from

Table of Contents

Logitech.com or through e-tailers, such as Amazon.com, TigerDirect.com, Buy.com, CDW, Insight Enterprises, Inc. and others.

Logitech's OEM products are sold to large OEM customers through a direct sales force, and we support smaller OEM customers through distributors. We count the majority of the world's largest PC manufacturers among our customers.

Our Lifesize division maintains a marketing and sales organization, separate from the Peripherals segment, that sells Lifesize products and services to distributors, value-added resellers, OEMs and direct enterprise customers. The large majority of Lifesize revenues are derived from sales of products for use by small-to-medium businesses, public healthcare providers, educational institutions and government organizations.

Through our operating subsidiaries, we maintain sales offices or sales representatives in approximately 43 countries.

Backlog

We typically have a relatively small amount of orders at the end of our fiscal periods that we have received but have not shipped, which is referred to as backlog. In our experience, the amount of backlog at any particular fiscal period-end is not a meaningful indication of our future business prospects.

Customer Service and Technical Support

Our customer service organization provides user technical support, support related to product inquiry, and order support. We support these customer service functions with an outsourced operation that has support centers located in the Philippines, Mexico, and Northern Ireland.

Logitech maintains customer service and technical support capabilities in the United States, Canada, Europe, and the Asia Pacific region. Customer service and technical personnel provide support services to retail purchasers of products through telephone, e-mail, forums, chat, facsimile and the Logitech Web site. The Logitech Web site is designed to expedite overall response time while minimizing the resources required for effective customer support. In general, OEMs provide customer service and technical support for their products, including components purchased from suppliers such as Logitech. Logitech provides warranties on our branded products that range from one to three years.

In Korea and China, there are multiple locations where consumers may obtain service for their Logitech products. These locations are managed by a third party logistics provider. Consumers who have purchased Logitech products can visit these locations for product inspection, light repairs, and return or exchange of products. Within China, there is also a mail-in center to provide these services for more remote locations in China.

Manufacturing

Logitech's manufacturing operations consist principally of final assembly and testing. Since 1994, we have had our own manufacturing operations in Suzhou, China, which currently handles approximately half of our total production of peripherals products. We continue to focus on ensuring the efficiency of the Suzhou facilities, through the implementation of quality management, process improvements, and employee involvement programs. We outsource the remaining production to contract manufacturers and original design manufacturers located in Asia. Our Lifesize video communications products are manufactured in Malaysia under contract with a third-party manufacturer. Both our in-house and outsourced manufacturing operations are managed by our worldwide operations group. The worldwide operations group also supports the business units and marketing and sales organizations through management of distribution centers, the supply chain, and the provision of technical support, customer relations and other services.

Table of Contents

New product launches, process engineering, commodities management, logistics, quality assurance, operations management and management of Logitech's contract manufacturers occur in Hsinchu, Taiwan, Suzhou, China, Shenzhen, China and Hong Kong, China. Certain components are manufactured to Logitech's specifications by vendors in Asia, the United States and Europe. We also use contract manufacturers to supplement internal capacity and to reduce volatility in production volumes. In addition, some products, including most keyboards, certain gaming devices, certain audio products, and video conferencing equipment are manufactured by third-party suppliers to Logitech's specifications. Retail product localization with local language manuals, packaging, and power plugs is performed at distribution centers in North America, Europe and Asia Pacific.

Our hybrid model of in-house manufacturing and third-party contract manufacturers allows us to effectively respond to rapidly changing demand and leverage economies of scale. Through our high-volume manufacturing operations for peripherals located in Suzhou, China, we believe we have been able to maintain strong quality process controls and have realized significant cost efficiencies. Our Suzhou operation provides for increased production capacity and greater flexibility in responding to product demand. Further, by outsourcing the manufacturing of certain products, we seek to reduce volatility in production volumes as well as improve time to market.

Competition

The peripherals and video conferencing industries are intensely competitive. The peripherals industry is characterized by short product life cycles, continual performance enhancements, and rapid adoption of technological and product advancements by competitors in our retail markets, and price sensitivity in the OEM market. We have experienced aggressive price competition and other promotional activities from our primary competitors and from less-established brands, including brands owned by some retail customers known as house brands. We may also encounter more competition if any of our competitors in one or more categories decide to enter other categories in which we currently operate.

We have been expanding the categories of products we sell and entering new markets, such as the markets for tablet accessories, music accessories and enterprise video conferencing. We remain alert to opportunities in new categories and markets. As we do so, we are confronting new competitors, many of which have more experience in the categories or markets and have greater marketing resources and brand name recognition than we have. In addition, because of the continuing convergence of the markets for computing devices and consumer electronics, we expect greater competition in the future from well-established consumer electronics companies in our developing categories, as well as future ones we might enter. Many of these companies have greater financial, technical, sales, marketing and other resources than we have. Our ability to grow our sales as a company is considerably dependent on the growth categories.

We expect continued competitive pressure in our retail, OEM, and video conferencing businesses, including in the terms and conditions that our competitors offer customers, which may be more favorable than our terms and conditions, and may require us to take actions to increase our customer incentive programs, which could impact our revenues and operating margins.

Peripherals

Growth Categories

PC Gaming. Competitors for our PC Gaming peripherals include Razer USA Ltd., SteelSeries, A4TECH, Turtle Beach and Mad Catz Interactive.

Tablet & Other Accessories. We primarily manufacture tablet keyboards and other accessories for Apple products, such as iPad and iPhone. Competitors in the tablet keyboard market are Zagg, Kensington, Belkin, Targus and other less-established brands. Although we are one of the leaders in

Table of Contents

the tablet keyboard market and continue to expand our product portfolio to other tablet products, we expect the competition will increase as large tablet manufacturers, such as Microsoft Corporation, start to offer tablet keyboards and other accessories along with their tablet products.

Mobile Speakers. Our competitors for Bluetooth wireless speakers include JBL, Jawbone, Beats Electronics and Bose our largest competitor. Apple's recent acquisition of Beats Electronics may now impact the Company's access to shelf space in Apple retail stores and adversely impact the Company's ability to succeed in this important growth category.

Profit Maximization Categories

Pointing Devices and PC Keyboards & Desktops. Microsoft Corporation is our main competitor in our mice, keyboard and desktop product lines. We also experience competition and pricing pressure for corded and cordless mice and desktops from less-established brands, including house brands, which we believe have impacted our market share in some sales geographies.

Audio-PC & Wearables. In the PC speakers business, our competitors include Bose, Cyber Acoustics, Altec Lansing LLC and Creative Labs, Inc. In the PC headset business, our main competitors include Plantronics and Altec Lansing. In-ear headphones competitors include Skull Candy, Sennheiser, Sony, and others.

Video. Our primary competitor for PC webcams is Microsoft, with other various manufacturers taking smaller market share. The worldwide market for PC webcams has been declining, and as a result, fewer competitors have entered the market.

Remotes. Our primary competitors for remotes include Philips, Universal Remote Control, Inc., General Electric, RCA and Sony. We expect that the technological innovations in smartphones and tablet devices, as well as subscriber service-specific remotes such as Comcast and Direct TV, will likely result in increased competition.

Video Conferencing

We primarily compete in the medium and small business, education, and state and local business sectors of the enterprise video conferencing market. This market is characterized by continual performance enhancements and large, well-financed competitors. There is increased participation in the video conferencing market by companies such as Cisco Systems, Inc., Polycom, Inc. and Avaya, Inc., and as a result, competition has increased in recent years and we expect competition in the industry to further intensify. In addition, there is an increasing number of PC-based multi-person video conferencing applications, such as Microsoft's Lync and Skype, Google Hangouts for Business and new entrants delivering cloud-based video conferencing services, such as Bluejeans Networks and Zoom.us, which compete with our Lifesize products and services.

Intellectual Property and Proprietary Rights

Intellectual property rights that apply to Logitech's products and services include patents, trademarks, copyrights and trade secrets.

We hold various United States patents and pending applications, together with corresponding patents and pending applications from other countries. While we believe that patent protection is important, we also believe that patents are of less competitive significance than factors such as technological expertise and innovation, ease of use, and quality design. No single patent is in itself essential to Logitech as a whole. From time to time we receive claims that we may be infringing on patents or other intellectual property rights of others. Claims are referred to counsel, and current claims are in various stages of evaluation and negotiation. If necessary or desirable, we may seek licenses for certain intellectual property rights. Refer also to the discussion in Item 1A, Risk Factors "We may be unable to protect our proprietary rights.

Table of Contents

Unauthorized use of our technology may result in the development of products that compete with our products." and "Claims by others that we infringe their proprietary technology could adversely affect our business."

To distinguish genuine Logitech products from competing products and counterfeit products, Logitech has used, registered, or applied to register certain trademarks and trade names in the U.S. and in foreign countries and jurisdictions. Logitech enforces its trademark and trade name rights in the U.S. and abroad. In addition, the software for Logitech's products and services is entitled to copyright protection, and we generally require our customers to obtain a software license before providing them with that software. We also protect details about our products and services as trade secrets through employee training, license and non-disclosure agreements and technical measures.

Environmental Regulation

We are subject to laws and regulations in many jurisdictions regulating the materials used in our products and, increasingly, product-related energy consumption, and the recycling of our products and packaging.

Europe. In Europe we are subject to the European Union's (EU's) RoHS (Restriction of Use of Certain Hazardous Substances in Electrical and Electronics Equipment) Directive 2011/65/EU, or RoHS 2. This directive restricts the placement into the EU market of electrical and electronic equipment containing certain hazardous materials including lead, mercury, cadmium, chromium, and halogenated flame-retardants. All Logitech products are covered by the directive and have been modified, if necessary, to be RoHS 2 compliant. Logitech has an active program to ensure compliance with the RoHS 2 directive and to ensure RoHS 2 compliant components and manufacturing methods in order to comply with the requirements of the directive.

Logitech is also subject to the EU's ErP (Energy-related Products) Directive, which aims to encourage manufacturers and importers to produce products designed to minimize overall environmental impact. Under the Directive, manufacturers must ensure that their energy-related products comply with applicable requirements, issue a declaration of conformity and mark the product with the 'CE' mark. The Directive does not have binding requirements for specific products, but does define conditions and criteria for setting, through subsequent implementing measures, requirements regarding environmentally relevant product characteristics. To date the following implementing measures within the ErP Directive are active and applicable to Logitech products:

1275/2008: Eco-design requirements for standby and off mode electric power consumption of electrical and electronic household and office equipment.

278/2009: Eco-design requirements for no-load condition power consumption and average active efficiency of external power supplies.

Logitech has assessed the applicability of implementing these measures on relevant product lines and has taken steps to ensure that our products meet the requirements. Adoption of the ErP Directive will be aligned in all EU member states, and we expect conformity will be demonstrated by Logitech in conjunction with current CE conformity marking requirements. Similar requirements exist in the four member states of the European Free Trade Association (Iceland, Norway, Liechtenstein and Switzerland). Such requirements are substantially met by compliance with the ErP Directive.

We are also subject to a number of EOL (End of Life) Stewardship directives including the EU's WEEE (Waste Electrical and Electronic Equipment) Directive, the EU Packaging Directive and the EU Battery Directive, which require producers of electrical goods, packaging and batteries to be financially responsible for costs of specified collection, recycling, treatment and disposal of covered products. Where applicable, we have provided for the estimated costs, which are not material, of managing and recycling historical and future waste equipment, packaging and batteries.

Table of Contents

Logitech has also assessed the applicability of the European REACH Directive (Regulation (EC) No. 1907/2006 for Registration, Evaluation, Authorization, and Restrictions of Chemicals). Logitech is not subject to aspects of this Directive which relate to chemical substance import and control due to our current manufacturing structure. The aspect of this Directive that relates to product content does impact Logitech and we have taken steps to ensure that all substances of very high concern (on a list of candidate substances for authorization that is published on the EU Agency-Web site) present in products above a concentration limit are eliminated in subsequent product designs or notified per the Directive requirements. Additions to this list of candidate substances are reviewed on a regular basis to give consideration to any updates to the substances of very high concern (SVHC) list performed by the relevant EU agency.

China. In China we are subject to China's law on Management Methods on the Control of Pollution Caused by Electronic Information Products (China RoHS). This is substantially similar to the EU RoHS Directive, and as such, Logitech products are already compliant. China RoHS requires additional labelling of product that will be shipped in China and Logitech has taken steps to help ensure we comply with these requirements.

United States and Canada. In the U.S., we are subject to, among other laws, Appliance Efficiency Regulations adopted via the U.S. Energy Independence and Security Act of 2007. The regulations set out standards for the energy consumption performance of products within the scope of the regulations, which includes some of Logitech's products. The standards apply to appliances sold or offered for sale throughout the U.S., and Logitech has redesigned or changed products to comply with these regulations. We are also subject to California's Proposition 65, which requires that clear and reasonable warnings be given to consumers who are exposed to certain chemicals deemed by the state of California to be dangerous.

Logitech is also subject to the requirement as set out by the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, specifically Section 1502, which addresses the use of "Conflict Minerals" in the supply chain. We have established systems which facilitate our compliance with the sourcing and traceability obligations and the reporting requirements of this Act aligned with guidelines published by the Securities and Exchange Commission. As an EICC (Electronic Industry Citizenship Coalition) member, Logitech is participating in the establishment of this industry-wide "Conflict Minerals" approach by which these requirements will be met.

In addition, the Transparency in Supply Chain Act of 2010 (S.B. 657) is effective from Logitech's fiscal year 2012. The law requires all retailers and manufacturers of tangible products who do business in California and have annual worldwide gross receipts exceeding \$100 million to disclose on their company websites their efforts to combat forced labor and human trafficking in their own supply chains. Logitech's disclosure is posted on our Web site, www.logitech.com.

In Canada and the United States, we are subject to laws in various Canadian provinces and U.S. states that impose fees to cover the cost of end of life responsible disposal and recycling of packaging, product and batteries. These laws require producers of electrical goods, packaging and batteries to be financially responsible for costs of specified collection, recycling, treatment and disposal of covered products. Where applicable, we have provided for the estimated costs, which are not material, of managing and recycling historical and future waste equipment, packaging and batteries.

Australia and New Zealand. In Australia and New Zealand, we are subject to the MEPS (Minimum Energy Performance Standards) regulations. These regulations set out standards for the energy consumption performance of products within the scope of the regulations, which includes some of Logitech's products. We have taken steps to modify products to ensure they are in compliance with MEPS.

We expect further laws governing product and packaging recycling to be introduced in other jurisdictions, many or most of which could impose fees to cover recycling costs, the cumulative impact of

Table of Contents

which could be significant. If such legislation is enacted in other countries, Logitech intends to develop compliance programs as necessary. However, until that time, we are not able to estimate any possible impact.

The effects on Logitech's business of complying with other government regulations are limited to the cost of agency fees and testing, as well as the time required to obtain agency approvals. There are also stewardship costs associated with the end of life collection, recycling and recovery of Logitech products, packaging and batteries where Logitech is recognized as the steward and participates in relevant programs. The costs and schedule requirements are industry requirements and therefore do not represent an undue burden relative to Logitech's competitive position. As regulations change, we will modify our products or processes to address those changes.

Seasonality

Our retail peripherals product sales are typically seasonal. Sales are generally highest during our third fiscal quarter (October to December) primarily due to the increased demand for our products during the year-end holiday buying season. Our sales in the first and second quarters can vary significantly as a result of new product introductions and other factors. Accordingly, we believe that year-over-year comparisons are more indicative of variability in our results of operations than current quarter to prior quarter comparisons.

Our video conferencing product sales experience minor seasonality. Sales are generally strongest during our third fiscal quarter primarily due to expiring budgets in the business community. Sales are generally lower during our fourth fiscal quarter, as annual business budgets may not be finalized until late in the quarter.

Materials

We purchase certain products and key components used in our products from a limited number of sources. If the supply of these products or key components, such as micro-controllers, optical sensors or Lifesize hardware products, were to be delayed or constrained, or if one or more of our single-source suppliers goes out of business, we might be unable to find a new supplier on acceptable terms, or at all, and our product shipments to our customers could be delayed. In addition, lead times for materials, components and products ordered by us or by our contract manufacturers can vary significantly and depend on factors such as contract terms, demand for a component, our ability to forecast product demand, and supplier capacity. From time to time, we have experienced component shortages and extended lead times on semiconductors, such as micro-controllers and optical sensors, and base metals used in our products. Shortages or interruptions in the supply of components or subcontracted products, or our inability to procure these components or products from alternate sources at acceptable prices in a timely manner, could delay shipment of our products or increase our production costs.

Employees

As of March 31, 2014 we employed approximately 6,527 people of whom 6,289 were regular employees and 238 were contractors. Out of the 6,527 people employed, approximately 4,145 employees supported manufacturing as of March 31, 2014. None of Logitech's U.S. employees are represented by a labor union or are subject to a collective bargaining agreement. Certain foreign countries, such as China, provide by law for employee rights, which include requirements similar to collective bargaining agreements. We believe that our employee relations are good.

Table of Contents**Executive Officers of the Registrant**

The following sets forth certain information regarding our executive officers as of March 31, 2014:

Name	Age	Nationality	Position
Guerrino De Luca	62	Italian and U.S.	Executive Chairman of the Board
Bracken P. Darrell	51	U.S.	President and Chief Executive Officer
Vincent Pilette	42	Belgian	Chief Financial Officer
Marcel Stolk	47	Dutch	Sr. Vice President, Consumer Computing Platforms Business Group
L. Joseph Sullivan	60	U.S.	Sr. Vice President, Worldwide Operations

Guerrino De Luca has served as Chairman of the Logitech Board of Directors since January 2008 and as Chief Executive Officer from April 2012 to December 2012. Mr. De Luca served as Logitech's acting president and chief executive officer from July 2011 to April 2012. Previously, Mr. De Luca served as Logitech's President and Chief Executive Officer from February 1998, when he joined the Company, to January 2008. He has been an executive member of the Board of Directors since June 1998. Prior to joining Logitech, Mr. De Luca served as Executive Vice President of Worldwide Marketing for Apple, Inc., a consumer electronics and computer company, from February 1997 to September 1997, and as President of Claris Corporation, a U.S. personal computing software vendor, from May 1994 to February 1997. Prior to joining Claris, Mr. De Luca held various positions with Apple in the United States and in Europe. Mr. De Luca holds a Laurea degree in Electronic Engineering from the University of Rome, Italy.

Bracken P. Darrell joined Logitech as President in April 2012 and became Chief Executive Officer in January 2013. Prior to joining Logitech, Mr. Darrell served as President of Whirlpool EMEA and Executive Vice President of Whirlpool Corporation, a home appliance manufacturer and marketing company, from January 2009 to March 2012. Previously, Mr. Darrell had been Senior Vice President, Operations of Whirlpool EMEA from May 2008 to January 2009. From 2002 to May 2008, Mr. Darrell was with P&G (The Procter & Gamble Company), a consumer brand company, most recently as the President of its Braun GmbH subsidiary. Prior to rejoining P&G in 2002, Mr. Darrell served in various executive and managerial positions with General Electric Company from 1997 to 2002, with P&G from 1991 to 1997, and with PepsiCo Inc. from 1987 to 1989. Mr. Darrell currently serves on the Board of Trustees of Hendrix College. Mr. Darrell holds a BA degree from Hendrix College and an MBA from Harvard University.

Vincent Pilette joined Logitech in September 2013 as Chief Financial Officer. Prior to joining Logitech, Mr. Pilette served as Chief Financial Officer of Electronics for Imaging, Inc., a digital printing innovation and solutions company, from January 2011 through August 2013. From January 2009 through December 2010, he served as Vice President of Finance for the Enterprise Server, Storage and Networking Group at Hewlett-Packard Company ("HP"). Prior to this role, Mr. Pilette served as Vice President of Finance for the HP Software Group from December 2005 through December 2008. Mr. Pilette held various other finance positions at HP, in the U.S and Europe, Middle East and Africa, since joining HP in 1997. Mr. Pilette holds an MS in Engineering and Business from Université Catholique de Louvain in Belgium and an MBA from Kellogg School of Management at Northwestern University.

Marcel Stolk joined Logitech in March 2011 as Vice President, Sales and Marketing EMEA and Executive Managing Director EMEA, and was appointed Senior Vice President, Consumer Computing Platforms Business Group in January 2013. Previously, Mr. Stolk was the Senior Vice President, Worldwide Sales and Marketing at Logitech, from March 2001 to October 2005, and held a number of positions within the sales and marketing functions at Logitech from 1991 to 2001. Prior to rejoining Logitech in 2011, he was the Chief Executive Officer of SourceTag BV, a software company for unique tagging of cloud based data, from September 2010 to March 2011. Mr. Stolk has also been the founder and Chief Executive Officer of Adoria Investments BV, a private equity company, from October 2005 to July 2010, and he remains the sole owner. Before joining Logitech in 1991, Mr. Stolk held various sales and

Table of Contents

marketing positions at Aashima Technology BV, a provider of PC components and accessories, in the Netherlands. Mr. Stolk studied at Utrecht University in the Netherlands and has participated in university-level executive courses, including an executive training course at Stanford University.

L. Joseph Sullivan joined Logitech in October 2005 as Vice President, Operations Strategy, and was appointed Senior Vice President, Worldwide Operations in April 2006. Prior to joining Logitech, Mr. Sullivan was Vice President of Operational Excellence and Quality for Carrier Corporation, a subsidiary of United Technologies, from 2001 to 2005. Previously, he was with ACCO Brands, Inc. in engineering and manufacturing management roles from 1998 to 2001. Mr. Sullivan holds a BS degree in Marketing Management and an MBA degree in Operations Management from Suffolk University in Massachusetts.

Available Information

Our Investor Relations Web site is located at <http://ir.logitech.com>. We post and maintain an archive of our earnings and other press releases, current reports, annual and quarterly reports, earnings release schedule, information regarding annual general meetings, further information on corporate governance, and other information regarding the Company on the Investor Relations Web site. The information we post includes filings we make with the U.S. Securities and Exchange Commission (SEC), including reports on Forms 10-K, 10-Q, 8-K, our proxy statement related to our annual shareholders' meeting and any amendments to those reports or statements filed or furnished pursuant to U.S. securities laws or Swiss laws. All such filings and information are available free of charge on the Web site, and we make them available on the Web site as soon as reasonably possible after we file or furnish them with the SEC. The contents of these Web sites are not intended to be incorporated by reference into this report or in any other report or document we file and our references to these Web sites are intended to be inactive textual references only.

In addition, Logitech publishes press releases upon occurrence of significant events within Logitech. Shareholders and members of the public may elect to receive e-mails when Logitech issues press releases upon occurrence of significant events within Logitech or other press releases by subscribing through <http://ir.logitech.com/alerts.cfm>.

As a Swiss company traded on the SIX Swiss Exchange, and as a company subject to the provisions of Section 16 of the Securities Exchange Act of 1934, as amended, we file reports on transactions in Logitech securities by members of Logitech's Board of Directors and executive officers. The reports that we file with the Securities and Exchange Commission on Forms 3, 4 and 5, along with our other SEC filings, may be accessed on our Web site or on the Securities and Exchange Commission's Web site at <http://www.sec.gov>, and the reports we file that are published by the SIX Swiss Exchange may be accessed at: http://www.six-exchange-regulation.com/obligations/management_transactions_en.html

ITEM 1A. RISK FACTORS

Our operating results are difficult to predict and fluctuations in results may cause volatility in the price of our shares.

Our revenues and profitability are difficult to predict due to the nature of the markets in which we compete, fluctuating user demand, the uncertainty of current and future global economic conditions, and for many other reasons, including the following:

Our operating results are highly dependent on the volume and timing of orders received during the quarter, which are difficult to forecast. Customers generally order on an as-needed basis and we typically do not obtain firm, long-term purchase commitments from our customers. As a result, our revenues in any quarter depend primarily on orders booked and shipped in that quarter.

Table of Contents

A significant portion of our quarterly retail sales typically occurs in the last weeks of each quarter, further increasing the difficulty in predicting quarterly revenues and profitability.

Our sales are impacted by consumer demand and current and future global economic conditions, and can therefore fluctuate abruptly and significantly during periods of uncertain economic conditions or geographic distress, as well as from shifts in distributor inventory practices and consumer buying patterns.

We must incur a large portion of our costs in advance of sales orders, because we must plan research and production, order components, buy tooling equipment, and enter into development, sales and marketing, and other operating commitments prior to obtaining firm commitments from our customers. This makes it difficult for us to rapidly adjust our costs during the quarter in response to a revenue shortfall, which could adversely affect our operating results.

Since the beginning of fiscal year 2013, we have attempted to simplify our organization, to reduce operating costs through expense reduction and global workforce reductions, to reduce the complexity of our product portfolio, and to better align costs with our current business as we attempt to expand from PC accessories to growth opportunities in accessories for mobile devices and digital music. We may not achieve the cost savings or other anticipated benefits from these efforts, and such efforts may cause our operating results to fluctuate from quarter to quarter, making our results difficult to predict.

Fluctuations in currency exchange rates can impact our revenues, expenses and profitability because we report our financial statements in U.S. Dollars, whereas a significant portion of our revenues and expenses are in other currencies. We attempt to adjust product prices over time to offset the impact of currency movements. However, over short periods of time and during periods of weakness in consumer spending, our ability to change local currency prices to offset the impact of currency fluctuations is limited.

Because our operating results are difficult to predict, our results may be below the expectations of financial analysts and investors, which could cause the price of our shares to decline.

If we fail to innovate and develop new products in a timely and cost-effective manner for our new and existing product categories, our business and operating results could be adversely affected.

The peripherals industry is characterized by short product life cycles, frequent new product introductions, rapidly changing technology, dynamic consumer demand and evolving industry standards. As a result, we must continually innovate in our new and existing product categories, introduce new products and technologies, and enhance existing products in order to remain competitive.

The success of our product portfolio depends on several factors, including our ability to:

Identify new features, functionality and opportunities;

Anticipate technology, market trends and consumer preferences;

Develop innovative, high-quality, and reliable new products and enhancements in a cost-effective and timely manner;

Distinguish our products from those of our competitors; and

Offer our products at prices and on terms that are attractive to our customers and consumers.

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

If we do not execute on these factors successfully, products that we introduce or technologies or standards that we adopt may not gain widespread commercial acceptance, and our business and operating results could suffer. In addition, if we do not continue to differentiate our products through distinctive, technologically advanced features, designs, and services that are appealing to our customers and

Table of Contents

consumers, as well as continue to build and strengthen our brand recognition and our access to distribution channels, our business could be adversely affected.

The development of new products and services is very difficult and requires high levels of innovation. The development process is also lengthy and costly. There are significant initial expenditures for research and development, tooling, manufacturing processes, inventory and marketing, and we may not be able to recover those investments. If we fail to accurately anticipate technological trends or our users' needs or preferences, are unable to complete the development of products and services in a cost-effective and timely fashion or are unable to appropriately increase production to fulfill customer demand, we will be unable to successfully introduce new products and services into the market or compete with other providers. Even if we complete the development of our new products and services in a cost-effective and timely manner, they may be not competitive with products developed by others, they may not achieve acceptance in the market at anticipated levels or at all, they may not be profitable or, even if they are profitable, they may not achieve margins as high as our expectations or as high as the margins we have achieved historically.

As we introduce new or enhanced products, integrate new technology into new or existing products, or reduce the overall number of products offered, we face risks including, among other things, disruption in customers' ordering patterns, excessive levels of new and existing product inventories, revenue deterioration in our existing product lines, insufficient supplies of new products to meet customers' demand, possible product and technology defects, and a potentially different sales and support environment. Premature announcements or leaks of new products, features or technologies may exacerbate some of these risks by reducing the effectiveness of our product launches, reducing sales volumes of current products due to anticipated future products, making it more difficult to compete, shortening the period of differentiation based on our product innovation, straining relationships with our partners or increasing market expectations for the results of our new products before we have had an opportunity to demonstrate the market viability of the products. Our failure to manage the transition to new products or the integration of new technology into new or existing products could adversely affect our business, results of operations, operating cash flows and financial condition.

We believe sales of our PC peripherals will continue to decline, and that our future growth will depend on our product growth categories, and if we do not successfully execute on our growth opportunities, if our growth opportunities are more limited than we expect or if our sales of PC peripherals are less than we expect, our operating results could be adversely affected.

We have historically targeted peripherals for the PC platform. Consumer demand for PCs, especially in our traditional, mature markets such as North America, Western and Nordic Europe, Japan and Australia, has been declining and we expect it to continue to decline in the future. As a result, consumer demand for PC peripherals in many of our markets is slowing and in some cases declining. We expect this trend to continue. For example, we experienced weak consumer demand for many of our PC peripherals in each quarter of fiscal years 2013 and 2014, which adversely affected our financial performance.

From time to time, our channel partners have also reduced their inventory levels for PC peripherals as the PC market has continued to decline. In our OEM channel, the decline of desktop PCs has adversely impacted our sales of OEM mice, which have historically made up the bulk of our OEM sales. Our OEM sales accounted for 6%, 7% and 8% of total revenues in the fiscal years 2014, 2013 and 2012, respectively.

In addition, our sales of PC peripherals might be less than we expect due to a decline in business or economic conditions in one or more of the countries or regions, a greater decline than we expect in demand for our products, our inability to successfully execute our sales and marketing plans, or for other reasons. Global economic concerns, such as the varying pace of global economic recovery, the impact of sovereign debt issues in Europe and conflicts with either local or global financial implications in places such as the Ukraine, create unpredictability and add risk to our future outlook.

Table of Contents

As a result, we are focusing more of our personnel, financial resources, and management attention on product innovations and growth opportunities, on products for PC Gaming, on products for tablets and mobile devices, on products for the consumption of digital music, and on other potential growth opportunities. Our investments may not result in the growth we expect, or when we expect it, for a variety of reasons including those described below.

PC Gaming. We are building a diverse business that features a variety of gaming peripherals. The rapidly evolving and changing market and increasing competition increase the risk that we will not get the correct investment profile in place and our business and results of operations could be adversely affected.

Tablets & Other Mobile Devices. The increasing popularity of smaller, mobile computing devices such as tablets with touch interfaces is rapidly changing the consumer computing market. In our retail channels, tablets and other mobile devices are sold by retailers without peripherals. We believe this creates opportunities to sell products to consumers to help make their devices more productive and comfortable. However, consumer acceptance and demand for peripherals for use within significant portions of the markets for tablets and other mobile devices is still uncertain. Also, while this product category has been a growth opportunity for us during fiscal years 2013 and 2014, we are facing increasing competition and the potential for growth in tablets and other mobile devices to slow or reverse as the market saturates and new technologies and products are introduced. Until recently, our tablet peripherals have been focused on iPad devices, and that segment of the market has declined in recent quarters. While we have introduced tablet peripherals for certain Android tablets, that segment is more fragmented and may similarly not continue its growth trend. We also may not be as successful in competing in that segment to generate sales, margin or growth. Moreover, the increasing popularity of tablets and other mobile devices have decreased consumer demand for our PC peripherals, which has adversely affected our sales of these products. If we do not successfully innovate and market products designed for tablets and other mobile devices, if our distributor or retailer customers do not choose to carry or market such peripherals, or if general consumer demand for peripherals for use with these devices does not increase, our business and results of operations could be adversely affected.

Mobile Speakers. We are focused on products for the consumption of digital music as a future sales growth area. This remains a new market for us, and we still face a steep learning curve. Competition in the mobile speaker category is intense, and we expect it to increase. If we are not able to introduce differentiated product and marketing strategies to separate ourselves from competitors, our mobile speaker efforts will not be successful, and our business and results of operations could be adversely affected.

Each of these growth categories is subject to rapidly changing and evolving technologies and may be replaced by new technology concepts or platforms. If we do not develop innovative and reliable peripherals and enhancements in a cost-effective and timely manner that are attractive to consumers in these markets, if we are otherwise unsuccessful entering and competing in these growth categories, if the growth categories in which we invest our limited resources do not emerge as the opportunities or do not produce the growth or profitability we expect, or when we expect it, or if we do not correctly anticipate changes and evolutions in technology and platforms, our business and results of operations could be adversely affected.

If we do not compete effectively, demand for our products could decline and our business and operating results could be adversely affected.

The peripherals and video conferencing industries are intensely competitive.

The peripherals industry is characterized by short product life cycles, continual performance enhancements, and rapid adoption of technological and product advancements by competitors in our retail markets, and price sensitivity in the OEM market. We experience aggressive price competition and other promotional activities from our primary competitors and from less-established brands, including brands

Table of Contents

owned by retail customers known as house brands, in both the retail and OEM markets. In addition, our competitors may offer customers terms and conditions that may be more favorable than our terms and conditions and may require us to take actions to increase our customer incentive programs, which could impact our revenues and operating margins.

The video conferencing industry is characterized by continual performance enhancements and large, well-financed competitors. There is increased participation in the video conferencing market by new entrants delivering cloud-based video conferencing services joining established companies such as Cisco Systems, Polycom and Avaya, and as a result, competition has increased over the last few years and we expect competition in the industry to further intensify. In addition, there are an increasing number of PC-based multi-person video conferencing applications, such as Microsoft's Lync and Skype, which could compete at the lower end of the video conferencing market with our Lifesize products and services or could provide other competitors with lower barriers of entry into the video conferencing market.

In recent years, we have expanded the categories of products we sell, and entered new markets. We remain alert to opportunities in new categories and markets. As we do so, we are confronting new competitors, many of which have more experience in the categories or markets and have greater marketing resources and brand name recognition than we have. In addition, because of the continuing convergence of the markets for computing devices and consumer electronics, we expect greater competition in the future from well-established consumer electronics companies in our developing categories as well as in future categories we might enter. Many of these companies, such as Microsoft, Apple, Cisco, Sony Corporation, Polycom and others, have greater financial, technical, sales, marketing and other resources than we have.

Microsoft, Apple and Google are leading producers of operating systems, hardware and applications with which our mice, keyboards and other peripherals are designed to operate. In addition, Microsoft, Apple and Google each has significantly greater financial, technical, sales, marketing and other resources than Logitech, as well as greater name recognition and a larger customer base. As a result, Microsoft, Apple and Google each may be able to improve the functionality of its own peripherals, if any, or may choose to show preference to our other competitors in improving the functionality of their peripherals, to correspond with ongoing enhancements to its operating systems, hardware and software applications before we are able to make such improvements. This ability could provide Microsoft, Apple, Google or other competitors with significant lead-time advantages. In addition, Microsoft, Apple, Google or other competitors may be able to offer pricing advantages on bundled hardware and software products that we may not be able to offer, and may be financially positioned to exert significant downward pressure on product prices and upward pressure on promotional incentives in order to gain market share.

Growth Categories

PC Gaming. Competitors for our PC Gaming peripheral products include Razer USA Ltd., SteelSeries, A4TECH, Turtle Beach and Mad Catz Interactive.

Tablet & Other Accessories. We primarily manufacture tablet keyboards and other accessories for Apple products, such as iPad and iPhone, and Android products. Competitors in the tablet keyboard market are Zagg, Kensington, Belkin, Targus and other less-established brands. Although we are the one of the market leaders in the tablet keyboard market, and as we continue to expand our product portfolio to other tablet and mobile device products, we expect the competition will increase. Microsoft already has introduced tablets that come with keyboards. Other large tablet and mobile device manufacturers, such as Apple and Samsung, could start to offer tablet keyboards and other accessories along with their tablet and other mobile device products. If such manufacturers of tablets and other mobile devices compete with us in the Tablet and Other Accessories category without substantially growing the peripherals market, it could adversely affect our ability to succeed in this important growth category.

Mobile Speakers. Our competitors for Bluetooth wireless speakers include Bose, JBL, Jawbone, and Beats Electronics, each of which have higher consumer recognition and retailer shelf space than we do.

Table of Contents

Apple's recent acquisition of Beats Electronics may now impact the Company's access to shelf space in Apple retail stores and adversely impact the Company's ability to succeed in this important growth category.

Profit Maximization Categories

Pointing Devices and PC Keyboards & Desktops. Microsoft Corporation is our main competitor in our mice, keyboard and desktop product lines. We also experience competition and pricing pressure for corded and cordless mice and desktops from less-established brands, including house brands, which we believe have impacted our market share in some sales geographies and which could potentially impact our market share.

Audio PC & Wearables. In the PC speaker business, our competitors include Bose, Cyber Acoustics, Altec Lansing LLC and Creative Labs, Inc. In the PC headset business, our main competitors include Plantronics and Altec Lansing. In earphones competitors include Skull Candy, Sennheiser, Sony, and others.

Video. Our primary competitor for PC webcams is Microsoft, with various other manufacturers taking smaller market share. The worldwide market for consumer PC webcams has been declining, and as a result, fewer competitors have entered the market.

Remotes. Our primary competitors for remotes include Philips, Universal Remote Control, Inc., General Electric, RCA and Sony. We expect that the technological innovation in smartphone and tablet devices, as well as subscriber service specific remotes such as Direct TV, will likely result in increased competition.

Video Conferencing

In video conferencing, we primarily compete with Cisco Systems, Polycom and Avaya as well as new cloud-based entrants such as Bluejeans Networks and Zoom.us. In addition, PC-based multi-person video conferencing applications, such as Microsoft's Lync and Skype, which could compete at the lower-end of the video conferencing market with our Lifesize products and services, or could provide other competitors with lower barriers of entry into the video conferencing market.

Our business depends in part on access to third-party platforms or technologies, and if the access is withdrawn, denied, or is not available on terms acceptable to us, or if the platforms or technologies change without notice to us, our business and operating results could be adversely affected.

Our peripherals business has historically been built largely around the PC platform, which over time became relatively open, and its inputs and operating system standardized. With the growth of mobile, tablet, gaming and other computer devices, the number of platforms has grown, and with it the complexity and increased need for us to have business and contractual relationships with the platform owners in order to produce products compatible with these platforms. Our product portfolio includes current and future products designed for use with third-party platforms or software, such as the Apple iPad, iPod and iPhone and Android phones and tablets. Our business in these categories relies on our access to the platforms of third parties, some of whom are our competitors. Platform owners that are competitors have a competitive advantage in designing products for their platforms and may produce peripherals or other products that work better, or are perceived to work better, than our products in connection with those platforms. As we expand the number of platforms and software applications with which our products are compatible, we may not be successful in launching products for those platforms or software applications, we may not be successful in establishing strong relationships with the new platform or software owners, or we may negatively impact our ability to develop and produce high-quality products on a timely basis for those platforms and software applications or we may otherwise adversely affect our relationships with existing platform or software owners.

Table of Contents

Our access to third-party platforms may require paying a royalty, which lowers our product margins, or may otherwise be on terms that are not acceptable to us. In addition, the third-party platforms or technologies used to interact with our product portfolio can be delayed in production or can change without prior notice to us, which can result in our having excess inventory or lower margins.

If we are unable to access third-party platforms or technologies, or if our access is withdrawn, denied, or is not available on terms acceptable to us, or if the platforms or technologies are delayed or change without notice to us, our business and operating results could be adversely affected.

If we do not accurately forecast market demand for our products, our business and operating results could be adversely affected.

We use our forecasts of product demand to make decisions regarding investments of our resources and production levels of our products. Although we receive forecasts from our customers, many are not obligated to purchase the forecasted demand. Also, actual sales volumes for individual products in our retail distribution channel can be volatile due to changes in consumer preferences and other reasons. In addition, our retail products have short product life cycles, so a failure to accurately predict high demand for a product can result in lost sales that we may not recover in subsequent periods, or higher product costs if we meet demand by paying higher costs for materials, production and delivery. We could also frustrate our customers and lose shelf space. Our failure to predict low demand for a product can result in excess inventory, lower cash flows and lower margins if we are required to reduce product prices in order to reduce inventories.

Over the past few years, we have expanded the types of products we sell, and the geographic markets in which we sell them. The changes in our product portfolio and the expansion of our sales markets have increased the difficulty of accurately forecasting product demand.

We have experienced large differences between our forecasts and actual demand for our products. We expect other differences between forecasts and actual demand to arise in the future. If we do not accurately predict product demand, our business and operating results could be adversely affected.

Our success largely depends on our ability to hire, retain, integrate and motivate sufficient numbers of qualified personnel, including senior management. Our strategy and our ability to innovate, design and produce new products, sell products, maintain operating margins and control expenses depend on key personnel that may be difficult to replace.

Our success depends on our ability to attract and retain highly skilled personnel, including senior management and international personnel. From time to time, we experience turnover in some of our senior management positions.

We compensate our employees through a combination of salary, bonuses, benefits and equity compensation. Recruiting and retaining skilled personnel, including software and hardware engineers, is highly competitive. If we fail to provide competitive compensation to our employees, it will be difficult to retain, hire and integrate qualified employees and contractors, and we may not be able to maintain and expand our business. If we do not retain our senior managers or other key employees for any reason, we risk losing institutional knowledge, experience, expertise and other benefits of continuity as well as the ability to attract and retain other key employees. In addition, we must carefully balance the size of our employee base with our current infrastructure, management resources and anticipated operating cash flows. If we are unable to manage the size of our employee base, particularly engineers, we may fail to develop and introduce new products successfully and in a cost-effective and timely manner. If our revenue growth or employee levels vary significantly, our operating cash flows and financial condition could be adversely affected. Volatility or lack of positive performance in our stock price, including declines in our stock prices in the past year, may also affect our ability to retain key employees, many of whom have been granted equity incentives. Logitech's practice has been to provide equity incentives to its employees, but

Table of Contents

the number of shares available for equity grants is limited. We may find it difficult to provide competitive equity incentives, and our ability to hire, retain and motivate key personnel may suffer.

Recently and in past years, we have initiated reductions in our workforce to align our employee base with our anticipated revenue base or with our areas of focus. We have also experienced turnover in our workforce. These reductions and turnover have resulted in reallocations of duties, which could result in employee uncertainty and discontent. Reductions in our workforce could make it difficult to attract, motivate and retain employees, which could adversely affect our business.

Our gross margins can vary significantly depending on multiple factors, which can result in unanticipated fluctuations in our operating results.

Our gross margins can vary due to consumer demand, competition, product life cycle, new product introductions, unit volumes, commodity and supply chain costs, geographic sales mix, foreign currency exchange rates, and the complexity and functionality of new product innovations. In particular, if we are not able to introduce new products in a timely manner at the product cost we expect, or if consumer demand for our products is less than we anticipate, or if there are product pricing, marketing and other initiatives by our competitors to which we need to react or that are initiated by us to drive sales that lower our margins, then our overall gross margin will be less than we project.

In addition, our gross margins may vary significantly by product line, sales geography and customer type, as well as within product lines. When the mix of products sold shifts from higher margin product lines to lower margin product lines, to lower margin sales geographies, or to lower margin products within product lines, our overall gross margins and our profitability may be adversely affected.

As we expand into accessories for tablets and other mobile devices, and digital music, our products in those categories may have lower gross margins than in our traditional product categories. Consumer demand in these product categories, based on style, color and other factors, tends to be less predictable and tends to vary more across geographic markets. As a result, we may face higher up-front investments and inventory costs associated with attempting to anticipate consumer preferences. If we are unable to offset these potentially lower margins by enhancing the margins in our more traditional product categories, our profitability may be adversely affected.

The impact of these factors on gross margins can create unanticipated fluctuations in our operating results, which may cause volatility in the price of our shares.

As we continue our efforts to lower our costs and improve our operating leverage as part of our turnaround, we may or may not fully realize our goals.

Our turnaround strategy over the past couple years has been based in part on simplifying the organization, reducing operating costs through global workforce reductions and a reduction in the complexity of our product portfolio, with the goal of better aligning costs with our current business and with our decreasing revenues. We restructured our business in fiscal years 2013 and 2014, and we may continue to restructure in fiscal year 2015 as we divest or discontinue non-strategic product categories. In addition, we are continuing the rationalization of our infrastructure and marketing activities and our efforts to reduce operating expenses as well as expenses within our infrastructure and indirect procurement.

Our ability to achieve the desired and anticipated cost savings and other benefits from these simplification, cost-cutting and restructuring activities, and within our desired and expected timeframes, are subject to many estimates and assumptions, and the actual savings and timing for those savings may vary materially based on factors such as local labor regulations, negotiations with third parties, and operational requirements. These estimates and assumptions are also subject to significant economic, competitive and other uncertainties, some of which are beyond our control. There can be no assurance that

Table of Contents

we will fully realize the desired and anticipated benefits from these activities. To the extent that we are unable to improve our financial performance, further restructuring measures may be required in the future. Furthermore, we are expecting to be able to use the anticipated cost savings from these activities to fund and support our current growth opportunities and incremental investments for future growth. If the cost-savings do not materialize as anticipated, or within our expected timeframes, our ability to invest in growth may be limited and our business and operating results may be adversely affected.

As part of the restructuring plans, we conducted intensive reviews of our product portfolio in fiscal years 2013 and 2014 and attempted to reduce the assortment of similar products at similar price points within each product category, which we believe has generated confusion for the consumer. While we are constantly replacing products and are dependent on the success of our new products, this product line simplification effort was substantial, making us even more dependent on the success of the new products that we are introducing.

As we focus on growth opportunities, we are divesting or discontinuing non-strategic product categories and pursuing strategic acquisitions and investments, which could have an adverse impact on our business if they are unsuccessful.

During the third quarter of fiscal year 2013, the declining trends in our PC peripherals accelerated, and we made a strategic decision to divest or discontinue certain non-strategic product categories and products. We continually refined this strategy and updated our non-strategic product categories and products. If we are unable to effect sales on favorable terms or if realignment is more costly or distracting than we expect or has a negative effect on our organization, employees and retention, then our business and operating results may be adversely affected. In addition, discontinuing products with service components may cause us to continue to incur expenses to maintain services within the product life cycle or to adversely affect our customer and consumer relationships and brand. In addition, discontinuing product categories, even categories that we consider non-strategic, reduces the size and diversification of our business and causes us to be more dependent on a smaller number of product categories.

As we attempt to grow our business in strategic product categories and emerging market geographies, we will consider growth through acquisition or investment. We will evaluate acquisition opportunities that could provide us with additional product or service offerings or with additional industry expertise, assets and capabilities. Acquisitions could result in difficulties integrating acquired operations, products, technology, internal controls, personnel and management teams and result in the diversion of capital and management's attention away from other business issues and opportunities. If we fail to successfully integrate acquisitions, our business could be harmed. Moreover, our acquisitions may not be successful in achieving our desired strategic objectives, which would also cause our business to suffer. Acquisitions can also lead to large non-cash charges that can have an adverse effect on our results of operations as a result of write-offs for items such as future impairments of intangible assets and goodwill or the recording of stock-based compensation. Several of our past acquisitions have not been successful and have led to impairment charges, including a \$214.5 million non-cash goodwill impairment charge in fiscal year 2013 related to our video conferencing reporting unit. In addition, from time to time we make strategic venture investments in other companies that provide products and services that are complementary to ours. If these investments are unsuccessful, this could have an adverse impact on our results of operations, operating cash flows and financial condition.

We rely on third parties to sell and distribute our products, and we rely on their information to manage our business. Disruption of our relationship with these channel partners, changes in their business practices, their failure to provide timely and accurate information or conflicts among our channels of distribution could adversely affect our business, results of operations, operating cash flows and financial condition.

Our sales channel partners, the distributors and retailers who distribute and sell our products, also sell products offered by our competitors and, in the case of retailer house brands, may also be our competitors.

Table of Contents

If product competitors offer our sales channel partners more favorable terms, have more products available to meet their needs, or utilize the leverage of broader product lines sold through the channel, or if our retailer channel partners show preference for their own house brands, our sales channel partners may de-emphasize or decline to carry our products. In addition, certain of our sales channel partners could decide to de-emphasize the product categories that we offer in exchange for other product categories that they believe provide them with higher returns. If we are unable to maintain successful relationships with these sales channel partners or to maintain our distribution channels, our business will suffer.

As we expand into accessories for tablets and other mobile devices and digital music, we will have to build relationships with new channel partners and adapt to new distribution and marketing models. Entrenched and more experienced competitors will make these transitions difficult. If we are unable to build successful distribution channels or successfully market our products in these new product categories, we may not be able to take advantage of the growth opportunities, and our business and our ability to effect a turnaround in our declining revenues could be adversely affected.

The impact of economic conditions, evolving consumer preferences, and purchasing patterns on our distribution partners, or competition between our sales channels, could result in sales channel disruption. For example, if sales at large retail stores are displaced as a result of bankruptcy, competition from Internet sales channels or otherwise, our product sales could be adversely affected. Any loss of a major partner or distribution channel or other channel disruption could make us more dependent on alternate channels, increase pricing and promotional pressures from other partners and distribution channels, increase our marketing costs, or adversely impact buying and inventory patterns, payment terms or other contractual terms.

We use retail sell-through data, which represents sales of our products by our retailer customers to consumers, and by our distributor customers to their customers, along with other metrics, to assess consumer demand for our products. Sell-through data is subject to limitations due to collection methods and the third-party nature of the data and thus may not be an accurate indicator of actual consumer demand for our products. In addition, the customers supplying sell-through data vary by geographic region and from period to period, but typically represent a majority of our retail sales. If we do not receive this information on a timely and accurate basis, or if we do not properly interpret this information, our results of operations and financial condition may be adversely affected.

Our principal manufacturing operations and third-party contract manufacturers are located in China and Southeast Asia, which exposes us to risks associated with doing business in that geographic area.

We produce approximately half of our products at facilities we own in China. The majority of our other production is performed by third-party contract manufacturers, including other design manufacturers, in China.

Our manufacturing operations in China could be adversely affected by changes in the interpretation and enforcement of legal standards, by strains on China's available labor pool, changes in labor costs and other employment dynamics, high turnover among Chinese employees, communications, trade, and other infrastructures, by natural disasters, by conflicts or disagreements between China and Taiwan or China and the United States, by labor unrest, and by other trade customs and practices that are dissimilar to those in the United States and Europe. Interpretation and enforcement of China's laws and regulations continue to evolve and we expect differences in interpretation and enforcement to continue in the foreseeable future.

Our manufacturing operations at third-party contractors could be adversely affected by contractual disagreements, by labor unrest, by natural disasters, by strains on local communications, trade, and other infrastructures, by competition for the available labor pool or manufacturing capacity, by increasing labor and other costs, and by other trade customs and practices that are dissimilar to those in the United States and Europe.

Table of Contents

Further, we may be exposed to fluctuations in the value of the local currency in the countries in which manufacturing occurs. Future appreciation of these local currencies could increase our component and other raw material costs. In addition, our labor costs could continue to rise as wage rates increase and the available labor pool declines. These conditions could adversely affect our gross margins and financial results.

We purchase key components and products from a limited number of sources, and our business and operating results could be adversely affected if supply were delayed or constrained or if there were shortages of required components.

We purchase certain products and key components from a limited number of sources. If the supply of these products or key components, such as micro-controllers, optical sensors and Lifesize hardware products, were to be delayed or constrained, or if one or more of our single-source suppliers goes out of business as a result of adverse global economic conditions or natural disasters, we might be unable to find a new supplier on acceptable terms, or at all, and our product shipments to our customers could be delayed, which could adversely affect our business, financial condition and operating results.

Lead times for materials, components and products ordered by us or by our contract manufacturers can vary significantly and depend on factors such as contract terms, demand for a component, and supplier capacity. From time to time, we have experienced component shortages and extended lead times on semiconductors, such as micro-controllers and optical sensors, and base metals used in our products. Shortages or interruptions in the supply of components or subcontracted products, or our inability to procure these components or products from alternate sources at acceptable prices in a timely manner, could delay shipment of our products or increase our production costs, which could adversely affect our business and operating results.

New conflict minerals regulations are causing us to incur additional expenses and could limit the supply and increase the cost of certain metals used in manufacturing our products.

As part of the Dodd-Frank Wall Street Reform and Consumer Protection Act, the SEC adopted disclosure requirements regarding the use of certain minerals, known as conflict minerals, which are mined from the Democratic Republic of Congo and adjoining countries, as well as procedures regarding a manufacturer's efforts to identify and prevent the sourcing of such minerals and metals produced from those minerals. Additional reporting obligations are being considered by the European Union. The implementation of the existing U.S. requirements and any additional requirements in Europe could affect sourcing at competitive prices and availability in sufficient quantities of certain minerals used in the manufacture of our products. The number of suppliers who provide conflict-free minerals may be limited, and the implementation of these requirements may decrease the number of suppliers capable of supplying our needs for certain metals. In addition, there may be material costs associated with complying with the disclosure requirements, such as costs related to the due diligence process of determining the source of certain minerals used in our products, as well as costs of possible changes to products, processes, or sources of supply as a consequence of such verification activities. As our supply chain is complex and we use contract manufacturers for some of our products, we may not be able to sufficiently verify the origins of the relevant minerals used in our products through the due diligence procedures that we implement, which may adversely affect our reputation. We may also encounter challenges to satisfy those customers who require that all of the components of our products be certified as conflict-free, which could, if we are unable to satisfy their requirements or pass through any increased costs associated with meeting their requirements place us at a competitive disadvantage, adversely affect our business and operating results, or both. We filed our report for the calendar year 2013 with the SEC on May 30, 2014.

Table of Contents

If we do not successfully coordinate the worldwide manufacturing and distribution of our products, we could lose sales.

Our business requires us to coordinate the manufacture and distribution of our products over much of the world. We rely on third parties to manufacture many of our products, manage centralized distribution centers, and transport our products. If we do not successfully coordinate the timely manufacturing and distribution of our products, we may have insufficient supply of products to meet customer demand, we could lose sales, we may experience a build-up in inventory, or we may incur additional costs.

A significant portion of our quarterly retail orders and product deliveries generally occur in the last weeks of the fiscal quarter. This places pressure on our supply chain and could adversely affect our revenues and profitability if we are unable to successfully fulfill customer orders in the quarter.

We conduct operations in a number of countries, and have invested significantly in growing our sales and marketing activities in China, and the effect of business, legal and political risks associated with international operations could adversely affect us.

We conduct operations in a number of countries, and have invested significantly in growing our personnel and sales and marketing activities in China and, to a lesser extent, other emerging markets. We may also increase our investments to grow sales in other emerging markets, such as Latin America and Eastern Europe. There are risks inherent in doing business in international markets, including:

Difficulties in staffing and managing international operations;

Compliance with laws and regulations, including environmental, tax and anti-corruption laws, which vary from country to country and over time, increasing the costs of compliance and potential risks of non-compliance;

Varying laws, regulations and other legal protections, uncertain and varying enforcement of those laws and regulations, dependence on local authorities, and the importance of local networks and relationships;

Exposure to political and financial instability, especially with the uncertainty associated with the ongoing sovereign debt crisis in certain Euro zone countries, which may lead to currency exchange losses and collection difficulties or other losses;

Lack of infrastructure or services necessary or appropriate to support our products and services;

Exposure to fluctuations in the value of local currencies;

Difficulties and increased costs in establishing sales and distribution channels in unfamiliar markets, with their own market characteristics and competition, including entrenched local competition;

Weak protection of our intellectual property rights;

Higher credit risks;

Changes in VAT (value-added tax) or VAT reimbursement;

Imposition of currency exchange controls;

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

Import or export restrictions that could affect some of our products, including those with encryption technology;

Delays from customs brokers or government agencies; and

A broad range of customs, consumer trends, and more.

Any of these risks could adversely affect our business, financial condition and operating results.

Table of Contents

Our sales in China have increased substantially in the last three fiscal years, and continued sales growth in China is an important part of our expectations for our business. As a result, if Chinese economic, political or business conditions deteriorate, or if one or more of the risks described above materializes in China, our overall business and results of operations will be adversely affected.

As a Swiss, dual-listed company operating in many markets and jurisdictions and expanding into new growth categories, we are subject to risks associated with new, existing and potential future laws and regulations.

Based on our current business model and as we expand into new markets and product categories, we must comply with a wide variety of laws, standards and other requirements governing, among other things, health and safety, hazardous materials usage, product-related energy consumption, packaging, recycling and environmental matters. Our products may be required to obtain regulatory approvals and satisfy other regulatory concerns in the various jurisdictions where they are manufactured, sold or both. These requirements create procurement and design challenges, which, among other things, require us to incur additional costs identifying suppliers and contract manufacturers who can provide or obtain compliant materials, parts and end products. Failure to comply with such requirements can subject us to liability, additional costs, and reputational harm and, in severe cases, force us to recall products or prevent us from selling our products in certain jurisdictions.

As a Swiss company with shares listed on both the SIX Swiss Exchange and the Nasdaq Global Select Market, we are also subject to both Swiss and United States corporate governance and securities laws and regulations. In addition to the extra costs and regulatory burdens of our dual regulatory obligations, the two regulatory regimes may not always be compatible and may impose disclosure obligations or operating restrictions on our business to which our competitors and other companies are not subject. For example, on January 1, 2014, subject to certain transitional provisions, the Swiss Federal Council Ordinance Against Excessive Compensation at Public Companies (the "Ordinance") became effective in connection with the Minder initiative approved by Swiss voters during 2013. The Ordinance, among other things, (a) requires a binding shareholder "say on pay" vote with respect to the compensation of members of our executive management and Board of Directors, (b) generally prohibits the making of severance, advance, transaction premiums and similar payments to members of our executive management and Board of Directors, (c) imposes other restrictive compensation practices, and (d) requires the amendment of our articles of incorporation to specify various compensation-related matters. In addition, during 2013, Swiss voters considered an initiative to limit pay for a chief executive officer to a multiple of no more than twelve times the salary of the lowest-paid employee. Although voters rejected that initiative, it did receive substantial voter support. The Ordinance, potential future initiatives relating to corporate governance or executive compensation, and Swiss voter sentiment in favor of such regulations may increase our non-operating costs and adversely affect our ability to attract and retain executive management and members of our Board of Directors.

As a result of changes in tax laws, treaties, rulings, regulations or agreements, or their interpretation, of Switzerland or any other country in which we operate, the loss of a major tax dispute or a successful challenge to our operating structure, intercompany pricing policies or the taxable presence of our key subsidiaries in certain countries, or other factors, our effective income tax rates may increase in the future, which could adversely affect our net income and cash flows.

We operate in multiple jurisdictions and our profits are taxed pursuant to the tax laws of these jurisdictions. Our effective income tax rate may be affected by changes in or interpretations of tax laws, treaties, rulings, regulations or agreements in any given jurisdiction, utilization of net operating loss and tax credit carryforwards, changes in geographical allocation of income and expense, and changes in management's assessment of matters such as the realizability of deferred tax assets. In the past, we have experienced fluctuations in our effective income tax rate. Our effective income tax rate in a given fiscal

Table of Contents

year reflects a variety of factors that may not be present in the succeeding fiscal year or years. There is no assurance that our effective income tax rate will not change in future periods.

We are incorporated in the Canton of Vaud in Switzerland and our effective income tax rate benefits from a longstanding ruling from the Canton of Vaud. The tax rules in Switzerland could change in response to certain guidance and demands from both the European Union and the Organisation for Economic Co-operation and Development that could have an adverse effect on our tax ruling and effective income tax rate. Switzerland's implementation of any material change in tax laws or policies or its adoption of new interpretations of existing tax laws and rulings, or changes in our tax ruling from the Canton of Vaud, could result in a higher effective income tax rate on our worldwide earnings and such change could adversely affect our net income.

We file Swiss and foreign tax returns. We are frequently subject to tax audits, examinations and assessments in various jurisdictions. If any tax authority successfully challenges our operational structure, intercompany pricing policies or the taxable presence of our key subsidiaries in certain countries, if the terms of certain income tax treaties are interpreted in a manner that is adverse to our structure, or if we lose a material tax dispute in any country, our effective income tax rate could increase. A material assessment by a governing tax authority could adversely affect our profitability. If our effective income tax rate increases in future periods, our net income and cash flows could be adversely affected.

Claims by others that we infringe their proprietary technology could adversely affect our business.

We have been expanding the categories of products we sell, and entering new markets, such as entering the market for enterprise video conferencing and introducing products for tablets, other mobile devices and digital music. We expect to continue to enter new categories and markets. As we do so, we face an increased risk that claims alleging we infringe the patent or other intellectual property rights of others, regardless of the merit of the claims, may increase in number and significance. Infringement claims against us may also increase as the functionality of video, voice, data and conferencing products begin to overlap. This risk is heightened by the increase in lawsuits brought by holders of patents that do not have an operating business or are attempting to license broad patent portfolios and by the increasing attempts by companies in the technology industries to enjoin their competitors from selling products that they claim infringe their intellectual property rights. Intellectual property lawsuits are subject to inherent uncertainties due to the complexity of the technical issues involved, and we cannot be certain that we will be successful in defending ourselves against intellectual property claims. A successful claimant could secure a judgment that requires us to pay substantial damages or prevents us from distributing certain products or performing certain services. We might also be required to seek a license for the use of such intellectual property, which may not be available on commercially acceptable terms or at all. Alternatively, we may be required to develop non-infringing technology, which could require significant effort and expense and may ultimately not be successful. Any claims or proceedings against us, whether meritorious or not, could be time consuming, result in costly litigation or the diversion of significant operational resources, or require us to enter into royalty or licensing agreements, any of which could materially and adversely affect our business and results of operations.

We may be unable to protect our proprietary rights. Unauthorized use of our technology may result in the development of products that compete with our products.

Our future success depends in part on our proprietary technology, technical know-how and other intellectual property. We rely on a combination of patent, trade secret, copyright, trademark and other intellectual property laws, and confidentiality procedures and contractual provisions such as nondisclosure terms and licenses, to protect our intellectual property.

Table of Contents

We hold various United States patents and pending applications, together with corresponding patents and pending applications from other countries. It is possible that any patent owned by us will be invalidated, deemed unenforceable, circumvented or challenged, that the patent rights granted will not provide competitive advantages to us, or that any of our pending or future patent applications will not be granted. In addition, other intellectual property laws or our confidentiality procedures and contractual provisions may not adequately protect our intellectual property. Also, others may independently develop similar technology, duplicate our products, or design around our patents or other intellectual property rights. Unauthorized parties have copied and may in the future attempt to copy aspects of our products or to obtain and use information that we regard as proprietary. Any of these events could adversely affect our business, financial condition and operating results.

Product quality issues could adversely affect our reputation and could impact our operating results.

The market for our products is characterized by rapidly changing technology and evolving industry standards. To remain competitive, we must continually introduce new products and technologies. The products that we sell could contain defects in design or manufacture. Defects could also occur in the products or components that are supplied to us. There can be no assurance we will be able to detect and remedy all defects in the hardware and software we sell. Failure to do so could result in product recalls, product redesign efforts, lost revenue, loss of reputation, and significant warranty and other expenses to remedy.

We have identified material weaknesses in our internal control over financial reporting over several periods which resulted in material misstatements and which could, if not remediated, result in further material misstatements in our financial statements and adversely affect investor confidence in our financial reports.

As disclosed in Item 9A of this report, we identified material weaknesses in our internal control over financial reporting. Certain of these material weaknesses were identified during the independent investigation by our Audit Committee in fiscal year 2015 and a review of related accounting matters that resulted in late filings of this report and our Quarterly Report on Form 10-Q for the first and second quarter of fiscal year 2015 and a restatement of our financial results for fiscal years 2011 and 2012 and the first quarter of fiscal year 2012. This also follows the identification of material weaknesses in our internal control over financial reporting in our Annual Report on Form 10-K for the fiscal year ended March 31, 2013, as amended on Form 10-K/A which are still unremediated, and the identification of significant deficiencies in our internal control over financial reporting. A material weakness is defined as a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis. As a result of these material weaknesses, our management concluded that our internal control over financial reporting was not effective as of March 31, 2014, based on criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") in Internal Control - An Integrated Framework (1992). We are actively engaged in implementing a remediation plan designed to address these material weaknesses. If our remediation measures are insufficient to address these material weaknesses, or if additional material weaknesses in our internal control over financial reporting are discovered or occur in the future, our consolidated financial statements may contain material misstatements and we could be required to restate our financial results again. In addition to potentially adversely affecting investors' confidence, the restatement of our consolidated financial statements could lead to potential litigation against us, which, whether meritorious or not, could be time consuming, costly or divert significant operational resources, any of which could adversely affect our business and results of our operations.

In addition, in May 2013, COSO issued a new version of its internal control framework, which will be deemed by COSO to supersede the 1992 version of the framework as of December 15, 2014. We are developing our plan for transition to application of the 2013 edition of the framework to our assessment of

Table of Contents

our internal control over financial reporting. During the course of the transition to the new framework and its application to our assessment of our internal control over financial reporting, we may determine that other deficiencies exist in our internal controls, that may rise to the level of material weaknesses. Such an occurrence, or a failure to effectively remedy such a deficiency, could adversely affect investor confidence in the accuracy and timeliness of our financial reports.

The collection, storage, transmission, use and distribution of user data could give rise to liabilities and additional costs of operation as a result of laws and governmental regulation.

In connection with certain of our products, we collect data related to our consumers. This information is increasingly subject to legislation and regulations in numerous jurisdictions around the world, and especially in Europe. Government actions are typically intended to protect the privacy and security of personal information and its collection, storage, transmission, use and distribution in or from the governing jurisdiction. In addition, because various jurisdictions have different laws and regulations concerning the use, storage and transmission of such information, we may face requirements that pose compliance challenges in existing markets as well as new international markets that we seek to enter. Such laws and regulations, and the variation between jurisdictions, could subject us to costs, liabilities or negative publicity that could adversely affect our business.

We are upgrading our worldwide business application suite, and difficulties, distraction or disruptions may interrupt our normal operations and adversely affect our business and operating results.

During fiscal years 2014 and 2015, we have been devoting and plan to continue to devote significant resources to the upgrade of our worldwide business application suite to Oracle's version R12. Oracle has already begun to discontinue its support for our current business application suite, version 11i. As a result of that discontinued support or our upgrade or both, we may experience difficulties with our systems, management distraction, and significant business disruptions. Difficulties with our systems may interrupt our normal operations, including our enterprise resource planning, forecasting, demand planning, supply planning, intercompany processes, promotion management, internal financial controls, pricing, and our ability to provide quotes, process orders, ship products, provide services and support to our customers and consumers, bill and track our customers, fulfill contractual obligations, and otherwise run and track our business. In addition, we may need to expend significant attention, time and resources to correct problems or find alternative sources for performing these functions. Any such difficulty or disruption may adversely affect our business and operating results.

Goodwill impairment charges could have an adverse effect on the results of our operations.

Goodwill associated with a number of previous acquisitions could result in impairment charges. The slowdown in the overall video conferencing industry together with the competitive environment in fiscal year 2013 resulted in a \$214.5 million non-cash goodwill impairment charge in fiscal year 2013, which substantially impacted our operating results. As we attempt to effect a turnaround of our business, including developing the profitability of our Lifesize video conferencing segment and divesting or discontinuing product categories or products that we previously acquired, we will need to continue to evaluate the carrying value of our goodwill. Additional impairment charges could adversely affect our results of operations.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

Table of Contents**ITEM 2. PROPERTIES**

The table below represents our principal locations, their approximate square footage and their purposes as of March 31, 2014:

Location	Purpose	Approximate Square Footage	Ownership
Americas:			
Newark, California	Silicon valley campus, research and development, product marketing, sales management, technical support and administration	187,600	Leased
Austin, Texas	LifeSize operating segment	99,000	Leased

(1)

Contracted through a third-party warehouse management company.

Logitech also contracts with various distribution services throughout the world for additional warehouses in which we store inventory. We also have leased sales offices in approximately 65 locations and 43 countries, with various expiration dates from 2014 to 2030.

Table of Contents

We believe that Logitech's manufacturing and distribution facilities are adequate for our ongoing needs and we continue to evaluate the need for facilities to meet current and anticipated future requirements.

ITEM 3. LEGAL PROCEEDINGS

From time-to-time we are involved in claims and legal proceedings that arise in the ordinary course of our business. We are currently subject to several such claims and a small number of legal proceedings. We believe that these matters lack merit and we intend to vigorously defend against them. Based on currently available information, we do not believe that resolution of pending matters will have a material adverse effect on our financial condition, cash flows or results of operations. However, litigation is subject to inherent uncertainties, and there can be no assurances that our defenses will be successful or that any such lawsuit or claim would not have a material adverse impact on our business, financial condition, cash flows and results of operations in a particular period. Any claims or proceedings against us, whether meritorious or not, can have an adverse impact because of defense costs, diversion of management and operational resources, negative publicity and other factors. Any failure to obtain necessary license or other rights, or litigation arising out of intellectual property claims, could adversely affect our business.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Logitech's shares are listed and traded on both the SIX Swiss Exchange, where the share price is denominated in Swiss francs, and on the Nasdaq Global Select Market, where the share price is denominated in U.S. dollars. The trading symbol for Logitech shares is LOGN on the SIX Swiss Exchange and LOGI on Nasdaq. As of October 31, 2014, there were 173,106,620 shares issued (including 9,847,341 shares held as treasury stock) held by 14,694 holders of record, and the closing price of our shares was CHF 13.60 (\$14.22 based on exchange rates on such date) per share on the SIX Swiss Exchange and \$14.21 per share as reported by the Nasdaq Stock Market.

SIX Swiss Exchange

The following table sets forth certain historical share price information for the Company's shares traded on the SIX Swiss Exchange, as reported by the SIX Swiss Exchange. The U.S. dollar equivalent is based on the noon buying rate on the trading day of the month in which the high or low closing sales price

Table of Contents

occurred. The noon buying rate is the rate in New York City for cable transfers in selected currencies as certified for customs purposes by the Federal Reserve Bank of New York.

	SIX Swiss Exchange			
	High CHF	Low CHF	High USD	Low USD

Third quarter	9.38	6.63
Fourth quarter	7.83	6.60

Dividends

Under Swiss law, a corporation may only pay dividends upon a vote of its shareholders. This vote typically follows the recommendation of the corporation's Board of Directors. On September 4, 2013, Logitech's shareholders approved a cash dividend payment of CHF 33.7 million out of retained earnings to Logitech shareholders who owned shares on September 16, 2013. Eligible shareholders were paid CHF 0.21 per share (\$0.22 per share in U.S. dollars), totaling \$36.1 million in U.S. dollars on September 17, 2013. On September 5, 2012, Logitech's shareholders approved a cash dividend payment of CHF 125.7 million out of retained earnings to Logitech shareholders who owned shares on September 17, 2012. Eligible shareholders were paid CHF 0.79 per share (\$0.85 per share in U.S. dollars), totaling \$133.5 million in U.S. dollars on September 18, 2012. The dividend in September 2012 qualified as a distribution of qualifying additional paid-in-capital and, as such, was not subject to Swiss Federal withholding tax.

Table of Contents

Dividends paid and similar cash or in-kind distributions made by Logitech to a holder of Logitech shares (including dividends or liquidation proceeds and stock dividends), other than distributions of qualifying additional paid-in-capital if it is available under the current Swiss tax regime, are subject to a Swiss federal anticipatory tax at a rate of 35%. The anticipatory tax must be withheld by Logitech from the gross distribution, and paid to the Swiss Federal Tax Administration.

A Swiss resident holder and beneficial owner of Logitech shares may qualify for a full refund of the Swiss anticipatory tax withheld from such dividends. A holder and beneficial owner of Logitech shares who is a non-resident of Switzerland, but a resident of a country that maintains a double tax treaty with Switzerland, may qualify for a full or partial refund of the Swiss anticipatory tax withheld from such dividends by virtue of the provisions of the applicable treaty between Switzerland and the country of residence of the holder and beneficial owner of the Logitech shares.

In accordance with the tax convention between the United States and the Swiss Confederation ("Treaty"), a mechanism is provided whereby a United States resident (as determined under the Treaty), and United States corporations, other than U.S. corporations having a "permanent establishment" or a fixed base, as defined in the Treaty, in Switzerland, generally can obtain a refund of the Swiss anticipatory tax withheld from dividends in respect of Logitech shares, to the extent that 15% of the gross dividend is withheld as final withholding tax (i.e. 20% of the gross dividend may generally be refunded). In specific cases, U.S. companies not having a "permanent establishment" or a fixed base in Switzerland owning at least 10% of Logitech registered shares may receive a refund of the Swiss anticipatory tax withheld from dividends to the extent it exceeds 5% of the gross dividend (i.e. 30% of the gross dividend may be refunded). To get the benefit of a refund, holders must beneficially own Logitech shares at the time such dividend becomes due.

Share Repurchases

The following table presents certain information related to purchases made by Logitech of its equity securities under its publicly announced share buyback program (in thousands, except per share amounts):

During Fiscal Year Ended	Shares Repurchased	Weighted Average Price Per Share		Amount Available for Repurchase
		CHF	USD	
March 31, 2012(1)	17,509	7.63	8.90	\$ 94,255
March 31, 2013(1)	8,600	9.66	10.21	6,472
March 31, 2014				250,000

26,109

(1) Expired in August 2013

In fiscal year 2014, the following approved share buyback programs were in place:

Share Buyback Program	Approved	
	Shares	Amounts
March 2014	17,311	\$ 250,000
September 2008 amended(1)	28,465	177,030
September 2008(1)	8,344	250,000

54,120 \$ 677,030

(1)

Expired in August 2013

In September 2012, the Company's shareholders approved the cancellation of the 18.5 million shares repurchased under the September 2008 amended share buyback program. These shares were legally cancelled in during the quarter ended December 31, 2013.

The information contained in the Performance Graph shall not be deemed to be "soliciting material" or "filed" with the SEC or subject to the liabilities of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), except to the extent that we specifically incorporate it by reference into a document filed under the Securities Act of 1933, as amended (the "Securities Act"), or the Exchange Act.

The following graph compares the cumulative total stockholder return on our shares, the Nasdaq Composite Index, and the S&P 500 Information Technology Index. The graph assumes that \$100 was invested in our shares, the Nasdaq Composite Index and the S&P 500 Information Technology Index on March 31, 2009, and calculates the annual return through March 31, 2014. The stock price performance on the following graph is not necessarily indicative of future stock price performance.

	March 31,					
	2009	2010	2011	2012	2013	2014
Logitech	\$ 100	\$ 159	\$ 176	\$ 76	\$ 68	\$ 145
Nasdaq Composite Index	\$ 100	\$ 157	\$ 182	\$ 202	\$ 214	\$ 275
S&P 500 IT Index	\$ 100	\$ 146	\$ 166	\$ 176	\$ 200	\$ 235

ITEM 6. Selected Financial Data

The selected financial data set forth below as of March 31, 2014 and 2013, and for the fiscal years 2014, 2013 and 2012, are derived from our consolidated financial statements included elsewhere in this Annual Report on Form 10-K. The selected consolidated financial data for the fiscal years ended March 31, 2012 and 2011 has been restated and the selected consolidated financial data for the fiscal years ended March 31, 2013 and 2010 has been revised to reflect adjustments to our previously issued financial statements as more fully described in *Part II "Item 7: Management's Discussion and Analysis of Financial Condition and Results of Operations Restatement and Revision of Previously Issued Consolidated Financial Statements"* and *"Item 8: Financial Statements and Supplementary Data Note 2 of Notes to Consolidated Financial Statements."* The selected financial data as of March 31, 2012, 2011 and 2010 and for the fiscal years 2011 and 2010 are derived from financial statements not included in this Annual Report on Form 10-K.

See Part II "Item 8: Financial Statements and Supplementary Data Note 2 of Notes to Consolidated Financial Statements" for details of the correcting adjustments.

- (1) Impairment of goodwill and other assets during fiscal year 2013 was primarily attributable to a \$214.5 million goodwill impairment charge related to our video conferencing reporting unit.
- (2) The \$13.8 million and \$43.7 million in restructuring costs during fiscal years 2014 and 2013 related to restructuring plans we implemented in fiscal years 2014 and 2013.

					\$ 1,294 (3)				
					\$ (14,382)(4)				

The restated and revised financial statements include the following adjustments:

- (1) **Inventory Valuation Reserve** The Company determined that there was a material accounting misstatement for Logitech's now-discontinued Revue product in fiscal years 2012 and 2011. As a result, the Company recorded an adjustment to increase cost of goods sold, and to increase inventory valuation reserves and supplier liability for components related to the Company's now discontinued Revue product by \$30.7 million during fiscal year ended March 31, 2011, with a corresponding decrease to cost of goods sold during fiscal year ended March 31, 2012.
- (2) **Property Plant and Equipment Capitalization Threshold Convention** Historically, the Company's practice was to apply an accounting convention to immediately expense the entire purchase price of all property and equipment that cost less than certain dollar thresholds instead of capitalizing and depreciating such property and equipment over its useful life. The Company determined that the thresholds utilized were incorrect and resulted in a cumulative understatement of retained earnings as of March 31, 2009 of \$7.5 million, which the Company corrected through an increase to opening retained earnings as of that date. The impact of the correction also resulted in an increase in cost of goods sold and operating expense and decrease in operating income of \$1.6 million in fiscal year 2010 and a decrease in cost of goods sold and operating expense and increase in operating income of \$2.4 million in fiscal year 2011.
- (3) **Settlement Accrual** The Company determined that it incorrectly recorded a release of a legal settlement accrual of \$1.3 million in the first quarter of fiscal year 2012 instead of in the fourth quarter of fiscal year 2011 as the contingency was resolved before the Annual Report on Form 10-K of fiscal year 2011 was issued. The impact of this adjustment was an increase in operating income by \$1.3 million in fiscal year 2011 and a corresponding decrease of operating income for the same amount in fiscal year 2012.
- (4) **Other Adjustments** The Company is also correcting a number of other immaterial errors which were previously recorded in prior periods as out-of-period adjustments and are now being revised to report them in the correct period as well as to correct other immaterial misstatements that were previously uncorrected. Among the corrections, the Company is correcting its accrual for workers compensation, liability for certain of its defined benefit pension plans, balance sheet reclassifications and tax impact of the above adjustments.

Table of Contents

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following Management's Discussion and Analysis of Financial Condition and Results of Operations contains forward-looking statements that involve risks and uncertainties. The Company's actual results could differ materially from those anticipated in these statements as a result of certain factors, including those set forth above in Item 1A, Risk Factors, and below in Item 7A, Quantitative and Qualitative Disclosures about Market Risk.

Restatement and Revision of Previously Issued Consolidated Financial Statements

As we announced on May 21, 2014, the Audit Committee, with the assistance of independent advisors, began an independent investigation of certain accounting matters related to our previously issued financial statements.

On September 3, 2014, we announced that, in connection with this investigation, the Audit Committee, on the recommendation of management, concluded that previously issued financial statements for fiscal years 2011 and 2012 and the first quarter of fiscal year 2012 could no longer be relied on due to an accounting misstatement for inventory valuation reserves for Logitech's now-discontinued Revue product. As a result, we recorded an adjustment to increase cost of goods sold, and to increase inventory valuation reserves and the accrual for supplier liability for components related to our now discontinued Revue product by \$30.7 million during the fourth quarter of the fiscal year ended March 31, 2011, and recorded a decrease to cost of goods sold by \$34.1 million in the quarter ended June 30, 2011, and an increase to cost of goods sold by \$3.4 million in the remainder of fiscal year 2012. As a result, net income and net income per share for the quarter and year ended March 31, 2011 was reduced by \$30.7 million and \$0.17 per share, respectively, with net income and net income per share in the quarter ended June 30, 2011 increasing by \$34.1 million and \$0.19 per share, respectively, and net income and net income per share in the remainder of fiscal year 2012 decreasing by \$3.4 million and \$0.02 per share, respectively. In conjunction with recording of the adjustments related to this restatement, we recorded other immaterial corrections to the consolidated financial statements or financial information included in this Form 10-K for the fiscal years ended March 31, 2013, 2012, 2011 and 2010. For further discussion of the Audit Committee investigation, see Note 2, *Restatement and Revision of Previously Issued Financial Statements*, to the Consolidated Financial Statements included in Part II Item 8, *Financial Statements and Supplementary Data*.

The Audit Committee has completed its independent investigation and found that, in connection with its quarterly close processes, up until June 2013, the finance organization would compile lists of financial items, which included significant accounting entries recorded during the quarter, late accounting entries, disclosure items and certain other items with potential accounting implications. The lists used to track these financial items appear to have been primarily shared within certain parts of the finance organization and were not shared with our independent registered public accounting firm. Typically, there were between approximately thirty to fifty items per quarter on these lists and there were multiple versions of these lists per quarter, as items were added, removed and changed. Some of the items on the list were discussed with our independent registered public accounting firm while others were not.

As part of the independent investigation, it was determined that nine historical items from these lists during a five year period should have been recorded in an earlier period or a different amount should have been recorded. The largest item relates to the now-discontinued Revue product and is the cause for the restatement. Two items the warranty accrual and the amortization of certain intangible assets were on the lists in prior periods and were not addressed in a timely manner before we corrected them in our revised Form 10-K/A filed on August 7, 2013. Certain former finance employees signed the May 30, 2013 management representation letter to our independent registered public accounting firm without disclosing these issues and, as a result, the management representation letter was inaccurate on this point. Six items

Table of Contents

are not material individually or in aggregate to any of the annual or interim periods reported but are nevertheless being corrected in these restated consolidated financial statements.

There are two elements to the restatement related to the Revue product: (1) a lower of cost or market ("LCM") charge based on the net realizable value of finished goods and work in process on-hand inventory and non-cancelable orders for such inventory, and (2) an excess and obsolescence charge for non-cancelable orders for inventory components. The Audit Committee found that certain former members of the finance organization had information that was not considered, that showed a future loss that was estimable and probable before the filing of the Form 10-K on May 27, 2011 and that such loss was not recorded in our fiscal year 2011 financial statements. Certain former members of the finance organization erroneously accounted for the LCM charge in fiscal year 2011 based on the current price or on price reductions instead of considering available contemporaneous evidence of anticipated future price reductions and losses which were estimable and probable at the time. In addition, the Audit Committee found that a management representation letter dated May 27, 2011 to our independent registered public accounting firm incorrectly stated that probable future pricing adjustments were considered in the LCM calculation. With respect to the Revue components, certain former members of the finance organization did not consider all available information and therefore did not record a charge in the fourth quarter of fiscal year 2011 for non-cancelable orders related to components considered excess and obsolete. The analysis erroneously assumed the components would be manufactured into finished goods, though there was information available that showed that the components would not be manufactured into finished goods. This information was not reflected in our accounting or provided to our independent registered public accounting firm. The Audit Committee found that there was not an adequate basis for the historical accounting treatment of the components in the fourth quarter of fiscal year 2011.

Overview of Our Company

Logitech is a world leader in products that connect people to the digital experiences they care about. Spanning multiple computing, communication and entertainment platforms, we develop and market innovative hardware and software products that enable or enhance digital navigation, music and video entertainment, gaming, social networking and audio and video communication over the Internet. We have two reporting segments: peripherals and video conferencing.

Our peripherals segment encompasses the design, manufacturing and marketing of peripherals for PCs, tablets and other digital platforms. Our products for home and business PCs include mice, trackballs, keyboards, interactive gaming controllers, multimedia speakers, headsets and webcams. Our tablet accessory products include keyboards, keyboard cases and covers, and smart phone accessories. Our Internet communications products include webcams, conference cams and headsets. Our digital music products include wireless speakers, earphones, and custom in-ear monitors. Our gaming products include mice, keyboards, headsets and gaming controllers. For home entertainment and home control systems, we offer the Harmony line of advanced remote controls. Since fiscal year 2013, we have been exiting other non-strategic products, such as speaker docks and headphones, and continue to evaluate non-strategic products as part of our ongoing efforts to strengthen our overall portfolio.

Within our peripherals segment, we classify our retail product categories as growth, profit maximization, and non-strategic. Our growth product categories are: PC Gaming, Tablet & Other Accessories, and Mobile Speakers. Our profit maximization categories are: Pointing Devices, PC Keyboards & Desktops, Audio-PC & Wearables, Video, and Remotes.

Our brand, portfolio management, product development and engineering teams in our peripherals segment are responsible for product strategy, technological innovation, product design and development and to bring our products to market.

Table of Contents

Our global marketing organization is responsible for developing and building the Logitech brand, consumer insights, public relations, social media and digital marketing. Our regional retail sales and marketing activities are organized into three geographic areas: Americas (North and South America), EMEA (Europe, Middle East and Africa) and Asia Pacific (including, among other countries, China, Taiwan, Japan and Australia).

We sell our peripherals products to a network of retailers, including direct sales to retailers and indirect sales through distributors. Our worldwide retail network includes wholesale distributors, consumer electronics retailers, mass merchandisers, specialty electronics, computers and telecommunications stores, value-added resellers and online merchants. Sales of our retail peripherals were 88%, 87% and 86% of our net sales for fiscal years 2014, 2013 and 2012, respectively. The large majority of our revenues have historically been derived from sales of our peripherals products for use by consumers. Our OEM customers include several of the world's largest PC manufacturers. Sales to OEM customers were 6%, 7% and 8% of our net sales for fiscal years 2014, 2013 and 2012, respectively.

Our video conferencing segment encompasses the design, manufacturing and marketing of Lifesize branded video conferencing products, infrastructure and services for the enterprise, public sector and other small to medium business markets. Video conferencing products include scalable high-definition, or HD, video communication endpoints, HD video conferencing systems with integrated monitors, video bridges, cloud-based video conferencing solution and other infrastructure software and hardware to support large-scale video deployments and services to support these products. The video conferencing segment maintains a separate marketing and sales organization, which sells Lifesize products and services worldwide. Video conferencing product development and product management organizations are separate, but coordinated with our peripherals business, particularly our Consumer Computing Platform group. We sell our video conferencing products and services to distributors, value-added resellers, OEMs and, occasionally, direct enterprise customers. Net sales of video conferencing products were 6%, 7% and 6% of our net sales in the fiscal year 2014, 2013 and 2012, respectively. During fiscal year 2013, we recorded goodwill impairment charges of \$214.5 million related to our video conferencing reporting segment.

We seek to fulfill the increasing demand for interfaces between people and the expanding digital world across multiple platforms and user environments. The interface evolves as platforms, user models and our target markets evolve. As access to digital information has expanded, we have extended our focus to mobile devices, the digital home, and the enterprise as access points to the Internet and the digital world. All of these platforms require interfaces that are customized according to how the devices are used. We believe that continued investment in product research and development is critical to creating the innovation required to strengthen our competitive advantage and to drive future sales growth. We are committed to identifying and meeting current and future consumer trends with new and improved product technologies, partnering with others where our strengths are complementary, as well as leveraging the value of the Logitech and Lifesize brands from a competitive, channel partner and consumer experience perspective.

We believe that innovation, design and product quality are important to gaining market acceptance and maintaining market leadership.

We have been expanding the categories of products we sell and entering new markets, such as the markets for mobile device accessories. As we do so, we are confronting new competitors, many of which have more experience in the categories or markets and have greater marketing resources and brand name recognition than we have. In addition, because of the continuing convergence of the markets for computing devices and consumer electronics, we expect greater competition in the future from well-established consumer electronics companies in our new categories as well as future ones we might enter. Many of these companies have greater financial, technical, sales, marketing and other resources than we have.

Table of Contents

The peripherals and video conferencing industries are intensely competitive. The peripherals industry is characterized by platform evolution, short product life cycles, continual performance enhancements, rapid adoption of technological and product advancements by competitors in our retail markets and price sensitivity in the OEM market. We experience aggressive price competition and other promotional activities from our primary competitors and from less-established brands, including brands owned by some retail customers known as house brands, in response to declining consumer demand in both mature retail and OEM markets. We may also encounter more competition if any of our competitors in one or more categories decide to enter other categories in which we currently operate.

From time to time, we may seek to partner with, or acquire when appropriate, companies that have products, personnel, and technologies that complement our strategic direction. We continually review our product offerings and our strategic direction in light of our profitability targets, competitive conditions, changing consumer trends and the evolving nature of the interface between the consumer and the digital world.

Summary of Financial Results

Our total net sales for fiscal year 2014 increased 1% in comparison to fiscal year 2013. Increases in our retail sales were partially offset by decreases in video conferencing sales.

Retail sales during fiscal year 2014 increased 2% and units sold decreased 3%, compared to fiscal year 2013. Retail sales increased 9% in Americas and 2% in Asia Pacific, partially offset by a decrease of 4% in EMEA. If foreign currency exchange rates had been the same in fiscal year 2014 and 2013, the percentage changes in our constant dollar retail sales would have been an increase of 1% for total retail sales, an increase of 9% in Americas, an increase of 6% in the Asia Pacific, and a decrease of 7% in the EMEA regions.

OEM sales during fiscal year 2014 remained flat, compared to fiscal year 2013, with OEM sales of \$141.7 million during fiscal year 2014. OEM units sold remained flat during fiscal year 2014, compared to fiscal year 2013.

Sales of Lifesize video conferencing products, which were 6% of total net sales during fiscal year 2014, decreased 12% during fiscal year 2014, compared to fiscal year 2013, due to a combination of a changing industry landscape caused by a shift to less expensive, cloud-based video conferencing solutions and, an evolving Lifesize product line. During the second quarter of fiscal year 2014, we implemented a comprehensive restructuring at Lifesize as part of our efforts to reposition the business and achieve profitability by the end of fiscal year 2014. This restructuring included reduction in staffing as well as an exit from non-strategic product lines. This restructuring resulted in a return to profitability in the third quarter of fiscal year 2014 before charges for amortization of intangible assets, share based compensation, and restructuring. During fiscal year 2013, we recorded goodwill impairment charges of \$214.5 million related to our video conferencing reporting segment.

Our gross margin for fiscal year 2014 increased to 34.2%, compared to 33.8% for fiscal year 2013. The increase in gross margin primarily resulted from cost improvements in some of our PC-related categories and from actions we took during fiscal year 2013 to streamline our product portfolio.

Operating expenses for fiscal year 2014 were 30.6% of net sales, compared to 45.8% for fiscal year 2013. The decrease in total operating expenses as a percentage of net sales was primarily due to a \$216.7 million impairment charge of goodwill and other assets during fiscal year 2013 and decreases of \$29.9 million in restructuring charges and \$52.1 million in marketing and selling expenses due to headcount reductions as a result of restructuring and lower sales and marketing investment in primarily music products.

Net income for fiscal year 2014 was \$74.3 million, compared to a net loss of \$227.5 million for fiscal year 2013. This improvement primarily resulted from a \$216.7 million impairment charge of goodwill and

Table of Contents

other assets related to our Lifesize business during fiscal year 2013 and decreases of \$29.9 million in restructuring charges and \$52.1 million in marketing and selling expenses, partially offset by a shift from a \$25.8 million benefit from income taxes for fiscal year 2013 to a \$3.3 million provision for income taxes for fiscal year 2014.

Trends in Our Business

Our sales of PC peripherals for use by consumers in Americas and Europe have historically made up the large majority of our revenues. In the last several years, the PC market has changed dramatically and there continues to be significant weakness in the global market for new PCs. This weakness had a negative impact on our net sales in all of our PC-related categories. We believe that this weakness reflects the growing popularity of tablets and smartphones as mobile computing devices.

We believe our future growth will be determined by our ability to rapidly create innovative products across multiple digital platforms, especially for PC Gaming and accessories for mobility-related products, including tablets, smartphones, Gaming and other mobile devices and for digital music, including wireless speakers, to limit and offset the decline in our PC peripherals. We pursue growth opportunities in emerging markets, mobility-related products, products for digital music and enterprise markets. The following discussion represents key trends specific to each of our two operating segments, peripherals and video conferencing.

Trends Specific to our Peripherals Segment

PC Peripherals: Although the installed base of PC users is large, consumer demand for new PCs has declined in recent years, and we believe it will continue to decline in future years. As a consequence, consumer demand for PC peripherals is slowing, or in some cases declining. As the quality of PC-embedded webcams improves along with the increasing popularity of tablets and smartphones with embedded webcams, we expect future sales of our PC-connected webcams will continue to be weak (or continue to decline on a year over year basis). The PC Gaming platform continues to show strong growth as online gaming and multi-platform experiences gain greater popularity and gaming content becomes increasingly more demanding. We believe Logitech is well positioned to benefit from the PC Gaming market growth.

Enterprise Market. We are continuing our efforts to create and sell products and services to enterprises. For example, we have introduced the Logitech ConferenceCam CC3000e video conference solution designed for small to medium conference rooms. Growing our enterprise peripherals business will continue to require investment in selected business-specific products, targeted product marketing, and sales channel development.

Tablets and Other Accessories. The increasing popularity of smaller, mobile computing devices, such as tablets with touch interfaces, have created new markets and usage models for peripherals and accessories. During fiscal year 2014, we continued to expand and leverage our success in this category through the introductions of keyboard folios for the iPad and iPad mini, and keyboard covers and folios for the iPad Air. During this time, we also introduced keyboard folios for the Samsung Galaxy tablet as well as the Wired Keyboard for the iPad, designed primarily for use in the classroom.

Mobile Speakers. We believe that digital music, the seamless consumption of digital audio content on mobile devices, presents a growth opportunity for us. Many consumers listen to music as a popular entertainment activity, fueled by the growth in smart phones, tablets, music services and Internet radio. We believe we have a solid foundation of audio speaker solutions to satisfy consumers' needs for music consumption, in the digital music speaker space. We continue to invest in the UE brand and introduce innovative new products in this category such as UE BOOM, a wireless speaker with 360-degree stereo sound.

Table of Contents

OEM Business. Sales of our OEM mice and keyboards have historically made up the bulk of our OEM sales. In recent years, there has been a dramatic shift away from desktop PCs and there continues to be significant weakness in the global market for PCs, which has adversely affected our sales of OEM mice and keyboards, all of which are sold with name-brand desktop PCs. We expect this trend to continue and for OEM sales to comprise a smaller percentage of our total sales in the future.

Trends in Non-Strategic Peripherals Product Categories. Some of our other peripherals product categories are experiencing significant market challenges. During the quarter ended December 31, 2012, we identified a number of product categories that no longer fit with our strategic direction at that time. We will continue to evaluate our product offerings and will exit those which no longer support our strategic direction.

Trends Specific to our Video Conferencing Segment

The trend among businesses and institutions to use video conferencing offers a long-term growth opportunity for us. However, the overall video conferencing industry has experienced a slowdown in recent quarters. In addition, there has been an increase in the competitive environment. This situation resulted in a \$214.5 million goodwill impairment charge in fiscal year 2013. During the quarters ended March 31, 2013 and September 30, 2013, we implemented restructuring plans affecting our video conferencing operating segment to align its organization to its strategic priorities of increasing focus on a tighter range of products, expanding cloud-based video conferencing services and improving profitability. We believe the growth in our video conferencing segment depends in part on our ability to increase sales to enterprises with existing installed bases of equipment supplied by our competitors and to enterprises that may purchase such competitor equipment in the future. We believe the ability of our Lifesize products to interoperate with the equipment of other telecommunications, video conferencing or telepresence equipment suppliers to be a key factor in purchasing decisions by current or prospective Lifesize customers. In addition, Lifesize has broadened its product portfolio to include infrastructure, cloud services and other offerings which require different approaches to developing customer solutions. We are also seeking to offer Lifesize products designed to enhance the use of mobile devices in video conferencing applications.

Critical Accounting Estimates

The preparation of financial statements and related disclosures in conformity with U.S. GAAP (Generally Accepted Accounting Principles in the United States of America) requires us to make judgments, estimates and assumptions that affect reported amounts of assets, liabilities, net sales and expenses, and the disclosure of contingent assets and liabilities.

We consider an accounting estimate critical if it: (i) requires management to make judgments and estimates about matters that are inherently uncertain; and (ii) is important to an understanding of our financial condition and operating results.

We base our estimates on historical experience and on various other assumptions we believe to be reasonable under the circumstances. Although these estimates are based on management's best knowledge of current events and actions that may impact us in the future, actual results could differ from those estimates. Management has discussed the development, selection and disclosure of these critical accounting estimates with the Audit Committee of the Board of Directors.

We believe the following accounting estimates are most critical to our business operations and to an understanding of our financial condition and results of operations, and reflect the more significant judgments and estimates used in the preparation of our consolidated financial statements.

Table of Contents

Accruals for Customer Programs

We record accruals for product returns, cooperative marketing arrangements, customer incentive programs and pricing programs. An allowance against accounts receivable is recorded for accruals and program activity related to our direct customers and those indirect customers who receive payments for program activity through our direct customers. An accrued liability is recorded for accruals and program activity related to our indirect customers who receive payments directly and do not have a right of offset against a receivable balance. The estimated cost of these programs is recorded as a reduction of revenue, as cost of sales or as an operating expense, if we receive a separately identifiable benefit from the customer and can reasonably estimate the fair value of that benefit. Significant management judgment and estimates must be used to determine the cost of these programs in any accounting period.

Returns. We grant limited rights to return products. Return rights vary by customer, and range from just the right to return defective product to stock rotation rights limited to a percentage approved by management. Estimates of expected future product returns are recognized at the time of sale based on analyses of historical return trends by customer and by product, inventories owned by and located at distributors and retailers, current customer demand, current operating conditions, and other relevant customer and product information. Return trends are influenced by product life cycle status, new product introductions, market acceptance of products, sales levels, product sell-through, the type of customer, seasonality, product quality issues, competitive pressures, operational policies and procedures and other factors. Return rates can fluctuate over time, but are sufficiently predictable to allow us to estimate expected future returns.

Cooperative Marketing Arrangements. We enter into customer marketing programs with many of our distribution and retail customers, and with certain indirect partners, allowing customers to receive a credit equal to a set percentage of their purchases of our products, or a fixed dollar credit for various marketing arrangements. The objective of these arrangements is to encourage advertising and promotional events to increase sales of our products. Accruals for these marketing arrangements are recorded at the time of sale, or time of commitment, based on negotiated terms, historical experience and inventory levels in the channel.

Customer Incentive Programs. Customer incentive programs include performance-based incentives and consumer rebates. We offer performance-based incentives to our distribution customers, retail customers and indirect partners based on pre-determined performance criteria. Accruals for performance-based incentives are recognized as a reduction of the sale price at the time of sale. Estimates of required accruals are determined based on negotiated terms, consideration of historical experience, anticipated volume of future purchases, and inventory levels in the channel. Consumer rebates are offered from time to time at the Company's discretion for the primary benefit of end-users. Estimated costs of consumer rebates and similar incentives are recorded at the time the incentive is offered, based on the specific terms and conditions.

Pricing Programs. We have agreements with certain customers that contain terms allowing price protection credits to be issued in the event of a subsequent price reduction. At management's discretion, we also offer special pricing discounts to certain customers. Special pricing discounts are usually offered only for limited time periods or for sales of selected products to specific indirect and direct partners. Our decision to make price reductions is influenced by product life cycle stage, market acceptance of products, the competitive environment, new product introductions and other factors. Estimates of expected future pricing actions are recognized at the time of sale based on analyses of historical pricing actions by customer and by product, inventories owned by and located at distributors and retailers, current customer demand, current operating conditions, and other relevant customer and product information.

We regularly evaluate the adequacy of our accruals for product returns, cooperative marketing arrangements, customer incentive programs and pricing programs. Future market conditions and product

Table of Contents

transitions may require us to take action to increase such programs. In addition, when the variables used to estimate these costs change, or if actual costs differ significantly from the estimates, we would be required to record incremental increases or reductions to revenue or operating expenses. If, at any future time, we become unable to reasonably estimate these costs, recognition of revenue might be deferred until products are sold to users, which would adversely impact revenue in the period of transition.

Inventory Valuation

We must order components for our products and build inventory in advance of customer orders. Further, our industry is characterized by rapid technological change, short-term customer commitments and rapid changes in demand.

We record inventories at the lower of cost or market value and record write-downs of inventories that are obsolete or in excess of anticipated demand or market value. A review of inventory is performed each fiscal quarter that considers factors including the marketability and product life cycle stage, product development plans, component cost trends, demand forecasts and current sales levels. Inventory on hand which is not expected to be sold or utilized is considered excess, and we recognize the write-off in cost of sales at the time of such determination. The write-off is determined by comparison of the current replacement cost with the estimated selling price less any costs of completion and disposal (net realizable value) and the net realizable value less an allowance for normal profit. At the time of loss recognition, a new per unit, lower-cost basis for that inventory is established and subsequent changes in facts and circumstances would not result in an increase in the cost basis. If there were an abrupt and substantial decline in demand for Logitech's products or an unanticipated change in technological or customer requirements, we may be required to record additional write-downs that could adversely affect gross margins in the period when the write-downs are recorded.

Share-Based Compensation Expense

Share-based compensation expense includes compensation expense, reduced for estimated forfeitures. The grant date fair value for stock options and stock purchase rights is estimated using the Black-Scholes-Merton option-pricing valuation model. The grant date fair value of RSUs (restricted stock units) that vest upon meeting certain market conditions is estimated using the Monte-Carlo simulation method. The grant date fair value of time-based RSUs is calculated based on the closing market price on the date of grant.

Our estimates of share-based compensation expense require a number of complex and subjective assumptions including our stock price volatility, employee exercise patterns, future forfeitures, dividend yield, related tax effects and the selection of an appropriate fair value model. We estimate expected share price volatility based on historical volatility using daily prices over the term of past options, RSUs or purchase offerings, as we consider historical share price volatility as most representative of future volatility. We estimate expected life based on historical settlement rates, which we believe are most representative of future exercise and post-vesting termination behaviors. We use historical data to estimate pre-vesting forfeitures, and we record share-based compensation expense only for those awards that are expected to vest. The dividend yield assumption is based on our history and future expectations of dividend payouts.

The assumptions used in calculating the fair value of share-based compensation expense and related tax effects represent our best estimates, but these estimates involve inherent uncertainties and the application of management judgment. As a result, if factors change and we use different assumptions, or if we decide to use a different valuation model, our share-based compensation expense could be materially different in the future from what we have recorded in the current period, which could materially affect our results of operations.

Table of Contents

Accounting for Income Taxes

We operate in multiple jurisdictions and our profits are taxed pursuant to the tax laws of these jurisdictions. Our effective income tax rate may be affected by the changes in or interpretations of tax laws and tax agreements in any given jurisdiction, utilization of net operating loss and tax credit carryforwards, changes in geographical mix of income and expense, and changes in our assessment of matters such as the ability to realize deferred tax assets. As a result of these considerations, we must estimate income taxes in each of the jurisdictions in which we operate. This process involves estimating current tax exposure together with assessing temporary differences resulting from different treatment of items for tax and accounting purposes. These differences result in deferred tax assets and liabilities, which are included in the consolidated balance sheet.

We assess the likelihood that our deferred tax assets will be recovered from future taxable income, considering all available evidence such as historical levels of income, expectations and risks associated with estimates of future taxable income and ongoing prudent and feasible tax strategies. When we determine that we are not able to realize all or part of our deferred tax assets, an adjustment is charged to earnings in the period when such determination is made. Likewise, if we later determine that it is more likely than not that the deferred tax assets would be realized, the previously provided valuation allowance would be reversed.

We make certain estimates and judgments about the application of tax law, the expected resolution of uncertain tax positions and other matters surrounding the recognition and measurement of uncertain tax benefits. In the event that uncertain tax positions are resolved for amounts different than our estimates, or the related statutes of limitations expire without the assessment of additional income taxes, we will be required to adjust the amounts of the related assets and liabilities in the period in which such events occur. Such adjustments may have a material impact on our income tax provision and our results of operations.

Goodwill

We perform our annual goodwill impairment test of each reporting unit as of December 31 and complete the assessment during our fiscal fourth quarter, or more frequently, if certain events or circumstances warrant. Events or changes in circumstances which might indicate potential impairment in goodwill include the company-specific factors, including, but not limited to, stock price volatility, market capitalization relative to net book value, and projected revenue, market growth and operating results. Determining the number of reporting units and the fair value of a reporting unit requires us to make judgments and involves the use of significant estimates and assumptions. We have two reporting units: peripherals and video conferencing. The allocation of assets and liabilities to each of our reporting units also involves judgment and assumptions.

The goodwill impairment assessment involves three tests, Step 0, Step 1 and Step 2. The Step 0 test involves performing an initial qualitative assessment to determine whether it is more likely than not that the asset is impaired and thus whether it is necessary to proceed to Step 1 and calculate the fair value of the respective reporting unit. We may proceed directly to the Step 1 test without performing the Step 0 test. The Step 1 test involves measuring the recoverability of goodwill at the reporting unit level by comparing the reporting unit's carrying amount, including goodwill, to the estimated fair value of the reporting unit. The fair value is estimated using an income approach employing a discounted cash flow ("DCF") and a market-based model. The DCF model is based on projected cash flows from our most recent forecast ("assessment forecast") developed in connection with each of our reporting units to perform the goodwill impairment assessment. The assessment forecast is based on a number of key assumptions, including, but not limited to, discount rate, compound annual growth rate ("CAGR") during the forecast period, and terminal value. The terminal value is based on an exit price at the end of the assessment forecast using an earnings multiple applied to the final year of the assessment forecast. The discount rate is applied to the projected cash flows to reflect the risks inherent in the timing and amount of

Table of Contents

the projected cash flows, including the terminal value, and is derived from the weighted average cost of capital of market participants in similar businesses. The market approach model is based on applying certain revenue and earnings multiples of comparable companies relevant to each of our reporting units to the respective revenue and earnings metrics of our reporting units. To test the reasonableness of the fair values indicated by the income approach and the market-based approach, we also assessed the implied premium of the aggregate fair value over the market capitalization considered attributable to an acquisition control premium, which is the price in excess of a stock market's price that investors would typically pay to gain control of an entity. The discounted cash flow model and the market approach require the exercise of significant judgment, including assumptions about appropriate discount rates, long-term growth rates for purposes of determining a terminal value at the end of the discrete forecast period, economic expectations, timing of expected future cash flows, and expectations of returns on equity that will be achieved. Such assumptions are subject to change as a result of changing economic and competitive conditions. If the carrying amount of the reporting unit exceeds its fair value as determined by these assessments, goodwill is considered impaired, and the Step 2 test is performed to measure the amount of impairment loss. The Step 2 test measures the impairment loss by allocating the reporting unit's fair value to its assets and liabilities other than goodwill, comparing the resulting implied fair value of goodwill with its carrying amount, and recording an impairment charge for the difference.

Applicable to Both Reporting Units

We continue to evaluate and monitor all key factors impacting the carrying value of our recorded goodwill, as well as other long-lived assets. There are a number of uncertainties associated with the key assumptions described above based primarily on the difficulty of predicting our revenues and profitability. Our revenues and profitability are difficult to predict due to the nature of the markets in which we compete, fluctuating end-user demand, the uncertainty of current and future global economic conditions, and for many other reasons, including, but not limited to:

Our revenues are impacted by consumer demand and future global conditions, which could fluctuate abruptly and significantly during periods of uncertain economic conditions or geographic distress, as well as from shifts in consumer buying patterns.

We must incur a large portion of our costs in advance of sales orders, because we must plan research and production, order components, buy tooling equipment, and enter into development, sales and marketing, and other operating commitments prior to obtaining firm commitments from our customers. This makes it difficult for us to rapidly adjust our costs in response to a revenue shortfall.

Fluctuations in currency exchange rates can impact our revenues, expenses and profitability because we report our financial statements in U.S. dollars, whereas a significant portion of our revenues and expenses are in other currencies.

The peripherals industry is characterized by short product life cycles, frequent new product introductions, rapidly changing technology, dynamic consumer demand and evolving industry standards. As a result, we must continually innovate in our new and existing product categories, introduce new products and technologies, and enhance existing products in order to remain competitive.

The video conferencing industry is characterized by continual performance enhancements and large, well-financed competitors. There is increased participation in the video conferencing market by companies such as Cisco Systems, Inc. and Polycom, Inc., and as a result, we expect competition in the industry to further intensify.

Should the actual outcome of some or all of these assumptions differ significantly from the current assumptions, revisions to current cash flow assumptions could cause the fair value of the reporting units to be significantly different in future periods.

Table of Contents**Product Warranty Accrual**

We provide for the estimated cost of product warranties at the time the related revenue is recognized based on historical and projected warranty claim rates, historical and projected cost, and knowledge of specific product failures that are outside of our typical experience. Each quarter, we reevaluate our estimates to assess the adequacy of our recorded warranty liabilities considering the size of the installed base of products subject to warranty protection and adjust the amounts as necessary. If actual product failure rates or repair costs differ from estimates, revisions to the estimated warranty liabilities would be required and could materially affect our results of operations.

Results of Operations

We have revised our results of operations for the fiscal year ended March 31, 2013 and restated our results of operations for the fiscal year ended March 31, 2012. The restatement reflects the results of the independent investigation by the Audit Committee and other corrections identified by the management to the financial statements. For more information, refer to Note 2 of our Notes to Consolidated Financial Statements in Item 8.

Net Sales

Net sales by channel for fiscal years 2014, 2013 and 2012 were as follows (in thousands):

	Years Ended March 31,			Change	
	2014	2013 As Revised	2012	2014 vs. 2013	2013 vs. 2012
Retail	\$ 1,866,279	\$ 1,821,051	\$ 1,982,783	2%	(8)%
OEM	141,749	141,186	185,959	0	(24)
Video conferencing	120,685	137,040	147,461	(12)	(7)
Total net sales	\$ 2,128,713	\$ 2,099,277	\$ 2,316,203	1	(9)

Retail:

During fiscal year 2014, retail sales increased 2% and units sold decreased 3%, compared to fiscal year 2013. Retail sales increased in Americas and Asia Pacific and decreased in EMEA during fiscal year 2014, compared to fiscal year 2013. The increase in retail sales is primarily due to triple-digit growth in Mobile Speakers, double-digit growth in Tablets & Other Accessories and PC Gaming, offset in part by a decline in Audio-PC & Wearables, Video, and our Non-Strategic categories, compared to fiscal year 2013.

During fiscal year 2013, our retail sales decreased 8% and units sold decreased 7%, compared to fiscal year 2012. We experienced decreases in all three regions during fiscal year 2013, compared to fiscal year 2012.

OEM:

OEM sales of \$141.7 million during fiscal year 2014 remained flat compared to fiscal year 2013. OEM units sold remained flat during fiscal year 2014 compared with fiscal year 2013. During fiscal year 2013, OEM net sales decreased 24% and units sold decreased 12%, compared to fiscal year 2012. The decrease was primarily due to lower sales in the keyboard/desktop category and pointing devices.

Lifesize:

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

During fiscal year 2014, video conferencing net sales decreased 12%, compared to fiscal year 2013. The decrease primarily resulted from the combination of a changing industry landscape caused by a shift to less expensive, cloud-based video conferencing solutions, an evolving Lifesize product line and challenges

Table of Contents

in execution. During fiscal year 2013, video conferencing net sales decreased 7%, compared to fiscal year 2012. The decrease was reflected in all geographic regions and was impacted by the slowdown in the overall video conferencing industry in recent years, together with the competitive environment and lower demand related to new product launches.

Sales Denominated in Other Currencies

Although our financial results are reported in U.S. Dollars, a portion of our sales were generated in currencies other than the U.S. dollar, such as the Euro, Chinese Renminbi, Japanese Yen, Canadian Dollar and Australian Dollar. During fiscal years 2014, 2013 and 2012, 45%, 45% and 45% of our net sales were denominated in currencies other than the U.S. Dollar, respectively.

Retail Sales by Region

We use sell-through data, which represents sales of our products by our retailer customers to consumers, and by our distributor customers to resellers, along with other metrics, to assess consumer demand for our products. Sell-through data is subject to limitations due to collection methods and the third-party nature of the data. Although the sell-through data we obtained typically represents a majority of our retail sales, the customers supplying sell-through data vary by geographic region and from period-to-period. As a result of these limitations, sell-through data may not be an accurate indicator of actual consumer demand for our products.

Americas

During fiscal year 2014, retail sales in Americas increased 9%, compared to fiscal year 2013. Retail sales increased in Tablet & Other Accessories, Mobile speakers, PC Gaming, PC Keyboards & Desktops and Pointing Devices, partially offset by decreases in Non-Strategic Other, Audio-PC & Wearables, Remotes, and Video. The increase in Tablet & Other Accessories was led by sales of our Ultrathin Keyboard Cover for the iPad and from our recently introduced Keyboard Folio suite of products designed for the iPad, iPad mini and iPad Air. The increase in Mobile Speakers was primarily from the UE BOOM. The increase in PC Gaming was due to the recent launch of our new gaming products. The increase in PC Keyboards & Desktops was driven by low-end, mid-range and high-end products. Retail sales improved in the United States and Canada during fiscal year 2014, compared to fiscal year 2013. In addition, retail sell-through increased 9% during fiscal year 2014, compared to fiscal year 2013.

During fiscal year 2013, Americas decreased 7%, compared to fiscal year 2012. This decrease was primarily from significant decreases in our Non-Strategic Other, Video, Pointing Devices, Audio- PC & Wearables, Remotes and PC Gaming, partially offset by an increase in Tablets & Other Accessories, due to demand from the Logitech Ultrathin Keyboard Cover for the iPad and slight increases in PC Keyboards & Desktops and Mobile Speakers. During fiscal year 2013, we experienced weakness primarily in the United States, partially offset by improvements in Mexico and Brazil. In addition, retail sell-through decreased 5% during fiscal year 2013, compared to fiscal year 2012.

EMEA

During fiscal year 2014, retail sales in EMEA decreased 4%, compared to fiscal year 2013. Retail sales decreased in Pointing Devices, Video, Audio-PC & Wearables, and Non-Strategic other, partially offset by increases in Tablet & Other Accessories, Mobile Speakers, PC Gaming and Remotes. We experienced a significant decrease in Germany due to sales challenges which we overcame in the second half of fiscal year 2014. The decrease in Germany was partially offset by an increase in the United Kingdom. In addition, retail sell-through decreased 4% in Euros during fiscal year 2014, compared to fiscal year 2013.

During fiscal year 2013, retail sales in EMEA decreased 11%, compared to fiscal year 2012. The decrease was primarily caused by the extreme weakness in the PC market and the continued macro-

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

Table of Contents

economic uncertainty across many European countries. The decrease was due to Non-Strategic Other, Pointing Devices, Audio-PC & Wearables, Video, and Mobile Speakers offset in part by Tablet & Other Accessories, and PC Keyboard & Desktops. During fiscal year 2013, we experienced significant sales decreases in major countries such as Germany, France, Switzerland, Spain, and the Netherlands.

Asia Pacific

During fiscal year 2014, retail sales in Asia Pacific increased 2%, compared to fiscal year 2013. Retail sales increased in PC Gaming, Tablet & Other Accessories, Mobile Speakers and Remotes, partially offset by decreases in Non-Strategic Other, Audio- PC & Wearables, Video, and Pointing Devices and PC keyboards & Desktops. In addition, retail sell-through in Asia Pacific increased 2% during fiscal year 2014, compared to fiscal year 2013.

During fiscal year 2013, retail sales in Asia Pacific decreased 4%, compared to fiscal year 2012. This decrease was primarily due to decreases in our Non-Strategic Other, remotes, PC Gaming and Video, partially offset by a significant increase in Tablet & Other Accessories and Mobile Speakers. Decreases by country within the Asia Pacific region were primarily from India, Australia, Taiwan and South Korea, partially offset by increases in China, New Zealand and Indonesia. Retail sell-through in Asia Pacific increased 2% during fiscal year 2013, compared to fiscal year 2012.

Net Sales by Product Categories

Net sales by product categories for fiscal years 2014, 2013 and 2012 were as follows (in thousands):

	Years Ended March 31,			Change	
	2014	2013*	2012*	2014 vs. 2013	2013 vs. 2012
	As Revised				
Peripherals:					
PC Gaming	\$ 186,926	\$ 144,512	\$ 186,190	29%	(22)%
Tablet & Other Accessories	172,484	119,856	44,326	44	170
Mobile Speakers	87,414	33,408	21,969	162	52
Growth	446,824	297,776	252,485	50	18
Pointing Devices	506,884	521,083	559,366	(3)	(7)
PC Keyboards & Desktops	415,512	399,144	383,697	4	4

*

Certain products within the retail product families presented in prior years have been reclassified to conform to the current year presentation.

Table of Contents

Growth Categories:

PC Gaming

Our retail PC Gaming category comprises PC Gaming mice, keyboards, headsets, gamepads and steering wheels.

During fiscal year 2014, retail sales of PC Gaming increased 29% and units sold increased 24%, compared to fiscal year 2013. This growth was primarily due to the recent launch of our new gaming products, including mice, keyboards and headsets. New products made up 23% of total PC Gaming revenue for fiscal year 2014. Our top revenue-generating PC Gaming products included the Logitech G27 Racing Wheel, the Logitech G930 Wireless Gaming Headset, the G500s Laser Gaming Mouse, the G700s Rechargeable Gaming Mouse, and the G710+ Mechanical Gaming Keyboard.

During fiscal year 2013, retail sales of PC Gaming decreased 22% and units sold decreased 9%, compared to fiscal year 2012. The decrease was across most of our PC Gaming products, with the most significant decrease in our steering wheel product category, partially offset by strong sales from select gaming products including the Logitech G930 Wireless Gaming Headsets. The difference between the decline in gaming sales and the decrease in units sold reflects a product mix shift away from higher-priced steering wheels to lower-priced mice, keyboards and gamepads. The overall decline in this category primarily reflected an aging product lineup.

Tablet & Other Accessories

Our retail Tablet & Other Accessories category comprises keyboards and covers for tablets and smartphones as well as other accessories for mobile devices.

During fiscal year 2014, retail sales of Tablet & Other Accessories increased 44% and units sold increased 87%, compared to fiscal year 2013. The increase was driven by demand for the Logitech Ultrathin Keyboard Cover for the iPad, as well as strong sales from recently introduced products such as the Logitech Ultrathin Keyboard Cover for the iPad Mini and from the Logitech Keyboard Folio suite of products designed for the iPad, iPad mini, and iPad Air. The faster growth in unit shipments reflects the broadening of our portfolio to address a larger portion of the tablet accessory market, including tablet cases.

During fiscal year 2013, retail sales of Tablet & Other Accessories represented our strongest product category with an increase of 170% and units sold increase of 124%, compared to fiscal year 2012. This increase was driven by demand for the Logitech Ultrathin Keyboard Cover, which represented our best selling product across all of our categories.

Mobile Speakers

Our retail Mobile Speakers category includes portable Bluetooth wireless speakers.

During fiscal year 2014, retail sales of Mobile Speakers increased 162% and units sold increased 88%, compared to fiscal year 2013. The 162% increase in our wireless speakers for smartphones and tablets was driven by a strong demand primarily for the UE BOOM. Our top revenue-generating wireless speaker products during fiscal year 2014 included the UE BOOM and the UE Mini BOOM.

During fiscal year 2013, retail sales of Mobile Speakers increased 52% and units sold increased 53%, compared to fiscal year 2012. The increase was from a 52% increase in our wireless speakers for smartphones and tablets. We experienced strong initial sales from our new wireless speakers including the Logitech UE Mobile Boombox and Logitech UE Boombox, both of which began shipping late in the second quarter of fiscal year 2013. During the fourth quarter of fiscal year 2013, this category was negatively impacted by very weak demand for the Logitech UE Boombox. The poor sales performance of this product was due to a lack of competitive differentiation and a form factor that has proved to be too

Table of Contents

large for many consumers. Contrasting, sales continued to be strong for our smaller, lower cost Logitech UE Mobile Boombox.

Profit Maximization Categories:

Pointing Devices

Our retail Pointing Devices category comprises PC and Mac-related mice, touchpads and presenters.

During fiscal year 2014, retail sales of Pointing Devices decreased 3% and units sold decreased 1%, compared to fiscal year 2013. The decrease in retail sales was primarily due to the continued weakness in the global PC market. The decrease was primarily from our high-end product offerings, which decreased 14%, followed by our mid-range product offerings, which decreased 6%, and our low-end product offerings remained relatively flat for the year. Retail sales of corded mice decreased 9% and units sold decreased 10%. Retail sales of cordless mice decreased 1% and units sold increased 4%.

During fiscal year 2013, retail sales of pointing devices decreased 7% and units sold decreased 5%, compared to fiscal year 2012. The continued weakness in the global PC market was a major factor in the sales decrease across all regions except the Asia Pacific region where retail sales were consistent. The decrease in our low-end product offerings, which decreased 6%, and our mid-range products which decreased 8%, was partially offset by an increase in our high-end product offerings of 3%. Sales of all cordless mice decreased 5% and units sold increased 1%. Corded mice sales decreased 16% and units sold decreased 13%.

PC Keyboards & Desktops

Our retail PC Keyboard & Desktop category comprises PC keyboards and keyboard/mice combo products.

During fiscal year 2014, retail sales of PC Keyboards & Desktops increased 4% and units sold decreased 1%, compared to fiscal year 2013. The sales increase was primarily due to sales increase in our corded and cordless combo. Our best selling product in this category was the Wireless Touch Keyboard K400, which features an integrated touchpad and has been popular for use in the living room. Retail sales of corded and cordless keyboards decreased 17% and 5%, respectively, and units sold decreased 21% and 6%, respectively. Retail sales of corded and cordless combos increased 3% and 7%, respectively, and units sold decreased 1% and increased 10%, respectively.

During fiscal year 2013, retail sales of PC Keyboards & Desktops increased 4% and units sold increased 1%, compared to fiscal year 2012. Although this category was affected by the continued weakness in the global PC market, we managed to achieve a modest retail sales increase due to continued development of new, innovative products led by the Logitech Wireless Touch Keyboard K400, and from other products, including the Logitech Washable Keyboard K310, Logitech Wireless Combo MK240, Logitech Bluetooth Illuminated Keyboard K810 and the Logitech Wireless Solar Keyboard for Mac. Retail sales of corded and cordless combos decreased 9% and were consistent, respectively, and units sold decreased 7% and increased 4%, respectively. Retail sales of corded and cordless keyboards decreased 5% and decreased 7%, respectively, and unit sales decreased 11% and were consistent, respectively.

Audio-PC & Wearables

Our retail Audio-PC & Wearables category comprises PC speakers, PC headsets and in-ear headphones.

During fiscal year 2014, retail sales of Audio-PC decreased 13% and units sold decreased 17%, compared to fiscal year 2013. The decrease was primarily due to decreases in PC speaker retail sales of 10% and units sold of 11%. These decreases reflect both a weakness in the overall market for new PCs and

Table of Contents

a market shift toward mobile audio devices. Retail sales of our Wearables products declined 39%, as we phase out the headphone category.

During fiscal year 2013, retail sales of Audio-PC decreased 14% and units sold decreased 15%, compared to fiscal year 2012. This was due to a decrease in PC speaker retail sales of 14% and unit sales decrease of 17% and PC headset retail sales decrease of 8% and units sold decrease of 10%. These decreases reflect both weakness in the overall market for new PCs and a market shift toward mobile audio devices.

Video

Our retail Video category comprises retail webcams and Unified Communications webcams.

During fiscal year 2014, retail sales of Video decreased 10% and units sold decreased 26%, compared to fiscal year 2013. The decrease was primarily due to weakness in our consumer webcam product line, which decreased 17%, and which continued to be negatively impacted by the combination of market trends, including the popularity of embedded webcams in mobile devices, and the overall weakness of the PC market. The decrease in our webcam product line was concentrated in both the low-end and mid-end of the category. The decrease was partially offset by strong growth in our high-end category, which increased 28%.

During fiscal year 2013, retail sales of Video decreased 22% and units sold decreased 27%, compared to fiscal year 2012. The decrease was primarily due to weakness in our webcam product line, which decreased 26%, and which continued to be negatively impacted by the combination of market trends, including the popularity of embedded webcams in mobile devices, and the overall weakness of the PC market. We experienced strong growth in the high-end category driven by the Logitech HD Pro Webcam C920, which offers full HD 1080p, and from the Logitech BCC950 Conference Cam for the enterprise market.

Remotes

Our retail Remotes category comprises our Harmony remotes.

During fiscal year 2014, retail sales of Remotes decreased 6% and units sold decreased 23%, compared to fiscal year 2013. The decrease in Remotes was primarily concentrated in our high-end and low-end products, partially offset by increases in our mid-range product lines. New products such Harmony Ultimate and Harmony Smart Control contributed to 58% of total retail sales of Remotes for fiscal year 2014. The higher decline in units sold reflected our strategic shift away from the low-end products.

During fiscal year 2013, retail sales of Remotes decreased 21% and units sold decreased 37%, compared to fiscal year 2012. The decrease was concentrated in the low and mid-range remotes, which decreased 39% and 66%, respectively. The high-end remotes decreased 7%; however we launched Harmony Touch in October 2012, our first new high-end remote in over four years. The significant decrease in units sold, relative to retail sales, primarily reflects the transition away from selling low end remotes to mid to high-end remotes.

Non-Strategic

This category comprises a variety of products that we currently intend to transition out of, or have already transitioned out of, because they are no longer strategic to our business. Products currently included in this category include TV camera, Digital Video Security, TV and home speakers, Google TV products, and Keyboard/Desktop accessories.

During fiscal year 2014, retail sales of this category decreased 57% and units sold decreased 64%, compared to fiscal year 2013.

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

Table of Contents

During fiscal year 2013, retail sales of this category decreased 46% and units sold decreased 37%, compared to fiscal year 2012.

OEM

During fiscal year 2014, OEM sales and units sold remained flat compared to fiscal year 2013.

During fiscal year 2013, OEM sales decreased 24% and units sold decreased 12%, compared to fiscal year 2012. These declines were primarily due to lower sales in pointing devices and the keyboard/desktop category.

Video Conferencing

During fiscal year 2014, video conferencing sales decreased 12% compared to fiscal year 2013. The decrease was primarily due to a combination of a changing industry landscape caused by a shift to less expensive, cloud-based video conferencing solutions, an evolving Lifesize product line and challenges in execution experienced in all geographic regions.

During fiscal year 2013, video conferencing sales decreased 7% compared to fiscal year 2012. The decrease was impacted by the slowdown in the overall video conferencing industry, together with the competitive environment in fiscal year 2013 and lower demand related to new product launches.

Gross Profit

Gross profit for fiscal years 2014, 2013 and 2012 was as follows (in thousands):

	Years Ended March 31,			Change	
	2014	2013	2012	2014 vs. 2013	2013 vs. 2012
		As Revised	As Restated		
Net sales	\$ 2,128,713	\$ 2,099,277	\$ 2,316,203	1%	(9)%
Cost of goods sold	1,400,844	1,389,643	1,508,670	1	(8)
Gross profit	\$ 727,869	\$ 709,634	\$ 807,533	3	(12)

Gross margin 34.2% 33.8% 34.9%

Gross profit consists of net sales, less cost of goods sold, which includes materials, direct labor and related overhead costs, costs of manufacturing facilities, costs of purchasing components from outside suppliers, distribution costs, outside processing costs, write-down of inventories and amortization of intangible assets.

The increase in gross margin during fiscal year 2014, compared to fiscal year 2013, was primarily due to cost improvements across all of our PC-related categories and from actions we took since fiscal year 2013 to streamline our product portfolio, revalue inventory of several discontinued Music category products and the discontinuation of projects in 2013 due to restructuring.

Gross margin for fiscal year 2013 decreased, compared to fiscal year 2012. During fiscal year 2013, we experienced gross margin improvement from improvements to our global supply chain process. These improvements were almost entirely offset by an unfavorable change in retail product mix, the negative impact of a weaker euro, a charge to revalue our inventory of several headphones and a large form-factor wireless speaker included in our mobile speakers retail product category, pricing actions related to the simplification of our product portfolio in Americas and EMEA regions, costs related to product development efforts that were discontinued as a result of our restructuring plans during fiscal year 2013, and a provision for a patent dispute.

Table of Contents**Operating Expenses**

Operating expenses for fiscal years 2014, 2013 and 2012 were as follows (in thousands):

	Years Ended March 31,			Change	
	2014	2013 As Revised	2012 As Restated	2014 vs. 2013	2013 vs. 2012
Marketing and selling	\$ 379,747	\$ 431,886	\$ 422,116	(12)%	2%
% of net sales	17.8%	20.6%	18.2%		
Research and development	139,385	155,012	162,159	(10)	(4)
% of net sales	6.5%	7.4%	7.0%		
General and administrative	118,940	114,381	109,260	4	5
% of net sales	5.6%	5.4%	4.7%		
Impairment of goodwill and other assets		216,688		(100)	
% of net sales	0.0%	10.3%	0.0%		
Restructuring charges	13,811	43,704		(68)	
% of net sales	0.7%	2.1%	0.0%		
Total operating expenses	\$ 651,883	\$ 961,671	\$ 693,535	(32)	39

% of net sales 30.6% 45.8% 29.9%

The decrease in total operating expenses during fiscal year 2014, compared to fiscal year 2013, was primarily due to the \$216.7 million impairment of goodwill and other assets recorded in fiscal year 2013, combined with the restructuring plans initiated in fiscal year 2013, which reduced personnel-related expenses in fiscal year 2014 and resulted in a \$30.0 million decrease in restructuring expenses.

The increase in total operating expenses during fiscal year 2013, compared to fiscal year 2012, was mainly due to the \$216.7 million impairment charge of goodwill and other assets primarily related to the Lifesize business and from the \$43.7 million in costs related to restructuring plans we implemented in fiscal year 2013.

Marketing and Selling

Marketing and selling expense consists of personnel and related overhead costs, corporate and product marketing, promotions, advertising, trade shows, customer and technical support and facilities costs.

During fiscal year 2014, marketing and selling expenses decreased 12%, compared to fiscal year 2013. The decrease was primarily due to \$15 million lower personnel-related expenses from the reduction in Lifesize worldwide workforce restructuring and \$24 million lower advertising and marketing cost related to the launch of new Music category in fiscal year 2013.

During fiscal year 2013, marketing and selling expense increased 2%, compared to fiscal year 2012. We experienced increased advertising, product design, consulting and marketing expenses associated with the launch of new music products, which were partially offset by decreases in personnel-related expense from restructuring plans we implemented during fiscal year 2013, and reduction in Digital Home category marketing cost.

Table of Contents

Research and Development

Research and development expense consists of personnel and related overhead costs, contractors and outside consultants, supplies and materials, equipment depreciation and facilities costs, all associated with the design and development of new products and enhancements of existing products.

During fiscal year 2014, research and development expense decreased 10%, compared to fiscal year 2013. The decrease was primarily due to \$6 million lower personnel-related expenses from the reduction in Lifesize worldwide restructuring and \$9 million lower design and development cost related to the fiscal year 2013 launch of the new Music category.

During fiscal year 2013, research and development expense decreased 4%, compared to fiscal year 2012. The decrease was primarily due to a decrease in personnel related expenses due to the reduction in worldwide workforce resulting from our restructuring plans.

General and Administrative

General and administrative expense consists primarily of personnel and related overhead and facilities costs for the finance, information systems, executive, human resources and legal functions.

During fiscal year 2014, general and administrative expense increased 4%, compared to fiscal year 2013. The increase was primarily due to \$8 million increase in personnel-related expense due to higher variable compensation costs related to our improved performance and share-based compensation expense, partially offset by \$4 million decrease of facility related expenses due to our recent restructuring plans which occurred during fiscal year 2013.

During fiscal year 2013, general and administrative expense increased 5%, compared to fiscal year 2012. The increase was primarily due to the gain on sale of property and plant related to unused manufacturing properties in China which impacted fiscal year 2012 and from the write-off of the remaining lease obligations resulting from the exit of our former U.S. corporate offices during fiscal year 2013, partially offset by a decrease in personnel-related expenses and share-based compensation expense due to the reduction in worldwide workforce from our restructuring plans during fiscal year 2013.

Impairment of Goodwill and Other Assets

There was no impairment of goodwill and other assets for fiscal year 2014. We recorded an impairment charge of goodwill and other assets of \$216.7 million primarily related to the Lifesize business in fiscal year 2013.

While performing our annual goodwill impairment analysis of each of our reporting units as of December 31, 2012, we determined that our video conferencing reporting unit's estimated fair value was less than its carrying value, thus requiring a Step 2 assessment of this reporting unit. This impairment primarily resulted from a decrease in our expected CAGR during the assessment forecast period based on greater evidence of the overall enterprise video conferencing industry experiencing a slowdown in recent quarters, combined with lower demand related to new product launches, increased competition in fiscal year 2013 and other market data. The Step 2 test required us to fair value all assets and liabilities of our video conferencing reporting unit to determine the implied fair value of this reporting unit's goodwill. We were unable to complete the Step 2 analysis prior to filing of our Form 10-Q for the quarterly period ended December 31, 2012 due to the complexities of determining the implied fair value of goodwill of our video conferencing reporting unit. Based on our work performed during the third quarter of fiscal year 2013, we initially recorded an estimated goodwill impairment charge of \$211.0 million. During the fourth quarter of fiscal year 2013, we completed this goodwill impairment assessment and recorded an additional \$3.5 million in goodwill impairment charge related to our video conferencing reporting unit. During the fourth quarter of fiscal year 2013, we also recorded impairment charges of \$2.1 million related to our

Table of Contents

digital video security product line, included within our retail video product category, which we plan to divest.

Restructuring Charges

Our restructuring activities were mainly attributable to the peripherals operating segment. The following table summarizes restructuring-related activities during the years ended March 31, 2014 and 2013 (in thousands):

	Restructuring			Total
	Termination Benefits	Lease Exit Costs	Other	
March 31, 2012	\$	\$	\$	\$
Charges	41,088	1,308	1,308	43,704
Cash payments	(27,768)	(1,233)	(1,322)	(30,323)
Foreign exchange impact	63		14	77
March 31, 2013	13,383	75		13,458
Charges	6,463	7,348		13,811
Adjustment for deferred rent		1,450		1,450
Cash payments	(19,534)	(1,454)		(20,988)
Foreign exchange impact	(170)			(170)
March 31, 2014	\$ 142	\$ 7,419	\$	\$ 7,561

During the second quarter of fiscal year 2014, we implemented a restructuring plan solely affecting our video conferencing operating segment to align its organization to its strategic priorities of increasing focus on a tighter range of products, expanding cloud-based video conferencing services and improving profitability. Restructuring charges under this plan primarily consist of severance and other one-time termination benefits. During fiscal year 2014, restructuring charges under this plan included \$5.0 million in termination benefits and \$0.6 million in lease exit costs. We substantially completed this restructuring plan by March 31, 2014.

During the fourth quarter of fiscal year 2013, we implemented a restructuring plan to align our organization to our strategic priorities of increasing focus on mobility products, improving profitability in PC-related products and enhancing global operational efficiencies. As part of this restructuring plan, we reduced our worldwide non-direct labor workforce. Restructuring charges under this plan primarily consisted of severance and other one-time termination benefits. During fiscal year 2014, restructuring charges under this plan included \$1.5 million in termination benefits and \$6.7 million in lease exit costs, \$5.4 million of which pertains to the consolidation our Silicon Valley campus from two buildings down to one during the quarter ended March 31, 2014. During fiscal year 2013, restructuring charges under this plan included \$15.2 million in termination benefits to affected employees. We substantially completed this restructuring plan by the fourth quarter of fiscal year 2014.

During the first quarter of fiscal year 2013, we implemented a restructuring plan to simplify our organization, better align our costs with our current business and to free up resources to pursue growth opportunities. A majority of the restructuring activity was completed during the first quarter of fiscal year 2013. As part of this restructuring plan, we reduced our worldwide non-direct labor workforce. During fiscal year 2013, restructuring charges under this plan included \$25.9 million in termination benefits, \$1.3 million in legal, consulting, and other costs as a result of the terminations, and \$1.3 million in lease exit costs associated with the closure of existing facilities. Termination benefits are calculated based on regional benefit practices and local statutory requirements. We substantially completed this restructuring plan by the fourth quarter of fiscal year 2013.

Table of Contents**Interest Income (Expense), Net**

Interest income and expense for fiscal years 2014, 2013 and 2012 were as follows (in thousands):

	Years Ended March 31,		
	2014	2013	2012
Interest income	\$ 1,831	\$ 2,215	\$ 3,121
Interest expense	(2,228)	(1,308)	(447)
	\$ (397)	\$ 907	\$ 2,674

Interest income slightly decreased during fiscal year 2014 compared to fiscal year 2013.

Interest expense increased during fiscal year 2014, compared to fiscal year 2013. The increase was primarily due to the write-off of \$1.0 million in amortized loan fees related to our \$250.0 million Senior Revolving Credit Facility which we chose to terminate during fiscal year 2014.

Interest income decreased during fiscal year 2013, compared to fiscal year 2012. The decrease was primarily due to lower invested balances resulting from the \$133.5 million cash dividend payment made in September 2012 and from the \$87.8 million paid to repurchase 8.6 million shares under our amended September 2008 buyback program.

Interest expense increased during fiscal year 2013, compared to fiscal year 2012. The increase was primarily due to commitment fees and non-recurring fees related to our \$250 million Senior Revolving Credit Facility entered into in December 2011.

Other Income (Expense), Net

Other income and expense for fiscal years 2014, 2013 and 2012 were as follows (in thousands):

	Years Ended March 31,		
	2014	2013	2012
Investment income related to deferred compensation plan	\$ 1,487	\$ 933	\$ 227
Gain on sale of securities		831	6,109
Impairment of investments	(624)	(3,600)	
Foreign currency exchange gain, net	62	104	1,575
Other	1,068	(466)	(256)
	\$ 1,993	\$ (2,198)	\$ 7,655

Investment income for fiscal years 2014, 2013 and 2012 represents earnings, gains, and losses on trading investments related to a deferred compensation plan offered by one of our subsidiaries.

The \$0.6 million and \$3.6 million investment impairment charges in fiscal years 2014 and 2013, respectively, resulted from the write-down of an investment in a privately-held company.

During fiscal year 2013, we sold the remaining two of our available-for-sale securities with a total carrying value of \$0.4 million and a total par value of \$15.2 million for \$0.9 million. This sale resulted in \$0.8 million gain recognized in other income (expense), \$0.3 million of which

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

resulted from the recognition of a temporary increase in fair value previously recorded in accumulated other comprehensive loss.

During fiscal year 2012, we sold two of our available-for-sale securities, with a total carrying value of \$0.5 million and a total par value of \$10.0 million, for \$6.6 million, resulting in a gain of \$6.1 million.

Foreign currency exchange gains or losses relate to balances denominated in currencies other than the functional currency in one of our subsidiaries, as well as to the sale of currencies, and to gains or losses

Table of Contents

recognized on foreign exchange forward contracts. We do not speculate in currency positions, but we are alert to opportunities to maximize foreign exchange gains.

Provision for (Benefit from) Income Taxes

The provision for (benefit from) income taxes and effective income tax rate for fiscal years 2014, 2013 and 2012 were as follows (in thousands):

	Years Ended March 31,		
	2014	2013	2012
		As Revised	As Restated
Provision for (benefit from) income taxes	\$ 3,278	\$ (25,810)	\$ 20,090
Effective income tax rate	4.2%	10.2%	16.2%

The provision for income taxes consists of income and withholding taxes. We operate in multiple jurisdictions and our profits are taxed pursuant to the tax laws of these jurisdictions. Our effective income tax rate may be affected by changes in or interpretations of tax laws and tax agreements in any given jurisdiction, utilization of net operating loss and tax credit carryforwards, changes in geographical mix of income and expense, and changes in management's assessment of matters such as the ability to realize deferred tax assets.

The change in the effective income tax rate between fiscal year 2014 and 2013 was primarily due to the mix of income and losses in the various tax jurisdictions in which we operate and a tax benefit of \$14.3 million during fiscal year 2014, related to the reversal of uncertain tax positions resulting from the expiration of the statutes of limitations. In fiscal year 2013, there was a tax benefit of \$35.6 million related to the reversal of uncertain tax positions resulting from the closure of federal income tax examinations in the United States.

The change in the effective income tax rate between fiscal year 2013 and 2012 was primarily due to the mix of income and losses in the various tax jurisdictions in which we operate and a tax benefit of \$35.6 million during fiscal year 2013, related to the reversal of uncertain tax positions resulting from the closure of federal income tax examinations in the United States.

The federal research tax credit in the United States has expired as of December 31, 2013. The income tax expense for the fiscal year ended March 31, 2014 reflected a \$0.8 million tax benefit for research tax credits.

As of March 31, 2014 and March 31, 2013, the total amount of unrecognized tax benefits due to uncertain tax positions was \$91.0 million and \$95.4 million, respectively, of which \$86.1 million and \$90.3 million would affect the effective income tax rate if recognized, respectively.

As of March 31, 2014, we had \$93.1 million in non-current income taxes payable and \$0.3 million in current income taxes payable, including interest and penalties, related to our income tax liability for uncertain tax positions. As of March 31, 2013, we had \$98.8 million in non-current income taxes payable.

We continue to recognize interest and penalties related to unrecognized tax positions in income tax expense. We recognized \$1.1 million, \$1.0 million and \$1.2 million in interest and penalties in income tax expense during fiscal years 2014, 2013 and 2012, respectively. As of March 31, 2014, 2013 and 2012, we had approximately \$5.6 million, \$6.6 million and \$7.5 million of accrued interest and penalties related to uncertain tax positions.

We file Swiss and foreign tax returns. For all these tax returns, we are generally not subject to tax examinations for years prior to fiscal year 2001. We are under examination and have received assessment notices in foreign tax jurisdictions. At this time, we are not able to estimate the potential impact that these examinations may have on income tax expense. If the examinations are resolved unfavorably, there is a possibility they may have a material negative impact on our results of operations.

Table of Contents

Liquidity and Capital Resources

Cash Balances, Available Borrowings, and Capital Resources

As of March 31, 2014, we had cash and cash equivalents of \$469.4 million, compared with \$333.8 million at March 31, 2013. Our cash and cash equivalents consist of bank demand deposits and short-term time deposits of which 73% is held by our Swiss-based entities and 12% is held by our subsidiaries in Hong Kong and China. We do not expect to incur any material adverse tax impact or be significantly inhibited by any country in which we do business from the repatriation of funds to Switzerland, our home domicile.

At March 31, 2014, our working capital was \$478.2 million compared with working capital of \$385.1 million at March 31, 2013. The increase in working capital over the prior year was primarily due to higher cash balances offset by low inventory balances at March 31, 2014.

During fiscal year 2014, we generated \$205.4 million from operating activities. Our main sources of operating cash flows were from net income after adding back non-cash expenses of depreciation, amortization, and share-based compensation expense, from an increase in accrued and other liabilities and from a decrease in inventories. Net cash used in investing activities was \$46.8 million, primarily for purchase of property, plant, and equipment of \$46.7 million. Net cash used in financing activities was \$22.7 million, primarily for the \$36.1 million cash dividends, partially offset by \$16.9 million in proceeds received from the sale of shares upon exercise of options and purchase rights.

During fiscal year 2013, we generated \$122.4 million of cash flow from operating activities. Our main sources of operating cash flows were net loss after adding back non-cash expenses of depreciation, amortization, impairment of goodwill and other assets, investment impairment, share-based compensation expense, and from decreases in accounts receivables and inventories. These sources of operating cash flows were offset in part by decreases in accounts payables and accrued liabilities and an increase in other assets. Net cash used in investing activities was \$57.7 million, primarily for \$54.5 million of investments in leasehold improvements, computer hardware and software, tooling and equipment and for our strategic investments of \$4.4 million. Net cash used in financing activities was \$207.6 million, primarily for the \$133.5 million cash dividend payment and for the \$87.8 million used to repurchase 8.6 million shares under our share buyback program, partially offset by \$16.0 million in proceeds received from sale of shares upon exercise of options and purchase rights.

In December 2011, we entered into a Senior Revolving Credit Facility Agreement ("Credit Facility") with a group of primarily Swiss banks that provided for a revolving multicurrency unsecured credit facility in the amount of up to \$250.0 million and subject to certain requirements, permitted us to arrange with existing or new lenders to provide up to an aggregate of \$150.0 million in additional commitments, for a total of \$400.0 million. We also paid a quarterly commitment fee of 40% of the applicable margin on the available commitment. In December 2013, given the significant improvement in our financial performance and outlook, we chose to terminate this Credit Facility and wrote-off the capitalized commitment fees totaling \$1.0 million. There were no outstanding borrowings at the time of termination.

We had several uncommitted, unsecured bank lines of credit aggregating to \$40.0 million as of March 31, 2014. There are no financial covenants under these lines of credit which we must comply with. As of March 31, 2014, we had outstanding bank guarantees of \$7.1 million under these lines of credit. We also had credit lines related to corporate credit cards totaling \$6.9 million as of March 31, 2014. There are no financial covenants under these credit lines.

We file Swiss and foreign tax returns. For all these tax returns, we are generally not subject to tax examinations for years prior to fiscal year 2001. We are under examination and have received assessment notices in foreign tax jurisdictions. At this time, we are not able to estimate the potential impact that these examinations may have on income tax expense. If the examinations are resolved unfavorably, there is a possibility they may have a material negative impact on our results of operations.

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

Table of Contents

Although we have adequately provided for uncertain tax positions, the provisions on these positions may change as revised estimates are made or the underlying matters are settled or otherwise resolved. It is reasonably possible that resolutions in the next 12 months could increase or decrease the balance of our unrecognized tax benefits but we are not able to estimate the change at this time.

The following table summarizes our Consolidated Statements of Cash Flows (in thousands):

	Years Ended March 31,		
	2014	2013	2012
		As Revised	As Restated
Net cash provided by operating activities	\$ 205,421	\$ 122,389	\$ 202,534
Net cash used in investing activities	(46,803)	(57,723)	(57,602)
Net cash used in financing activities	(22,681)	(207,641)	(139,374)
Effect of exchange rate changes on cash and cash equivalents	(349)	(1,571)	(5,119)
Net increase (decrease) in cash and cash equivalents	\$ 135,588	\$ (144,546)	\$ 439

Cash Flow from Operating Activities

The following table presents selected financial information and statistics for fiscal years 2014, 2013 and 2012 (dollars in thousands):

	March 31,		
	2014	2013	2012
		As Revised	As Restated
Accounts receivable, net	\$ 182,029	\$ 178,959	\$ 223,104
Inventories	222,402	262,644	297,072
Working capital	478,213	385,073	574,944
Days sales in accounts receivable ("DSO")(1)	34 days	34 days	38 days
Inventory turnover ("ITO")(2)	5.9x	4.7x	4.6x

(1) DSO is determined using ending accounts receivable as of the most recent quarter-end and net sales for the most recent quarter.

(2) ITO is determined using ending inventories and annualized cost of goods sold (based on the most recent quarterly cost of goods sold).

DSO as of March 31, 2014 remained flat compared to March 31, 2013.

DSO as of March 31, 2013 decreased 4 days, compared to March 31, 2012. The decrease was primarily due to improvement in cash collections.

Typical payment terms require customers to pay for product sales generally within 30 to 60 days. However, terms may vary by customer type, by country and by selling season. Extended payment terms are sometimes offered to a limited number of customers during the quarters ended September 30 and December 31. We do not modify payment terms on existing receivables, but may offer discounts for early payment.

ITO as of March 31, 2014 increased, compared to March 31, 2013. The increase was primarily due to lower inventory levels in relation to net sales during the fourth quarter of fiscal year 2014.

ITO as of March 31, 2013 increased, compared to March 31, 2012. The increase was primarily due to lower inventory levels at March 31, 2013 in relation to net sales during the fourth quarter of fiscal year 2013.

Table of Contents*Cash Flow from Investing Activities*

	Years Ended March 31,		
	2014	2013 As Revised	2012 As Restated
Purchases of property, plant and equipment	(46,658)	(54,487)	(54,199)
Purchase of strategic investment	(300)	(4,420)	
Acquisitions, net of cash acquired	(650)		(18,814)
Proceeds from sales of available-for-sale securities		917	6,550
Proceeds from return of investment from strategic investments	261		
Proceeds from sales of property and equipment			8,967
Purchase of trading investments	(8,450)	(4,196)	(7,505)
Proceeds from sales of trading investments	8,994	4,463	7,399
	(46,803)	(57,723)	(57,602)

Our expenditures for property, plant and equipment during fiscal year 2014, 2013 and 2012 were primarily expenditures for leasehold improvements, computer hardware and software, tooling and equipment.

During fiscal year 2014, purchases of property, plant and equipment decreased, compared to fiscal year 2013, primarily due to leasehold improvements related to our new Silicon Valley campus during fiscal year 2013. During fiscal year 2014, we made a \$0.7 million investment. During fiscal year 2013, we sold our two remaining available-for-sale securities for \$0.9 million.

During fiscal year 2013, we purchased a strategic investment for \$4.0 million in exchange for convertible preferred stock. We accounted for this investment under the cost method of accounting since we have less than a 20% ownership interest and we lack the ability to exercise significant influence over the operating and financial policies of the investee. We also purchased another strategic investment for \$0.4 million in exchange for approximate 20% ownership interest. We accounted for this investment under the equity method of accounting since we have the ability to exercise significant influence over the operating and financial policies of the investee. In addition, we sold our two remaining available-for-sale securities for \$0.9 million.

During fiscal year 2012, \$54.2 million capital investment activity was primarily due to leasehold improvements related to our new Americas headquarters. We also acquired Mirial S.r.l. for a total consideration of \$18.8 million (€13.0 million), net of cash acquired of \$1.4 million (€1.0 million). Proceeds from the sale of property and plant related to the sale of unused manufacturing properties in China.

Table of Contents

The purchases and sales of trading investments during fiscal years 2014, 2013 and 2012 represent mutual fund activity directed by participants in a deferred compensation plan offered by one of our subsidiaries. The mutual funds are held by a Rabbi Trust.

Cash Flow from Financing Activities

	Years Ended March 31,		
	2014	2013	2012
Payment of cash dividends	(36,123)	(133,462)	
Purchases of treasury shares		(87,812)	(156,036)
Proceeds from sales of shares upon exercise of options and purchase rights	16,914	15,982	17,591
Tax withholdings related to net share settlements of restricted stock units	(5,718)	(2,375)	(966)
Excess tax benefits from share-based compensation	2,246	26	37
	(22,681)	(207,641)	(139,374)

During fiscal year 2014, we paid an annual cash dividend of \$36.1 million, compared to a special one-time distribution of \$133.5 million during fiscal year 2013.

There was no stock repurchase activity during fiscal year 2014. During fiscal year 2013, we repurchased 8.6 million shares for \$87.8 million, compared to 17.5 million shares for \$156.0 million during fiscal year 2012.

Proceed from the sale of shares upon exercise of options and purchase rights pursuant our stock plans during fiscal years 2014, 2013 and 2012 was \$16.9 million, \$16.0 million and \$17.6 million, respectively. The payment of tax withholdings related to net share settlements of RSUs (restricted stock units) required during fiscal years 2014, 2013 and 2012 was \$5.7 million, \$2.4 million and \$1.0 million, respectively.

Cash Outlook

Our principal sources of liquidity are our cash and cash equivalents, cash flow generated from operations and, to a much lesser extent, capital markets and borrowings. Our future working capital requirements and capital expenditures may increase to support investment in product innovations and growth opportunities, or to acquire or invest in complementary businesses, products, services, and technologies.

In March 2014, our Board of Directors approved a new share buyback program, which authorizes us to invest up to \$250.0 million to purchase our own shares. Our share buyback program provides us with the opportunity to make opportunistic repurchases during periods of favorable market conditions and is expected to remain in effect for a period of three years. Shares may be repurchased from time to time on the open market, through block trades or otherwise. Purchases may be started or stopped at any time without prior notice depending on market conditions and other factors.

We file Swiss and foreign tax returns. For all these tax returns, we are generally not subject to tax examinations for years prior to fiscal year 2001. We are under examination and have received assessment notices in foreign tax jurisdictions. At this time, we are not able to estimate the potential impact that these examinations may have on income tax expense. If the examinations are resolved unfavorably, there is a possibility they may have a material negative impact on our results of operations.

During the second quarter of fiscal year 2014, we implemented a restructuring plan solely affecting our video conferencing operating segment to align our organization to our strategic priorities of increasing focus on a tighter range of products, expanding cloud-based video conferencing services and improving

Table of Contents

profitability. During the fourth quarter of fiscal year 2013, we implemented an additional restructuring plan to realign our organization to increase our focus on mobility products, improve profitability in PC-related products and enhance our global operational efficiencies.

Our other contractual obligations and commitments that require cash are described in the following sections.

For over ten years, we have generated positive cash flows from our operating activities, including cash from operations of \$205.4 million, \$122.4 million and \$202.5 million during fiscal years 2014, 2013 and 2012, respectively. During fiscal year 2013, our level of cash and cash equivalents was significantly reduced by the distribution of CHF 125.7 million (U.S. dollar amount of \$133.5 million) out of retained earnings, and by the \$87.8 million in share repurchases. During fiscal year 2014, we paid a cash dividend of CHF 33.7 million (U.S. dollar amount of \$36.1 million) out of retained earnings. On November 12, 2014, the Board approved, subject to approval by our shareholders and other Swiss statutory requirements, a dividend of CHF 0.2625 per share. We plan to issue an annual dividend on a recurring basis. If we do not generate sufficient operating cash flows to support our operations and future planned cash requirements, our operations could be harmed and our access to credit facilities could be restricted or eliminated. However, we believe that the trend of our historical cash flow generation, our projections of future operations and reduced expenses and our available cash balances will provide sufficient liquidity to fund our operations for at least the next 12 months.

Contractual Obligations and Commitments

As of March 31, 2014, our outstanding contractual obligations and commitments included: (i) facilities leased under operating lease commitments, (ii) purchase commitments and obligations, (iii) long-term liabilities for income taxes payable, and (iv) defined benefit pension plan and non-retirement post-employment benefit obligations. The following summarizes our contractual obligations and commitments as of March 31, 2014 (in thousands):

	March 31, 2014	Payments Due by Period			
		<1 year	1-3 years	4-5 years	>5 years
Inventory commitments	\$ 102,760	\$ 102,760	\$	\$	\$
Operating expenses	45,969	45,969			
Capital commitments	12,994	12,994			
Operating leases	77,949	17,022	32,947	7,172	20,808
Income taxes payable(3)	93,126				
Obligation for deferred compensation(1)	16,611				
Employee benefit plan obligation(1)	38,999				
Other non-current obligations(2)	1,715				
	\$ 390,123	\$ 178,745	\$ 32,947	\$ 7,172	\$ 20,808

(1) As specific payment dates for these obligations are unknown, the related balances have not been reflected in the "Payments Due by Period" section of the table. We expect to contribute \$5.3 million to our defined benefit pension plans during fiscal year 2015.

(2) Other long-term liabilities at March 31, 2014 related to various other obligations. As specific payment dates for these obligations are unknown, the related balances have not been reflected in the "Payments Due by Period" section of the table.

Table of Contents

- (3) As specific payment dates to settle the income taxes payable are unknown at March 31, 2014, the related balances have not been reflected in the "Payments Due by Period" section of the table.

Operating Leases

We lease facilities under operating leases, certain of which require us to pay property taxes, insurance and maintenance costs. Operating leases for facilities are generally renewable at our option and usually include escalation clauses linked to inflation. The remaining terms on our non-cancelable operating leases expire in various years through 2028. The liability for asset retirement obligations was not material for fiscal years 2014, 2013, and 2012.

Purchase Commitments

As of March 31, 2014, we have fixed purchase commitments of \$102.8 million for inventory purchases made in the normal course of business to original design manufacturers, contract manufacturers and other suppliers, the majority of which are expected to be fulfilled during the first quarter of fiscal year 2015. We also had commitments of \$46.0 million for consulting services, marketing arrangements, advertising, outsourced customer services, information technology maintenance and support services, and other services. Fixed purchase commitments for capital expenditures amounted to \$13.0 million and primarily relate to commitments for computer hardware and leasehold improvements. We expect to continue making capital expenditures in the future to support product development activities and ongoing and expanded operations. Although open purchase commitments are considered enforceable and legally binding, the terms generally allow us the option to reschedule and adjust our requirements based on business needs prior to delivery of goods or performance of services.

Income Taxes Payable

As of March 31, 2014, we had \$93.1 million in non-current income taxes payable and \$0.3 million in current income taxes payable, including interest and penalties, related to our income tax liability for uncertain tax positions. As of March 31, 2013, we had \$98.8 million in non-current income taxes payable.

We file Swiss and foreign tax returns. For all these tax returns, we are generally not subject to tax examinations for years prior to fiscal year 2001. We are under examination and have received assessment notices in foreign tax jurisdictions. At this time, we are not able to estimate the potential impact that these examinations may have on income tax expense. If the examinations are resolved unfavorably, there is a possibility they may have a material negative impact on our results of operations.

Obligation for Management Deferred Compensation

At March 31, 2014, we had \$16.6 million in liabilities related to a deferred compensation plan offered by one of our subsidiaries. See Note 5, *Employee Benefit Plans*, for more information.

Pension and Post-Employment Obligations

At March 31, 2014, we had \$39.0 million in liabilities related to our defined benefit pension plans and non-retirement post-employment benefit obligations, of which \$1.1 million is payable in the next 12 months. See Note 5, *Employee Benefit Plans*, for more information.

Off-Balance Sheet Arrangements

We have not entered into any transactions with unconsolidated entities whereby we have financial guarantees, subordinated retained interests, derivative instruments or other contingent arrangements that expose us to material continuing risks, contingent liabilities, or any other obligation under a variable

Table of Contents

interest in an unconsolidated entity that provides financing, liquidity, market risk or credit risk support to us.

Other Contingencies:

As previously announced, some of the issues reviewed by the Audit Committee are also the subject of an ongoing formal investigation by the SEC, including the accounting for Revue inventory valuation reserves that resulted in the restatement, revision to the Company's financial statements concerning warranty accruals and amortization of intangible assets presented in our Form 10-K/A, filed on August 7, 2013, and the Company's transactions with a distributor for Fiscal Year 2007 through Fiscal Year 2009. The Company is cooperating with the SEC in its ongoing investigation. The Company has entered into an agreement with the SEC to extend the statute of limitations. The Company cannot predict the outcome of the investigation at this time and any potential fines or penalties, if any, that may arise from the investigation are currently not estimable.

Guarantees

Logitech International S.A., the parent holding company, has issued several parent guarantees on behalf of its subsidiaries. The maximum potential future payment under the guarantee arrangements is limited to \$80.0 million. As of March 31, 2014, there were no purchase obligations outstanding for which the parent holding company was required to guarantee payment.

Logitech Europe S.A., a subsidiary of the parent holding company, has guaranteed the purchase obligations of another Logitech subsidiary under a guarantee agreement. This guarantee does not specify a maximum amount. As of March 31, 2014, the amount of purchase obligations outstanding under this guarantee was immaterial. In addition, Logitech Europe S.A. also guaranteed payments of a third-party contract manufacturer's purchase obligations. As of March 31, 2014, the maximum amount of this guarantee was \$3.5 million, of which \$2.3 million of guaranteed purchase obligations were outstanding.

Indemnifications

We indemnify certain of our suppliers and customers for losses arising from matters such as intellectual property disputes and product safety defects, subject to certain restrictions. The scope of these indemnities varies, but in some instances, includes indemnification for damages and expenses, including reasonable attorneys' fees. As of March 31, 2014, no amounts have been accrued for indemnification provisions. We do not believe, based on historical experience and information currently available, that it is probable that any material amounts will be required to be paid under our indemnification arrangements.

We also indemnify our current and former directors and certain of our current and former officers. Certain costs incurred for providing such indemnification may be recoverable under various insurance policies. We are unable to reasonably estimate the maximum amount that could be payable under these arrangements because these exposures are not capped, the obligations are conditional in nature, and the facts and circumstances involved in any situation that might arise are variable.

Research and Development

For a discussion of the Company's research and development activities, patents and licenses, please refer to Item 1, Business.

Quarterly Results of Operations

As a result of the findings of the Audit Committee's independent investigation, we have restated our unaudited quarterly financial data for the quarter ended June 30, 2011, our discussion and analysis regarding our results of operations and cash flows for that quarter as is set forth below. For additional details, see Note 2 of Notes to our Consolidated Financial Statements and the Company's Supplementary

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

Table of Contents

Data consisting of unaudited quarterly financial data immediately following Note 16 of Notes to our Consolidated Financial Statements in Part II, Item 8.

	Three months ended June 30,	
	2011	2010
	As Restated	As Revised
Net sales	\$ 480,441	\$ 479,330
Cost of goods sold	321,693	310,046
Gross profit	158,748	169,284
Operating expenses:		
Marketing and selling	98,891	91,338
Research and development	40,022	38,264
General and administrative	26,096	27,271

Net Sales

Net sales by channel for the three months ended June 30, 2011 and 2010 were as follows (in thousands):

	Three Months Ended June 30,		
	2011	2010	Change %
Retail	\$ 394,776	\$ 393,867	0%
OEM	49,178	58,335	(16)%
LifeSize	36,487	27,128	34%

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

Total net sales	\$	480,441	\$	479,330	0%
-----------------	----	---------	----	---------	----

Our total net sales were approximately the same in the fiscal quarters ended June 30, 2011 and 2010. Growth in retail sales of the Asia Pacific region and the LifeSize division sales were offset by essentially flat retail sales in Americas region and declines in the EMEA region retail sales and OEM sales. Approximately 32% and 39% of the Company's total net sales were denominated in currencies other than the U.S. dollar in the three months ended June 30, 2011 and 2010. If foreign currency exchange rates had been the same in three months ended June 30, 2011 and 2010, our constant dollar total net sales decrease would have been 4%.

Table of Contents

Retail units sold increased 2% and our overall retail average selling price decreased 2% in the three months ended June 30, 2011 compared with the three months ended June 30, 2010. Sales of our retail products priced above \$100 represented approximately 15% of our total retail sales in both the three months ended June 30, 2011 and 2010. Products priced below \$40 represented approximately 57% of retail sales in the fiscal quarter ended June 30, 2011 compared with 61% in the fiscal quarter ended June 30, 2010. If foreign currency exchange rates had been the same in three months ended June 30, 2011 and 2010, our constant dollar retail sales decrease would have been 5%.

Units sold to OEM customers declined 22% during the fiscal quarter ended June 30, 2011 compared with the same period in the prior fiscal year, primarily due to decreased sales of our OEM mice and microphones for console singing games. Sales of our OEM mice decreased 12% and units sold decreased 19% during the quarter compared with the same period in the prior fiscal year. Microphone sales decreased by 91% in the three months ended June 30, 2011 compared with the three months ended June 30, 2010. Sales of OEM keyboards and desktops increased 17% in dollars during the quarter compared with the prior year, with unit sales essentially flat between the two periods.

LifeSize net sales represent sales of video conferencing units and related software and services. Sales of our LifeSize products increased 34% in the three months ended June 30, 2011 compared with the three months ended June 30, 2010. Foreign currency exchange rates did not affect LifeSize sales.

Retail Sales by Region

The following table presents the change in retail sales by region for the three months ended June 30, 2011 compared with the three months ended June 30, 2010.

	Three months ended June 30, 2011
EMEA	(14)%
Americas	1%
Asia Pacific	29%

Retail sales in the EMEA region declined due to weak consumer demand for our products across much of Western Europe, most notably in the mature markets of Southern Europe such as Italy and Spain, where the economic environment was particularly challenging. The largest retail sales declines in EMEA occurred in the audio, digital home and pointing devices product families. Our constant dollar retail sales decrease in the EMEA region would have been 23%, if foreign currency exchange rates had been the same in the three months ended June 30, 2011 and 2010. Retail units sold during the three months ended June 30, 2011 decreased 13% compared with the prior year, in line with the sales dollar decrease. Despite the weak demand, the overall level of inventory carried by our channel partners declined by 22% from March 31, 2011 to June 30, 2011. We believe we have largely stabilized the EMEA-specific pricing and channel management programs which created the execution issues that negatively impacted our profitability in the fourth quarter of fiscal year 2011. However, we believe that full implementation of the necessary operational changes will continue through the remainder of fiscal year 2012 which has resulted in a reduction of our expectation for EMEA sales in fiscal year 2012. During the three months ended June 30, 2011, we did achieve strong growth in EMEA's emerging markets, particularly Russia, and sell-through in Germany, our largest market in EMEA, improved in the three months ended June 30, 2011 compared with the three months ended March 31, 2011.

In Americas region, retail sales increased 1% and retail units sold were flat in the three months ended June 30, 2011 compared with the same period in the prior fiscal year, primarily due to a 36% sales decline in the digital home product family, which was more than offset by increased sales of keyboards and desktops, pointing devices, and gaming products. In the digital home category, sales of remote controls in first quarter of fiscal year 2011 included the launch of several new remotes, including the Harmony 300 and

Table of Contents

the Harmony 650, whereas the same period in fiscal year 2012 did not include any remote control product launches. In addition, one of our Americas region customers placed a sizable order for remotes in the three months ended March 31, 2011, to support a promotion campaign, which negatively impacted sales in the three months ended June 30, 2011. The digital home category also includes Logitech Revue and related peripherals, which had slightly negative sales in the quarter, as returns of the products were higher than the very modest sales. Retail sell-through in Americas region increased during the fiscal quarter ended June 30, 2011 compared with the prior year. Foreign currency exchange rates had no effect on retail sales in the region for the three months ended June 30, 2011.

Asia Pacific region's retail sales grew 29% during the three months ended June 30, 2011 compared with the same period in 2010, driven primarily by sales in China, which increased 89% compared with the prior year. All product lines grew in the three months ended June 30, 2011 compared with the prior year quarter, except digital home. Total retail units sold in the Asia Pacific region increased 31% during the quarter ended June 30, 2011 compared with the prior year. Retail sell-through during the quarter increased from the prior year in line with the sales growth. If foreign currency exchange rates had been the same in the three months ended June 30, 2011 and 2010, our Asia Pacific constant dollar retail sales increase would have been 24%.

Net Retail Sales by Product Family

Net retail sales by product family during the three months ended June 30, 2011 and 2010 were as follows (in thousands):

	Three Months Ended June 30,			
	2011	2010	Change	%
Retail Pointing Devices	\$ 132,062	\$ 131,846		0%
Retail Keyboards & Desktops	94,596	75,281		26%
Retail Audio	81,565	95,646		(15)%
Retail Video	49,845	47,057		6%
Retail Gaming	23,392	15,451		51%
Retail Digital Home	13,316	28,586		(53)%
Total net retail sales	\$ 394,776	\$ 393,867		0%

Logitech's Pointing Devices product family includes our mice, trackballs and other pointing devices. Keyboards and desktops (mouse and keyboard combined) include cordless and corded keyboards and desktops, and keyboards and keyboard cases for tablets. Audio includes speakers and headset products for the PC, the home, the tablet and other mobile entertainment platforms, and wireless music systems. Our video product family is comprised of PC webcams and Alert video security systems. Gaming includes console and PC gaming peripherals. The Digital Home product family combines our advanced Harmony Remote controls, Logitech Revue with Google TV, and peripherals associated with the Google TV platform. Net sales reflect accruals for product returns, cooperative marketing arrangements, customer incentive programs and pricing programs.

Retail Pointing Devices

A decline in dollar sales of pointing devices in our EMEA region for the first quarter of fiscal year 2012 was offset by growth in Americas and Asia Pacific regions. Retail unit sales of pointing devices increased 9% in the three months ended June 30, 2011 compared with the same period in 2010. Dollar sales of cordless mice increased 10%, while units grew 24% in the quarter. We achieved strong sales and unit growth in both our high-end as well as our value-priced cordless mice. Dollar sales of cordless mice grew in both Americas and Asia Pacific regions, with sales in China more than doubling. Unit sales of cordless mice grew in all three regions, with the strongest growth in China. Sales and units of corded mice decreased 19% and 6% in the three months ended June 30, 2011 compared with the prior fiscal year, with dollar sales declines in all regions.

Table of Contents

Retail Keyboards and Desktops

Retail unit sales of keyboards and desktops increased 16% during the quarter ended June 30, 2011 compared with 2010, primarily due to our cordless keyboards and desktops. Sales of cordless keyboards more than doubled in dollars compared with the prior year, led by the Wireless Solar Keyboard K750. Sales of cordless desktops increased 2% in dollars during the three months ended June 30, 2011 compared with 2010. We also launched our iPad specific keyboard products in limited distribution, with encouraging results during the quarter ended June 30, 2011. This new tablet accessories product line includes the Keyboard Case for iPad2 and the Tablet Keyboard for iPad, with additional products planned for launch in future quarters.

Retail Audio

Retail audio unit sales decreased 13% in the three months ended June 30, 2011 compared with the same period in the prior year. Dollar sales growth in the Asia Pacific region was more than offset by declines in EMEA and Americas. PC speaker sales decreased 12% in dollars and 5% in units. Sales of our iPod speakers decreased 15% in dollars and 22% in units in the three months ended June 30, 2011 compared with the prior year. Partially offsetting the sales declines in speakers, our Ultimate Ears line of earphones grew 12% in dollars during the quarter.

Retail Video

Our retail sales in the Video category increased 6%, while units decreased 9% in the quarter ended June 30, 2011 compared with 2010. The growth in sales was driven entirely by the Logitech Alert line of digital video security systems. Webcam sales declined 7% in dollars and 10% in units in the three months ended June 30, 2011 compared with the same period in 2010, with growth in the Asia Pacific region offset by the sales decline in Americas region.

Retail Gaming

Retail sales of our gaming peripherals grew 51%, while unit sales decreased 7% during the three months ended June 30, 2011 compared with the same period in 2010. The dollar sales growth was due to strong sales of our steering wheels. Steering wheels have a higher selling price than our other gaming products, which explains the decline in unit sales. PC gaming sales increased 53% in dollars and decreased 4% in units during the three months ended June 30, 2011 compared with the three months ended June 30, 2010. Console gaming sales increased 69% in dollars and decreased 15% in units in the same periods.

Retail Digital Home

Retail sales in our digital home category, which includes Harmony remotes, Logitech Revue, and our Google TV peripherals, declined 53% during the quarter ended June 30, 2011 compared with the same quarter in the prior year. Sales of Harmony remotes decreased 48%, with the largest decline in EMEA due to slow moving channel inventory as a result of weak macroeconomic conditions in several countries, combined with the impact of execution issues in EMEA-specific pricing and channel management programs. The sales decrease in Americas region was attributable to higher sales in the three months ended June 30, 2010 from the successful launch of several new remotes, and a sizable order from one customer to support a promotion campaign, which occurred in the three months ended March 31, 2011 rather than the three months ended June 30, 2011.

Table of Contents**Gross Profit**

Gross profit for the three months ended June 30, 2011 and 2010 was as follows (in thousands):

	Three Months Ended June 30,		
	2011	2010	Change
	As Restated	As Revised	
Net sales	\$ 480,441	\$ 479,330	0%
Cost of goods sold	321,693	310,046	4
Gross profit	\$ 158,748	\$ 169,284	(6)

Gross margin 33.0% 35.3%

Gross profit consists of net sales, less cost of goods sold which includes materials, direct labor and related overhead costs, costs of manufacturing facilities, costs of purchasing components from outside suppliers, distribution costs, write-down of inventories and amortization of intangible assets.

Gross margin declined to 33.0% in the three months ended June 30, 2011 compared with 35.3% in the same period in the prior year, primarily due to product mix in retail sales also contributed to the lower gross margin in the first quarter of fiscal year 2012.

Operating Expenses

Operating expenses for the three months ended June 30, 2011 and 2010 were as follows (in thousands):

	Three Months Ended June 30,		
	2011	2010	Change
	As Restated	As Revised	
Marketing and selling	\$ 98,891	\$ 91,338	8%
% of net sales	20.6%	19.1%	
Research and development	40,022	38,264	5
% of net sales	8.3%	8.0%	
General and administrative	26,096	27,271	(4)
% of net sales	5.4%	5.7%	
Total operating expenses	\$ 165,009	\$ 156,873	5

% of net sales 34.3% 32.7%

Approximately all increase in total operating expenses in the three months ended June 30, 2011 compared with the same period in the prior year was due to investments in marketing, selling, research, and development related to our LifeSize division.

We refer to our operating expenses excluding the impact of foreign currency exchange rates as constant dollar operating expenses. Constant dollar operating expenses are a non-GAAP financial measure, which is information derived from consolidated financial information but not presented in our financial statements prepared in accordance with U.S. GAAP. Our management uses these non-GAAP measures in its financial and operational decision-making, and believes these non-GAAP measures, when considered in conjunction with the corresponding GAAP measures, facilitate a better understanding of changes in operating expenses. Constant dollar operating expenses are calculated by translating prior period operating expenses in each local currency at the current period's average exchange rate for that currency.

Table of Contents

Marketing and Selling

Marketing and selling expense consists of personnel and related overhead costs, corporate and product marketing, promotions, advertising, trade shows, customer and technical support and facilities costs.

Marketing and selling expenses increased 8% in the three months ended June 30, 2011 compared with the same period in the prior fiscal year primarily due to additional sales and marketing headcount for LifeSize, B2B and Asia Pacific region, and additional trade show and public relations initiatives for our LifeSize products. Stock compensation costs also increased, due to the use of RSUs (restricted stock units) instead of stock options. RSUs are less dilutive to shareholders because in general a smaller number of RSUs is granted, since the value at grant of RSUs is generally greater than the value of stock options. Settlement of a customer bankruptcy dispute also increased expenses in the three months ended June 30, 2011 compared with 2010. Offsetting these increases were decreases in bonuses, advertising expense, bad debt expense and sales warehouse expense.

The impact of foreign currency exchange rates also caused sales and marketing expenses to increase. If foreign currency exchange rates had been the same in the three months ended June 30, 2011 and 2010, the percentage change in constant dollar marketing and selling expense for the three months ended June 30, 2011 would have been 4%.

Research and Development

Research and development expense consists of personnel and related overhead costs, contractors and outside consultants, supplies and materials, equipment depreciation and facilities costs, all associated with the design and development of new products and enhancements of existing products.

The 5% increase in research and development expense for the three months ended June 30, 2011 compared with the same period in the prior year was primarily due to investment in our LifeSize division and B2B products, and packaging evaluations. Research and development expense growth for our peripherals division was approximately the same as the change in retail peripherals sales.

If foreign currency exchange rates had been the same in the three months ended June 30, 2011 and 2010, there would have been no change in constant dollar research and development expense.

General and Administrative

General and administrative expense consists primarily of personnel and related overhead and facilities costs for the finance, information systems, executive, human resources and legal functions.

General and administrative expense decreased 4% in the three months ended June 30, 2011 compared with the same period last year. Expense decreased due to one-time \$4.9 million recovery of expense from disposal of one abandoned building in China, offset by \$2.1 million increase in personnel-related expenses, increased stock compensation expense from the use of RSUs, recruiting fees and increased litigation expenses.

Table of Contents**Interest Income, Net**

Interest income and expense for the three months ended June 30, 2011 and 2010 were as follows (in thousands):

	Three Months Ended June 30,		
	2011	2010	Change
Interest income	\$ 690	\$ 523	32%
Interest expense		(2)	100%
Interest income, net	\$ 690	\$ 521	32%

Interest income increased slightly during the three months ended June 30, 2011 compared with the same period in the prior fiscal year due to slightly higher interest rates.

Other Income, Net

Other income and expense for the three months ended June 30, 2011 and 2010 were as follows (in thousands):

	Three Months Ended June 30,		
	2011	2010	Change
Foreign currency exchange gains, net	\$ 340	\$ 360	(6)%
Gain on sale of property and plant		838	(100)%
Investment income related to deferred compensation plan	188	435	(57)%
Other, net	(241)	163	(248)%
Other income, net	\$ 287	\$ 1,796	(840)%

Foreign currency exchange gains or losses relate to balances denominated in currencies other than the functional currency of a particular subsidiary, to the sale of currencies, and to gains or losses recognized on foreign exchange forward contracts.

The gain on sale of building for the three months ended June 30, 2010 relates to the sale of our building in Romanel, Switzerland.

Investment income for the three months ended June 30, 2011 represents earnings and realized and unrealized gains on trading investments related to a deferred compensation plan offered by one of our subsidiaries. Investment income for the three months ended June 30, 2010 represents changes in the cash surrender value of Company-owned life insurance contracts, related to the same management deferred compensation plan. In December 2010, the Company surrendered the life insurance contracts for cash, and invested the proceeds in a portfolio of mutual funds, which are classified as trading investments.

Table of Contents**Provision for Income Taxes**

The provision for income taxes and effective tax rates for the three months ended June 30, 2011 and 2010 were as follows (in thousands):

	Three Months Ended June 30,	
	2011	2010
	As Restated	As Revised
Benefit from income taxes	\$ (9,393)	\$ (5,402)
Effective income tax rate	177.8%	(36.7)%

The provision for income taxes consists of income and withholding taxes. Logitech operates in multiple jurisdictions and its profits are taxed pursuant to the tax laws of these jurisdictions. The Company's effective income tax rate may be affected by changes in or interpretations of tax laws in any given jurisdiction, utilization of net operating loss and tax credit carryforwards, changes in geographical mix of income and expense, and changes in management's assessment of matters such as the ability to realize deferred tax assets.

The change in the effective income tax rate for the three months ended June 30, 2011 compared with the three months ended June 30, 2010 is primarily due to the mix of income and losses in the various tax jurisdictions in which the Company operates, and a discrete tax benefit of \$7.2 million in the three months ended June 30, 2010 from the closure of income tax audits in certain jurisdictions.

As of June 30 and March 31, 2011, the total amount of unrecognized tax benefits due to uncertain tax positions was \$129.6 million and \$130.1 million, of which \$117.0 million and \$118.2 million would affect the effective income tax rate if recognized. The decline in the income tax liability associated with uncertain tax benefits is primarily due to the expiration of statutes of limitations, offset by the impact of foreign currency exchange rates and the accrual of interest expense.

The Company continues to recognize interest and penalties related to unrecognized tax positions in income tax expense. As of June 30 2011, accrued interest and penalties related to uncertain tax positions increased to \$8.1 million from \$8.0 million as of March 31, 2011.

The Company files Swiss and foreign tax returns. For all these tax returns, the Company is generally not subject to tax examinations for years prior to 1999. During the third quarter of fiscal year 2011, the U.S. Internal Revenue Service expanded its examination of the Company's U.S. subsidiary to include fiscal years 2008 and 2009 in addition to fiscal years 2006 and 2007. The Company is also under examination in other tax jurisdictions. At this time it is not possible to estimate the potential impact that these examinations may have on income tax expense. If the examinations are resolved unfavorably, there is a possibility they may have a material impact on our results of operations.

Although the Company has adequately provided for uncertain tax positions, the provisions on these positions may change as revised estimates are made or the underlying matters are settled or otherwise resolved. Although the timing of the resolution or closure on audits is highly uncertain, the Company does not believe it is reasonably possible that the unrecognized tax benefits would materially change in the next twelve months.

Liquidity and Capital Resources**Cash Balances, Available Borrowings, and Capital Resources**

During the three months ended June 30, 2011, operating activities provided net cash of \$5.4 million. Our largest sources of operating cash flows were decrease in accounts receivable and increase in accounts payable balances compared with March 31, 2011, offset by increases in inventory and deferred tax assets. Net cash used in investing activities was \$7.3 million. We invested \$12.2 million in capital expenditures for

Table of Contents

tooling, equipment, computer hardware, and software, which was partially offset by proceeds of \$4.9 million from the sale of one of our buildings. Net cash provided by financing activities was \$0.5 million, primarily from proceeds from employee stock purchases and the exercise of stock options.

At June 30, 2011, we had cash and cash equivalents of \$476.4 million, comprised of bank demand deposits and short-term time deposits. Cash and cash equivalents are carried at cost, which is equivalent to fair value.

The Company has credit lines with several European and Asian banks totaling \$150.3 million as of June 30, 2011. As is common for businesses in European and Asian countries, these credit lines are uncommitted and unsecured. Despite the lack of formal commitments from the banks, we believe that these lines of credit will continue to be made available because of our long-standing relationships with these banks and our current financial condition. At June 30, 2011, there were no outstanding borrowings under these lines of credit. There are no financial covenants under these facilities.

We provide various third parties with irrevocable letters of credit in the normal course of business to secure our obligations to pay or perform pursuant to the requirements of an underlying agreement or the provision of goods and services. These standby letters of credit are cancelable only at the option of the beneficiary who is authorized to draw drafts on the issuing bank up to the face amount of the standby letter of credit in accordance with its terms. At June 30, 2011, we had \$0.6 million of letters of credit in place, of which \$0.1 million was outstanding. These letters of credit relate primarily to equipment purchases by a subsidiary in China, and expire between July and December 2011.

The Company has financed its operating and capital requirements primarily through cash flow from operations and, to a lesser extent, from capital markets and bank borrowings. Our normal short-term liquidity and long-term capital resource requirements are provided from three sources: cash flow generated from operations, cash and cash equivalents on hand, and borrowings, as needed, under our credit facilities.

Based upon our available cash balances and credit lines, and the trend of our historical cash flow generation, we believe we have sufficient liquidity to fund operations for the foreseeable future.

Cash Flow from Operating Activities

The following table presents selected financial information and statistics as of June 30, 2011 and 2010 (dollars in thousands):

	June 30,	
	2011	2010
	As Restated	As Revised
Accounts receivable, net	\$ 241,456	\$ 213,567
Inventories	320,592	279,800
Net cash provided by operating activities	5,374	8,054
Days sales in accounts receivable ("DSO")(1)	45 days	40 days
Inventory turnover ("ITO")(2)	4.0x	4.4x

(1) DSO is determined using ending accounts receivable as of the most recent quarter-end and net sales for the most recent quarter.

(2) ITO is determined using ending inventories and annualized cost of goods sold (based on the most recent quarterly cost of goods sold).

Table of Contents

Net cash provided by operating activities decreased to \$5.4 million in the three months ended June 30, 2011, from \$8.1 million for the same period in the prior year. The primary drivers of the decline in operating cash flows were the net income of \$4.1 million in the three months ended June 30, 2011 compared with net income of \$20.1 million in the three months ended June 30, 2010, and a lower increase in current liabilities, offset by a decrease in accounts receivable when compared with the change in that balance during the three months ended June 30, 2010.

DSO for the quarter was five days higher than the same period in the prior year, primarily due to greater sales linearity in the three months ended June 30, 2010. Typical payment terms require customers to pay for product sales generally within 30 to 60 days. However, terms may vary by customer type, by country and by selling season. Extended payment terms are sometimes offered to a limited number of customers during the second and third fiscal quarters. The Company does not modify payment terms on existing receivables, but may offer discounts for early payment.

Inventory turns for the three months ended June 30, 2011 were slightly lower than that in the three months ended June 30, 2010.

Cash Flow from Investing Activities

Cash flows from investing activities during the three months ended June 30, 2011 and 2010 were as follows (in thousands):

	Three months ended June 30,	
	2011	2010
	As Restated	As Revised
Purchases of property, plant and equipment	\$ (12,191)	\$ (13,854)
Proceeds from sale of property and plant	4,904	2,688
Purchases of trading investments	(3,545)	
Proceeds from sale of trading investments	3,500	
Net cash used in investing activities	\$ (7,332)	\$ (11,166)

Our capital expenditures during the three months ended June 30, 2011 and 2010 were principally for computer hardware and software purchases, equipment, and normal expenditures for tooling.

Proceeds from the sale of property, plant and equipment were related to the sale of an unused manufacturing facility in China in the three months ended June 30, 2011 and the sale of our building in Romanel, Switzerland in the three months ended June 30, 2010.

The purchases and sales of trading investments in the three months ended June 30, 2011 represent mutual fund activity directed by participants in a deferred compensation plan offered by one of the Company's subsidiaries. The mutual funds are held by a Rabbi Trust. In the three months ended June 30, 2010, the deferred compensation plan was invested in life insurance contracts.

Table of Contents***Cash Flow from Financing Activities***

The following table presents information on our cash flows from financing activities during the three months ended June 30, 2011 and 2010 (in thousands):

	Three months ended June 30,	
	2011	2010
Proceeds from sale of shares upon exercise of options and purchase rights	\$ 607	\$ 5,329
Tax withholdings related to net share settlements of RSUs	(176)	(223)
Excess tax benefits from share-based compensation	24	421
 Net cash provided by financing activities	 \$ 455	 \$ 5,527

During the three months ended June 30, 2011 and 2010, cash of \$0.6 million and \$5.3 million was provided by the sale of shares upon exercise of options and purchase rights pursuant to the Company's stock plans. The payment of tax withholdings related to net share settlements of RSUs (restricted stock units) required the use of \$0.2 million in cash in both three month periods ended June 30, 2011 and 2010. Tax benefits recognized on the exercise of share-based payment awards provided \$0.02 million and \$0.4 million in the three months ended June 30, 2011 and 2010.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**Market Risk**

Market risk represents the potential for loss due to adverse changes in the fair value of financial instruments. As a global concern, we face exposure to adverse movements in foreign currency exchange rates and interest rates. These exposures may change over time as business practices evolve and could have a material adverse impact on our financial results.

Foreign Currency Exchange Rates

We are exposed to foreign currency exchange rate risk as we transact business in multiple foreign currencies, including exposure related to anticipated sales, anticipated purchases and assets and liabilities denominated in currencies other than the U.S. Dollar. Logitech transacts business in over 30 currencies worldwide, of which the most significant to operations are the Euro, Chinese Renminbi, Australian Dollar, Taiwanese Dollar, British Pound, Canadian Dollar, Japanese Yen and Mexican Peso. The functional currency of our operations is primarily the U.S. Dollar. To a lesser extent, certain operations use the Swiss Franc, or the local currency of the country as their functional currencies. Accordingly, unrealized foreign currency gains or losses resulting from the translation of net assets or liabilities denominated in foreign currencies to the U.S. Dollar are accumulated in the cumulative translation adjustment component of other comprehensive (loss) in shareholders' equity.

The table below provides information about our underlying transactions that are sensitive to foreign exchange rate changes, primarily assets and liabilities denominated in currencies other than the base currency, where the net exposure is greater than \$0.5 million as of March 31, 2014. The table also presents

Table of Contents

the U.S. dollar impact on earnings of a 10% appreciation and a 10% depreciation of the base currency as compared with the transaction currency (in thousands):

Base Currency	Transaction Currency	Net Exposed Long (Short) Currency Position	March 31, 2014	
			Foreign Exchange Gain (Loss) from 10% Change in Base Currency	
			Appreciation	Depreciation
U.S. Dollar	Australian Dollar	\$ 11,848	\$ (1,077)	\$ 1,316
U.S. Dollar	Japanese Yen	8,384	(762)	932
U.S. Dollar	Mexican Peso	7,723	(702)	858
U.S. Dollar	Indian Rupee	1,970	(179)	219
U.S. Dollar	Swiss Franc	1,893	(172)	210
U.S. Dollar	Korean Won	(757)	69	(84)
U.S. Dollar	Chinese Renminbi	(3,779)	344	(420)
U.S. Dollar	Singapore Dollar	(5,405)	491	(601)
U.S. Dollar	Canadian Dollar	(5,687)	517	(632)
U.S. Dollar	Taiwanese Dollar	(19,970)	1,815	(2,219)
Euro	British Pound	4,885	(444)	543
Euro	Polish Zloty	(523)	48	(58)
Euro	Hungarian Forint	(573)	52	(64)
Euro	Norwegian Kroner	(604)	55	(67)
Euro	Swedish Krona	(903)	82	(100)
		\$ (1,498)	\$ 137	\$ (167)

Long currency positions represent net assets being held in the transaction currency while short currency positions represent net liabilities being held in the transaction currency.

Our principal manufacturing operations are located in China, with much of our component and raw material costs transacted in CNY. As of March 31, 2014, net liabilities held in CNY totaled \$3.8 million.

Derivatives

The Company enters into foreign exchange forward contracts to hedge against exposure to changes in foreign currency exchange rates related to its subsidiaries' forecasted inventory purchases. The Company has one entity with a Euro functional currency that purchases inventory in U.S. Dollars. The primary risk managed by using derivative instruments is the foreign currency exchange rate risk. The Company has designated these derivatives as cash flow hedges. The Company does not use derivative financial instruments for trading or speculative purposes. These hedging contracts mature within four months, and are denominated in the same currency as the underlying transactions. Gains and losses in the fair value of the effective portion of the hedges are deferred as a component of accumulated other comprehensive loss until the hedged inventory purchases are sold, at which time the gains or losses are reclassified to cost of goods sold. The Company assesses the effectiveness of the hedges by comparing changes in the spot rate of the currency underlying the forward contract with changes in the spot rate of the currency in which the forecasted transaction will be consummated. If the underlying transaction being hedged fails to occur or if a portion of the hedge does not generate offsetting changes in the foreign currency exposure of forecasted inventory purchases, the Company immediately recognizes the gain or loss on the associated financial instrument in other income (expense), net. Such gains and losses were not material during fiscal years 2014, 2013 and 2012. Cash flows from such hedges are classified as operating activities in the Consolidated Statements of Cash Flows. As of March 31, 2014 and 2013, the notional amounts of foreign exchange forward contracts outstanding related to forecasted inventory purchases were \$51.8 million (€37.6 million),

Table of Contents

and \$38.5 million (€30.1 million), respectively. Deferred realized losses of \$0.3 million are recorded in accumulated other comprehensive loss as of March 31, 2014, and are expected to be reclassified to cost of goods sold when the related inventory is sold. Deferred unrealized losses of \$0.2 million related to open cash flow hedges are also recorded in accumulated other comprehensive loss as of March 31, 2014 and these forward contracts will be revalued in future periods until the related inventory is sold, at which time the resulting gains or losses will be reclassified to cost of goods sold.

We also enter into foreign exchange forward contracts to reduce the short-term effects of foreign currency fluctuations on certain foreign currency receivables or payables. These forward contracts generally mature within three months. We may also enter into foreign exchange swap contracts to economically extend the terms of its foreign exchange forward contracts. The primary risk managed by using forward and swap contracts is the foreign currency exchange rate risk. The gains or losses on foreign exchange forward contracts are recognized in earnings based on the changes in fair value. Cash flows from these contracts are classified as operating activities in the consolidated statements of cash flows.

As of March 31, 2014, the notional amounts of foreign exchange forward contracts outstanding relating to foreign currency receivables or payables were \$23.2 million. As of March 31, 2014, open forward contracts consisted of contracts in U.S. Dollars to purchase Taiwanese Dollars and a contract in Euros to sell British Pounds. As of March 31, 2014, the notional amount of foreign exchange swap contracts outstanding was \$30.5 million. As of March 31, 2014, swap contracts outstanding consisted of contracts in Mexican Pesos, Japanese Yen and Australian Dollars. As of March 31, 2014, unrealized net loss on the contracts outstanding was \$0.3 million.

If the U.S. Dollar had appreciated by 10% at March 31, 2014 compared with the foreign currencies in which we have forward or swap contracts, an unrealized gain of \$6.2 million in our forward foreign exchange contract portfolio would have occurred. If the U.S. Dollar had depreciated by 10% compared with the foreign currencies in which we have forward or swap contracts, a \$9.0 million unrealized loss in our forward foreign exchange contract portfolio would have occurred.

Interest Rates

Changes in interest rates could impact our future interest income on our cash equivalents and investment securities. We prepared sensitivity analyses of our interest rate exposures to assess the impact of hypothetical changes in interest rates. Based on the results of these analyses, a 100 basis point decrease or increase in interest rates from the March 31, 2014 and March 31, 2013 period end rates would not have a material effect on our results of operations or cash flows.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Logitech's financial statements and supplementary data required by this item are set forth as a separate section of this Form 10-K. See Item 15 (a) for a listing of financial statements and supplementary data provided in the section titled "Financial Statements and Supplementary Data."

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Background

The Company announced on May 21, 2014, that the Audit Committee, with the assistance of independent advisors, began an independent investigation of certain accounting matters related to the Company's previously issued financial statements.

Table of Contents

On September 3, 2014, the Company announced that, in connection with this investigation, the Audit Committee, on the recommendation of management, concluded that the Company's previously issued financial statements for fiscal years 2011 and 2012 and the first quarter of fiscal year 2012 could no longer be relied on, due to an accounting misstatement for inventory valuation reserves for Logitech's now-discontinued Revue product. As a result, we have restated our consolidated financial statements for those periods.

We also evaluated the findings identified by this investigation and concluded that material weaknesses existed as of March 31, 2014 related to the control environment, including an insufficient complement of personnel, and information and communication, that also contributed to the other material weaknesses described in Management's Report on Internal Control over Financial Reporting.

In conjunction with recording the adjustments related to the restatement, we also recorded other immaterial adjustments to the consolidated financial statements included in this Form 10-K for the fiscal years ended March 31, 2013, 2012, 2011 and 2010.

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this Annual Report on Form 10-K, Logitech carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and our Principal Financial and Accounting Officer, of the effectiveness of our disclosure controls and procedures, as defined in Rule 13a-15(e) under the Securities and Exchange Act of 1934, as amended, ("the Exchange Act"). Disclosure controls and procedures are controls and other procedures designed to reasonably assure that information required to be disclosed in our reports filed or submitted under the Exchange Act, such as this Annual Report on Form 10-K, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures are also designed to reasonably assure that this information is accumulated and communicated to our management, including the Chief Executive Officer and the Principal Financial and Accounting Officer, to allow timely decisions regarding required disclosure.

Based on that evaluation, Logitech's Chief Executive Officer and Principal Financial and Accounting Officer have concluded that, as of March 31, 2014, our disclosure controls and procedures were not effective as a result of the material weaknesses that existed in our internal control over financial reporting as described in Management's Report on Internal Control over Financial Reporting below.

Notwithstanding the material weaknesses discussed below, our Chief Executive Officer and Principal Financial and Accounting Officer have concluded that the consolidated financial statements included in this report fairly present, in all material respects, our financial condition, results of operations and cash flows for the periods presented in conformity with accounting principles generally accepted in the United States.

Management's Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as such term is defined in Rule 13a-15(f) of the Exchange Act. Our management assessed, with the oversight of the Board of Directors, the effectiveness of our internal control over financial reporting as of March 31, 2014. In making this assessment, management used the criteria established in *Internal Control Integrated Framework* (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"). Based on this assessment, management has concluded the Company's internal control over financial reporting was not effective as of March 31, 2014 due to the material weaknesses described below. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a

Table of Contents

material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis.

Management determined that the following material weaknesses existed as of March 31, 2014:

We did not maintain an effective control environment as former finance management exercised bad judgment and failed to provide effective oversight, which resulted in ineffective information and communication, whereby certain of the Company's finance personnel did not adequately document and communicate accounting issues across the organization, including to our independent registered public accounting firm. Additionally, there was an insufficient complement of personnel with appropriate accounting knowledge, experience and competence, resulting in incorrect conclusions in the application of generally accepted accounting principles.

The above material weaknesses contributed to the following material weaknesses:

The Company did not design and maintain effective controls related to developing an appropriate methodology to accrue the costs of product warranties given to end customers, including an on-going review of the assumptions within the methodology to determine the completeness and accuracy of the warranty accrual. While this material weakness did not result in any material misstatement of our historical financial statements, it did result in adjustments to our cost of goods sold and warranty accrual accounts in the first quarter of fiscal 2014 and revisions to the Company's consolidated financial statements for fiscal 2013, 2012 and 2011, and interim periods in fiscal 2013 and 2012. Such revisions were disclosed in the Company's Form 10-K/A filed on August 7, 2013;

The Company did not design and maintain effective controls to consider all relevant information and document the underlying assumptions in our assessment of the valuation of finished goods, work in process and components inventory, including non-cancelable orders for such inventory, related to our now discontinued Revue product. This material weakness resulted in an incorrect application of generally accepted accounting principles that resulted in a material misstatement of inventory, cost of goods sold and supplier liability accrual accounts and a restatement of the Company's consolidated financial statements for fiscal 2012 and 2011 and the first quarter of fiscal 2012;

The Company did not design and maintain effective controls over the review of supporting information to determine the completeness and accuracy of the consolidated statement of cash flows, the consolidated statement of comprehensive income (loss) and disclosures in the notes to the consolidated financial statements. While this material weakness did not result in any material misstatement of our historical financial statements, it did result in audit adjustments to the consolidated statement of cash flows, the consolidated statement of comprehensive income (loss) and disclosures in the notes to the Company's fiscal 2013 consolidated financial statements and similar revisions to our interim consolidated financial statements for the first three interim periods in fiscal 2013, as applicable to the interim consolidated financial statements.

Additionally, these material weaknesses could result in further misstatements of the account balances or disclosures that would result in a material misstatement to the annual or interim consolidated financial statements that would not be prevented or detected.

The effectiveness of the Company's internal control over financial reporting as of March 31, 2014 has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in their report, which appears in Item 15.

Management's Plan to Remediate the Material Weaknesses:

In September 2013, the Company hired a new Principal Financial and Accounting Officer who has implemented and continues to implement changes in our internal control over financial reporting to address these material weaknesses, including those identified in our recently completed independent

Table of Contents

investigation. Our Board of Directors has full confidence in its current management under the leadership of the Chief Executive Officer and Principal Financial and Accounting Officer and we take the integrity of our financial statements seriously. We continue to evaluate the effectiveness of our remediation efforts, including demonstrating that the new or improved controls operate effectively for a reasonable period of time and will continue to make additional changes, if appropriate. If not remediated, these material weaknesses could result in further material misstatements to our financial statements. The following changes to our internal control over financial reporting have been implemented or will be implemented as soon as practicable:

Provide training in order to enhance the level of communication and understanding of internal controls with key individuals that provide critical information used in financial accounting and reporting on matters relating to business and operations, which impact financial reporting;

Identify skills gaps within the global finance and accounting organization and recruit resources with appropriate experience and technical expertise to fill gaps, including in the area of SEC reporting and technical accounting.

Implement a more comprehensive process for review of the financial statements;

Implement a policy requiring formal documentation of the conclusions and basis for conclusions for all significant accounting positions and financial reporting issues, by finance and accounting personnel with sufficient technical competence, including review and approval by the appropriate level of management;

Implement a revised and documented methodology and related internal controls over the accrual of warranty costs, including an on-going review of the assumptions within the methodology, the capture of all relevant costs, relating to product warranties given to end customers and appropriate review of the accrual each quarter;

Clarify existing policy and enhance procedures over inventory valuation, including lower of cost or market (LCM) and excess and obsolete reserve calculations, determining that all relevant information is considered, including future demand forecasts, and that conclusions reached are subject to a comprehensive review as well as ongoing evaluation;

Implement new controls and improve existing controls over financial reporting, including controls with respect to disclosures in the notes to the consolidated financial statements, and the preparation, review, and approval of the consolidated statement of cash flows and consolidated statement of comprehensive income (loss).

Status as of March 31, 2014

During the period ended March 31, 2014, we implemented the following changes to our internal control over financial reporting:

Established a Finance and Accounting leadership team, including a new Principal Financial and Accounting Officer, a new Vice President of Internal Audit, a new Assistant Corporate Controller (the latter two who joined in the fourth quarter of fiscal year 2014) subsequently promoted to Corporate Controller, and a new Senior Director of Finance Operations, to strengthen oversight of the team and improve the design, implementation, execution and supervision of internal controls within the organization. Hired experienced additional technical resources in the area of Corporate Controllershship Group, SEC Reporting, Financial Planning and Analysis, Operations Finance, and Regional Controllershship Group;

Leveraged the services of consulting firms, until we could hire resources with the required skills to strengthen our internal controls, documentation and communication in the SEC reporting process.

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

Table of Contents

Hired subject matter experts in the area of Operations Finance to design and oversee improved information and communication processes and other internal controls relating to warranty accruals and inventory valuation reserves;

Implemented a new methodology for identifying and accruing costs relating to product warranty, including documenting and evaluating the assumptions used and determining appropriate supervision and review each quarter;

Starting in the fourth quarter of fiscal year 2014, implemented a process to enhance the nature and extent of review of Forms 10-Q and 10-K by a team lead by the new Assistant Controller, a more robust process for disclosure committee meetings, and a final review of these filings with the Principal Financial and Accounting Officer. The Principal Financial and Accounting Officer and the Assistant Controller in turn report the results of this process to the Financial Close, Disclosure and Audit Committees in formal quarterly meetings;

Provided training to key individuals that provide critical information used in financial accounting and reporting to reinforce pre-established and new controls to improve our ability to detect potential misstatements in our internally prepared reports, analysis and financial records.

Fiscal 2015 Current Status

Further to the above measures, during the period April to October 2014, we have taken further measures to strengthen the processes and controls relating to financial reporting. These measures include:

Further strengthening the technical capabilities of the global finance and accounting organization by hiring a Director of External Reporting and Global Accounting, Senior Manager Revenue, Manager External Reporting and a Consolidation Accountant;

Under our new Chief Executive Officer and Principal Financial and Accounting Officer, establishing communications and new processes and controls that allows frequent open communication with key internal stakeholders, our advisors, and our independent registered public accounting firm, on key business and operational matters impacting financial reporting;

Enhancing the Company's representation letter control. The Company had a representation letter control, wherein detailed questionnaires containing over 60 questions are sent to over 50 senior level employees of the Company. The feedback received is reviewed by the Controllershship Group and appropriate actions are initiated, as a normal process. Effective in the first quarter of fiscal year 2015, the detailed questionnaires and a listing of the responses received and resolution of the issues identified are reviewed by the Controller, and are being shared with our independent registered public accounting firm in order to further enhance communication; and

Strengthening our inventory valuation control through increased standardization and consideration of all relevant inputs including aging, historical sales data, product life cycles and market acceptance.

Our management believes the foregoing efforts will effectively remediate the material weaknesses after these controls have operated effectively for a reasonable period of time. As we continue to evaluate and work to improve our internal control over financial reporting, management may determine to take additional measures to address the material weaknesses or determine to modify the remediation plan described above.

Changes in Internal Control over Financial Reporting

The measures identified as occurring in the fourth quarter of fiscal 2014 above are changes in the Company's internal control over financial reporting in the three months ended March 31, 2014 that have

Table of Contents

materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Limitations on the Effectiveness of Controls

The Company's management, including the Chief Executive Officer and Principal Financial and Accounting Officer, does not expect that the Company's disclosure controls and procedures or internal control over financial reporting will prevent all error and all fraud. Internal control over financial reporting, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the objectives will be met. Because of the inherent limitations in internal control over financial reporting, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision making can be faulty and that breakdowns can occur because of simple error or mistake. Controls can also be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with policies or procedures. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

ITEM 9B. OTHER INFORMATION

None.

Table of Contents**PART III****ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE****Board of Directors**

Logitech's Articles of Incorporation set the minimum number of directors at three. We had nine members of the Board of Directors as of June 30, 2014. If all of the current nominees to the Board are elected, the Board will have ten members.

Each director is elected individually by a separate vote of shareholders. Until 2012, each director was elected for a term of three years. At the Company's 2012 Annual General Meeting, shareholders approved a change such that each director, starting with the directors elected at the 2012 Annual General Meeting, will be subject to a term of one year. Each director is being presented for re-election to the Board of Directors at the 2014 Annual General Meeting. Each director is eligible for re-election until his or her seventieth birthday. Directors may not seek reelection after they have reached 70 years of age, unless the Board of Directors adopts a resolution to the contrary. A member of the Board who reaches 70 years of age during the term of his or her directorship may remain a director until the expiration of the term. A director's term of office as Chairman coincides with his or her term of office as a director. A director may be indefinitely re-elected as Chairman, subject to the age limit mentioned above.

The year of appointment and remaining term of office as of March 31, 2014 for each director are as follows:

Name	Year First Appointed	Year Current Term Expires
Daniel Borel(1)	1988	Annual General Meeting 2014
Matthew Bousquette(1)	2005	Annual General Meeting 2014
Kee-Lock Chua(1)	2000	Annual General Meeting 2014
Bracken Darrell(2)	2013	Annual General Meeting 2014
Sally Davis(1)	2007	Annual General Meeting 2014
Guerrino De Luca(2)	1998	Annual General Meeting 2014
Didier Hirsch(1)	2012	Annual General Meeting 2014
Neil Hunt(1)	2010	Annual General Meeting 2014
Monika Ribar(1)	2004	Annual General Meeting 2014

(1) Non-executive member of the Board of Directors.

(2) Executive member of the Board of Directors.

Table of Contents

The members of the Board of Directors, including their principal occupation, business experience, and qualifications, are set out below.

Daniel Borel
64 Years Old
Director since 1988
Co-Founder and former
Chief Executive Officer
and Chairman,
Logitech International S.A.
Swiss national

Daniel Borel is a Logitech founder and served from May 1988 until January 1, 2008 as the Chairman of the Board. From July 1992 to February 1998, he also served as Chief Executive Officer. He has held various other executive positions with Logitech. He serves on the Board of Nestlé S.A. In addition, he serves on the Board of Fondation Defitech, a Swiss foundation which contributes to research and development projects aimed at assisting the disabled, is the Chairman of the Board of SwissUp, a Swiss educational foundation promoting higher learning, and serves as President of EPFL Plus, a Swiss foundation which raises funds for the Ecole Polytechnique Fédérale de Lausanne. Mr. Borel holds an MS degree in Computer Science from Stanford University in California and a BE degree in Physics from the Ecole Polytechnique Fédérale, Lausanne, Switzerland.

As a Logitech co-founder, and its former Chairman and Chief Executive Officer, Mr. Borel brings deep knowledge of and a passion for Logitech, its people and its products, as well as senior leadership, industry, technical, and global experience. As a director for Nestlé, Mr. Borel also provides cross-board experience.

Matthew Bousquette
55 Years Old
Director since 2005
Former Chairman,
EGI Holdings LLC
U.S. national

Matthew Bousquette is the former Chairman of the Board of EGI Holdings LLC, a U.S.-based producer of giftware and home and garden décor products, a position he held from 2007 through 2012. He is the former president of the Mattel Brands business unit of Mattel, Inc. Mr. Bousquette joined Mattel as senior vice president of marketing in December 1993, and was promoted to successively more senior positions at Mattel, including general manager of Boys Toys in July 1995, executive vice president of Boys Toys in May 1998, president of Boys/Entertainment in March 1999, and president of Mattel Brands from February 2003 to October 2005. Mr. Bousquette's previous experience included various positions at Lewis Galoob Toys, Inc., Teleflora and the Procter & Gamble Company. He serves on the Board and as President of the District 181 Foundation, a foundation supporting initiatives that benefit local district students. Mr. Bousquette earned a BBA degree from the University of Michigan.

Mr. Bousquette brings senior leadership, strategic, financial and marketing expertise to the Board from his former positions as chairman of a consumer products company and as a senior executive at Mattel.

Mr. Bousquette currently serves on the Audit Committee and Nominating Committee and is Chair of the Compensation Committee. He is also the Company's Lead Independent Director. The Board of Directors has determined that he is an independent Director.

Table of Contents

Kee-Lock Chua
53 Years Old
Director since 2000
President and Chief
Executive Officer,
Vertex Group
Singapore national

Kee-Lock Chua is president and chief executive officer of the Vertex Group, a Singapore-headquartered venture capital group. Prior to joining the Vertex Group in September 2008, Mr. Chua was the president and an executive director of Biosensors International Group, Ltd., a developer and manufacturer of medical devices used in interventional cardiology and critical care procedures, from 2006 to 2008. Previously, from 2003 to 2006, Mr. Chua was a managing director of Walden International, a U.S.-headquartered venture capital firm. From 2001 to 2003, Mr. Chua served as deputy president of NatSteel Ltd., a Singapore industrial products company active in Asia Pacific. From 2000 until 2001, Mr. Chua was the president and chief executive officer of Intraco Ltd., a Singapore-listed trading and distribution company. Prior to joining Intraco, Mr. Chua was the president of MediaRing.com Ltd., a Singapore-listed company providing voice-over-Internet services. He serves on the Board of Yongmao Holdings Limited (where he is lead independent director), a publicly traded company in Singapore. Mr. Chua holds a BS degree in Mechanical Engineering from the University of Wisconsin, and an MS degree in Engineering from Stanford University in California.

Mr. Chua has extensive investment and senior leadership experience, as a venture capitalist in Asia and the United States, and also as the former Chief Executive Officer of publicly-traded companies in Asia. He brings to the Board senior leadership, and financial and global expertise. As a director of public companies in Asia, and of private companies, he also provides cross-board experience.

Mr. Chua currently serves on the Audit Committee and is Chair of the Nominating Committee. The Board of Directors has determined that he is an independent Director.

Bracken Darrell
51 Years Old
Director since 2013
President and
Chief Executive Officer,
Logitech International S.A.
U.S. national

Bracken P. Darrell joined Logitech as President in April 2012 and became Chief Executive Officer in January 2013. Prior to joining Logitech, Mr. Darrell served as President of Whirlpool EMEA and Executive Vice President of Whirlpool Corporation, a home appliance manufacturer and marketing company, from January 2009 to March 2012. Previously, Mr. Darrell had been Senior Vice President, Operations of Whirlpool EMEA from May 2008 to January 2009. From 2002 to May 2008, Mr. Darrell was with P&G (The Procter & Gamble Company), a consumer brand company, most recently as the President of its Braun GmbH subsidiary. Prior to rejoining P&G in 2002, Mr. Darrell served in various executive and managerial positions with General Electric Company from 1997 to 2002, with P&G from 1991 to 1997, and with PepsiCo Inc. from 1987 to 1989. Mr. Darrell currently serves on the Board of Trustees of Hendrix College. Mr. Darrell holds a BA degree from Hendrix College and an MBA from Harvard University.

In addition to being the President and Chief Executive Officer of the Company, Mr. Darrell brings senior leadership, consumer brand marketing and global experience to the Board.

Table of Contents

Sally Davis

61 Years Old
Director since 2007
Former Chief Executive
Officer, BT Wholesale
British national

Sally Davis is the former Chief Executive Officer of BT Wholesale, a division of BT Group responsible for providing telecommunications services and bandwidth to carriers and service providers globally, a position she held from 2007 until she retired in August 2011. She was the Chief Portfolio Officer of British Telecom from 2005 to 2007. She had previously held senior executive roles within BT since joining the company in 1999, including President, Global Products, Global Services from 2002 to 2005, President, BT Ignite Applications Hosting from 2001 to 2002 and Director, Group Internet and Multimedia from 1999 to 2001. Before joining BT, Ms. Davis held leading roles in several major communications companies, including Bell Atlantic in the United States and Mercury Communications in the United Kingdom. Ms. Davis is a member of the Board of Telenor Group, a global mobile communications services company, and a member of the Board of CityFibre Infrastructure Holdings PLC, a fibre optic infrastructure company. She holds a BA degree from and is a Fellow of University College, London.

Ms. Davis' experience as a Chief Executive of a leading European telecommunications company, and her significant technology product strategy and product portfolio knowledge, provides the Board with expertise in senior leadership, technology, product strategy, and financial management.

Ms. Davis currently serves on the Audit Committee, the Compensation Committee and the Nominating Committee. The Board of Directors has determined that she is an independent Director.

Guerrino De Luca

62 Years Old
Director since 1998
Chairman,
Logitech International S.A.
Italian and U.S. national

Guerrino De Luca has served as Chairman of the Logitech Board of Directors since January 2008. Mr. De Luca served as Logitech's Chief Executive Officer from April 2012 to January 2013 and as acting President and Chief Executive Officer from July 2011 to April 2012. Previously, Mr. De Luca served as Logitech's President and Chief Executive Officer from February 1998, when he joined the Company, to January 2008. Prior to joining Logitech, Mr. De Luca served as Executive Vice President of Worldwide Marketing for Apple Computer, Inc., a consumer electronics and computer company, from February 1997 to September 1997, and as President of Claris Corporation, a U.S. personal computing software vendor, from May 1994 to February 1997. Prior to joining Claris, Mr. De Luca held various positions with Apple in the United States and in Europe. Mr. De Luca holds a Laurea degree in Electronic Engineering from the University of Rome, Italy.

As Logitech's Chairman and former Chief Executive Officer, Mr. De Luca brings significant senior leadership, industry, strategy, marketing and global experience to the Board and a deep knowledge of, passion for and commitment to Logitech, its people and its products.

Mr. De Luca currently is Chairman of the Board.

Didier Hirsch

63 Years Old
Director since 2012
Senior Vice President and
Chief Financial Officer,
Agilent Technologies, Inc.
French national

Didier Hirsch is the Senior Vice President and Chief Financial Officer of Agilent Technologies, Inc., a measurement company and a technology leader in chemical analysis, life sciences, diagnostics, electronics and communications. He has been with Agilent since 1999, and served as its Chief Accounting Officer from November 2007 to July 2010 and interim Chief Financial Officer from April 2010 until being promoted to his current position in July 2010. Mr. Hirsch also served Agilent as its Vice President, Corporate Controllershship and Tax from 2006 until July 2010, Vice President and Controller from April 2003 to October 2006, and Vice President and Treasurer from September 1999 to April 2003. Mr. Hirsch had joined Hewlett-Packard Company in 1989, and served as Director of Finance and Administration of Hewlett-Packard Europe, Middle East and Africa (EMEA) from 1996 to 1999, Director of Human Resources of Hewlett-Packard EMEA from 1998 to 1999, Director of Finance and Administration of Hewlett-Packard Asia Pacific from 1993 to 1996, and Director of Finance and Administration of Hewlett-Packard France from 1989 to 1993. Prior to Hewlett-Packard, Mr. Hirsch worked in finance positions with Valeo Inc., Gemplus S.C.A., SGS-Thomson Microelectronics, I.B.H. Holding S.A., Bendix Corporation and Ford Motor Company. He serves on the Board of International Rectifier, a New York Stock Exchange (NYSE)-listed supplier of advanced power management technology. Mr. Hirsch holds an MS degree in Computer Sciences from Toulouse University and an MS degree in Industrial Administration from Purdue University.

As Chief Financial Officer of a leading public technology company, and with significant finance expertise developed over several decades at technology and manufacturing companies in the U.S.A., EMEA and Asia Pacific, Mr. Hirsch brings senior leadership, finance (including U.S. GAAP), technology and global experience to the Board.

Mr. Hirsch currently is Chair of the Audit Committee. The Board of Directors has determined that he is an independent Director.

Neil Hunt

52 Years Old
Director since 2010
Chief Product Officer,
Netflix, Inc.
U.K. and U.S. national

Neil Hunt is the Chief Product Officer of Netflix, Inc., a California-based company offering the world's largest Internet TV service operating in more than 50 countries worldwide. He has been with Netflix since 1999, and is responsible for the design, implementation, and operation of the technology at Netflix. Prior to his current position, he served as Vice President, Internet Engineering at Netflix from 1999 until being promoted to his current position in 2002. From 1997 to 1999, Dr. Hunt was Director of Engineering for Rational Software, a California-based maker of software development tools, and he served in engineering roles at predecessor companies from 1991 to 1997. Dr. Hunt is a member of the Board of Directors of Simply Hired, Inc., a private online job listings company. Dr. Hunt holds a Doctorate in Computer Science from the University of Aberdeen, U.K. and a Bachelors degree from the University of Durham, U.K.

Table of Contents

Dr. Hunt's significant expertise in technology, product development leadership and strategy, and his experience as a member of the senior leadership of a leading digital delivery company, provides the Board with technology, product strategy, global expertise as well as senior leadership.

Dr. Hunt currently serves on the Compensation Committee. The Board of Directors has determined that he is an independent Director.

Dimitri Panayotopoulos
63 Years Old
Director nominee
Senior Advisor,
The Boston Consulting Group
U.K. national

Dimitri Panayotopoulos is a Senior Advisor at The Boston Consulting Group, a global management consulting firm. Prior to joining The Boston Consulting Group in April 2014, Mr. Panayotopoulos served with The Procter & Gamble Company ("P&G"), a consumer brand company, from 1977 to 2014. At P&G, he served as Vice Chairman and Advisor to the Chairman & Chief Executive Officer at P&G from July 2013 to January 2014, Vice Chairman of Global Business Units from May 2011 to July 2013, Vice Chairman of Global Household Care Group from July 2007 to May 2011, Group President of Global Fabric Care from July 2004 to July 2007, President of Central and Eastern Europe, Middle East and Africa from July 2001 to July 2004, and President-Greater China from 1999 to July 2001. Mr. Panayotopoulos served in various executive managerial and other positions with P&G in sales, brand management and advertising in Europe (including Switzerland), Egypt and the Far East from 1977 to 1999. Mr. Panayotopoulos holds a B.A. degree from Sussex University, U.K. He is 63 years old and is a U.K. national.

Mr. Panayotopoulos brings senior leadership, strategic, financial, consumer brand marketing and global experience to the Board from his former leadership positions with P&G in a broad spectrum of regions.

Table of Contents

Monika Ribar
55 Years Old
Director since 2004
Former President and Chief
Executive Officer,
Panalpina Group
Swiss national

Monika Ribar is the former President and Chief Executive Officer of the Panalpina Group, a Swiss freight forwarding and logistics services provider, a position she held from October 2006 until she retired in May 2013. Ms. Ribar was a member of Panalpina's Executive Board from February 2000 to May 2013, serving as Panalpina's Chief Financial Officer from June 2005 to October 2006, and as its Chief Information Officer from February 2000 to June 2005. From June 1995 to February 2000, she served as Panalpina's Corporate Controller, and from 1991 to 1995 served in project management positions at Panalpina. Prior to joining Panalpina, Ms. Ribar worked at Fides Group (now KPMG Switzerland), a professional services firm, serving as Head of Strategic Planning, and was employed by the BASF Group, a German chemical products company. She also serves on the Boards of the Lufthansa Group, an aviation group with global operations, Rexel SA, a French distributor of electrical supplies to professional users, SIKA AG, a SIX Swiss Exchange-listed supplier of specialty chemical products and industrial materials, and Swiss International Air Lines Ltd., the flag carrier airline of Switzerland and a subsidiary of the Lufthansa Group, and is the Vice Chairman of the Swiss Railway SBB, the Swiss rail carrier fully-owned by the Swiss government. Ms. Ribar holds a Master's degree in Economics and Business Administration from the University of St. Gallen, Switzerland.

Ms. Ribar has significant executive experience with the strategic, financial, and operational requirements of companies with global operations, and brings to our Board senior leadership, logistics industry, global and financial experience. As a member of other public company boards, Ms. Ribar also provides cross-board experience.

Ms. Ribar currently serves on the Audit Committee and the Compensation Committee. The Board of Directors has determined that she is an independent Director.

Criteria for Nomination to the Board

The Nominating Committee is responsible for reviewing and assessing with the Board the appropriate skills, experience, and background sought of Board members in the context of our business and the then-current membership on the Board. The Nominating Committee has not formally established any specific, minimum qualifications that must be met by each candidate for the Board of Directors or specific qualities or skills that are necessary for one or more of the members of the Board of Directors to possess. Similarly, the Nominating Committee does not have a formal policy on considering diversity in identifying candidates for election or re-election to the Board of Directors. However, we do not expect or intend that each director will have the same background, skills, and experience; we expect that Board members will have a diverse portfolio of backgrounds, skills, and experiences. One goal of this diversity is to assist the Board as a whole in its oversight and advice concerning our business and operations.

The review and assessment of Board candidates and the current membership of the Board by the Nominating Committee and the Board includes numerous diverse factors, such as: independence; understanding of and experience in technology, finance, and marketing; international experience; age; and gender and ethnic diversity. The priorities and emphasis of the Nominating Committee and of the Board with regard to these factors change from time to time to take into account changes in Logitech's business

Table of Contents

and other trends, as well as the portfolio of skills and experience of current and prospective Board members.

Listed below are key skills and experience that we currently consider important for our directors to have in light of our current business and structure. We do not expect each director to possess every attribute. The directors' biographies note each director's relevant experience, qualifications, and skills relative to this list.

Senior Leadership Experience. Directors who have served in senior leadership positions are important to Logitech, because they bring experience and perspective in analyzing, shaping, and overseeing the execution of important operational and policy issues at a senior level.

Financial Expertise. Knowledge of financial markets, financing and funding operations, and accounting and financial reporting processes is important because it assists our directors in understanding, advising, and overseeing Logitech's structure, financial reporting, and internal control of such activities.

Industry and Technical Expertise. Because we develop and manufacture hardware and software products, ship them worldwide, and sell to both major computer manufacturers and consumer electronics distributors and retailers, expertise in hardware and software, and experience in supply chain, manufacturing and consumer products is useful in understanding the opportunities and challenges of our business and in providing insight and oversight of management.

Brand Marketing Expertise. Because we are a consumer products company, directors who have brand marketing experience can provide expertise and guidance as we seek to maintain and expand brand and product awareness and a positive reputation.

Global Expertise. Because we are a global organization with research and development, and sales and other offices in many countries, directors with global expertise, particularly in Europe and Asia, can provide a useful business and cultural perspective regarding many significant aspects of our business.

Identification and Evaluation of Nominees for Directors

Our Nominating Committee uses a variety of methods for identifying and evaluating nominees for director. Our Nominating Committee regularly assesses the appropriate size and composition of the Board of Directors, the needs of the Board of Directors and the respective Committees of the Board of Directors and the qualifications of candidates in light of these needs. Candidates may come to the attention of the Nominating Committee through shareholders, management, current members of the Board of Directors or search firms. The evaluation of these candidates may be based solely upon information provided to the Committee or may also include discussions with persons familiar with the candidate, an interview of the candidate or other actions the Committee deems appropriate, including the use of paid third parties to review candidates.

Audit Committee

The Audit Committee is appointed by the Board to assist the Board in monitoring the Company's financial accounting, controls, planning and reporting. It is composed of only non-executive, independent Board members. Among its duties, the Audit Committee:

reviews the adequacy of the Company's internal controls and disclosure controls and procedures;

reviews the independence, fee arrangements, audit scope, and performance of the Company's independent auditors, and recommends the appointment or replacement of independent auditors to the Board of Directors;

Table of Contents

reviews and approves all non-audit work to be performed by the independent auditors;

reviews the scope of Logitech's internal auditing and the adequacy of the organizational structure and qualifications of the internal auditing staff;

reviews, before release, the quarterly results and interim financial data;

reviews with management and the independent auditors the Company's major financial risk exposures and the steps management has taken to monitor and control those exposures, including the Company's guidelines and policies with respect to risk assessment and risk management; and

reviews, before release, the audited financial statements and "Management's Discussion and Analysis of Financial Condition and Results of Operations" contained in the Company's annual reporting, and recommends that the Board of Directors submit these items to the shareholders' meeting for approval.

The Audit Committee currently consists of Mr. Hirsch, Chairperson, Mr. Bousquette, Mr. Chua, Ms. Davis and Ms. Ribar. The Board of Directors has determined that each member of the Audit Committee meets the independence requirements of the Nasdaq Stock Market listing standards and the applicable rules and regulations of the SEC. In addition, the Board has determined that Mr. Hirsch, Mr. Bousquette and Ms. Ribar are audit committee financial experts as defined by the applicable rules and regulations of the SEC.

The Audit Committee met ten times in fiscal year 2014. Four meetings were held in person on the day prior to the regularly scheduled quarterly Board meeting, for two-and-a-half to three-and-a-half hours, and six were held by telephone, for approximately an hour preceding the Company's quarterly report of financial results and, starting in October 2013, for approximately half-an-hour preceding the filing of the Company's quarterly report on Form 10-Q. The Committee received reports and presentations before the meetings in order to allow them time to prepare adequately. At the Committee's invitation, the Company's Chief Financial Officer, Corporate Controller, Vice President of Internal Audit and General Counsel or Associate General Counsel attended each meeting, and representatives from the Company's independent registered public accounting firm, PricewaterhouseCoopers LLP, also attended each meeting. Other members of management also participated in certain meetings. Six meetings also included a separate session with representatives of the independent registered public accounting firm, and three meetings included separate sessions with the Chief Financial Officer and with the head of Internal Audit.

Executive Officers

Certain information relating to the Executive Officers of Logitech appears in Part I of this Annual Report on Form 10-K under the heading "Executive Officers of the Registrant."

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16 of the Exchange Act requires Logitech's directors, executive officers and any persons who own more than 10% of Logitech's shares, to file initial reports of ownership and reports of changes in ownership with the SEC. Such persons are required by SEC regulation to furnish Logitech with copies of all Section 16(a) forms that they file. As a matter of practice, our administrative staff assists our executive officers and directors in preparing initial ownership reports and reporting ownership changes, and typically files these reports on their behalf.

We believe that all Section 16(a) filing requirements were met in fiscal year 2014, with the exceptions noted below:

A late Form 3 report was filed for Marcel Stolk on April 17, 2014 to report his beneficial holdings.

Table of Contents

A late Form 4 report was filed for Marcel Stolk on April 17, 2014 to report the remittance of shares to Logitech in connection with the satisfaction of tax withholding obligations arising out of the vesting of shares with respect to previously reported restricted stock units.

Code of Ethics

The Company's code of ethics policy entitled, "Business Ethics and Conflict of Interest Policy of Logitech International S.A.," covers members of the Company's Board of Directors and its executive officers (including the principal executive officer, principal financial officer and controller) as well as all other employees.

The code of ethics addresses, among other things, the following items:

Honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest between personal and professional relationships;

Full, fair, accurate, timely, and understandable disclosure in reports and documents that we file with, or submit to, the Commission and in other public communications made by us;

Compliance with applicable governmental laws, rules and regulations;

The prompt internal reporting to an appropriate person or persons identified in the code of violations of any of the provisions described above; and

Accountability for adherence to the code.

Any amendments or waivers of the code of ethics for members of the Company's Board of Directors or executive officers will be disclosed in the investor relations section of the Company's Web site within four business days following the date of the amendment or waiver and will also be disclosed either on a Form 8-K or the Company's next Form 10-K filing. During fiscal year 2014, no waivers or amendments were made to the code of ethics for any Director or Executive Officer.

Logitech's code of ethics is available on the Company's Web site at www.logitech.com, and for no charge, a copy of the Company's code of ethics can be requested via the following address or phone number:

ITEM 11. EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

COMPENSATION REPORT 2014

INTRODUCTION

This Compensation Report contains information on Logitech compensation philosophy and practices, the background for decisions, and the results of decisions with respect to Logitech's named executive officers and its Board members.

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

This Compensation Report has been designed to comply with both the proxy statement rules under U.S. securities laws and Swiss regulations. This Report is an integrated part of our Annual Report, Invitation, and Proxy Statement for our 2014 Annual General Meeting.

Table of Contents

Compensation Discussion and Analysis

EXECUTIVE SUMMARY

During fiscal year 2014, Logitech continued to execute on its turnaround plan with an increase in sales and a return to operating profit. These results reflected the many changes made to improve company sales with a significant increase in revenue in our growth category businesses while increasing overall operating income through rigorous review of operating expenses.

The following are key developments in fiscal year 2014 relating to executive compensation:

Impact of Logitech's Performance Against Expectations and Relative to Overall Market. When making compensation decisions for fiscal year 2014, the Compensation Committee gave considerable weight to Logitech's execution of its turnaround plan as well as Logitech's performance relative to the overall market and our compensation peer group, as highlighted in "Compensation Elements" and other parts of this discussion below.

Base Salary Actions. Given Logitech's financial performance in fiscal year 2013 and our executives' salary positions versus the market, only two of our executive officers received base salary increases in fiscal year 2014 our Senior Vice President, CCP Business Group, Mr. Stolk, and our Senior Vice President, Worldwide Operations, Mr. Sullivan.

Increased Emphasis on Increasing Shareholder Value. In fiscal year 2014, the majority (60%) of the annual long-term equity incentive awards value granted to the executive officers who were not hired in fiscal year 2014 was in the form of performance-based stock units with vesting that required Logitech's stock price growth to be equal to or greater than that of the NASDAQ 100 Index before any of the granted shares would vest.

Organizational Changes. Logitech hired Vincent Pilette as our Chief Financial Officer in September 2013. He took over the position from Erik K. Bardman who resigned in April 2013. For the three-month period prior to Mr. Pilette's appointment, Michael Doktorczyk, served as interim Principal Financial Officer and Principal Accounting Officer. In September 2013 the Board designated Marcel Stolk as an executive officer.

The Compensation Committee believes the design of our executive compensation programs including the balance among fixed compensation (base salary), short-term incentives (our annual incentive bonus program) and long-term incentives (equity) has and will continue to meet our goal of providing our executives with market-competitive base salaries, compensation packages that provide for above market rewards when Logitech outperforms both our internal goals and the overall market, and limited rewards when Logitech's performance does not meet these objectives. Overall, our Compensation Committee has developed executive compensation programs that it believes will provide an incentive to drive a turnaround of the Company's performance that will reward our shareholders and, as a result of these programs, will reward the executives who help to deliver improved results.

EXECUTIVE COMPENSATION OBJECTIVES AND PHILOSOPHY

Logitech's executive compensation programs have been designed to:

be competitive with comparable companies in our industry and in the region where the executive is based;

maintain a balance between fixed and variable compensation and place a significant portion of total compensation at risk based on the Company's performance, while maintaining controls over inappropriate risk-taking by balancing annual and long-term performance;

provide a balance between short-term and long-term objectives and results;

Table of Contents

align executive compensation with shareholders' interests by tying a significant portion of compensation to increasing share value;

support a performance-oriented culture; and

reflect the Compensation Committee's assessment of an executive's role and past performance through base salary and short-term cash incentives, and his or her potential for future contribution through long-term equity incentive awards.

Logitech's executive compensation philosophy is to pay executives at or near the median of other companies that compete for similar executive talent, based on our compensation peer group and survey data, and that individual performance and importance to Logitech should be reflected in the compensation of each executive. However, while compensation is a central part of attracting, retaining, and motivating the best executives and employees, we believe it is not the sole or exclusive reason why exceptional executives or employees choose to join and stay at Logitech, or why they work hard to achieve results for shareholders. In this regard, both the Compensation Committee and management believe that providing a working environment and opportunities in which executives and employees can develop, express their individual potential, and make a difference are also a key part of Logitech's success in attracting, motivating, and retaining executives and employees.

EXECUTIVE COMPENSATION PRACTICES

Logitech has employed a number of executive compensation practices that reflect its compensation philosophy:

As shown in the chart below under the heading "Pay Mix", the majority of executive officers' potential compensation is designed to be performance-based, using a variety of performance measures, including measuring Logitech's performance against Board-established fiscal and other targets for annual incentive cash bonuses, and relative total shareholder return for performance-based equity awards.

Logitech has clawback provisions that apply to its annual incentive cash plan and its equity awards plans, which provide for the recovery of compensation by Logitech in certain events described below under the heading "Recovery of compensation for restatement and misconduct".

Logitech does not allow executives or any of its employees to trade in derivatives of Logitech securities or pledge equity awards.

Logitech does not maintain any special vesting acceleration or payment arrangements that would be triggered solely by a "change in control" of Logitech.

Logitech does not provide special retirement benefits designed solely for executive officers.

In addition, Logitech has been a leader in providing our shareholders with an opportunity for advisory votes on compensation. Beginning in 2009, Logitech voluntarily submitted its compensation philosophy, policies, and procedures to a shareholder advisory vote. Our voluntary practice is now a requirement under U.S. legislation that provides shareholders the ability to periodically cast advisory votes on executive compensation, and is reflected in the proposals for our 2014 Annual General Meeting. We remain committed to providing clear and thorough disclosure on our executive compensation practices and actions, and our Compensation Committee will carefully consider the voting results.

At our 2013 Annual General Meeting, shareholders demonstrated strong support for the compensation of our named executive officers, voting in favor of our advisory compensation resolutions. The Compensation Committee was mindful of this support for our pay-for-performance compensation philosophy in retaining our general compensation practices and setting fiscal year 2014 compensation for our executive officers.

Table of Contents

NAMED EXECUTIVE OFFICERS

In this Compensation Report, we refer to our "named executive officers" in many places. This term includes the following individuals:

Guerrino De Luca, our Chairman.

Bracken P. Darrell, our President and Chief Executive Officer.

Vincent Pilette, our Chief Financial Officer.

Marcel Stolk, our Senior Vice President, CCP Business Group.

L. Joseph Sullivan, our Senior Vice President, Worldwide Operations.

Former Officers:

Erik K. Bardman, former Senior Vice President, Finance and Chief Financial Officer of Logitech at the beginning of fiscal year 2014.

Michael Doktorczyk, former interim Principal Financial Officer and Principal Accounting Officer.

Mr. Bardman resigned his employment with us effective as of April 26, 2013. Mr. Doktorczyk assumed the positions of Principal Financial Officer and Principal Accounting Officer on May 29, 2013 and served in such capacity until September 3, 2013. Because the compensation decisions for Messrs. Bardman and Doktorczyk were not made in the same manner as those of the other named executive officers, they are described separately at the end of this compensation report under the heading "Former Officers for fiscal year 2014" and any references to named executive officer or executive officer in other portions of this compensation report should be read as to not include them.

DETERMINING EXECUTIVE COMPENSATION

Role of the Compensation Committee and Independent Compensation Consultant

The Compensation Committee reviews and approves our compensation programs, including the specific compensation of our Chairman, our Chief Executive Officer, and our other executive officers.

Under the Compensation Committee's charter, the Committee has the authority to engage its own advisors (including compensation consultants) to assist it in carrying out its responsibilities. Since 2011 the Committee has retained Radford, an Aon Hewitt company, to provide analysis, advice, and guidance with respect to executive compensation. At the request of the Committee, Radford developed specific executive compensation analyses and recommendations for Logitech's Chairman, CEO, and executive officers for fiscal year 2014. For fiscal year 2014, at the request of the Compensation Committee, Radford provided advice and recommendations to the committee on competitiveness of executive officer compensation levels, the Company's compensation peer group, goal metrics and bonus design, compensation mix between cash and equity, type of equity arrangements, employment contract provisions, executive severance packages, executive officer hiring packages, developments in high technology compensation programs, trends in executive compensation for the Silicon Valley and Europe, legislation and regulations affecting executive compensation in the United States and Switzerland, and the impact of the global economy on executive compensation and director compensation.

Logitech paid fees of less than \$100,000 to various divisions and subsidiaries of Aon Corporation for services not related to executive compensation consulting services. The majority of these additional services consisted of activities Radford or Aon Hewitt have provided to Logitech for several years, and include the purchase of Radford's industry compensation surveys, the accounting valuations of equity grants, and the calculation of PSU grant performance. During fiscal year 2013, the SEC issued rules under the Dodd-Frank Act concerning compensation consultant independence. Under these rules the

Table of Contents

Compensation Committee must determine whether any work completed by a compensation consultant raised any conflict of interest after taking into account six independence-related factors. The Compensation Committee has reviewed these six factors as they apply to Radford and has concluded there is no conflict of interest.

Role of Management in Compensation Decisions

Management makes recommendations to the Compensation Committee with respect to both the design of compensation programs and specific compensation decisions. The Committee reviews the recommendations with its independent compensation consultant, deliberates and approves the executive officers' compensation. The Committee does so independently without the presence of an executive officer during deliberations or decision making on his or her compensation.

The fiscal year 2014 executive officer compensation proposals for base salary, bonus targets, and equity grant values were developed by Radford and presented to both the Compensation Committee and Logitech's management. Based on the analysis performed by Radford, Logitech's then-Vice President of Worldwide Human Resources and its compensation department, in consultation with Guerrino De Luca, Logitech's Chairman, and Bracken Darrell, Logitech's Chief Executive Officer, provided specific recommendations to the Compensation Committee.

As part of the annual personnel review and succession planning process, Mr. Darrell also provided the Board and the Compensation Committee with his perspective on the performance of Logitech's executive officers. This performance feedback provided additional input to the Committee when making its decisions on fiscal year 2014 compensation.

Overview of Factors Considered by Committee

The Compensation Committee considers a variety of factors when determining total executive compensation, including:

Competitive considerations.

Subjective elements, such as the scope of the executive's role, experience and skills and the individual's performance during the prior fiscal year and potential for future contribution to Logitech.

The performance of Logitech in the prior fiscal year.

The performance of Logitech in the prior fiscal year relative to the Company's compensation peer group and the overall technology industry.

Accrued and realized gains from past equity incentive awards.

The need to retain key executives during Logitech's challenging turnaround period.

Competitive considerations

Both peer group and broader industry compensation survey data is used by our Compensation Committee when setting Logitech's executive compensation, as well as to assist the Compensation Committee in the evaluation of the design of bonus plan and equity compensation programs.

The companies in Logitech's peer group were selected in February 2011, and are reviewed annually, in partnership with Radford Consulting, based on (i) involvement in the PC-based consumer electronics industry, or (ii) revenues approximately equal to Logitech's and a presence near Silicon Valley in the San Francisco Bay Area. Although Logitech is a Swiss company, Logitech primarily competes for executive management talent with technology companies in the United States, and particularly in the

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

Table of Contents

high-technology area of Silicon Valley. As a result, the peer group consists primarily of U.S. public technology companies. For fiscal year 2014, the compensation peer group consisted of:

Activision Blizzard, Inc.	Electronic Arts, Inc.	Plantronics
Agilent Technologies, Inc.	Intuit, Inc.	Polycom, Inc.
Analog Devices, Inc.	Lexmark International, Inc.	SanDisk Corporation
Autodesk, Inc.	NetApp, Inc.	Take-Two Interactive
BMC Software, Inc.	Nuance	VeriFone
	Communications, Inc.	Systems, Inc.
Brocade Communications Systems, Inc.	NVIDIA Corporation	

At the time the fiscal year 2014 executive compensation review was performed, in March 2014, Logitech ranked at approximately the 31st percentile among the peer group for revenues, and lowest for market capitalization and for income. Nevertheless, the Compensation Committee believed at the time of the fiscal year 2014 compensation decisions that the compensation peer group was representative of the companies with which Logitech competed for talent and accordingly, against which Logitech should benchmark its compensation.

	Revenues (in millions)	Net Income (in millions)	Market Capitalization (in millions)
75th Percentile	\$ 4,223	\$ 505	\$ 13,328
50th Percentile	2,701	245	6,304
25th Percentile	1,866	106	2,244
Logitech	2,163	(164)	1,175

Most recently available four quarters as of March 2013. Market Capitalization as of March 15, 2013. Produced by Radford.

In addition, to assist the Compensation Committee in its review of executive compensation, Logitech's compensation department provides compensation data compiled from widely recognized high-technology executive compensation surveys.

Effect of individual performance

The differences in compensation among the individual named executive officers, as disclosed in the Summary Compensation Table on page 123, were primarily related to market compensation in each position, based on compensation peer group and survey data, a subjective assessment of the executive's impact on the Company's past and future performance, succession planning, and retention.

Other factors

For new-hire executives, in addition to market compensation for the position, consideration is given to the base salary of the individual at his or her prior employment, any unique personal circumstances that motivated the executive to leave that prior position and join Logitech, the Company's needs and the perceived competitive environments in recruiting the executive.

Timing of compensation decisions

Executive compensation (base salary, target bonus, and equity grants) is typically reviewed and actions are taken at the start of the fiscal year in order to align all compensation actions, and the related performance periods, with the fiscal year or multiple fiscal years. The Compensation Committee may also make executive compensation decisions at other times during the fiscal year in the event of an executive new hire or promotion or other reasons.

Table of Contents

ELEMENTS OF COMPENSATION

The following table outlines our objectives for each of the principal components of our executive compensation programs:

Element of Compensation	Objective
Base salary	Reward individuals for their current contributions to the Company
Performance-based cash compensation	Compensate individuals for their expected day-to-day service Align executive compensation with Logitech's annual performance goals
Long-term equity incentive awards	Motivate and reward the executive for above-target performance Make a significant portion of the executive's annual cash compensation variable and subject to the achievement of Board-approved, Company-oriented business goals Deliver the majority of total potential compensation via long-term equity incentives Align executive and shareholder interests Provide a direct incentive for future performance
	Support pay for performance and retention of our executive team

Our executive officers are also eligible to participate in the health and benefits plans, retirement savings plans, and our employee share purchase plans that are generally available to similarly-situated employees. We also provide limited perquisites, as described in "Other Compensation Elements Perquisites" below.

Pay Mix

In determining how we allocate an executive's total compensation package among base salary, performance-based cash compensation, and long-term equity incentives, we emphasize compensation elements that reward performance against measures that correlate closely with increases in shareholder value. Accordingly, the majority of our executive compensation is at-risk, including the annual performance-based cash bonus and the majority of our long-term equity incentive grants. Our CEO and other executive officers have a higher percentage of at-risk compensation (and thus greater upside potential and downside risk) relative to Logitech's other employees.

The charts below indicate the percentage of total compensation in fiscal year 2014 represented by base salary, performance-based cash compensation, and long-term equity incentive awards for our Chief Executive Officer, Bracken Darrell, and for all other named executive officers who remained executive officers through fiscal year 2014 as well as Vincent Pilette who joined the Company in the middle of the fiscal year. All underlying amounts are taken from the Summary Compensation Table on page 123.

We design our programs to have the largest portion of potential compensation to be based on long-term performance (equity), the next largest portion based on short-term performance (annual performance bonus), and the smallest portion as base salary. Our actual fiscal year 2014 pay mix reflects this design philosophy. While the pay mix for each executive officer varies based on individual

Table of Contents

circumstances, executive officers in the aggregate received approximately 15% of their annual compensation in base salary, 15% in annual bonus, and 70% in equity.

-
- (1) Includes executive officers, other than Mr. Darrell, as of the end of fiscal year 2014: Messrs. De Luca, Pilette, Stolk, and Sullivan.

Base salary

In setting base salary levels for fiscal year 2014, the Compensation Committee considered each executive's pay against similar roles among our compensation peer group companies, based on data provided in March 2014 by Radford, overall salary increase trends for executive officers, and each executive's performance over the past year.

In fiscal year 2014, we only provided salary increases to Mr. Stolk and Mr. Sullivan. Mr. Stolk received a 7.3% merit and market adjustment increase based on performance and his position relative to the median for our compensation peer group companies. Mr. Sullivan received a 3.2% merit-based increase based on performance.

Named Executive Officer	2014 Annual Base Salary (\$)	2013 Annual Base Salary (\$)	Change 2013 to 2014
Guerrino De Luca	500,000	500,000	0%
Bracken P. Darrell	750,000	750,000	0%
Vincent Pilette ⁽¹⁾	500,000	n/a	n/a
L. Joseph Sullivan	415,000	402,000	3%

Named Executive Officer	2014 Annual Base Salary (CHF)	2013 Annual Base Salary (CHF)	Change 2013 to 2014
Marcel Stolk	513,000	478,301	7%

- (1) Mr. Pilette joined the Company as Chief Financial Officer on September 3, 2013.

Performance-based cash compensation

Logitech's annual performance-based bonuses, under the Logitech Management Performance Bonus Plan, "Bonus Plan", compensate executives based on achievement against the key financial metrics of revenue and operating income, which are equally weighted. These metrics address both "top line" (revenue) and "bottom line" (operating income) corporate financial goals. In addition, for executive officers who are business group or regional leaders we factor in metrics with respect to their respective areas of responsibility, all of which the Committee believes are critical to driving long-term shareholder value.

Table of Contents

The Bonus Plan is designed to motivate and reward executives for above-target performance. The annual performance-based bonuses represent a significant portion of each executive's potential annual cash compensation, ranging from 40% to 50% of annual targeted cash compensation. Payout under the incentive plan is variable, based on the achievement against Logitech's financial goals, and for fiscal year 2014 can range from 0% to 200% of the executive's target incentive.

Named executive officer bonus targets for fiscal year 2014

In fiscal year 2014, the bonus targets as a percentage of base salary for our named executive officers remained the same as those in fiscal year 2013. The cash bonus target percentages for fiscal year 2014 are summarized in the table below. For Mr. De Luca and Mr. Darrell the Bonus Plan is designed to pay 100% of their individual target bonus opportunity for on target performance.

For the Leadership Team, defined as management team members who report directly to Mr. Darrell, the Bonus Plan was designed to pay 90% of the individual's bonus target opportunity for on target performance. The remaining 10% of the total target bonuses of the Leadership Team members was allocated to a bonus pool to be allocated to members of the Leadership Team at the discretion of Mr. Darrell based on predetermined criteria and objectives. These recommendations were approved by the Compensation Committee.

The target bonus opportunities for named executive officers in fiscal year 2014 are at the median of our compensation peer group, based on peer group data provided by the Compensation Committee's independent compensation consultant in March 2013.

Named Executive Officer	2014 Annual Target Bonus Percentage of Base Salary	2013 Annual Target Bonus Percentage of Base Salary	Change 2013 to 2014
Guerrino De Luca	100%	100%	0%
Bracken P. Darrell	100%	100%	0%
Vincent Pilette	80%	n/a	n/a
Marcel Stolk	80%	75%	n/a(1)
L. Joseph Sullivan	75%	75%	0%

(1)

In fiscal year 2013, Mr. Stolk was eligible for an additional special cash incentive bonus of CHF 67,500 which was guaranteed as part of his fiscal year 2012 employment contract. This element of his compensation was discontinued for fiscal year 2014.

Table of Contents**Performance measures for fiscal year 2014 bonus program**

In fiscal year 2014, the Bonus Plan was based on the following performance measures:

Performance Measure	Why It is Used	Measurement Basis
Revenue	Revenue growth is an essential component of long-term success and viability and enables future strategic investments.	Generally Accepted Accounting Principles (GAAP).
Adjusted Operating Income	Generating an increase in per-share value for investors is a priority, as operating profit allows Logitech to re-invest in R&D, operations and people for future success.	GAAP, excluding restructuring and one-time transaction charges related to acquisitions and divestitures.
Business Group/Region Metrics	Measures specific to the performance of the Business Group/Region for which the executive is responsible.	Varies by the metric.

For all named executive officers, the 2014 Bonus Plan goals were set equal to Logitech's annual business plan for fiscal year 2014 as approved by the Board of Directors in March 2013. All named executive officers' bonuses were based on achievement against Logitech's revenue and operating income goals other than the 10% portion that was pooled to be allocated by the Compensation Committee after the CEO's recommendations. Please see further details below under the heading "Bonus Plan performance targets and results for fiscal year 2014."

For any bonus payment to be made under the fiscal year 2014 Bonus Plan, the minimum performance requirements must both be met for each of the plan metrics: Logitech Revenue no less than 94% of target performance and Logitech Operating Income no less than 66% of target performance.

Bonus Plan performance targets and results for fiscal year 2014

The performance targets, actual performance, and funding percentages from the Bonus Plan in fiscal year 2014 for our executive officers are set out in the following table:

Participant	Performance Measure	Performance Target (\$ in millions)	Actual Achievement (\$ in millions)	Funding Percentage (Per Plan)
Guerrino De Luca				
Bracken P. Darrell	Revenue (50%)	2,075.4	2,123.0	102%
Vincent Pilette	Adjusted Operating Income (50%)	75.9	96.9	128%
L. Joseph Sullivan				115%
Marcel Stolk	Combined Corporate Revenue (25%), Corporate Operating Income (25%), Business Group Metrics (50%)			119%
All executive officers				116%

Table of Contents**Annual performance-based cash payments for fiscal year 2014**

The cash bonus awards earned and paid in respect of fiscal year 2014 were based on the performance measures and results set forth above. The following table details the annual performance-based cash payments for each executive officer.

Named Executive Officer	2014 Annual Incentive Plan Bonus Earned (\$)	2013 Annual Incentive Plan Bonus Earned (\$)
Guerrino De Luca	\$ 575,000	\$
Bracken P. Darrell	862,500	
Vincent Pilette(1)	512,000	n/a
L. Joseph Sullivan(2)	385,950	

Named Executive Officer	2014 Annual Incentive Plan Bonus Earned (CHF)	2013 Annual Incentive Plan Bonus Earned (CHF)
Marcel Stolk(3)	521,208	67,500

- (1) The Compensation Committee did not pro-rate for time of service Mr. Pilette's fiscal year 2014 bonus based on his accomplishments in reducing operating expenses, driving operating leverage and delivering shareholder value during the portion of fiscal year 2014 during which he was with the Company.
- (2) Mr. Sullivan received a portion of his fiscal year 2014 bonus in Logitech shares as required by the Company Executive Share Ownership Program.
- (3) In fiscal year 2013, Mr. Stolk received a special cash incentive bonus of CHF 67,500 which was guaranteed as part of his fiscal year 2012 employment contract.

Long-term equity incentive awards

During fiscal year 2014, the Compensation Committee granted our executive officers, excluding Mr. Pilette who received a new-hire grant at the start of his employment in September 2013, annual long-term equity incentive awards in the form of performance-based restricted stock units, or PSUs and time-based restricted stock units, or RSUs. In fiscal year 2013, the Compensation Committee granted the executive officers Performance Stock Options, or PSOs, with vesting tied to specific share price points. The use of PSUs with vesting tied to performance against the NASDAQ-100 Index is a return to the Company's practice from fiscal year 2012. In the Committee's view, the return to the use of PSUs is consistent with industry practice.

PSUs. Sixty percent (60%) of the value at grant (based on the assumptions used for financial account purposes) of the fiscal year 2014 equity awards were in the form of PSUs. The PSUs are "at-risk" compensation because Logitech's relative total shareholder return performance must be at or above the minimum threshold percentile against the NASDAQ-100 Index over the performance period of three years in order for the executive to receive any shares from the PSU grant. If, at the end of the performance period, threshold performance is achieved, the number of shares in which the executive officer vests is pro-rated according to performance.

The performance measure for the performance-based restricted stock units granted in fiscal year 2014 is the relative total shareholder return, or TSR, expressed as a percentile rank, of Logitech shares against the TSR of companies included in the NASDAQ-100 Index. The Compensation Committee believes this measure is a key reflection of Logitech's operational and financial performance, because it focuses on relative performance against other mid- to large-size technology companies.

Table of Contents

For purposes of the PSUs, relative TSR reflects (i) the aggregate change in the 30-day average closing price of Logitech shares against the companies in the NASDAQ-100 Index, and (ii) the value (if any) returned to shareholders in the form of dividends or similar distributions, assumed to be reinvested in shares when paid, each at the beginning and the end of a three-year performance period.

The structure of the PSUs granted in fiscal year 2014 is summarized in the table below:

PSU Grants Made On or After April 2013: Percentile Rank of Logitech TSR Against NASDAQ-100 Index TSR	Percentage of Shares that Vest Under PSU
Below 30 th Percentile Rank (threshold)	0%
30 th Percentile Rank	50%
60 th Percentile Rank (target)	100%
75 th Percentile Rank and Above	150%

The Compensation Committee utilizes PSUs for executive officers to align Logitech's equity compensation for executives more closely with the interests of shareholders. The PSUs are also intended to:

Link compensation to key financial metrics of growth and profitability.

Provide vesting based on Logitech's stock price performance relative to a benchmark (in this case the NASDAQ-100 Index).

Require strong performance for target or any substantial vesting to occur, and provide an extraordinary payout if Logitech's performance significantly exceeds that of the benchmark group.

Support pay-for-performance philosophy and retention efforts.

Be less dilutive to shareholders than stock options.

RSUs. Forty percent (40%) of the value of the fiscal year 2014 focal equity awards was granted in the form of restricted stock units. Time-based restricted stock units, or RSUs, provide for the issuance of shares at a future date upon vesting of the RSUs. With the exception of the new-hire awards granted to Mr. Pilette and the special award granted to Mr. De Luca in recognition of past service to the Company, RSUs granted to our executive officers in fiscal year 2014 have our typical four-year vesting period which vest in four equal annual installments. The Compensation Committee believes RSUs create incentives for performance and further align the interests of executives with those of shareholders because an RSU's value increases or decreases in conjunction with the Company's stock price. Because the value at grant of RSUs is generally greater than that of stock options, we are able to grant a smaller number of RSUs while delivering similar grant-date award value. As a result, granting RSUs helps minimize the dilutive effects of our equity awards on our shareholders and, in the Committee's view, provides a more cost-effective balance of incentive and risk than standard stock options.

Long-term equity incentive awards granted in fiscal year 2014

For fiscal year 2014, management recommended and the Compensation Committee approved long-term incentive grant values for each named executive officer at approximately the 25th percentiles of grant values for comparable executives at our compensation peer group companies. Based on the poor performance in the previous fiscal year, the Compensation Committee determined that our executive officers must build Logitech's value at a rate greater than the overall market to receive equity values in line with those of our compensation peer group companies. For our executives to earn market levels of equity value, Logitech would have to outperform the market in terms of stock price appreciation. The Compensation Committee also made judgments on the performance and relative impact of each executive

Table of Contents

officer and the importance of retaining each executive through the coming year and beyond. Grants were made to the executive officers as follows:

Grants to Mr. De Luca. On April 15, 2013, Mr. De Luca received a PSU grant for 30,000 shares, assuming 100% target performance, and an RSU grant of 20,000 shares, as part of his fiscal year 2014 annual compensation as Chairman. In addition, Mr. De Luca received an RSU grant of 250,000 shares in recognition for his service as Logitech's acting Chief Executive Officer from July 2011 through January 2013 as noted below under Other Compensation.

Grants to Mr. Darrell. On April 15, 2013, as part of the annual executive compensation review, Mr. Darrell received a PSU grant for 270,000 shares at target, and an RSU grant of 177,000 shares.

Grants to Other Executive Officers. The equity incentive award grants made to all Logitech executive officers during fiscal year 2014 are set out in the Grants of Plan-Based Awards in Fiscal Year 2014 table on page 125.

The following table illustrates the grant date fair values, which is the accounting cost to Logitech, of the equity awards that each executive officer received in fiscal year 2014 and 2013. The grant date fair values in fiscal year 2014 decreased from those in fiscal year 2013 (except for Mr. De Luca due to the special grant described above) due to the fiscal year 2014 grant values being set at approximately the 25th percentile of our compensation peer group, compared to the fiscal year 2013 grant values that were slightly below the 50th percentile of our compensation peer group.

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

Table of Contents

The table also illustrates the total shares underlying the equity awards that each executive officer received in fiscal year 2014 and 2013. The number of shares granted decreased significantly due to the return to granting full-value PSUs from the PSOs awarded in fiscal year 2013.

-
- (1) Grant date fair value represents the accounting cost to Logitech associated with equity awards. The actual equity award value delivered to each named executive officer may be considerably lower or higher than the grant date fair value of the award. The actual equity award value delivered depends on, in the case of performance-based awards such as PSUs, whether or not the minimum performance condition is met, and, if so, the level of performance. Actual equity award value delivered also is significantly impacted by appreciation or depreciation in Logitech's share price between the grant and vesting dates.
- (2) Mr. De Luca received an RSU grant of 20,000 shares, as part of his fiscal year 2014 annual compensation as Chairman as well as an RSU grant of 250,000 shares in recognition for his service as Logitech's acting Chief Executive Officer from July 2011 through January 2013 as noted below under Other Compensation.
- (3) Mr. Pilette joined the Company as Chief Financial Officer on September 3, 2013.

Determination of long-term equity incentive awards

The Compensation Committee is responsible for approving who should receive equity incentive awards, when the awards should be made, the vesting schedule, and the number of shares or other rights to

Table of Contents

be granted. Long-term equity incentive awards may be granted only by the Compensation Committee or the full Board of Directors. The Compensation Committee regularly reports its activity, including approvals of grants, to the Board.

Timing of grants

Long-term equity incentive award grants to executive officers are typically and predominantly approved at regularly scheduled, predetermined meetings of the Compensation Committee. These meetings are scheduled up to 18 months in advance and take place before the regularly scheduled, predetermined meetings of the full Board. On limited occasions, grants may be approved at an interim meeting of the Compensation Committee or by consent, for the purpose of approving the hiring and compensation package for newly hired or promoted executives. In fiscal year 2014 grants were made to new hires and promoted employees, including those at the executive officer level, through regularly scheduled monthly written consents of the Compensation Committee. We do not have any program, plan, or practice to select equity compensation grant dates in coordination with the release of material non-public information, nor do we time the release of information for the purpose of affecting value. We do not backdate options or grant options retroactively.

OTHER COMPENSATION ELEMENTS

Other compensation

On September 4, 2013, the Compensation Committee granted a cash bonus of \$460,000 and an RSU grant of 250,000 shares to Mr. De Luca in recognition for his service as Logitech's acting Chief Executive Officer from July 2011 through January 2013. The Compensation Committee set a two-year vesting term and provided for acceleration in case Mr. De Luca was involuntarily removed from his role as Chairman. Mr. De Luca's compensation had not been adjusted since he assumed these additional responsibilities. After almost a year of deliberations on the appropriate method of such recognition, this special bonus was based on the recommendation of the Compensation Committee's independent compensation consultant and a comparison of Mr. De Luca's compensation during his tenure as acting Chief Executive Officer to the Company's peer group.

Deferred compensation plan

Executive officers based in the United States are also eligible to participate in the Logitech Inc. Deferred Compensation Plan and a predecessor plan, which are unfunded and unsecured plans that allow employees of Logitech Inc., the Logitech subsidiary in the United States, who earn more than a threshold amount the opportunity to defer U.S. taxes on up to 80% of their base salary and up to 90% of their bonus or commission compensation. Under the plan, compensation may be deferred until termination of employment or other specified dates chosen by the participants, and deferred amounts are credited with earnings based on investment benchmarks chosen by the participants from a number of mutual funds selected by Logitech Inc.'s Deferred Compensation Committee. The earnings credited to the participants are intended to be funded solely by the plan investments. Logitech does not make contributions to this plan. Information regarding named executive officer participation in the deferred compensation plans can be found in the Non-Qualified Deferred Compensation for Fiscal Year 2014 table and the accompanying narrative.

Because the listed officers do not receive preferential or above-market rates of return under the deferred compensation plan, earnings under the plan are not included in the Summary Compensation table, but are included in the Non-Qualified Deferred Compensation table.

Table of Contents

Severance and related benefits

All named executive officers are eligible to receive benefits under certain conditions in accordance with Logitech's Change of Control Severance Agreement (Change of Control Agreement), as described in the section "Potential Payments Upon Termination or Change in Control."

The purpose of the Change of Control Agreements is to support retention in the event of a prospective change of control. Should a change of control occur, benefits will be paid after a "double trigger" event meaning that there has been both a change of control, and the executive is terminated without cause or resigns for good reason within 12 months thereafter as described in "Potential Payments Upon Termination or Change in Control". The RSU and PSU award agreements for executive officers other than Guerrino De Luca provide for the acceleration of vesting of the RSUs and PSUs subject to the award agreements under the same circumstances and conditions as under the Change of Control Agreements; namely, if the named executive officer is subject to an involuntary termination within 12 months after a change of control because his or her employment is terminated without cause or the executive resigns for good reason (a "double trigger"). In the event of such an involuntary termination:

All shares subject to the RSUs will vest.

100% of the shares subject to the PSUs will vest if the change of control occurred within 1 year after the grant date of the PSUs. If the change of control occurs more than 1 year after the grant date of the PSUs, the number of shares subject to the PSU that will vest will be determined by applying the performance criteria under the PSUs as if the performance period had ended on the date of the change of control.

To determine the level of benefits to be provided under each change of control agreement and other agreements, the Committee considered the circumstances of each type of severance, the impact on shareholders, and market practices.

Logitech does not provide any payments to reimburse its executive officers for additional taxes incurred (also known as "gross-ups") in connection with a change of control. These Agreements are being reviewed by the Compensation Committee with respect to complying with the Ordinance Against Excessive Compensation in connection with the Minder initiative under Swiss law.

Under Mr. Pilette's employment agreement, if his employment is involuntarily terminated without cause or he resigns for good reason, other than after a change of control, he is entitled to his base salary and target bonus for one year and accelerated vesting of a portion of his new hire RSU grant of 175,000 shares (as of September 15, 2014, 116,666 shares from this grant remain unvested), and, if he is terminated within his first year of employment, accelerated vesting of his entire restricted stock unit grant for 195,000 shares (as of September 15, 2014, this grant was completely vested). The terms in Mr. Pilette's agreement are intended to provide consideration for his service to Logitech and the potential length of time until subsequent employment is secured if he is involuntarily terminated without cause or resigns for good reason. The Compensation Committee believes that the terms of Mr. Pilette's severance are consistent with those of chief financial officers in our compensation peer group as well as the overall technology industry.

Perquisites

Logitech's executive officer benefit programs are substantially the same as for all other eligible employees.

Table of Contents

Other Benefits

Logitech's executive officers are eligible to receive the same benefits as all similarly-situated employees, including the following:

Company contributions to retirement programs are based on the location of employing company, such as the Logitech Inc. 401(k) in the United States and the Logitech Employee Pension Fund in Switzerland.

Health, welfare, and life insurance benefits.

Opportunity for participation in the Logitech Employee Share Purchase Plans.

VINCENT PILETTE'S NEW HIRE PACKAGE

In September 2013, Mr. Pilette joined Logitech as Chief Financial Officer. When establishing Mr. Pilette's compensation package, the Compensation Committee based its decisions on competitive market data for chief financial officer positions provided by the Compensation Committee's independent compensation consultant, as well as the compensation and benefits package Mr. Pilette had with his previous employer and the Compensation Committee's perception of what was required to secure and maintain his employment.

The Compensation Committee positioned Mr. Pilette's target cash compensation package at the 50th percentile of the market for chief financial officers. Mr. Pilette's base salary is \$500,000 and his annual bonus target percentage is 80%.

Mr. Pilette's equity package consisted of (i) 175,000 RSUs to provide a meaningful upside for success in managing costs to provide for profitability and operating leverage (as of September 15, 2014, 116,666 shares from this grant remain unvested); (ii) 195,000 RSUs to offset a portion of the earned, but unvested long-term incentives Mr. Pilette lost when leaving his former employer (this grant is fully vested); (iii) 147,500 performance stock units, or PSUs, that vest when Logitech's average closing price per share on the Nasdaq Global Select Market over a 90 calendar day period meets or exceeds \$12.00 (this grant is fully vested); and (iv) 147,500 performance stock units, or PSUs, that vest when Logitech's average closing price per share on the Nasdaq Global Select Market over a 90 calendar day period meets or exceeds \$14.00 (this grant is fully vested).

FORMER OFFICERS FOR FISCAL YEAR 2014

Erik K. Bardman, Former Senior Vice President, Finance and Chief Financial Officer

Mr. Bardman resigned his employment with us effective as of April 26, 2013. He was only with the Company for the first three weeks of fiscal year 2014 and was paid a base salary of \$38,462 for his service during the period based on an annual base salary of \$484,000. Upon Mr. Bardman's termination of employment, he received \$57,694 as payment for the value of his accrued but unused Personal Time Off Leave balance. In addition, Mr. Bardman received a 401(k) match of \$5,063 and premiums of \$201 were paid on his behalf for Group Term Life Insurance.

Michael Doktorczyk, Former Interim Principal Financial Officer and Principal Accounting Officer

Mr. Doktorczyk served as interim Principal Financial Officer and Principal Accounting Officer from May 29, 2013 until September 3, 2013. Mr. Doktorczyk was the Company's Vice President of Finance and Corporate Controller throughout fiscal year 2014, but he was not an executive officer. As a result, the Compensation Committee was not responsible for determining Mr. Doktorczyk's fiscal year 2014 compensation. For fiscal year 2014 his base salary was \$255,555, and he received an annual incentive plan bonus of \$60,504. In addition, Mr. Doktorczyk was granted a stock award valued at \$69,109. Because Mr. Doktorczyk was not an executive officer, he was not eligible to participate in any of the compensation

Table of Contents

programs for our other named executive officers that are set forth above. Mr. Doktorczyk's compensation was not influenced by his interim roles.

OTHER COMPENSATION POLICIES

Derivatives

We do not permit certain persons designated by the Company as insiders, including executive officers and directors, to trade in puts, calls, warrants or other derivative Logitech securities traded on an exchange or in any other organized securities market.

Recovery of compensation for restatement and misconduct

In June 2010, the Compensation Committee adopted a policy regarding the recovery of compensation paid to an executive officer or the principal accounting officer of the Company (a "clawback"). Under the terms of the policy we may recover bonus amounts, equity awards or other incentive compensation awarded or paid within the prior three years to a covered officer if the Compensation Committee determines the compensation was based on any performance goals that were met or exceeded as a result, in whole or in part, of the officer's fraud or misconduct, or the officer knew at the time of the existence of fraud or misconduct that resulted in performance goals being met or exceeded, and a lower amount would otherwise have been awarded or paid to the officer. In addition, under the policy Logitech may recover gains realized on the exercise of stock options or on the sale of vested shares by an executive officer or the principal accounting officer if, within three years after the date of the gains or sales, Logitech discloses the need for a significant financial restatement, other than a financial restatement solely because of revisions to US GAAP, and the Compensation Committee determines that the officer's fraud or misconduct caused or partially caused the need for the restatement, or the covered officer knew at the time of the existence of fraud or misconduct that resulted in the need for such restatement.

In addition, our 2006 Stock Incentive Plan and our Management Performance Bonus Plan provide that awards under the plans are suspended or forfeited if the plan participant, whether or not an executive officer:

has committed an act of embezzlement, fraud or breach of fiduciary duty;

makes an unauthorized disclosure of any Logitech trade secret or confidential information; or

induces any customer to breach a contract with Logitech.

Any decision to suspend or cause a forfeiture of any award held by an executive officer under the 2006 Stock Incentive Plan or the Management Performance Bonus Plan is subject to the approval of the Board of Directors. The Compensation Committee will amend the policy, as necessary, to comply with the final SEC rules regarding the recoupment policies of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

Additional tax and accounting considerations

U.S. Tax Code Section 162(m)

Favorable accounting and tax treatment of the various elements of our compensation program is a relevant consideration in their design. However, the Company and the Committee have placed a higher priority on structuring flexible compensation programs to promote the recruitment, retention, and performance of our officers than on maximizing tax deductibility. Section 162(m) of the U.S. Internal Revenue Code of 1986, as amended (the "Tax Code"), places a limit of \$1,000,000 on the amount of compensation that Logitech may deduct in any one year with respect to certain executive officers. The Committee has the ability through the use of Logitech International S.A. 2006 Stock Incentive Plan to grant awards that qualify as "performance-based compensation" exempt from that \$1,000,000 limitation

Table of Contents

but, to maintain flexibility in compensating executive officers in a manner designed to promote varying corporate goals, the Committee has not adopted a policy requiring all compensation to be deductible, and has in the past and will in the future make grants of compensation that do not qualify to be exempt from the \$1,000,000 limitation when it believes that it is appropriate to meet its compensation objectives.

In addition to considering the tax consequences, the Compensation Committee considers the accounting consequences, including the impact of the Financial Accounting Standard Board's Accounting Standards Codification Section 718, on its decisions in determining the forms of different equity awards.

Compensation Risks Assessment

Since March 2010, the Compensation Committee has conducted an annual review, with the assistance of the Committee's independent compensation consultant; of Logitech's compensation programs to assess the risks associated with their design and associated risk controls. The Committee reviews in particular the following compensation programs and associated practices:

Equity grants made under the 2006 Stock Incentive Plan.

Management Performance Bonus Plan.

Employee Performance Bonus Plan.

Sales Commission Plans.

Change of Control Severance Agreements in place with executive officers.

As in past years, based on the March 2014 review, the Compensation Committee has concluded that our compensation policies and practices do not create risks that are reasonably likely to have a material adverse effect on the Company.

REPORT OF THE COMPENSATION COMMITTEE

The Logitech Compensation Committee, which is composed solely of independent members of the Logitech Board of Directors, assists the Board in fulfilling its responsibilities with regard to compensation matters. The Compensation Committee has reviewed and discussed the "Compensation Discussion and Analysis" section of this Compensation Report with management. Based on this review and discussion, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in Logitech's 2014 Invitation and Proxy Statement and Annual Report.

Compensation Committee

Michael Doktorczyk(9) Former Interim Principal Financial Officer and Principal Accounting Officer	FY14	255,555		69,109		60,504			385,168

(1)

These amounts do not represent the actual economic value realized by the named executive officer. Under SEC rules, the values reported in the "Stock Awards" and "Option Awards" columns reflect the aggregate grant date fair value of grants of stock options and stock awards to each of the listed officers in the fiscal years shown. The key assumptions and methodology of valuation of stock options and stock awards are presented in Note 4 to the Consolidated Financial Statements included in Logitech's Annual Report to Shareholders.

For FY14: Assuming the highest level of performance is achieved, the maximum possible value of the PSUs allocated in FY14, using the market value of our shares on the grant date of the PSUs, was: (a) in the case of Mr. Guerrino De Luca, \$315,450; (b) in the case of Mr. Bracken P. Darrell, \$2,839,050; (c) in the case of Mr. Marcel Stolk, \$946,350; and (d) in the case of Mr. Joseph Sullivan, \$630,900.

For FY12: Assuming the highest level of performance is achieved, the maximum possible value of the PSUs allocated in FY12, using the market value of our shares on the grant date of the PSUs, was: (a) in the case of Mr. Guerrino De Luca, \$588,600; (b) in the case of Mr. Erik Bardman, Mr. Junien Labrousse and Mr. Werner Heid, \$686,700 each; and (c) in the case of Mr. Joseph Sullivan, \$490,500.

(2)

Reflects amounts earned under the Logitech Management Performance Bonus Plan. This non-equity incentive plan compensation was earned during the applicable fiscal year but, for executive officers, was paid during the next fiscal year in accordance with the terms of the Logitech Management Performance Bonus Plan. For Mr. Doktorczyk, this non-equity incentive plan compensation was earned during fiscal year 2014 under the Logitech Employee Performance Bonus Plan.

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

- (3) Details regarding the various amounts included in this column are provided in the following table entitled "All Other Compensation."
- (4) Mr. De Luca received a bonus of \$460,000 in September 2013 in recognition for his service as Logitech's acting Chief Executive Officer from July 2011 through January 2013.
- (5) Mr. Darrell joined the Company as President on April 9, 2012 and was appointed as Chief Executive Officer of the Company effective January 1, 2013.
- (6) Mr. Pilette joined the Company as Chief Financial Officer on September 3, 2013.
- (7) Mr. Stolk was designated as an executive officer in September 2013.
- (8) Mr. Bardman's service as Senior Vice President, Finance and Chief Financial Officer ended upon his departure from the Company on April 26, 2013.
- (9) Mr. Doktorczyk served as interim Principal Financial Officer and Principal Accounting Officer from May 29, 2013 until September 3, 2013. Mr. Doktorczyk was the Company's Vice President of Finance and Corporate Controller throughout fiscal year 2014, but he was not an executive officer.

- (1) Represents the cost to Logitech of \$15,882 and \$16,679 in fiscal years 2013 and 2012, respectively, related to Mr. Guerrino De Luca's occasional use of a company car and driver to and from work.
- (2) Represents 401(k) savings plan matching contributions, which are available to all of our regular employees who are on our U.S. payroll.
- (3) Represents costs associated with Mr. Darrell's relocation from Switzerland to the United States in fiscal year 2013, including airfare, home purchase and sales assistance, tax advice assistance, moving costs, temporary living benefits and other costs.
- (4) Represents the matching contributions to the Logitech Employee Pension Fund in Switzerland for Mr. Marcel Stolk, which are available to all of the Company's similarly-situated regular employees who are on its Swiss payroll.
- (5) In the case of Mr. Bardman, for fiscal year 2014, he received \$57,694 as payment for the value of his accrued but unused Personal Time Off Leave balance. In the case of Mr. Darrell, for fiscal year 2013, this represents a lump sum payment of \$15,000, net of taxes, to be applied towards attorney's fees associated with review of his offer of employment.

Table of Contents**GRANTS OF PLAN-BASED AWARDS IN FISCAL YEAR 2014**

The following table sets forth certain information regarding grants of plan-based awards to each of our executive officers during fiscal year 2014. For more information, please refer to "Compensation Disclosure and Analysis."

Name	Type	Grant Date (MM/DD/YY)	Approval Date	Estimated Future Payouts Under Non-Equity Incentive Plan Awards(1)			Estimated Future Payouts Under Equity Incentive Plan Awards			All Other Stock Awards: Number of Shares of Stock or Units (#)(3)	Grant Date Fair Value (\$)(4)

	PSU(6) FY14	04/15/13	04/15/13					45,000	90,000	135,000	679,500
	Bonus(8)	n/a	n/a	231,876	463,752	927,504	589,643				
L. Joseph Sullivan	RSU	04/15/13	04/15/13							40,000	280,400
	PSU(6) FY14	04/15/13	04/15/13					30,000	60,000	90,000	453,000
	Bonus	n/a	n/a	155,625	311,250	622,500	385,950				

- (1) The amounts in these columns reflect possible payouts with respect to each applicable performance period for the fiscal year 2014 bonus programs under the Bonus Plan.
- (2) The amounts in this column reflect actual payouts with respect to each applicable performance period for the fiscal year 2014 bonus programs under the Bonus Plan. The actual payout amounts are reflected in the Non-Equity Incentive Plan Compensation column of the Summary Compensation Table for fiscal year 2014.
- (3) Other than the RSU grant in footnote 5, represents RSUs that vest at a rate of 25% per year over four years, on each yearly anniversary of the grant date.
- (4) These amounts do not represent the actual economic value realized by the named executive officer. Amounts in this column represent the grant date fair value of PSUs and RSUs calculated in accordance with Accounting Standards Codification (ASC) 718 but does not include a reduction for forfeitures. For PSUs, that number is calculated by multiplying the value determined using the Monte Carlo method by the target number of units awarded. For RSUs, that number is equal to the closing price of Logitech shares on the grant date multiplied by the number of shares granted. The key assumptions

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

for the valuation of the PSUs are presented in Note 5 to the Consolidated Financial Statements included in [this report] Logitech's Annual Report to Shareholders and Annual Report on Form 10-K for fiscal year 2014.

- (5) For Mr. De Luca the Compensation Committee set a two-year vesting term with vesting to occur on September 15, 2014 and September 15, 2015. The Compensation Committee also provided for acceleration in case Mr. De Luca was involuntarily removed from his role as Chairman.
- (6) Represents performance-based RSU ("PSU"). All shares subject to the PSU vesting conditions are unvested. The actual amount, if any, of shares that will vest under the PSU grants will not be known until April 15, 2016. The actual vesting amount will depend upon the percentile rank of Logitech TSR against NASDAQ-100 Index TSR.
- (7) Mr. Pilette received two RSU grants when he joined the Company in fiscal year 2014, including 195,000 RSUs with a one year vesting period and 175,000 RSUs that will vest in equal annual increments over three years, on each yearly anniversary of the grant date.
- (8) Mr. Stolk's bonus amounts were converted using the exchange rate of 1 CHF to 1.13 USD as of March 31, 2014.

NARRATIVE DISCLOSURE TO SUMMARY COMPENSATION TABLE AND GRANTS OF PLAN-BASED AWARDS TABLE

Employment Agreements and Offer Letters

We have entered into employment agreements or offer letters with each of our named executive officers. The employment agreements and offer letters generally provide that the compensation of the named executive officer is subject to the sole discretion of the Compensation Committee or the Board of Directors. Other than Mr. Pilette's compensation as a new hire, the compensation earned by the named executive officers in fiscal year 2014 was not the result of any terms of their employment agreements or offer letters.

Table of Contents

Performance-Based Vesting Conditions

Please refer to "Compensation Disclosure and Analysis Elements of Compensation Performance-based cash incentive awards" for a discussion of the performance measures applicable to the Bonus Plan during fiscal year 2014. In addition, please refer to "Compensation Disclosure and Analysis Elements of Compensation Long-term equity incentive awards" for a discussion of performance measures under the PSUs granted to executive officers during fiscal year 2014.

OUTSTANDING EQUITY AWARDS AT FISCAL YEAR-END

The following table provides information regarding outstanding equity awards for each of our named executive officers as of March 31, 2014. This table includes unexercised and unvested stock options, unexercised and unvested performance stock options, unvested PSUs, and unvested RSUs.

Unless otherwise specified, options and RSUs vest at a rate of 25% per year on each of the first four anniversaries of the grant date. Market value for stock options, including Premium Priced Option or PPOs and PSOs, is calculated by taking the difference between the closing price of Logitech shares on the Nasdaq Global Select Market on the last trading day of the fiscal year (\$14.89 on March 31, 2014) and the option exercise price, and multiplying it by the number of outstanding options. Market value for stock awards (RSUs and PSUs) is determined by multiplying the number of shares by the closing price of Logitech shares on the Nasdaq Global Select Market on the last trading day of the fiscal year.

(1)

PSUs are shown at their target amount. The minimum performance condition of the PSUs granted on June 29, 2009, in fiscal year 2010, was not met and therefore no shares vested at the conclusion of the 2-year performance period on June 29, 2011. The actual conversion, if any, of the PSUs granted in fiscal year 2011 into Logitech shares following the conclusion of the 3-year performance period will range between 50% and 200% of that target amount, depending upon Logitech's TSR performance versus the TSR benchmark over the performance period. The actual conversion, if any, of the PSUs granted in each of fiscal years 2012 and 2014 into Logitech shares following the conclusion of the 3-year performance period will range between 50% and 150% of that target amount, depending upon Logitech's TSR performance versus the TSR benchmark over the performance period.

Table of Contents

- (2) The exercise price of the option as granted (as split-adjusted) is 15.21 Swiss Francs per share and 17.20 US Dollar per share. CHF amount was converted using the exchange rate of 1 Swiss Franc to 1.13 U.S. Dollar as of March 31, 2014.
- (3) The exercise price of the option as granted (as split-adjusted) is 18.55 Swiss Francs per share and 20.97 US Dollar per share. CHF amount was converted using the exchange rate of 1 Swiss Franc to 1.13 U.S. Dollar as of March 31, 2014.

OPTION EXERCISES AND STOCK VESTED FOR FISCAL YEAR 2014

The following table provides the number of shares acquired and the value realized upon exercise of stock options and the vesting of RSUs during fiscal year 2014 by each of our named executive officers. No shares resulted from PSUs whose performance period ended during fiscal year 2014 because the minimum performance condition was not met.

Option Exercises and Stock Vested for Fiscal Year 2014

Name	Option Awards		Stock Awards	
	Number of Shares Acquired on Exercise (#)	Value Realized on Exercise \$(1)	Number of Shares Acquired on Vesting (#)	Value Realized on Vesting \$(2)
Guerrino De Luca				
Bracken P. Darrell			25,000	177,250
Vincent Pilette			295,000	4,730,325
Marcel Stolk			17,000	193,110
L. Joseph Sullivan			21,750	241,610
<i>Former Officers:</i>				
Erik K. Bardman			5,750	40,825
Michael Doktorczyk			8,015	70,583

- (1) The value realized equals the difference between the option exercise price and the fair market value of Logitech shares on the date of exercise, multiplied by the number of shares for which the option was exercised.
- (2) Based on the closing trading price of Logitech shares on the Nasdaq Global Select Market.

PENSION BENEFITS FOR FISCAL YEAR 2014

Marcel Stolk, Senior Vice President, Consumer Computing Platforms Business Group, is a participant in Logitech's Swiss Pension plan, which is a benefit offered to all eligible Swiss employees.

No other executive officers are beneficiaries under any pension plan benefits maintained by Logitech.

Name	Plan Name	Number of Years of Credited Service (#)	Present Value of Accumulated Benefit (\$)
Guerrino De Luca		n/a

Michael Doktorczyk	n/a

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

Table of Contents

The following table sets forth information regarding the participation by our named executive officers in the Logitech Inc. U.S. Deferred Compensation Plan during fiscal year 2014 and at fiscal year-end.

Name	Executive Contributions in Last Fiscal Year (\$)(1)	Logitech Contributions in Last Fiscal Year (\$)	Aggregate Earnings in Last Fiscal Year \$(2)	Aggregate Withdrawals/ Distributions (\$)	Aggregate Balance at Last Fiscal Year End (\$)
Guerrino De Luca					
Bracken P. Darrell					
Vincent Pilette					
Marcel Stolk					
L. Joseph Sullivan			70,647		497,103
<i>Former Officers:</i>					
Erik K. Bardman					
Michael Doktorczyk					

(1) Amounts are included in the Summary Compensation table in the "Salary" column for fiscal year 2014. All contributions were made under the Logitech Inc. Deferred Compensation Plan.

(2) These amounts are not included in the Summary Compensation table because plan earnings were not preferential or above market.

NARRATIVE DISCLOSURE TO NON-QUALIFIED DEFERRED COMPENSATION TABLE

Please refer to "Compensation Disclosure and Analysis Other Compensation Elements Deferred compensation plan" for a discussion of the Logitech Inc. U.S. Deferred Compensation Plan effective January 1, 2009.

PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL

We have entered into agreements that provide for payments under certain circumstances in the event of termination of employment of our executive officers. These agreements include:

Change of control severance agreements, under which an executive officer may receive certain benefits if he or she is subject to an involuntary termination within 12 months after a "change of control" because his or her employment is terminated without cause or because the executive resigns for good reason.

PSU, RSU, and PSO award agreements that provide for the accelerated vesting of the shares subject to the award agreements under certain circumstances, including the same circumstances as under the change of control agreements.

Offer letters with Bracken Darrell and Vincent Pilette, under which they are entitled to severance benefits if we terminate their employment without cause or if they resign for good reason.

An employment agreement with Marcel Stolk, under which he is entitled to receive a three-month notice period if we terminate his employment or if he resigns.

These agreements are described in more detail in the subsections below.

Other than the agreements above, there are no agreements or arrangements for the payment of severance to a named executive officer in the event of his involuntary termination with or without cause.

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

In fiscal year 2014, Mr. De Luca was awarded an RSU grant of 250,000 shares in recognition of his service as Logitech's acting Chief Executive Officer from July 2011 through January 2013. Given that the award was based on past service, if Mr. De Luca's service with the Company terminates by reason of death

Table of Contents

or disability or if Mr. De Luca ceases to be Chairman of the Board at the request or upon action of the Board or by action of the Company's shareholders or is not re-elected to the Board, all then unvested RSUs under the award will vest immediately.

There are no agreements providing for payment of any consideration to any non-executive member of the Board of Directors upon termination of his or her services with the Company.

Change of Control Severance Agreements

Each of our executive officers has executed a change of control severance agreement with Logitech. The change of control agreements with Mr. De Luca and Mr. Pilette are slightly different than those of the other executive officers. The purpose of the change of control agreements is to support retention in the event of a prospective change of control.

Under the change of control agreement, each executive officer is eligible to receive the following benefits, should the executive officer be subject to an involuntary termination within 12 months after a "change of control" because his or her employment is terminated without cause or the executive resigns for good reason:

The continuation of the executive's "current compensation" for 12 months (except in the case of Mr. Pilette, which is 18 months if he is terminated or resigns for good reason in the first two years of his employment);

Continuation of health insurance benefits for up to 12 months;

Acceleration of vesting for all stock options held by the executive;

Acceleration of other employee equity incentives held by the executive if provided for under the terms of the grant agreement for the equity incentive; and

Executive level outplacement services of a value of up to \$5,000.

The term "current compensation" includes:

The greater of (i) the executive's annual base salary in effect immediately prior to the executive's termination and (ii) the executive's annual base salary in effect on the date of the Change of Control Agreement; plus

The amount of the executive's annual bonuses for the fiscal year preceding the fiscal year in which severance benefits become payable to the executive.

The change of control agreement defines the term "change of control" to mean:

A merger or consolidation of Logitech with another corporation resulting in a greater than 50% change in the total voting power of Logitech or the surviving company immediately following the transaction;

The complete liquidation of Logitech;

The sale or other disposition of all or substantially all of Logitech's assets; or

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

The acquisition by any person of securities of Logitech representing 50% or more of the total voting power of Logitech's outstanding shares.

The change of control agreement with Mr. De Luca is the same as for the other executive officers, except that only those stock options granted by the Company to him before January 28, 2008, while he was serving as Chief Executive Officer, are subject to acceleration under the agreement. Options granted to him after January 28, 2008 are not subject to acceleration.

Table of Contents

The change of control agreement with Mr. Pilette is the same as for the other executive officers, except that (i) the continuation of the executive's "current compensation" is for 18 months if Mr. Pilette's employment is terminated following a change of control during the first two years of his employment, and (ii) current compensation is based on base salary and annual target bonus.

PSO Award Agreements

The PSO award agreements from named executive officers provide for the acceleration of the time-based vesting of the PSOs subject to the award agreements if the named executive officer resigns for good reason with 12 months after a change of control. In addition, the PSO award agreements for named executive officers, including Mr. De Luca, provide for the acceleration of the time-based vesting of the PSOs if the named executive officer is terminated for any reason other than cause or resigns for good reason within 12 months after a change of control. In any case, the PSO award agreements will not vest except to the extent that the performance-based vesting conditions have been attained.

PSU and RSU Award Agreements

The PSU and RSU award agreements for named executive officers other than Mr. De Luca provide for the acceleration of vesting of the RSUs and PSUs subject to the award agreements under the same circumstances and conditions as under the change of control agreements; namely, if the named executive officer is subject to an involuntary termination within 12 months after a change of control because his or her employment is terminated without cause or the executive resigns for good reason. In the event of such an involuntary termination:

All shares subject to the RSUs will vest.

100% of the shares subject to the PSUs will vest if the change of control occurred within one year after the grant date of the PSUs. If the change of control occurred more than one year after the grant date of the PSUs, the number of shares subject to the PSU that will vest will be determined by applying the performance criteria under the PSUs as if the performance period had ended on the date of the change of control.

Bracken Darrell Offer Letter

We entered into an offer letter with Bracken Darrell dated March 13, 2012. Under his offer letter, in the event he is terminated without "cause" or resigns (within 30 days after Logitech fails to remedy the condition reported to be good reason during a 30-day cure period) for good reason, other than after a change of control, he is entitled to receive severance benefits as follows:

If the termination had occurred within one year after his employment start date (note that, as of April 9, 2013, the one-year anniversary of his employment start date, Mr. Darrell is no longer entitled to these benefits), he would have been entitled to:

an amount equal to 200% of his then-current annual base salary, less applicable withholdings; plus

an amount equal to 200% of his then-current annual targeted bonus amount, less applicable withholdings; plus

25% of his initial stock option grant for 500,000 Logitech shares and 25% of his initial restricted stock unit grant for 100,000 shares will accelerate and vest.

Table of Contents

If the termination had occurred more than one year but within two years after his employment start date (note that, as of April 9, 2014, the two-year anniversary, Mr. Darrell is no longer entitled to these benefits), he would have been entitled to:

an amount equal to 150% of his then-current annual base salary, less applicable withholdings; plus

an amount equal to 150% of his then-current annual targeted bonus amount, less applicable withholdings.

If the termination occurs more than two years after his employment start date, he is entitled to:

an amount equal to 100% of his then-current annual base salary, less applicable withholdings; plus

an amount equal to 100% of his then-current annual targeted bonus amount, less applicable withholdings.

In each case, Mr. Darrell would also be entitled to have Logitech pay the premiums to continue his group health insurance coverage under COBRA during the applicable severance period, subject to any maximum length of coverage limits under applicable law or until he becomes eligible for benefits from a subsequent employer.

"Cause" in Mr. Darrell's offer letter is defined as: (i) theft, dishonesty, misconduct or falsification of any employment or Logitech records; (ii) improper disclosure of Logitech's confidential or proprietary information; (iii) failure or inability to perform any assigned duties after written notice from Logitech of, and a reasonable opportunity to cure, such failure or inability; (iv) conviction (including any plea of guilty or no contest) of a felony, or of any other criminal act if that act impairs his ability to perform his duties; or (v) failure to cooperate in good faith with a governmental or internal investigation of Logitech or its directors, officers or employees, if Logitech has requested his cooperation. "Good reason" in Mr. Darrell's offer letter is defined as: (i) a material reduction of his authority, duties or responsibilities, or (ii) if, by January 31, 2013, he is not reporting directly to the Logitech International Board of Directors as Chief Executive Officer. Mr. Darrell became Chief Executive Officer, reporting directly to the Board, on January 1, 2013.

If any amounts become payable to Mr. Darrell under his change of control agreement, or any successor agreement, the aggregate amount of any amounts payable to Mr. Darrell under his offer letter will be reduced to the extent necessary so as to prevent the duplication of severance payments to him.

If amounts payable to Mr. Darrell under any arrangement or agreement with Logitech are payable as a result of a change of ownership or control of Logitech and exceed the amount allowed under section 280G of the Code, and would be subject to the excise tax imposed by section 4999 of the Code, then, prior to the making of any Payments to Mr. Darrell, a "best-of" calculation will be made comparing (1) the total benefit to Mr. Darrell from the Payments after payment of the excise tax, to (2) the total benefit to Mr. Darrell if the Payments are reduced to the extent necessary to avoid being subject to the excise tax, and Mr. Darrell will be entitled to the Payments under the more favorable outcome.

Vincent Pilette Offer Letter

We entered into an offer letter with Vincent Pilette dated August 26, 2013. Under his offer letter, in the event he is terminated within the first two years after his employment start date without "cause" or resigns for good reason, other than after a change of control, he is entitled to receive severance benefits as follows:

An amount equal to 100% of his then-current annual base salary, less applicable withholdings; plus

Table of Contents

An amount equal to 100% of his then-current annual targeted bonus amount, less applicable withholdings; plus

One-third of his initial RSU grant for 175,000 units will accelerate and vest (as of September 15, 2014, 116,666 shares from this grant remain unvested); plus

If the separation of service had occurred within the first year of service (note that, as of September 3, 2014, the one-year anniversary, Mr. Pilette is no longer entitled to these benefits), 100% of his initial RSU grant for 195,000 units would have accelerated and vested (as of September 15, 2014, this grant was completely vested); plus

Executive-level outplacement services, in the amount of up to \$15,000.

In each case, Mr. Pilette would also be entitled to have Logitech pay the premiums to continue his group health insurance coverage under COBRA for a period up to 12 months or until he becomes eligible for benefits from a subsequent employer.

"Cause" in Mr. Pilette's offer letter is defined as: (i) willful dishonesty or fraud with respect to the business affairs of Logitech; (ii) intentional falsification of any employment or Logitech records, (iii) conviction (including any plea of guilty or no contest) of a felony which the Board of Directors of Logitech International reasonably believes materially impairs his ability to perform his duties for Logitech or adversely affects Logitech's reputation or standing in the community, (iv) a willful act by him which constitutes misconduct (including, but not limited to, improper use or disclosure of the confidential or proprietary information of Logitech) and is injurious to Logitech, or (v) continued willful violations by him of his obligations to Logitech after there has been delivered to him a written demand for performance from Logitech which describes the basis for Logitech's belief that he have not substantially performed his duties.

"Good reason" in Mr. Pilette's offer letter is defined as: (i) a substantial reduction of the facilities and perquisites (including office space and location) available to him immediately prior to such reduction, without his expressed written consent and without good business reasons, (ii) a material reduction of his base salary, (iii) a material reduction in the kind or level of employee benefits to which he is entitled immediately prior to such reduction, with the result that his overall benefits package is significantly reduced, (iv) his relocation to a facility or location more than thirty (30) miles from his current location, without his expressed written consent, (v) the failure of Logitech and Logitech International to obtain the assumption of his letter agreement by any successor, or (vi) a material reduction of his duties, position or responsibilities relative to his duties, position or responsibilities in effect immediately prior to such reduction, without his expressed written consent ("demotion").

If any amounts become payable to Mr. Pilette under his change of control agreement, or any successor agreement, the aggregate amount of any amounts payable to Mr. Pilette under his offer letter will be reduced to the extent necessary so as to prevent the duplication of severance payments to him.

If amounts payable to Mr. Pilette under any arrangement or agreement with Logitech are payable as a result of a change of ownership or control of Logitech and exceed the amount allowed under section 280G of the Code, and would be subject to the excise tax imposed by section 4999 of the Code, then the Payments are reduced to the extent necessary to avoid being subject to the excise tax.

Tables of Potential Payments Upon Termination or Change in Control

The table below estimates the amount of compensation that would be paid in the event of an involuntary termination of a listed executive officer without cause after a change in control, assuming that each of the terminations was effective as of March 31, 2014, subject to the terms of the change of control agreement and the terms of the PSO, PSU and RSU award agreements with each of the listed executive officers.

Table of Contents

For Mr. Darrell and Mr. Pilette, the additional table below estimates the amount of compensation that would have been paid in the event of an involuntary termination without cause, assuming that the termination was effective as of March 31, 2014, subject to the terms of the agreements with them. As of March 31, 2014, no compensation amounts were payable to any named executive officer in the event of a mutual agreement to terminate employment, whether upon retirement or otherwise.

The price used for determining the value of accelerated equity in the tables below was the closing price of Logitech's shares on the Nasdaq Global Select Market on March 31, 2014, the last business day of the fiscal year, of \$14.89. For those unvested options held by Mr. De Luca that have exercise prices denominated in Swiss Francs, the U.S. Dollar equivalent of such exercise prices as of March 31, 2014 were calculated based on a Swiss Franc to U.S. Dollar exchange rate on March 31, 2014 of 1 to 1.13.

Potential Payments Upon Involuntary Termination After Change in Control

Name	Base Salary(1)	Bonus(2)	Other Benefits(3)	Value of Accelerated Equity Awards(4)	280G cut-back(5)	Total
Guerrino De Luca Bracken P.	500,000	575,000	13,465	4,467,000		5,555,465
Darrell(6)	750,000	862,500	30,419	10,345,080		11,987,999
Vincent Pilette	750,000	600,000	23,465	5,509,300	(610,682)	6,072,083
Marcel Stolk	580,363	583,753	8,657	3,355,330	n/a	4,528,103
L. Joseph Sullivan	415,000	385,950	22,713	2,796,955	(1,156,511)	2,464,107

- (1) Represents fiscal year 2014 annual base salary in effect on March 31, 2014. Mr. Pilette's agreement calls for 18 months of compensation continuation if his employment is terminated following a change of control during the first two years of his employment. Thereafter, Mr. Pilette is eligible for 12 months of compensation continuation. Mr. Stolk's salary amount was converted using the exchange rate of 1 CHF to 1.13 USD as of March 31, 2014.
- (2) Bonuses paid for fiscal year 2014 except for Mr. Pilette. Mr. Pilette's agreement provides for bonus based on annual target bonus. Mr. Stolk's bonus amount was converted using the exchange rate of 1 CHF to 1.13 USD as of March 31, 2014.
- (3) Represents the estimated cost of medical and other health insurance premiums (COBRA) for one year after termination and \$5,000 in outplacement services (\$15,000 for Mr. Pilette).
- (4) Represents, as of March 31, 2014, the aggregate intrinsic value (market value less exercise price) of unvested options and the aggregate market value of shares underlying all unvested RSUs PSUs, in each case held by the named executive officer as of March 31, 2014. For minimum performance conditions under the terms of the PSOs granted January 4, 2013, 50% of the conditions were met therefore, 50% of value were attributed to the shares subject to such PSOs. For the PSUs granted April 15, 2013, as of March 31, 2014 the performance condition were at a level which would have produced a payout percentage of 150% therefore, 150% of value were attributed to the shares subject to such PSUs. The minimum performance conditions for two of the PSOs granted to Mr. Darrell on April 16, 2012 were not met as of March 31, 2014 therefore no value were attributed to the shares subject to such PSOs. Mr. De Luca does not receive any acceleration of RSU or PSU vesting.
- (5) Under the Change of Control agreements for the executive officers listed above other than Mr. Darrell, there is a "280G cut-back" so that, in effect, the maximum value of the cash payments plus accelerated equity awards to which an executive is entitled under the agreement is just under 3 times the average annual taxable compensation paid by Logitech to the executive in the prior five taxable years, calculated in accordance with the U.S. Tax Code.

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

Table of Contents

- (6) For Mr. Darrell, if amounts payable under any arrangement or agreement with Logitech are payable as a result of a change of ownership or control of Logitech and exceed the amount allowed under section 280G of the Code, and would be subject to the excise tax imposed by section 4999 of the Code, then, prior to the making of any Payments to Mr. Darrell, a "best-of" calculation will be made comparing (1) the total benefit to Mr. Darrell from the Payments after payment of the excise tax, to (2) the total benefit to Mr. Darrell if the Payments are reduced to the extent necessary to avoid being subject to the excise tax, and Mr. Darrell will be entitled to the Payments under the more favorable outcome.

Potential Payments Upon Involuntary Termination

Name	Base Salary	Bonus	Equity	Total
Bracken Darrell (if terminating between April 2013 April 2014)	\$ 1,125,000(1)	\$ 1,125,000(2)	n/a	\$ 2,250,000
Bracken Darrell (if terminating between April 2014 April 2015)	\$ 750,000(3)	\$ 750,000(4)	n/a	\$ 1,500,000
Vincent Pilette (if terminating between September 2013 September 2014)	\$ 500,000(5)	\$ 400,000(6)	\$ 3,772,128(7)	\$ 4,672,128
Vincent Pilette (if terminating between September 2014 September 2015)	\$ 500,000(8)	\$ 400,000(9)	\$ 868,578(10)	\$ 1,768,578

- (1) Represents 150% of Mr. Darrell's fiscal year 2014 annual base salary in effect on March 31, 2014.
- (2) Represents 150% of Mr. Darrell's fiscal year 2014 target bonus in effect on March 31, 2014.
- (3) Represents 100% of Mr. Darrell's fiscal year 2014 annual base salary in effect on March 31, 2014.
- (4) Represents 100% of Mr. Darrell's fiscal year 2014 target bonus in effect on March 31, 2014.
- (5) Represents 100% of Mr. Pilette's fiscal year 2014 annual base salary in effect on March 31, 2014.
- (6) Represents 100% of Mr. Pilette's fiscal year 2014 annual base salary in effect on March 31, 2014.
- (7) Represents value of 33% vesting of Mr. Pilette's initial restricted stock unit grant for 175,000 shares (as of September 15, 2014 this grant was completely vested) and 100% of Mr. Pilette's restricted stock unit grant for 195,000 shares (as of September 15, 2014, 116,666 shares from this grant remain unvested) using Logitech's stock price in effect on March 31, 2014.
- (8) Represents 100% of Mr. Pilette's fiscal year 2014 annual base salary in effect on March 31, 2014.
- (9) Represents 100% of Mr. Pilette's fiscal year 2014 annual base salary in effect on March 31, 2014.
- (10) Represents value of 33% vesting of Mr. Pilette's initial restricted stock unit grant for 175,000 shares (as of September 15, 2014 this grant was completely vested) using Logitech's stock price in effect on March 31, 2014.

COMPENSATION OF DIRECTORS

For fiscal year 2014, the compensation of the members of the Board of Directors that are not Logitech employees, or non-employee directors, was established by the Committee for Board Compensation, which at the time consisted of Guerrino De Luca, our Chairman. For

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

fiscal year 2015, the Committee for Board Compensation has been terminated, and the compensation of non-employee directors will be determined by the Compensation Committee, consisting entirely of independent directors, and recommended to the full Board for approval.

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

Table of Contents

The general policy is that compensation for non-employee directors should be a mix of cash and equity-based compensation. For fiscal year 2014, to assist the committee in its annual review of director compensation, Logitech's compensation department provided director pay practices and compensation data compiled from the annual reports and proxy statements of companies within the NASDAQ 100 and technology companies generally considered comparable to Logitech.

For fiscal year 2014, cash compensation of non-employee directors consists solely of annual retainers based on Board and committee service and payment for travel days in connection with Board meetings. Non-employee directors also receive an annual RSU grant based on a fixed market value. These grants vest on the one-year anniversary of Board service. For fiscal year 2014, the annual RSU grant value was adjusted from CHF 120,000 (\$135,692) to CHF 135,000 (\$152,654) to reflect increases in the market for board compensation.

Directors who are Logitech employees do not receive any compensation for their service on the Board of Directors. Non-employee director compensation currently consists of the following elements:

	Total (CHF)	Total \$(1)
Annual cash retainer	60,000	67,846
An additional annual cash retainer for the lead independent director.	20,000	22,615
Annual retainer for the Audit Committee chair.	40,000	45,231
Annual retainer for the Compensation Committee chair.	30,000	33,923
Annual retainer for non-chair Audit Committee members.	15,000	16,962
Annual retainer for non-chair Compensation Committee members.	10,000	11,308
Annual retainer for Nominating Committee members.	3,000	3,392
Annual RSU grant.	135,000	152,654
Compensation for the number of travel days spent traveling to attend Board and committee meetings, per day rate.	2,500	2,827
Reimbursement of reasonable expenses for non-local travel (business class).		

(1) CHF amount was converted using the exchange rate of 1 Swiss Franc to 1.13 U.S. Dollar as of March 31, 2014.

Except for fees earned between Logitech's 2013 Annual General Meeting and 2014 Annual General Meeting, non-employee Board members may elect to receive their Board fees in shares, net of withholdings. Any such shares are to be issued under the 2006 Stock Incentive Plan.

The following table summarizes the total compensation earned or paid by Logitech during fiscal year 2014 to continuing members of the Board of Directors who were not executive officers as of March 31, 2014. Because the table is based on Logitech's fiscal year, and annual service for purposes of Board compensation is measured between the dates of Logitech's Annual General Meeting, usually held in September each year, the amounts in the table do not necessarily align with the description of Board compensation above.

Information regarding compensation paid to and the option and stock awards held by Guerrino De Luca and Bracken Darrell, the members of the Board of Directors that are Logitech executive officers as of fiscal year-end 2014, are presented in the Summary Compensation Table and the Outstanding Equity Awards at Fiscal Year-End Table, respectively.

Table of Contents**Non-Employee Director Summary Compensation for Fiscal Year 2014**

Name	Fees Earned In Cash (\$) ⁽¹⁾	Stock Awards (\$) ⁽²⁾	Total (\$)
Daniel Borel	73,535	149,224	222,759
Matthew Bousquette	154,611	147,016	301,627
Erh-Hsun Chang ⁽³⁾	41,010		41,010
Kee-Lock Chua	117,938	147,016	264,954
Sally Davis	117,467	149,224	266,691
Didier Hirsch	118,315	147,016	265,331
Neil Hunt	96,161	147,016	243,177
Monika Ribar	108,888	149,224	258,112

- (1) CHF amount was converted using the exchange rate of 1 Swiss Franc to 1.13 U.S. Dollar as of March 31, 2014.
- (2) Amounts shown do not reflect compensation actually received by the director. Instead, the amount shown is the aggregate grant date fair value of stock-related awards in fiscal year 2014 computed in accordance with ASC Topic 718 Compensation Stock Compensation, disregarding forfeiture assumptions. The market value used to calculate the aggregate value on March 31, 2014 was \$14.89.
- (3) Mr. Chang did not stand for re-election as a director at the Annual General Meeting in September 2013.

The following table presents additional information with respect to the equity awards held as of March 31, 2014 by members of the Board of Directors who were not executive officers as of fiscal year-end.

In 2010, Logitech began granting RSUs instead of stock options to continuing non-employee directors. The RSUs granted since fiscal year 2010 fully vest on approximately the one-year anniversary date of the grant.

Market value for stock options is calculated by taking the difference between the closing price of Logitech shares on the Nasdaq Global Select Market on the last trading day of the fiscal year (\$14.89 on March 31, 2014) and the option exercise price, and multiplying it by the number of outstanding options. Market value for RSUs is determined by multiplying the number of shares by the closing price of Logitech shares on the Nasdaq Global Select Market on the last trading day of the fiscal year.

Certain of the options as granted have exercise prices denominated in Swiss Francs. The U.S. Dollar exercise price in the table below for such options is based on a Swiss Franc to U.S. Dollar exchange rate on March 31, 2014 of 1 to 1.13.

Table of Contents**Outstanding Equity Awards for Non-Employee Directors at Fiscal 2014 Year-End**

Name	Grant Date (MM/DD/YY)	Option Awards			Stock Awards

	Total	95,000				18,400	273,976

- (1) Unless otherwise indicated, the shares subject to these options vest and become exercisable at a rate of 33% per year over three years from the grant date, on each yearly anniversary of the grant date.
- (2) Unless otherwise indicated, the shares subject to these stock awards vest in full on August 31 (approximately one year) following the grant date.
- (3) The exercise price of the option as granted is 34.45 Swiss Francs per share.
- (4) The exercise price of the option as granted (as split-adjusted) is 14.68 Swiss Francs per share.
- (5) Represents a stock award of 27,200 shares, granted to Mr. Hirsch as a new director in 2012, which vests at a rate of 33% per year over 3 years from the grant date, on each yearly anniversary of the grant date.

EQUITY COMPENSATION PLAN INFORMATION

The following table summarizes the shares that may be issued upon the exercise of options, (including PSOs and PPOs), RSUs, PSUs, and other rights under our employee equity compensation plans as of March 31, 2014. These plans include the 1996 Employee Share Purchase Plan (U.S.) and 2006 Employee Share Purchase Plan (Non-U.S.) (together, the "ESPPs"), 2006 Stock Incentive Plan and 2012 Stock

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

Table of Contents

Inducement Equity Plan. The table also includes shares that may be issued upon the exercise of outstanding options under the 1996 Stock Plan (this plan terminated in 2006).

Plan Category	(a) Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants and Rights (#)	(b) Weighted Average Exercise Price of Outstanding Options, Warrants and Rights(1)	(c) Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans (Excluding Securities Reflected in Column(a)) (#)
Equity Compensation Plans Approved by Security Holders	14,130,206(2)	\$ 17	17,403,075
Equity Compensation Plans Not Approved by Security Holders	1,775,000(3)	14	
Total	15,905,206	\$ 17	17,403,075

(1) The weighted average exercise price is calculated based solely on outstanding options.

(2) Includes options and rights to acquire shares outstanding under our 1996 Employee Share Purchase Plan (U.S.), 2006 Employee Share Purchase Plan (Non-U.S.), 2006 Stock Incentive Plan and 1996 Stock Plan (which plan terminated in 2006).

(3) Includes options and rights to acquire shares outstanding under our 2012 Stock Inducement Equity Plan adopted under the Nasdaq rules.

2012 Stock Inducement Equity Plan

Under the 2012 Stock Inducement Equity Plan, stock options and RSUs may be granted to eligible employees to serve as inducement material to enter into employment with the Company. Awards under the 2012 Stock Inducement Equity Plan may be conditioned on continued employment, the passage of time or the satisfaction of performance vesting criteria, based on individual written employment offer letters. The 2012 Stock Inducement Equity Plan has an expiration date of March 31, 2022. As of March 31, 2014, an aggregate of 1,800,000 shares was reserved for issuance under the 2012 Stock Inducement Equity Plan. As of March 31, 2014, no shares were available for issuance under this plan.

2006 Stock Incentive Plan

The Logitech International S.A. 2006 Stock Incentive Plan provides for the grant to eligible employees and non-employee members of the Board of Directors of stock options, stock appreciation rights, restricted stock, and restricted stock units. As of March 31, 2014, Logitech has granted stock options (including PSOs), RSUs, and PSUs under the 2006 Stock Incentive Plan and has made no grants of restricted shares or stock appreciation rights. Stock options granted under the 2006 Stock Incentive Plan generally will have terms not exceeding ten years and will be issued at exercise prices not less than the fair market value on the date of grant. Awards under the 2006 Stock Incentive Plan may be conditioned on continued employment, the passage of time, or the satisfaction of performance vesting criteria. As of March 31, 2014, an aggregate of 24.8 million shares is reserved for issuance under the 2006 Stock Incentive Plan. As of March 31, 2014, a total of 9,136,375 shares were available for issuance under this plan.

1996 Stock Plan

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

Under the 1996 Stock Plan, Logitech granted options for shares. Options issued under the 1996 Stock Plan generally vest over four years and remain outstanding for periods not to exceed ten years. Options were granted at exercise prices of at least 100% of the fair market value of the shares on the date of grant. Logitech made no grants of restricted shares, stock appreciation rights, or stock units under the 1996 Stock Plan. No further awards will be granted under the 1996 Stock Plan.

Table of Contents

Each option issued under the 1996 Stock Plan entitles the holder to purchase one share of Logitech International S.A. at the exercise price.

Employee Share Purchase Plans

Logitech maintains two employee share purchase plans, one for employees in the United States and one for employees outside the United States. The plan for employees outside the United States is named the 2006 Employee Share Purchase Plan (Non-U.S.), or 2006 ESPP, and was approved by the Board of Directors in June 2006. The plan for employees in the United States is named the 1996 Employee Share Purchase Plan (U.S.), or 1996 ESPP. The 1996 ESPP was the worldwide plan until the adoption of the 2006 ESPP in June 2006. Under both plans, eligible employees may purchase shares with up to 10% of their earnings at the lower of 85% of the fair market value at the beginning or the end of each six-month offering period. Purchases under the plans are limited to a fair value of \$25,000 in any one year, calculated in accordance with U.S. tax laws. During each offering period, payroll deductions of employee participants are accumulated under the share purchase plan. Subject to continued participation in these plans, purchase agreements are automatically executed at the end of each offering period. A total of 29 million shares have been reserved for issuance under both the 1996 and 2006 ESPPs. As of March 31, 2014, a total of 8,266,700 shares were available for issuance under these plans.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

**SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT
AS OF SEPTEMBER 30, 2014**

In accordance with the proxy statement rules under U.S. securities laws, the following table shows the number of our shares beneficially owned as of September 30, 2014 by:

each person or group known by Logitech, based on filings pursuant to Section 13(d) or (g) under the U.S. Securities Exchange Act of 1934 or notifications to the Company under applicable Swiss laws, to own beneficially more than 5% of our outstanding shares as of September 30, 2014;

each director and each nominee for director;

the persons named in the Summary Compensation Table in the Compensation Report (the "named executive officers"); and

all directors and current executive officers as a group.

- (1) Unless otherwise indicated, the address for each beneficial owner listed in this table is c/o Logitech International S.A., Rue du Sablon 2-4 Morges, Switzerland / 7600 Gateway Boulevard, Newark, California 94560.
- (2) To Logitech's knowledge, except as otherwise noted in the footnotes to this table, each director and executive officer has sole voting and investment power over the shares reported as beneficially owned in accordance with SEC rules, subject to community property laws where applicable.
- (3) Includes shares represented by vested, unexercised options as of September 30, 2014 and options and restricted stock units that are expected to vest within 60 days after September 30, 2014. These shares are deemed to be outstanding for the purpose of computing the percentage ownership of the person holding the options or restricted stock units, but are not treated as outstanding for the purpose of computing the percentage ownership of any other person. For Ms. Davis, Ms. Ribar and Messrs. Borel, Bousquette, Chua and Hunt, 18,400 of the shares that they may acquire within 60 days vested on August 31, 2014 but will not settle until the Company is current on its periodic reports required to be filed with the SEC, at which time such shares will also be subject to a net issuance to cover withholding taxes. For Mr. Hirsch, 27,468 of the shares that he may acquire within 60 days vested on August 31, 2014 but will not settle until the Company is current on its periodic reports required to be filed with the SEC, at which time such shares will also be subject to a net issuance to cover withholding taxes. For Mr. Pilette, 253,333 of the shares that he may acquire within 60 days vested on September 15, 2014 but will not settle until the Company is current on its periodic reports required to be filed with the SEC, at which time such shares will also be subject to a net issuance to cover withholding taxes. For Mr. Sullivan, 4,500 of the shares that he may acquire within 60 days will vest on November 15, 2014, at which time such shares will also be subject to a net issuance to cover

Table of Contents

withholding taxes. For Mr. Doktorczyk, 4,375 of the shares that he may acquire within 60 days vested on August 15, 2014 but will not settle until the Company is current on its periodic reports required to be filed with the SEC, at which time such shares will also be subject to a net issuance to cover withholding taxes.

- (4) Based on 163,259,279 shares outstanding on September 30, 2014 (173,106,620 shares outstanding less 9,847,341 treasury shares outstanding).
- (5) The number of shares held by Mr. Borel includes (a) 53,000 shares held by a charitable foundation, of which Mr. Borel and other members of his family are board members and (b) 6,500 shares held by Mr. Borel's spouse. As of September 30, 2014, Mr. Borel's indicated sole investment and voting power with respect to 9,541,843 shares, shared investment power with respect to 59,500 shares and shared voting power with respect to 53,000 shares.
- (6) Mr. Chang did not stand for re-election as a director at the Annual General Meeting in September 2013.
- (7) Mr. Bardman resigned as an executive officer of the Company effective as of April 26, 2013.
- (8) Mr. Doktorczyk served as interim Principle Financial Officer and Principle Accounting officer from May 29, 2013 until September 3, 2013, Mr. Doktorczyk was the Company's Vice President of Finance and Corporate Controller throughout the fiscal year 2014, but he was not an executive officer.

Share Ownership Guidelines

Members of the Board of Directors and executive officers and other officers who report directly to the Chief Executive Officer or President are subject to share ownership guidelines.

Directors are required to own Logitech shares with a market value equal to 3 times the annual Board retainer under guidelines adopted by the Board in June 2006 and revised in June 2013. Directors are required to achieve this ownership within five years of joining the Board, or, in the case of directors serving at the time the guidelines were originally adopted, within five years of the effective date of adoption of the guidelines. The guidelines will be adjusted to reflect any capital adjustments, and will be re-evaluated by the Board from time to time. As of July 31, 2014, each director had either satisfied these ownership guidelines or had time remaining to do so.

The Compensation Committee adopted share ownership guidelines for executive officers and other officers who report directly to the Chief Executive Officer or President effective September 2008 and revised in September 2013. These guidelines now apply to executive officers and other officers who report directly to the Chief Executive Officer. These guidelines require:

the Chief Executive Officer to hold a number of Logitech shares with a market value equal to 5 times his annual base salary;

the Chief Financial Officer to hold a number of Logitech shares with a market value equal to 3 time his annual base salary;

executive officers, other than the Chief Executive Officer and Chief Financial Officer, to hold a number of Logitech shares with a market value equal to 2 times their respective annual base salaries; and

remaining officers who report directly to the Chief Executive Officer to hold a number of Logitech shares with a market value equal to their respective annual base salaries.

Officers subject to the guidelines are required to achieve the guideline within five years of being appointed to the position making them subject to the guideline, or, in the case of such officers serving at the time the guidelines were originally adopted, within five years of the effective date of adoption of the guidelines. The guidelines will be adjusted to reflect any capital adjustments, and will be re-evaluated by the Compensation

Table of Contents

Committee from time to time. Up to 50% of the guideline may be met through the net value of vested, unexercised stock options. If the guideline is not met within five years, the Chief Executive Officer must hold 100% of his after-tax shares resulting from option exercises or other equity incentive awards until the guideline is reached, and all other executive officers and Chief Executive Officer direct reports must hold at least 50% of the net shares resulting from option exercises or other equity incentive awards until the guideline is reached. In addition, if the guideline is not met, the officer will have 50% of the after-tax value of any earned bonuses under the Leadership Team Bonus Program paid in fully vested Logitech shares. This provision was enforced for two officers in connection with the fiscal year 2014 bonuses. As of September 30, 2014, twelve of the thirteen executive officers and other officers who report directly to Chief Executive Officer had either satisfied these ownership guidelines or had time remaining to do so.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Related Person Transactions Policy and Procedures

Our Policies

It is our policy that all employees must not engage in any activities which could conflict with Logitech's business interests, which could adversely affect its reputation or which could interfere with the fulfillment of the responsibilities of the employee's job, which at all times must be performed in the best interests of Logitech. In addition, Logitech employees may not use their position with Logitech, or Logitech's information or assets, for their personal gain or for the improper benefit of others. These policies are included in our Conflict of Interest and Business Ethics Policy, which covers our directors, executive officers and other employees. If in a particular circumstance the Board concludes that there is or may be a perceived conflict of interest, the Board will instruct our Legal department to work with our relevant business units to determine if there is a conflict of interest. Any waivers to these conflict rules with regard to a director or executive officer require the prior approval of the Audit Committee.

Nasdaq Rules and Swiss Best Corporate Governance Practices

Nasdaq rules defining "independent" director status also govern conflict of interest situations, as do Swiss best corporate governance principles published by *economiesuisse*, a leading Swiss business organization. As discussed above, the Board of Directors has determined that each of our directors and nominee to be a director, other than Mr. Borel, Mr. Darrell and Mr. De Luca, qualifies as "independent" in accordance with the Nasdaq rules. The Nasdaq rules include a series of objective tests that would not allow a director to be considered independent if the director has or has had certain employment, business or family relationships with the company. The Nasdaq independence definition also includes a requirement that the Board review the relations between each independent director and the company on a subjective basis. In accordance with that review, the Board has made a subjective determination as to each independent director that no relationships exist that, in the opinion of the Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director.

SEC Rules

In addition to the Logitech and Nasdaq policies and rules described above, the SEC has specific disclosure requirements covering certain types of transactions involving Logitech and a director or executive officer or persons and entities affiliated with them. Since April 1, 2013, we have not been a party to, and we have no plans to be a party to, any transaction or series of similar transactions in which the amount involved exceeded or will exceed US \$120,000 and in which any current director, director nominee, executive officer, holder of more than 5% of our shares, or any member of the immediate family of any of the foregoing, had or will have a direct or indirect material interest. We have entered into an indemnification agreement with each of our directors and executive officers. The indemnification agreements require us to indemnify our directors and officers to the fullest extent permitted by Swiss and California law.

Table of Contents

None of the following persons has been indebted to Logitech or its subsidiaries at any time since the beginning of fiscal year 2014: any of our directors or executive officers; any nominee for election as a director; any member of the immediate family of any of our directors, executive officers or nominees for director; any corporation or organization of which any of our directors, executive officers or nominees is an executive officer or partner or is, directly or indirectly, the beneficial owner of 10% or more of any class of equity securities (except trade debt entered into in the ordinary course of business); and any trust or other estate in which any of the directors, executive officers or nominees for director has a substantial beneficial interest or for which such person serves as a trustee or in a similar capacity.

Board of Directors Independence

The Board of Directors has determined that each of our directors and director nominees, other than Daniel Borel, Bracken Darrell and Guerrino De Luca, qualifies as independent in accordance with the published listing requirements of the Nasdaq Stock Market and Swiss corporate governance best practices guidelines. The Company's independent directors and director nominees include Matthew Bousquette, Kee-Lock Chua, Sally Davis, Didier Hirsch, Neil Hunt, Dimitri Panayotopoulos and Monika Ribar. The Nasdaq independence definition includes a series of objective tests, such as that the director is not an employee of the company and has not engaged in various types of business dealings with the company. In addition, as further required by Nasdaq rules, the Board has made a subjective determination as to each independent director that no relationships exist which, in the opinion of the Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. In making these determinations, the directors reviewed and discussed information provided by the directors and the Company with regard to each director's business and personal activities as they may relate to Logitech and Logitech's management.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES**Audit and Non-Audit Fees**

In addition to the audit services PwC provides with respect to Logitech's annual audited consolidated financial statements and other filings with the Securities and Exchange Commission, PwC has provided non-audit services to Logitech in the past and may provide them in the future. Non-audit services are services other than those provided in connection with an audit or a review of Logitech's financial statements. The Audit Committee of the Board of Directors determined that the rendering of non-audit services by PwC was compatible with maintaining their independence.

The following table sets forth the aggregate fees billed to us for the audit and other services provided by PwC during the fiscal years ended March 31, 2014 and 2013 (in thousands):

	2014	2013
Audit fees(1)	\$ 7,031	\$ 3,143
Audit-related fees(2)		5
Tax fees(3)	342	502
All other fees(4)	19	17
Total	\$ 7,392	\$ 3,667

(1)

Audit fees. This category represent fees for professional services provided in connection with the audit of our financial statements, the audit of our internal control over financial reporting, and review of our quarterly financial statements and audit services provided in connection with other statutory or regulatory filings. Audit fees also include fees incurred for professional services rendered in connection with the Audit Committee's independent investigation into certain accounting and financial reporting matters in the fiscal year ended March 31, 2014.

Table of Contents

- (2) *Audit-related fees.* This category represents consultation on issues such as acquisition accounting, due diligence services in connection with acquisitions, review and testing of the impact of new accounting pronouncements, and other topics.
- (3) *Tax fees.* This category represents fees for tax compliance, assistance with tax audits, tax advice and tax planning.
- (4) *All other fees.* This category primarily represents fees for government grant audits and database licenses.

Pre-Approval Procedures and Policies

The Audit Committee pre-approves all audit and non-audit services provided by PwC. This pre-approval must occur before the auditor is engaged. The Audit Committee pre-approves categories of non-audit services and a target fee associated with each category. Usage of PwC fees against the target is presented to the Audit Committee at each in-person quarterly meeting, with additional amounts requested as needed. Services that last longer than a year must be re-approved by the Audit Committee.

The Audit Committee can delegate the pre-approval ability to a single independent member of the Audit Committee. The delegate must communicate all services approved at the next scheduled Audit Committee meeting. The Audit Committee or its delegate can pre-approve types of services to be performed by PwC with a set dollar limit per type of service. The Vice President, Corporate Controller is responsible for ensuring that the work performed is within the scope and dollar limit as approved by the Audit Committee. Management must report to the Audit Committee the status of each project or service provided by PwC.

ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES

- (a) The following documents are filed as part of this Annual Report on Form 10-K:
1. Financial Statements and Supplementary Data
Financial Statements:
Report of Independent Registered Public Accounting Firm
Consolidated Statements of Operations Years Ended March 31, 2014, 2013 (revised) and 2012 (restated)

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders of Logitech International S.A.

In our opinion, the consolidated financial statements listed in the index appearing under Item 15(a)(1) present fairly, in all material respects, the financial position of Logitech International S.A. and its subsidiaries at March 31, 2014 and 2013, and the results of their operations and their cash flows for each of the three years in the period ended March 31, 2014 in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statement schedule listed in the index appearing under Item 15(a)(2) presents fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements. Also in our opinion, the Company did not maintain, in all material respects, effective internal control over financial reporting as of March 31, 2014, based on criteria established in *Internal Control Integrated Framework* (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) because material weaknesses in internal control over financial reporting related to the following existed as of that date:

The Company did not maintain an effective control environment as former finance management exercised bad judgment and failed to provide effective oversight, which resulted in ineffective information and communication, whereby certain of the Company's finance personnel did not adequately document and communicate accounting issues across the organization, including to the Company's independent registered public accounting firm. Additionally, there was an insufficient complement of personnel with appropriate accounting knowledge, experience and competence, resulting in incorrect conclusions in the application of generally accepted accounting principles;

The Company did not design and maintain effective controls related to developing an appropriate methodology to accrue the costs of product warranties given to end customers, including an on-going review of the assumptions within the methodology to determine the completeness and accuracy of the warranty accrual;

The Company did not design and maintain effective controls to consider all relevant information and document the underlying assumptions in their assessment of the valuation of finished goods, work in process and components inventory, including non-cancelable orders for such inventory, related to their now discontinued Revue product; and

The Company did not design and maintain effective controls over the review of supporting information to determine the completeness and accuracy of the consolidated statement of cash flows, the consolidated statement of comprehensive income (loss) and disclosures in the notes to the consolidated financial statements.

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis. The material weaknesses referred to above are described in Management's Report on Internal Control over Financial Reporting appearing under Item 9A. We considered these material weaknesses in determining the nature, timing, and extent of audit tests applied in our audit of the March 31, 2014 consolidated financial statements, and our opinion regarding the effectiveness of the Company's internal control over financial reporting does not affect our opinion on those consolidated financial statements. The Company's management is responsible for these financial statements and financial statement schedule, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in management's report referred to above. Our responsibility is to express opinions on these financial statements, on the financial statement schedule, and on the Company's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require

Table of Contents

that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

As discussed in Note 2 to the consolidated financial statements, the Company has restated its 2012 consolidated financial statements to correct a misstatement.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

LOGITECH INTERNATIONAL S.A.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1 The Company

Logitech International S.A, together with its consolidated subsidiaries, ("Logitech" or the "Company") develops and markets innovative hardware and software products that enable or enhance digital navigation, music and video entertainment, gaming, social networking, and audio and video communication over the Internet.

The Company has two operating segments, peripherals and video conferencing. Logitech's peripherals segment encompasses the design, manufacturing and marketing of peripherals for personal computers ("PCs"), tablets and other digital platforms. The Company's video conferencing segment offers scalable high-definition ("HD") video communications endpoints, HD video conferencing systems with integrated monitors, video bridges and other infrastructure software and hardware to support large-scale video deployments, and services to support these products.

The Company sells its peripherals products to a network of distributors, retailers and original equipment manufacturers ("OEMs"). The Company sells its video conferencing products and services to distributors, value-added resellers, OEMs and, occasionally, direct enterprise customers. The large majority of the Company's net sales have historically been derived from peripherals products for use by consumers.

Logitech was founded in Switzerland in 1981 and Logitech International S.A. has been the parent holding company of Logitech since 1988. Logitech International S.A. is a Swiss holding company with its registered office in Apples, Switzerland, which conducts its business through subsidiaries in Americas, Europe, Middle East, Africa ("EMEA") and Asia Pacific. Shares of Logitech International S.A. are listed on both the Nasdaq Global Select Market under the trading symbol LOGI and the SIX Swiss Exchange under the trading symbol LOGN.

Note 2 Restatement and Revision of Previously Issued Consolidated Financial Statements

As the Company announced on May 21, 2014, the Audit Committee, with the assistance of independent advisors, began an independent investigation of certain accounting matters related to the Company's previously issued financial statements.

On September 3, 2014, the Company announced that, in connection with this investigation, the Audit Committee, on the recommendation of management, concluded that the Company's previously issued financial statements for fiscal years 2011 and 2012 and the first quarter of fiscal year 2012 could no longer be relied on due to an accounting misstatement for inventory valuation reserves for Logitech's now-discontinued Revue product. As a result, the Company recorded an adjustment to increase cost of goods sold and to increase inventory valuation reserves and the accrual for supplier liability for components related to the Company's now discontinued Revue product by \$30.7 million during fiscal year ended March 31, 2011, with a corresponding decrease to cost of goods sold in fiscal year ended March 31, 2012. As a result, net income and net income per share for fiscal year ended March 31, 2011 was reduced by \$30.7 million and \$0.17 per share, respectively, with a corresponding increase in fiscal year ended March 31, 2012. In conjunction with recording of the adjustments related to this restatement, the Company recorded other immaterial corrections to the consolidated financial statements included in this Form 10-K for the fiscal years ended March 31, 2013 and 2012.

The Audit Committee has completed its independent investigation and found that, in connection with its quarterly close processes, up until June 2013, the Company's finance organization would compile lists of financial items, which included significant accounting entries recorded during the quarter, late accounting

Table of Contents

LOGITECH INTERNATIONAL S.A.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 2 Restatement and Revision of Previously Issued Consolidated Financial Statements (Continued)

entries, disclosure items and certain other items with potential accounting implications. The lists used to track these financial items appear to have been primarily shared within certain parts of the Company's finance organization and were not shared with the Company's independent registered public accounting firm. Typically, there were between approximately thirty to fifty items per quarter on these lists and there were multiple versions of these lists per quarter, as items were added, removed and changed. Some of the items on the list were discussed with the Company's independent registered public accounting firm while others were not.

As part of the independent investigation, the Company determined that nine historical items from these lists during a five year period should have been recorded in an earlier period or a different amount should have been recorded. The largest item relates to the now-discontinued Revue product and is the cause for the restatement. Two items the warranty accrual and the amortization of certain intangible assets were on the lists in prior periods and were not addressed in a timely manner before the Company corrected them in its revised Form 10-K/A filed on August 7, 2013. Certain former finance employees signed the May 30, 2013 management representation letter to the Company's independent registered public accounting firm without disclosing these issues and, as a result, the management representation letter was inaccurate on this point. Six items are not material individually or in aggregate to any of the annual or interim periods reported but are nevertheless being corrected in these restated consolidated financial statements.

There are two elements to the restatement related to the Revue product: (1) a lower of cost or market ("LCM") charge based on the net realizable value of finished goods and work in process on-hand inventory and non-cancelable orders for such inventory, and (2) an excess and obsolescence charge for non-cancelable orders for inventory components. The Audit Committee found that certain former members of the finance organization had information that was not considered, that showed a future loss that was estimable and probable before the filing of the Form 10-K on May 27, 2011 and that such loss was not recorded in the Company's fiscal year 2011 financial statements. Certain former members of the finance organization erroneously accounted for the LCM charge in fiscal year 2011 based on the current price or on price reductions approved by management instead of considering available contemporaneous evidence of anticipated future price reductions and losses which were estimable and probable at the time. In addition, the Audit Committee found that a management representation letter dated May 27, 2011 to the Company's independent registered public accounting firm incorrectly stated that probable future pricing adjustments were considered in the LCM calculation. With respect to the Revue components, certain former members of the finance organization did not consider all available information and therefore did not record a charge in the fourth quarter of fiscal year 2011 for non-cancelable orders related to components considered excess and obsolete. The analysis erroneously assumed the components would be manufactured into finished goods, though there was information available that showed that the components would not be manufactured into finished goods. This information was not reflected in the Company's accounting or provided to the Company's independent registered public accounting firm. The Audit Committee found that the Company did not have an adequate basis for the historical accounting treatment of the components in the fourth quarter of fiscal year 2011.

The restated and revised financial statements included the following adjustments:

- (1) *Inventory Valuation Reserve* As described above, the Company determined that there was a material accounting misstatement for Logitech's now-discontinued Revue product in fiscal years

LOGITECH INTERNATIONAL S.A.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 2 Restatement and Revision of Previously Issued Consolidated Financial Statements (Continued)

2012 and 2011. As a result, the Company recorded an adjustment to increase cost of goods sold, and to increase inventory valuation reserves and supplier liability for components related to the Company's now discontinued Revue product by \$30.7 million during fiscal year ended March 31, 2011, with a corresponding decrease to cost of goods sold during fiscal year ended March 31, 2012.

(2)

Property Plant and Equipment Capitalization Threshold Convention Historically, the Company's practice was to apply an accounting convention to immediately expense the entire purchase price of all property and equipment that cost less than certain dollar thresholds instead of capitalizing and depreciating such property and equipment over its useful life. The Company determined that the thresholds utilized were incorrect and resulted in a cumulative understatement of net income and retained earnings through March 31, 2011 of \$8.3 million, which the company corrected through an increase to opening retained earnings as of that date. The impact of the correction also resulted in a decrease in cost of goods sold and operating expense and increase in operating income of \$0.1 million in fiscal year 2012 and an increase in cost of goods sold and operating expense and increase in operating loss of \$1.3 million in fiscal year 2013.

(3)

Settlement Accrual The Company determined that it incorrectly recorded a release of a legal settlement accrual of \$1.3 million in fiscal year 2012 instead of correctly in fiscal year 2011 as the contingency was resolved before the Annual Report Form 10-K of fiscal year 2011 was issued. The impact of this adjustment was an increase in operating income by \$1.3 million in fiscal year 2011 and a corresponding decrease of operating income for the same amount in fiscal year 2012.

(4)

Other Adjustments The Company is also correcting a number of other immaterial errors which were previously recorded in prior periods as out-of-period adjustments and are now being revised to report them in the correct period as well as to correct other immaterial errors that were previously uncorrected. Among the corrections, the Company is correcting its accrual for worker compensation, liability for certain of its defined benefit pension plans, balance sheet reclassifications, cash flow reclassifications and tax impact of the above adjustments.

Note 3 Summary of Significant Accounting Policies**Basis of Presentation**

The consolidated financial statements include the accounts of Logitech and its subsidiaries. All intercompany balances and transactions have been eliminated. The consolidated financial statements are presented in accordance with U.S. GAAP (accounting principles generally accepted in the United States of America).

Fiscal Year

The Company's fiscal year ends on March 31. Interim quarters are thirteen-week periods, each ending on a Friday. For purposes of presentation, the Company has indicated its quarterly periods as ending on the month end.

Table of Contents

LOGITECH INTERNATIONAL S.A.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 3 Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make judgments, estimates and assumptions that affect reported amounts of assets, liabilities, net sales and expenses, and the disclosure of contingent assets and liabilities. Examples of significant estimates and assumptions made by management involve the fair value of goodwill, warranty liabilities, accruals for discretionary customer programs, sales return reserves, allowance for doubtful accounts, inventory valuation, uncertain tax positions, and valuation allowances for deferred tax assets. Although these estimates are based on management's best knowledge of current events and actions that may impact the Company in the future, actual results could differ from those estimates.

Foreign Currencies

The functional currency of the Company's operations is primarily the U.S. Dollar. To a lesser extent, certain operations use the Euro, Chinese Renminbi, Swiss Franc, or other local currencies as their functional currencies. The financial statements of the Company's subsidiaries whose functional currency is other than the U.S. Dollar are translated to U.S. Dollars using period-end rates of exchange for assets and liabilities and monthly average rates for net sales, income and expenses. Cumulative translation gains and losses are included as a component of shareholders' equity in accumulated other comprehensive income/(loss). Gains and losses arising from transactions denominated in currencies other than a subsidiary's functional currency are reported in other income (expense), net in the consolidated statements of operations.

Revenue Recognition

Revenues are recognized when all of the following criteria are met:

- evidence of an arrangement between the Company and the customer exists;
- delivery has occurred and title and risk of loss has transferred to the customer;
- the price of the product is fixed or determinable; and
- collectability of the receivable is reasonably assured.

For sales of most hardware peripherals products and hardware bundled with software incidental to its functionality, these criteria are met at the time delivery has occurred and title and risk of loss have transferred to the customer.

The Company's video conferencing segment has multiple-deliverable revenue arrangements that include both undelivered software elements and hardware with software essential to its functionality. The Company uses the following hierarchy to determine the relative selling price for allocating revenue to the deliverables: (i) VSOE (vendor specific objective evidence) of fair value, if available; (ii) TPE (third party evidence), if VSOE is not available; or (iii) ESP (best estimate of selling price), if neither VSOE nor TPE are available. Management judgment must be used to determine the appropriate deliverables and associated relative selling prices. The Company has identified Logitech Revue, discontinued in fiscal year 2013, and the Lifesize video conferencing products as products sold with software components that qualify as multiple-deliverable revenue arrangements.

Lifesize products include the following deliverables:

Non-software deliverables

Table of Contents

LOGITECH INTERNATIONAL S.A.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 3 Summary of Significant Accounting Policies (Continued)

Hardware with software essential to the functionality of the hardware device delivered at time of sale

Maintenance for hardware with essential software, including future when-and-if-available unspecified upgrades

Other services, including training and installation

Software deliverables

Non-essential software

Maintenance for non-essential software, including future when-and-if available unspecified upgrades

The relative selling price for Lifesize hardware with essential software and non-essential software is based on ESP, as VSOE and TPE cannot be established due to variable price discounting. Key factors considered in developing ESP are historical selling prices of the product, pricing of substantially similar products, and other market conditions. Lifesize sells maintenance for non-essential software, maintenance for hardware with essential software, and other services on a standalone basis, and therefore has established VSOE for those deliverables.

The consideration received for multiple element arrangements consisting of both non-software and software deliverables is allocated based on relative selling prices to the non-software deliverables and the software deliverables as a group. Amounts allocated to non-software-related elements, such as delivered hardware with essential software, are recognized at the time of sale provided that the other conditions for revenue recognition have been met. Amounts allocated to maintenance services for hardware and essential software are deferred and recognized ratably over the maintenance period. Amounts allocated to other services are deferred and recognized upon completion of services. Amounts allocated to software deliverables such as non-essential software and related services are further allocated to the individual deliverables within the software group. The VSOE of non-essential software-related maintenance are deferred and recognized ratably over the maintenance period. The residual value of the amounts allocated to software-related elements is recognized at the time of sale.

Revenues from sales to distributors and authorized resellers are recognized upon shipment net of estimated product returns and expected payments for cooperative marketing arrangements, customer incentive programs and pricing programs. The estimated cost of these programs is recorded as a reduction of sales or as an operating expense, if the Company receives a separately identifiable benefit from the customer and can reasonably estimate the fair value of that benefit. Significant management judgment and estimates must be used to determine the cost of these programs in any accounting period.

The Company grants limited rights to return product. Return rights vary by customer, and range from just the right to return defective product to stock rotation rights limited to a percentage approved by management. Estimates of expected future product returns are recognized at the time of sale based on analyses of historical return trends by customer and by product, inventories owned by and located at distributors and retailers, current customer demand, current operating conditions, and other relevant customer and product information. Upon recognition the Company reduces sales and cost of sales for the estimated return. Return trends are influenced by product life cycle status, new product introductions, market acceptance of products, sales levels, product sell-through, the type of customer, seasonality, product quality issues, competitive pressures, operational policies and procedures, and other factors.

Table of Contents

LOGITECH INTERNATIONAL S.A.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 3 Summary of Significant Accounting Policies (Continued)

Return rates can fluctuate over time, but are sufficiently predictable to allow the Company to estimate expected future product returns.

The Company enters into cooperative marketing arrangements with many of its distribution and retail customers, and with certain indirect partners, allowing customers to receive a credit equal to a set percentage of their purchases of the Company's products, or a fixed dollar credit for various marketing programs. The objective of these arrangements is to encourage advertising and promotional events to increase sales of the Company's products. Accruals for these marketing arrangements are recorded at the later of time of sale or time of commitment, based on negotiated terms, historical experience and inventory levels in the channel.

Customer incentive programs include performance-based incentives and consumer rebates. The Company offers performance-based incentives to its distribution customers, retail customers and indirect partners based on pre-determined performance criteria. Accruals for performance-based incentives are recognized as a reduction of the sale price at the time of sale. Estimates of required accruals are determined based on negotiated terms, consideration of historical experience, anticipated volume of future purchases, and inventory levels in the channel. Consumer rebates are offered from time to time at the Company's discretion for the primary benefit of end-users. Accruals for the estimated costs of consumer rebates and similar incentives are recorded at the later of time of sale or when the incentive is offered, based on the specific terms and conditions. Certain incentive programs, including consumer rebates, require management to estimate the number of customers who will actually redeem the incentive based on historical experience and the specific terms and conditions of particular programs.

The Company has agreements with certain of its customers that contain terms allowing price protection credits to be issued in the event of a subsequent price reduction. At management's discretion, the Company also offers special pricing discounts to certain customers. Special pricing discounts are usually offered only for limited time periods or for sales of selected products to specific indirect partners. Management's decision to make price reductions is influenced by product life cycle stage, market acceptance of products, the competitive environment, new product introductions and other factors. Accruals for estimated expected future pricing actions are recognized at the time of sale based on analyses of historical pricing actions by customer and by products, inventories owned by and located at distributors and retailers, current customer demand, current operating conditions, and other relevant customer and product information, such as stage of product life-cycle.

The Company regularly evaluates the adequacy of its estimates for product returns, cooperative marketing arrangements, customer incentive programs and pricing programs. Future market conditions and product transitions may require the Company to take action to change such programs. In addition, when the variables used to estimate these costs change, or if actual costs differ significantly from the estimates, the Company would be required to record incremental increases or reductions to sales, cost of goods sold or increase operating expenses. If, at any future time, the Company becomes unable to reasonably estimate these costs, recognition of revenue might be deferred until products are sold to users, which would adversely impact sales in the period of transition.

The Company's shipping and handling costs are included in cost of sales in the consolidated statements of operations for all periods presented.

Table of Contents

LOGITECH INTERNATIONAL S.A.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 3 Summary of Significant Accounting Policies (Continued)

Research and Development Costs

Costs related to research, design and development of products, which consist primarily of personnel, product design and infrastructure expenses, are charged to research and development expense as they are incurred.

Advertising Costs

Advertising costs are expensed as incurred. Advertising costs are recorded as either a marketing and selling expense or a deduction from revenue. Advertising costs reimbursed by the Company to direct or indirect customers must have an identifiable benefit and an estimable fair value in order to be classified as an operating expense. If these criteria are not met, the cost is classified as a reduction of revenue. Advertising costs during fiscal years 2014, 2013 and 2012 were \$161.2 million, \$165.8 million and \$168.0 million, respectively.

Cash Equivalents

The Company considers all highly liquid instruments purchased with an original maturity of three months or less to be cash equivalents.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of cash and cash equivalents and accounts receivable. The Company maintains cash and cash equivalents with various financial institutions to limit exposure with any one financial institution, but is exposed to credit risk in the event of default by financial institutions to the extent that cash balances with individual financial institutions are in excess of amounts that are insured.

The Company sells to large OEMs, distributors and retailers and, as a result, maintains individually significant receivable balances with such customers. In fiscal years 2014, 2013 and 2012, one customer in the peripherals operating segment represented 14%, 11% and 14% of net sales, respectively. No other customer represented more than 10% of the Company's total net sales during fiscal years 2014, 2013 and 2012. As of both March 31, 2014 and 2013, one customer represented 14% of total accounts receivable. No other customer represented more than 10% of the Company's total accounts receivable at either March 31, 2014 or 2013. Typical payment terms require customers to pay for product sales generally within 30 to 60 days; however terms may vary by customer type, by country and by selling season. Extended payment terms are sometimes offered to a limited number of customers during the second and third fiscal quarters. The Company does not modify payment terms on existing receivables.

The Company's OEM customers tend to be well-capitalized multi-national companies, while distributors and key retailers may be less well-capitalized. The Company manages its accounts receivable credit risk through ongoing credit evaluation of its customers' financial condition. The Company generally does not require collateral from its customers.

Allowances for Doubtful Accounts

Allowances for doubtful accounts are maintained for estimated losses resulting from the inability of the Company's customers to make required payments. The allowances are based on the Company's regular assessment of the credit worthiness and financial condition of specific customers, as well as its historical

Table of Contents

LOGITECH INTERNATIONAL S.A.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 3 Summary of Significant Accounting Policies (Continued)

experience with bad debts and customer deductions, receivables aging, current economic trends, geographic or country-specific risks and the financial condition of its distribution channels.

Inventories

Inventories are stated at the lower of cost or market. Costs are computed under the standard cost method, which approximates actual costs determined on the first-in, first-out basis. The Company records write-downs of inventories which are obsolete or in excess of anticipated demand or market value based on a consideration of marketability and product life cycle stage, product development plans, component cost trends, demand forecasts, historical net sales, and assumptions about future demand and market conditions.

Investments

The Company's investment securities portfolio consists of bank time deposits and marketable securities related to a deferred compensation plan.

The bank time deposits are classified as cash equivalents and are recorded at cost, which approximates fair value.

The marketable securities related to the deferred compensation plan are classified as non-current trading investments, as they are intended to fund the deferred compensation plan long-term liability. Trading activity is directed by plan participants and is not intended to create short-term gains for the benefit of the Company. These securities are recorded at fair value based on quoted market prices. Earnings, gains and losses on trading investments are included in other income (expense), net.

Property, Plant and Equipment

Property, plant and equipment are stated at cost. Additions and improvements are capitalized, and maintenance and repairs are expensed as incurred. The Company capitalizes the cost of software developed for internal use in connection with major projects. Costs incurred during the feasibility stage are expensed, whereas direct costs incurred during the application development stage are capitalized.

Depreciation is provided using the straight-line method. Plant and buildings are depreciated over estimated useful lives from ten to twenty-five years, equipment over useful lives from three to five years, internal-use software development over useful lives of three to seven years and leasehold improvements over the lesser of the useful life of the improvement, up to ten years, or the term of the lease.

When property and equipment is retired or otherwise disposed of, the cost and accumulated depreciation are relieved from the accounts and the net gain or loss is included in the determination of other income (expense), net.

Valuation of Long-Lived Assets

The Company reviews long-lived assets, such as property and equipment, and finite-lived intangible assets, for impairment whenever events indicate that the carrying amounts might not be recoverable. Recoverability of property and equipment, and other finite-lived intangible assets is measured by comparing the projected undiscounted net cash flows associated with those assets to their carrying values. If an asset is considered impaired, it is written down to fair value, which is determined based on the asset's projected discounted cash flows or appraised value, depending on the nature of the asset. For purposes of

Table of Contents

LOGITECH INTERNATIONAL S.A.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 3 Summary of Significant Accounting Policies (Continued)

recognition of an impairment for assets held for use, the Company groups assets and liabilities at the lowest level for which cash flows are separately identifiable.

Goodwill and Other Intangible Assets

The Company's intangible assets principally include goodwill, acquired technology, trademarks, customer contracts, and customer relationships. Other intangible assets with finite lives, which include acquired technology, trademarks, customer contracts and customer relationships, and other are recorded at cost and amortized using the straight-line method over their useful lives ranging from one year to ten years. Intangible assets with indefinite lives, which include goodwill, are recorded at cost and evaluated at least annually for impairment.

In accordance with ASC Topic 350-10 ("ASC 350-10") as it relates to Goodwill and Other Intangible Assets, the Company conducts its annual goodwill impairment analysis as of December 31 each year and as necessary if changes in facts and circumstances indicate that it is more likely than not that the fair value of its reporting units may be less than its carrying amount. Events or changes in facts and circumstances that might indicate potential impairment of goodwill include company-specific factors, including, but not limited to, stock price volatility, market capitalization relative to net book value, and projected revenue, market growth and operating results. Determining the number of reporting units and the fair value of a reporting unit requires the Company to make judgments and involves the use of significant estimates and assumptions. The Company has two reporting units: peripherals and video conferencing. The allocation of assets and liabilities to each of the reporting units also involves judgment and assumptions.

FASB ASC 350-20 permits the Company to make a qualitative assessment of whether it is more likely than not that a reporting unit's fair value is less than its carrying amount before applying the two-step goodwill impairment test. If an entity concludes that it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, it would not be required to perform the two-step impairment test for that reporting unit. The Company may elect to proceed directly to Step 1 without performing a qualitative assessment.

Step 1 of the two-step impairment test involves measuring the recoverability of goodwill at the reporting unit level by comparing the reporting unit's carrying amount, including goodwill, to the estimated fair value of the reporting unit. The fair value is estimated using an income approach employing a discounted cash flow ("DCF") and a market-based model. The DCF model is based on projected cash flows from the Company's most recent forecast ("assessment forecast") developed in connection with each of its reporting units to perform the goodwill impairment assessment. The assessment forecast is based on a number of key assumptions, including, but not limited to, discount rate, compound annual growth rate ("CAGR") during the forecast period, and terminal value. The terminal value is based on an exit price at the end of the assessment forecast using an earnings multiple applied to the final year of the assessment forecast. The discount rate is applied to the projected cash flows to reflect the risks inherent in the timing and amount of the projected cash flows, including the terminal value, and is derived from the weighted average cost of capital of market participants in similar businesses. The market approach model is based on applying certain revenue and earnings multiples of comparable companies relevant to each of the Company's reporting units to the respective revenue and earnings metrics of its reporting units. To test the reasonableness of the fair values indicated by the income approach and the market-based approach, the Company also assesses the implied premium of the aggregate fair value over the market capitalization considered attributable to an acquisition control premium, which is the price in excess of a stock market's price that investors would typically pay to gain control of an entity. The DCF model and the market

Table of Contents

LOGITECH INTERNATIONAL S.A.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 3 Summary of Significant Accounting Policies (Continued)

approach require the exercise of significant judgment, including assumptions about appropriate discount rates, long-term growth rates for purposes of determining a terminal value at the end of the discrete forecast period, economic expectations, timing of expected future cash flows, and expectations of returns on equity that will be achieved. Such assumptions are subject to change as a result of changing economic and competitive conditions. If the carrying amount of the reporting unit exceeds its fair value as determined by these assessments, goodwill is considered impaired, and Step 2 of the analysis is performed to measure the amount of impairment loss. Step 2 measures the impairment loss by allocating the reporting unit's fair value to its assets and liabilities other than goodwill, comparing the resulting implied fair value of goodwill with its carrying amount, and recording an impairment charge for the difference.

Income Taxes

The Company provides for income taxes using the asset and liability method, which requires that deferred tax assets and liabilities be recognized for the expected future tax consequences of temporary differences resulting from differing treatment of items for tax and accounting purposes. In estimating future tax consequences, expected future events are taken into consideration, with the exception of potential tax law or tax rate changes.

The Company's assessment of uncertain tax positions requires that management make estimates and judgments about the application of tax law, the expected resolution of uncertain tax positions and other matters. In the event that uncertain tax positions are resolved for amounts different than the Company's estimates, or the related statutes of limitations expire without the assessment of additional income taxes, the Company will be required to adjust the amounts of the related assets and liabilities in the period in which such events occur. Such adjustments may have a material impact on the Company's income tax provision and its results of operations.

Fair Value of Financial Instruments

The carrying value of certain of the Company's financial instruments, including cash equivalents, accounts receivable and accounts payable approximates fair value due to their short maturities. The Company's trading investments related to the deferred compensation plan are reported at fair value based on quoted market prices.

Net Income (Loss) per Share

Basic net income (loss) per share is computed by dividing net income (loss) by the weighted average outstanding shares. Diluted net income (loss) per share is computed using the weighted average outstanding shares and dilutive share equivalents. Dilutive share equivalents consist of share-based compensation awards, including stock options, employee share purchase plan, and restricted stock.

The dilutive effect of in-the-money share-based compensation awards is calculated based on the average share price for each fiscal period using the treasury stock method, which assumes that the amount used to repurchase shares includes the amount the employee must pay for exercising share-based awards, the amount of compensation cost not yet recognized for future service, and the amount of tax impact that would be recorded in additional paid-in capital when the award becomes deductible.

Table of Contents

LOGITECH INTERNATIONAL S.A.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 3 Summary of Significant Accounting Policies (Continued)

Share-Based Compensation Expense

Share-based compensation expense includes compensation expense, reduced for estimated forfeitures, for share-based compensation awards granted based on the grant-date fair value. The grant date fair value for stock options and stock purchase rights is estimated using the Black-Scholes-Merton option-pricing valuation model. The grant date fair value of RSUs ("restricted stock units") which vest upon meeting certain market conditions is estimated using the Monte-Carlo simulation method. The grant date fair value of time-based RSUs is calculated based on the market price on the date of grant.

Excess tax benefits resulting from the exercise of stock options are classified as cash flows from financing activities in the consolidated statements of cash flows. Excess tax benefits are realized tax benefits from tax deductions for exercised options in excess of the deferred tax asset attributable to share-based compensation costs for such options.

The Company will recognize a benefit from share-based compensation in paid-in capital only if an incremental tax benefit is realized after all other available tax attributes have been utilized. For income tax footnote disclosure, the Company has elected to offset deferred tax assets from share-based compensation against the valuation allowance related to the net operating loss and tax credit carryforwards from accumulated tax benefits. The Company will recognize these tax benefits in paid-in capital when the deduction reduces cash taxes payable. In addition, the Company has elected to account for the direct benefits of share-based compensation on the research tax credit through continuing operations.

Product Warranty Accrual

The Company estimates cost of product warranties at the time the related revenue is recognized based on historical and projected warranty claim rates, historical and projected costs, and knowledge of specific product failures that are outside of the Company's typical experience. Each quarter, the Company reevaluates estimates to assess the adequacy of recorded warranty liabilities considering the size of the installed base of products subject to warranty protection and adjusts the amounts as necessary. If actual product failure rates or repair costs differ from estimates, revisions to the estimated warranty liabilities would be required and could materially affect the Company's results of operations.

Comprehensive Income (Loss)

Comprehensive income (loss) is defined as the total change in shareholders' equity during the period other than from transactions with shareholders. Comprehensive income (loss) consists of net income (loss) and other comprehensive income (loss). Other comprehensive income (loss) is comprised of foreign currency translation adjustments from those entities not using the U.S. Dollar as their functional currency, unrealized gains and losses on marketable equity securities, net deferred gains and losses and prior service costs for defined benefit pension plans, and net deferred gains and losses on hedging activity.

Treasury Shares

The Company periodically repurchases shares in the market at fair value. Treasury shares repurchased are recorded at cost as a reduction of total shareholders' equity. Treasury shares held may be reissued to satisfy the exercise of employee stock options and purchase rights, the vesting of restricted stock units, and acquisitions, or may be cancelled with shareholder approval. Treasury shares that are reissued are accounted for using the first-in, first-out basis.

Table of Contents

LOGITECH INTERNATIONAL S.A.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 3 Summary of Significant Accounting Policies (Continued)

Derivative Financial Instruments

The Company enters into foreign exchange forward contracts to reduce the short-term effects of foreign currency fluctuations on certain foreign currency receivables or payables and to hedge against exposure to changes in foreign currency exchange rates related to its subsidiaries' forecasted inventory purchases. These forward contracts generally mature within one to three months. The Company may also enter into foreign exchange swap contracts to extend the terms of its foreign exchange forward contracts.

Gains and losses for changes in the fair value of the effective portion of the Company's forward contracts related to forecasted inventory purchases are deferred as a component of accumulated other comprehensive income (loss) until the hedged inventory purchases are sold, at which time the gains or losses are reclassified to cost of goods sold. Gains or losses for changes in the fair value on forward contracts that offset translation losses or gains on foreign currency receivables or payables are recognized are included in other income (expense), net.

Restructuring Charges

The Company's restructuring charges consist of employee severance, one-time termination benefits and ongoing benefits related to the reduction of its workforce, lease exit costs, and other costs. Liabilities for costs associated with a restructuring activity are measured at fair value and are recognized when the liability is incurred, as opposed to when management commits to a restructuring plan. One-time termination benefits are expensed at the date the entity notifies the employee, unless the employee must provide future service, in which case the benefits are expensed ratably over the future service period. Ongoing benefits are expensed when restructuring activities are probable and the benefit amounts are estimable. Costs to terminate a lease before the end of its term are recognized when the property is vacated. Other costs primarily consist of legal, consulting, and other costs related to employee terminations and are expensed when incurred. Termination benefits are calculated based on regional benefit practices and local statutory requirements.

Recent Accounting Pronouncements

In July 2013, the FASB issued Accounting Standards Update ("ASU") No. 2013-11, *Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists*. This ASU provides explicit guidance on the financial statement presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. ASU No. 2013-11 is effective for interim and annual periods beginning after December 15, 2013 and was effective for the Company in the first quarter of fiscal 2015.

In May 2014, the FASB issued Accounting Standards Update No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*, ("ASU 2014-09"). ASU 2014-09 outlines a new, single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. This new revenue recognition model provides a five-step analysis in determining when and how revenue is recognized. The new model will require revenue recognition to depict the transfer of promised goods or services to customers in an amount that reflects the consideration a company expects to receive in exchange for those goods or services. The new standard will be effective for the Company beginning April 1, 2017. Early application is prohibited. The Company is currently evaluating the impact that adopting this new accounting guidance will have on its consolidated financial statements.

Table of Contents**LOGITECH INTERNATIONAL S.A.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Note 4 Net Income (Loss) per Share**

The computations of basic and diluted net income (loss) per share for the Company were as follows (in thousands except per share amounts):

	Years Ended March 31,		
	2014	2013	2012
		As Revised	As Restated
Net income (loss)	\$ 74,304	\$ (227,518)	\$ 104,237
Shares used in net income (loss) per share computation:			
Weighted average shares outstanding basic	160,619	158,468	174,648
Effect of potentially dilutive equivalent shares	1,907		943
Weighted average shares outstanding diluted	162,526	158,468	175,591
Net income (loss) per share:			
Basic	\$ 0.46	\$ (1.44)	\$ 0.60
Diluted	\$ 0.46	\$ (1.44)	\$ 0.59

During fiscal years 2014, 2013 and 2012, 15,091,478, 22,859,941, and 18,431,855 share equivalents attributable to outstanding stock options, RSUs, and ESPP were excluded from the calculation of diluted net income (loss) per share because the combined exercise price, average unamortized fair value and assumed tax benefits upon exercise of these options, RSUs, and ESPP were greater than the average market price of the Company's shares, and therefore their inclusion would have been anti-dilutive.

Note 5 Employee Benefit Plans***Employee Share Purchase Plans and Stock Incentive Plans***

As of March 31, 2014, the Company offers the 2006 ESPP (2006 Employee Share Purchase Plan (Non-U.S.)), the 1996 ESPP (1996 Employee Share Purchase Plan (U.S.)), the 2006 Plan (2006 Stock Incentive Plan) and the 2012 Plan (2012 Stock Inducement Equity Plan). The 2012 Plan was approved by the Board of Directors in April 2012. On April 13, 2012, the Company filed registration statements to register 5.0 million additional shares to be issued pursuant to the 2006 ESPP and 1.8 million shares under the 2012 Plan. On September 5, 2012, at the fiscal year 2012 Annual General Meeting of Shareholders, Logitech shareholders approved amendments to and restatement of the 2006 Plan, which included the increase of 7.3 million additional shares to be issued under this plan and to prohibit the repricing of options or stock appreciation rights. On October 25, 2012, the Company filed a registration statement to register the 7.3 million additional shares under the 2006 Plan. On September 4, 2013, at the 2013 Annual General Meeting of Shareholders, the Company's shareholders approved amendments to, and restatement of, the 1996 ESPP and the 2006 ESPP, which included the increase of 8.0 million additional shares to be issued under these ESPP plans. On December 9, 2013, the Company filed a registration statement to register the 8.0 million additional shares under the 1996 ESPP and 2006 ESPP. Shares issued to employees as a result of purchases or exercises under these plans are generally issued from shares held in treasury.

Table of Contents**LOGITECH INTERNATIONAL S.A.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Note 5 Employee Benefit Plans (Continued)**

The following table summarizes share-based compensation expense and related tax benefit recognized for fiscal years 2014, 2013 and 2012 (in thousands):

	Years Ended March 31,		
	2014	2013	2012
Cost of goods sold	\$ 2,518	\$ 2,499	\$ 3,620
Research and development	4,546	7,532	7,187
Marketing and selling	8,298	7,825	12,716
General and administrative	10,184	7,342	8,006
Total share-based compensation expense	25,546	25,198	31,529
Income tax benefit	(4,902)	(5,356)	(6,294)
Total share-based compensation expense, net of income tax	\$ 20,644	\$ 19,842	\$ 25,235

During the years ended March 31, 2014, 2013, and 2012, the Company capitalized \$0.4 million, \$0.4 million and \$0.7 million, respectively, of stock-based compensation expenses as inventory.

The following table summarizes total unamortized share-based compensation expense and the remaining months over which such expense is expected to be recognized, on a weighted-average basis by type of grant (in thousands, except number of months):

	March 31, 2014	
	Unamortized Expense	Remaining Months
Stock options and ESPP	\$ 980	17
Premium-priced stock options	789	19
Market-based stock options	1,304	9
Time-based RSUs	37,379	22
Market-based RSUs	4,901	27
	\$ 45,353	

Under the 1996 ESPP and 2006 ESPP plans, eligible employees may purchase shares at the lower of 85% of the fair market value at the beginning or the end of each six-month offering period. Subject to continued participation in these plans, purchase agreements are automatically executed at the end of each offering period. An aggregate of 29,000,000 shares was reserved for issuance under the 1996 and 2006 ESPP plans. As of March 31, 2014, a total of 8,266,700 shares were available for issuance under these plans.

The 2006 Plan provides for the grant to eligible employees and non-employee directors of stock options, stock appreciation rights, restricted stock and RSUs. Awards under the 2006 Plan may be conditioned on continued employment, the passage of time or the satisfaction of

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

performance vesting criteria. The 2006 Stock Plan has an expiration date of June 16, 2016. Stock options granted under the 2006 Plan generally vest over three years for non-executive Directors and over four years for employees. All stock options under this plan have terms not exceeding ten years and are issued at exercise prices not less than the fair market value on the date of grant. Premium-priced stock options granted to executives under the 2006 Plan vest only when performance criteria is met as determined by a third party vendor.

Table of Contents**LOGITECH INTERNATIONAL S.A.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Note 5 Employee Benefit Plans (Continued)**

Time-based RSUs granted to employees under the 2006 Plan generally vest in four equal annual installments on the grant date anniversary. Time-based RSUs granted to non-executive board members under the 2006 Plan vest in one annual installment on the grant date anniversary. Market-based options and RSUs granted under the 2006 Plan vest at the end of the performance period upon meeting certain share price performance criteria measured against market conditions. The performance period is four years for market-based options granted in fiscal year 2013. The performance period is three years for market-based RSU grants made in fiscal years 2014, 2013 and 2012. An aggregate of 24,800,000 shares was reserved for issuance under the 2006 Plan. As of March 31, 2014, a total of 9,136,223 shares were available for issuance under this plan.

Under the 2012 Stock Inducement Equity Plan, stock options and RSUs may be granted to eligible employees to serve as inducement material to enter into employment with the Company. Awards under the 2012 Stock Inducement Equity Plan may be conditioned on continued employment, the passage of time or the satisfaction of performance vesting criteria, based on individual written employment offer letter. The 2012 Stock Inducement Equity Plan has an expiration date of March 28, 2022. An aggregate of 1,800,000 shares was reserved for issuance under the 2012 Stock Inducement Equity Plan. As of March 31, 2014, no shares were available for issuance under this plan.

A summary of the Company's stock option activity for fiscal years 2014, 2013 and 2012 is as follows (in thousands, except per share data; exercise prices are weighted averages):

	Years Ended March 31,					
	2014		2013		2012	
	Shares	Exercise Price	Shares	Exercise Price	Shares	Exercise Price
Outstanding, beginning of year	13,684	\$ 16	13,034	\$ 19	16,312	\$ 19
Granted		\$	3,718	\$ 8		\$
Exercised	(551)	\$ 9	(389)	\$ 6	(316)	\$ 8
Cancelled or expired	(3,317)	\$ 15	(2,679)	\$ 20	(2,962)	\$ 22
Outstanding, end of year	9,816	\$ 16	13,684	\$ 16	13,034	\$ 19
Exercisable, end of year	7,056	\$ 19	9,355	\$ 19	10,867	\$ 20

The total pretax intrinsic value of stock options exercised during the fiscal years 2014, 2013 and 2012 was \$2.0 million, \$1.1 million and \$0.8 million, respectively, and the tax benefit realized for the tax deduction from options exercised during those periods was \$0.5 million, \$0.3 million and \$0.2 million, respectively. The total fair value of options exercisable as of March 31, 2014, 2013 and 2012 was \$42.8 million, \$60.5 million and \$76.0 million, respectively.

The fair value of employee stock options granted and shares purchased under the Company's employee purchase plans was estimated using the Black-Scholes-Merton option-pricing valuation model applying the following assumptions and values.

	Purchase Plans			Stock Option Plans			Premium Priced Options			Market-based Stock Option Plan		
	Fiscal Years Ended March 31,			Fiscal Years Ended March 31,			Fiscal Years Ended March 31,			Fiscal Years Ended March 31,		
	2014	2013	2012	2014	2013	2012	2014	2013	2012	2014	2013	2012
Dividend yield	0.43%	0%	0%	n/a	0%	n/a	n/a	0%	n/a	n/a	0%	n/a
Risk-free interest rate	0.07%	0.09%	0.13%	n/a	1.20%	n/a	n/a	2.00%	n/a	n/a	1.93%	n/a
Expected volatility	36%	47%	52%	n/a	46%	n/a	n/a	46%	n/a	n/a	44%	n/a
Expected life (years)	0.5	0.5	0.5	n/a	6.0	n/a	n/a	7.0	n/a	n/a	6.0	n/a
Weighted average fair value	\$ 2.46	\$ 2.14	\$ 2.96	n/a	\$ 3.64	n/a	n/a	\$ 2.52	n/a	n/a	\$ 2.58	n/a

The dividend yield assumption is based on the Company's history and future expectations of dividend payouts. In September 2012, the Company's shareholders approved, and the Company paid, a one-time cash dividend of CHF 125.7 million (\$133.5 million in U.S. Dollars), out of retained earnings to Logitech's existing shareholders. The dividend qualified as a distribution of qualifying additional paid-in-capital. In May 2013, the Company announced its plan to issue an annual dividend on a recurring basis. In September 2013, the Company's shareholders approved, and the Company paid, a cash dividend of CHF 33.7 million (\$36.1 million in U.S. dollars) to the existing shareholders. The unvested or unexercised options and RSUs are not eligible for these dividends. The expected option life represents the weighted-average period the stock options or purchase offerings are expected to remain outstanding. The expected life is based on historical settlement rates, which the Company believes are most representative of future exercise and post-vesting termination behaviors. Expected share price volatility is based on historical volatility using the Company's daily closing prices over the term of past options or purchase offerings. The Company considers the historical price volatility of its shares as most representative of future volatility. The risk-free interest rate assumptions are based upon the implied yield of U.S. Treasury zero-coupon issues appropriate for the term of the Company's stock options or purchase offerings.

The Company estimates option forfeitures at the time of grant and revises those estimates in subsequent periods if actual forfeitures differ from those estimates. The Company uses historical data to estimate pre-vesting option forfeitures and records share-based compensation expense only for those awards that are expected to vest.

As of March 31, 2014, the exercise price of outstanding options ranged from \$1 to \$35 per option, the weighted average remaining contractual life of outstanding options was 4.9 years, and the weighted average remaining contractual life of exercisable options was 3.6 years. As of March 31, 2014, the aggregate intrinsic value of outstanding options was \$20.1 million and the aggregate intrinsic value of exercisable options was \$6.5 million.

The total number of fully vested in-the-money options exercisable as of March 31, 2014 was 2,500,762 and 2,756,753 options were unvested, of which 2,370,808 are expected to vest, based on an estimated forfeiture rate of 14%.

Table of Contents**LOGITECH INTERNATIONAL S.A.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Note 5 Employee Benefit Plans (Continued)**

A summary of the Company's time- and market-based RSU activity for fiscal years 2014, 2013 and 2012 is as follows (in thousands, except per share values; grant-date fair values are weighted averages):

	Years Ended March 31,					
	2014		2013		2012	
	Shares	Fair Value	Shares	Fair Value	Shares	Fair Value
Outstanding, beginning of year	4,642	\$ 10	4,125	\$ 13	2,370	\$ 21
Granted time-based	3,104	\$ 11	2,219	\$ 7	2,496	\$ 9
Granted market-based	1,060	\$ 8	101	\$ 6	516	\$ 11
Vested	(1,560)	\$ 9	(1,097)	\$ 11	(399)	\$ 19
Cancelled or expired	(1,158)	\$ 15	(706)	\$ 13	(858)	\$ 19
Outstanding, end of year	6,088	\$ 10	4,642	\$ 10	4,125	\$ 13

The total pretax intrinsic value of RSUs that vested during the fiscal years 2014, 2013 and 2012 was \$ 17.8 million, \$8.3 million and \$3.8 million, respectively. The tax benefit realized for the tax deduction from RSUs that vested during the fiscal years 2014, 2013 and 2012 was \$4.7 million, \$1.9 million and \$0.9 million, respectively.

The Company determines the fair value of the time-based RSUs based on the market price on the date of grant. The fair value of the market-based RSUs is estimated using the Monte-Carlo simulation model applying the following assumptions:

	Years Ended March 31,		
	2014	2013	2012
Dividend yield	0.75%	0%	0%
Risk-free interest rate	1.09%	0.31%	0.99%
Expected volatility	46%	47%	49%
Expected life (years)	2.9	3.0	3.0

The dividend yield assumption is based on the Company's history and future expectations of dividend payouts. The expected life of the market-based RSUs is the service period at the end of which the RSUs will vest if the market conditions are satisfied. The volatility assumption is based on the actual volatility of Logitech's daily closing share price over a look-back period equal to the years of expected life. The risk free interest rate is derived from the yield on U.S. Treasury Bonds for a term of the same number of years as the expected life.

As of March 31, 2014, the grant date fair values of outstanding RSUs ranged from \$6 to \$20 per RSU.

Table of Contents**LOGITECH INTERNATIONAL S.A.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Note 5 Employee Benefit Plans (Continued)**

In April 2012, Logitech's Board of Directors approved the 2012 Stock Inducement Equity Plan. Under this plan, Logitech's newly hired President, Bracken P. Darrell, who became President and Chief Executive Officer in January 2013, was granted the following equity incentive awards with a ten year term (in thousands, except per share exercise price and vesting period):

Type of Grant	Shares	Exercise Price	Fair Value	Vesting(1) (in years)
Stock options	500	\$ 8	\$ 1,820	4.0
Time based RSUs	100		803	4.0
Premium-priced stock options(2):				
First tranche	400	14	1,100	2.5
Second tranche	400	16	1,024	3.0
Third tranche	400	20	896	3.9

(1) Vesting period for premium-priced stock options represents estimated requisite service period.

(2) Each grant of premium-priced stock options will vest in full if and only when Logitech's average closing share price, over a consecutive ninety-day trading period, meets or exceeds the exercise price of the grant.

Defined Contribution Plans

Certain of the Company's subsidiaries have defined contribution employee benefit plans covering all or a portion of their employees. Contributions to these plans are discretionary for certain plans and are based on specified or statutory requirements for others. The charges to expense for these plans for fiscal years 2014, 2013 and 2012, were \$6.6 million, \$6.9 million and \$11.6 million, respectively.

Defined Benefit Plans

Certain of the Company's subsidiaries sponsor defined benefit pension plans or non-retirement post-employment benefits covering substantially all of their employees. Benefits are provided based on employees' years of service and earnings, or in accordance with applicable employee benefit regulations. The Company's practice is to fund amounts sufficient to meet the requirements set forth in the applicable employee benefit and tax regulations.

During fiscal year 2013, the Company's Swiss defined benefit pension plan was subject to re-measurement due to the number of plan participants affected by the restructurings implemented during fiscal year 2013, as described in Note 15, *Restructuring*. The re-measurement resulted in the realization of \$2.2 million in previously unrecognized losses which resided within accumulated other comprehensive loss and which the Company entirely recognized during fiscal year 2013. The Company's restructuring plan implemented during the fourth quarter of fiscal year 2013 resulted in an additional \$1.2 million in previously unrecognized losses related to affected plan participants which resided within accumulated other comprehensive income (loss) and which the Company entirely recognized during the quarter ended March 31, 2013.

The Company recognizes the underfunded or overfunded status of defined benefit pension plans and non-retirement post-employment benefit obligations as an asset or liability in its consolidated balance sheets, and recognizes changes in the funded status of defined benefit pension plans in the year in which

Table of Contents**LOGITECH INTERNATIONAL S.A.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Note 5 Employee Benefit Plans (Continued)**

the changes occur through accumulated other comprehensive income (loss), which is a component of shareholders' equity. Each plan's assets and benefit obligations are measured as of March 31 each year.

The net periodic benefit cost of the defined benefit pension plans and the non-retirement post-employment benefit obligations for fiscal years 2014, 2013 and 2012 was as follows (in thousands):

	Years Ended March 31,		
	2014	2013	2012
		As Revised	As Restated
Service costs	\$ 8,591	\$ 7,842	\$ 6,856
Interest costs	1,794	1,852	2,263
Expected return on plan assets	(1,727)	(1,710)	(1,969)
Amortization of net transition obligation	4	5	5
Net period service costs recognized	210	712	156
Net actuarial loss recognized	592	846	205
Settlement costs	769	2,658	
	\$ 10,233	\$ 12,205	\$ 7,516

The changes in projected benefit obligations for fiscal years 2014 and 2013 were as follows (in thousands):

	Years Ended March 31,	
	2014	2013
		As Revised
Projected benefit obligation, beginning of year	\$ 90,234	\$ 97,459
Service costs	8,591	7,842
Interest costs	1,794	1,852
Plan participant contributions	2,726	2,814
Actuarial (gains) losses	(2,942)	7,146
Benefits paid	(1,841)	(2,285)
Plan amendments		(1,456)
Settlement and curtailment	(1,261)	(18,758)
Administrative expense paid	(174)	(164)
Foreign currency exchange rate changes	5,256	(4,216)
Projected benefit obligation, end of year	\$ 102,383	\$ 90,234

The accumulated benefit obligation for all defined benefit pension plans as of March 31, 2014 and 2013 was \$83.2 million and \$69.9 million.

Table of Contents**LOGITECH INTERNATIONAL S.A.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Note 5 Employee Benefit Plans (Continued)**

The following table presents the changes in the fair value of defined benefit pension plan assets for fiscal years 2014 and 2013 (in thousands):

	Years Ended March 31,	
	2014	2013
	As Revised	
Fair value of plan assets, beginning of year	\$ 48,689	\$ 53,594
Actual return on plan assets	5,334	2,913
Employer contributions	5,390	6,352
Plan participant contributions	2,726	2,814
Benefits paid	(1,841)	(2,285)
Settlement	(500)	(11,874)
Administrative expenses paid	(174)	(164)
Foreign currency exchange rate changes	3,760	(2,661)
Fair value of plan assets, end of year	\$ 63,384	\$ 48,689

The Company's investment objectives are to ensure that the assets of its defined benefit plans are invested to provide an optimal rate of investment return on the total investment portfolio, consistent with the assumption of a reasonable risk level, and to ensure that pension funds are available to meet the plans' benefit obligations as they become due. The Company believes that a well-diversified investment portfolio will result in the highest attainable investment return with an acceptable level of overall risk. Investment strategies and allocation decisions are also governed by applicable governmental regulatory agencies. The Company's investment strategy with respect to its largest defined benefit plan, which is available only to Swiss employees, is to invest in the following allocation ranges starting from January 2014: 20-55% for equities, 25-60% for bonds, and 0-10% for cash and cash equivalents. The Company also can invest in real estate funds, commodity funds, and hedge funds depend upon economic conditions. Prior to January 2014, the Company followed the following allocation ranges: 28-43% for equities, 33-63% for Swiss bonds, 5-15% for foreign bonds, 5-15% for hedge and investment funds, and 0-20% for cash and cash equivalents. The Company's other defined benefit plans, which comprise 6.2% of total defined benefit plan assets as of March 31, 2014, have similar investment and allocation strategies.

Debt securities	20,300			20,300	20,663			20,663
Swiss real estate funds	8,970			8,970	3,968			3,968
Hedge funds		3,611		3,611		1,062		1,062
Commodity funds					693			693
Insurance contracts			2,598	2,598				
Other	43	199		242	106	252		358
	\$ 56,976	\$ 3,810	\$ 2,598	\$ 63,384	\$ 47,375	\$ 1,314	\$	\$ 48,689

The funded status of the defined benefit pension plans is the fair value of plan assets less benefit obligations. The funded status of the non-retirement post-employment benefits is the fair value of the benefit obligations. Projected benefit obligations exceeded plan assets for all plans by \$39.0 million and \$41.5 million as of March 31, 2014 and 2013.

Amounts recognized on the balance sheet for the plans were as follows (in thousands):

	March 31,	
	2014	2013
	As Revised	
Current assets	\$	\$
Current liabilities	(1,100)	(994)
Non-current liabilities	(37,899)	(40,551)
Net liabilities	\$ (38,999)	\$ (41,545)

Amounts recognized in accumulated other comprehensive loss related to defined benefit pension plans were as follows (in thousands):

	March 31,		
	2014	2013	2012

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

As Revised

Net prior service costs	\$ (2,149)	\$ (2,307)	\$ (1,918)

Foreign currency exchange rate changes	(1,174)	1,301	89
Accumulated other comprehensive loss, end of year	\$ (14,288)	\$ (21,856)	\$ (29,362)

The following table presents the amounts included in accumulated other comprehensive loss as of March 31, 2014, which are expected to be recognized as a component of net periodic benefit cost in fiscal year 2015 (in thousands):

	Year Ending March 31, 2015
Amortization of net transition obligation	\$ 4
Amortization of net prior service costs	212
Amortization of net actuarial loss	368
	\$ 584

The Company reassesses its benefit plan assumptions on a regular basis. The actuarial assumptions for the pension plans for fiscal years 2014 and 2013 were as follows:

	Years Ended March 31,			
	2014		2013	
	Benefit Obligation	Periodic Costs	Benefit Obligation	Periodic Costs
Discount rate	1.50%-9.25%	1.50%-8.00%	1.50%-8.00%	1.75%-8.50%
Estimated rate of compensation increase	3.00%-8.00%	3.00%-4.00%	3.00%-10.00%	3.00%-10.00%

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

Expected average rate of return on plan assets	1.00%-3.50%	0.75%-3.50%	1.00%-3.50%	0.75%-3.75%
--	-------------	-------------	-------------	-------------

The discount rate is estimated based on corporate bond yields or securities of similar quality in the respective country, with a duration approximating the period over which the benefit obligations are expected to be paid. The Company bases the compensation increase assumptions on historical experience and future expectations. The expected average rate of return for the Company's defined benefit pension

Table of Contents**LOGITECH INTERNATIONAL S.A.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Note 5 Employee Benefit Plans (Continued)**

plans represents the average rate of return expected to be earned on plan assets over the period that the benefit obligations are expected to be paid, based on government bond notes in the respective country, adjusted for corporate risk premiums as appropriate.

The following table reflects the benefit payments that the Company expects the plans to pay in the periods noted (in thousands):

Years Ending March 31,		
2015	\$	4,573
2016		5,144
2017		4,988
2018		5,481
2019		5,615
Thereafter		29,018
	\$	54,819

The Company expects to contribute \$5.3 million to its defined benefit pension plans during fiscal year 2015.

Deferred Compensation Plan

One of the Company's subsidiaries offers a deferred compensation plan that permits eligible employees to make 100% vested salary and incentive compensation deferrals within established limits. The Company does not make contributions to the plan.

The fair value of the deferred compensation plan's assets is included in other assets in the consolidated balance sheets. The marketable securities are classified as trading investments and were recorded at a fair value of \$16.6 million and \$15.6 million as of March 31, 2014 and 2013, based on quoted market prices. The Company also had \$16.6 million and \$15.6 million deferred compensation liability as of March 31, 2014 and 2013, respectively. Earnings, gains and losses on trading investments are included in other income (expense), net and corresponding changes in deferred compensation liability are included in operating expenses and cost of goods sold.

Note 6 Interest and Other Income (Expense), net

Interest income (expense), net was comprised of the following (in thousands):

	Years Ended March 31,		
	2014	2013	2012

Other income (expense), net	\$ 1,993	\$ (2,198)	\$ 7,655
-----------------------------	----------	------------	----------

Note 7 Income Taxes

The Company is incorporated in Switzerland but operates in various countries with differing tax laws and rates. Further, a portion of the Company's income (loss) before taxes and the provision for (benefit from) income taxes is generated outside of Switzerland.

Income (loss) before income taxes for the fiscal years 2014, 2013 and 2012 is summarized as follows (in thousands):

	Years Ended March 31,		
	2014	2013(1)	2012(1)
		As Revised	As Restated
Swiss	\$ 49,503	\$ (53,004)	\$ 31,045
Non-Swiss	28,079	(200,324)	93,282
Income (loss) before taxes	\$ 77,582	\$ (253,328)	\$ 124,327

(1)

During fiscal year 2014, the Company determined that Swiss loss before taxes reported previously as (\$121.8) million and (\$65.2) million in fiscal years 2013 and 2012, respectively, was overstated by \$71.0 million in 2013 and \$64.5 million in 2012 and Non-Swiss income (loss) before taxes previously reported as (\$129.3) million and \$157.8 million for 2013 and 2012 was understated by \$71.0 million in 2013 and overstated by \$64.5 million in 2012. The overstatement and understatement is due to the elimination of Swiss loss related to stock equity plans were erroneously presented as Non-Swiss in each year. In addition, Swiss loss before taxes increased by (\$2.2) million and decreased by \$31.7 million in fiscal year 2013 and 2012, respectively to reflect adjustments from the revision and restatement of the respective financial statements.

Table of Contents**LOGITECH INTERNATIONAL S.A.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Note 7 Income Taxes (Continued)**

The provision for (benefit from) income taxes is summarized as follows (in thousands):

	Years Ended March 31,		
	2014	2013	2012
		As Revised	As Restated
Current:			
Swiss	\$ 127	\$ 672	\$ 401

Gross deferred tax assets after valuation allowance	86,028	87,311
Deferred tax liabilities:		
Acquired intangible assets and other	(8,436)	(11,951)
Gross deferred tax liabilities	(8,436)	(11,951)
Deferred tax assets, net	\$ 77,592	\$ 75,360

(1)

Deferred tax assets and liabilities as of March 31, 2013 were adjusted to reflect the tax impact from the revision of the financial statement. In addition, during fiscal year 2014, the Company determined that a deferred tax liability related to U.S. flow-through investment of \$0.9 million was erroneously presented as a deferred tax asset associated with "Accruals" as of March 31, 2013. The amount was properly reclassified from "Accruals" to "Acquired intangible assets and others" above. The reclassification adjustment has no impact in the Company's Consolidated Statement of Operations, Consolidated Balance Sheet and Statement of Cash Flows.

Management regularly assesses the ability to realize deferred tax assets recorded in the Company's entities based upon the weight of available evidence, including such factors as recent earnings history and expected future taxable income. In the event that the Company changes its determination as to the amount of deferred tax assets that can be realized, the Company will adjust its valuation allowance with a corresponding impact to the provision for income taxes in the period in which such determination is made.

The Company had a valuation allowance of \$4.9 million at March 31, 2014, decreased from \$6.0 million at March 31, 2013 primarily due to decrease in valuation allowance of \$1.3 million for foreign tax credit carryforwards in the United States. The Company elected to deduct foreign taxes in lieu of tax credits in its fiscal year 2013 federal tax return in the United States. The Company had a valuation allowance of

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

\$2.6 million as of March 31, 2014 against deferred tax assets in the state of California of the United States. The remaining valuation allowance primarily represents \$1.7 million for capital loss carryforwards in the United States and \$0.6 million for various tax credit carryforwards. The Company determined that it is more likely than not that the Company would not generate sufficient taxable income in the future to utilize such deferred tax assets.

Table of Contents

LOGITECH INTERNATIONAL S.A.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 7 Income Taxes (Continued)

Deferred tax assets relating to tax benefits of employee stock grants have been reduced to reflect settlement activity in fiscal years 2014 and 2013. Settlement activity of grants in fiscal years 2014 and 2013 resulted in a "shortfall" in which tax deductions were less than previously recorded share-based compensation expense. The Company recorded a shortfall to equity of \$2.8 million and \$4.6 million, respectively, in fiscal years 2014 and 2013.

As of March 31, 2014, the Company had foreign net operating loss and tax credit carryforwards for income tax purposes of \$196.0 million and \$35.7 million, respectively, of which \$136.2 million of the net operating loss carryforwards and \$22.7 million of the tax credit carryforwards, if realized, will be credited to equity since they have not met the applicable realization criteria. Unused net operating loss carryforwards will expire at various dates in fiscal years 2016 to 2034. Certain net operating loss carryforwards in the United States relate to acquisitions and, as a result, are limited in the amount that can be utilized in any one year. The tax credit carryforwards will begin to expire in fiscal year 2019.

As of March 31, 2014, the Company had capital loss carryforwards of \$4.6 million. The loss will begin to expire in fiscal year 2016.

Swiss income taxes and non-Swiss withholding taxes associated with the repatriation of earnings or for other temporary differences related to investments in non-Swiss subsidiaries have not been provided for, as the Company intends to reinvest the earnings of such subsidiaries indefinitely or the Company has concluded that no additional tax liability would arise on the distribution of such earnings. If these earnings were distributed to Switzerland in the form of dividends or otherwise, or if the shares of the relevant non-Swiss subsidiaries were sold or otherwise transferred, the Company may be subject to additional Swiss income taxes and non-Swiss withholding taxes. As of March 31, 2014, the cumulative amount of unremitted earnings of non-Swiss subsidiaries was \$157.4 million. Determination of the amount of unrecognized deferred income tax liability related to these earnings is not practicable.

The Company follows a two-step approach to recognizing and measuring uncertain tax positions. The first step is to evaluate the tax position for recognition by determining if the weight of available evidence indicates that it is more likely than not that the position will be sustained on audit, including resolution of related appeals or litigation processes, if any. The second step is to measure the tax benefit as the largest amount that is more than 50% likely of being realized upon ultimate settlement.

As of March 31, 2014 and March 31, 2013, the total amount of unrecognized tax benefits due to uncertain tax positions was \$91.0 million and \$95.4 million, respectively, of which \$86.1 million and \$90.3 million would affect the effective income tax rate if recognized, respectively.

As of March 31, 2014, the Company had \$93.1 million in non-current income taxes payable and \$0.3 million in current income taxes payable, including interest and penalties, related to our income tax liability for uncertain tax positions. As of March 31, 2013, the Company had \$98.8 million in non-current income taxes payable.

Table of Contents**LOGITECH INTERNATIONAL S.A.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Note 7 Income Taxes (Continued)**

The aggregate changes in gross unrecognized tax benefits in fiscal years 2014, 2013 and 2012 were as follows (in thousands):

Decreases in balances related to tax positions taken during prior years	(1,500)
Increases in balances related to tax positions taken during the year	9,570
March 31, 2013 (As Revised)	\$ 95,698
Lapse of statute of limitations	(12,514)
Settlements with tax authorities	(100)
Decreases in balances related to tax positions taken during prior years	(778)
Increases in balances related to tax positions taken during the year	8,740
March 31, 2014	\$ 91,046

The Company recognizes interest and penalties related to unrecognized tax positions in income tax expense. The Company recognized \$1.1 million, \$1.0 million and \$1.2 million in interest and penalties in income tax expense during fiscal years 2014, 2013 and 2012, respectively. As of March 31, 2014, 2013 and 2012, the Company had \$5.6 million, \$6.6 million and \$7.5 million of accrued interest and penalties related to uncertain tax positions, respectively.

The Company files Swiss and foreign tax returns. For all these tax returns, the Company is generally not subject to tax examinations for years prior to fiscal year 2001. The Company is under examination and has received assessment notices in other tax jurisdictions. At this time, the Company is not able to estimate the potential impact that these examinations may have on its income tax expense. If the examinations are resolved unfavorably, there is a possibility they may have a material negative impact on its results of operations.

Although the Company has adequately provided for uncertain tax positions, the provisions on these positions may change as revised estimates are made or the underlying matters are settled or otherwise resolved. During fiscal year 2015, the Company will continue to review its tax positions and provide for or reverse unrecognized tax benefits as issues arise. During the next 12 months, it is reasonably possible that the amount of unrecognized tax benefits could increase or decrease significantly due to changes in tax law in various jurisdictions, new tax audits and changes in the U.S. dollar as compared to foreign currencies. Excluding these factors, uncertain tax positions may decrease by as much as \$16.0 million to \$18.3 million primarily from the lapse of the statutes of limitations in various jurisdictions during the next 12 months.

During the fiscal year 2013, the Company made a strategic decision to divest its Remotes product category and its digital video security product line, included within its Video product category. As a result, assets and liabilities of the Remotes product category and the digital video security product line were classified as held for sale as of March 31, 2013. During the fiscal year ended March 31, 2014, the Company updated its strategic direction and decided to retain its Remotes product category. As a result, the Remotes assets and liabilities held for sale was reclassified from held for sale as of March 31, 2014.

Note 9 Financial Instruments***Fair Value Measurements***

The Company considers fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. The Company utilizes the following three-level fair value hierarchy to establish the priorities of the inputs used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than quoted market prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

End of the period	\$ 429	\$

There were no significant level 3 financial assets held during fiscal year 2014 by the Company.

Cash and Cash Equivalents

Cash equivalents consist of bank demand deposits and time deposits. The time deposits have original maturities of three months or less. Cash equivalents are carried at cost, which approximates fair value.

Investment Securities

The Company's investment securities portfolio consists of marketable securities (money market and mutual funds) related to a deferred compensation plan at March 31, 2014 and 2013.

Table of Contents

LOGITECH INTERNATIONAL S.A.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 9 Financial Instruments (Continued)

The marketable securities related to the deferred compensation plan are classified as non-current other assets. Since participants in the deferred compensation plan may select the mutual funds in which their compensation deferrals are invested within the confines of the Rabbi Trust which holds the marketable securities, the Company has designated these marketable securities as trading investments, although there is no intent to actively buy and sell securities within the objective of generating profits on short-term differences in market prices. Management has classified the investments as non-current assets because final sale of the investments or realization of proceeds by plan participants is not expected within the Company's normal operating cycle of one year. The marketable securities are recorded at a fair value of \$16.6 million and \$15.6 million as of March 31, 2014 and 2013, based on quoted market prices. Quoted market prices are observable inputs that are classified as Level 1 within the fair value hierarchy. Earnings, gains and losses on trading investments are included in other income (expense), net. Unrealized trading gains of \$0.4 million, \$0.5 million and \$0.1 million are included in other income (expense), net for the fiscal years 2014, 2013 and 2012, respectively, and relate to trading securities held as of March 31, 2014, 2013 and 2012.

Derivative Financial Instruments: Under the agreements with the respective counterparties to the Company's derivative contracts, subject to applicable requirements, the Company does not net settle transactions with a single net amount payable by one party to the other. In accordance with *ASU 2011-11*, the Company presents its derivative instruments at gross fair values in the Consolidated Balance Sheets as of March 31, 2014 and 2013.

The following table presents the fair values of the Company's derivative instruments and their locations on its consolidated balance sheets as of March 31, 2014 and 2013 (in thousands):

Cash Flow Hedges

The Company enters into foreign exchange forward contracts to hedge against exposure to changes in foreign currency exchange rates related to its subsidiaries' forecasted inventory purchases. The Company has one entity with a Euro functional currency that purchases inventory in U.S. Dollars. The primary risk managed by using derivative instruments is the foreign currency exchange rate risk. The Company has designated these derivatives as cash flow hedges. The Company does not use derivative financial instruments for trading or speculative purposes. These hedging contracts mature within four months, and are denominated in the same currency as the underlying transactions. Gains and losses in the fair value of the effective portion of the hedges are deferred as a component of accumulated other comprehensive loss until the hedged inventory purchases are sold, at which time the gains or losses are reclassified to cost of goods sold. The Company assesses the effectiveness of the hedges by comparing changes in the spot rate of the currency underlying the forward contract with changes in the spot rate of the currency in which the forecasted transaction will be consummated. If the underlying transaction being hedged fails to occur or if a portion of the hedge does not generate offsetting changes in the foreign currency exposure of forecasted inventory purchases, the Company immediately recognizes the gain or loss on the associated financial instrument in other income (expense), net. Such gains and losses were not material during fiscal years 2014, 2013 and 2012. Cash flows from such hedges are classified as operating activities in the Consolidated Statements of Cash Flows. As of March 31, 2014 and 2013, the notional amounts of foreign exchange forward contracts outstanding related to forecasted inventory purchases were \$51.8 million (€37.6 million), and \$38.5 million (€30.1 million), respectively.

Foreign Exchange Forward and Swap Contracts

The Company also enters into foreign exchange forward contracts to reduce the short-term effects of foreign currency fluctuations on certain foreign currency receivables or payables. These forward contracts generally mature within three months. The Company may also enter into foreign exchange swap contracts to economically extend the terms of its foreign exchange forward contracts. The primary risk managed by

using forward and swap contracts is the foreign currency exchange rate risk. The gains or losses on foreign

Table of Contents

LOGITECH INTERNATIONAL S.A.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 9 Financial Instruments (Continued)

exchange forward contracts are recognized in other income (expense), net based on the changes in fair value.

The notional amounts of foreign exchange forward contracts outstanding as of March 31, 2014 and 2013 relating to foreign currency receivables or payables were \$23.2 million and \$14.2 million, respectively. Open forward contracts as of March 31, 2014 and 2013 consisted of contracts in U.S. Dollars to purchase Taiwanese Dollars and contracts in Euros to sell British Pounds at future dates at pre-determined exchange rates. The notional amounts of foreign exchange swap contracts outstanding as of March 31, 2014 and 2013 were \$30.5 million and \$19.6 million, respectively. Swap contracts outstanding as of March 31, 2014 and 2013 consisted of contracts in Mexican Pesos, Japanese Yen and Australian Dollars.

The fair value of all foreign exchange forward contracts and foreign exchange swap contracts is determined based on observable market transactions of spot currency rates and forward rates. Cash flows from these contracts are classified as operating activities in the Consolidated Statements of Cash Flows.

Note 10 Goodwill and Other Intangible Assets

Annual Goodwill Impairment Testing

In accordance with ASC Topic 350-10 ("ASC 350-10") as it relates to Goodwill and Other Intangible Assets, the Company conducts a goodwill impairment analysis annually at December 31 and as necessary if changes in facts and circumstances indicate that it is more likely than not that the fair value of the Company's reporting units may be less than its carrying amount.

FASB ASC 350-20 permits an entity to make a qualitative assessment of whether it is more likely than not that a reporting unit's fair value is less than its carrying amount before applying the two-step goodwill impairment test. If an entity concludes that it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, it would not be required to perform the two-step impairment test for that reporting unit.

Peripherals

The Company performed its annual impairment analysis of the goodwill for its peripherals reporting unit as of December 31, 2013 by performing a qualitative assessment and concluded that it was not more likely than not that the fair value of its peripherals reporting units was less than its carrying amount. In assessing the qualitative factors, the Company considered the impact of these key factors: change in industry and competitive environment, growth in market capitalization of \$2.2 billion as of December 31, 2013 from \$1.2 billion as of December 31, 2012, and forecasted budgeted-to-actual revenue performance for fiscal year 2014. The peripherals reporting unit had an improvement in operating income from \$35 million for the nine months ended December 31, 2012 to \$117 million for nine months ended December 31, 2013.

Video Conferencing

In the quarter ended September 30, 2013, the Company implemented a restructuring plan ("this Plan") associated with its video conferencing reporting unit to simplify its organization, better align costs with its current business and free up resources to pursue growth opportunities. This Plan resulted in the reduction of personnel, lease exit costs and the write-off of discontinued video conferencing products. In addition, actual performance was significantly less than projected results for the periods since the prior

Table of Contents**LOGITECH INTERNATIONAL S.A.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Note 10 Goodwill and Other Intangible Assets (Continued)**

annual goodwill impairment assessment performed at December 31, 2012, due to the combination of a changing industry landscape caused by a shift to less expensive cloud-based video conferencing solutions, an evolving Lifesize product line and challenges in execution. These factors resulted in the Company concluding that it was more likely than not that the fair value of its video conferencing reporting unit was less than its carrying amount. Therefore, the Company performed an interim Step 1 assessment of its video conferencing reporting unit at September 30, 2013.

Step 1 assessment performed during the quarter ended September 30, 2013 involved measuring the recoverability of goodwill by comparing the video conferencing reporting unit's carrying amount, including goodwill, to the fair value of the reporting unit. The fair value was estimated using both an income approach employing a discounted cash flow model and a market approach. The market approach model was based on applying certain revenue multiples of comparable companies to the respective revenue and earnings metrics of the reporting unit. Step 1 assessment resulted in the Company determining that the video conferencing reporting unit passed Step 1 test because the estimated fair value exceeded its carrying value by approximately 23%, thus not requiring a Step 2 assessment of this reporting unit.

At December 31, 2013, the Company completed its annual impairment analysis for the goodwill of the video conferencing reporting unit by performing Step 1 assessment as the qualitative factors that lead to the interim assessment had not significantly improved.

Key assumptions used in this Step 1 income approach analysis included the appropriate discount rates, compound annual growth rate ("CAGR") during the forecast period, and long-term growth rates for purposes of determining a terminal value at the end of the discrete forecast period. Sensitivity assessment of key assumptions for the video conferencing reporting unit Step 1 test is presented below:

CAGR assumption was 7.0% through fiscal year 2021, with a forecast decline in the remainder of fiscal year 2014, and higher growth rates from fiscal years 2015 through 2019, reducing to a growth rate of 4% in fiscal year 2021. The forecasted growth contrasts with the recent performance of the video conferencing reporting unit, when the Company experienced a decline in revenue (see Note 14 for further details). A hypothetical decrease to 1.4% in the CAGR rate, holding all other assumptions constant, would decrease the fair value of the video conferencing reporting unit below its carrying value and hence would result in the reporting unit failing Step 1 of the goodwill impairment test.

Discount rate assumption was 15%. A hypothetical increase to 18.9% in the discount rate, holding all other assumptions constant, would result in the reporting unit failing Step 1 of the goodwill impairment test.

Terminal growth rate assumption was 4%. A hypothetical decrease to 0% in the terminal growth rate assumption, holding all other assumptions constant, would result in the reporting unit passing Step 1 of the goodwill impairment test.

The assumptions used also included a reduction in future operating expenses as a percentage of revenue, driven by increases in forecast revenue as described above, combined with reduced operating expenses related to the fourth quarter of fiscal year 2013 and second quarter of fiscal year 2014 restructuring activities.

The annual Step 1 assessment resulted in the Company determining that the video conferencing reporting unit passed Step 1 test because the estimated fair value exceeded its carrying value by approximately 30%, thus not requiring Step 2 assessment of this reporting unit. This result presents a

Table of Contents**LOGITECH INTERNATIONAL S.A.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Note 10 Goodwill and Other Intangible Assets (Continued)**

future video conferencing reporting unit goodwill impairment risk to the Company since the margin it cleared the current Step 1 assessment was not significant.

As a result of the Company's annual goodwill impairment assessments, there was no impairment of goodwill during the three months ended December 31, 2013. There have been no events or circumstances during the three months ended March 31, 2014 that have required the Company to perform an interim assessment of goodwill.

During fiscal year 2013, the Company's video conferencing reporting unit failed Step 1 test because the estimated fair value was less than its carrying value, thus requiring Step 2 assessment of this reporting unit. This impairment primarily resulted from a decrease in the expected CAGR during the assessment forecast period based on greater evidence of the overall enterprise video conferencing industry experiencing a slowdown, combined with lower demand related to new product launches, increased competition during fiscal year 2013 and other market data. These factors had an adverse effect on the Company's video conferencing operating results and future outlook. During fiscal year 2013, the Company recorded goodwill impairment and other charges of \$214.5 million related to its video conferencing reporting unit.

Determining the fair value of a reporting unit is judgmental in nature and requires the use of significant estimates and assumptions, including revenue growth rates, operating margins, discount rates and future market conditions, among others. It is reasonably possible that changes in the judgments, assumptions and estimates that the Company used in assessing the fair value of the video conferencing reporting unit result in the goodwill to become impaired. A goodwill impairment charge would have the effect of decreasing the Company's earnings or increasing its losses in such period. If the Company is required to take a substantial impairment charge, its operating results would be materially and adversely affected in such period.

The following table summarizes the activity in the Company's goodwill balance during fiscal years 2014 and 2013 (in thousands):

	Years Ended March 31,					
	2014			2013		
	Peripherals	Video Conferencing	Total	Peripherals	Video Conferencing	Total
Beginning of the period	\$ 216,744	\$ 124,613	\$ 341,357	\$ 220,860	\$ 339,663	\$ 560,523
Additions	202		202

Reclassified from (to) assets held for sale(1)	2,469		2,469	(4,116)		(4,116)
End of the period	\$ 219,415	\$ 125,595	\$ 345,010	\$ 216,744	\$ 124,613	\$ 341,357

(1) Represents allocated goodwill related to the Company's Retail Digital Video Security product line and Retail Remotes product category which was classified as assets held for sale as of March 31, 2013. The allocated goodwill related to the Digital Video Security product line was fully impaired as of March 31, 2013. The allocated goodwill related to the Remotes product category was reclassified from assets held for sale as of March 31, 2014, as the Company updated its strategic plan and decided to retain its Remotes product category.

Table of Contents**LOGITECH INTERNATIONAL S.A.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Note 10 Goodwill and Other Intangible Assets (Continued)**

The Company's acquired other intangible assets subject to amortization were as follows (in thousands):

	March 31,					
	2014			2013		
	Gross	Accumulated Amortization	Net	Gross(1)	Accumulated Amortization(2)	Net
Trademark and tradenames	\$ 13,091	\$ (11,949)	\$ 1,142	\$ 13,977	\$ (10,693)	\$ 3,284
Technology(1)	83,080	(78,257)	4,823	73,249	(61,560)	11,689
Customer contracts	38,851	(34,287)	4,564	39,068	(28,017)	11,051
	\$ 135,022	\$ (124,493)	\$ 10,529	\$ 126,294	\$ (100,270)	\$ 26,024

-
- (1) As of March 31, 2013, the Company had \$1.7 million of intangible assets, net of accumulated amortization of \$19.3 million and impairment charges of \$0.5 million, related to Digital Video Security and Remotes product categories classified as held for sale, which are not included in the table above. As of March 31, 2014, the Remotes product category was reclassified from held for sale as the Company updated its strategic plan and decided to retain the Remotes product category. There were no intangible assets classified as held for sale as of March 31, 2014.
- (2) During fiscal year 2014, the Company determined that the trademarks and trade names gross and accumulated amortization amounts previously reported for fiscal year 2013 were not properly stated due to the inclusion of \$15.9 million of fully amortized intangible assets, which were previously retired by the Company as of March 31, 2013. The table above is revised to reflect the correct amounts.

For fiscal years 2014, 2013 and 2012, amortization expense for other intangible assets was \$17.8 million, \$23.6 million and \$27.2 million, respectively. The Company expects that annual amortization expense for the fiscal years ending 2015, 2016 and 2017 will be \$8.4 million, \$1.9 million and \$0.2 million, respectively.

Note 11 Financing Arrangements

In December 2011, the Company entered into a Senior Revolving Credit Facility Agreement ("Credit Facility") with a group of primarily Swiss banks that provided for a revolving multicurrency unsecured credit facility in an amount of up to \$250.0 million and subject to certain requirements, permitted the Company to arrange with existing or new lenders to provide up to an aggregate of \$150.0 million in additional commitments, for a total of \$400.0 million. The Company also paid a quarterly commitment fee of 40% of the applicable margin on the available commitment. In December 2013, given the significant improvement in our financial performance and outlook, the Company chose to terminate this Credit Facility and wrote-off the amortized loan fees totaling \$ 1.0 million. There were no outstanding borrowings at the time of termination.

The Company had several uncommitted, unsecured bank lines of credit aggregating \$40.0 million as of March 31, 2014. There are no financial covenants under these lines of credit with which the Company must comply. As of March 31, 2014, the Company had outstanding bank guarantees of \$7.1 million under these lines of credit. The Company also had credit lines related to corporate credit cards totaling \$6.9 million as of March 31, 2014. There are no financial covenants under these credit lines.

Table of Contents**LOGITECH INTERNATIONAL S.A.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Note 12 Commitments and Contingencies*****Operating Leases***

The Company leases facilities under operating leases, certain of which require it to pay property taxes, insurance and maintenance costs. Operating leases for facilities are generally renewable at the Company's option and usually include escalation clauses linked to inflation. Future minimum annual rentals under non-cancelable operating leases at March 31, 2014 are as follows (in thousands):

Years Ending March 31,	
2015	\$ 17,022
2016	13,950
2017	10,454
2018	8,543
2019	7,172
Thereafter	20,808
	\$ 77,949

Rent expense for fiscal years 2014, 2013 and 2012 was \$14.7 million, \$25.3 million and \$25.1 million, respectively.

In connection with its leased facilities, the Company has recognized a liability for asset retirement obligations for 2014 and 2013 representing the present value of estimated remediation costs to be incurred at lease expiration. The liability and the expense for asset retirement obligations were immaterial for fiscal years 2014, 2013, and 2012.

Product Warranties

All of the Company's Peripherals products are covered by warranty to be free from defects in material and workmanship for periods ranging from one year to five years. At the time of sale, the Company accrues a warranty liability for estimated costs to provide products, parts or services to repair or replace products in satisfaction of the warranty obligation. The Company's estimate of costs to fulfill its warranty obligations is based on historical experience and expectations of future conditions. When the Company experiences changes in warranty claim activity or costs associated with fulfilling those claims, the warranty liability is adjusted accordingly.

Changes in the Company's warranty liability for fiscal years 2014 and 2013 were as follows (in thousands):

	Years Ended March 31,	
	2014	2013
		As revised
Beginning of the period	\$ 21,442	\$ 26,618
Provision	15,817	12,879
Settlements	(15,206)	(15,728)
Adjustment(1)	2,327	(2,327)
End of the period	\$ 24,380	\$ 21,442

(1)

During fiscal year 2014, the warranty liability allocated to the Company's Remotes product category was reclassified from liabilities held for sale.

Table of Contents**LOGITECH INTERNATIONAL S.A.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Note 12 Commitments and Contingencies (Continued)*****Deferred Services Revenue***

The Company's video conferencing reporting unit offers maintenance contracts for sale of the majority of its products which allow for customers to receive service and support in addition to the expiration of the product warranty contractual term. The Company also provides installation services to its customer under contractual arrangements. The Company recognizes these contracts over the life of the service period.

Change in the Company's deferred services revenue during fiscal years 2014 and 2013 were as follows (in thousands):

	Years Ended March 31,	
	2014	2013
Beginning of the period	\$ 29,327	\$ 24,568
Extended warranties issued	33,007	34,069
Amortization	(32,174)	(29,310)
End of the period	\$ 30,160	\$ 29,327

The cost of providing these services for fiscal years 2014 and 2013 was \$7.8 million and \$8.5 million, respectively.

Purchase Commitments

As of March 31, 2014, the Company had the following outstanding purchase commitments:

Inventory commitments	\$ 102,760
Operating expenses	45,969
Capital commitments	12,994
Total purchase commitments	\$ 161,723

Commitments for inventory purchases are made in the normal course of business to original design manufacturers, contract manufacturers and other suppliers and are expected to be fulfilled by June 30, 2014. Operating expense commitments are for consulting services, marketing arrangements, advertising, outsourced customer services, information technology maintenance and support services, and other services. Fixed purchase commitments for capital expenditures primarily related to commitments for computer hardware and leasehold improvements. Although open purchase orders are considered enforceable and legally binding, the terms generally allow the Company the option to reschedule and adjust its requirements based on the business needs prior to delivery of goods or performance of services.

Other Contingencies

As previously announced, some of the issues reviewed by the Audit Committee are also the subject of an ongoing formal investigation by the SEC, including the accounting for Revue inventory valuation reserves that resulted in the restatement, revision to the Company's financial

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

statements concerning warranty accruals and amortization of intangible assets presented in our Form 10-K/A, filed on August 7, 2013, and the Company's transactions with a distributor for Fiscal Year 2007 through Fiscal Year 2009. The

Table of Contents

LOGITECH INTERNATIONAL S.A.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 12 Commitments and Contingencies (Continued)

Company is cooperating with the SEC in its ongoing investigation. The Company has entered into an agreement with the SEC to extend the statute of limitations. The Company cannot predict the outcome of the investigation at this time and any potential fines or penalties, if any, that may arise from the investigation are currently not estimable.

Guarantees

Logitech International S.A., the parent holding company, has issued several parent guarantees on behalf of its subsidiaries. The maximum potential future payment under the guarantee arrangements is limited to \$80.0 million. As of March 31, 2014, there were no purchase obligations outstanding for which the parent holding company was required to guarantee payment.

Logitech Europe S.A., a subsidiary of the parent holding company, has guaranteed the purchase obligations of another Logitech subsidiary under a guarantee agreement. This guarantee does not specify a maximum amount. As of March 31, 2014, the amount of purchase obligations outstanding under this guarantee was immaterial. In addition, Logitech Europe S.A. also guaranteed payments of a third-party contract manufacturer's purchase obligations. As of March 31, 2014, the maximum amount of this guarantee was \$3.5 million, of which \$2.3 million of guaranteed purchase obligations were outstanding.

Indemnifications

The Company indemnifies certain of its suppliers and customers for losses arising from matters such as intellectual property disputes and product safety defects, subject to certain restrictions. The scope of these indemnities varies, but in some instances, includes indemnification for damages and expenses, including reasonable attorneys' fees. As of March 31, 2014, no amounts have been accrued for these indemnification provisions. The Company does not believe, based on historical experience and information currently available, that it is probable that any material amounts will be required to be paid under its indemnification arrangements.

The Company also indemnifies its current and former directors and certain of its current and former officers. Certain costs incurred for providing such indemnification may be recoverable under various insurance policies. The Company is unable to reasonably estimate the maximum amount that could be payable under these arrangements because these exposures are not limited, the obligations are conditional in nature and the facts and circumstances involved in any situation that might arise are variable.

Legal Proceedings

From time to time the Company is involved in claims and legal proceedings which arise in the ordinary course of its business. The Company is currently subject to several such claims and a small number of legal proceedings. The Company believes that these matters lack merit and intends to vigorously defend against them. Based on currently available information, the Company does not believe that resolution of pending matters will have a material adverse effect on its financial condition, cash flows or results of operations. However, litigation is subject to inherent uncertainties, and there can be no assurances that the Company's defenses will be successful or that any such lawsuit or claim would not have a material adverse impact on the Company's business, financial condition, cash flows and results of operations in a particular period. Any claims or proceedings against the Company, whether meritorious or not, can have an adverse impact because of defense costs, diversion of management and operational resources, negative publicity and other

LOGITECH INTERNATIONAL S.A.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 12 Commitments and Contingencies (Continued)

factors. Any failure to obtain necessary license or other rights, or litigation arising out of intellectual property claims, could adversely affect the Company's business.

Note 13 Shareholders' Equity

Share Capital

The Company's nominal share capital is CHF 43,276,655, consisting of 173,106,620 shares with a par value of CHF 0.25 each, all of which were issued and 10,206,450 which were held in treasury as of March 31, 2014.

In September 2008, the Company's shareholders approved an amendment to reserve conditional capital of 25,000,000 shares for potential issuance on the exercise of rights granted under the Company's employee equity incentive plans. The shareholders also approved the creation of conditional capital representing the issuance of up to 25,000,000 shares to cover any conversion rights under a future convertible bond issuance. This conditional capital was created in order to provide financing flexibility for future expansion, investments or acquisitions.

Shares Outstanding

In September 2012, the Company's shareholders approved the cancellation of the 18.5 million shares repurchased under the September 2008 amended share buyback program. These shares were legally cancelled during fiscal year 2013, which decreased the treasury shares outstanding by this amount but also decreased its shares issued and outstanding from 191.6 million to 173.1 million.

Dividends

Pursuant to Swiss corporate law, Logitech International S.A. may only pay dividends in Swiss francs. The payment of dividends is limited to certain amounts of unappropriated retained earnings (CHF 458.5 million or \$518.1 million based on exchange rates at March 31, 2014) and is subject to shareholder approval. In September 2013, Logitech's shareholders approved a cash dividend payment of CHF 33.7 million out of retained earnings to Logitech shareholders. Eligible shareholders were paid CHF 0.21 per share (\$0.22 per share in U.S. dollars), totaling \$36.1 million in U.S. Dollars in September 2013. In September 2012, the Company's shareholders approved a cash dividend of CHF 125.7 million out of retained earnings to Logitech shareholders. Eligible shareholders were paid CHF 0.79 per share (\$0.85 per share in U.S. dollars), totaling \$133.5 million in U.S. dollars in September 2012. This dividend qualified as a distribution of qualifying additional paid-in-capital and, as such, was not subject to Swiss Federal withholding tax.

Legal Reserves

Under Swiss corporate law, a minimum of 5% of the Company's annual net income must be retained in a legal reserve until this legal reserve equals 20% of the Company's issued and outstanding aggregate par value per share capital. These legal reserves represent an appropriation of retained earnings that are not available for distribution and totaled \$10.8 million at March 31, 2014 (based on exchange rates at March 31, 2014).

Additionally, under Swiss corporate law, the Company is required to establish a reserve equal to the cost of repurchased treasury shares owned as of year-end. The reserve for treasury shares, which is not

Table of Contents**LOGITECH INTERNATIONAL S.A.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Note 13 Shareholders' Equity (Continued)**

available for distribution, totaled \$118.4 million at March 31, 2014 (based on exchange rates at March 31, 2014).

Share Repurchases

In March 2014, the Company's Board of Directors approved the 2014 share buyback program, which authorizes the Company to use up to \$250.0 million to purchase its own shares. The Company's share buyback program is expected to remain in effect for a period of three years. Shares may be repurchased from time to time on the open market, through block trades or otherwise. Purchases may be started or stopped at any time without prior notice depending on market conditions and other factors.

In September 2008, the Company's Board of Directors approved the September 2008 share buyback program for \$250.0 million. In November 2011, an amendment to the September 2008 share buyback program ("September 2008 amended") was approved by the Company's Board of Directors to enable future purchases of shares for cancellation. In August 2013, the September 2008 share buyback and September 2008 amended share buyback programs expired.

A summary of the approved share buyback programs are shown in the following table (in thousands, excluding transaction costs).

Share Buyback Program	Approved		Repurchased	
	Shares	Amounts	Shares	Amounts
March 2014	17,311	\$ 250,000		
September 2008 amended(1)	28,465	177,030	18,500	\$ 170,714

Table of Contents**LOGITECH INTERNATIONAL S.A.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Note 14 Segment Information**

The Company has two reporting segments, peripherals and video conferencing, based on product markets and internal organizational structure. The peripherals segment encompasses the design, manufacturing and marketing of peripherals for PCs, tablets and other digital platforms. The video conferencing segment encompasses the design, manufacturing and marketing of Lifesize video conferencing products, infrastructure and services for the enterprise, public sector and other business markets. The Company's reporting segments do not record revenue on sales between segments as such sales are not material.

Operating performance measures for the peripherals segment and the video conferencing segment are reported separately to Logitech's Chief Executive Officer ("CEO"), who is considered to be the Company's Chief Operating Decision Maker ("CODM"). The CEO periodically reviews information such as net sales and operating income (loss) for each operating segment to make business decisions. These operating performance measures do not include share-based compensation expense and amortization of intangible assets. Share-based compensation expense and amortization of intangible assets are presented in the following financial information by operating segment as "other income (expense)." Assets by operating segment are not presented since the Company does not present such data to the CODM.

Net sales and operating income (loss) for the Company's operating segments were as follows (in thousands):

	Years Ended March 31,		
	2014	2013 As Revised	2012 As Restated
Net sales:			
Peripherals	\$ 2,008,028	\$ 1,962,237	\$ 2,168,742
Video conferencing	120,685	137,040	147,461
	\$ 2,128,713	\$ 2,099,277	\$ 2,316,203

Edgar Filing: LOGITECH INTERNATIONAL SA - Form 10-K

Certain products within the retail product families presented in prior years have been reclassified to conform to the current year presentation.

Geographic net sales information in the table below is based on the customers' location. Long-lived assets, primarily fixed assets, are reported below based on the location of the asset.

Net sales to unaffiliated customers by geographic region for fiscal years 2014, 2013 and 2012 (based on the customers' location) were as follows (in thousands):

	Years Ended March 31,		
	2014	2013	2012
	As Revised		
Americas	\$ 859,893	\$ 808,618	\$ 879,076
EMEA	767,017	799,075	897,557
Asia Pacific	501,803	491,584	539,570
	\$ 2,128,713	\$ 2,099,277	\$ 2,316,203

Net sales are attributed to countries on the basis of the customers' locations. The United States represented 35%, 33% and 34% of net sales for the fiscal years 2014, 2013 and 2012, respectively. No other single country represented more than 10% of net sales during these periods. Revenues from net sales to

Table of Contents**LOGITECH INTERNATIONAL S.A.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Note 14 Segment Information (Continued)**

customers in Switzerland, the Company's home domicile, represented 2% of net sales for fiscal years 2014, 2013 and 2012. In fiscal years 2014, 2013 and 2012, one customer in the peripherals operating segment represented 14%, 11% and 14% of net sales, respectively. As of March 31, 2014 and 2013, one customer in the peripherals operating segment represented 14% of total accounts receivable.

Long-lived assets by geographic region were as follows (in thousands):

	March 31,	
	2014	2013
	As Revised	
Americas	\$ 45,166	\$ 45,518
EMEA	5,154	8,093
Asia Pacific	38,071	40,110
	\$ 88,391	\$ 93,721

Long-lived assets in the United States and China was \$44.9 million and \$31.9 million at March 31, 2014, respectively, and \$45.5 million and \$32.2 million at March 31, 2013, respectively. No other countries represented more than 10% of the Company's total consolidated long-lived assets at March 31, 2014 and 2013. Long-lived assets in Switzerland, the Company's home domicile, were \$1.6 million and \$3.6 million at March 31, 2014 and 2013.

Note 15 Restructuring

LOGITECH INTERNATIONAL S.A.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 15 Restructuring (Continued)

During the second quarter of fiscal year 2014, the Company implemented a restructuring plan solely affecting its video conferencing operating segment to align its organization to its strategic priorities of increasing focus on a tighter range of products, expanding cloud-based video conferencing services and improving profitability. Restructuring charges under this plan primarily consist of severance and other one-time termination benefits. During fiscal year 2014, restructuring charges under this plan included \$5.0 million in termination benefits and \$0.6 million in lease exit costs. The Company substantially completed this restructuring plan by March 31, 2014.

During the fourth quarter of fiscal year 2013, the Company implemented a restructuring plan to align its organization to its strategic priorities of increasing focus on mobility products, improving profitability in PC-related products and enhancing global operational efficiencies. As part of this restructuring plan, the Company reduced its worldwide non-direct labor workforce. Restructuring charges under this plan primarily consisted of severance and other one-time termination benefits. During fiscal year 2014, restructuring charges under this plan included \$1.5 million in termination benefits and \$6.7 million in lease exit costs, \$5.4 million of which pertains to the consolidation of the Company's Silicon Valley campus from two buildings down to one during the quarter ended March 31, 2014. During fiscal year 2013, restructuring charges under this plan included \$15.2 million in termination benefits. In addition, charges of \$0.9 million related to the discontinuance of certain product development efforts were included in cost of goods sold and a \$1.2 million charge from the re-measurement of its Swiss and Taiwan defined benefit pension plans caused by the number of plan participants affected by this restructuring, which was not included in the restructuring charges since it related to prior services. The Company substantially completed this restructuring plan by the fourth quarter of fiscal year 2014.

During the first quarter of fiscal year 2013, the Company implemented a restructuring plan to simplify its organization, better align its costs with its current business and to free up resources to pursue growth opportunities. A majority of the restructuring activity was completed during the first quarter of fiscal year 2013. As part of this restructuring plan, the Company reduced its worldwide non-direct labor workforce. During fiscal year 2013, restructuring charges under this plan included \$25.9 million in termination benefits, \$1.3 million in legal, consulting, and other costs as a result of the terminations, and \$1.3 million in lease exit costs associated with the closure of existing facilities. Termination benefits are calculated based on regional benefit practices and local statutory requirements. In addition, charges of \$3.0 million related to the discontinuance of certain product development efforts were included in cost of goods sold and a \$2.2 million charge from the re-measurement of its Swiss defined benefit pension plan caused by the number of plan participants affected by this restructuring, which was not included in the restructuring charges since it related to prior services. The Company substantially completed this restructuring plan by the fourth quarter of fiscal year 2013.

Termination benefits were calculated based on regional benefit practices and local statutory requirements. Lease exit costs primarily relate to costs associated with the closure of existing facilities. Other charges primarily consist of legal, consulting and other costs related to employee terminations.

LOGITECH INTERNATIONAL S.A.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 16 Subsequent events

Repurchase of ESPP Awards

The Company was not current with its periodic reports required to be filed with the SEC and was therefore unable to issue any shares under its Registration Statements on Form S-8 after July 31, 2014. Given the proximity of the unavailability of those registration statements and the end of the current ESPP offering period, also on July 31, 2014, the Compensation Committee authorized the termination of the current ESPP offering period and a one-time payment to each participant in an amount equal to the fifteen percent (15%) discount at which shares would otherwise have been repurchased pursuant to the current period of the ESPPs. This one-time payment was accounted for as a repurchase of equity awards that reduced additional paid-in capital, resulting in no additional compensation cost. Given the unavailability of the Company's Registration Statements on Form S-8, no new ESPP offering periods were initiated since July 31, 2014.

Dividend

On November 12, 2014, the Board approved, subject to approval by the Company's shareholders and other Swiss statutory requirements, a dividend of CHF 0.2625 per share.

LOGITECH INTERNATIONAL S.A.
VALUATION AND QUALIFYING ACCOUNTS
For the Fiscal Years Ended March 31, 2014, 2013 and 2012 (in thousands)

The Company's Schedule II includes valuation and qualifying accounts related to allowances for doubtful accounts, sales returns, cooperative marketing arrangements, customer incentive programs, and pricing programs, for direct customers and tax valuation allowances. The Company also has sales incentive programs for indirect customers with whom it does not have a direct sales and receivable relationship. These programs are recorded as accrued liabilities and are not considered valuation or qualifying accounts.
